PROGRAM FEATURES

AN EXCEPTIONAL OPPORTUNITY

- To study in the cultural context of an emerging democracy in Central Europe
- To take courses in English in a non-English speaking country, while still gaining significant exposure to the language and culture in a vibrant and historical medieval city where college students comprise one-fifth of the 750,000 inhabitants
- To travel throughout the region as part of the course "Environmental Science and Policy in Central and Eastern Europe," which includes field trips throughout Poland and a one-week environmental tour of the Czech Republic

TIME & LOCATION

- Spring semester
- Based in Krakow, the medieval capital of Poland
- Begins early February and ends mid- June
- Includes an orientation program with introductory Polish language instruction and lectures on Polish culture and history
- Close proximity to Prague, Vienna, Budapest, Berlin and the Tatra range of the Carpathian Mountains

COURSE SUBJECT AREAS & AFFILIATED INSTITUTIONS

- ***Sustainable Environmental Technology: Environmental, Energy, and Civil Engineering plus Architecture*** at Cracow University of Technology (Politechnika Krakowska - Host Institution)
