

**Additional Tables for:  
THE GEOGRAPHY OF HATE**

Table 1-A: Presence of Different Hate Groups in 316 Counties with such Groups

	KKK	Neo-Nazi	Skinhead	Identity	Black separatist	Other
Ku Klux Klan	X	-*	-*	-*	-	-*
Neo-Nazi		X	-	-*	-	-*
Skinhead (intolerant)			X	-	-	-
Identity				X	-	-*
Black separatist					X	-
Other						X

Note: This table shows the sign of the calculated coefficient of regressions where the presence (=1) or absence (=0) of each type of hate group is indicated by a dummy variable in an OLS regression of the following sort:

$$\text{HateGroup1} = a + b \text{HateGroup2}$$

Weighting the regressions by the population of the county gave quite similar results.

Table 2-A: Descriptive Statistics of the Location of Hate Groups

	Number of counties	KKK	Neo-Nazi	Skinhead	Identity	Black separatist	Other

Just former CSA	39	4	3	1	4	1	3

Note: The sources of data are listed in the Statistical Appendix. Not all of the hate groups listed by the SPLC are included in this table because of difficulties in identifying the county of their location. CSA

stands for Confederate States of America. The table lists the number of hate groups, not the number of counties with hate groups.
