Eliza Bennett,

My dear friend,

I have a friend
in Boston Mr George W Putnam
who wishes to get an invention pat-
ented in England. To this end
he wishes that one of justifica-
tion.

Mr Putnam is a respectable
man. You may recollect some
thing of him. He has written
much for the Rep, both pro &
party. He was one of our old
Anti-Slavery Lecturers. He was
private Secretary of George Thompson
when I was in this country many
years ago & also of Charles Rich-
ardson in his former visit to America.

We are all well & give in love
by your friend
Elizabeth
