PROPERTIES OF MEETINGS IN BALTIMORE YEARLY MEETINGS

An attempt to record details of every property ever owned or occupied for some years by (a) Baltimore Yearly Meeting of the Religious Society of Friends, Inc. or its predecessors or their quarterly meetings, (b) by any local Quaker meeting subordinate to any of them, or (c) by any affiliated entity, such as a Friends school or housing community, supported by any meeting within BYM. After organizing the list alphabetically by most-recent name, I have used Quaker-history sources to provide dates and general hierarchical framework of each congregation or Friends institution.

June 6, 2018 Revision

Prepared unofficially by:
Thomas C. Hill
815 Old Turner Mountain Lane
Charlottesville, VA  22901-6355
QuakerTomHill@gmail.com

CORRECTIONS SOLICITED: I circulate these lists in order to have folks correct my errors and omissions so the BYM and local trustees and affiliated institutions can use the information to carry out their duties. In the nature of the old deed books, I or a court clerk before me may have misread or mistyped some names for the grantee index, and one wishing to use this information in preparing instruments should check carefully in the recorded instruments the spelling of grantor and grantee names. Please send correcting information and details of helpful reference works to the address below. Deed references will provide the most help when they give the jurisdiction, Deed Book and pages where recorded, but, lacking that information, a copy with the approximate date and names of the grantor(s) and grantee(s) can point me to the recorded document.

Disclaimer: This list is based on historical research, relies on miscellaneous sources of varying reliabilities with different definitions of the same terms, and does not include legal advice. I am no longer admitted to practice law in any jurisdiction. The list attempts to provide all information a licensed attorney might need to prepare a new deed or mortgage for the subject property, but I may not understand each jurisdiction’s current requirements and practices.

THE COMPILER'S UNIQUE TERMS AND DEFINITIONS
"When I use a word," Humpty Dumpty said, in rather a scornful tone, "it means just what I choose it to mean -- neither more nor less."
"The question is," said Alice, "whether you can make words mean so many different things."
"The question is," said Humpty Dumpty, "which is to be master -- that's all."
Lewis Carroll, Through the Looking-Glass, Chapter Six

Tom Hill’s nomenclature and definitions used herein:
"Baltimore Yearly Meeting" or "BYM" includes all branches and predecessors of the current (2018) BYM, including (a) the Half Yearly Meeting held [alternately] at West River and "Tredhaven" (Third Haven) 1672-1763; (b) Maryland Half-Yearly Meeting 1763-1774; (c) Maryland Yearly Meeting 1774-1789; (d) "The Yearly Meeting of Friends held in Baltimore Town for the Western Shore of Maryland and Adjacent Areas of Pennsylvania and Virginia" after 1790 (commonly and later officially called "Baltimore Yearly Meeting"); (e) the Hicksite [after 1900 FGC] and (f) Orthodox [after 1902 FUM] branches of BYM after the separation of 1828/10; (g) the
PROPERTIES OF MEETINGS IN BALTIMORE YEARLY MEETINGS

Primitive branch of BYM (Orthodox) from the separation of 1854 until in 1868 it laid itself down and attached itself to the General Meeting of Men and Women Primitive Friends for Pennsylvania, New Jersey and Maryland; (h) Virginia Yearly Meeting, which opened 1696/10 or 1702/09 and laid itself down 1844/05/22, being then accepted by BYM (Orthodox) as Virginia Half-Yearly Meeting; and (i) the Consolidated BYM after 1968/01/02. This list does not include meetings outside BYM's geographical area set off with daughter yearly meetings such as Ohio Yearly Meeting in 1813 and Illinois Yearly Meeting in 1875. I originally meant to include in this list the several meetings on the Eastern Shore of Maryland transferred to Philadelphia YM in 1789 only for pre-1789 instruments or if some later transfer or division caused them to again report to any branch of BYM, but I later included some post-1789 deeds to complete the chain of title for property used or formally acquired while within Maryland YM.

"Established" refers to the date on which a superior (usually quarterly) meeting approved or authorized the subject meeting. Using this date allows one more easily to trace in the quarterly-meeting minutes the authority to acquire property for the meeting. The "Established" date refers to the first session of the meeting only for "voluntary" (i.e., not-formally-authorized) meetings or if no other information is available. Similarly, "Laid Down" refers to the date of action by a superior body unless the date of the closing session is the only date known. One may find more detail on the Definitions tab at what was Tom Hill's and is now Earlham's, website, www.QuakerMeetings.com, which tries to bring up to date the publication Monthly Meetings in North America: A Quaker Index, which I self-published 1992-1997.

In general this List incorporates alphabetically only the latest name for the highest level attained by a local congregation, such as monthly meeting. I tried to include earlier and informal names in alphabetical order as cross-references. Because some meeting names were used by meetings in two quarterly or yearly meetings, I add to some meeting names the County or Yearly or Quarterly Meeting of affiliation. Early Friends did not distinguish carefully among quarterly-, monthly- and preparative-meeting levels, and different historians use different names for the same congregations. In particular, because all the early monthly meetings in Virginia YM's Lower QM commonly met circular and used the name of each month's host in that month's business minutes, several congregations used their own names successively as the single body's monthly-meeting name. I have tried to deal with this overlap by describing several early VaYM congregations as "particular & monthly" meetings. Separately, in a few instances in BYM, where the members of one branch after the Great Separation continued for some months to describe their small remnant as a "monthly meeting", I may describe the congregation as a "preparative & monthly" meeting to reflect that most references and some deeds will call it only a preparative meeting and only the later parent monthly meeting had legal authority to transfer the property.

I intend to list "Superior Meetings" in layers of authority: that is, (a) voluntary meetings for worship, (b) established meeting for worship, (c) preparative meetings, (d) monthly meetings, (e) quarterly meetings, and (f) yearly meetings, and in chronological order in each layer.

"FBG" denotes a Friends Burying Ground. "MH" denotes a meetinghouse.

"Supporting Meeting" for a Friends school, continuing-care community or housing corporation is more a historical description than a legal relationship. The named meeting could have as much authority as hosting the school in its meetinghouse or appointing a majority of the corporation's trustees, or the meeting could have minuted that it will provide spiritual care. My listing does not imply any formal responsibility for the financial support of the Related Organization.

Note that I list dates in year/month/day order for easier computer manipulation and database searches. I try to number the months according to the current calendar. Thus, for
example, the month 05 refers to May even before 1752, while most Quakers and other British and Americans in those years would have referred to May as "Third Month" under the "Old Style" or "Old Calendar". Of course, I may have erred in transferring some of the Old Style dates from the early deeds and court orders to this list.

In colonial Virginia and on a few occasions in colonial Maryland, in order to convey the fee interest for dissenting-church properties, conveyance lawyers developed a practice of successive "leases" and "releases", tracking practice under British law. Wikipedia explains how the device arose under British statutes to avoid public restrictions and mentions its use in various of the States, including Virginia. This use of back-to-back instruments was often copied when a meeting appointed successor trustees even after the legal need for the device disappeared, and it continued in BYM's current States for several years after the American Revolution.

By the 1800s, Baltimore, Maryland conveyance lawyers had adopted a practice of using 99-year leases renewable in perpetuity to convey essentially the entire fee interest in a property. This may have allowed more-favorable property-tax treatment of a property while leaving Friends' nominal ownership intact, and it provided a steady, though not inflation-protected, source of income to the "lessor." Today, most States tax such "perpetual leases" the same as the transfer of the fee-simple interest, and in light of higher levels of inflation perpetual leases have fallen out of use.

When I have obtained a paper or PDF copy of an instrument, I underline the number of that document in the list of Deeds, etc. or list of Organization documents under that Location. If I or someone else has deposited or set aside for deposit a copy or PDF in the BYM Trustees' records, a slash follows the underlined number. If an electronic copy has been deposited in the BYM records and provided to the BYM Archives deposited at the Quaker Collection at Haverford College and at the Friends Historical Library at Swarthmore College, I have made the underlining and slash bold. (Folks should remember that when I copy PDFs from on-line databases or scan my paper copies, I delete the metadata and almost always crop the PDF to eliminate dark borders, my handwritten marginal notations or other "dirt" on the image that arose from the microfilming or digitizing. For Maryland deeds, this most often removed the red legend that www.MDLandRec.net inserts on a deed's printed image. For County-Recorder sites like Lancaster County, Pennsylvania or the District of Columbia, this cropping sometimes removed part of the "UnOfficial Copy" or "DC Archives" overlay on the PDF image. I chose readability and preserving court-clerks' notations over maintaining format. For many deeds and orders, my cropping distorted the page layout, so some pages will appear quite different from the original land records. If you want the legend or other indicia of authenticity, just go back to the MDLandRec or other website or order a certified paper copy from the appropriate court clerk.

Some Notes on Sources:
Unless otherwise stated, this report references the land records kept by the City or County [which I abbreviate "Cty." throughout this list] Recorder or Court Clerk for the city, county or counties noted under "Location." This list describes the filing location for real-property instruments with (i) a deed book [in Maryland and the District of Columbia, "Liber", reported in Maryland as the filing Court Clerk's initials plus a volume letter and/or number], (ii) page ("folio") numbers, and (iii) in recent years a unique county Instrument number. Because I understand only recorded deeds have the power to convey title against all persons, I list here the recorded instruments I have found. This approach can leave gaps when a jurisdiction has suffered a fire or other destruction of recorded instruments. In a few cases I have found the originals of deeds in Quaker
PROPERTIES OF MEETINGS IN BALTIMORE YEARLY MEETINGS

records, and for these few deeds I note where I found a copy or an original as well as or in clarification of the recorded instruments.

Unless otherwise stated, the organizational filings (such as incorporation papers) are those kept by the Secretary of State or Corporations for the state or District noted under "Location" and available for any member of the public to copy. However, city or county court clerks hold the pre- or extra-incorporation organizational filings like trustee appointments, and even today Virginia lawyers often choose to petition the local Circuit Court for authority to appoint trustees and to convey or mortgage meeting property rather than incorporate the meeting.

I have read many of the "References" listed at the end of almost all paragraphs, and I found the other citations in sources I respect. Where I encountered different definitions in different sources, such as from William Wade Hinshaw, *Encyclopedia of American Quaker Genealogy*, or Thomas Chalkley Matlack, *Brief Historical Sketches concerning Friends' Meetings of the Past and Present with Special Reference to Philadelphia Yearly Meeting* (1938, with 1939 Addenda), I rendered the information to match my definitions here.

THE MEETINGS OR CORPORATIONS AND THEIR PROPERTIES

1. MEETING: Abingdon Monthly

SUPERIOR MEETINGS: Baltimore (Consolidated) Y.M. until 2017/03/18
Piedmont Friends Y.M. after 2017/03/11
