

August 9, 1847  
Elihu Burritt

ALS [1] p., 1 sheet

As there is no one square  
inch of space or matter,  
in the universe, to which  
the law of gravity is not  
as necessary as to any other  
square inch of either; so there  
is no portion of the moral  
universe to which the  
law of love is not as necessary  
as to any other portion of it.

Elihu Burritt
