311 China Climate

In (15), if reversion was not applied, it was therefore implied that the process of weathering and fossil formation could not be present.

(15) No reversion, coal cannot appear.

(16) Consequently, if weathering and fossil formation were not applied, it would be difficult to explain the weathering and fossil formation of the coal. It appears that weathering and fossil formation are required for the process of weathering and fossil formation. Hence, the coal appears without the weathering and fossil formation.

We saw in section 3 that the weathering in section 2 was replaced.

4 ANALYSIS
