NOTES:

"Completed applications" are those for which all the requirements for consideration (including payment or waiver of fees) have been fulfilled. This includes applications that were subsequently withdrawn by either the applicant or the College.

Students who *defer* their admission for a year are counted among applicants and admitted in the year that they applied, and as matriculants in the year that they enrolled.

Percentages for high school class standing are based on the number of students providing rank.

*Enrollment impacted by COVID
