

Kirk Ellison
E90 Topic Selection

I have not yet chosen a specific topic, but expect that my eventual topic will involve structural engineering and perhaps some geotechnical engineering as well. I have scheduled a meeting with structural engineer, Dan Honig, for Saturday, October 2nd at the suggestion of Professor Siddiqui. Mr. Honig is confident that he will be able to help me find a suitable E90 project in the structural field. He once helped former Swattie, Jennifer Slaw to find a project that involved designing an addition to an existing elementary school. I would be interested in a similar sort of project. Hopefully Professor Siddiqui will be willing to advise me.
