

INTEROFFICE MEMORANDUM

Lisa Staiano-Coico
Provost and Senior Vice President for Academic Affairs

Phone: (215) 204-4775
Fax: (215) 204-5816
E-mail: provost@temple.edu

To: Instructors Who Taught Courses in First Summer Session 2008
From: Lisa Staiano-Coico
Subject: Course and Teaching Evaluations
Date: July 29, 2008

Included in this report are the results from the student evaluations for your course in First Summer 2008. The results are based on those student evaluations that were returned to your college or departmental office by the student volunteer from your course. This message contains a summary of the rating data and a listing of all the comments made by the students in your course to the open-ended questions on the evaluation form. A brief explanation of how to interpret the data is presented below.

Data from a hypothetical course section for Question 1 within the “General Information About the Instructor” area:

		Strongly Agree = 5	Agree = 4	Neutral = 3	Disagree = 2	Strongly Disagree = 1	Not Applicable or Did Not Answer	Mean	SD	Pct'l Rank
ENROLLMENT:	14									
RETURNED FORMS:	12									
1. The instructor clearly explained the educational objectives of this course.	n = 12	(7)	(4)	(1)	(0)	(0)	(0)			
	Section	58%	33%	8%	0%	0%		4.50	0.65	
	Department	41%	43%	11%	4%	2%		4.17	0.89	74
	College	44%	42%	9%	3%	1%		4.25	0.85	68
	Level	46%	40%	9%	3%	2%		4.24	0.89	59
	University	45%	41%	9%	4%	2%		4.23	0.89	66

The data presented above indicate that there were 14 students enrolled in the course, but that only 12 returned the evaluation form. The first line in the table reports the number of students who used each of the possible ratings. Thus, of the 12 students who completed the rating form, 7 indicated that they “Strongly Agree” with the statement that “The instructor

clearly explained the educational objectives of this course”, four indicated that they “Agree” with this statement, one student reported “Neutral”, and no student indicated disagreement with the statement. In addition, no student checked “Not Applicable” or did not answer the question.

The second line of the table (labeled “Section”) presents these same data converted into percentages. Since 7 out of the 12 students used the rating of “Strongly Agree”, this is 58% of the ratings. The 4 students who indicated that they “Agree” with the statement represent 33% of the ratings, and so on. Using a value of 5 for “Strongly Agree,” 4 for “Agree,” 3 for “Neutral” and so on, the mean (or average) for this section is 4.50. The column labeled “SD” (for Standard Deviation) is an indication of the dispersion of the ratings. Since most of the students rated the course fairly highly, the dispersion of these ratings is relatively small.

The final four lines of the table report the data for different comparison groups. These groups are:

Third line (Department):	All of the courses in the same department as the hypothetical course
Fourth line (College):	All of the courses in the same college as the hypothetical course
Fifth line (Level):	All of the courses, across the University, at the same level (lower division undergraduate, upper division undergraduate, or graduate/professional) as the hypothetical course
Sixth line (University):	All of the courses across the entire University

The final number in the table at the end of lines three through six is a percentile rank that is provided as one way to compare an instructor’s ratings to these different groups. For example, on the bottom line, the table indicates that for Question 1, the average score for all University courses rated in the sample semester was 4.23. When the average Question 1 scores for all University courses are listed from top to bottom, the hypothetical course’s average of 4.50 is at the 66th percentile. That is, 66% of all the courses had average scores lower than the hypothetical’s on Question 1. These data are reported for all 15 questions on the evaluation form.

The additional data that are reported (page 1 of your report) were derived from the questions at the top of the student evaluation form. These questions ask the students to indicate what their interest was in the course prior to taking it, what grade they expect to get, whether the course was required or elected, and the number of hours per week spent preparing for the course. As before, comparison data are provided.

Please be advised that data are not reported for any course in which the enrollment is less than eight. This decision was made to ensure that anonymity is maintained for students whose identity might be determined in courses with limited enrollment.

If you have suggestions about the way the form is structured or about the way the data are reported, please send your suggestions to provost@temple.edu. Thank you for your participation.

Additional Items Report

Below is an analysis of responses in the "Additional Items" section of the student sheets.

This section was not scored because either additional (optional) items were not used or no additional items were answered.

Part 6. Comments

Please comment on the quality of the course and instruction.

1. What aspects of the course or the instructor's approach contributed most to your learning?

Open to doing alot of examples
and examinig pro blem statagy

2. What aspects of the course or the instructor's approach would you change to improve the learning that takes place in the course?

3. Please comment on the instructor's sensitivity to the diversity (for example, political viewpoint, race, ethnicity, national origin, gender, sexual identity and disability) of the students in the class.

Part 6. Comments

Please comment on the quality of the course and instruction.

1. What aspects of the course or the instructor's approach contributed most to your learning?

The instructor's ability to explain different concepts in this course was great. He wanted to make sure that everyone understood when he was teaching. He is a really good teacher for Calculus.

2. What aspects of the course or the instructor's approach would you change to improve the learning that takes place in the course?

3. Please comment on the instructor's sensitivity to the diversity (for example, political viewpoint, race, ethnicity, national origin, gender, sexual identity and disability) of the students in the class.

Part 6. Comments

Please comment on the quality of the course and instruction.

1. What aspects of the course or the instructor's approach contributed most to your learning?

We were taught the topics in class and able to apply them in the homework.

2. What aspects of the course or the instructor's approach would you change to improve the learning that takes place in the course?

He taught everything clearly, no change needed

3. Please comment on the instructor's sensitivity to the diversity (for example, political viewpoint, race, ethnicity, national origin, gender, sexual identity and disability) of the students in the class.

N/A

Part 6. Comments

Please comment on the quality of the course and instruction.

1. What aspects of the course or the instructor's approach contributed most to your learning?

He explained each section clearly and used a variety of examples

2. What aspects of the course or the instructor's approach would you change to improve the learning that takes place in the course?

3. Please comment on the instructor's sensitivity to the diversity (for example, political viewpoint, race, ethnicity, national origin, gender, sexual identity and disability) of the students in the class.

Part 6. Comments

Please comment on the quality of the course and instruction.

1. What aspects of the course or the instructor's approach contributed most to your learning?

- focuses on the material that appears on the test.
- extremely well explains material
- very professional
- very clear explanations
- One of the best teachers!!!

2. What aspects of the course or the instructor's approach would you change to improve the learning that takes place in the course?

3. Please comment on the instructor's sensitivity to the diversity (for example, political viewpoint, race, ethnicity, national origin, gender, sexual identity and disability) of the students in the class.

Part 6. Comments

Please comment on the quality of the course and instruction.

1. What aspects of the course or the instructor's approach contributed most to your learning?

Mike is very approachable & helpful.

2. What aspects of the course or the instructor's approach would you change to improve the learning that takes place in the course?

for a summer course, maybe not
compact so many sections into
the 6 weeks.

3. Please comment on the instructor's sensitivity to the diversity (for example, political viewpoint, race, ethnicity, national origin, gender, sexual identity and disability) of the students in the class.

He's Great!

Part 6. Comments

Please comment on the quality of the course and instruction.

1. What aspects of the course or the instructor's approach contributed most to your learning?

Dr Johnson explains calculus in a way that makes sense. He isn't arrogant like my former professors. He looks at the class & knows our names. ALWAYS started class with homework which no other math prof. I've had has done. This is one professor here that actually deserves tenure.

2. What aspects of the course or the instructor's approach would you change to improve the learning that takes place in the course?

stop calling the head of the department calculus Gods.

3. Please comment on the instructor's sensitivity to the diversity (for example, political-viewpoint, race, ethnicity, national origin, gender, sexual identity and disability) of the students in the class.

Dr. Johnson is a very sensitive man.

Part 6. Comments

Please comment on the quality of the course and instruction.

1. What aspects of the course or the instructor's approach contributed most to your learning?

The instructor explained everything thoroughly and clearly. He was always open for questions and was very accessible outside of class.

2. What aspects of the course or the instructor's approach would you change to improve the learning that takes place in the course?

3. Please comment on the instructor's sensitivity to the diversity (for example, political viewpoint, race, ethnicity, national origin, gender, sexual identity and disability) of the students in the class.

Part 6. Comments

Please comment on the quality of the course and instruction.

1. What aspects of the course or the instructor's approach contributed most to your learning?

explaining everything clearly

2. What aspects of the course or the instructor's approach would you change to improve the learning that takes place in the course?

none

3. Please comment on the instructor's sensitivity to the diversity (for example, political viewpoint, race, ethnicity, national origin, gender, sexual identity and disability) of the students in the class.

n/a
