</table>

**NOTES:**
These figures include students studying abroad.
The "Annual Unduplicated" figure counts any student who was enrolled in either the fall or the spring semester.
"Full-Time Equivalent Students" is computed by summing the credits taken by part-time students, and dividing that sum by the full-time load (4 course-credits per semester). This figure is then added to the number of full-time students enrolled.

*Enrollment and enrollment patterns impacted by COVID*
