* This category reflects "\$80,001 and above" for years prior to 2007-08.

** Beginning in 2008-09 all Swarthmore financial aid awards are loan-free.

*** Race/Ethnicity categories are based on an internal coding which is different from what is currently federally reported; this coding is consistent with federal reporting prior to 2010.

NOTES:

These figures reflect October of each year.

The "average total aid award" includes self-help (standard loan, when it existed, and standard campus job opportunities), and scholarship and grants.

Family income data include the income of noncustodial parents.

Data for aided international students are included throughout this table, with the exception of the family income bands. They are included in the average.
