

What: substitute biology teacher, \$225 per diem pre-tax. Curriculum and materials will be provided

When: beginning of February to June 14

Where: [WB Saul High School of Agriculture](#), School District of Philadelphia

Who: must have bachelor's degree. Experience in education is a plus, but not required; special education co-teacher will be present

How: there is not an official job posting as the school district does not hire substitutes for specific positions. Rather, a candidate would apply and be hired through [ESS](#), our substitute service provider. I would then assign my absences to the candidate.

Interested candidates should reach out to me, Amit Schwalb, at aschwalb@gmail.com.
