My Dear Sir,

I have now fixed the programme of my tour to Buffalo. I can spend only 8 days, therefore I am obliged to make my own appointments. If alive and well I will be in Oswego on Tuesday, the 26 inst. And will deliver a lecture upon "The Incongruities of the Society of Nations" before your Lyceum, if agreeable and convenient to you; but if that evening would not be convenient for your Lyceum, will you please say to some friends of Peace in Oswego, that I will address the people of the city on the subject of Peace on that evening, if they will make preparations for me. I should be glad if they would invite the Friends of the cause in neighboring towns to come in, to make a species of Convention of it, for the election of a delegate to the great Peace Congress at Frankfort, Germany next year.

Will you please write me without delay to the Delevan House, Albany, where I expect to be on Thursday night.

Truly yours,

Elihu Burritt
