

2014 ASEE MIDDLE-ATLANTIC CONFERENCE

WORKSHOP: NOVEMBER 14, 2:00 – 5:00 PM

**PROFESSOR SUZANNE KEILSON
LOYOLA UNIVERSITY MARYLAND**

Diversity

ABSTRACT

We all bring multiple and overlapping identities to our work, life, and experiences. Why should we care about this? What impact does it have on us, society, and the world at large? For the designated Year of Diversity by ASEE, come and explore why this matters to STEM professions and engineering education and the kinds of products and technology we produce.

BIOGRAPHICAL SKETCH

After a decade in administration as associate dean of Loyola College, Dr. Suzanne Keilson will be returning to the classroom and research in the 2015/2016 academic year. She has been involved with ASEE since 1997 and is currently Zone I chair. ASEE is highlighting issues in diversity this year and she welcomes an open dialogue. Her interests include materials science and education, biomedical signal processing, and STEM pedagogy and outreach.
