

Application for Funding of Student Travel

Sigma Xi Swarthmore College Chapter

Reimbursements of up to \$500 per student per year are available (though awards are rationed to distribute funds across all departments). You are eligible if you are attending a meeting where you are presenting research results or if you are traveling to take part in a research collaboration, obtain data, or otherwise do research during the school year and you have already applied for travel money from at least one other source. We will also consider applications for conference funding even if you are neither presenting nor actively taking part in research, though it is unlikely that you will receive the full \$500 in that event. Applicants must send a *signed hard copy* to Prof. Cheryl Grood (cgrood1@swarthmore.edu) in the Department of Mathematics and Statistics.
