| — PHYS 111: Analytical Dynamics | — PHYS 111: Analytical Dynamics | — PHYS 111: Analytical Dynamics |
| — PHYS 112: Electrodynamics | — PHYS 112: Electrodynamics | — PHYS 112: Electrodynamics |
| — PHYS 113: Quantum Theory | — PHYS 113: Quantum Theory | — PHYS 113: Quantum Theory |
| — PHYS 114: Statistical Physics | — PHYS 114: Statistical Physics | — PHYS 114: Statistical Physics |

**Total: 8 credits**

**Total: 1 credit**

**Topic: Physics pedagogy**

---

- Serve as a lab assistant or science associate in PHYS 003, and 004 or 004L for at least one semester.
- EDUC 075 Introduction to Science Pedagogy

**Total: 4 credits**

- **Mathematical Methods of Physics**
  - MATH 015: Elementary Single-Variable Calculus
  - MATH 025: Further Topics in Single-Variable Calculus
  - MATH 027: Linear Algebra
  - MATH 030: Basic Several Variable Calculus
  - MATH 033: Basic Several Variable Calculus
- Serve as a lab assistant or science associate in PHYS 003, and 004 or 004L for at least one semester.
- EDUC 075 Introduction to Science Pedagogy

**Total: 7 credits**

- **ASTR seminars**
  - ASTR 016: Modern Astrophysics
  - 2 ASTR seminars
  - MATH 015: Elementary Single-Variable Calculus
  - MATH 025: Further Topics in Single-Variable Calculus
  - MATH 027: Linear Algebra
  - MATH 033: Basic Several Variable Calculus
- Serve as a lab assistant or science associate in PHYS 003, and 004 or 004L for at least one semester.
- EDUC 075 Introduction to Science Pedagogy

---

- CHEM 010: General Chemistry
- BIOL 001: Cellular and Molecular Biology
  - or BIOL 002: Organismal and Population Biology
- Complete research with a faculty member

**Total: 9.5 credits in Educational Studies**

Refer to description of general Educational Studies Secondary Certification Requirements.

---

- CHEM 010: General Chemistry
- BIOL 001: Cellular and Molecular Biology
  - or BIOL 002: Organismal and Population Biology
- Complete research with a faculty member

**Total: 9.5 credits in Educational Studies**

Refer to description of general Educational Studies Secondary Certification Requirements.

---

**Total: 9 credits**

- **PHYS 005: Spacetime, Quanta, and Cosmology**
- **PHYS 007: Introductory Mechanics**
- **PHYS 008: Electricity, Magnetism, and Waves** (May be substituted with PHYS 003 or 004 with permission)
- **PHYS 014: Introductory Quantum Mechanics**
- **PHYS 050: Mathematical Methods of Physics** (May be substituted with MATH 030 or MATH 081)
- **PHYS 063: Procedures in Experimental Physics**
- **PHYS 081: Advanced Lab I (0.5 credit)**
- **PHYS 082: Advanced Lab II (0.5 credit)**
- **PHYS 111: Analytical Dynamics**
- **PHYS 112: Electrodynamics**
- **PHYS 113: Quantum Theory**
- **PHYS 114: Statistical Physics**
- **EDUC 075 Introduction to Science Pedagogy**

**Total: 9 credits**

- **ASTR seminars**
  - ASTR 016: Modern Astrophysics
  - 2 ASTR seminars
  - MATH 015: Elementary Single-Variable Calculus
  - MATH 025: Further Topics in Single-Variable Calculus
  - MATH 027: Linear Algebra
  - MATH 033: Basic Several Variable Calculus
- Serve as a lab assistant or science associate in PHYS 003, and 004 or 004L for at least one semester.
- EDUC 075 Introduction to Science Pedagogy

**Total: 9 credits**

Refer to description of general Educational Studies Secondary Certification Requirements.
Additional Notes:

1. This chart lists only the Physics Department’s requirements for special majors and/or secondary certification. The required Educational Studies courses are described elsewhere.
2. Occasionally departments have special offerings that may fulfill the required content. Please meet with your advisor or department chair to discuss such opportunities.
3. The Department of Educational Studies works closely with each individual student to determine a semester-by-semester plan.
4. Please see the Chair of the Department of Educational Studies to design a plan that includes Honors.

Mission Statement for Secondary Physics Certification Program

The Secondary Physics certification program engages students in the investigation of educational theory, policy, research, and practice. Candidates for certification develop their pedagogical content knowledge in physics as well as their general knowledge of the subject. The program encourages undergraduates to think critically and creatively about the processes of teaching and adolescent learning and about the place of education in society. The program is committed to preparing students to employ evidence-based practice. Instructional practice, including the use of technology and assessments, are designed to enable preservice teachers to meet the needs of all students, including those with learning differences, and with consideration for racial, ethnic, linguistic and/or social economic diversity.
