SAT and ACT Policies

C8. Entrance exams

A. Does your institution make use of SAT I, SAT II, or ACT scores in admission decisions for first-time, first-year, degree-seeking applicants? Yes No **NOTE that responses on the table below reflect requirements for applications received in Fall 2004 (for Fall 2005 entry). See comment about new requirements for Fall 2005 (for Fall 2006 entry) immediately following the table.**

If yes, place check marks in the appropriate boxes below to reflect your institution's policies for use in admission.

| | ADMISSION | | | | |
|-------------------------------|-------------------------------------|--------------------------|--------------------------|----------------------------|--------------------------|
| | Require | Recommend | Require for some | Considered if submitted | Not used |

| SAT II | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

NOTE: Because of the change in the SAT format planned for 2005, applicants sending materials in Fall 2005 (i.e. for Fall 2006 entry) will be required to take either of the following standardized tests: 1) the revised SAT I which will include a mandatory writing component and any two SAT II or 2) the ACT with writing. Although the ACT writing portion will be optional we will require it of those seeking admission to Swarthmore. What is worthy of note since it is a significant departure from previous policy is the fact that the ACT (with writing) will be accepted in lieu of both the SAT I and SAT II. Given the above, we will no longer require the writing SAT II. Prospective engineers regardless of whether they opt for the SAT or ACT will be encouraged to take the Math 2C SATII.

In addition, does your institution use applicants' test scores for placement or counseling?

Placement Yes No
Counseling Yes No

B: Does your institution use the SAT I or II or the ACT for **placement only**? If so, please mark the appropriate boxes below:

C. Latest date by which SAT I or ACT scores must be received for fall-term admission Jan 1

Latest date by which SAT II scores must be received for fall-term admission Jan 1

D. If necessary, use this space to clarify your test policies (e.g., if tests are recommended for some students, or if tests are not required of some students): Applicants are required to take 3 SAT-II: Subject Tests, one of which must be the writing or composition test. Applicants considering a major in Engineering must also take an SAT-II in mathematics

I. INSTRUCTIONAL FACULTY AND CLASS SIZE

I-1. Please report number of instructional faculty members in each category for Fall 2003.

The following definition of instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey. Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Institutions are asked to EXCLUDE:

- (a) instructional faculty in preclinical and clinical medicine
- (b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status,
- (c) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like
- (d) faculty on leave without pay, and
- (e) replacement faculty for faculty on sabbatical leave.

Full-time: faculty employed on a full-time basis

Part-time: faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Also includes adjuncts and part-time instructors.

Minority faculty: includes faculty who designate themselves as black, non-Hispanic; American Indian or Alaskan native; Asian or Pacific Islander; or Hispanic.

Doctorate: includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Doctor of Philosophy degree in any field such as agronomy, food technology, education, engineering, public administration, ophthalmology, or radiology.

First-professional: includes the fields of dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), law (JD) and theological professions (MDiv, MHL).

Terminal degree: the highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts).

| | Full-time | Part-time | Total |
|---|------------------|------------------|--------------|
| a.) Total number of instructional faculty | 168* | 35 | 203 |
| b.) Total number who are members of minority groups | 23 | 3 | 26 |
| c.) Total number who are women | 65 | 20 | 85 |
| d.) Total number who are men | 103 | 15 | 118 |
| e.) Total number who are nonresident aliens (international) | 5 | 1 | 6 |
| f.) Total number with doctorate, first professional, or other terminal degree | 167 | 26 | 193 |
| g.) Total number whose highest degree is a master's but not a terminal master's | 1 | 5 | 6 |
| h.) Total number whose highest degree is a bachelor's | 0 | 3 | 3 |
| i.) Total number whose highest degree is unknown or other (Note: Items f, g, h, and I must sum up to item a.) | 0 | 1 | 1 |

*** NOTE: These figures exclude 6 faculty members in Physical Education/Athletics.**

I-2. Student to Faculty Ratio

Report the Fall 2003 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students. Do not count undergraduate or graduate student teaching assistants as faculty.

Fall 2003 Student to Faculty ratio: 8 to 1. ***** NOTE: This ratio excludes students and faculty engaged in study abroad.*****

Swarthmore College
Common Data Set 2003-2004

I-3. Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2003 term.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of *class sections* and *class subsections* offered in Fall 2003. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the “100+” column in the class section column and 40 times under the “20-29” column of the class subsections table.

◆ Items preceded by an asterisk (*) represent definitions agreed to among publishers which do not appear on the CDS document but may be present on individual publishers' surveys.

Accelerated program: Completion of a college program of study in fewer than the usual number of years, most often by attending summer sessions and carrying extra courses during the regular academic term.

Admitted student: Applicant who is offered admission to a degree-granting program at your institution.

***Adult student services:** Admission assistance, support, orientation, and other services expressly for adults who have started college for the first time, or who are re-entering after a lapse of a few years.

Financial aid definitions

Financial aid applicant: Any applicant who submits **any one of** the institutionally required financial aid applications/forms, such as the FAFSA.

Indebtedness: Aggregate dollar amount borrowed through any loan programs (federal, state, subsidized, unsubsidized, private, etc.; excluding parent loans) while the student was enrolled at an institution. Student loans co-signed by a parent are assumed to be the responsibility of the student and **should** be included.

Institutional and external funds: Endowment, alumni, or external monies for which the institution determines the recipient or the dollar amount awarded.

Financial need: As determined by your institution using the federal methodology and/or your institution's own standards.

Need-based aid: College-funded or college-administered award from institutional, state, federal, or other sources for which a student must have financial need to qualify. This includes both institutional and noninstitutional student aid (grants, jobs, and loans).

Need-based gift aid: Scholarships and grants from institutional, state, federal, or other sources for which a student must have financial need to qualify.

Need-based self-help aid: Loans and jobs from institutional, state, federal, or other sources for which a student must demonstrate financial need to qualify.

Non-need-based gift aid: Scholarships and grants, gifts, or merit-based aid from institutional, state, federal, or other sources (including unrestricted funds or gifts and endowment income) awarded solely on the basis of academic achievement, merit, or any other non-need-based reason. When reporting questions H1 and H2, non-need-based aid that is used to meet need should be counted as need-based aid.

Note: Suggested order of precedence for counting non-need money as need-based:

- Non-need institutional grants
- Non-need tuition waivers
- Non-need athletic awards
- Non-need federal grants
- Non-need state grants
- Non-need outside grants
- Non-need student loans
- Non-need parent loans
- Non-need work

Non-need-based self-help aid: Loans and jobs from institutional, state, or other sources for which a student need not demonstrate financial need to qualify.

Scholarships/grants from external sources: Monies received from outside (private) sources that the student brings with them (e.g., Kiwanis, National Merit scholarships). The institution may process paperwork to receive the dollars, but it has no role in determining the recipient or the dollar amount awarded.

Work study and employment: Federal and state work study aid, and any employment packaged by your institution in financial aid awards.
