

Molecular Endocrinology Lab

RESEARCH SPECIALIST

UNIVERSITY OF PENNSYLVANIA, LAZAR LAB

A Research Specialist position is available this spring in a leading Molecular Endocrinology laboratory at the Institute for Diabetes, Obesity and Metabolism at the University of Pennsylvania School of Medicine in Philadelphia. We are looking for a bright, enthusiastic, highly motivated person interested in being part of a hard-working and friendly group studying the molecular mechanisms of signal transduction and hormone action, in models of obesity and diabetes.

This position would be ideal for a recent college graduate who would like to get experience in state-of-the-art biomedical research prior to applying to graduate or medical school. A commitment of at least two years is required.

If any graduating students are interested in this position, please have them reply via email with their CV and the names of three references to **Vesselina Panteva**, Email: panteva@pennmedicine.upenn.edu.

For more information about the lab please visit <http://www.med.upenn.edu/lazarlab/>.

Sincerely,

Mitchell A. Lazar, M.D., Ph.D.

Professor of Medicine and Genetics

Chief, Division of Endocrinology, Diabetes, and Metabolism

Director, Institute for Diabetes, Obesity, and Metabolism

Research Specialist Position

University of Pennsylvania
Perelman School of Medicine
