2022-23	1,548	96%
2023-24	1,543	95%
2024-25	1,511	94%

NOTES: Study Abroad students and students studying away in Domestic Programs are *excluded*. Additionally, other non-degree seeking students (such as International or other Visiting students) are also *excluded* from this table.

The number of students living on campus can fluctuate due to class size, demand, and the number of students studying abroad.

\* Enrollments and residential living impacted by COVID. First-year students, Sophomores, incoming Transfer students, and Resident Assistants had the option to return to campus Fall 2020. Additionally, other students whose ability to learn remotely was severely challenged by various personal circumstances could apply to return to campus.
