

Kickoff Lecture and Q&A

Emma Benn '04

Associate Professor

Icahn School of Medicine at Mount Sinai

#DiverseStatisticiansMatter

In this talk, I intend to share my non-linear journey to biostatistics and how my experience as an African-American, female, and lesbian biostatistician has shaped my scientific identity, sense of belonging, research interests, and my commitment to transforming the demographic landscape and opportunity structure of statistics, data science, the mathematical sciences, and STEM more broadly.
