(Food for India represented a major effort of C. Lloyd Bailey and others of the FCNL Staff in 1951. The Government of India asked that emergency relief be given in November 1950, the State Department got around to a formal request in February, the Congress haggled over terms until June. This is another shameful example of dilatory tactics of Congress in dealing with human needs. E. Raymond Wilson, November 6, 1969.)
