Swarthmore College does not discriminate in education or employment on the basis of sex, race, color, age, religion, national origin, marital status, sexual orientation, gender identity or expression, veteran status, medical condition, pregnancy, disability, or any other legally protected status. This policy is consistent with relevant governmental statutes and regulations, including those pursuant to Title IX of the Federal Education Amendments of 1972 and Section 504 of the Federal Rehabilitation Act of 1973.

The Swarthmore College Department of Public Safety is responsible for the overall security of Swarthmore's campus and is the first contact and first responder for all campus emergencies. Its charge is to protect persons and property, preserve the peace, deter crime, apprehend criminal offenders, recover lost and stolen property, perform services as required, enforce appropriate College regulations, and maintain a sense of community security and confidence in the department. A copy of the College's Annual Security Report—describing safety programs and policies, as well as crime statistics—is available at www.swarthmore.edu/public-safety/clery-crime-statistics.xml.

This Bulletin contains policies and program descriptions as of July 15, 2019, and should be used solely as an informational guide. The College reserves the right to alter or amend at any time the policies or programs contained in the Bulletin. Students are responsible for informing themselves of current policies and meeting all relevant requirements. Up-to-date information can be found at www.swarthmore.edu/coursecatalog.

2020  Spring Semester

Jan. 18  Residence halls open at noon.
Jan. 19  Meal plan starts at dinner.
Jan. 20  Martin Luther King Jr. Day (No Classes)
Jan. 21  Classes and seminars begin.
Jan. 31  Drop/add ends. Last day to delete a course from or add one to permanent registration.

Feb. 21-22  Board of Managers meeting.
Mar. 1  Final examination schedule available online.
Mar. 6  Spring break begins at end of last class or seminar.
Mar. 16  Spring break ends at 8:30 a.m.
Mar. 25  Schedule of courses and seminars for next semester available online.
Mar. 27  Last day to declare CR/NC grading option. Last day to withdraw from a course and receive the grade notation “W.”

Apr. 1  All accounts must show a zero or positive balance for students to enroll and select a room for the fall semester.
Mar. 30-Apr. 10  Advising period.
Apr. 13-15  Pre-enrollment for fall semester.
Apr. 15  Pre-enrollment ends at 4 p.m.
May 1  Classes and seminars end.
May 8-9  Board of Managers meeting.
May 7-14  Course Finals and Honors Written examinations.
May 15  Meal plan ends at dinner for all but seniors.
May 15  Residence halls close to all but seniors at 8 a.m. (Non-seniors are expected to leave the College within 24 hours after their last examination.)
May 17-19  Oral honors examinations.
May 19  Faculty deadline for senior grades due.
May 19  Senior shadow grade uncovering for CR deadline.
May 23  Baccalaureate.
May 24  Commencement.
May 25  Residence halls close to seniors at 9 a.m.
May 28  Faculty deadline for all spring grades.
May 29-31  Alumni Weekend.

Subject to change
1 Introduction to Swarthmore College

Swarthmore College, founded in 1864 by members of the Religious Society of Friends as a co-educational institution, occupies a campus of 425 acres of rolling wooded land in and adjacent to the Borough of Swarthmore in Delaware County, Pa. It is a small college by deliberate policy, with an enrollment of approximately 1,600 students. The Borough of Swarthmore is a residential suburb within half an hour’s commuting distance of Philadelphia. College students are able to enjoy both the advantages of nearby rural settings and the opportunities offered by Philadelphia. The College’s location also makes cooperation possible with three nearby institutions, Bryn Mawr and Haverford colleges and the University of Pennsylvania.

1.1 Objectives and Purposes
Swarthmore students are expected to prepare themselves for full, balanced lives as individuals and as responsible citizens through exacting intellectual study supplemented by a varied program of sports and other extracurricular activities. The purpose of Swarthmore College is to make its students more valuable human beings and more useful members of society. Although it shares this purpose with other educational institutions, each school, college, and university seeks to realize that purpose in its own way. Swarthmore seeks to help its students realize their full intellectual and personal potential combined with a deep sense of ethical and social concern.

1.2 Varieties of Educational Experience
Education is largely an individual matter, for no two students are exactly alike. The Swarthmore College curriculum is designed to give recognition to this fact and seeks to evoke the maximum effort and development from each student. The Swarthmore College Honors Program offers additional enriching and exciting intellectual experiences to students who choose to prepare for evaluation by examiners from other colleges and universities. Throughout the curriculum, options for independent study and interdisciplinary work offer opportunities for exploration and development over a wide range of individual goals. These opportunities typically include considerable flexibility of program choices from semester to semester, so that academic planning may be responsive to the emerging needs of students.

1.3 The Religious Tradition
Swarthmore College was founded by members of the Religious Society of Friends (the Quakers). Although it has been nonsectarian in control since 1908 and Friends now compose a small minority of the student body, the faculty, and the administration, the College still values highly many of the principles of that society. Foremost among these principles is the individual’s responsibility for seeking and applying truth and for testing whatever truth one believes one has found. As a way of life, Quakerism emphasizes hard work, simple living, and generous giving as well as personal integrity, social justice, and the peaceful settlement of disputes. The College does not seek to impose this Quaker view of life or any other specific set of convictions about the nature of things and the duties of human beings. It does, however, encourage ethical and religious concern about such matters and continuing examination of any view that may be held regarding them.

1.4 Tradition and Change
A college draws strength from tradition and energy from the necessity of change. Its purposes and policies must respond to new conditions and new demands. By being open to change, Swarthmore tries to provide for its students, by means appropriate to the times, the standard of excellence it has sought to maintain from its founding.
The primary educational resources of any college are the quality of its faculty and the spirit of the institution. Financial as well as physical resources play an important supportive role.

2.1 The Endowment
The educational resources at Swarthmore College have been provided by gifts and bequests from many alumni, foundations, corporations, parents, and friends. In addition to unrestricted gifts for the operating budget, these donors have contributed funds for buildings, equipment, collections of art and literature, and permanently endowed professorships, scholarships, awards, book funds, and lectureships. Their gifts to Swarthmore have not only provided the physical plant but also have created an endowment fund of $1.956 billion at market value on June 30, 2017. Swarthmore is ranked among the highest in the country in endowment per student. Income from the endowment during the academic year 2016-2017 contributed approximately $46,360 to meet the total expense of educating each student and provided about 50 percent of the College’s operating revenues.

The College’s ability to continue to offer a high quality of education depends on continuing voluntary support. Swarthmore seeks additional gifts and bequests for its current operations, its permanent endowment, and its capital development programs to maintain and strengthen its resources. The vice president in charge of development will be pleased to provide information about various forms of gifts: bequests, outright gifts of cash or securities, real estate or other property, and deferred gifts through charitable remainder trusts and life-income contracts in which the donor reserves the right to the annual income during his or her lifetime.

2.2 Libraries
The Libraries support the core mission of the College through active participation in the instructional and research program and the curation of collections in a variety of formats. Subject specialist librarians foster the development of student critical research skills by supporting student research projects and partnering with faculty to deliver course-specific instruction - meeting with 75 individual courses over the 2017/18 academic year. Library research instruction focuses on helping students learn to navigate the contemporary information environment critically and thoughtfully.

Through formal and informal learning experiences students begin to understand their role in the broader scholarly conversation. Students who seek opportunities to develop deeper research and information technology skills can participate in library programs including the seminar-based Library Internship and our Lib/Lab Fellows in digital scholarship. ITS and the Libraries partner to offer the summer SPEED program in which students work with faculty, library, and IT staff on digital projects ranging from visualizations of early English novels to a Navaho verb generator. This program parallels the Libraries work consulting with faculty on a wide array of emerging tools and technologies for teaching and research.

Swarthmore, as part of the Tri-College Library Consortium along with Haverford and Bryn Mawr colleges, takes advantage of a long history of cooperation and a unified, online catalog, Tripod, in building a research-quality collection. Through the consortium and a network of cooperative arrangements with other academic institutions, the Libraries provide students and faculty access to cultural and scholarly resources from libraries across the globe.

The Libraries are a leader in advancing the conversation on and progress towards a more just and inclusive campus. Library staff work with the Dean’s Office and other campus partners to enable all students to fully to participate in the academic life of the College. The Libraries support first-generation and low-income students through provisioning of texts and textbooks, laptops and other critical resources for learning. Library staff support students with disabilities by ensuring that library resources are as accessible as possible and playing a central role in campus accessibility efforts. Responsive to the emerging needs and issues on campus, the Libraries are committed to pursuing an array of initiatives in collaboration with campus partners to foster sustainability, equity and justice. The Libraries’ ever-evolving spaces meet community needs for exhibitions and public gatherings, individual and group study, teaching and learning, printing, production and access to technology.

Swarthmore College library holdings include over 600,000 print monographs and serials with thousands of new volumes added annually. In addition to the print collection, the libraries provide access to extensive holdings of e-books, e-journals and databases. The College participates in the Federal and Pennsylvania Depository Library Program and selects those government documents most appropriate to the needs of the curriculum and the public and catalogs them in Tripod. The majority of these government document titles are now available online. The libraries also provide access to multidisciplinary collections of video and music, in both physical and streaming formats. The video collection includes classic U.S. and foreign films as well as educational, documentary, and experimental films. Materials associated with the research and scholarship of the College and collections of digitized archives or items of historical importance such as student theses, faculty publications, art images, the yearbook and
student newspaper, and streamed videos of College performances can be found in locally-created digital repositories.

The collections are housed in three libraries. The Thomas B. and Jeannette L. McCabe Library is the center of the College library system and is home to the major portion of the collections in the humanities and social sciences. It has extensive public computing resources, a wide variety of reading and study areas, and several video viewing rooms. In 2018, the Color Room (the Frank and Vera Brown Study Room) opened. Dedicated to the interdisciplinary study of color and to Swarthmore couples past, present and future it contains a selection of books on color, pigment samples, and cards, and objects to facilitate exploration of color.

Located within the Science Center, the Cornell Library of Science and Engineering is the most popular study space on campus. Cornell Library staff provide research consultation and support student and faculty work in the sciences, mathematics, and engineering through extensive collections of monographs, journals, videos, data and other resources.

The Underhill Music and Dance Library in the Lang Music Building facilitates research in the performing arts through a highly curated collection including books, journals, sound recordings and videos. Staff offer expert research advice. Underhill provides a wide variety of listening and viewing facilities and has some of the loveliest views of the Crum Woods.

The Libraries also help curate and increase the visibility of a variety of specialized collections across campus in the Black Cultural Center, the Beit Midrash (located in the Bond Lodge 5), the Women’s Resource Center, the Lang Center for Civic and Social Responsibility, and the Language Resource Center. These collections are all findable through the Tripod library catalog.

2.2.1 Special Library Collections

The Rare Book Room in McCabe Library contains several special collections: the Book Arts & Private Press Collection, an exemplary collection of artists’ books and fine press printing dating from the 16th century to the present day; British Americana, accounts of British travelers in the United States; the works of English poets Wordsworth and Thomson bequeathed to the library by Edwin H. Wells; the works of Seamus Heaney, winner of the Nobel Prize for Literature, 1995; the W.H. Auden Collection commemorating the English poet who taught at Swarthmore in the mid-1940s; the David H. Keller Collection, consisting of science fiction and fantasy pulp magazines from the 1920s through the 1960s; and the Bathe Collection of the History of Technology, donated by Greville Bathe.

Within the McCabe Library building are two special libraries that enrich the academic life of the College: The Friends Historical Library, founded in 1871 by Anson Lapham, is one of the outstanding collections in the United States of manuscripts, books, pamphlets, and pictures relating to the history of the Society of Friends. The library is a depository for records of Friends Meetings belonging to Baltimore, New York, Philadelphia, and other Yearly Meetings. More than 10,000 record books, dating from the 1670s until the present, have been deposited. Additional records are available on microfilm.

The collection includes materials on subjects of Quaker concern such as abolition, Indian rights, utopian reform, and the history of women’s rights. Notable among the other holdings are the Whittier Collection (first editions and manuscripts of John Greenleaf Whittier, the Quaker poet), the Mott manuscripts (more than 500 letters of Lucretia Mott, antislavery and women’s rights leader), and the Hicks manuscripts (more than 400 letters of Elias Hicks, a prominent Quaker minister). More than 43,000 volumes are in the library’s collection of books and pamphlets by and about Friends. More than 200 Quaker periodicals are currently received. The library also has an extensive collection of photographs of meetinghouses and pictures of representative Friends and Quaker activities as well as a number of oil paintings, including The Peaceable Kingdom by Edward Hicks. It is hoped that Friends and others will consider the advantages of giving to this library any books and family papers that may throw light on the history of the Society of Friends. Visit the website www.swarthmore.edu/fhl.xml

The Swarthmore College Peace Collection is of special interest to research students seeking records of the peace movement. The records of the Women’s International League for Peace and Freedom and the personal papers of Jane Addams of Hull-House, Chicago, formed the original nucleus of the Collection (1930). Over the years, other major collections have been added including the papers of Devere Allen, Emily Greene Balch, Danilo Dolci, Belva Lockwood, Homer Jack, A.J. Muste, Scott Nearing, John Nevin Sayre, Wilhelm Sollmann, André and Magda Trocmé, and others as well as the records of the American Peace Society, A Quaker Action Group, Center on Conscience and War, Code Pink, Fellowship of Reconciliation, Friends Committee on National Legislation, The Great Peace March, Lake Mohonk Conferences on International Arbitration, Military Families Speak Out, National Council for Prevention of War, SANE Inc., United for Peace and Justice, War Resisters League, Women Strike for Peace, and many others. The Peace Collection serves as the official repository for the archives of these organizations. The Peace Collection also houses more than 14,000 books and pamphlets
over 3,000 periodical titles, more than 20,000 linear feet of manuscripts, over 50,000 photographs and other images, thousands of audio and video recordings, and memorabilia. Periodicals are currently received from 22 countries. The comprehensive website www.swarthmore.edu/library/peace describes the archival holdings and resources.

2.3 Information Technology Services

Information Technology Services (ITS) provides technology resources to support the instructional mission, residential life, and administrative work of the College. Services are available to all students, faculty, staff, and alumni. ITS works in partnership with the Swarthmore community to meet its mission.

Swarthmore provides a rich, robust, and secure technology infrastructure. All campus buildings are served by wired and wireless networks. In addition to network services, a cell phone signal distribution system is installed in the residence halls. Presentation technology is available in every classroom. Swarthmore’s information systems provide a wide range of academic and administrative information services to the College community.

Public computers and printing services are available to students in the residence halls, McCabe, Science, and Music Libraries, and in other public spaces on campus. Public computer labs are located in Trotter and McCabe Library, and there are many departmental computer labs across campus that meet the specific needs of academic disciplines. A wide array of commercial and open source software is available for use on all public computers to support academic work.

The Media Center in Beardsley provides access to a rich set of multimedia tools and the newest technologies available for experimentation and creation of audio, video, multimedia, high-quality color and 3-D output for curricular and extracurricular work. Music composition/editing computers are available in the Music Library. Language study and video editing are supported in the Language Resource Center in Kohlberg Hall. Some academic software is available for downloading by the College community. The Swarthmore Campus and Community Store also sells a variety of software at competitive prices.

The ITS Help Desk located in Beardsley Hall serves students, faculty, and staff who have technology questions or problems and is available by phone on campus at X4357 (HELP), off campus at 610-328-8513, or via email at help@swarthmore.edu. Computer repair services are also available for students (a fee is charged for parts and labor).

2.4 Communications

The Communications Office coordinates strategic communications efforts at the College, particularly those relating to admissions, alumni, advancement, Swarthmore’s web presence, and media relations. In collaboration with other College offices, the Communications Office leads the development and implementation of an overall web strategy for Swarthmore. The office also leads crisis communications efforts at the College, in close collaboration with a team of partners across campus.

The Communications Office produces a broad range of print and digital materials for the College’s internal and external communities. A selection includes the quarterly Swarthmore College Bulletin, the annual college calendar, and the Sw@tNews email newsletter. News about Swarthmore newsmakers, campus activities, and special events are available on the College’s website (www.swarthmore.edu), which also features a rich variety of videos, podcasts, and faculty experts. The Communications Office also maintains the College’s social media presence on Twitter, Facebook, Instagram, YouTube, and Snapchat.

The Communications Office maintains a set of standards for print and digital publications, including a College design guide, a College style guide, and the appropriate use of the College logo. Permission from the office is required for all photo, film, or video shooting on the Swarthmore campus by external vendors or members of the media.

Communications Office staff members provide editorial, photographic, graphic design, print production, and web content support services to administrative offices and academic departments across campus, either directly or in working with outside vendors to produce exceptional products.

2.5 Physical Facilities

When Swarthmore College opened in fall 1869, it consisted of one building-Parrish Hall-set on farmland and serving 199 students. Today, the College encompasses more than 70 buildings used by approximately 1,550 students on 373 acres. The core of the academic campus, comprising 153 acres, is bounded by 220 acres of woods, a valuable natural resource for research, recreation and relaxation. The College maintains about 100 units of faculty housing in the Borough of Swarthmore and adjacent municipalities.

The College provides an impressive range of modern facilities for students’ intellectual growth, cultural enrichment, and physical and social development. At the same time, it maintains an intimate, pedestrian campus exemplifying the concept of academic study in an idyllic setting.
2.5.1 The Academic Core of Campus

Parrish Hall, the original College building, remains the heart of the campus. Admissions, the Registrar’s Office, the President’s Office, and Dean’s Office share space with the Financial Aid Office, Career Services, numerous student groups, and two floors of student residences. Sited by the founders on a ridge at the highest elevation in Delaware County, Parrish commands views south toward the Delaware River and New Jersey and north and west toward the Crum Woods. Most academic buildings are located on the plateau to the north of Parrish Hall; McCabe Library, Clothier Memorial Hall and the Hormel-Nguyen Intercultural Center share the ridge. Sharples Dining Hall, Worth Health Center, and several residence halls are located on the gentle slope to the south. Athletic facilities occupy former farmland to the south and southeast.

The North Quad is bounded by Kohlberg Hall, with its popular coffee bar and state of the art facilities for the departments of Modern Languages and Literatures, Economics, and Sociology and Anthropology; Martin Biological Laboratory and associated greenhouse; Beardsley Hall, the home of the Department of Art, with large studio spaces; the Department of Philosophy; and a Media Center staffed by the Department of Information Technology Services; and the Science Center, which physically links the Department of Biology with the departments of Chemistry and Biochemistry, Computer Science, Mathematics and Statistics, Physics and Astronomy, and the Cornell Science and Engineering Library. Eldridge Commons, with its coffee bar, group study tables and lounge, is an important gathering spot which fosters serendipitous conversations and interdisciplinary collaboration.

The adjacent Nathan Garden quad is framed by Beardsley Hall as well as Trotter Hall, which houses the departments of Classics, History and Political Science, along with the Center for Social and Policy Studies and interdisciplinary programs in Asian Studies, Black Studies, Cognitive Science, Gender and Sexuality Studies, Interpretation Theory, Latin American and Latino Studies and Peace and Conflict Studies, and the Writing Center. Pearson Hall is home to the Linguistics, Educational Studies, and Religion departments. The Biology, Engineering and Psychology building, now under construction, will house these three departments and will provide common space for gatherings of students, faculty and staff in part of the campus.

The Metasequoia Allée leads from Parrish Hall to the Lang Performing Arts Center, home to the English Literature and Theater departments and the program in Dance. The Pearson-Hall Theater seats 730 in a divisible tiered space with sophisticated lighting and sound systems. The Frear Ensemble Theatre on the lower level is a black box theater which serves as an experimental and instructional studio. The Boyer Dance Studio and the Troy Dance Lab support the Dance program. The List Gallery entered from the allée, is curated by the Department of Art and Art History and hosts student and alumni exhibits as well as those of invited artists.

An open bridge, with views into the Crum Woods, connects the Performing Arts Center to Lang Music Building, home to the Music and Dance Department. The Eugene and Theresa M. Lang Concert Hall is one of the College’s iconic spaces, seating 425 in an unusual tiered arrangement. Windows fill the entire back wall of the stage, offering an expansive view deep into the Crum Woods. The building is also home to the Underhill Music and Dance Library, classrooms, practice and rehearsal rooms, and an exhibition area in the two-story lobby.

Just east of Parrish Hall sits McCabe Library, the main library on campus and the focus of research and intellectual inquiry. McCabe houses the Friends Historical Library, the national repository of the Society of Friends (the Quakers) in America. The Peace Collection, established nearly 60 years ago, focuses on non-governmental efforts for nonviolent social change, disarmament and conflict resolution between peoples and nations. Facing McCabe Library across Parrish Lawn is Clothier Memorial Hall, with a snack bar and a large multipurpose space framed by exposed wood trusses and tracery windows. Offices for student organizations in the cloister at Clothier Hall complement similar facilities in the adjacent Hormel-Nguyen Intercultural Center. The Center provides robust opportunities for student-led and student-centered programming hosted by the Intercultural Center, the Interfaith Center, and the Office for International Students.

The Lang Center for Civic and Social Responsibility helps students realize their fullest intellectual and personal potential combined with a deep sense of ethical and social concern by connecting the campus, curriculum, and communities. It houses two classrooms, two small conference rooms, a library, Social Innovation Lab, and office space for Lang Center and Office of Sustainability staff, as well as many signature programs (described below).

Whittier Hall, near the Lang Center, has a flexible design and a two-fold purpose: to serve as a temporary home for the Department of Psychology and shops associated with the Department of Engineering until Singer Hall is completed in 2020; and as a permanent location for studio classrooms, student studios, and seminar rooms for the Department of Art and Art History.

2.5.2 Athletic Facilities

Lamb-Miller Field House contains basketball practice courts, an indoor track, locker and equipment rooms, and administrative offices for the Department of Physical Education and Athletics. The adjacent Tarble Pavilion provides competition courts for basketball. Just east of the
field house are the baseball and softball fields. Matchbox, a wellness/fitness center with state-of-the-art fitness equipment, houses a multi-purpose space with a sprung wood floor for aerobics, Zumba and other fitness activities, the administrative office of the College’s Wellness program, and a Theater practice space. Ware Pool is a 10-lane by 10-lane competition pool under a distinctive peaked roof. The Cunningham Courts and Faulkner Courts each provide six competition tennis courts, supplemented by three indoor courts at the Mullan Tennis Center. Clothier Field, adjacent to the Field House, is an all-weather surface for year-round field sports. It is circumscribed by a state of the art eight-lane outdoor track. Cunningham Fields provides four turf fields, supported by the Delmuth-Rath Field House. Ample open lawn areas throughout campus accommodate and inspire a range of informal and spontaneous physical activity from Frisbee throwing to water sliding.

2.5.3 Residential Life
The College provides a variety of residential experiences, from single to quad occupancy, in traditional residence halls and smaller-scale settings. PPR Apartments provides an option for suite-style living. Outdoor space for cooking and eating is a popular amenity at several residence halls. All buildings have shared lounges and laundry facilities and wireless internet service; many have kitchens for student use. Residential Community Coordinators are members of the Dean’s Office staff who provide administrative support for students in clusters of residence halls. Residential advisors on each floor provide peer-to-peer support. Residence hall rooms are assigned by lottery in a system managed by the Office for Student Engagement.

2.5.4 Social Development
Sharples Dining Hall provides communal dining, ensuring that students have the opportunity to interact regularly at mealtimes. Private dining rooms at Sharples can be reserved by students and are frequently used by special-interest groups and clubs. The student-run Crum Cafe in Sharples is a popular venue in which student groups host special-interest or specialty-cuisine events. Coffee bars in the Science Center and Kohlberg Hall provide quick service and a variety of grab-and-go options. Near the dining hall are Kitao Gallery, a student-run art gallery, Olde Club, a party/concert venue, and the Women’s Resource Center. Two fraternity houses provide social space for Delta Upsilon, a national fraternity, and Phi St, an independent fraternity. Brothers live in the residence halls. The Black Cultural Center at Robinson House provides social as well as educational facilities for students. The Hormel-Nguyen Intercultural Center provides programming for a variety of intercultural organizations and program space for the Interfaith Center. Worth Health Center tends to students’ health and wellness through Student Health Services, Counseling and Psychological Services (CAPS), and wellness education. Multi-purpose space is distributed across campus, in Clothier Memorial Hall, Eldridge Commons, McCabe Library’s atrium and Matchbox. The parlors in Parrish Hall, on either side of the front door, have retained their original function as living rooms for students since the founding of the college. The Swarthmore Campus and Community Store provides a broad range of offerings, from textbooks to toiletries, and is owned and operated by the college. All buildings and major outdoor spaces on campus have WiFi coverage.

2.5.5 Scott Arboretum
Much of the college campus has been developed with horticultural and botanical collections of trees, shrubs, and herbaceous plants through the provisions of the Scott Arboretum, established in 1929 by Mrs. Arthur Hoyt Scott and Owen and Margaret Moon as a memorial to Arthur Hoyt Scott of the Class of 1895. The plant collections are designed to afford examples of the better kinds of trees and shrubs that are hardy in the climate of eastern Pennsylvania, and are suitable for planting by the average gardener. All woody collections are labeled and recorded. Exceptionally fine displays include hollies, flowering cherries, conifers, magnolias, tree peonies, lilacs, rhododendrons, azaleas, hydrangeas, and witchhazels. Specialty gardens include the Terry Shane Teaching Garden, the Entrance Garden, the Theresa Lang Garden of Fragrance, the Dean Bond Rose Garden, the Isabelle Bennett Cosby ’28 Courtyard, the Nason Garden, the Metasequoia Allée, the Harry Wood Courtyard Garden, the Pollinators Garden, and the Gold Medal Plant Garden. Many interested donors have contributed generously to the collections, and the arboretum is funded primarily by restricted endowment funds with a combined market value of about $39 million. The mission of the Scott Arboretum is to delight and educate all visitors and inspire them to enjoy the many benefits of horticulture. This “garden of ideas” features varieties that perform well in the region, encouraging wise stewardship as well as the cultivation of plants to sustain the body, enchant the eye, and soothe the spirit.

The arboretum offers educational horticulture programs to the general public and Swarthmore students. These workshops, lectures, classes, and activities are designed to cover many facets of the science/art called gardening. Tours are conducted throughout the year for College students, faculty and staff, and interested public groups. The administrative offices of the arboretum are located in Cunningham House. The adjacent Wister Education Center and Greenhouse provides multi-
purpose space to support the broad range of programs sponsored by the arboretum. Aiding the arboretum staff in all its efforts are the Associates of the Scott Arboretum. This membership organization provides financial support and assistance in carrying out the myriad operations that make up the arboretum’s program, such as plant propagation, public lectures, workshops, publications, and tours of other gardens. More than 100 volunteer Arboretum Assistants aid in arboretum maintenance on a regular basis. Student memberships are available and the arboretum provides interesting and educational job opportunities for students. The arboretum’s newsletter, Hybrid, publicizes its activities and provides up-to-date information on seasonal gardening topics. Maps for self-guided tours and free brochures of the plant collections are available at the Scott offices, 610-328-8025, located in the Cunningham House, as well as online and in brochure boxes on educational signs in many gardens. The arboretum conducts applied research on ornamental plants and holds three recognized North American Plant Collections: hollies, magnolias, and oaks. The arboretum is accredited at Level III in the ArbNet Arboretum Accreditation Program. For more information and a calendar of events, to sign up for the "Garden Seeds" blog, or obtain membership information, and brochures, visit scottarboretum.org.

2.6 Special Funds and Lectureships

The Catherine G. '72 and Ernest B. Abbott '72 Partners in Ministry Endowment was created in recognition of the importance of a distinctive ecumenical program of spiritual nurture serving the entire Swarthmore College community. Income from the Abbott endowment is distributed to Partners in Ministry to help provide for the compensation of the religious adviser and supporting staff of the Swarthmore Protestant community.

The Mary Albertson Lectureship in Medieval Studies was established in 1987 with gifts from George Cuttino ’35 and former students, colleagues, and friends. Mary Albertson joined the Swarthmore faculty in 1927 and served as chair of the History Department from 1942 until her retirement in 1963. She was responsible for expanding the history curriculum to include studies on Russia, the Far and Near East, Africa, and Latin America. Mary specialized in English medieval history. She died in May 1986.

The Jesse and Maria Aweida Endowment for the Support of Arabic Language Instruction was established in 2006 by Jesse and Maria Aweida, members of the Class of 1956.

The Barnard Fund was established in 1964 by two graduates of the College, Mr. and Mrs. Boyd T. Barnard of Rosemont, Pa. The fund has been augmented by the 50-year class gifts from the classes of 1917 and 1919 and other friends. The income from the fund may be used for any activity that contributes to the advancement of music at the College. It has been used for concerts on the campus, for the purchase of vocal and orchestral scores and other musical literature, and to provide scholarships for students in the Music Department who show unusual promise as instrumentalists or vocalists.

The Peter B. Bart ’54 Endowment was established in 2005 to support the Film and Media Studies Program at Swarthmore College.

The Albert H. Beekhuis Music Fund was created in 1989 by a generous bequest of Mr. Beekhuis, neighbor, friend, and patron of Swarthmore music. The fund supports the acquisition and maintenance of musical instruments and brings musical performers to the College.

The Bloom Discretionary Fund Endowment was established by Ira T. Wender ’45 in honor of President Alfred H. Bloom. This fund is discretionary under the direction of the president.

The Al and Peggi Bloom Endowment for Financial Aid for International Students and for Faculty Support was established in 2005. This endowment aims to help prepare students to identify and advance common purpose in a global world by providing financial support to international students at Swarthmore, and by supporting relevant faculty efforts in any discipline or across disciplines.

The Alfred H. Bloom Jr. and Martha B. Bloom Memorial Visiting Scholar Fund is the gift of Frank Solomon Jr. ’50 in honor of the parents of Alfred H. Bloom. It brings visiting scholars to campus at the discretion of the president.

The Patricia Boyer Music Fund was created in 1989. Income from the Boyer fund supports the Dance Program.

The Richard B. Brandt Fund was established in 1986 by Phillip J. Stone ’62 in honor of Richard B. Brandt, a member of the Philosophy Department from 1937 to 1964. The fund supports visiting speakers chosen by the department.

Brest Family General Endowment was established in 2004 by Iris Lang Brest ’61, Paul Brest ’62, Hilary Brest Melzer ’86, and Jeremy Brest ’90 to further the objectives and purposes of Swarthmore College. The income of the Brest Endowment is for unrestricted use.

The Brown Family Travel Fund, established in 2011 by Vera Grant Brown ’70 and Frank I. Brown ’68, recognizes and honors the special contribution that parents and family members have played in helping their student prepare for college and come to Swarthmore. It provides support for families to travel to landmark events or programs
involving their student that would not be possible otherwise due to cost of transportation and lodging. These might include Commencement exercises, athletic competitions, performing arts productions, academic presentations and the like. The use of the fund is under the direction of the Dean’s Office.

The Phillip A. Bruno Fine Arts Endowment was created by Phillip A. Bruno in 1988. The fund supports the acquisition of artwork for the Swarthmore College collections.

The William J. Carter ’47 Religious Harmony Fund was established in 2011 by a bequest from William J. Carter ’47. The fund’s purpose is to encourage and promote understanding, harmony and respect among the various religions of the world.

The Barbara Weiss Cartwright Fund for Social Responsibility was created in 1993 by a gift from Barbara W. Cartwright ’37 and Dorwin P. Cartwright ’37. The fund supports new or existing programs that encourage involvement in addressing societal problems through projects initiated by the College or created by current students. In addition, it will provide opportunities for faculty and students to participate in volunteer service projects linked to the academic program.

The Bruce Cratsley ’66 Memorial Fund was established by family and friends of Michael J. Durkan, librarian emeritus, to support library materials; exhibition support; student summer activities.

The Carley Cunniff ’72 Paul Hall Residence Fund was established to honor this member of the Board of Managers from 1882 to 1923. It provides annual funds that are used “in bringing to the College eminent citizens of this and other countries who are leaders in statesmanship, education, the arts, sciences, learned professions and business, in order that the faculty, students and the College community may be broadened by a closer acquaintance with matters of world [interest].”

The Cooper Foundation Committee, composed of students, faculty members, and staff members, works with members of all campus constituencies to arrange lectures, exhibitions, and performances of College-wide interest as well as to bring to the College speakers of note who will remain in residence long enough to enter into the life of the community. In the past, some speakers have been invited with the understanding that their lectures would be published under the auspices of the foundation. This arrangement has produced 18 volumes.

The George R. Cooley Curatorship was established in 1986. The Cooley endowment supports the curatorship of the Swarthmore College Peace Collection.

The William J. Cooper Foundation provides funding for a varied program of lectures, exhibits, and concerts, which enriches the academic work and cultural experience of the College and the community. The foundation was established by William J. Cooper, a devoted friend of the College whose wife, Emma McIlvain Cooper, served as a member of the Board of Managers from 1882 to 1923. It provides annual funds that are used "in bringing to the College eminent citizens of this and other countries who are leaders in statesmanship, education, the arts, sciences, learned professions and business, in order that the faculty, students and the College community may be broadened by a closer acquaintance with matters of world [interest]."

The Bruce Cratsley ’66 Memorial Fund income, but not the principal, shall be used at the discretion of the Art Department faculty to support the photography program. The use may include, but not limited to the purchase of equipment and materials; exhibition support; student summer opportunities; visiting speakers; and other activities.

The Carley Cunniff ’72 Paul Hall Residence Fund was established to honor this member of the Board of Managers who died in January 2005.

The Dean’s Discretionary Board Endowment Fund was established in 2016 to help defray non-tuition costs for students who are first generation and/or low-income and/or belong to traditionally underrepresented backgrounds in their pursuit of a Swarthmore College education. This fund is administered by the Dean’s Office.

The Michael J. Durkan Memorial Fund was established by family and friends of Michael J. Durkan, librarian emeritus, to support library collections and to help bring Irish writers to campus.
The Earthworms Ultimate Club Sports Fund was established in 2017 by Michael Morton ’97. The Fund is intended to provide budgetary support for club sports in honor of Morton’s exciting memories playing Ultimate Frisbee at Swarthmore. The goal is to continue to foster a positive, competitive, character-building environment where students can become better athletes and better people through sports.

The Embedded Study Endowment Fund was established in 2016 by an anonymous donor. Administered by the Provost’s Office, this fund is intended to provide enriching, global learning experiences for Swarthmore students by supporting travel and other expenditures related to courses with an embedded beyond-the-classroom study component.

The Elizabeth Pollard Fetter Chamber Music Fund, endowed by Frank W. Fetter ’20, Robert Fetter ’53, Thomas Fetter ’56, and Ellen Fetter Gille in memory of Elizabeth Pollard Fetter ’25, subsidizes the private instrumental lessons of outstanding student string players at the College. Interested applicants should write to the director of the Fetter Chamber Music program and should plan to audition at the beginning of each semester.

The James A. Field Jr. Lectureship was established by Thomas D. Jones Jr. ’53 and Vera Lundy Jones ’58 in memory of James Field, professor of history from 1947 to 1984, to support lectures by visiting scholars on the history of the United States.

The James A. Field Jr. Memorial Fund was established by family and friends of James A. Field Jr., Clothier Professor Emeritus of history, to support library collections.

The Tariq Q. Fischer Endowed Islamic Studies Fund was created in 2005 by Paul and Asma Fischer, parents of Tariq Q. Fischer ’08, in his memory, to support the development of an Islamic Studies Program.

The Swarthmore College Folk Dance Club Endowment was established in 2010. This fund supports activities of the Swarthmore College Folk Dance Club.

The Lee Frank Memorial Art Fund, endowed by the family and friends of Lee Frank ’21, sponsors each year a special event in the Art Department: a visiting lecturer or artist, a scholar or artist in residence, or a special exhibit.

The Gertrude S. Friedman Research Fund was established in 1992 to support travel and research of biology faculty members with preference to those studying in the area of physiology and related subspecialties. Grants are awarded at the discretion of the chair of the Biology Department.

The Garnet Athletics Endowment was established in 2002 by an anonymous donor to support the Athletics Program at Swarthmore College. The fund supports expenses associated with introducing prospective scholar-athletes to Swarthmore College, including travel costs and the production of publications promoting the Athletics Program at the College.

The Mary Josephine Good ’70 Endowment was created in her memory by her father, Richard A. Good. The fund was created in 2004 and supports the Partners in Ministry program at Swarthmore College.

The David R. Goodrich ’71 Endowment for Islamic Studies was established in 2003 to support the Islamic Studies Program at Swarthmore College. The Provost’s Office administers the fund.

The Donald J. Gordon Art Fund was established in 1998 by a gift from his children and their spouses on the occasion of his 70th birthday and the 50th anniversary of his graduation from Swarthmore College. The fund supports visiting artists.

The Harry D. Gotwals Fund was established in 1997 in memory of the distinguished service of Harry D. Gotwals as vice president for development, alumni, and public relations from 1990 to 1997. The fund supports the professional development of members of the division.

The Merritt W. Hallowell ’61 Career Services Fund was established in 2002 by Merritt Hallowell to support the College’s career services program and initiatives, including but not limited to student career exploration, vocational counseling, identification of skills, interests, and values to develop an individual’s personalized career options; electronic and print resources; alumni networking and mentoring; and extern opportunities. The Career Services Office administers the fund.

The Halpern Family Foundation Engineering Design Fund was established in 2007 by Michael Halpern ’68 and Christine Grant ’69. This fund supports work by students on interdisciplinary projects with socially relevant purposes, which include design engineering principles as well as aesthetics and client needs.

The Hayward Family Fund was established by Priscilla Hayward Crago ’53 in honor of her parents, Sumner and Elizabeth Hayward, to receive designated life income gifts made by the donor since 1991 and to accommodate additional gifts anticipated over the donor’s lifetime and from other sources. The income from the fund provides support for the faculty at Swarthmore College.

The Marjorie Heilman Visiting Artist Fund was established by M. Grant Heilman ’41 in memory of Marjorie Heilman to stimulate interest in art, particularly the practice of art, on campus.

The James C. Hormel ’55 Endowment for Public Policy and Social Change was established by James Hormel ’55 to support faculty in the Political Science Department.

The James C. Hormel ’55 Endowment for Student Services was established by James Hormel ’55 to
support staffing and programs related to student services and activities, including student involvement in volunteering and programs to encourage greater understanding of, sensitivity to, and incorporation into the great society of differences in culture, sexual orientation, or race. The William I. Hull Fund was established in 1958 by Mrs. Hannah Clothier Hull, Class of 1891, in memory of her late husband. Dr. Hull was a professor of history and international law at Swarthmore College for 48 years. The fund enables the College to bring a noted lecturer on peace to the campus each year in memory of Dr. and Mrs. Hull, who were peace activists. The Anne Ashbaugh Kamrin ’51 Fund for Vocal Music was established in 2014 by Robert P. Kamrin and Anne Ashbaugh ’51. This fund supports opportunities for students to participate in choral groups on campus sponsored by the Music Program, with preference for providing enhanced support for the Swarthmore College Chorus and chamber choir. This fund, under the direction of the Music Program of the Department of Music and Dance and the Provost’s Office, may also support other opportunities to enhance the vocal arts on campus for the benefit of all students. The Kaori Kitao Cinema History Endowment. Established in 2013 by Kaori Kitao, Professor Emerita in Art History, to celebrate her 80th birthday, supports curricular, scholarly and public events that explore history of cinema, with a preference for silent cinema, such as the annual public screening of silent films from worldwide sources, in recognition of its historical, cultural and cross-cultural importance, but open to other topics and purposes. The fund will be administered by the coordinator of the Film and Media Studies Department in consultation with other relevant departments. The Kaori Kitao Endowment for Mathematics, established in 2012 by Kaori Kitao, Professor Emerita in Art History, to celebrate her 80th birthday, supports a visiting lecture or lecture series in the Mathematics and Statistics department colloquium with a preference for topics in geometry, topology, and the history of mathematics, at the discretion of the department. Creation of this fund was motivated by the donor’s desire to fulfill her alternate ambition for a career in mathematics which never materialized. The Mathematics and Statistics Department will administer the fund. The Kaori Kitao Endowment for the List Gallery, established in 2013 by Kaori Kitao, Professor Emerita in Art History, to celebrate her 80th birthday, supports a visiting lecture or lecture series in the Mathematics and Statistics department colloquium with a preference for topics in geometry, topology, and the history of mathematics, at the discretion of the department. Creation of this fund was motivated by the donor’s desire to fulfill her alternate ambition for a career in mathematics which never materialized. The Mathematics and Statistics Department will administer the fund. The Kaori Kitao Humanities Research Fellowship Endowment. Kaori Kitao, Professor Emerita in Art History, established this research fellowship in 2013 in celebration of her 80th birthday. The fund supports students in the humanities by providing grants to encourage and facilitate historical research, original scholarship, and professional development, with a preference for Italian Studies, Japanese Studies, and Performing Arts. The fund is administered by the Division of the Humanities and the Provost’s Office. The Kyle House Endowment was created by a gift from Elena ’54 and Fred ’54 Kyle and is used for the upkeep and expenses of a house on Whittier Place currently used as a residence hall. The Jonathan R. Lax Fund, created by his bequest in 1996, supports an annual Lax Conference on Entrepreneurship and Economic Anthropology. Jonathan Lax ’71 was class agent and a reunion leader. His parents, Stephen ’41 and Frances Lax, and brothers Stephen (Gerry) Lax Jr. ’74 and Andrew Lax ’78 have been actively involved at the College. The Lucinda M. Lewis ’70 and Sarah Reynolds ’09 Mathematics Endowment was established in 2012 by Robert J. Reynolds. This fund supports visiting scholars to the department of mathematics and student participation in conferences. Recipient(s) will be chosen by the chair of the department of mathematics. The Genevieve Ching-wen Lee ’96 Memorial Fund was established in her memory by family and friends and recognizes the importance of mutual understanding and respect among the growing number of ethnic groups in our society. The fund supports an annual lecture by a prominent scholar of Asian American studies and/or an annual award to two students to assist in projects pertaining to Asian American studies. The Lucinda M. Lewis ’70 and Sarah E. Reynolds ’09 Field Hockey Endowment was established in 2009 by Robert Reynolds P’09 in honor of his wife and daughter. Cindy was an avid field hockey player at Swarthmore from 1966-1970, and Sarah from 2006-2009. This fund will be administered by the Athletics Department and supports activities and expenses associated with the field hockey program at Swarthmore College including training trips and trips by field hockey coaching staff to high school field hockey games and tournaments. The List Gallery Exhibit Fund, established through the generosity of Mrs. Albert List, supports exhibits in the List Gallery of the Eugene M. and Theresa Lang Performing Arts Center. The Lorax Fund for Environmental Sustainability was established in 2007 by a grant from the Schwab Charitable Fund as recommended by Naomi Zikmund-Fisher ’91. The fund is used to
support the activities that move Swarthmore College and its community toward a more environmentally sustainable future (e.g. the reduction or offsetting of carbon or other greenhouse gas emissions, innovative replacements of less than efficient technologies, systems, and devices, etc.). The fund is administered by the Office of Facilities and Services.

The Judy Lord Endowment was established in 2004 by anonymous donors who are friends of the College. The endowment memorializes Judy Lord’s enthusiasm and community spirit and is a reward for hard work and contributions to Swarthmore College life. Earnings from the Judy Lord endowment are awarded to academic departmental administrative assistants with tenure of 10 or more years at the College.

The Lovelace Family Endowment was established in 2004 to further the objectives and purposes of Swarthmore College. The income is unrestricted.

The Caro Elise Luhrs ’56 Business and Leadership Endowment was established by Caro Elise Luhrs ’56 in 2011. This fund better prepares students for assuming leadership positions in whatever liberal arts and science fields they may go into by giving them grounding in basic business skills. Activities supported by this fund will foster strong communication skills, inspire new ways to develop innovative solutions, and encourage entrepreneurship thought and action.

The Lovelace Family Endowment was established in 2004 to further the objectives and purposes of Swarthmore College. The income is unrestricted.

The Caro Elise Luhrs ’56 Business and Leadership Endowment was established by Caro Elise Luhrs ’56 in 2011. This fund better prepares students for assuming leadership positions in whatever liberal arts and science fields they may go into by giving them grounding in basic business skills. Activities supported by this fund will foster strong communication skills, inspire new ways to develop innovative solutions, and encourage entrepreneurship thought and action.

The Julia and Frank L. Lyman ’43 Partners in Ministry Endowment was established in February 2000 in recognition of the importance of a distinctive ecumenical program of spiritual nurture serving the entire community of Swarthmore College. Income from this endowment will help provide for the compensation of the religious adviser and supporting staff of the Swarthmore Protestant Community.

The Barbara W. Mather ’65 Political Science Honors Endowment was established in 2012 in honor of Barbara W. Mather ’65, an exceptional and agile leader who served as chair of the Swarthmore College Board of Managers from 2004-2012. As Barbara was a Political Science major as a student, this fund supports the Honors Program in Political Science, which includes visiting examiners, special lectures, thesis work, and other special projects of Political Science honors majors.

The Isabel Gamble MacCaffrey ’46 Library Endowment was established in 2010 by Wallace MacCaffrey in memory of his wife. The fund is used to support the library program.

The Lucy Bunzl Mallan ’54 Faculty Leave Endowment was established in 2006 by Lucy Bunzl Mallan to recognize the importance of her Swarthmore College experience and classmates. This endowment will be used by the provost to support faculty leaves.

The Penelope Mason Endowment for Asian Studies was created via the estate of Penelope E. Mason ’57. The fund supports courses taught in the departments of art, modern languages, economics, history, music and dance, political science, religion, and sociology/anthropology.

The Chica Maynard ’48 Cherry Border Fund was established in 2009 by the Class of ’48, friends and family in memory of Carolien "Chica" Powers Maynard ’48 to honor her ties and over a century of family ties to Swarthmore College. This fund supports maintenance, upkeep, and enhancements to the Cherry Border of the Scott Arboretum which was started in April 1931 with a gift from Mrs. Allen K. White, Class of 1894, in recognition of her daughter, Carolien White Powers ’22 and the "whisper bench" which serves as a memorial to Carolien Powers ’22. Uses for the income of this fund will be determined by the Scott Arboretum.

The Thomas B. McCabe Memorial Fund was established with gifts from alumni and the McCabe Family to support an annual lectureship that brings to campus each fall individuals with distinguished careers in fields such as public service, business, government, education, or medicine.

The Men’s Soccer Endowment was established in 2017 by David McElhinny ’75 and Thomas Spock ’78. This fund supports the athletics program at Swarthmore College and activities and expenses associated with the men’s soccer program, including training trips, winter break trips, and other program enhancing projects.

The James H. Miller ’58 Partners in Ministry Endowment was created in recognition of the importance of a distinctive ecumenical program of spiritual nurture serving the entire Swarthmore College community. Income from the Miller endowment is distributed to Partners in Ministry to help provide for the compensation of the religious adviser and supporting staff of the Swarthmore Protestant Community.

The Margaret W. and John M. Moore Endowment was created in September 1999 via a life-income gift contract. Income provides research stipends for selected scholars using the resources of the Friends Historical Library and/or the Peace Collection at Swarthmore College.

The Paul Moses and Barbara Lubash Computer Science Fund was created to provide support for computer science students traveling to seminars and related events.

The Helen F. North Fund in Classics, established in 1996 by Susan Willis Ruff ’60 and Charles F.C. Ruff ’60 to honor the distinguished career of Helen F. North and her enduring impact on generations of Swarthmore students, is awarded to support the program of the Classics Department. At the discretion of the department, it shall be used to fund annually the Helen F. North Distinguished Lectureship in Classics and, as income permits, for
a conference or symposium with visiting scholars; summer study of Greek or Latin or research in classics-related areas by students majoring in the field; or study in Greece or Italy in classics by a graduate of the department.

The Project Pericles Fund of Swarthmore College was created in 2005 to support ambitious, social change-oriented projects of groups of Swarthmore students. Eugene M. Lang ’38 and the Board of Managers of the College contributed to the endowment, which is administered by the Lang Center for Civic and Social Responsibility.

The Theodore and Elizabeth Pierson Friend Fund for Islamic Studies was created in 2005 and is used to support the Islamic Studies Program at Swarthmore College.

The Promise Fund, established anonymously by an alumnus on the occasion of his graduation, is administered by The Cooper Foundation Committee. Income from the Promise Fund brings guest speakers, artists, and performers in music, film, dance, and theater who show promise of distinguished achievement.

The Mary Herndon Ravdin ’50 Endowment for Partners in Ministry was established in memory of Mary Herndon Ravdin in 2008 by her husband, William D. Ravdin ’50. This fund supports the Partners in Ministry program at Swarthmore College.

The Lucinda M. Lewis ’70 and Sarah Reynolds ’09 Mathematics Endowment was established in 2012 by Robert J. Reynolds. This fund supports visiting scholars to the department of mathematics and student participation in conferences. Recipient(s) will be chosen by the chair of the department of mathematics.

The Edgar and Herta Rosenblatt Fund was created in 1967 and supports the work of the faculty at Swarthmore College.

The Ruach Endowment was created in 2000 to support Hillel activities on campus.

The Richard L. Rubin Scholar Mentoring Fund was established by Richard Rubin, a professor of political science and public policy at the College, in 2003. This fund supports the mentoring program, which the Dean’s Office administers.

The Bernie Saffran Lecture Endowment was established in 2007 by students, colleagues, and friends as a tribute to this beloved and esteemed member of the College faculty. This fund is administered by the Economics Department and supports expenses associated with bringing exceptional speakers to campus.

The Sager Fund of Swarthmore College was established in 1988 by alumnus Richard Sager ’73, a leader in San Diego’s gay community. To combat homophobia and related discrimination, the fund sponsors events that focus on concerns of the lesbian, bisexual, and gay communities and promotes curricular innovation in the field of lesbian and gay studies. The fund also sponsors an annual three-day symposium. The fund is administered by a committee of women and men from the student body, alumni, staff, faculty, and administration. In 2004, Richard Sager created an "internship" to provide funding for students in internships with nonprofit organizations whose primary missions address gay/lesbian/bisexual/transgender issues. The Lang Center for Civic and Social Responsibility administers the internship.

The Scheuer-Pierson Fund, established in 1978 by Walter and Marge Scheuer ’48, supports the Economics Department.

The Schmelz Family Endowment was established in 2012 by John and Diane Schmelz. This fund supports the athletics program at Swarthmore College and activities and expenses associated with the women’s basketball program, including training trips, winter break trips, and other program enhancing projects.

The Science Center Endowment Fund was established in 2003 with a gift from Peter Weinberger of the Class of 1964. Income from this endowment will be used to support the operations and maintenance of the Science Center.

The Science Center Support Endowment was established by numerous donors to support the operation of the renovated Science Center and related academic programs.

Harold E. and Ruth Caldwell Snyder Premedical Endowment Fund was established in 1988 by Harold Cincy Snyder ’29 in appreciation for the education he and his beloved wife, Ruth Caldwell Snyder ’31, received at Swarthmore College. The fund was fully endowed through a bequest in 1992 and supports a visiting lecturer in the medical profession with a preference for practitioners who treat each patient as a whole person.

The Gil and Mary Roelofs Stott Concert Fund was established in 1997 on the 25th anniversary of the Lang Music Building. The fund was created as an expression of deep affection for the Stotts by Eugene M. Lang, Class of 1938, to recognize their special artistic talents and all that they have meant to the Swarthmore community. Each year, a new musical composition will be commissioned by the College to be performed at an annual Gil and Mary Roelofs Stott Concert at which the Gil and Mary Roelofs Stott Resident Student Artist will perform.

The Gil and Mary Roelofs Stott Concert Fund was established in 1997 on the 25th anniversary of the Lang Music Building. The fund was created as an expression of deep affection for the Stotts by Eugene M. Lang, Class of 1938, to recognize their special artistic talents and all that they have meant to the Swarthmore community. Each year, a new musical composition will be commissioned by the College to be performed at an annual Gil and Mary Roelofs Stott Concert at which the Gil and Mary Roelofs Stott Artist will perform.

The Mary and Gilmore Stott Honors Philosophy Seminar Endowment was created in 1998 by William G. Stott ’75 and by Christopher Niemczewski ’74. The fund supports a seminar offered by the Philosophy Department. It was established in honor of the parents of William G. Stott ’75.

The Student Emergency Fund was established in 2016 to help defray non-tuition costs for students who are first generation and/or low-income and/or belong to traditionally underrepresented
backgrounds in their pursuit of a Swarthmore College education. This fund is administered by the Dean’s Office.

*The Swarthmore Summer Scholars Program Endowment Fund* was established in 2016 by Mark M. ’74 and Amanda Orr ’73 Harmeling. This fund supports the Swarthmore Summer Scholars Program (S3P). The recipients will be chosen by program staff, in collaboration with the Provost’s Office.

The Swarthmore Summer Scholars Program Endowment Fund was established in 2016 by Mark M. ’74 and Amanda Orr ’73 Harmeling. This fund supports the Swarthmore Summer Scholars Program (S3P). The recipients will be chosen by program staff, in collaboration with the Provost’s Office.

*The Swarthmore Chapter of Sigma Xi Lecture Series* brings eminent scientists to the campus under its auspices throughout the year. Local members present colloquia on their own research.

*The Thatcher Fund* provides individualized assistance to students with disabilities. The purpose of the fund is to enable such students to take full advantage of the academic and extracurricular life of the College and to make Swarthmore a desirable choice for prospective students with disabilities. The fund was established in 1997.

*The Phoebe Anna Thorne Memorial Endowment* was created by a Thorne family member in 1911. The endowment supports the faculty of Swarthmore College.

*The Pat Trinder Endowment* was established by alumni and friends of Patricia E. Trinder, a member of the career planning and placement office staff, to honor her many years of dedication and support to students. The endowment supports programs to advance career planning and placement at Swarthmore College. It specifically supports alumni participation in the recruiting, placement, and mentoring efforts for students.

*The P. Linwood Urban Jr. Partners in Ministry Endowment* was created in recognition of the importance of a distinctive ecumenical program of spiritual nurture serving the entire Swarthmore College community. Income from the Urban endowment is distributed to Partners in Ministry to help provide for the compensation of the religious adviser and supporting staff of the Swarthmore Protestant community.

*The Waksman Fund for Summer Scholars* was established in 2016 by the Board of Trustees of the Waksman Foundation for Microbiology. This fund supports one scholar annually, to be named the Waksman Scholar, taking part in the Swarthmore Summer Scholars Program (S3P). This fund, which supports the Swarthmore Summer Scholars Program budget, is administered by the Provost’s Office.

*The Benjamin West Lecture*, made possible by gifts from members of the Class of 1905 and other friends of the College, is given annually on some phase of art. It is the outgrowth of the Benjamin West Society, which built up a collection of paintings, drawings, and prints, which are exhibited, as space permits, in the buildings on campus. The lecture was named for the American artist who was born in a house that stands on the campus and became president of the Royal Academy.

*The Dan and Sidney West House Endowment* was established in 2006 by Giles and Barbara Kemp to honor Vice President Dan C. West and his wife, Sidney Childs West. The income from this endowment will be used to support the maintenance, upkeep, and program expenses of the campus residence and the gardens of the vice president for development, alumni, and public relations, which also serves as guest quarters and an entertainment venue for campus visitors.

*The Lucy Gertrude Whetzel ’27 Student Emergency Fund* was established by William and Dora Grover in memory of William’s mother to support students who have an unexpected and/or emergency need for non-tuition related financial assistance during the academic year. This fund is administered by the Dean’s Office.

*The Wister Memorial Endowment* was established in 2000 by John C. and Gertrude Wister to support the Scott Arboretum.

*Kenneth R. Wynn ’74 Fund for Interdisciplinary Programs* was created in 1998 to support interdisciplinary, language-based programs that embrace a more global view of language learning than traditional sources.

*The Neil ’80 and Beth Yelsey Endowment* was established in 2004 to further the objectives and purposes of Swarthmore College. The income is unrestricted.

*The Young Family Endowment* was established in 2003 by James and Jacqueline Young, parents of Scott Young ’06. The fund supports the Swarthmore College radio station, WSRN.
Inquiries concerning admission and applications should be addressed to the Vice President and Dean of Admissions, Swarthmore College, 500 College Avenue, Swarthmore PA 19081-1390 or admissions@swarthmore.edu. Office telephone: 610-328-8300 or 800-667-3110.

3.1 General Statement

In the selection of students, the College seeks those qualities of character, social responsibility, and intellectual capacity that it is primarily concerned to develop. It seeks them not in isolation but as essential elements of the whole personality of candidates for admission.

Selection is important and difficult. No simple formula will be effective. The task is to choose those who give promise of distinction in the quality of their personal lives, in service to the community, or in leadership in their chosen fields. Swarthmore College must choose its students on the basis of their academic achievement and commitment to intellectual inquiry as well as their individual future worth to society and of their collective contribution to the College.

It is the College’s policy to have the student body represent not only different parts of the United States but also many foreign countries; public, independent, and religiously affiliated schools; and various economic, social, religious, ethnic, and racial backgrounds. The College is also concerned to include in each class the sons and daughters of alumni and members of the Society of Friends.

Admission to the first-year class is normally based on the satisfactory completion of a 4-year secondary school program. Under some circumstances, students who have virtually completed the normal 4-year program in 3 years will be considered for admission, provided they meet the competition of other candidates in general maturity as well as readiness for a rigorous academic program. Home-schooled students should make every effort to complete the application with information that is appropriate to their experience. It is useful to note that Swarthmore is looking for the same information about a candidate as is required from a student with more traditional secondary schooling.

Applicants considering a major in engineering are encouraged to take the SAT Math level 2 Subject Test.

A brief statement about why the student is applying to Swarthmore.

Co-curricular and extracurricular activities.

Applicants must have satisfactory standing in school and standardized tests as well as strong intellectual interests. The College is also interested in strength of character, promise of growth, initiative, seriousness of purpose, distinction in personal and extracurricular interests, and a sense of social responsibility. The College values the diversity that varied interests and backgrounds can bring to the community.

3.2 Preparation

Swarthmore does not require a set plan of secondary school courses as preparation for its program. The election of specific subjects is left to the student and school advisers. In general, preparation should include the following:

- Accurate and effective use of the English language in reading, writing, and speaking.
- Comprehension and application of the principles of mathematics.
- The strongest possible command of one or two foreign languages. The College encourages students to study at least one language for 4 years, if possible.
- Substantial coursework in history and social studies; literature, art, and music; and mathematics and the sciences. Variations of choice and emphasis are acceptable, although some work in each of the three groups is recommended.

Those planning to major in engineering should present work in chemistry, physics, and 4 years of mathematics, including algebra, geometry, trigonometry, and calculus.

3.3 Application Process

Application to the College may be submitted through either the Regular Decision or one of the Early Decision plans. Applicants follow the same procedures, submit the same supporting materials, and are evaluated by the same criteria under each plan.

The Regular Decision plan is designed for those candidates who wish to keep open several different options for their undergraduate education throughout the admissions process. Applications under this plan will be accepted at any time up to the Jan. 1 deadline, but the application should be submitted as early as possible to create a file for the candidate to which supporting material will be added up to the deadline.

The Early Decision plans are designed for candidates who have thoroughly and thoughtfully
investigated Swarthmore and other colleges and found Swarthmore to be an unequivocal first choice. On applying to Swarthmore College, Early Decision candidates may not file an early decision application at other colleges, but they may file early action/regular applications at other colleges with the understanding that these applications will be withdrawn upon admission to Swarthmore. Any Early Decision candidate not admitted will receive one of two determinations: a deferral of decision, which secures reconsideration for the candidate among the Regular Decision candidates, or a denial of admission, which withdraws the application from further consideration. If one of these determinations is made, the applicant is free to apply to other institutions.

Application under any plan must be accompanied by a nonrefundable application fee of $60 or fee waiver (which must be approved by the secondary school counselor). Timetables for the plans are the following:

**Fall Early Decision**
- Application deadline Nov. 15
- Notification of candidate by Dec. 15

**Winter Early Decision**
- Application deadline Jan. 1
- Notification of candidate by Feb. 15

**Regular Decision**
- Application deadline Jan. 1
- Notification of candidate by April 1
- Candidate reply date May 1

Under certain circumstances, admitted students may apply in writing to defer their admission for one year. These requests must be received by May 1 and approved in writing by the dean of admissions, and students must confirm their plans for the year by June 1. The dean of admissions may choose to review other requests on a case-by-case basis. Students granted deferment may neither apply to nor enroll at another degree-granting college/university program.

Swarthmore College places strong emphasis on academic achievement and personal character. An offer of admission to Swarthmore College is dependent on a student maintaining his or her standard of academic achievement before enrolling at the College. An offer of admission is also dependent on a student’s continued demonstration of character and high standards for personal conduct. Lapses in either category may be grounds for rescinding an offer of admission.

For U.S. citizens, permanent residents, undocumented, or DACA-eligible students applying as first-year or transfer students, admission to Swarthmore is determined without regard to financial need. See information concerning financial aid.

### 3.4 Interview

An admissions interview with a representative of the College is an optional part of the first-year application process. Prospective first-year applicants should take the initiative in arranging for this interview. On-campus interviews are available to rising seniors from June through early December. Students are encouraged to complete the interview before submitting an application to the College. Those who can reach Swarthmore with no more than a half-day’s trip are urged to make an appointment to visit the College for this purpose. Other students may contact the Admissions Office in the fall of their senior year to request a meeting with an alumni representative in their own area. The deadline to request an alumni interview is in late November each year.

Applicants for transfer may interview with an alumni representative. Transfer interviews are optional, may be requested in the winter, and must be completed by the transfer application deadline of April 1.

Arrangements for on-campus interview appointments for prospective first-year applicants, off-campus alumni interviews, or for transfer interviews can be made through the admissions website.

### 3.5 Advanced Placement

Enrolled first-year students with special credentials may be eligible during the first semester for advanced placement (placement into courses with prerequisites) and/or credit toward graduation from Swarthmore (32 credits are required), however, credit is normally only available for high-scoring work in certain Advanced Placement (AP) examinations of the College Entrance Examination Board, certain higher-level examinations of the International Baccalaureate, or certain other foreign certifications (such as British A-Levels or the German Abitur). Sometimes placement or possibly credit might be awarded for courses taken at another college. Every effort is made to place students at the appropriate level, but no department is required to give placement or credit for special credentials. All placement or credit decisions are made on a subject-by-subject basis by the individual Swarthmore departments. Credit for examination credentials is available only for examinations taken before matriculation at Swarthmore. Credit is denied or revoked if a student chooses to take a course at Swarthmore that the Swarthmore department says essentially repeats the work covered by the credit.

Departmental AP-credit policies are posted on the registrar’s website under "Policies." Departments may set additional requirements. For instance, matriculated students may be required to take a Swarthmore placement examination to validate their previous work.
Swarthmore normally does not grant degree credit for college work done prior to starting school at Swarthmore (including the summer before Swarthmore) but advanced placement into courses with prerequisites may be possible. Students who wish to have courses taken at another college considered for either advanced placement or credit must be prepared to provide as needed an official transcript from the institution attended as well as written work (papers, examinations); syllabi; and reading lists for the coursework to be evaluated by the department concerned. Transcripts are evaluated by the registrar; grades must be straight C or better for credit, but departments make the placement or credit decisions. Any such requests for placement or credit must be made within the first year at Swarthmore.

In some cases, students may qualify for advanced standing and may become juniors in their second year. To qualify for advanced standing, a student must do satisfactory work in the first semester, obtain 14 credits by the end of the first year, intend to complete the degree requirements in 3 years, and signify this intention when she or he applies for a major during the spring of the first year.

3.6 International Admissions
The College is deeply committed to a strong international presence on campus. The application process is the same as for U.S. citizens and permanent residents of the United States with the following exceptions:

- While financial aid awards are loan free, admission is not need-blind. Students must submit additional financial documentation. Applying for financial aid places the student in the most selective subgroup of the total application pool regardless of the parental contribution.

- Demonstrated proficiency in English is required of those for whom English is not their first language. This may be in the form of a standardized test for non-native speakers of English, such as TOEFL or IELTS, or superior academic achievement in a school where English is the language of instruction. Although not required, an interview on campus, via an online platform, or with a College admissions representative overseas is considered to be very helpful.

- Required standardized tests (SAT or ACT) are waived for those who live in countries where such testing is unavailable. In countries where testing is available, applicants are strongly advised to make test arrangements early and to have scores reported directly to Swarthmore College by the appropriate application deadline.

- It is the applicant’s responsibility to guarantee the authenticity of all submitted credentials. This includes notarized translations of official documents and certified school transcripts signed by the appropriate school staff member.

- The College does not accept transfer applications from foreign nationals who require financial aid.

3.7 Applications for Transfer
The College welcomes well-qualified transfer applicants. Applicants for transfer must have had an outstanding academic record in the institution attended and must present transcripts for both college and secondary school work, including an official statement indicating that the student is leaving the institution attended in good standing. Students who have completed the equivalent of two or more semesters of university-level work must apply for transfer admission. Admission status for students who have completed less than the equivalent of two semesters of university-level work will be decided on a case-by-case basis. Results of the SAT and ACT are optional for transfer applicants.

Four semesters of study at Swarthmore College constitute the minimum requirement for a degree, two of which must be those of the senior year. Applications for transfer must be filed by April 1 of the year in which entrance is desired. Swarthmore does not have a midyear transfer application process. Need-based financial assistance is available for transfer students who are U.S. citizens, permanent residents, undocumented, or DACA-eligible students in the United States. Transfer applications are not accepted from foreign national students who require financial aid.

Transfer applicants are notified of decisions by mid to late May. Students who have already completed a bachelor's degree, or higher, are not eligible for transfer admission to Swarthmore College.
4 Expenses

4.1 Student Charges
Total charges for the 2019-2020 academic year (two semesters) are as follows:

<table>
<thead>
<tr>
<th>Item</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>$54,256</td>
</tr>
<tr>
<td>Room</td>
<td>$8,252</td>
</tr>
<tr>
<td>Board</td>
<td>$7,836</td>
</tr>
<tr>
<td>Student activities fee</td>
<td>$400</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$70,744</strong></td>
</tr>
</tbody>
</table>

These are the annual charges billed by the College. Students and their parents, however, should plan for expenditures associated with books, travel, parking, and other personal items. In addition, the College will bill for unpaid library fines, Worth Health Center fees, and other fees and fines not collected at the source.

Students engaged in independent projects away from the College for which regular academic credit is anticipated are expected to register in advance in the usual way and pay normal tuition. If the student is away from the College for a full semester, no charge for room and board will be made. However, if a student is away for only a part of a semester, the preceding charges may be made on a pro rata basis.

Students who have not satisfied their financial obligations (except for any obligation covered as a result of veterans benefits beneficiaries using Ch. 33 Post-9/11 GI Bill or Ch 31 VR&E benefits) will not be permitted to return to campus, attend any classes, live in campus housing, have a meal plan, register via add/drop (or any other method) for any classes, enroll for the following semester, participate in the room lottery, obtain a transcript, or be permitted to be graduated. Late fees of 1.5 percent per month will accrue on all past-due balances.

4.1.1 Approved Off-Campus Study
Students who wish to receive Swarthmore credit for study abroad and approve domestic Off-Campus Study programs must, for the semester or year of participation, pay the full Swarthmore charges (excluding the student activities fee). Financial aid is normally applicable, with the approval of the Off-Campus Study Office. Students should begin working with the Off-Campus Study Office well in advance for academic and administrative planning.

4.2 Payment Policy
Semester bills are sent in July and December. Payment for the first semester is due by July 22, 2019 and for the second semester by January 2, 2020. A 1.5 percent late fee will be assessed monthly on payments received after the due date. Many parents have indicated a preference to pay College charges on a monthly basis rather than in two installments. For this reason, Swarthmore offers a monthly payment plan, which provides for payment in installments without interest charges.

4.3 Withdrawal Policy
Charges for tuition and fees will be reduced for students who withdraw for reasons approved by the dean before or during a semester. Reductions in charges will be made in the following ways:

<table>
<thead>
<tr>
<th>For Students Who Withdraw</th>
<th>Tuition, Room, Board* and Fees Reduced</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before start of classes</td>
<td>By 100 percent</td>
</tr>
<tr>
<td>During week 1</td>
<td>By 100 percent</td>
</tr>
<tr>
<td>During week 2</td>
<td>By 90 percent</td>
</tr>
<tr>
<td>During week 3</td>
<td>By 80 percent</td>
</tr>
<tr>
<td>During week 4</td>
<td>By 70 percent</td>
</tr>
<tr>
<td>During week 5</td>
<td>By 60 percent</td>
</tr>
<tr>
<td>During week 6</td>
<td>By 50 percent</td>
</tr>
<tr>
<td>During week 7</td>
<td>By 40 percent</td>
</tr>
<tr>
<td>During week 8</td>
<td>By 30 percent</td>
</tr>
<tr>
<td>During week 9 and beyond</td>
<td>No further reduction on tuition, room, board, or fees</td>
</tr>
</tbody>
</table>

* Board plan reductions may incur additional reduction based on the number of Points and/or Swat points that have been spent from your plan.
4 Expenses

4.3.1 Withdrawal from Approved Off-Campus Study
If a student elects to withdraw from an Off-Campus Study abroad program, or is required by the College to withdraw from the program, either before the program begins, or after the program is underway, the student also assumes financial responsibility for the expenses that the College has either paid out or obligated on behalf of the student. Unrecoverable expenses may include, but are not limited to, the payment of tuition, room and board, and travel allowances. The student must repay any unrecoverable expenses and any travel, meal, and/or lodgings allowances that have been advanced, before he or she will be permitted to re-enroll at the College, receive an official transcript, or be graduated from the College. Financial aid will not be available for the purpose of covering these costs. Once the obligated and unrecoverable amounts have been met by the student, College charges will be reduced in a manner consistent with the charge reduction/withdrawal policy for tuition, room, and board set forth in section 4.3.

4.4 Housing Fines
Any time a student selects a room in the lottery that they do not use, the minimum fine is $100.

4.4.1 Fall Semester
If a student selects a room in the lottery and:
1. Chooses to live off campus and is still enrolled, they will be assessed:
   a. A $500 penalty unless everyone in the space notifies the Office of Student Engagement before June 1 that they will not be occupying the room. If everyone does notify the office, the fine will be $100 each.
   b. A $500 penalty for each person moving off campus when notice is given between June 1 and the 8th week of classes.
   c. No room refund when notice is given after the 8th week.
2. Takes a leave of absence and notifies the Dean’s Office, they will be assessed:
   a. No penalty if notice is given before Aug. 1.
   b. A $100 penalty if notice is given between Aug. 1 and Jan. 5.
   c. A $500 penalty if notice is given between Jan. 5 and the 8th week of classes.
   d. No room refund after the 8th week.

4.4.2 Spring Semester
If a student selects a room in the December lottery or already has a room from fall semester and:
1. Chooses to live off campus and is still enrolled, they will be assessed:
   a. A $250 penalty unless everyone in the unit leaves this space and notifies the Office of Student Engagement before Dec. 1.
   b. A $500 penalty each if notice is given between Dec. 1 and the 8th week of classes.
   c. No room refund if notice is received after the 8th week.
2. Takes a leave of absence and notifies the Dean’s Office, they will be assessed:
   a. No penalty if notice is given before Dec. 1.
   b. A $100 penalty if notice is given between Dec. 1 and Jan. 5.
   c. A $500 penalty if notice is given between Jan. 5 and the 8th week of classes.
   d. No room refund after the 8th week.

4.5 Inquiries
All correspondence regarding payment of student charges should be addressed to Linda Weindel, student accounts manager, or phone 610-328-8396.
Swarthmore’s commitment to financial aid and access is at the core of our educational mission. We understand that students are admitted from a variety of economic backgrounds. The College strives to make it possible for all admitted students to attend Swarthmore, regardless of their ability to pay and meets 100% of determined need for all admitted students. Decisions about financial aid eligibility and admission to the College are made separately for students who are U.S. citizens, permanent residents, or undocumented/DACA students graduating from a U.S. high school. Nearly 56 percent of our student body received need-based aid from an overall financial aid budget of more than $45 million during the 2018-19 academic year. The average aid award for 2018-19 was $52,213, with awards ranging from $1,000 - $71,662.

Although admission and financial aid decisions are made separately, they are made concurrently. A prospective student should apply for Swarthmore’s financial aid and outside assistance when applying for admission to Swarthmore. Instructions for completing a financial aid application can be found at www.swarthmore.edu/financial-aid. Our financial aid application process is thorough and requires submission of family information as well as income documentation so that the College can base the financial aid decision on a holistic picture of a family’s economic situation. Once a student submits a financial aid application, our Financial Aid Committee carefully considers all of the family’s detailed information, which is used to determine the family’s ability to contribute to the costs of a Swarthmore education.

For 2019-2020, the College’s billed charges, which include tuition, room, board, and a student activity fee, will be $70,744. The activity fee covers admission to all social, cultural, and athletic events on campus, as well as printing and laundry. The Financial Aid Office uses the larger figure of $73,524 as an estimated total cost of attendance for the purposes of determining aid; this figure includes $1,380 for personal expenses and $1,400 for books and supplies. An allowance to cover the cost of travel for domestic students who live more than 100 miles from the College varies. Although Swarthmore financial aid awards are loan-free, families might choose to borrow loans to pay a portion of the educational expenses (see section 5.2).

The College reviews each student’s family financial situation annually, in keeping with our policy of basing financial aid on determined need. Students who would like to be considered for a financial aid award for the next academic year must submit a new financial aid application each year. Financial Aid eligibility may change from year-to-year. Assistance is available only during a normal-length undergraduate program (eight semesters) and only if a student enrolls full-time each semester, earns four credits each semester, and makes satisfactory academic progress. These factors also apply in our consideration of a sibling’s undergraduate educational expenses. Students who choose to live off-campus will not receive Swarthmore Scholarship or Supplemental Educational Opportunity Grants in excess of their college bills. However, the cost of living off-campus will be recognized in the calculation of a student’s financial need, and other outside sources of aid may be used to help meet off-campus living expenses once the college bill is satisfied. Although eligibility for federal aid funds is limited to students who are able to complete and to submit the Statement of Registration Compliance, additional funds have been made available for those who are unable to accept need-based federal aid because they have not registered with the U.S. Selective Service. U.S. citizens and permanent residents who have not previously received financial aid may become eligible and may apply to receive aid if their financial situations have changed. A student who marries may continue to apply for aid, though parents are still expected to contribute to the student’s education. Financial support for international students is limited and must be requested during the admission application process. New financial aid applications from international students cannot be considered after admission. Answers to most financial aid questions are available at www.swarthmore.edu/financialaid.

### 5.1 Scholarships

For the academic year 2018-2019, the College will have awarded more than $45 million in Swarthmore Scholarship funds. About one-half of that sum was provided through the generosity of alumni and friends by special gifts and the scholarships listed in section 5.4. Students do not apply for a specific College scholarship. Rather, the College decides who is to receive restricted endowed scholarships or support from general scholarship funds. Although the qualifying criteria for awarding most endowed scholarships remain general, some donors have established explicit guidelines that closely mirror the interests of the individual for whom the scholarship is named. However, financial need is a requirement for all College scholarships except the McCabe Scholarship. Federal Pell Grants and Federal Supplemental Educational Opportunity Grants are also available to eligible students.

### 5.2 Loan Funds

Some families use loans to pay for part of their college costs. First-year students may borrow up to $5,500; sophomores may borrow $6,500, and juniors and seniors may borrow up to $7,500. The Federal Direct Stafford Loan is a long-term, low-interest educational loan. Eligibility for a Federal Direct Stafford Loan is determined by the College,
5 Financial Aid

using federal guidelines. Parents who wish to borrow might consider the Federal Direct PLUS Loan. Parents may borrow up to the full cost of annual attendance minus any financial aid accepted by their student. Repayment of the PLUS loan may be made over a 10-year period. Students must complete the Free Application for Federal Student Aid (FAFSA) for the Direct Stafford or Direct PLUS loans. For more information about these loan programs or other financing options, go to our website at www.swarthmore.edu/financial-aid.

5.3 Student Employment

Student employment on the Swarthmore campus is coordinated by the Student Employment Office (SEO). Campus jobs are available in such areas as our libraries, Information Technology Services, the student-run coffeehouse, Sharples Dining Hall, Scott Arboretum, most academic and administrative offices, and many other places on campus. Most students apply for campus positions when they arrive in the fall, but some new job openings are posted for the spring semester. On-campus hourly rates of pay, are updated annually and can be found on the College's Student Payroll website. Most students who receive financial aid are offered the opportunity to earn up to just over $2,100 during the academic year, and are given hiring priority; in addition, there are jobs available for non-aided students who wish to work on campus. Students are encouraged to keep a moderate work schedule (no more than about seven or eight hours per week) so that their academic performance remains a top priority. About 1,200 of our 1,620 students choose to work.

5.4 Scholarship Funds

All students who demonstrate financial need are offered scholarship aid, some of which is drawn from the following named funds. However, students should not worry if they do not fit the specific restrictions listed because their scholarships will instead be drawn from other sources not listed here. By completing the aid application process, a student will be considered for the following funds. No separate application is needed.

(Financial need is a requirement for all scholarships except the McCabe Scholarships. No separate application is required to apply for the following:)

The Catherine G. '72 and Ernest B. '72 Abbott Scholarship, established in 1999 by Catherine and Ernest Abbott, is awarded to a first-year student who shows great promise. This renewable scholarship is for a man or woman who demonstrates financial need and academic excellence.

The Karim Abdel-Motaal '90 Egypt Scholarship was established in 2012. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable. Preference will be given first to students from Egypt, secondarily to Arab or Arab American students and thence to international students or students from the United States. For each of the preceding preferences, additional preference will be given to women candidates.

The Frank and Alice Adelberg Scholarship was established by Stephen M. Harnik '75 in 2010 in his capacity as executor of their charitable estate. The Adelbergs were Holocaust survivors who believed deeply in Jewish causes which promoted peaceful international discourse and who dedicated their benefactions to such endeavors. The scholarship is awarded to students on the basis of academic merit and financial need and is renewable. Preference will be given to students who have an interest in human rights, conflict resolution, and the promotion of peace and understanding.

The Lisa P. Albert '81 Scholarship, established in 1983 by Lisa Albert and her mother, Stella Saltonstall, is awarded to a young man or woman on the basis of scholarship and financial need, with preference given to a student with a demonstrated interest in the humanities.

The George I. Alden Scholarship, established in 1989 as a memorial by the Alden Trust with matching funds from several individual donors, is awarded on the basis of academic merit and financial need with preference given to a student from New England studying in the sciences or engineering.

The Vivian B. Allen Foundation, established in 1969, provides scholarship aid to enable foreign students to attend Swarthmore College as part of the foundation’s interest in the international exchange of students.

The Susan W. Almy ’68 Scholarship was established by this alumnna in 2003. The fund supports financial aid for needy students at Swarthmore College, with preference given to students interested in international careers, especially in developing nations.

The Alumni Council Scholarship, established in 2000 by the Alumni Council of Swarthmore College, is awarded based on academic merit and financial need and is renewable.

The Alumni Scholarship is awarded to students on the basis of financial need. Established in 1991, it is funded through alumni gifts and bequests to encourage donors who cannot fund a fully endowed named scholarship.

The John R. ’53 and Joyce B. ’55 Ambruster Scholarship was created in 2001. The scholarship is awarded on the basis of academic merit and financial need.

The Anadarko Endowed Scholarship was established by Mike Nelson ’81 and Michelle Murray in 2012. This renewable scholarship is
awarded on the basis of academic merit and financial need, with preference given to students who come from the states of Oklahoma, New Mexico, Nebraska, Kansas or Arkansas.

The Anderson Family Endowed Scholarship was established in 2018. The scholarship shall be awarded to students on the basis of academic merit and financial need, with a preference for students from Northern Ireland; Plymouth County, Massachusetts; and New York City, and is renewable.

The Janice R. Anderson ’42 Scholarship, established in 2006, is awarded on the basis of academic merit and financial need.

The Smitha Arekapudi ’99 Scholarship was established in 2006 by Drs. Bapu and Vijayalakshmi Arekapudi. This renewable scholarship is awarded on the basis of academic merit and financial need. Preference is given to a premed student, with a background in the humanities and social sciences, who plans to become a doctor and care for patients. Preference is also given to students who show commitment to socially responsible citizenship, with demonstrated qualities of exceptional character, intellectual curiosity, and leadership.

The Evenor Armington Scholarship, created in 1980 in recognition of the long-standing and affectionate connection between the Armington family and Swarthmore College, is given each year to a worthy student with financial need.

The Paul ’62 and Catherine ’60 Armington Endowed Scholarship was established in 2005. The scholarship is awarded on the basis of academic merit and financial need and is renewable. Preference will be given to students who have plans to or are currently studying in Africa.

The Barclay G. Atkinson Scholarship and Rebecca M. Atkinson Scholarship were established in 1892 by Rebecca M. Atkinson and are now part of the general scholarship fund.

The Frank and Marie Aydelotte Scholarship, established in 1946 by family, friends, and alumni, is awarded to a new student who shows promise of distinguished intellectual attainment based on sound character and personality. The award is made in honor of Frank Aydelotte, president of the College from 1921 to 1940 and originator of the Honors Program at Swarthmore, and Marie Osgood Aydelotte, his wife.

The David Baltimore ’66 Scholarship was established by an anonymous donor in 2000. This renewable scholarship is awarded with preference given to a junior or senior majoring in biology or chemistry.

The Norman Barasch Scholarship was established in 2006 by Richard Barasch ’75 in honor of his father. This renewable scholarship is awarded on the basis of academic merit and financial need.

The Philip and Roslyn Barbash, M.D., Scholarship was endowed in 1990 as a memorial by their daughter and son-in-law, Babette B. Weksler, M.D., ’58 and Marc E. Weksler, M.D., ’58. This renewable scholarship is awarded on the basis of academic merit and financial need. Preference is given to women with an interest in the sciences and, in particular, in the environment.

The Charles F. Barber Scholarship was established in 2009 by Charles F. Barber, a member of the Board of Managers from 1967 to 1974, in memory of his wife of 62 years, Lois LaCroix Barber. Lois and Charles raised four children, including Robin Barber ’74. The scholarship is awarded to students on the basis of academic merit and financial need and is renewable.

The W. Herman Barcus ’27 Scholarship, established in his memory in 1982 by his widow, Kate, and his employer, Sun Oil, is awarded to a student with financial need.

The Philip H. Barley ’66 Memorial Scholarship was established in 1968 in memory of Philip H. Barley by his family and friends and the Class of 1966, which he served as president. The scholarship provides financial assistance for a junior or senior who has demonstrated outstanding leadership qualities at Swarthmore.

The Franklin E. Barr Jr. ’48 Scholarship was established in 1984 by Betty Barr to honor her husband’s memory and is awarded to a first-year student who has broad academic and extracurricular interests and shows promise of developing these abilities for the betterment of society. This scholarship, based on financial need, is renewable for three years.

The Robert A. Barr, Jr. ’56 Scholarship was established by a group of alumni in 2011 in honor of Robert A. Barr, Jr., who served Swarthmore College as Dean of Men from 1962-1970, and as Dean of Admissions from 1977-1994. This scholarship was created to honor Dean Barr for his contributions to the lives of Swarthmore students; as an unfailingly supportive adviser to so many he admitted to the College, and as a role model who taught us how to treat and respect one another. This renewable scholarship will be awarded to a first-year student with strong academic credentials who also shows promise of making substantial contributions to the co-curricular life of the campus. When appropriate, preference will be given to sons and daughters of Swarthmore alumni.

The Peter B. Bart ’54 Scholarship, established in 2005, is awarded to deserving students.

The Connie L. Baxter Scholarship was established by Eugene M. Lang ’38 in 2010 in honor of Connie L. Baxter, in recognition of her extraordinary dedication as a member of the Swarthmore College staff. The scholarship shall be awarded to students on the basis of academic merit
and financial need and is renewable. Preference will be given to students who transfer to Swarthmore from a community college, or to students with an interest in classics or theater. The H. Albert Beekhuis Scholarship in engineering is awarded on the basis of academic merit and financial need to a first-year student and is renewable through the senior year as long as that student retains a major in engineering. This scholarship was endowed in 1989 through the generous bequest of Dr. Beekhuis, neighbor, friend, and successful chemical engineer.

The Patty Y. and A.J. Bekavac Scholarship was established in 1997 by their daughter, Nancy Y. Bekavac ’69, the scholarship is awarded on the basis of financial need, with preference given to students from western Pennsylvania.

The Margaret Fraser Bell ’53 Scholarship, created in 2000 in her memory by her husband, Monroe Bell, is awarded each year to a junior on the basis of academic merit and financial need, with preference given to a student majoring in Russian.

The Sherry F. Bellamy ’74 Scholarship was established in 2003 by Sherry Bellamy. This renewable scholarship is awarded on the basis of academic merit and financial need.

The Belville Scholarship was established in 1882 by Catharine Reading Belville, Class of 1919. Honoring Robert Chambers Belville and Margaret Klein Belville, the scholarship is awarded annually to an incoming student of particular promise.

The Brand and Frances Blanshard Scholarship, established in 1987 by a former student to honor the memory of this philosophy professor and his wife, is given to a deserving student with high academic promise.

The Al and Peggi Bloom Endowment for Advancing Swarthmore’s Global Reach was established in 2005. This endowment supports international student financial aid and supports faculty effort in any discipline or across disciplines that enhances the global reach of the college curriculum.

The Jeanne Cotten Blum ’40 Scholarship, established in 2003 by Jeanne Cotten Blum, is awarded on the basis of academic merit and financial need. The scholarship is renewable.

The Frank ’36 and Benita Blumenthal Scholarship was established in 2006 by Frank Blumenthal. This renewable scholarship is awarded on the basis of academic merit and financial need.

The Curtis Bok Scholarship was established in 1964, the College’s centennial year, in honor of the late Philadelphia attorney, author, and jurist, who was a Quaker and honorary alumnus of Swarthmore. The renewable scholarship is assigned annually to a junior or senior whose qualities of mind and character indicate a potential for humanitarian service such as Curtis Bok himself rendered and would have wished to develop in young people. Students in any field of study, and from any part of this country or from abroad, are eligible.

The Winifred Cammack Bond ’43 Scholarship was established by Winifred Cammack Bond and her husband, George Cline Bond ’42, to be awarded to a first-year student who is the first member of his or her family to attend college, with a high school record showing strong academic, athletic, and leadership abilities. Established 2005.

The Book and Key Scholarship was established in 1965 by members of Book and Key, a men’s secret honorary society, when the society was dissolved. The scholarship is awarded to a member of the senior class.

The Anne C. Booth ’32 Endowed Scholarship was established in 2006 by this alumna who wanted students to be able to share the special educational experience she enjoyed, regardless of financial need. Although Anne died in 2006, her memory lives on through this scholarship.

The Frank R. Borchert Jr. ’58 and Thomas K. Glennan Jr. ’57 Scholarship was established in 2002 by T. Keith ’82 and Kathryn P. ’82 Glennan in honor and memory of their uncle and father who, from their days as fraternity brothers at Swarthmore, became lifelong friends and brothers-in-law. They shared a common commitment to educational excellence, and each devoted his professional life to this cause. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Edward S. Bower ’42 Memorial Scholarship, established in 1958 by Mr. and Mrs. Ward T. Bower in memory of their son, is awarded annually to a student who ranks high in scholarship, character, and personality.

The George ’38 and Josephine Clarke ’41 Braden Scholarship was established in 1999 by their children in honor of George and in memory of Josephine. The renewable scholarship is awarded to a student with demonstrated need for financial assistance, with preference for a child of immigrant parents or guardians.

The William A. Bradford Jr. ’66 Scholarship was established in 2000 by William Bradford. The renewable scholarship provides financial assistance to a student who shows great promise and is based on academic merit and financial need.

The Thompson Bradley Scholarship was established in 2016 in honor of Thompson Bradley, Professor Emeritus of Russian. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable. Preference will be given to students with a demonstrated passion for social justice.

The Carol Paxson Brainerd ’26 Scholarship, established in 2001, is awarded on the basis of financial need and academic merit.
5 Financial Aid

The Susan Goldman Brandes ’76 Memorial Scholarship was established in 2008 by her husband, Lee Brandes. The renewable scholarship is awarded to students on the basis of academic merit and financial need. Preference is given to students majoring in chemistry.

The Daniel Walter Brenner ’74 Memorial Scholarship, established in 1979 by family and friends in memory of Daniel W. Brenner, is awarded to a senior majoring in biology who is distinguished for scholarship and has an interest in plant ecology, wildlife preservation, or animal behavior research. The recipient is chosen with the approval of the biology faculty.

The Leon Willard Briggs ’17 Scholarship, established in 1979 with a bequest from Ina Carey Diller in honor of her husband, is awarded to a worthy student with financial need.

The John S. Brod ’34 Scholarship, established in 1984 with gifts from this chemistry major and his employer, Procter & Gamble, is awarded to a deserving student on the basis of academic merit and financial need.

The John G. Brokaw Scholarship was established in 2005 by Lawrence Jean Richardson ’78 and Jacqueline Brokaw Richardson ’80. It is awarded on the basis of academic merit and financial need.

The Robert C. Brooks Scholarship was established in 1964 by several of his former students as a memorial to Professor Brooks, who taught political science at Swarthmore from 1912 to 1941. The scholarship is awarded to students on the basis of academic merit and financial need.

The Edna Pownall Buffington, Class of 1898, Scholarship was established by a bequest from Albert Buffington, Class of 1896, during 1964, the College’s centennial year. This scholarship honors a graduate and a longtime resident of Swarthmore from 1898 to 1941. The scholarship is awarded to students on the basis of academic merit and financial need.

The Class of 1913 Scholarship, established in 1940, is awarded to a student with financial need.

The Leon Willard Briggs ’17 Scholarship, established in 1979 with a bequest from Ina Carey Diller in honor of her husband, is awarded to a worthy student with financial need.

The Elinor Jones Clapp ’46 Scholarship was established in 2003. The renewable scholarship is awarded on the basis of academic merit and financial need with preference given to students who are U.S. citizens residing abroad.

The William ’17 and Eleanor Stabler ’18 Clarke Scholarships, established in 1985 in their honor by W. Marshall ’47 and Cornelia Clarke ’46 Schmidt, are awarded to two worthy first-year students with financial need. Preference for these renewable scholarships is accorded to members of the Society of Friends.

The Class of 1914 Scholarship, established on the occasion of the class’s 50th reunion, is awarded to a student who has demonstrated financial need.

The Class of 1915 Scholarship, established on the occasion of the class’s 50th reunion, is awarded to a student who has demonstrated financial need.

The Class of 1925 Scholarship, created on the occasion of the class’s 50th reunion, is awarded on the basis of academic merit and financial need.

The Class of 1930 Scholarship was endowed on the occasion of the class’s 60th reunion. The renewable scholarship is awarded alternately to a woman or a man on the basis of sound character and academic achievement, with preference given to those who exercise leadership in athletics and community service.

The Class of 1932 Scholarship was established on the occasion of the class’s 70th reunion. This
renewable scholarship is awarded on the basis of academic merit and financial need.  

The Class of 1938 Harriet and William Carroll Scholarship was established on the occasion of the class’s 65th reunion by their classmates and members of their family in honor of the Carrolls’ long-standing service to the College. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Class of 1939 Scholarship was established at the 50th reunion of the class in fond memory of Frank Aydelotte, president of the College from 1921 to 1940, and his wife, Marie Aydelotte. The renewable scholarship is awarded to a worthy student with financial need.

The Class of 1941 Scholarship was created in celebration of the 50th reunion of the class. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Class of 1943 Scholarship, established to honor the 50th reunion of that class, is awarded to a student in the sophomore class on the basis of sound character and academic achievement, with preference given to those participating in athletics and community service. The scholarship is renewable through the senior year.

The Class of 1946 Scholarship was established on the occasion of the class’s 50th reunion in recognition of the Swarthmore tradition that so influenced its members.

The Class of 1949 Scholarship was established in 1999 in celebration of the class’s 50th reunion. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Class of 1950 Scholarship, established on the occasion of the class’s 50th reunion, is awarded to one or more deserving students. It is renewable.

The Class of 1952 Evans H. Burn Memorial Scholarship, established on the occasion of the class’s 50th reunion in memory of the class’s longtime president, is awarded on the basis of academic merit and financial need. It is renewable.

The Class of 1954 Scholarship, established on the occasion of the class’s 50th reunion, is awarded on the basis of academic merit and financial need. It is renewable.

The Class of 1956 Scholarship, established on the occasion of the class’s 25th reunion, is awarded on the basis of academic merit and financial need.

The Class of 1957 Gilmore Stott Memorial Scholarship, established on the occasion of the class’s 50th reunion, is in memory of Dean Gilmore Stott, who died in 2005. A beloved College professor and dean for 55 years who played the viola in the College orchestra, taught ethics, and counseled thousands of students; he was widely admired for his intelligence, judicial manner, modesty, gentleness, and consideration of others. This renewable scholarship is awarded, on the basis of academic merit and financial need, to a student who shares some of Dean Stott’s wonderful characteristics.

The Class of 1960 Scholarship was created in honor of the 50th reunion of the class. This renewable scholarship shall be awarded to students on the basis of academic merit and financial need.

The Class of 1963 Scholarship, awarded on the basis of academic merit and financial need, is renewable through the senior year. The scholarship was created in honor of the class’s 25th reunion.

The Class of 1964 Scholarship, established in honor of their 50th reunion, is renewable and awarded to students on the basis of academic merit and financial need.

The Class of 1965 Scholarship was established in 2015 in honor of the class’s 50th reunion. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable.

The Class of 1967 Scholarship was established in 2012 on the occasion of the Class’s 45th reunion. The renewable scholarship is awarded to students on the basis of academic merit and financial need.

The Class of 1969 Scholarship was established at the 25th reunion of the class in honor of the contributions made by Courtney Smith, president of Swarthmore College from 1953 to 1969. The scholarship was given with bittersweet memories of the campus turmoil of the 1960s and with confidence in the power of open discussion and reconciliation. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Class of 1976 Scholarship was established in 2013 in honor of the class’s upcoming 40th reunion in 2016. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable.

The Cochran Memorial Scholarship, established in 1979 in memory of the Cochran family by the estate of Marie A. Cochran, is awarded annually to a student who has demonstrated financial need.

The Robert K. Enders Scholarship, established by his friends and former students to honor Dr. Robert K. Enders, a member of the College faculty from 1932 to 1970, is awarded annually to a worthy student with an interest in the study of biological problems in a natural environment.

The J. Horace Ervien, Class of 1903, Scholarship, created in 1979 with gifts from J. Horace Ervien and his wife, is awarded to students demonstrating academic merit and financial need.

The European Alumni Scholarship was established in 2006 by gifts from Antoinette Graefin zu Eltz ’01, Jacques Joussot-Dubien ’49, and other European alumni. This scholarship is awarded on the basis of academic merit and financial need. Preference is for students from Europe who are not U.S. citizens.

The Howard S., Class of 1903, and Gertrude P. Evans Scholarship provides scholarships for worthy students with financial need. Howard Evans majored in engineering at Swarthmore and was a native of the village of Swarthmore. Established 1958.

The Philip Evans Scholarship was established in 1986 by Jerome Kohlberg ’46 in memory of his longtime friend and classmate, Dr. Philip Evans ’48. Dr. Evans was a highly admired physician, faithfully serving patients from all walks of life. Evans Scholars are expected to develop themselves as critical thinkers, compassionate citizens, and engaged participants in local and world affairs. They are awarded to students who in their high school years have demonstrated leadership, integrity, intelligence and a commitment to the larger community. The Scholarships are awarded to members of the first year class, are renewable annually, and provide summer opportunity grants that are awarded on the recommendation of the dean of students.

The Michael S. Fedak ’82 Scholarship was established in 2003. The renewable scholarship is awarded on the basis of academic merit and financial need with preference given to students from New Jersey majoring in economics or mathematics.

The Samuel and Gretchen Vogel ’56 Feldman Scholarship was established in 1992 by Gretchen Vogel Feldman and her husband, Samuel. The renewable scholarship, awarded on the basis of financial need, is given to a student interested in pursuing a teaching career. Preference is given to residents of Martha’s Vineyard.

The Samuel M. and Gretchen Vogel ’56 Feldman Scholarship II was established in 2000. The renewable scholarship, awarded on the basis of financial need, is given to a student interested in pursuing a teaching career after graduating from Swarthmore College. Preference is given to residents of Martha’s Vineyard.

The Jack Fingersh Scholarship was established by Paul Fingersh ’86 in 2018 in honor of his father, Jack Fingersh. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable. The Jack Fingersh Scholarship supports and promotes the College’s efforts to increase access to a Swarthmore College education for students with demonstrated financial...
need, and is given with the knowledge that the College is committed to giving students, including those juniors and seniors majoring in history or philosophy, an equal opportunity to receive assessed financial aid under the College’s policies.

The Theodore and Elizabeth Friend Scholarship was established in 1981 and was announced during the closing ceremony for The Program for Swarthmore as an expression of respect and appreciation by board members and others who have been associated with them in the service of Swarthmore College. The scholarship honors this former president of Swarthmore, who served from 1973 to 1982, and his wife. It is awarded each year on the basis of financial need to a worthy student.

The Theodore Friend and Elizabeth Pierson Friend Scholarship was established by him in 2005 and is awarded on the basis of academic merit and financial need, with a preference for a student from an Islamic country or a student engaged in Islamic Studies.

The Margaret Mccain Ford ’43 Scholarship was established in 2006 in her memory by her husband, Thomas Ford, and their children. This renewable scholarship is awarded on the basis of academic merit and financial need.

The Norma Patz Fox ’82 and Clifford Fox Scholarship was established in 2006 by Clifford and Norma Patz Fox. This renewable scholarship is awarded on the basis of academic merit and financial need.

The Caroline W. Frame Scholarship was established in 1885 by a bequest from her grandfather, Samuel Willets. The funds, now part of the general scholarship fund, are awarded on the basis of academic merit and financial need.

The David W. Fraser Scholarship. This endowed scholarship was established in 1991 by the Board of Managers and friends of David Fraser in honor of his service as president of Swarthmore College from 1982 to 1991. This scholarship is awarded to one student enrolled in an approved program of academic study outside the boundaries of the United States. Preference is given to students studying in Asian, Middle Eastern, and African countries.

The Marianne Durand Frey ’57 Scholarship, established by Marianne Durand Frey in 2002, reflects the donor’s gratitude for scholarship aid received during her attendance at Swarthmore. This renewable scholarship is awarded based on academic merit and financial need to a woman who has attended a public high school.

The Theodore and Elizabeth Friend Scholarship was created in 2000 by their son, Donald Fujihira ’69. The renewable scholarship is awarded to a man or woman who shows great promise and assumes both financial need and academic excellence. Preference is given to students of Asian descent.

The John and Gail Gaustad Scholarship was established by friends and students of the Gaustads to honor their many years of service to the College. In 1984, John Gaustad, the Edward Hicks Magill Professor of Astronomy, and his wife, Gail, started the practice of welcoming international students into their home during periods when the dorms were closed. Over the years, they were hosts to about 120 students with many becoming close and lasting friends. This renewable scholarship, expressing appreciation for the Gaustads’ generosity and dedication, is awarded annually to a promising student who demonstrates financial need and academic excellence. Established 2000.

The Martha Salzmann Gay ’79 Scholarship was created in 2000 by Martha S. Gay. The renewable scholarship assumes both academic excellence and financial need and is awarded to a first-year student who shows great promise.

The Joseph E. Gillingham Scholarship was established by a bequest from prominent Philadelphia merchant Joseph E. Gillingham, who died in 1907. The scholarship is awarded to a deserving student on the basis of academic merit and financial need. Established 1907.

The Joyce Mertz Gilmore '51 Scholarship, awarded to an entering first-year student, is renewable. The recipient is chosen on the basis of mental vigor, concern for human welfare, and the potential to contribute to the College and the community outside. The award was established in 1976 by Harold Mertz ’26, his daughter, Joyce Mertz Gilmore, and financial need. Established 1907.

The Barbara Entenberg Gimbel ’39 Scholarship was endowed in 1980 in memory of Barbara Entenberg Gimbel by her husband, Dr. Nicholas S. Gimbel. The scholarship is awarded on the basis of need to a worthy student, with preference for a black candidate.

The Chloe and Raoul Glant Scholarship was established in 2005 by their family to honor their zeal for lifelong learning and passion for greater understanding of the issues facing today’s world. The scholarship is awarded based on need and...
academic achievement, with a preference for a foreign or American student who demonstrates intellectual and personal integrity and a strong commitment to the public good.

The Barbara Nugent Glouchevitch Scholarship was established in 2004 by Michel Glouchevitch '77 in memory of his mother, a 1948 Bryn Mawr graduate. Barbara had close ties to Swarthmore and lived her abbreviated life enthusiastically pursuing career, family, intellectual, and sports activities. This scholarship is awarded on the basis of merit and need to students showing distinction in academics, leadership, and extracurricular activities.

The Marcia and John D. Goldman '71 Scholarship was created in 1992 and is awarded on the basis of need to a student with a strong academic record and leadership qualities. Preference is given to students from northern California.

The Berda Goldsmith Scholarship, established in 1991 in memory of Mrs. Goldsmith, is a need-based scholarship awarded annually to a music major, beginning in his or her junior year. Mrs. Goldsmith was a music lover and patroness of the Settlement Music School. Preference will be given to a student who has attended the Settlement Music School and shows an interest and proficiency in playing the piano.

The Kermit Gordon '38 Scholarship was created by an anonymous donor in 2000. This renewable scholarship is awarded on the basis of need, merit, and an interest in public policy.

The Cynthia Norris Graae '62 and Stephen L. Bloom '62 Scholarship recognizes two dedicated alumni, both members of the Class of 1962. It was created by an anonymous donor in 2007 in recognition of Cynthia Norris Graae, an alumna whose service to the College included serving on Alumni Council and the Board of Managers, and expanded in 2011 in recognition of her late husband Stephen L. Bloom, an alumnus who was a gifted clarinetist who was a member of both the orchestra and the wind ensemble while a student at Swarthmore. The renewable scholarship is awarded on the basis of financial need, with preference given to a student who plays a musical instrument.

The Neil R. Grabois '57 Scholarship was created by an anonymous donor in 2001. The scholarship is awarded on the basis of academic merit and financial need, with preference for students from urban public high schools who wish to study engineering or science.

The Sarah Maurer Graham '77 Scholarship was established in 2003 by Sarah’s husband, Robert B. Graham, after her passing to honor her curiosity, achievements, and passion for Swarthmore. The renewable scholarship is awarded on the basis of academic merit and financial need with preference given to students interested in classical studies.

The Edward F. Green '40 Scholarship, established in 1999 by a bequest from this alumnus, is awarded on the basis of academic merit and financial need.

The Walter W. Green Scholarship and the White Open Scholarships Mr. and Mrs. Daniel S. White, Class of 1875, on the occasion of the class’s 50th reunion, established three scholarships in the names of Howard White Jr., Serena B. White, and Walter W. Green. They are awarded annually on the basis of financial need and are tenable for four consecutive years. Established 1925.

The James E. Gregory '85 Scholarship, established in 2005, is awarded on the basis of academic merit and financial need. Preference is for music majors or students who study or perform music.

The Mary Lippincott Griscom, Class of 1901, Scholarship was established in 1969 by Mary Griscom and her daughter, Mary Griscom Colegrove '42, to provide financial aid on the basis of academic merit and financial need. The scholarship honors Mary L. Griscom, who served on the Board of Managers from 1916 to 1967.

The Robert G. Grossman '53 and Ellin Grossman Endowed Scholarship, created in 2005, is awarded on the basis of academic merit and financial need, with a preference for biology or history majors.

The Pauline and Joseph Guss Endowed Scholarship was established in 2003 by Giles '72 and Barbara Guss Kemp. The scholarship is awarded on the basis of financial need and academic merit, with preference for students from Nebraska or, as a second consideration, students from the Midwest.

The Lucinda Buchanan Thomas '34 and Joseph H. '37 Hafkenschiel Scholarship was established as a memorial to Lucinda Thomas in 1989 by her husband and sons, Joseph III '68; B.A. Thomas '69; Mark C. '72; and John Proctor '75. Lucinda’s father, B.A. Thomas, M.D., graduated with the Class of 1899. This scholarship is awarded to a junior and is renewable, based on need. Preference is given to students who have demonstrated proficiency in water sports or have shown talent in art and who have been outstanding in service to the College.

The Mason Haire '37 Scholarship was established in 1986 by his wife, Vivian, in honor of this alumnus, a distinguished psychologist and former member of the Swarthmore College faculty. The renewable scholarship is awarded to a first-year student with financial need who is distinguished for intellectual promise and leadership.

The Nicole Alfandre Halbreiner '82 Scholarship, established in 2005, is awarded on the basis of academic merit and financial need.

The Margaret Johnson Hall '41 Scholarship for the Performing Arts was established in 1991 by Margaret Johnson Hall. The scholarship provides financial assistance based on academic merit and
financial need, with preference for students intending to pursue a career in music or dance. The Merritt W. Hallowell '61 Scholarships were established in 2005 by a bequest from Merritt Hallowell, a loyal and generous alumnus with a sincere interest in helping students. These renewable scholarships are awarded on the basis of academic merit and financial need. The Helene and Mark '71 Hankin Scholarship was established in 2002 by the Hankins in memory of Mark Hankin’s father, Perch P. Hankin. The renewable scholarship is awarded on the basis of academic merit and financial need. The John W. '60 and Ann E. Harbeson Scholarship, established by the Harbesons in 2004, is awarded on the basis of academic merit and financial need to a first-year student, renewable through the senior year. Preference is given to a deserving international student, reflecting the donors’ active involvement, careers, and interests.

The Holland Family Scholarship was created in 1999 by Eugene M. Lang '38. The renewable scholarship is awarded on the basis of academic merit and financial need, with preference given to a junior or senior woman majoring in political science who plans to attend law school.

The A. Price Heusner '32 Scholarship, established in 1976 by his wife, Helen, is awarded to a student on the basis of academic merit and financial need. The Rachel W. Hillborn Scholarship was established in 1945 by Anne Hillborn Philips, Class of 1892, in memory of her mother, Rachel W. Hillborn, who served on the Board of Managers from 1887 to 1913. The scholarship is awarded to a junior or senior, with preference for a student who is a member of the Religious Society of Friends or who is involved in international service. The Stephen B. Hitchner Jr. '67 Scholarship was established in 1990 by the Board of Managers in memory of Stephen B. Hitchner Jr. with gratitude for his strong leadership of the Student Life Committee and his previous service to the College. Recipients of this need-based, renewable scholarship are selected from the junior class for their interest in a career in the public or nonprofit sectors. The Betty Stern Hoffenberg '43 Scholarship, established in 1987 in honor of this alumna, is awarded to a junior or senior with academic merit and financial need who shows unusual promise, character, and intellectual strength. Strong preference is given to a student majoring in history.

The Hadassah M. L. Holcombe Scholarship, created by a bequest from this member of the board of Managers who served from 1938 until her death in 1978, is awarded to a deserving student on the basis of academic merit and financial need, with preference given to a member of the Religious Society of Friends. Established 1979. The Holland Family Scholarship was established in 2002 by Jim Holland '71 and Nancy Holland '72, and is awarded on the basis of academic merit and financial need. The scholarship is renewable. The Tave Holland Scholarship Fund, established in 2017 by Richard Barasch '76, Mark Harmeling '74, Amanda Harmeling '73, and Jim Harvey '78, supports and promotes the College’s efforts to increase access to a Swarthmore College education for students with demonstrated financial need, and is given with the knowledge that the College is committed to giving its students, including African American students, an equal opportunity to receive assessed financial aid under the College’s policies. This scholarship is renewable. The Tave Holland Scholarship Fund, established in 1998 by Norman Sher '52. The renewable scholarship is awarded to a first-year student. The Carl R. Horten '47 Scholarship was created in 1985 by the Ingersoll-Rand Company on the occasion of his retirement. Preference is given to students planning to major in engineering or prelaw. The Doris K. Hourihan Scholarship was established in 2006 by Jenny Hourihan Bailin ’80 in memory of her mother, Doris K. Hourihan. This renewable scholarship is awarded on the basis of academic merit and financial need. The Stephen B. Hitchner Jr. '67 Scholarship was established in 1990 by the Board of Managers in memory of Stephen B. Hitchner Jr. with gratitude for his strong leadership of the Student Life Committee and his previous service to the College. Recipients of this need-based, renewable scholarship are selected from the junior class for their interest in a career in the public or nonprofit sectors. The Betty Stern Hoffenberg '43 Scholarship, established in 1987 in honor of this alumna, is awarded to a junior or senior with academic merit and financial need who shows unusual promise, character, and intellectual strength. Strong preference is given to a student majoring in history.
The Everett L. Hunt Scholarship, endowed in 1973 as a reunion gift by the Class of 1937, honors this beloved emeritus professor and dean and provides an unrestricted scholarship awarded annually by the College.

The Betty P. Hunter ’48 Scholarship was created in 1977. Betty P. Hunter, one of the first black students to attend Swarthmore College, established this fund by a bequest to provide scholarship aid to needy students.

The Richard M. Hurd ’48 Scholarship was created in 2000 by this alumnus who served on the Board of Managers for almost two decades and his wife, Patricia. The renewable scholarship is awarded with preference given to a student majoring in engineering.

The Allis Dale and John E. ’59 Gillmor and Jordan and Sarah Gillmor ’92 Hymowitz Scholarship was established in 2008 by this family on the occasion of John’s 50th reunion. The scholarship is awarded on the basis of academic merit and financial need to a first-year student who shows great promise.

The William Y. Inouye ’44 Scholarship was established in loving memory by his family, friends, and colleagues in recognition of his life of service as a physician. The renewable scholarship is awarded to a worthy junior premedical student with need. Established 1985.

The Aaron B. Ivins Scholarship was established with an annuity given in 1928 by Emma Ivins as a reunion gift by the Class of 1937, honors this beloved emeritus professor and dean and provides financial assistance to a member of the Religious Society of Friends.

The George B. Jackson ’21 Scholarship was endowed in 1986 by Eugene M. Lang ’38 in honor of the man who guided him to Swarthmore. The scholarship is awarded on the basis of financial need and academic merit, with preference given to a student from the New York metropolitan area.

The Howard M. ’20 and Elsa P. ’22 Jenkins Scholarship in engineering provides financial assistance to a promising sophomore or junior with need who is interested in pursuing a career in engineering. It was created in 1993 by the gift of Elsa Palmer Jenkins, Swarthmore’s first woman graduate in engineering.

The Edmund A. Jones Memorial Scholarship was created in 1965, awarding a grant each year to a graduate of Swarthmore High School and, since 1983, to a graduate of Strath Haven High School. In 2004, this four-year, renewable scholarship was designated with preference for graduates of Strath Haven High School, Delaware County high schools, or Pennsylvania high schools, respectively. Edmund A. Jones was the son of Adalyn Purdy Jones ’40, and Edmund Jones ’39, longtime residents of Swarthmore.

The Benjamin Kalkstein ’72 Scholarship, established by his family in 2002, is awarded to a first-year student on the basis of merit and need and is renewable. Preference is given to students with an interest in environmental studies.

The Kappa Alpha Theta Scholarship, established through the generosity of the members and friends of the sorority at Swarthmore College, is awarded on the basis of academic merit and financial need. Established 1935.

The Kappa Kappa Gamma Scholarship, created by the sorority, is awarded to a first-year student and is renewable. Established 1955.

The Jennie Keith Scholarship was created by an anonymous donor in recognition of outstanding administrators at Swarthmore College. The Keith Scholarship was established in 2000 to honor Jennie Keith, professor of anthropology, who served as provost from 1992 to 2001. The scholarship is awarded to a student who shares the donor’s and Jennie Keith’s commitment to the use of intellectual excellence in the service of positive social change.

The Michael and Elizabeth Lavin ’87 Kelley Scholarship was established in 2004. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Alexander Kemp Endowed Scholarship was established in 2001 by Giles Kemp ’72 and Barbara Guss Kemp. The renewable scholarship is awarded on the basis of financial need and academic merit.

The Kennedy Scholarship is given in honor of the parents and with thanks to the children of Christopher ’54 and Jane ’55 Kennedy. The renewable scholarship, created in 1985, is awarded on the basis of financial need and academic merit.

The Clark Kerr ’32 Scholarship was created by an anonymous donor in 2000. The scholarship is awarded with preference given to a student entering his or her senior year, who meets the model described by President Aydelotte of the all-around student with strong interests in academic achievement, athletics, and interests in debating and other aspects of student life and community service.

The Florence and Melville Kershaw Scholarship was endowed in 1987 in their honor by their son Thomas A. Kershaw ’60. The renewable scholarship is awarded to a first-year student on...
the basis of financial need and academic merit, with preference given to those intending to major in engineering.

The Naomi Kies '62 Scholarship was created in 2006 in her memory by her family and friends. Naomi Kies devoted herself to community service, pursuing practical idealism and seeking peaceful solutions to political and social problems. This renewable scholarship is awarded on the basis of academic merit and financial need. Preference is given to international students.

The Joseph W. '44 and Elizabeth Blackburn '44 Kimmel Scholarship was established in 2003 by their son, James B. Kimmel '70. The renewable scholarship is awarded on the basis of academic merit and financial need, with preference given to students from the Delaware Valley area, including eastern Pennsylvania, southern New Jersey, and Delaware.

The William H. Kistler '43 Scholarship was endowed in 1986 in his memory by his wife, Suzanne '44, his friends, and former classmates. The scholarship is awarded to a needy and deserving student majoring in engineering or economics.

The Floyd C. and Virginia Burger '39 Knight Endowed Scholarship, established by a bequest in 2006, is awarded on the basis of academic merit and financial need.

The Paul '46 and Mary Jane Kopsch Scholarship, established in 1982 through a gift of Paul J. Kopsch, is renewable and awarded each year to a junior premedical student(s) with financial need.

The Jessie Stevenson Kovalenko Scholarship, established in 1944 by Michel Kovalenko in memory of his wife, Anna, devoted herself to community service, pursuing practical idealism and seeking peaceful solutions to political and social problems. This renewable scholarship is awarded on the basis of academic merit and financial need. Preference is given to international students.

The Walter W. Krider, Class of 1909, Memorial Scholarship was established by his wife, Anna Hetzel Mulford Krider, and daughter, Elizabeth Krider Snowden '36, in 1959. The Krider scholarship is awarded to a student who ranks high in scholarship, character, and personality and has financial need.

The Paul Kuenstner '80 Endowed Scholarship was established in 2013. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable.

The Kyle Scholarship, established in 1993 by Elena Sogan Kyle '54, Frederick W. Kyle '54, and Robert B. Kyle Jr. '52, is awarded in the junior or senior year to a student who has shown leadership capability, made significant contributions to the life of the College, and demonstrated the need for financial assistance.

The Kyle Endowed Scholarship for Latin America was established in 2016. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable. Preference will be given to students who are citizens and residents of Latin America.

The John Lafere, Class of 1895, Scholarship, established in 1956 by his son Laurence Lafere '38 and his daughter Eleanor Lafere Gilbert, is awarded to a deserving student on the basis of academic merit and financial need.

The Laurence Lafere '38 Scholarship was established in his memory in 1986 by family, friends, classmates, and former students. Professor Lafere, author of numerous books and essays, taught history at Swarthmore from 1945 until 1969. This renewable scholarship is awarded to a student showing unusual promise.

The Robert E., Class of 1903, Elizabeth, Class of 1903, and Walter, Class of 1939, Lamb Scholarship was established in 2000 by Walter Lamb, who served on the Board of Managers from 1977 to 2002. The scholarship is awarded on the basis of academic merit and financial need.

The Olga Lamkert Endowed Scholarship was established in 2017 by Jane Moody Picker '57 and Sidney Picker in memory of Jane’s beloved professor. Olga Lamkert was professor of Russian at Swarthmore College from 1949 to 1956. The Scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable, with preference given to students majoring or minoring in Russian or another modern language.

The Barbara Lang Scholarship is awarded to a student in the junior class whose major is in the arts, preferably in music, who ranks high in scholarship and has financial need. This renewable scholarship was established in 1984 by Eugene M. Lang '38 in honor of his sister.

The Eugene M. Lang '38 Opportunity Grants are awarded each year to as many as six sophomore students who are selected by a special committee on the basis of distinguished academic and extracurricular achievement and demonstrable interest in social change. Stipends are based on financial need and take the form of full grants up to the amount of total college charges. Each Lang Scholar is also eligible for summer or academic year community service support while an undergraduate. Projects, which must be approved in advance by a faculty committee, are expected to facilitate social change in a significant way. The program is made possible by a gift of Eugene M. Lang. Established 1995.

The Ida and Daniel Lang Scholarship, established in 1964 by their son, Eugene M. Lang '38, provides financial assistance for a young man or woman who ranks high in scholarship, character, and personality.

The Eleanor B. and Edward M. '30 Lapham, Jr. Scholarship, established in 1996 by Eleanor to honor her husband’s memory, is awarded to a first year student on the basis of academic merit and
5 Financial Aid

financial need. The scholarship is renewable for his or her years of study at Swarthmore. 
The E. Hibberd Lawrence Scholarship honors the memory of a student who attended the Swarthmore Preparatory School from 1881 to 1882 and is awarded on the basis of financial need. Established 1888. 
The Frances Reiner and Stephen Girard '41 Lax Scholarship was established in 1989 with preference for minority or foreign students who show academic merit and financial need. This scholarship has been endowed by the family of Stephen Girard Lax, who was chairman of the Board of Managers of Swarthmore College from 1971 to 1976. 
The Stephen Girard Lax '41 Scholarship was established in 1977 by family, friends, and business associates of Stephen Lax. The scholarship is awarded on the basis of financial need every two years to a student entering the junior year who shows academic distinction, leadership qualities, and a definite interest in a career in business. 
The Alfred and Harolyn Lazarus Scholarship was established in 2008 by their son, Lewis H. Lazarus '78, in honor of his parents' boundless curiosity, great respect for intellectual excellence, high moral character, and service to others. The scholarship is awarded to students on the basis of academic promise and financial need. The renewable scholarship is given with preference for students intending to practice medicine or majoring in history. 
The Dorrie '44 and Henry '45 Leader Family Scholarship was established in 2001 in recognition of their many family members who attended Swarthmore College including their children, Martha '71 and Elizabeth '73. The scholarship is awarded on the basis of academic merit and financial need. 
The Edgar '98 and Julie Lee Family Scholarship supports and promotes the College's efforts to increase access to a Swarthmore College education for students with demonstrated financial need, and is given with the knowledge that the College is committed to giving its students, including women from underrepresented populations, an equal opportunity to receive assessed financial aid under the College’s policies. This scholarship is renewable. 
The Thomas L. Leedom Scholarship was established in 1905 by Hannah A. Leedom in memory of her husband, who always had a deep interest in the success of the College. It is awarded to a deserving student on the basis of academic merit and financial need. 
The Raphael Lemkin Endowed Scholarship was established in 2005 by John '77 and Ann '77 Montgomery to honor Raphael Lemkin, a Holocaust survivor who invented the word "genocide" and drafted the Genocide Convention of the United Nations, adopted in 1948. The scholarship is awarded with preference for "upstanders" or students who demonstrate interest in human rights, especially anti-genocide work. 
The Gerry and Marguerite Lenfest Scholarship was established in 2008. The renewable scholarship is awarded to students on the basis of academic merit and financial need. 
The Walter H. Leser '49 Memorial Scholarship was established by his wife, Martha E. Leser, in 2002. The renewable scholarship is awarded on the basis of academic merit and financial need with preference for students majoring in mathematics. 
The Carl M. Levin '56 Scholarship was created by an anonymous donor in 2000. The renewable scholarship is awarded to a student with merit and need who has overcome obstacles, with a preference for Michigan public high school graduates. 
The Beryl and Leonard Levine Scholarship was established by their daughter, Susan Brauna Levine '78, in 2005 and is awarded on the basis of academic merit and financial need. 
The Levine Family Scholarship was established by Jay H. Levine '55 and Michael A. Levine '87 in 2012. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable. 
The Wilma A. Lewis '78 Scholarship was established in 2006 by Wilma A. Lewis. This scholarship is awarded on the basis of academic merit and financial need. 
The Lewis-Bill Scholarship was established in 2009 by Robert J. Reynolds, father of Sarah Reynolds '09, to honor his wife, Lucinda M. Lewis '70, and her parents, Robert B. '35 and Margaret Bill '38 Lewis. It is awarded to students on the basis of academic merit and financial need. 
The Scott B. Lilly Scholarship, endowed by Jacob T. Schless of the Class of 1914 and offered for the first time in 1950, is awarded annually in honor of a former distinguished professor of engineering. Students who plan to major in engineering are given preference. 
The Sarah E. Lippincott Scholarship, established in 1918 by Katherine Lippincott Holden in memory of her mother, is awarded to a deserving student on the basis of financial need. 
The Lloyd Family Scholarship was established in 2000 by May Brown Lloyd '27, G. Stephen Lloyd '57, and Anne Lloyd '87. The renewable scholarship is awarded with preference given to a student who shows great promise. 
The Lloyd-Jones Family Scholarship is the gift of Donald '52 and Beverly Miller '52 Lloyd-Jones and their children Anne '79; Susan '84; Donald '86; and Susan’s husband, Bob Dickinson '83. Established in 1990, the renewable scholarship is
The David Mailloux Endowed Scholarship was established in 2005 by his loving parents to celebrate David’s life and memory. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Amy Chase Loftin ’29 Scholarship was established in 1998. The renewable scholarship is awarded to a sophomore, with preference given to Native Americans and African Americans.

The Joan Longer ’78 Scholarship was created as a memorial in 1989 by her family, classmates, and friends, to honor Joan’s personal courage, high ideals, good humor, and grace. The renewable scholarship is awarded on the basis of merit and need.

The Mary T. Longstreth Scholarship was established in 1938 by Rebecca C. Longstreth in memory of her mother, who served on the Board of Managers from 1872 to 1887. The scholarship is awarded to a deserving student on the basis of financial need.

The David Laurent Low Memorial Scholarship was established in 1981 by Martin L. Low ’40; his wife, Alice; Andy Low ’73; and Kathy Low in memory of their son and brother. It is awarded to a man or woman who shows the great promise that David himself did. The award assumes both need and academic excellence and places emphasis, in order, on qualities of leadership and character or outstanding and unusual promise. The renewable scholarship is awarded to a first-year student.

The Lui and Wan Scholarship was established in 2016. It shall be awarded to students in the sophomore year on the basis of academic merit and financial need and is renewable. Preference will be given to female students pursuing majors in Engineering, Mathematics and/or the Physical Sciences, any student pursuing a major in Chinese or Interdisciplinary Chinese Studies, or any student pursuing a special major in Education Studies and another discipline.

The Lyman Scholarship was established by Frank L. Lyman Jr. ’43 and his wife, Julia, on the occasion of his 50th reunion in 1993. The renewable scholarship is awarded on the basis of financial need to a student who is a member of the Religious Society of Friends or whose parents are members of the Religious Society of Friends.

The Leland S. MacPhail Jr. ’39 Scholarship, given by Major League Baseball in 1986 in recognition of 48 years of dedicated service by Leland S. MacPhail Jr., is awarded annually to a deserving student on the basis of need and merit.

The Magill Walk Scholarship was established in 2010 by an anonymous donor. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable.

The David Mailloux Endowed Scholarship was established in 2005 by his loving parents to celebrate David’s life and memory. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Clara B. Marshall Scholarship was established in 1982 by the estate of Dr. Clara Marshall. Clara Marshall was a Philadelphia-area physician and educator from a prominent Quaker family whose leadership as dean of the Women’s Medical College led to greatly expanded and improved facilities and course offerings at that institution. The scholarship is awarded to a deserving student on the basis of academic merit and financial need.

The Edward Martin Scholarship, established by a bequest from Edward Martin, a professor of biological sciences at the College, is awarded to a junior or senior with preference for a biology major or premedical student. Established 1977.

The Richard G. Mason Fund, an endowed scholarship, was established in 2012 by the estate of Richard G. Mason ’50 and is awarded on the basis of academic merit and financial need with a preference for students studying theater or art history. The scholarship is renewable.

The Jacob and Rae Mattuck Scholarship, created in 2009 by Arthur P. Mattuck ’51 in honor of his parents, is renewable and awarded to students based on academic merit and financial need with preference for majors in the sciences, mathematics, statistics, computer science, engineering, music, or the arts.

The Franz H. Mautner Scholarship honors the memory of this Professor Emeritus of German and is awarded to a student who has demonstrated financial need. Established 1996.

The Thomas B. McCabe ’15 Awards, established in 1952 by Thomas B. McCabe, are awarded to entering students. Regional McCabe Scholarships are awarded to a few students from the Delmarva Peninsula and from southeastern Pennsylvania (Chester, Montgomery, and Delaware counties). These awards provide a minimum annual scholarship of full tuition or a maximum to cover tuition, fees, room, and board, depending on need. The National McCabe Scholarships are awarded to a few students based on financial need. In making selections for all McCabe Scholarships, the committee places emphasis on ability, character, personality, and service to school and community.

The Charlotte Goette ’20 and Wallace M. McCurdy Scholarship is awarded to a first-year student on the basis of financial need and academic merit. The renewable scholarship was endowed by Charlotte McCurdy in 1986.

The Cornelia Dashiell and Dino Enea Petech ’35 McCurdy, M.D., Family Scholarship was endowed by Cornelia and Dino E.P. McCurdy, M.D. The scholarship is awarded each year to a well-rounded student with need who demonstrates academic and extracurricular interests based upon sound character and healthy personality traits, with preference given to graduates of George School. Established 1999.
5 Financial Aid

The *Dorothy Shoemaker ‘29 and Hugh ‘30 McDiarmid Scholarship* is awarded to a first-year man or woman on the basis of academic merit and financial need. Established in 1987, the renewable scholarship is the gift of the McDiarmid family in commemoration of their close association with Swarthmore College.

The *Helen Osler McKendree ‘23 Scholarship*, created in 1998 by the estate of Helen’s brother, E. Morgan Osler, is awarded to a junior majoring in a foreign language or languages.

The *Sarah Meade McKitterick Scholarship* was established in 2006 by Katherine Burt Anderson ‘49 to honor the memory of her daughter. This renewable scholarship is awarded on the basis of academic merit and financial need.

The *Donald R. McMinn ’86, Robert ’57, and Tamzin MacDonald ’58 McMinn Scholarship* was created in 2004 and is awarded on the basis of academic merit and financial need, with preference for students planning a career in business.

The *Margaret S. Meeker ’45 Scholarship* was established in 2005 by Douglas F. Bushnell, Rebecca W. Bushnell ’74, and John D. Toner ’73 in memory of Peggy Meeker, wife and mother, who was full of love and life and who was so happy during her years at Swarthmore College. The renewable scholarship is awarded on the basis of academic merit and financial need.

The *Norman Meinkoth Scholarship* was established in 1988 by his friends and former students to honor Dr. Norman A. Meinkoth, a member of the College faculty from 1947 to 1978 who died in 1987. This scholarship serves as a memorial and is awarded annually to a worthy student with an interest in the study of biological problems in a natural environment.

The *Alison Joanna Meloy ’94 Memorial Scholarship* was established in 2006 by her mother and stepfather, Alice and Robert Deal. The scholarship celebrates Alison’s love of Swarthmore College and recognizes that some of her happiest years were spent there. The renewable scholarship is awarded on the basis of academic merit and financial need, with a preference for female students majoring in political science.

The *Peter Mertz ’57 Scholarship* is awarded to an entering first-year student outstanding in mental and physical vigor, who shows promise of using these talents for the good of the College community and of the larger community outside. The renewable scholarship was established in 1955 by Harold ’26, LuEsther, and Joyce ’51 Mertz in Peter’s memory.

The *Mari Michener Scholarship* provides financial support to four students on the basis of academic merit and financial need. The scholarship is the gift of James Michener ’29 and honors his wife. Established 1992.

The *Frank Milewski Endowed Scholarship* was established in 2014 in honor of Frank Milewski, who was the recipient of the Suzanne P. Welsh Award. The scholarship will be awarded on the basis of financial need to a Swarthmore student without further restrictions or preferences.

The *Bruce and Florence Miller Scholarship* was established in 2006 by their son, Grant Miller ’65, to honor his parents’ lifetime commitment to education and underserved communities. The renewable scholarship is awarded on the basis of academic merit and financial need. Preference is given to students with sensitivity toward diverse underserved communities.

The *James E. Miller Scholarship*, established by a bequest from Arabella M. Miller in 1924, is awarded to a deserving student on the basis of financial need.

The *James H. Miller ’58 Scholarship* will be established with a gift from the estate of James H. Miller and awarded on the basis of academic merit and financial need.

The *Hajime Mitarai Scholarship*, established in 1995 by Eugene M. Lang ’38 in memory of his close friend and the father of Tsuyoshi Mitarai ’98, is awarded to students with financial need. Preference is given to students with international backgrounds.

The *Margaret Moore Scholarship*, established in 1974 by an anonymous donor, provides scholarships to foreign students, with a preference given to students of South Asian origin. This scholarship honors a Quaker teacher who spent a lifetime of teaching and public service in western India with the people she loved until her death in 1962.

The *Kathryn L. Morgan Scholarship* was established by an anonymous donor in 2000. The renewable scholarship was created in recognition of Professor Morgan’s distinguished teaching and scholarly contributions to the life of the College. Preference is given to students with an interest in black studies.

The *Robert ’67 and Joan Murray Scholarship* was created in 2004 and is awarded on the basis of academic merit and financial need.

The *Thomas W. Nash ’74 Scholarship* was established in 2006. This renewable scholarship is awarded on the basis of academic merit and financial need.

The *Florence Eising Naumburg Scholarship* was named in 1975 in honor of the mother of an alumna of the Class of 1943. The scholarship is awarded to a student whose past performance gives evidence of intellectual attainment, leadership, and character and who shows potential for future intellectual growth, creativity, and scholarship and for being a contributor to the College and, ultimately, to society.

The *Albert and Christine Nehamas Scholarship* was established in 2004 by Alexander Nehamas ’67 and Susan Glimcher in loving memory of...
Alexander’s parents, who strove to provide a sound education for their son. The scholarship is awarded on the basis of academic merit and financial need, with preference for students from Greece or from other foreign countries.

The Nancy Triggs Ohland ’55 Scholarship was established in 2005 by her husband, Theodor C. Ohland, and children Karen J. Ohland ’83, Matthew W. Ohland ’89, and Erik D. Ohland. The scholarship is awarded on the basis of academic merit and financial need, with preference given to a student with a strong record of community service.

The Donald E. Noble Scholarship was established in 2002 by the Donald E. and Alice M. Noble Foundation, who was the recipient of the Suzanne P. Welsh Award. The scholarship will be awarded on the basis of financial need to a Swarthmore student without further restrictions or preferences.

The Thomas S. ’30 and Marian Hamming ’30 Nicely Scholarship was established in 1987 and is awarded to a first-year student with need who shows promise of academic achievement, fine character, and athletic ability. Preference is given to a person who has been on the varsity tennis, squash, golf, or swimming teams in high school or preparatory school.

The Mary McCusker Niemczewski Scholarship was established in 2005 by Christopher M. Niemczewski ’74 to honor his mother and is awarded on the basis of academic merit and financial need.

The John H. Nixon ’35 Scholarship was established in 1983 by John H. Nixon to assist Third World students, especially those who plan to return to their country of origin.

The Donald E. Noble Scholarship was established in 2002 by the Donald E. and Alice M. Noble Charitable Foundation. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Helen North Scholarship was established in 2002 by Maureen Cavanaugh ’75 and Christopher Plum ’75 in honor of Helen F. North, who, at the time of her retirement from Swarthmore in 1991, was the Centennial Professor of Classics and had been a member of the College faculty for 43 years. Author, travel, lecturer, and beloved friend, Helen North has always been committed to teaching in a culturally diverse educational community. The scholarship is awarded on the basis of academic merit and financial need.

The Northwest Scholarship was established in 1990 by Constance Gayl Pious ’53 to offer financial aid to students from the northwestern United States.

The Edward L. Noyes ’31 Scholarship was endowed in 1987 in his memory by his wife, Jean Walton Noyes ’32; his three sons; and his many friends. The scholarship is available to an incoming first-year student, with preference given to those from the Southwest, especially Texas. The renewable scholarship is awarded on the basis of financial need and academic merit to students with broad interests.

The Nancy Triggs Ohland ’55 Scholarship was established in her memory in 2006 by her husband, Theodor C. Ohland, and children Karen J. Ohland ’83, Matthew W. Ohland ’89, and Erik D. Ohland. The scholarship is awarded on the basis of academic merit and financial need, with preference given to a student with a strong record of community service.

The Howard Osborn Scholarship, established by a bequest in 1970 to honor the memory of his parents, Viola L. and Frank Osborn, is awarded to a deserving student on the basis of academic merit and financial need.

The Mark L. Osterweil ’94 Memorial Scholarship was established by his family and friends. Mark was an ardent student of European and American history, with a special interest in the economic, intellectual, political, and social relationships and connections between the United States and other countries, peoples, and cultures. Preference in awarding the scholarship is given to American or foreign students whose studies of history are consistent with Mark’s wide-ranging interests. Established 2007.

The Martin Ostwald Scholarship was established in 2005 by Christopher Plum ’75 in memory of his beloved wife, Maureen Cavanaugh ’75. The scholarship is named in honor of Martin Ostwald, the Swarthmore classics professor who had a tremendous lifelong impact on Maureen’s development as a classics and legal scholar. It is awarded on the basis of academic merit and financial need, with a preference for classics students, particularly those studying ancient history or philosophy.

The Page-Pixton Scholarship for Study Abroad, established in 2003, is awarded yearly on the basis of financial need to rising juniors or seniors who seek through study abroad experience to prepare themselves to become effective leaders of a more inclusive, generous, and peaceful world.

The Harriet W. Paiste Scholarship was established by a bequest in 1900 to assist those whose limited means would exclude them from enjoying the advantages of an education at this college.

The Rogers Palmer ’26 Scholarship, established in 1973, is awarded to a deserving student on the basis of academic merit and financial need.

The Susanna Haines Parry, Class of 1908 and Beulah Haines Parry, Class of 1909 Scholarship, established by a bequest in 1979, is awarded to a deserving student on the basis of academic merit and financial need.

The Tory Parsons ’63 Scholarship was established in 1991 in his memory by a member of the Class of 1964 to provide scholarship aid to students with demonstrated need.

The Sibella Clark Pedder ’64 Endowment was established in 2005 to enable American students through study abroad to develop deeper understanding of, and improved facility with, a global world. The income from the fund is awarded only to students who qualify for financial aid on the basis of their financial need.
The J. Roland Pennock ’27 Scholarships were established in 1973 by Ann and Guerin Todd ’38 in honor of J. Roland Pennock, Richter Professor Emeritus of Political Science. Income from this endowment is to be used to award four scholarships on the basis of merit and need, preferably to one scholar in each class. The Jean A. ’49 and Edward B. ’49 Perkins Scholarship was established by Jean A. Perkins ’49 in 2002 in memory of her late husband Edward B. ’49 Perkins and in honor of their long Matchbox marriage. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable. The T.H. Dudley Perkins, Class of 1906, Scholarship was established in 1920 by his wife, Alice Sullivan Perkins 1904, and other family members and friends to honor the memory of one who died in the service of his country in 1918. The scholarship is awarded to a deserving student on the basis of academic merit and financial need.

The Pittenger Scholarship was created in 2006. Four generations of the Pitt family have attended Swarthmore College. At Swarthmore, the Perrys pursued diverse academic paths and participated in team sports. After graduation, they became educators, physicians, and scientists. The Perry Family Scholarship is awarded with preference for a well-rounded premedical student who demonstrates strong academic achievement along with an interest in student life and community service. The scholarship, which may be renewed, is awarded to a student entering his or her junior year.

The Winnifred Poland Pierce ’45 Scholarship was established in 1988. This renewable scholarship is awarded on the basis of academic merit and financial need. Preference is given to students who are the first generation in their families to attend college. The Cornelia Chapman ’26 and Nicholas O. Pittinger Scholarship, established in 1961 by their family, is awarded to an incoming first-year student who ranks high in scholarship, character, and personality and needs financial assistance. Cornelia, an honors graduate, was active in alumni activities and served on the Alumni Council from 1945 to 1949. Nicholas ("Pitt") was the controller of the College for 22 years.

The Frances Hughes Pitts Scholarship was established in 2003 by George R. Pitts ’72 in honor and memory of his mother. The renewable scholarship is awarded on the basis of academic merit and financial need with a preference given to students with an interest in the sciences.

The Rebecca Kemp and Richard Pogir Scholarship was established in 2009 on the occasion of their marriage as a gift from the bride’s parents, Barbara Guiss Kemp and Giles Kemp ’72. This renewable scholarship is awarded on the basis of academic merit and financial need.

Preference is given to a student from South Africa or Africa or with an academic interest in these areas.

The Anthony Beekman Pool ’59 Scholarship, established by his family and friends in 1958, is awarded to an incoming first-year man of promise and intellectual curiosity. It is given in memory of Tony Pool, who died of pneumonia in his senior year.

The Ramon L. Posel Scholarship was established in 2005. The scholarship is awarded on the basis of academic merit and financial need.

The Richard ’36 and Helen Shilcock ’36 Post Scholarship was established in 1995 by Helen Shilcock Post, Bill ’61 and Suzanne Rekate ’65 Post, Carl ’66 and Margery Post ’67 Abbott, Barbara Post Walton, Betsy Post Falconi, Richard W. ’90 and Jennifer Austrian ’90 Post, and their families. The renewable scholarship is awarded to a well-rounded first-year student who demonstrates academic merit, financial need, and an interest in athletic endeavors.

The Elizabeth Carver Preston, Class of 1934, Memorial Scholarship was established in 2001 by the family of Elizabeth "Beth" Preston in recognition of her devotion to Swarthmore College. For Beth, who was a scholarship student, Swarthmore College opened a new world, stimulating her intellectually and introducing her to lifelong friends, including her husband. Her commitment to the College continued after graduation with years of participation in College events and service as an alumna, including several terms on the Board of Managers. Her heartfelt enthusiasm about Swarthmore encouraged numerous young people to consider the College for themselves. In this scholarship, Beth’s spirit lives on by enabling others to experience the college life she so cherished. The Preston Scholarship is renewable and awarded on the basis of demonstrated financial need.

The Mary Coates Preston Scholarship, established in 1942 by a bequest from Elizabeth Coates, is awarded to a deserving student on the basis of academic merit and financial need.

The David L. Price ’31 Scholarship, established in 1975 by a bequest from this alumnus, is awarded to a deserving student on the basis of academic merit and financial need.

The Henry L. Price Jr., M.D., ’44 Scholarship was established in 1994 by Hal and Meme Price. The renewable scholarship, awarded on the basis of merit and need, is given to a student who has declared the intention to choose a major in the Division of Natural Sciences other than engineering. This scholarship is in memory of Dr. Price’s parents, Sara Millechamps Anderson and Henry Locher Price.

The Robert Pyle, Class of 1897, Scholarship was established in 1964 by Margery Pyle, Class of 1900, and Ellen Pyle Groff, Class of 1892, in

The Daniel M. Singer ’51 Endowed Scholarship was established in 2005 by Maxine Frank Singer ’52 in honor of her husband. This renewable scholarship is awarded on the basis of academic merit and financial need.
The Rose and Simon Siskin Scholarship was established in 2004 in loving memory by their family to provide financial aid on the basis of academic merit and financial need.
The Virginia L. ’40 and Robert C. Sites Scholarship, established in 2003 by a bequest from Virginia Sites, is awarded to a deserving student on the basis of academic merit and financial need.
The Nancy Baxter Skallerup Scholarship was established in 1982 by her husband and children. The renewable scholarship is awarded to a first-year student with financial need.
The Ann Brownell Sloane ’60 Scholarship was established in 2002 by Ann Brownell Sloane. Preference is given to a student majoring in history.
The William W. Slocum ’43 Scholarship was established in 1981 and is awarded to a deserving student on the basis of academic merit and financial need.
The Courtney C. Smith Scholarship, established in 1987 by the Smith family and members of the Class of 1957, is for students who best exemplify the characteristics of Swarthmore’s ninth president: intellect and intellectual courage, natural dignity, humane purpose, and capacity for leadership. Normally, the award is made to a member of the first-year class on the basis of merit and need. Recipients of this renewable scholarship gain access to a special file in the Friends Historical Library left by the scholarship’s creator.
5 Financial Aid

the Class of 1957, inviting them to perpetuate the memory of this individual’s 16 years of stewardship of the College’s affairs and his tragic death in its service.

The Elizabeth Thorn Snipes Scholarship was established in 2004 by Jim Snipes ’75. The renewable scholarship is awarded on the basis of academic merit and financial need, with preference given to students majoring in religion or philosophy.

The Harold E. ’29 and Ruth Calwell Snyder Premedical Scholarship, the gift of Harold E. Snyder in 1992, provides support up to full tuition and fees for junior or senior premedical students and is awarded on the basis of academic merit and financial need.

The Cindy Solomon Memorial Scholarship was created in 1979 by her parents, Mary and Frank Solomon, Jr. ’50. It is awarded with preference given to a young woman in need of financial assistance who has a special talent in poetry or other creative and imaginative fields.

The Frank Solomon Memorial Scholarship was established in 2004. The scholarship is awarded on the basis of the academic merit and financial need.

The Frank Solomon Jr. ’50 Scholarship was established in 2004. The scholarship is awarded on the basis of academic merit and financial need.

The Helen Solomon Scholarship was given in 1988 in her memory by her son, Frank Solomon Jr. ’50. The renewable scholarship is awarded to a first-year student on the basis of merit and need.

The Southern California Endowed Scholarship Fund was established in 2014 by California First National Bank and Leslie Jewett ’77. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable. Preference will be given to students from Los Angeles or Orange Counties, with a second preference being the state of California.

The Babette S. Spiegel ’33 Scholarship, given by her family in 1972 in memory of Babette S. Spiegel, is awarded to a student showing very great promise as a creative writer (in any literary form) who has need of financial assistance. The English Department assists in the selection.

The William T. ’51 and Patricia E. Spock Scholarship was established in 2000 by Thomas E. ’63 and Linda M. Spock. This renewable scholarship is awarded with preference given to a man or woman majoring in mathematics or the fine arts.

The Harry E. Sprogell ’32 Scholarship, established in 1981 in memory of Harry E. Sprogell ’32 in honor of his class’s 50th reunion, is awarded to a junior or senior with financial need who has a special interest in law or music.

The Mary L. Sproul, Class of 1907, Scholarship was established by a bequest in 1949 from this alumna, cousin of former Pennsylvania governor, William Sproul. The scholarship is awarded to a deserving student on the basis of academic merit and financial need.

The Helen E. W. Squier Scholarship, created in 1892, provides financial aid to a student with need. The Helen G. Stafford ’30 Scholarship, established by a bequest from the estate of her sister, Anna R. Stafford, is awarded to a deserving student on the basis of financial need. Established 1974.

The C. V. Starr Scholarship, established in 1988 by The Starr Foundation as a memorial to its founder, provides scholarship assistance on the basis of academic merit and financial need.

The David Parks Steelman Scholarship, established in his memory in 1990 by C. William ’63 and Linda G. Steelman, is awarded annually to a deserving male or female student on the basis of academic merit and financial need, with preference given to someone showing a strong interest in athletics.

The Stella Steiner Scholarship was established in 1990 by Lisa A. Steiner ’54 in honor of her mother. The renewable scholarship is awarded to a first-year student on the basis of academic merit and financial need.

The Anne C. Stephens and Janaki Ramaswamy Scholarship was established in 2006 by Christianna Strohbeck ’80 and Ramaswamy Murari. The renewable scholarship is awarded on the basis of academic merit and financial need. Preference is given to students who demonstrate a commitment to teaching or counseling to develop the human and intellectual potential of others.

The Morris and Pearl Donn Sternlight Scholarship, established by their son, Peter D. Sternlight ’48, in 2005, is awarded on the basis of academic merit and financial need.

The Thomas D. ’87 and Kathleen B. ’87 Stoddard Scholarship was established in 2004. This gift of restricted endowment funds is awarded on the basis of academic merit and financial need.

The Clarence K. Streit Scholarship, established in 1975, is awarded to a student entering the junior or senior year and majoring in history. Preference is given to persons, outstanding in initiative and scholarship, who demonstrate a particular interest in early American history. This scholarship honors Clarence K. Streit, author of Union Now: A Proposal for an Atlantic Federal Union of the Free, whose seminal ideas were made public in three Cooper Foundation lectures at Swarthmore.

The Francis Holmes Strozier ’57 Memorial Scholarship, created in 1956 by his parents following his death, is awarded to a deserving student on the basis of academic merit and financial need.
The Joseph T. Sullivan Scholarship, established by a bequest in 1922, is awarded to a deserving student on the basis of academic merit and financial need.

The Solon E. Summerfield Endowed Scholarship, established in 1991 by the Summerfield Foundation, is awarded on the basis of academic merit and financial need with a preference for students from the Midwest.

The Swarthmore College Asian Scholarship was established in 2003 by Ahna Dewan '96, Terence Graham '94, Bruce Wook Han '86, George Hui '75, Min Lee '00, Thomas Lee '73, Benjamin Su '96, Mark Tong '99, Quoc T. Trang '93, Stephanie Wang '99, and Michael Yu '88. The scholarship is awarded on the basis of financial need and academic excellence (or potential for academic excellence) to Swarthmore College students of Asian ancestry (excluding U.S. nationals).

The Swarthmore College Endowed Scholarship was established by an anonymous donor in 2014 in honor of his 30th reunion. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable.

The Katharine Bennett Tappen, Class of 1931, Memorial Scholarship was established in 1979 by her sister, a member of the Class of 1928, and is awarded to a first-year student. The scholarship is renewable for four years at the discretion of the College. Preference is given to a resident of the Delmarva Peninsula.

The Julia Fishback Terrell '45 Scholarship was established in 2004 by Burnham Terrell '45 in honor and memory of Julia Terrell. The renewable scholarship is awarded on the basis of academic merit and financial need with a preference given to students with potential for service to the College.

The Ravi Thackurdeen '14 Memorial Scholarship was established in 2012 by the Thackurdeen family and friends in memory of a young man who not only embraced life with every fiber of his being, but touched others’ lives so profoundly. Filled with boundless energy and enthusiasm, Ravi cherished his time at Swarthmore—a place he said "felt like home"—as well as his many dynamic learning experiences and the opportunities afforded to him as a student. His greatest wish was to "make a difference in the world." This scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable.

The John S. Thayer Endowed Scholarship was established by a bequest from this friend of the College in 2007. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Phoebe Anna Thorne Memorial Scholarship was established by a Thorne family member in 1911. Preference is given to members of the New York Quarterly Meeting of the Religious Society of Friends. The scholarship is renewable.

The Don Thomas Endowed Scholarship was established in 2018 in honor of Don Thomas, who was the recipient of the Suzanne P. Welsh Award. The scholarship will be awarded on the basis of financial need to a Swarthmore student without further restrictions or preferences.

The Titus Scholarship was established by a bequest from Georgiana Titus, Class of 1898, and is awarded to a deserving student on the basis of academic merit and financial need. Established 1966.

The David Todd ’38 Scholarship was established in 2004 in his memory by his daughter, Rebecca Todd Lehmann ’64, and her husband, Scott K. Lehmann ’64. The scholarship is awarded on the basis of academic merit and financial need with preference for a student in the natural sciences.

The Jean Goldman Todd and Alden Todd ’39 Endowed Scholarship was established in 2002 by writer and editor Alden Todd. The late Jean Goldman Todd was a research biologist specializing in tissue culture. The renewable scholarship is awarded on the basis of academic merit and financial need with preference given to students concentrating in the life sciences.

The Patricia Trinder Scholarship, awarded on the basis of academic merit and financial need, is renewable. This scholarship was created in 2006 to honor the memory of Pat Trinder, recruitment manager and assistant director of career services (1988-2003) and secretary to the chairman of athletics (1979-1988). Pat’s long career at the College was dedicated to reaching out, serving, supporting, encouraging, and being a friend to students as they navigated life at Swarthmore. She is remembered for her compassion, her larger-than-life personality, and her warmth toward others. The donors to this scholarship hope it will be awarded to a student who exemplifies this spirit.

The Audrey Friedman Troy Scholarship, established in 1964 by her husband, Melvin B. Troy ’48, is awarded to a first-year man or woman. Prime consideration for this renewable scholarship is given to the ability of the prospective scholar to profit from a Swarthmore education and to be a contributor to the College and, ultimately, to society.

The Jane Hausman and Geoffrey M. B. ’75 Troy Scholarship, established in 1999, is awarded annually to a deserving student on the basis of academic merit and financial need, with preference given to art history majors.
5 Financial Aid

The Joseph Leon Turner ’73 and Lana Everett Turner ’74 Endowed Scholarship was established in 2015 by Joseph Leon Turner ’73 and Lana Everett Turner ’74 to recognize the important role of Swarthmore College in their lives. The scholarship shall be awarded to students on the basis of academic merit and financial need and is renewable.

The Robert C. ’36 and Sue Thomas ’35 Turner Scholarship, established in 1987, is awarded to a deserving student on the basis of academic merit and financial need.

The Daniel Underhill Scholarship was established by a bequest from Edward Clarkson Wilson, Class of 1891, and a gift by Daniel Underhill, Jr. Class of 1894. The scholarship is named for Daniel Underhill and also recognizes Underhill’s father’s 31-year tenure on the Board of Managers. The scholarship is awarded to a deserving student on the basis of financial need. Established 1962.

The Vaughan-Berry Scholarship was established in 1963 by Harold S. Berry ’28 and Elizabeth Vaughan Berry ’28 through their estate plans to provide financial assistance to needy students.

The William Hilles Ward, Class of 1915, Scholarship was established in 1967 by family members in memory of this alumnus who served on seven committees during his years on the Board of Managers. It is awarded to a deserving student on the basis of academic merit and financial need with preference for a science major.

The Gertrude S. Weaver ’38 Scholarship was endowed in her memory by her longtime friend and companion Anna Janney de Armond ’32. The scholarship, renewable in the senior year, is awarded each year to a woman student planning a career in teaching, with preference given to a student who is majoring or has a special interest in German or Chinese language, literature, history, or European history. Established 2008.

The Ellen V. Weissman ’72 Scholarship was created in 2000. The renewable scholarship is awarded annually on the basis of academic merit and financial need.

The Stanley and Corinne Weithorn Scholarship was established in 1981. The renewable scholarship is awarded with preference given to a student who has expressed a serious interest in the area of social justice and civil rights.

The Suzanne P. Welsh Scholarship was created in 2000 by an anonymous donor in recognition of outstanding administrators at Swarthmore College. The Welsh fund was established in honor of Suzanne P. Welsh, who joined the College staff in 1983 and became its treasurer in 1989 and vice president for finance and treasurer in 2002. The renewable scholarship is awarded on the basis of academic merit and financial need.

The David ’51 and Anita ’51 Wesson Scholarship was established on the occasion of their 50th reunion in honor of their parents, Eleanor and Castro Dabrohua and Marion and Philip Wesson. The renewable scholarship is awarded to a first-year student on the basis of academic merit and financial need. Preference is given to a student who is the first in his or her family to attend college. Established 2000.

The Dan and Sidney West Scholarship was established in 2003 by an anonymous donor to reflect the appreciation, respect, and affection that the Swarthmore College community holds for the Wests and to honor their significant accomplishments at institutional, community, and personal levels. In 2007, Dan and Sidney added funds to this endowment. The renewable scholarship is awarded on the basis of financial need and academic merit, with a preference for students from Arkansas, Oklahoma, or Texas.

The Westbury Quarterly Meeting Scholarship was created in 1874, when the Westbury Quarterly Meeting, N.Y., turned over to Swarthmore College a fund of $5,000, called the Educational Fund belonging to the Westbury Quarterly Meeting. The scholarship is awarded to students with financial need.

The Larry E. and Myrt C. Westphal Scholarship was established by Karan Madan ’91, Suzanne Buckley ’89, and Jason Cummins ’90, with additional gifts from other appreciative students, friends and colleagues. The scholarship honors Professor Westphal’s teaching excellence and the impact he had through his microeconomics, economic development, Asian economies and environmental studies classes, and Dean Westphal’s dedication and work in housing, disabilities, the Lang Scholar program and personal advising. The scholarship is awarded each year on the basis of academic merit and financial need and is renewable. Established 2011.

The Deborah F. Wharton Scholarship was created in 1875 and honors the mother of Joseph Wharton, who served on the Board of Managers from 1883 to 1907. The scholarship is awarded to a deserving student on the basis of financial need.

The White Family Scholarship, established in 1972, provides financial aid for a deserving student. A preference is given to students with an interest in business, economics, or engineering.

The Widdicombe Family Scholarship was established in 2003 by an anonymous donor to recognize the important role of Swarthmore College in the lives of Castro Dabrohua and Marion and Philip Wesson. The renewable scholarship is awarded to a first-year student on the basis of academic merit and financial need. Preference is given to a student who is the first in his or her family to attend college. Established 2000.

The Frederick J. Wiest Jr. ’37 and Elizabeth S. Wiest ’38 Scholarship was established in 2006 and is awarded on the basis of academic merit and financial need.

The Rachel Leigh Wightman Scholarship was created in 2000 by Colin W. ’82 and Anne Bauman ’82 Wightman in memory of their daughter. The renewable scholarship is awarded to
5 Financial Aid

a gentle person whose quiet, unrelenting love of learning inspires similar passion in those around them. The scholarship is awarded on the basis of need to a worthy student.

The Erik Joseph Wilk '90 Scholarship, established in 2005, is awarded on the basis of academic merit and financial need with a preference for someone who embraces, and has a sensitivity for and acceptance of diversity, including other cultures and sexual orientations.

The Samuel Willetts Scholarship was created in 1885 to honor a member of the original committee to solicit funds for "The Establishment of Swarthmore College" who also served on the Board of Managers from 1862 to 1883. The scholarship is awarded to a deserving student on the basis of financial need.

The I.V. Williamson Scholarship, established in 1885 by a gift from the sale of property by this Philadelphia merchant and philanthropist, is awarded to a deserving student on the basis of academic merit and financial need.

The Edward Clarkson Wilson and Elizabeth T. Wilson Scholarship, established in 1948 to honor the former principal of the Baltimore Friends School and his wife, is awarded to a deserving student on the basis of academic merit and financial need.

The Elmer L. Winkler '52 Scholarship, established in 1980 by this alumnus, is awarded annually to a deserving student on the basis of academic merit.

The Phyllis M. Wang Wise '67 Endowed Scholarship was established in 2009. The renewable scholarship is awarded on the basis of academic merit and financial need.

The Harrison M. Wright Scholarship was created in 1993 by friends, colleagues, and former students of Harrison M. Wright, Isaac H. Clothier Professor of History and International Relations, on the occasion of his retirement from the College. The scholarship supports a student who will study in Africa.

The I.V. Williamson Scholarship, established in 2002, reflects the donor's encouragement of student interest in international relations and cross-cultural development. The renewable scholarship is awarded on the basis of academic merit and financial need, with preference given to students of color majoring in biology.

The Robert Wolf '39 Scholarship was endowed in his memory by his sisters, Ruth Wolf Page '42 and Ethel Wolf Boyer '41. The renewable scholarship is awarded each year on the basis of need and merit to a junior or senior majoring in chemistry or biology. Established 1998.

The Letitia M. Wolverton, Class of 1913, Scholarship, given by a bequest in 1983 from Letitia M. Wolverton, provides scholarships for members of the junior and senior classes who have proved to be capable students and have need for financial assistance to complete their education at Swarthmore College.

The Mary Wood Scholarship, created through a bequest in 1898 from this Media, Pa., resident, is awarded to a deserving student on the basis of financial need.

The Roselynd Atherholt Wood '23 Scholarship, established in 1983 by this alumna, is awarded to a deserving student on the basis of academic merit and financial need.

The Thomas Woodnutt Scholarship was established in 1905 by Hannah H. Woodnutt, then a member of the Board of Managers, in memory of her husband, who had from the beginning taken a great interest in Swarthmore College.

The Frances '28 and John '30 Worth Scholarship was established by Frances Ramsey Worth in 1993. The renewable scholarship is awarded to a first-year student with strong academic credentials and financial need.

The David Wright '65 Scholarship was established in 2005 and is awarded on the basis of academic merit and financial need.

The Elizabeth Cox Wright Endowed Scholarship was established in 2006 by Pamela Taylor Wetzels '52 to honor an outstanding, beloved teacher known for instilling a love of Shakespeare in her students and holding poetry seminars in her home. Elizabeth Cox Wright came to Swarthmore College as an instructor of English in 1930 and retired as a professor emerita of English in 1964. She died in 1973. This renewable scholarship is awarded on the basis of academic merit and financial need.

The Richard A. Yanowitch '81 Scholarship, established in 2002, reflects the donor's encouragement of student interest in international relations and cross-cultural development. The renewable scholarship is awarded on the basis of academic merit and financial need, with preference given to African Americans and other minority groups. It is hoped that during his or her time at the College, the Yanowitch scholar will study history, languages, and international cultures.

The Paul Ylvisaker H '78 Scholarship was established in 2008 by a member of the Class of 1952 to honor an articulate, inspiring, and charismatic faculty member who taught political science from 1948 to 1955. In 1978, Paul Ylvisaker returned to Swarthmore to receive an honorary degree, which recognized his contributions as a champion of cities and the urban underclass as a planner, government official, foundation executive, and educator. This scholarship is awarded to students on the basis of academic merit and financial need.
6 College Life

6.1 The Residential College Community

Swarthmore College is committed to student learning in and out of the classroom and thus supports the personal and leadership development of students through extracurricular activities. Swarthmore’s housing philosophy is based on the belief that residence-hall living enhances education by contributing to an individual’s academic, social, and personal development. If residential communities are to provide an environment for personal growth, residents must accept responsibility for their own actions and demonstrate respect for the rights and concerns of others and for the property of the College.

6.1.1 Student Rights, Responsibilities, and Code of Conduct

General housing policies and regulations described below are established by the Dean’s Office and the Office of Student Engagement. Students are expected to familiarize themselves with the policies and rules concerning their conduct in the residence halls. Acceptance of space in College housing constitutes your knowledge of, willingness and agreement to abide by these housing policies. Living in College housing is a privilege and not a right. The Dean’s Office and/or Office of Student Engagement may, at any time and at its own discretion, withdraw this privilege due to behavior, which does not rise to the standards outlined below. Students who lose their housing privileges are not typically entitled to a refund of their room and board charges for the remaining weeks of the semester.

6.2 Residential Life

Swarthmore is a primarily residential college, conducted on the assumption that the close association of students and instructors is an important element in education. Most students live in college residence halls all eight (8) semesters. New students are required to live in the residence halls during their first two (2) semesters. Transfer students are required to live in the residence halls during their first (1) semester. After their first year at the College, students are permitted to live in non-College housing.

6.2.1 Housing

Seventeen residence halls, ranging in capacity from 8 to 214 students, offer a diversity of housing styles. Several of the residence halls are a 5 to 15-minute walk to the center of campus. Swarthmore’s residence halls are Alice Paul; Dana; David Kemp (the gift of Giles Kemp ’72 and Barbara Guss Kemp, in honor of Giles’ grandfather); Hallowell; Kyle House (named in honor of Fred and Elena Kyle ’55); Lodges; Mary Lyon; Mertz Hall (the gift of Harold and Esther Mertz); Palmer; Pittenger; Roberts; the upper floors in the wings of Parrish Hall; PPR Apartments; Wharton Hall (named in honor of its donor, Joseph Wharton, a one-time president of the Board of Managers); Willets Hall (made possible largely by a bequest from Phebe Seaman and named in honor of her mother and aunts); Woolman House; Worth Hall (the gift of William P. and J. Sharples Worth, as a memorial to their parents).

All new students are assigned roommate(s) and a residence hall room by the Office of Student Engagement. Efforts are made to follow the preferences indicated and to accommodate special needs, such as documented disabilities. During the spring semester, rising senior, junior and sophomore students select rooms for the following fall. Each student receives a lottery number, based on their official class year, which dictates their priority status in lottery room selection. The College guarantees housing for all students who participate in the housing selection process in a timely manner. While many seniors and some juniors live in single-type rooms, the College cannot guarantee that a single will be available for any student. First-year, sophomore, and junior students generally live in doubles, triple, or quad-style rooms.

A mixture of class years live in each residence hall. About 90 percent of residence hall areas are designated as gender-neutral housing either by floor, section, or building. The remaining areas are single-gender housing. Although single-gender options are offered, they are not always available and as such cannot be guaranteed.

Requests for room changes can be requested by contacting the Office of Student Engagement. Making a room change request does not ensure that a room change will be made. Students are expected to work through roommate and other housing conflicts with the involved parties, with the help of resident assistants (RAs), residential community coordinators (RCCs), Office of Student Engagement professional staff, or deans. All students are expected to occupy the rooms to which they are assigned or which they have selected through the regular room choosing process. Prior approval from the Office of Student Engagement is required of any student making a room change. Students are restricted from occupying, moving into, or using as storage any vacant resident hall room, without express permission from the Office of Student Engagement. Students who switch rooms without the consent of the Office of Student Engagement may be fined and/or not be permitted to participate in the next housing lottery.

Resident assistants, selected from the junior and senior classes, are assigned to each of the residence halls. These leaders help create activities for students, serve as support advisers to their hallmates, and help enforce College rules for the comfort and safety of the residents.
Residence halls remain open during fall break, Thanksgiving, and spring break, but are closed to student occupancy during winter vacation. Specific winter vacation dates are set each year, but generally include a 4-5 week period from mid-December through mid-January. Limited meal options are available during fall and spring breaks.

Guests - Residence hall rooms are designed for sleeping and studying on the part of the occupants. Guests of Swarthmore students are welcome to visit campus when the College is in session. Guests are defined as non-Swarthmore students and friends, family, and prospective college-aged students. Individuals or groups contracted to perform specific functions at the College (e.g., performers, speakers, etc.) are not permitted to stay overnight in the residence halls. If a guest of a student will be staying in a residence hall overnight, the resident assistant (RA) must be notified, and all roommates must agree to any overnight stay.

A guest is not permitted to stay in a residence hall more than a total of four (4) nights each term, and they must be accompanied by their host at all times while in the residence halls. A guest is never permitted to sleep or reside in any public location (such as a residence hall lounge, basement, or other public space). Requests for exceptions must be made to the Office of Student Engagement.

Student hosts are responsible for the conduct of their guests on campus and will be held accountable for any violation of the student code of conduct or other rules of the College committed by a guest.

The Dean’s Office and/or Office of Student Engagement reserves the right to require a guest to immediately leave campus if their behavior begins to have an impact on the campus community or is otherwise disruptive.

Before inviting a guest into the room, the student must secure the permission of all roommates. If the roommate does not give permission, the inviter may not have the guest in the room. Usually, roommates can agree about the presence and timing of guests. If no agreement can be reached, the basic principle is that the room is for study and sleeping by the assigned occupants.

More detailed housing rules and regulations are found in the Student Handbook, and on the housing website: www.swarthmore.edu/housing.

6.2.2 Storage and Insurance

College storage is not available during the summer term, or while a student is taking part in off-campus study. Students should make arrangements for transporting personal items to and from campus and for storing those items when the residence halls are closed (with the exception of winter break). Please contact the Office of Student Engagement for a list of suggested storage vendors. There are many locations off-campus that offer students summer and winter break storage options. Students must work with these companies directly as they are not managed by the College.

A limited amount of storage may be available to international students who are not able to travel home during the summer term and others with extenuating circumstances. Please contact the Office of Student Engagement to determine eligibility for this option.

The insurance program for the College is designed to provide protection for College property and does not include the property of students or others. Students and their parents are strongly urged to review their insurance plan to be sure that coverage is extended to include personal effects while at college. The College assumes no responsibility for stored items; students store items at their own risk.

6.2.3 Dining

Swarthmore’s Dining Services oversees the College’s main dining facility, Sharples Dining Hall, as well as Essie Mae’s Snack Bar, the Kohlberg Coffee Bar, the Science Center Coffee Bar, the Mary Lyon’s Breakfast Room, a weekday Grab-N-Go lunch program, and provides catering services to campus. Sharples Dining Hall is open Monday through Friday, 7:30 a.m. to 8:00 p.m.; Saturday, 7:30 a.m. to 7 p.m.; and Sunday, 10 a.m. to 7 p.m. Unlimited servings are permitted, and takeout is available seven days a week for lunch and dinner.

Students select their meal plan at the start of each semester and have two weeks to make changes to their plan, after which no further changes can be made. The College offers four main meal plans and two additional plans tailored to students residing in PPR Apartments and students commuting to campus. All students living in campus housing must subscribe to a meal plan; students commuting to campus may choose to opt out. Meal plans consist of varying combinations of meals, usable only at Sharples Dining Hall, Points, usable at any campus dining location, and Swat Points, usable at any campus dining location as well as at the Swarthmore Campus & Community Store and at participating borough merchants. All meal plans include a late-night snack equivalency at Essie Mae’s Snack Bar equal to one meal swipe per night and three guest meals per semester.

Students eating in any College dining location must present their OneCard picture identification card in order to use their meal credit or points. These policies are in effect to protect each student’s personal meal plan account.

Swarthmore’s dining program strives to uphold the College’s commitment to sustainability by sourcing locally produced foods, reducing waste, and conserving resources. In addition to buying directly from local food producers, Dining Services is proud to work with a number of local, privately owned and operated food distributors.
Each of these companies feature locally produced items, provide employment to area residents, and support their communities. A full list of the food distributors and producers used can be found on the Dining Services website.

A sincere effort is made to meet the dietary needs of all Swarthmore students. Sharples Dining Hall is a peanut-free facility, and serving lines and individual dishes are labeled for common allergens: Milk, Egg, Wheat, Soy, Shellfish, Fish, and Tree Nuts. Sharples includes a Free Zone designed for students who need to eat an entirely gluten free diet. Gluten free hot foods, staples, and desserts are available in the Free Zone as well as equipment for students to prepare their own items. Vegetarian and vegan options are offered at every meal in Sharples, including in the Free Zone. There are also packaged gluten-free products available at each of the campus coffee bars and at Essie Mae’s snack bar. Beyond these broad accommodations, the Dining Services team works collaboratively with individual students with documented medical conditions to identify options that will meet their needs within the institutional setting. When visiting our dining facilities, please ask to speak to a manager if you have questions about menu items or ingredients.

Swarthmore students may obtain passes to eat at the Bryn Mawr and Haverford college dining halls from the checkers at Sharples Dining Hall. For information on additional dining services, including catering, cakes, and barbeques, please visit the Dining Services website.

6.2.4 Parking
All members of the campus community (faculty, staff, students, and visitors) are expected to follow the College’s parking and transportation polices. These policies are enacted in order to increase campus safety and to preserve parking for Swarthmore College employees and students who are issued permits.

There are a limited amount of parking spaces on campus for current students. For reasons of sustainability and community, students are not allowed to bring a car to Swarthmore College without explicit approval from the Parking Committee. Approximately 160 parking permits are set aside for members of the student body with extenuating needs or circumstances that will require a car. The number of student permit requests usually outnumbers the spaces we have set aside for students. As such, student parking permits applications will be prioritized by established and existing criteria: class year, extenuating need, and special medical accommodations.

Students should not plan on bringing a car to campus unless they receive explicit permission to do so. Parking regulations are enforced at all times during the Fall, Spring, and Summer semesters. Students found in violation of campus transportation polices may be referred to the Office of Student Conduct.

6.3 Health & Wellness

6.3.1 Student Health and Wellness Services (SHWS)
The health and wellness team supports the needs of our diverse student body by providing individualized holistic care and campus-wide education. The Health & Wellness Center offers myriad wellness promotion, counseling, education, and prevention services.

Students may walk-in for a health evaluation by a registered nurse. Nurse practitioners, physicians, dietitian, alcohol and other drug counselor, and violence prevention advocate are available by appointment. Our physicians are members of the Crozer Health System, a full-service teaching hospital and trauma center. The Health & Wellness Center provides acute care, allergy injections, alcohol and other drug counseling, first aid treatment, interpersonal relationship education, nutrition counseling, referral services, reproductive health services, simple diagnostic screenings, travel health consultations, vaccinations, and wellness visits. Our operational hours are based on when the need is highest, and are supplemented by an after-hours on call system that provides students with access to a registered nurse.

All visits to the Health & Wellness Center are free of cost. A nominal fee is applied for simple diagnostic tests and most medications dispensed at the Health & Wellness Center. Laboratory specimens are sent to LabCorp or Quest Diagnostics and are billed by the lab to the student's health insurance. A small dispensary of commonly used prescription medications is maintained. Students who need prescription medication may purchase them through their insurance with a pharmacy or through the Health & Wellness Center for a fee. A delivery service from a local pharmacy is available to students.

The Swarthmore College Student Health Portal is available for managing your on-campus health needs and forms. You can access your Student Health Portal through your mySwarthmore account. Click on Worth Health Center, then, click on Student Health Portal.

More information on the Student Health & Wellness Center is available at www.swarthmore.edu/health

6.3.2 Counseling and Psychological Services (CAPS)
Services for students include individual & group counseling and psychotherapy, emergency-on-call consultation, consultation regarding the use of psychiatric drugs in conjunction with ongoing psychotherapy, psychological testing, and educational programming. Counseling and
Psychological Services (CAPS) participates in training resident assistants and student academic mentors as well as other student support groups and provides consultation to staff, faculty, and parents. CAPS is staffed by a diverse group of psychological, social work, and psychiatric professionals. The director and staff collectively provide regular appointment times Monday through Friday. Students may be referred to outside mental health practitioners at their request or when long-term or highly specialized services are needed. CAPS main office is located in the Worth Health Center, North Wing. Treatment at CAPS is voluntary and confidential. Where there may be a significant question of imminent threat to someone’s life or safety, CAPS reserves the right to break confidentiality in order to ensure safety.

Appointment requests may be made on-line at https://www.swarthmore.edu/counseling-and-psychological-services/caps-request-to-schedule-appointment or in person or by phone (610-328-8059) between 8:30 a.m. and 4:30 p.m., Monday through Friday. Telephone consultation is available 24/7/365 at 610-328-7768. For more detailed information about CAPS, visit the website at www.swarthmore.edu/caps.xml.

6.3.3 Health Insurance

Health insurance is required for all Swarthmore students. Please be certain that your private or state sponsored health insurance plan will cover a student away from home. Services away from home, such as blood tests, MRI’s, x-rays, behavioral health and care from specialists are often not covered under a private or state sponsored insurance plan.

Students who have no insurance or inadequate insurance coverage must enroll in the Student Health Insurance Plan (SHIP) offered to all students. If your insurance status changes, notify student health services immediately. Enrollment to the Student Health Insurance Plan must be done within 31 days of the loss of other coverage. Financially aided students should be aware that there is a sliding scale in place for the Student Health Insurance Plan premium. For further information, please consult the Student Health Insurance Plan Coordinator (health@swarthmore.edu). The College provides supplemental health insurance for students who are actively participating in intercollegiate and club sports. All athletes with questions related to insurance coverage with sports injuries should contact Marie Mancini (mmancin1@swarthmore.edu).

6.4 Campus Safety

The Department of Public Safety is located in the Benjamin West House. The department provides round-the-clock uniformed patrol of the campus buildings and grounds. Public safety officers are PA State Certified under Act 235 and receive a variety of training such as, CPR/First Aid and AED, trauma informed response, implicit bias, de-escalation, Clery and Title IX. Public safety officers provide a prompt, professional presence and can help students with emergency issues as well as general advice on crime prevention and awareness programs. Students are encouraged to call the department at 610-328-8281 any time they feel Public Safety can be of assistance. All emergencies should be reported by contacting the department's emergency telephone line 610-328-8333. Any crime or suspected crime should be reported immediately to the Department of Public Safety.

Swarthmore College's Annual Fire Safety and Security Report is written to comply with the (Pa.) College and University Security Information Act: 24 P.S., Sec. 2502-3©, the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, and the Campus Fire Safety Right to Know Act. This annual report includes statistics for the previous 3 years concerning reported crimes that occurred on campus, in certain off-campus buildings owned or controlled by Swarthmore College, and on public property within or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, and other matters. The College’s Fire Safety Report contains a variety of fire safety related information in addition to campus fire statistics for the most recent three calendar years. To obtain a full copy of this document, visit www.swarthmore.edu/sites/default/files/assets/documents/public-safety/DPSAnnualReport2018.pdf.

6.5 Cocurricular Opportunities

6.5.1 Student Government

The Student Council is the chief body of student government and exists to serve and represent the students of Swarthmore College. Its members are elected semiannually. The powers and responsibilities of the Student Council are (1) the administration of the Student Activities Account; (2) the appointment of students to those committees within the College community upon which student representatives are to serve; (3) the oversight of those students of those committees; (4) the administration of student organizations; (5) the operation of just elections; (6) the execution of referendums; (7) the representation of the student body to the faculty, staff, and administration, and
to outside groups, as deemed appropriate; and (8) the formulation of rules needed to exercise these powers and to fulfill these responsibilities. The Student Council provides a forum for student opinion and is willing to hear and, when judged appropriate, act upon the ideas, grievances, or proposals of any Swarthmore student.

The Student Budget Committee (SBC) allocates and administers the Student Activity Fund. The SBC allocates funds to all campus events, maintains a balanced social calendar, and is responsible for organizing formals and various other activities that are designed to appeal to a variety of interests and are open to all students free of charge.

*Service on College Committees* is determined by the Appointments Committee of Student Council that selects qualified student representatives.

### 6.5.2 The Arts

Creative arts activities take place in conjunction with the departments of art, English, music and dance, and theater. There are also many student groups that organize creative activities. Professional performers and artists are brought to campus regularly, both to perform/exhibit and to offer master classes. Campus facilities include practice and performance spaces available for student use.

### 6.5.3 Athletics/Physical Activities

Swarthmore’s athletic program is varied, offering every student the opportunity to participate in a wide range of sports, including intercollegiate, club, and intramural teams.

### 6.5.4 Publications and Media

*The Phoenix*, the weekly student newspaper; the *Halcyon*, the College yearbook; and WSRN, the campus radio station, are completely student-run organizations. Lodge 6 houses War News Radio. The campus Media Center supports student initiatives in video and web formats. Several other student publications include literary magazines and newsletters. For more information, contact the Office of Student Engagement.

### 6.5.5 Service and Activism

Service and activism activities are an integral part of the lives of many students, faculty, and staff members. The Office of Student Engagement and the Lang Center for Civic and Social Responsibility (see 6.6.6) support many of these endeavors.

### 6.5.6 Student Organizations

Students are encouraged to get involved in extracurricular activities at Swarthmore. More than 100 clubs and organizations span a broad range of interests such as community service; athletics; political action; and religious, cultural, and social activities. If there isn’t a club or organization that meets a student’s interest, he or she may form one with the guidance of Student Council.

### 6.6 Student Centers

#### 6.6.1 Black Cultural Center

The Black Cultural Center (BCC), located in the Caroline Hadley Robinson House, provides a library, classroom, computer room, TV lounge, kitchen, all-purpose room, a living room/gallery, two study rooms, and administrative offices. The BCC offers programming, activities, and resources designed to stimulate and sustain the cultural, intellectual and social growth of Swarthmore’s black students, their organizations and community. Further, the BCC functions as a catalyst for change and support to the College’s effort to achieve pluralism. The BCC’s programs are open to all members of the College community. The BCC is guided by the assistant dean, with the assistance of a committee of black students, faculty, and administrators.

#### 6.6.2 Center for Innovation and Leadership

The Center for Innovation and Leadership (CIL) engages innovative thinking to foster student leadership practice. Focusing specifically on student leadership development, innovative programing, and alumni and parent engagement the CIL provides opportunities for students to lead, inspire, listen, and learn, in order to meet the challenges of our time and reflect the values of our community. The CIL can help students cultivate mentoring relationships, build their skill sets in entrepreneurship and leadership, and encourage experimentation, collaboration, and reflection.

#### 6.6.3 Intercultural Center

The Intercultural Center (IC) provides programs, advocacy, and support for Asian/Pacific Islander American, Latino@, multiracial, Native American, LGBTQIA (lesbian, gay, bi/pansexual, trans*, queer/questioning, intersex, and asexual), low-income, international, and first-generation college students at Swarthmore College. In addition, the IC promotes systemic change toward intersectional perspectives across the institution and fosters collaboration and coalition building among communities both within and outside the IC and the College. Resources and programs include faculty-student-staff events, lectures, concerts, films, poetry slams, workshops and dialogues that explore race, class, gender, sexuality, citizenship, intersectional identities, and equity with a particular emphasis on social justice education and leadership. More information is available at www.swarthmore.edu/ic.

#### 6.6.4 Interfaith Center

Religious advisers are located in the Interfaith Center in Bond Hall and currently consist of Jewish, Catholic, and Protestant professionals. The advisers and the Interfaith Center provide members of the Swarthmore community.
opportunities and resources, in an atmosphere free from the dynamics of persuasion, in which they can explore a variety of spiritual, ethical, and moral meanings; pursue religious and cultural identities; and engage in interfaith education and dialogue. The center comprises offices, a large common worship room, and a private meditation room. Student groups of many faiths also exist for the purpose of studying religious texts, participating in community service projects, and exploring common concerns of religious faith, spirituality, and culture. Various services are available on campus, and area religious communities welcome Swarthmore students.

6.6.5 Eugene M. Lang Center for Civic and Social Responsibility
The Lang Center, located at 3-5 Whittier Place, supports Swarthmore’s mission to "help students realize their fullest intellectual and personal potential combined with a deep sense of ethical and social concern" through a variety of Engaged Scholarship initiatives. The Lang Center supports the College’s commitment to social responsibility in the context of academic excellence by providing financial, administrative, advisory, and logistical support for a wide range of opportunities that connect scholarly work to broader, public concerns. In short, the Lang Center connects the campus, curriculum, and communities- both local and global. Its key programs include:

Engaged Scholarship - Engaged Scholarship refers to research and teaching that orient the College’s energies toward pressing social, environmental, ethical, and public problems; it includes Community-Based Learning and Research but also public-facing scholarship and coursework. The Lang Center supports faculty teaching and research grounded in Engaged Scholarship through Curriculum Development grants, Faculty-Led Engaged Research grants, and other support. The Lang Center also houses programs that encourage interdisciplinary learning and Engaged Scholarship led by faculty experts: Arts in Action, Global Affairs, Health & Societies, and Urban Inequality & Incarceration. Finally, the Lang Center provides special support for interdisciplinary academic programs oriented toward Engaged Scholarship, which includes Environmental Studies, Peace and Conflict Studies, and Educational Studies.

The Eugene M. Lang Visiting Professorship for Issues of Social Change - The professorship was endowed in 1981 by Eugene M. Lang ’38 to bring to the College an outstanding social scientist, political leader, or other suitably qualified person who has achieved professional or occupational prominence for sustained engagement with issues, causes, and programs directly concerned with social justice, civil liberties, human rights, or democracy.

Social Innovation Lab - Founded by Lang Visiting Professor for Issues of Social Change Denise Crossan, the Social Innovation Lab at the Lang Center provides students, faculty, staff, and community partners with an on-site "makerspace" to grow their ideas. The Lab unites a fledgling community of Swarthmore Social Innovators and community stakeholders invested in creative collaboration for the wider good. The Lab hosts courses and programs that teach participants innovation skills such as human-centered design thinking methods, strategic and project planning, and social entrepreneurship skills. The Lab and its programming also connects directly with faculty across the College to enrich engaged scholarship pursuits utilizing social innovation processes.

President’s Sustainability Research Fellowship (PSRF) - This high-impact learning program, jointly hosted by the President’s Office, the Office of Sustainability, the Environmental Studies Program, and the Lang Center for Civic and Social Responsibility, matches small teams of advanced students with staff and faculty mentors to research, develop, and implement sustainability projects in a year-long course and associated internship.

Lang Opportunity Scholarship Program - Up to six students, during the first semester of their sophomore year, are selected to participate in this program, which includes a paid summer internship, the opportunity to apply for a substantial grant that supports the implementation of a major project with significant social value, and other benefits. Lang Center staff work closely with Lang Scholars as they develop and carry out their projects.

Student Service and Activist Groups - Lang Center staff provide many student groups with guidance and support. Supported groups include Dare 2 Soar, a tutoring program in Chester; Let’s Get Ready, a college preparation and success program; Chester Youth Court Volunteers, a restorative justice program; War News Radio, an alternative news coverage outlet; a voter engagement group, Swarthmore Political Access Network; and Crazy 8s, a math club at Jackson Elementary.

The Swarthmore Foundation - A small philanthropic body formed by Swarthmore College in 1987 with endowments from alumni, foundations, and others, the Swarthmore Foundation supports students, staff, and faculty involvement in Engaged Scholarship, collaborative action, and social innovation. For instance, summer grants provide living expenses and summer earnings for full-time, 10-week summer opportunities with faculty, non-profit organizations, grassroots advocacy groups, and public service agencies that best allow students to connect their academic interests with action toward social good. Lang Center staff provide guidance as students find placements, advising throughout their experiences, and opportunities to
share what they’ve learned back with the campus community.

The Project Pericles Fund of Swarthmore College - Eugene M. Lang ‘38 and the Board of Managers of Swarthmore College created the Project Pericles Fund of Swarthmore College in 2005 to support groups of Swarthmore students who propose and implement social and civic action projects that are significant in scope. Projects supported this last year included: StoryBoard, an intensive filmmaking program that emphasizes social justice in Los Angeles; and The Sesame Street Project, literacy, leadership, and chess programming for those affected by the school-to-prison pipeline in Chester, PA.

6.6.6 Tarble Social Center
The Tarble Social Center in Clothier Memorial Hall was provided through the generosity of Newton E. Tarble of the Class of 1913 and his widow, Louise A. Tarble. The facility includes a snack bar, a lounge space, Paces (a student-run café and party space), an all-campus space, meeting rooms, the Swarthmore College Computer Society media lounge and various student organization offices.

6.6.7 Women’s Resource Center
The Women’s Resource Center (WRC) is located in a lodge on the west side of campus; it is open to all women on campus. It is organized and run by a student board of directors to bring together women of the community with multiple interests and concerns. The resources of the center include a library, kitchen, various meeting spaces, computer, and phone. The WRC also sponsors events throughout the year that are open to any member of the College community.

6.7 Student Advising

6.7.1 Student Deans
The Office of Academic Success oversees the advising system. The deans are available to all students for advice on any academic or personal matter. A dean is assigned to each student. Students, however, may approach any dean for advising, support, or to learn about College resources.

6.7.2 Academic Advising
Each first-year student is assigned to a faculty member or administrator who serves as the student’s academic adviser. Once students are accepted by an academic department for their major, normally at the end of the sophomore year, the advising responsibility shifts to the chair, or the chair’s designate, of that department. Requests for a change of adviser in the first two years will be freely granted subject only to availability and equity in the number of advisees assigned to individual advisers.

6.7.3 Academic Support
Academic support can be accessed through the Office of Academic Success, including Student Disability Services, through academic departments (peer mentors, clinics, and review sessions), through the Writing Center (Writing Associates), and in residence halls (Student Academic Mentors). Tutors can be arranged through departments or through the Office of Academic Success. No fees are required for any of these services.

Academic Programming
Throughout each year, the Office of Academic Success coordinates programming designed to support all students’ academic success. Examples of this programming include workshops on time management, procrastination, effective class participation, and study strategies across various academic disciplines.

Student Academic Mentors (SAMs) are students specially selected and trained to work with students on the development of skills necessary for academic success including time management, organization, study strategies, and reading techniques. All residence halls with first-year students are assigned a SAM to serve as a resource for its residents. SAMs also hold weekly office hours at the McCabe, Underhill, and Cornell Libraries, and at the Black Cultural Center. They sponsor "Drop-In Hours" at locations throughout campus during advising and registration periods.

Writing Associates (WAs) are students who have been specially trained to assist their peers with all stages of the writing process. WAs are assigned on a regular basis to selected courses, and they are located in the Writing Center in Trotter Hall. All students have access to the Writing Center as needed and can receive help on a drop-in or appointment basis.

6.7.4 Health Sciences Office (Premed Advising)
The staff of the Health Sciences Office is available to students and alumni considering a career in medicine, dentistry, veterinary medicine or other health professions. The Health Sciences Adviser counsels students throughout their undergraduate years and beyond, and assists them in the process of application for graduate training.

Swarthmore graduates are represented at 72 medical, dental and veterinary schools in 28 states in the U.S., including such top schools as Harvard, Yale, Columbia, Penn, Stanford, Johns Hopkins, and many fine state universities. The College’s acceptance rate is substantially higher than the national acceptance rate.

While many students planning a medical career decide to major in biology or chemistry, others elect to concentrate in one of the humanities or social sciences, while structuring their overall program to fulfill medical school requirements. The following courses are part of a typical program:
Gigi Simeone, the Prelaw Adviser, is available to any student or alum considering a career in law. The Prelaw Office counsels students throughout their undergraduate years and beyond, and assists them in the process of application to law school. It offers a series of meetings with law school admissions deans each fall. The office also prepares dean’s certifications for students applying to law schools that require it. More information is available at www.swarthmore.edu/prelaw.

6.7.5 Prelaw Advising
Swarthmore’s academic rigor provides an excellent preparation for students considering a career in law. Swarthmore graduates are represented at law schools across the U.S., including such top schools as Harvard, Columbia, Stanford, and Yale.

Swarthmore students interested in law are encouraged to take a varied and challenging academic program, which will develop their analytical, reading, writing and speaking skills. There is no prelaw major or prescribed prelaw coursework. Students have applied successfully to law school with majors and minors in the humanities, social sciences, and natural sciences.

Gigi Simeone, the Prelaw Adviser, is available to any student or alum considering a career in law. The Prelaw Office counsels students throughout their undergraduate years and beyond, and assists them in the process of application to law school. It offers a series of meetings with law school admissions deans each fall. The office also prepares dean’s certifications for students applying to law schools that require it. More information is available at www.swarthmore.edu/prelaw.

6.7.6 Career Services
Career Services offers individualized attention to students who are seeking career direction, considering majors, exploring internships, job searching or applying for graduate school. Career Counselors and Career Peer Advisers help students develop knowledge of themselves and their life options, advance their career planning and decision-making abilities, and develop skills related to their internship/job search and graduate school admission. Individual counseling and group workshops encourage students to expand their career options through exploration of their values, skills, interests, abilities, and experiences. A noncredit Career Development course is available for all students, regardless of their academic discipline or year.

Career programming includes alumni career panels and dinners, presentations, workshops, employer information sessions, an etiquette dinner, career fairs and interview days. The office cooperates with Alumni Relations and the Alumni Council to help students connect with a wide network of potential mentors and the offices co-sponsor the annual Lax Conference on Entrepreneurship. Exploration of career options is encouraged through internships, summer jobs, and alumni-hosted externships during winter break. Students may receive assistance in researching, locating, and applying for internships, employment, and graduate school admission and receive advice in how to gain the most they can from these experiences.

Career Services hosts on-campus recruiting by representatives from for-profit, government and nonprofit organizations. The Career Services website (www.swarthmore.edu/careerservices.xml) provides access to comprehensive online databases of internship and job listings as well as an events calendar to make information about activities and programs available to students. Recommendation files are compiled for interested students and alumni to be sent to prospective employers and graduate admissions committees.

6.8 Student Conduct System
Swarthmore places great value on freedom of expression, but it also recognizes the responsibility to protect the values and structures of an academic community. It is important, therefore, that students assume responsibility for helping to sustain an educational and social community where the rights of all are respected. This includes conforming their behavior to standards of conduct that are designed to protect the health, safety, dignity, and rights of all. Community members also have a responsibility to protect the possessions, property, and integrity of the institution as well as of individuals. The aim of the College’s Student Code of Conduct is to balance all these rights, responsibilities, and community values fairly. The student conduct system is overseen by the associate dean of students and all questions should be directed to this office.

The Student Conduct process is an administrative educational process informed by legal and compliance requirements that guide academic institutions together with the holistic mission of the College to help students realize their full potential. Students share responsibility for upholding community standards and are expected to participate in good faith with investigation and adjudication processes meant to resolve a code allegation. Decisions about whether a student or group is responsible for a conduct violation are
based on a fair preponderance of the evidence standard meaning, the allegation is supported by evidence that sufficiently demonstrates that it is more likely than not that a violation occurred. Without sufficient evidence, a student or group will be found not responsible. The student conduct process strives to be both thorough and efficient and suggested process timelines may be shortened or extended if warranted by extenuating circumstances.

The formal student conduct system at Swarthmore College has three main components: (1) Minor Misconduct: Allegation(s) in which possible sanctions do not include suspension or expulsion from the College if the student were found responsible and are typically conducted through the office of student engagement by the residence community coordinators; (2) Major Misconduct: Allegation(s) subject to College policy in which possible sanctions could result in suspension or expulsion from the College if the student were found responsible, and are typically addressed by the College Judiciary Committee (CJC) or an Administrative Adjudication meeting with the associate dean of students, including all allegations of academic misconduct. The CJC is composed of faculty, students, and administrators who have undergone training for their role; and (3) Sexual Assault and Harassment: All allegations of sexual and gender-based harassment, sexual misconduct, sexual violence, stalking, and intimate-partner violence are addressed through the College’s Sexual Assault and Harassment Policy.

Violation of the laws of any jurisdiction, whether local, state, federal, or (when studying abroad) foreign, may subject a student to College disciplinary action. A pending appeal of a conviction shall not affect the application of this rule.
7 Educational Program

7.1 General Statement

Swarthmore College offers the degree of bachelor of arts and the degree of bachelor of science. The latter is given only to students who major in engineering. Four years of study are normally required for a bachelor’s degree (see section 9.1), but variation in this term, particularly as a result of Advanced Placement (AP) credit, is possible (see section 3.5).

The selection of a program will depend on the student’s interests and vocational plans. The primary purpose of a liberal arts education, however, is not merely to provide the best foundation for one’s future vocation. The purpose of a liberal arts education is to help students fulfill their responsibilities as citizens and grow into cultivated and versatile individuals. A liberal education is concerned with the development of moral, spiritual, and aesthetic values as well as analytical abilities. Furthermore, just as a liberal education is concerned with the cultural inheritance of the past, so, too, it is intended to develop citizens who will guide societies on a sustainable course where future culture will not be compromised in the development of the present. Intellecutally, it aims to enhance resourcefulness, serious curiosity, open-mindedness, perspective, logical coherence, and insight.

During the first half of their college program, all students are expected to satisfy most, if not all, of the distribution requirements, to choose their major and minor subjects, and to prepare for advanced work in these subjects by taking certain prerequisites. The normal program consists of four courses or their equivalent each semester, chosen by the student in consultation with his or her faculty adviser.

All students must fulfill the requirements for the major. Before the end of the senior year, students are required to pass a comprehensive examination or its equivalent, given by the major department. The program for engineering students follows a similar basic plan, with certain variations explained in the section on engineering. Courses outside the technical fields are distributed over all 4 years.

For honors candidates, courses and seminars taken as preparation for external evaluation occupy approximately one-half of the student’s work during the last 2 years. In addition to work taken as a part of the Honors Program, the students take other courses that provide opportunities for further exploration. During the senior year, many departments offer a specially designed senior honors study for honors majors and minors to encourage enhancement and integration of the honors preparations. At the close of the senior year, candidates for honors will be evaluated by visiting examiners.

The course advisers of first-year and sophomore students normally are members of the faculty appointed by the dean. For juniors and seniors, the advisers are the chairs of their major departments or their representatives.

Although faculty advisers assist students in preparing their academic programs, students are individually responsible for planning and adhering to programs and for the completion of graduation requirements. Faculty advisers, department chairs, other faculty members, the deans, and the registrar are available for information and advice.

7.2 Program for the First and Second Years

The major goals of the first 2 years of a Swarthmore education are to introduce students to a broad range of intellectual pursuits, to equip them with the analytic and expressive skills required to engage in those pursuits, and to foster a critical stance toward learning and knowing. All students must fulfill the requirements normally intended for the first 2 years of study, although engineering majors may spread some requirements over 4 years. Students entering Swarthmore as transfer students normally fulfill these requirements by a combination of work done before matriculation at Swarthmore and work done here, according to the rules detailed below.

To meet the distribution requirements, a student must earn degree-applicable credit in the following areas:

- Complete at least three courses in each of the three divisions of the College (listed). In each division, the three courses must be at least 1 credit each and may include up to 1 AP credit or credit awarded for work done elsewhere.
- Complete at least two courses in each division on the campus at Swarthmore; these courses must be at least 1 credit each.
- Complete at least two courses in each division in different departmental subjects; these courses must be at least 1 credit each and may include AP credit or credit awarded for work done elsewhere.
- Complete at least three Swarthmore Writing courses or Writing seminars, and those three must include work in at least two divisions; students are advised to complete two Writing courses in the first 2 years.
- Complete a natural sciences and engineering practicum.
- Courses that have been excluded from counting toward the degree do not count toward the distribution requirements.
- Take courses in a variety of departments, keeping in mind that before graduation, 20 credits outside of one major subject must be completed.
Distribution Requirement Divisions: For purposes of the distribution requirements, the three divisions of the College are as follows:

- **Humanities**: art (art history and art), classics (literature), English literature, film and media studies, Greek, Latin, modern languages and literatures, music and dance, philosophy, religion, Spanish, and theater.

- **Natural sciences and engineering**: biology, chemistry and biochemistry, computer science, engineering, mathematics and statistics, physics and astronomy, and psychology courses that qualify for the natural sciences and engineering practicum.

- **Social sciences**: classics (ancient history), economics, education, history, linguistics, political science, psychology (other than natural sciences and engineering practicum courses), and sociology and anthropology.

Several interdisciplinary courses do not satisfy the divisional distribution requirement. These are identified as such in the catalog or the official schedule of courses.

**Writing courses**: In addition to addressing field-specific substance, writing courses will focus on the development of the students’ expository prose to ensure they can discover, reflect upon, organize, and communicate their knowledge effectively in written form. Approved Writing courses are only offered on the campus at Swarthmore.

**NSEP science laboratory requirement**: Natural sciences and engineering practicums (NSEPs) have at least 18 hours per semester of scheduled meeting time for laboratory, separate from the scheduled lecture hours. How the laboratory hours are scheduled varies with the nature of the course and the types of laboratories involved. Such meetings may entail weekly or biweekly 3-hour sessions in a laboratory, several all-day field trips, or several observation trips.

**Cross-listed courses**: Courses that are cross-listed between two departments in different divisions may, with the permission of the instructors, departments, and divisions involved, fulfill the divisional distribution requirement in one of the following ways: (1) in only one of the divisions so identified but not in the other; (2) in either division (but not both), depending on the departmental listing of the course on the academic record; (3) in neither of the divisions. In certain cases, the course may fulfill the distribution requirement according to the nature of the work done in the course by the individual student (e.g., a long paper in one of the departmental disciplines). The division of such courses is normally indicated in the catalog description for each course. When counting credits to determine a student’s fulfillment of the 20-course-credit rule, cross-listed courses count (only) in the subject in which they are listed on the student record. Changing the subject listing of a cross-listed course on the student record can be arranged, depending on permissions, during or sometimes after the course; there is a form for the purpose in the Registrar’s Office.

**First-year seminars**: All students are encouraged to take a first-year seminar during the fall or spring of their first year. First-year seminars are offered across the curriculum and are designed to introduce students to a field of study and to engage them in learning skills that will support them throughout their college experience. Each first-year seminar is limited to 12 first-year students. Many (but not all) first-year seminars count as the prerequisite to further work in the department in which they are offered.

**Foreign language**: It is most desirable that students include in their programs some work in a foreign language, beyond the basic language requirement (see section 9.1).

**Mathematics**: A student who intends to major in one of the natural sciences, mathematics, or engineering should take an appropriate mathematics course in the first year. Students intending to major in one of the social sciences should be aware of the increasing importance of mathematical background for these subjects.

**Physical education**: Students are encouraged to enjoy the instructional and recreational opportunities offered by the department throughout their college careers. As a requirement for graduation, all students not excused for medical reasons are required to complete 4 units of physical education. It is expected that students will satisfy this obligation by the end of their sophomore year. In addition, all students must pass a survival swimming test or complete a unit of swimming instruction. Most physical education courses are offered for a half a semester and earn 1 unit toward the 4 units required for graduation. A complete list of physical education opportunities including how many units each earns is available from the Physical Education and Athletics Office. More information can be found in the Physical Education and Athletics section.

**Transfer students**: Students who enter Swarthmore as transfer students must fulfill Swarthmore’s requirements for the first 2 years, including the natural sciences and engineering practicum. Transfer courses can be applied toward these requirements if specifically approved by the registrar. Transfer students who enter Swarthmore with 8 credits of college work are exempted from one of the three required writing courses and the requirement that writing courses include work in two divisions, and have the credits-at-Swarthmore requirement reduced from 2 in each division to 1 in each division. Transfer students who enter Swarthmore with, at most, four semesters remaining to complete their degree are exempted from two of the three required writing courses and are exempted from the requirement that in each division 2 credits be taken at Swarthmore. Transfer students can either apply transfer PE units
All students are required to include sufficient work in a single department or program designated as a major. To complete a departmental major, a student must be accepted as a major; must complete eight courses (or more, depending on the department); must pass the department’s comprehensive requirement; and must fulfill other specific departmental requirements. Detailed requirements for acceptance to departmental majors and for completion of them are specified in this catalog under the respective departmental listings and are designed to ensure a comprehensive acquaintance with the field. A student must accumulate 20 course credits outside one major, but there is no other limit on the number of courses that a student may take in his or her major.

Completing a second major or one or two minors is optional, as is choosing to do an Honors Program. Students are limited in the number of majors and/or minors they may earn. If they have only one major, they may have as many as two minors. Students who choose an honors major plus honors minor may have an additional course minor outside the Honors Program. If students have two majors, they may not have a minor, except in one circumstance: A student who elects honors, designating an honors major and minor, may have a second major outside of honors if that second major includes the same subject as the honors minor. The completion of two majors must be approved by both departments. Triple majoring is not allowed.

Most departments and programs offer course minors. Those departments or programs that do not offer a course minor are art, comparative literature, economics, political science, and sociology and anthropology. (These departments or programs do offer honors minors.) Minors will include at least 5 credits.

Double counting in majors and minors: If a student has two majors and one is interdisciplinary, no more than 2 credits may be double counted with the student’s other major. However, the double-counting limit is not applicable to courses that students are required by their departmental major to take in other departments. Of the 5 credits required for a minor, 4 may not be double counted with the student's major or other minor. The double-counting prohibition applies to any comparison of two given programs of study (not three taken together, even if the student has three programs). This means that a student who has a major in medieval studies, for example, and minors in both English literature and gender and sexuality studies would need four courses in English literature that are not part of the medieval studies major and four courses in gender and sexuality studies that are not part of the medieval studies major. In addition, each minor must have four courses that are not part of the other minor. Special minors are not permitted.
Exceptions to the double-counting prohibition:

- The double-counting prohibition is not applicable to courses that students are required by their majors or minors to take in other departments. For example, mathematics courses required for an engineering major are not automatically excluded from counting toward a minor defined by the Mathematics and Statistics Department.

- For an honors major who is also a double major, the double-counting prohibition does not apply to the relationship between the honors minor and the second major because these will always be or include the same field.

Advising in the major: During the junior and senior years, students are advised by the chair of the major department (or a member of the department designated by the chair) whose approval must be secured for the choice of courses each semester. The deadline for seniors to propose any changes to their plan for major(s) or minor(s) is the third week of the spring semester of the senior year. Proposed changes are subject to departmental approval. Majors or minors may not be applied for or approved after graduation.

7.4.1 Special majors
Individualized and regularized special majors are available. With permission of the departments and/or programs concerned, it is possible for a student to plan an individualized special major that includes closely related work in one or more departments. In some areas, such as biochemistry and neuroscience, in which regularized special majors are done frequently, the departments and programs involved provide recommended programs. These regularized special majors are described in the relevant department sections of the catalog or in material available from department chairs. A special major is expected to be integrated in the sense that it specifies a field of learning (not necessarily conventional) or topic or problems for sustained inquiry that crosses departmental boundaries, or it may be treated as a subfield within the normal departmental major. Special majors consist of at least 10 credits and normally of no more than 12 credits. Students with special majors normally complete a minimum of six courses in the primary department or program, omitting some of the breadth requirements of the major field. However, course requirements central to systematic understanding of the major field may not be waived. Students with special majors must complete the major comprehensive requirement, which may consist of a thesis or other written research projects designed to integrate the work across departmental boundaries, or a comprehensive examination. By extension, special majors may be formulated as joint majors between two departments, normally with at least 5 credits in each department and 11 in both departments. The departments involved collaborate in advising and in the comprehensive examination. The Registrar’s Office website has the required application form and more information for special majors. Students are not allowed to pursue more than one individualized special major.

7.5 Honors Program
The Honors Program, initiated in 1922 by President Frank Aydelotte, is a distinctive part of Swarthmore’s educational life. The Honors Program has as its main ingredients student independence and responsibility in shaping the educational experience; collegial relationships between students and faculty; peer learning; opportunity for reflection on, and integration of, specific preparations; and evaluation by external examiners. Honors work may be carried out in the full range of curricular options, including studio and performing arts, study abroad, and community-based learning.

Students and their professors work in collegial fashion as honors candidates prepare for evaluation by external examiners from other academic institutions and the professional world. Although Swarthmore faculty members grade most of the specific preparations, the awarding of honorifics on a student’s diploma is based solely on the evaluation of the external examiners.

Preparations for honors are defined by each department or program and include seminars, theses, independent projects in research as well as in studio and performing arts and specially designated pairs of courses. In addition, many departments offer their own format for senior honors study, designed to enhance and, where appropriate, integrate the preparations in both major and minor.

Each honors candidate’s program will include three preparations for external examination in a major and one in a minor or four preparations in a special or interdisciplinary major. By doing honors, students offering three preparations in a major or four preparations in a special or interdisciplinary major normally fulfill the comprehensive graduation requirement for majors in those fields.

Honors students who wish to complete a second major must pursue that field of study through the Course Program, and it must relate to the student’s honors minor field of study. Normally, the student must complete the requirements for the Honors minor, as well as the course major in the department. If an Honors student pursues an honors special major, any second major must be taken in the Course Program, and must be either a regular major or regularized special major. In such cases, the student’s academic program is subject to the overlap constraints for majoring.
Honors Program preparations for both majors and minors will be defined by each department, program, and interdisciplinary major that sponsors a major. In addition, minors may be defined by any department or program.

Honors special majors who design their own programs, not those in College-sponsored programs such as biochemistry, will be required to include four related preparations in the major from at least two departments or academic programs. Honors special major programs do not include a separate minor. Honors special majors must either (1) write a thesis drawing on their cross-disciplinary work—the thesis will be examined by examiners in different fields or (2) have a panel oral examination that presents the opportunity for cross-disciplinary discussion. Honors special majors will follow the Senior Honors Study (SHS) activity and portfolio procedures of the various departments whose offerings they use as preparations in their programs. Individualized honors special major programs require the approval of all departments involved in the program and of the honors coordinator.

All preparations will be graded by Swarthmore instructors with the exception of theses and other original work. Grades for theses and other similar projects will be given by external examiners. Except in the case of theses or other original work, modes of assessment by the external examiners will include written examinations and/or other written assignments completed in the spring of the senior year. In addition, during honors week at the end of the senior year, every honors candidate will meet on campus with external evaluators for an oral examination of each preparation. Specific formats for preparations and for SHS are available in each department office.

Students will normally include their intention to prepare for honors in their “Plan of Study for the Last 2 Years,” written in the spring of their sophomore year. They must also submit a formal application for a specific program of honors preparation to the Registrar’s Office. The registrar provides a form for this purpose. Departments, programs, and concentrations will make decisions about acceptance of honors programs at the end of the sophomore year. Students will be accepted into honors with the proviso that their work continue to be of honors quality. Students may also apply to enter honors during their junior year. Any proposed changes to the Honors Program must be submitted for approval on a form for this purpose available from the registrar. The decision of the departments or interdisciplinary programs will depend on the proposed program of study and the quality of the student’s previous work as indicated by grades received and on the student’s apparent capacity for assuming the responsibility of honors candidacy. The major department or interdisciplinary program is responsible for the original plan of work and for keeping in touch with the candidate’s progress from semester to semester. Normally, honors programs may not be changed after Dec. 1 of a student’s senior year, depending on departmental policies. Students may not withdraw from honors after Dec. 1 of the senior year except under extraordinary circumstances and with the permission of the major and minor departments and the Curriculum Committee. Further information about honors policies may be found in the Honors Handbook, which is available in the Registrar’s Office.

At the end of the senior year, the decision of whether to award the degree with a level of honors is made by the visiting examiners. Upon their recommendation, successful candidates are awarded the bachelor’s degree with honors, with high honors, or with highest honors.

### 7.6 Exceptions to the 4-Year Program

Although the normal period of uninterrupted work toward the bachelor of arts and bachelor of science degrees is 4 years, graduation in 3 years is freely permitted when a student can take advantage of Advanced Placement credits, perhaps combining them with extra work by special permission. In such cases, students may qualify for advanced standing—they may become juniors in their second year. To qualify for advanced standing, a student must (1) do satisfactory work in the first semester; (2) obtain 14 credits by the end of the first year; (3) intend to complete the degree requirements in 3 years; and (4) signify this intention when she or he applies for a major by completing a Sophomore Plan during the spring of the first year.

When circumstances warrant, a student may lengthen the continuous route to graduation to 5 years by carrying fewer courses than the norm of four, although College policy does not permit programs of fewer than 3 credits for degree candidates in their first eight semesters of enrollment. A course load lower than the norm may be appropriate for students who enter Swarthmore lacking some elements of the usual preparation for college, who have disabilities, or who wish to free time for activities relating to their curricular work that are not done for academic credit. Such 5-year programs are possible in music and art for students who are taking instruction off campus or who wish to pursue studio or instrumental work without full credit but with instruction and critical supervision. However, such programs are possible only on application to, and selection by, the department concerned, which will look for exceptional accomplishment or promise. In all cases where it is proposed to reduce academic credit and lengthen the period before graduation, the College looks particularly to personal circumstances and to careful advising and necessarily charges the regular annual tuition (see the provisions for overloads section 4.1). Full-time leaves of absence for a semester or a year or more
are freely permitted and in some cases encouraged, subject also to careful planning and academic advising. Information about work and internship opportunities for those taking a leave is available through the Career Services Office.

7.6.1 Senior year rule
Normally the senior year rule is met by the last two semesters being done on the campus at Swarthmore, with the approved exception that seniors during the first semester of their senior year, who have obtained the approval of the chair(s) of their major department(s), may participate in the Swarthmore Semester/Year Abroad Program. Senior year rule compliance is calculated retrospectively with the last two full-time semesters of degree work, regardless if the semesters are separated in time. If students have studied elsewhere in the time between their two senior semesters, no more than 2.0 Swarthmore credits for work done elsewhere (regardless of how many courses were taken during the intervening time) may be applied to the Swarthmore degree without being out of compliance with the senior year rule. There are two circumstances where a senior can use credit for work done elsewhere to complete the Swarthmore degree without re-enrolling at Swarthmore: (a) after the eighth semester if the major department confirms that the major is done or approves that the major can be completed remotely, or (b) after earning at least 30.0 credits toward the degree if the major department confirms that the major is done or approves that the major can be completed remotely. In either case, the senior year rule is fulfilled by the last two semesters done on the campus at Swarthmore (or with the first semester by approved study abroad), regardless of the number of subsequent credits to be earned.

7.7 Academic Progress Standards and Requirements

The academic year at Swarthmore is 32 weeks long, during which time students are expected to complete 6 to 8 semester course credits of work. Normal progress toward the degree of bachelor of arts or bachelor of science is made by eight semesters’ work of four course credits or the equivalent each semester. Four course credits per semester is the normal load. Students may and frequently do vary this by programs of three or five semester course credits, with special permission. College policy normally does not permit programs of fewer than 3 course credits within the normal eight-semester enrollment. Programs of more than 5 credits or fewer than 4 credits require special permission (see section 4.1 on tuition and section 8.3 on registration). Course credit earned by examination does not count in registration load.

Satisfactory progress towards the 32 credit graduation requirement includes earning passing grades, an overall grade point average of at least 2.0 by graduation, and completing at least one major and the non-major degree requirements listed in chapter 9 of the catalog. The definitions of upper-class levels are as follows: Students become sophomores when they have earned 6 to 8 semester course credits toward their degree. Students become juniors when they have earned 14 to 16 credits. Students become seniors when they have earned 22 to 24 credits. Some offices on campus, such as student housing, may have additional requirements in their definitions of the student classes.

With the Dean of Students and the Associate Dean of Academic Affairs as co-chairs, the committee regularly meets approximately three weeks after the end of each semester to review the academic records of all students who earn two or more grades less than C in the preceding semester, or who have two or moreIncomplete grades, or who are not making satisfactory progress in completing distribution or other degree requirements including cumulative GPA, or who are under advisement from previous CAR mandates. This committee may also review student records at other times should information arise about academic difficulties that were not available at the time of the regular committee meetings.

The committee normally follows the guidelines outlined below, but the committee also retains the right to consider extenuating circumstances of a student’s case, such as health issues, family crises or other special circumstances, which may result in the committee varying from the guidelines. Additionally, the Dean of Students may vary from these guidelines within the appeals process, to take into consideration new information and/or extenuating circumstances about a student.

The committee may take one of several actions including, but not limited to:

1. Warnings: Students meet with the dean’s staff member as needed.
2. Probation: Students may be placed on academic probation, continued on probation, or removed from probation, however, students may not be continued on probation for more than two consecutive semesters. Rising seniors and current
The principal forms of individual work are attachments to courses, directed reading, and tutorials. The faculty regulation on attachments provides that a student may attach to an existing course, with the permission of the instructor, a project of additional reading, research, and writing. In this way, attachments typically extend the subject matter of a course. If this attachment is taken concurrently with the course, it is normally done for 0.5 credit. If it is taken in a later semester (preferably the semester immediately following), it may be done for either half or full credit. This kind of work can be done on either a small-group or individual basis. It is not possible in all courses, but it is in most, including some introductory courses. For first-year students and sophomores, it is a way of developing capacities for independent work. For honors candidates, it is an alternative to a seminar as a preparation for an honors examination. Students who decide before the middle of the semester to do a 0.5-credit attachment may, with permission, withdraw from a regular course and carry 3.5 credits in that term to be balanced by 4.5 credits in another term. Students may do as many as two attachments each year.

### 7.8 Formats of Instruction

Although classes and seminars are the normal curricular formats at Swarthmore, faculty regulations encourage other modes as well. These include various forms of individual study, student-run courses, and a limited amount of “practical” or off-campus work.

The principal forms of individual work are attachments to courses, directed reading, and tutorials. The faculty regulation on attachments provides that a student may attach to an existing course, with the permission of the instructor, a project of additional reading, research, and writing. In this way, attachments typically extend the subject matter of a course. If this attachment is taken concurrently with the course, it is normally done for 0.5 credit. If it is taken in a later semester (preferably the semester immediately following), it may be done for either half or full credit. This kind of work can be done on either a small-group or individual basis. It is not possible in all courses, but it is in most, including some introductory courses. For first-year students and sophomores, it is a way of developing capacities for independent work. For honors candidates, it is an alternative to a seminar as a preparation for an honors examination. Students who decide before the middle of the semester to do a 0.5-credit attachment may, with permission, withdraw from a regular course and carry 3.5 credits in that term to be balanced by 4.5 credits in another term. Students may do as many as two attachments each year.

#### 7.8.1 Directed Reading and Independent Study

Directed reading and independent study are similar, but the faculty role in the former is more bibliographical than pedagogical, and, because they require somewhat less faculty time, opportunities for directed reading are more frequent in most departments than are opportunities for independent study. With the directed reading format, faculty often provide students with a syllabus for a course not currently offered and allow the student to do the work independently. The independent study format typically requires faculty supervision of a student on a topic that has not yet been taught. In many cases, this requires the faculty member to develop a syllabus and to allow the student to do the work independently. In both cases, substantial written work and/or written examinations are considered appropriate, and it is generally desirable that the work be more specialized or more sharply focused than is usually the case in courses or seminars. The work may range from a course of reading to a specific research project. Such work is available primarily to juniors and seniors in accordance with their curricular interests and as faculty time permits.

#### 7.8.2 Student-Run Courses

The faculty regulation on student-run courses permits a group of students to propose a topic to an instructor for 0.5 or 1 credit and to run their own course with a reading list approved by the instructor and a final examination or equivalent administered by the instructor but normally with no further involvement of faculty. In organizing such a course, students must obtain from a faculty member approval and agreement to serve as course supervisor, and approval of a department chair or
program coordinator to provide a course subject and number of record, and finally approval of the provost. The full approval process must be complete prior to the beginning of the course; after that time, the course cannot receive degree credit. Students must provide an initial memorandum emphasizing the principal subject matter to be studied, the questions to be asked about it, the methods of investigation, and provision of a preliminary bibliography. The course supervisor reviews the course outline, bibliography, qualifications and general eligibility of students proposing to participate in the course. The course supervisor consults his or her department and, in the case of an interdepartmental course, any other department concerned, whose representatives together with the provost will decide whether to approve the course. After a student-run course has been found acceptable by the appropriate department (or departments) and the provost, the revised reading list is given to the librarian, and the course subject, number, title and class list are filed with the registrar. At the end of the course, the supervisor evaluates and grades the students’ work in the usual way or arranges for an outside examiner to do so.

Student-run courses may vary in format and content. In particular, they may be provisionally proposed for 0.5 credit to run in the first half of the semester, and at midterm, may be either continued or, if the participants and course supervisor find the work profitable, continued for the balance of the term for full credit. Alternatively, student-run courses may be started after the beginning of the semester (up to midsemester) for 0.5 credit and then be continued, on the same basis, into the following term. Or they may be taken for 0.5 credit over a full term. The role of the course supervisor may go beyond planning and evaluation and extend to occasional or regular participation. The only essentials, and the purpose of the procedures, are sufficient planning and organization of the course to facilitate focus and penetration. The course planning and organization, both analytical and bibliographical, are also regarded as important ends in themselves, to be emphasized in the review of proposals before approval. Up to 4 of the 32 credits required for graduation may be taken in student-run courses. Student-run courses are only offered on the credit/no-credit basis.

7.9 Interdisciplinary Work

The requirements of the major typically leave room for significant flexibility in students’ programs, both within and outside the major. This may be used to pursue a variety of interests and to emphasize intellectual diversity. It may also be used for the practical integration of individual programs around interests or principles supplementing the major. The College offers interdepartmental majors in Asian Studies, Comparative Literature, Environmental Studies and Medieval Studies, and formal interdisciplinary minors in Black Studies, Cognitive Science, Environmental Studies, Gender and Sexuality Studies, German Studies, Interpretation Theory, Islamic Studies, Latin American and Latino Studies, and Peace and Conflict Studies. The specific requirements for these programs are outlined in the relevant sections of the catalog. It should be recognized that some departments are themselves interdisciplinary in nature and that a considerable number of courses are cross-listed between departments. Also, some courses each year are taught jointly by members of two or more departments, and departments commonly recommend or require supporting work for their majors in other departments. Many other opportunities exist informally (e.g., in African studies, in American studies, in religion and sociology and anthropology, and in chemical physics). Students are encouraged to seek the advice of faculty members on such possibilities with respect to their particular interests.

7.10 Guidelines on Scheduling Conflicts between Academics and Athletics

The following guidelines (adopted by the faculty in May 2002) are affirmed to recognize both the primacy of the academic mission at Swarthmore and the importance of the intercollegiate Athletics Program for our students. The guidelines are meant to offer direction with an appropriate degree of flexibility. Where conflicts occur, students, the faculty, and coaches are encouraged to work out mutually acceptable solutions. Faculty members and coaches are also encouraged to communicate with one another about such conflicts. Note that the guidelines make a firm distinction between athletics practices and competitive contests.

Regular class attendance is expected of all students. Students who are participating in intercollegiate athletics should not miss a class, seminar, or lab for a practice. Students who have a conflict between an athletics contest and a required academic activity, such as a class meeting or a lecture, should discuss it and try to reach an understanding with their coach and their professor as soon as possible, preferably during the first week of the semester and certainly in advance of the conflict. When a mutually agreeable understanding is not reached, students should be mindful of the primacy of academics at Swarthmore. Students should understand that acceptable arrangements may not be feasible for all classes, particularly seminars and laboratories. Students should take their schedule of athletics contests into account as they plan their class schedules and may want to discuss this with their academic advisers. Students should also provide
coaches with a copy of their academic schedules and promptly inform them of any changes.

Coaches should make every effort to schedule practices and contests to avoid conflict with classes and should collect their students’ academic schedules in an effort to coordinate team activities and minimize conflict. Coaches should instruct students not to miss class for practice and should encourage students to work out possible conflicts between classes and contests as early as possible. Faculty members should provide a complete description of scheduling requirements as possible to their classes early each semester, preferably before registration or during the first week of classes. Both faculty members and coaches should work with students to resolve contest-related conflicts.

Both coaches and faculty should avoid last-minute scheduling changes, and faculty should normally avoid scheduling extracurricular class meetings. Where such meetings seem desirable, students should be consulted and, as the Handbook for Instructional Staff stipulates, the arrangement cleared with the department chair and registrar. Where possible, extraordinary sessions should be voluntary or offered with a choice of sections to attend. When a schedule is changed after students have arranged their commitments, it is important for the faculty member or coach to be flexible.

Classes will normally end each day by 4 p.m. and at 5 p.m. on Fridays. Seminars will often extend beyond 4 p.m. Afternoon laboratories are usually scheduled until 4:15 p.m. or 4:30 p.m., and students who encounter difficulties completing a lab may need to stay later than the scheduled time. In all cases, students are expected to keep to their academic commitments and then attend practices as soon as possible.

Faculty members should recognize that students usually set aside the time from 4:15 to 7 p.m. for extracurricular activities and dinner. Late afternoon has also traditionally been used for certain courses in the performing arts. Some use of this time for other academic purposes (such as department colloquia, lectures, etc.) is appropriate, but departments are encouraged to exercise restraint in such use, particularly with respect to activities they judge important for the full academic participation of students.

7.11 Health Sciences Advisory Program

The function of the Health Sciences Advisory Program is twofold: to advise students interested in a career in the health professions and to prepare letters of recommendation for professional schools to which students apply. The letters are based on faculty evaluations requested by the student, the student’s academic record, and nonacademic activities.

Students intending to enter a career in the health professions, especially those applying to medical, dental, or veterinary schools, should plan their academic programs carefully to meet the professional schools’ requirements as well as the general College requirements. The following courses fulfill the basic requirements of most medical schools: BIOL 001, BIOL 002; CHEM 010, CHEM 022, CHEM 032, CHEM 038; PHYS 003, PHYS 004; MATH 015 and STAT 011; an introductory psychology course; an introductory sociology course; and two semester-long courses in English literature. Dental and veterinary schools have more variable requirements, in addition to the biology, chemistry, and physics listed earlier. Students interested in these fields should meet with the health sciences adviser to plan their programs. Specific requirements for each medical, dental, and veterinary school, along with much other useful information, are given in the following publications, which are available in the Health Sciences Office: Medical School Admission Requirements, Official Guide to Dental Schools, and Veterinary Medical School Admission Requirements.

The work of the junior and senior years may be completed in any major department of the student’s choice. All required courses should be taken on a graded basis after the first semester of the first year.

The health sciences adviser meets periodically with students interested in health careers and is available to assist students in planning their programs in cooperation with students’ own academic advisers. The Health Sciences Office publishes Guide to Premedical Studies at Swarthmore College and Frequently Asked Prevetinary Questions to help new students plan their academic program and understand what schools look for in applicants. The Guide for Applying to Medical School for Swarthmore Undergraduates and Alumni/ae contains detailed information about the application process. Further information on opportunities, requirements, and procedures can be obtained from the health sciences adviser and from the Health Sciences Office’s pages on the Swarthmore College website at www.swarthmore.edu/premed.

7.12 Creative Arts

Work in the creative arts is available both in the curricula of certain departments and on an extracurricular basis. Interested students should consult the departmental statements in art, English literature (creative writing), music and dance, and theater.

7.13 Cooperation with Neighboring Institutions

With the approval of their faculty advisers and the registrar, students may take a course offered by
Bryn Mawr or Haverford College or the University of Pennsylvania without the payment of extra tuition. Students are expected to know and abide by the academic regulations of the host institution. (This arrangement does not apply to the summer sessions of the University of Pennsylvania and Bryn Mawr College.) Final grades from such courses are recorded on the Swarthmore transcript, but these grades are not included in calculating the Swarthmore grade average required for graduation.

7.14 Student Exchange Programs
To provide variety and a broadened outlook for interested students, the College has student exchange arrangements with Middlebury College, Mills College, Pomona College, and Tufts University. With each institution, there are a limited and matched number of exchanges. Students settle financially with the home institution, thus retaining during the exchange any financial aid for which they are eligible. Application for domestic exchange should be made to the registrar. The application deadline is Oct. 15 for exchange in the following spring semester; the deadline is March 15 for exchange in the following fall semester. Selection is made from among applicants who will be sophomores or juniors at the time of the exchange. Exchange arrangements do not permit transfer of participants to the institution with which the exchange occurs. Credit for domestic exchange is not automatic. Students must follow the procedures for receiving credit for work done elsewhere, including obtaining preliminary approval of courses and after-the-fact validation of credit by the relevant Swarthmore department chairs.

7.15 Off-Campus Study
The Off-Campus Study Office supports the international education activities of the College as well as approved credit-bearing domestic off-campus study programs. The College emphasizes the importance of study abroad and encourages all students to explore possibilities for doing so as integral parts of their degree programs. The Off-Campus Study Office is the on-campus clearinghouse for information on study abroad, and normally is the starting place for exploration and planning. The Off-Campus Study Office will help all interested students at every stage of the process: planning, study abroad, and return. Proper planning begins with attendance at a general information meeting, and then a study abroad advising appointment, as early as possible in one’s college career.

Participants in approved Off-Campus Study programs remain registered at Swarthmore and are subject to the rules and regulations of the College. Students may participate up to two semesters, beginning spring of the sophomore year, and during the junior year. Fall semester seniors may participate with the permission of their major department as long as they meet all other eligibility requirements.

To be accepted for credit toward the Swarthmore degree, courses must meet Swarthmore academic standards, and be preapproved through the Off-Campus Study Office’s procedures. Credit is awarded according to College regulations for accrediting work at other institutions, and the process must be completed within the semester immediately following participation.

Students are expected to earn the normal load of up to four credits per semester, or up to a maximum of five credits per semester, or up to a maximum of ten credits per academic year. To participate students must be in good standing concerning both their academic program and conduct. The Off-Campus Study Office and the Dean’s Office meet to review student standing and to determine eligibility. Students must also meet the eligibility requirements of the programs to which they apply.

Eligible students must have completed on average four credits per semester. Students will jeopardize their ability to participate with incompletes as part of their academic record. The deadline for completion of incompletes will reflect the need to meet deadlines relating to acceptance to programs and/or to the submission of forms, deposits, the purchase of airfares, etc. Normally students will have been accepted into a major, or in the case of sophomores, have a plan for applying to a major. Students must also have a zero balance on their student accounts.

Participating students must comply with the Off-Campus Study payment plan. Students continue to pay Swarthmore’s comprehensive fee for Swarthmore tuition, room, and board. The College then pays for the tuition fees, room and board costs, health and travel insurance, and the round-trip travel of participating students. The amount of airfare is capped at the amount of a round-trip from Philadelphia to the abroad site. Normally, financial aid is automatically applied to study abroad.

There are more than three hundred approved off-campus study programs listed on the Off-Campus Study website.

The Off-Campus Study Office maintains direct enrollment agreements with many universities around the world. In addition to these programs, Swarthmore students attend a number of excellent approved study abroad programs throughout provided by other institutions. The Off-Campus Study Office, along with the academic departments and programs of the College, will advise students on these opportunities.

Swarthmore-administered Programs:
Swarthmore’s Central European Program in conjunction with ISEP at Masaryk University, for Environmental Sustainability Studies (agriculture, economics, sociology), Brno, Czech Republic (see Environmental Studies)

Swarthmore’s Central European Program at the Jagellonian University and Cracow University of Technology (environmental science, engineering and technology), Krakow, Poland (see Engineering and Environmental Studies)

Swarthmore/Macalester/Pomona Globalization, the Environment and Society, Cape Town, South Africa (see Environmental Studies)

Reciprocal Exchanges:
Ashesi University College Exchange Program, Ghana
University of Tokyo Exchange Program, Japan
Yale/NUS, Singapore

Special Affiliations:

Intercollegiate Center for Classical Studies, Rome, Italy (see Classics)
Siena School for Liberal Arts, Italy
Swedish Program, Sweden

University of Ghana, ISEP Direct Partner

7.16 CPT/CXPL 001/002

Swarthmore permits approved Curricular Practical Training (CPT). CPT is a form of work authorization available for eligible F-1 students before their program end date for experiential learning opportunities. Eligible students must have declared a major, be in good standing, be in F1 status for two academic terms, and be registered for Swarthmore’s Curricular Experiential Learning (CXPL) course 001 or 002, or a course that requires work experience before CPT can be authorized. Approved CPT must be an integral part of the student’s academic program at Swarthmore College. Any international student with an F-1 Visa employed by any company in the form of an internship or other types of off-campus employment must obtain approval for CPT and enroll in the CXPL course, or a course that requires a work component. The work experience must be in the student’s field of study and contain a curricular component. The CPT experience must be complimentary training to the student’s curriculum and should contribute substantially to the student’s learning experience. Eligible students must have an offer of employment from a company or organization prior to registering for CXPL 001/002. The CPT must be approved by the Department Head or Academic adviser, and the Director of the International Student Center.

Students are required to measure the learning outcome(s) after CPT. The CXPL course, once completed and assessed, will be graded with the CR (credit) grade notation.

7.17 The Tri-College (Tri-Co) Philly Program

The Tri-Co Philly Program is a semester-long program that provides students both curricular and co-curricular activities in Philadelphia. This urban experience facilitates engagement with the complexity, diversity, innovation, and systems of the city.

Students enroll in urban-focused courses from a variety of academic disciplines taught by Tri-Co faculty in Philadelphia. The urban setting provides a sense of place to enhance the classroom experience, helping students learn first-hand how the material in the courses is informed by the environment around them. Speakers and representatives from organizations may be invited guests in the classes, and students may explore the city through neighborhood tours and also through trips to museums, community-based organizations, archives, and arts and cultural organizations.

The program also includes participation in monthly Philadelphia-based cohort activities to further engage with the city - some academic in nature, some connected to issues of social justice, and some simply fun. Additionally, the program includes a pre-program orientation, a mid-semester gathering and a closing dinner.

In fall 2019, students will take the core course, Fight for #PhlEd: Urban Educational and Environmental Justice, and one of the following three elective courses: Environmental Justice: Theory and Action; Place, People and Collaborative Research in Philadelphia; or Math Modeling and Sustainability.

In spring 2020, the core course will be the Philadelphia Mosaic: Immigrant Communities in the City over Time and Place, paired with one of the following elective courses: Philadelphia’s Overdose Crisis: Causes, Consequences and Interventions; or Behavioral Public Policy in the City. All elective courses offered in fall 2019 and spring 2020 will involve a community-based learning component.

Sophomores, juniors and seniors are eligible to participate in the program. Costs for travel to classes are covered for all students taking Tri-Co Philly Program courses. Expenses related to the program’s co- and extracurricular programming are also covered for students enrolled in the program.

For more information, visit the program website at https://www.haverford.edu/philly-program or contact Calista Cleary at ccleary1@swarthmore.edu.
7 Educational Program

7.18 Student Right to Know

Swarthmore College’s graduation rate is 94 percent. This is the percentage graduating within 6 years, based on the most recent cohorts, calculated according to "Student Right to Know" guidelines.
8 Faculty Regulations

8.1 Attendance at Classes
Regular attendance is expected. Faculty members will report to the dean the name of any student whose repeated absence is in their opinion impairing the student’s work. The number of absences allowed in a given course is not specified, a fact that places a heavy responsibility on all students to make sure that their work is not suffering as a result of absences. First-year students should exercise particular care in this respect.

When illness necessitates absence from classes, the student should report at once to the Health Center.

A student may obtain credit for a course without attending class meetings by reading the material prescribed by a syllabus and taking a final examination, under the following conditions:

- The student must signify intent to do so at the time of registration, having obtained the instructor’s approval in advance.
- If, after such registration, the student wishes to resume normal class attendance, the instructor’s approval must be obtained.
- The student may be required to perform such work, in addition to the final examination, as the instructor deems necessary for adequate evaluation of his or her performance.
- The registrar will record the final grade exactly as if the student had attended classes normally.

8.2 Grades
During the year, instructors periodically report on the students’ coursework to the Dean’s and Registrar’s offices. Informal reports during the semester take the form of comments on unsatisfactory work. At the end of each semester, formal grades are given in each course either under the credit/no credit (CR/NC) system, or under the letter system, by which A means excellent work; B, good work; C, satisfactory work; D, passing but below the average required for graduation; and NC (no credit), uncompleted or unsatisfactory work. Letter grades may be qualified by pluses and minuses. S signifies a requirement satisfactorily fulfilled. W signifies that the student has been permitted to withdraw from the course. X designates a condition that the student has done unsatisfactory work in the first half of a yearlong course but by creditable work during the second half may earn a passing grade for the full course and thereby remove the condition. R is used to designate an auditor or to indicate cases in which the work of a foreign student cannot be evaluated because of deficiencies in English.

8.2.1 In Progress
IP (in progress) is the grade used when normally everyone in a class continues working on a project into the next semester. IP is given at the end of the first semester. Final grades are normally due at the end of the succeeding semester.

8.2.2 Incompletes
Inc. means that a student’s work is incomplete with respect to specific assignments or examinations. The faculty has voted that a student’s final grade in a course should incorporate a zero for any part of the course not completed by the date of the final examination or the end of the examination period. However, if circumstances beyond the student’s control (e.g., illness, family emergency) preclude the completion of the work by this date, a grade of Inc. may be assigned with the permission of the faculty instructor and the registrar. Note that "having too much work to do" is not, in fairness to other students, considered a circumstance beyond the student’s control. A form for the purpose of requesting an incomplete is available from the Registrar’s Office and must be filled out by the student and signed by the faculty instructor and the registrar and returned to the registrar no later than the last day of final examinations. In such cases, incomplete work must normally be made up and graded, and the final grade recorded within 5 weeks after the start of the following term. Except by special permission of the registrar and the faculty instructor, all grades of Inc. still outstanding after that date will be replaced on the student’s permanent record by NC (no credit). Waiver of this provision by special permission shall in no case extend beyond 1 year from the time the Inc. grade was incurred.

8.2.3 Credit/No Credit
The Credit No Credit policy was revised for the 2018-2019 academic year. The policy has the following important components.

The first semester of the first year: The only grades recorded on students' official transcript for courses taken during the first semester of the first year are CR (credit) or NC (no credit). For first-year students in their first semester, CR will be recorded for work that would earn a grade of D- (D minus) or higher. Credit No Credit for the first semester of the first year is mandatory. By policy, first semester, first-year student CR grades are never replaced by shadow letter grades on the official transcript.

Four more Credit No Credit courses: After the first semester, students may exercise the option to take up to four more courses Credit No Credit by informing the Registrar's Office within the first 9 weeks of the term in which the course is taken, or the 5th week of the course if it meets for only half the semester, using the form provided for this purpose. After the Fall semester of the first year, a
student electing the Credit No Credit option and earning a C- (C minus) or better will receive a CR on the transcript. The handling of D grades and NC grades: After the first semester of the first year, a student taking a course optionally elected as Credit No Credit and earning any D level grade (D+, D, or D-) will receive that letter grade on the transcript and earn degree credit, and the course will count against the four optional Credit No Credit elections. A course optionally taken Credit No Credit and earning NC (No credit) will receive NC on the transcript, not receive degree credit, and the course will count against the four optional Credit No Credit elections.

Uncovering the letter grade: In any course optionally elected Credit No Credit and graded CR on the transcript, students (except spring semester graduating seniors) will have until the end of the second week of the following semester the option of removing the CR notation and permanently uncovering the underlying shadow letter grade in order that it appear as the grade on the transcript. Students who want this must use the Registrar's form provided for this purpose. Courses where the CR is uncovered continue to count against the four optional Credit No Credit elections. In the case of spring semester graduating seniors, the deadline to uncover the underlying shadow letter grade is the Tuesday prior to commencement.

Repeated courses normally may not be taken Credit No Credit. Courses only offered as Credit No Credit and graded CR on the transcript, students (except spring semester graduating seniors) will have until the end of the second week of the following semester the option of removing the CR notation and permanently uncovering the underlying shadow letter grade in order that it appear as the grade on the transcript. Students who want this must use the Registrar's form provided for this purpose. Courses where the CR is uncovered continue to count against the four optional Credit No Credit elections. In the case of spring semester graduating seniors, the deadline to uncover the underlying shadow letter grade is the Tuesday prior to commencement.

Repeated courses normally may not be taken Credit No Credit. Courses only offered as Credit No Credit do not count in the four optional elections; these courses normally do not have shadow letter grades, and if they do, those shadow grades are not eligible for uncovering.

Instructors are asked to provide the student and the faculty adviser with an evaluation of the student's CR work including a letter grade equivalent. The written evaluations are not a part of the student's official grade record. Students should save their copies of these evaluations for their records. If available, letter-grade equivalents for first-year students may be provided to other institutions only if requested by the student and absolutely required by the other institution.

**8.2.4 Repeated Courses**

Some courses can be repeated for credit; these are indicated in departmental course descriptions. For other courses, the following rules apply: (1) Permission to repeat a course must be obtained from the Swarthmore instructor teaching the repeated class. (2) These repeated courses may not be taken CR/NC. (3) To take a course at another school that will repeat a course previously taken at Swarthmore, the student must obtain permission from the chair of the Swarthmore department in which the original course was taken, both as a part of the preapproval process to repeat it elsewhere and, in writing, as part of the credit validation after the course is taken elsewhere.

For repeated courses in which the student withdraws with the grade notation W, the grade and credit for the previous attempt will stand. For other repeated courses, the registration and grade for the previous attempt will be preserved on the permanent record but marked as excluded, and any credit for the previous attempt will be permanently lost. The final grade and any credit earned in the repeated course are the grade and credit that will be applied to the student’s Swarthmore degree.

**8.2.5 Grade Reports**

Grades are available to students on a secure website. Grade reports are not routinely sent to parents or guardians, but such information may be released when students request it. The only exception to this is that parents or guardians of students are normally informed of grades when students have critical changes in status, such as probation or requirement to withdraw.

**8.2.6 Grade Average**

An average of C (2.0) is required in the courses counted for graduation. An average of C is interpreted for this purpose as being a numerical average of at least 2.0 (A+, A = 4.0, A- = 3.67, B+ = 3.33, B = 3.0, B- = 2.67, C+ = 2.33, C = 2.0, C- = 1.67, D+ = 1.33, D = 1.0, and D- = 0.67). Grades of CR/NC and grades on the record for courses not taken at Swarthmore College are not included in computing this average. Swarthmore College does not release GPA or rank in class outside the college.

**8.3 Registration**

All students are required to register and enroll at the times specified in official announcements and to file programs approved by their faculty advisers. Fines are imposed for late or incomplete registration or enrollment.

A regular student is expected to take the prescribed number of courses in each semester to progress toward the degree in the normal eight-semester enrollment. If more than 5 or fewer than 4 credits seem desirable, the faculty adviser should be consulted and a petition filed with the registrar (programs of fewer than 3 credits are not allowed in the normal eight-semester enrollment). Students are expected to select classes that do not pose scheduling conflicts.

Course registration adds and drops must be finalized within the first 2 weeks of the semester. To add a course, the instructor’s permission is required. Withdrawal from a course after the first two weeks of the semester is indicated with the permanent grade notation W. To withdraw from a course, students must file an application to withdraw, and it must be received by the Registrar no later than the end of the 9th week of classes or the 5th week of the course if it meets for only half the semester. After that time, late withdrawals are
recorded on the student’s record with the notation NC unless the student withdraws from the College. Enrolled students may audit an additional class or classes depending on the permission of the instructor(s). Successfully completed audits are recorded with the grade notation R at the end of the semester (except in cases where a registered student has withdrawn after the first 2 weeks of the semester, in which cases the appropriate withdrawal notation stands). Students on leaves of absence are normally not allowed to audit courses. A deposit of $100 is required of all returning students before their enrollment in both the spring and fall semesters. This deposit is applied to charges for the semester and is not refundable.

8.4 Examinations
Any student who is absent from an examination that is announced in advance must understand that the exam may be rescheduled only by special arrangement with the course instructor. Examinations are not normally rescheduled to accommodate travel plans. Examinations are restricted to students who are registered for the course or otherwise have the explicit permission of the faculty member to take the exam.

8.4.1 Final Examinations
The final examination schedule specified in official announcements directs the place and time of all finals unless the instructor has made other special arrangements. However, College policy holds that students with three final examinations within 24 hours are allowed to reschedule one of these examinations in consultation with the instructor, as long as the consultation occurs in a timely manner.

By College policy, a student who is not in the Honors Program but who is taking an honors written examination as a course final and has an examination conflict should take the course final examination and postpone the honors written examination until the student’s next free examination period. Conversely, a student in the Honors Program who has a conflict with a course final examination should take the honors examination and postpone the course examination in consultation with the professor. In no case may a student take an honors examination before the honors written examination period for that examination.

8.5 Student Leaves of Absence, Withdrawal, and Readmission

8.5.1 Leaves of Absence
Student leaves of absence are freely permitted provided the request for leave is received by the date of enrollment and the student is in good standing. Students planning a leave of absence or planning to return following a leave of absence should consult with a dean and complete the necessary form before the deadline published each semester (usually Nov. 15 and April 1). The form asks students to specify the date of expected return.

8.5.2 Withdrawal
Withdrawal from the College may occur for academic, disciplinary, health, or personal reasons and may be voluntary or required by the College. For health-related withdrawals, in no case will a student’s mental or physical condition itself be a basis for a required withdrawal. However, when health problems of a physical or psychological nature result in behavior that substantially interferes with a student’s academic performance or the educational endeavors of other students or poses a significant threat to the safety of others, the College may require the student to withdraw. The Evaluation Committee- comprising two deans-makes the decision to require withdrawal for health-related reasons. The Evaluation Committee will review the problematic behavior and may consult with the director of Worth Health Center, the director of Counseling and Psychological Services, or any other appropriate college official when making its decision. Decisions of the Evaluation Committee may be appealed to the dean of students.

Students withdrawing from the College before the end of the semester normally receive the grade notation "W" (withdrawal) on their permanent record for all in-progress courses.

8.5.3 Readmission
A student who has withdrawn from the College for any reason, voluntarily or involuntarily, may apply for readmission by writing to the assistant dean for academic affairs. Normally, the College will not accept applications for readmission until a full student has withdrawn, has passed. A student applying to the College for readmission after withdrawal is required to provide appropriate documentation of increased ability to function academically and in a residential environment and/or of a decreased hazard to health and safety of others. In the case of withdrawal for medical reasons, this documentation must include an evaluation from the student’s personal health care provider. In addition, the student will generally be required to show evidence of successful social, occupational, and/or academic functioning during the time away from the College. This evidence must include the completion of any outstanding incompletes on record.

After such evidence has been provided, the materials will be forwarded to the Evaluation Committee. In the case of health-related withdrawals, the materials will be reviewed by the director of Worth Health Center and/or the director of Counseling and Psychological Services, and the student will be required to be evaluated in person
Students who wish to receive Swarthmore College credit for work at another school must obtain preliminary approval and after-the-fact validation by the Swarthmore department or program concerned, or for participants in the Semester/Year Abroad program, the Swarthmore Off-Campus Study Office. Preliminary approval depends on adequate information about the content and instruction of the work to be undertaken and ensures the likelihood of the work’s applicability toward the Swarthmore degree as well as clarifies the amount of Swarthmore credit likely. Preliminary approval is tentative except when automatic credit is approved as part of the Semester/Year Off-Campus Study Program. Final validation of the work for credit will depend on evaluation of the materials of the course, such as syllabus, transcript, written work, examinations, indication of class hours, and so forth unless the course has been pre-estimated to receive automatic credit as part of the Semester/Year Off-Campus Study Program. In all cases, transfer of credit is subject to successful completion of the course, i.e., receipt of a straight US equivalent grade of "C" or higher. Work in other programs, especially summer school programs, may sometimes be given less credit than work at Swarthmore, but this will depend on the nature of the program and the work involved. Validation may include an examination, written or oral, administered at Swarthmore. All decisions are made on a case-by-case basis. Credit for AP and similar work is discussed in section 3.5. To receive Swarthmore credit for study abroad during the academic year, students must participate in the College’s Semester/Year Abroad Program and comply with its payment plan (study abroad is discussed in section 7.14).

An official transcript from the other school must be received by the Registrar's Office before validated work can be recorded for credit. By College policy, in order for work done elsewhere to be granted Swarthmore College credit, the grade for that work must be the equivalent of a straight C or better, but a better than C grade does not in itself qualify for Swarthmore credit.

Students who wish to receive natural sciences and engineering practicum (NSEP) credit for courses taken elsewhere must obtain preliminary approval for the course from the department involved as well as final validation as with other credit. The department can approve NSEP credit if the course is comparable with a Swarthmore NSEP course. Generally, courses taken elsewhere that are not comparable with a Swarthmore NSEP will not receive NSEP credit; however, in exceptional cases, if NSEP criteria are satisfied elsewhere, the department chair may recommend NSEP credit award to the Division of Natural Sciences and Engineering for its final decision.

Requests for credit must be made within the semester following the term in which the work was done. Credit is lost if a student takes a course at Swarthmore that essentially repeats the work covered by the credit.

The normal deadline for seniors to submit official documentation originating from off-campus sources for credit toward their degree is the end of classes in the spring of the senior year. The absolute deadline for the registrar to receive such documentation is six (6) days before graduation; after that, no new documents from off-campus sources will be applied to graduation in that year. Students needing such documents to graduate will have to defer graduation to the following year.

## 8.7 Finality of Transcripts

After graduation, the student’s academic record is final and closed to change. The only exception to this is that in the weeks immediately following graduation clerical errors can be corrected.

## 8.8 Physical Education

In the first and second years, all nonveteran students not excused for medical reasons are required to complete 4 units of physical education by the end of their sophomore year. In addition, all students must pass a survival swimming test or take up to one unit of swimming instruction by the end of their sophomore year. For complete requirements, see Physical Education and Athletics.
8.9 Exclusion from College

The College reserves the right to exclude, at any time, students whose academic standing it regards as unsatisfactory and without assigning any further reason therefore, and neither the College nor any of its officers shall be under any liability whatsoever for such exclusion.
9 Degree Requirements

9.1 Bachelor of Arts and Bachelor of Science

The degree of Bachelor of Arts or Bachelor of Science is conferred by faculty vote upon students who have met the following requirements for graduation:

- Completed 32 course credits or their equivalent.
- An average grade of at least C in the Swarthmore courses counted for graduation (see section 8.2.6). A student with more than 32 credits may use the Swarthmore credits within the highest 32 for the purposes of achieving the C average.
- Complied with the distribution requirements and have completed at least 20 credits outside one major subject (see section 7.2).
- Fulfilled the foreign language requirement, having either: (a) successfully studied 3 years or the "block" equivalent of a single foreign language during grades 9 through 12 (work done before grade 9 cannot be counted, regardless of the course level); (b) achieved a score of 600 or better on a standard achievement test of a foreign language; (c) passed either the final term of a college-level, yearlong, introductory foreign language course or a semester-long intermediate foreign language course; or (d) learned English as a foreign language while remaining demonstrably proficient in another.
- Met the requirements in the major and supporting fields during the last 2 years. (For requirements pertaining to majors and minors, see section 7.4).
- Passed satisfactorily the comprehensive requirement in the major field or met the standards set by visiting examiners in the Honors Program.
- Completed four semesters of study at Swarthmore College. Two of these must constitute the senior year (i.e., the last two full-time semesters of degree work), with the exception that seniors during the first semester of their senior year, with the approval of the chair(s) of their major department(s), may participate in the Swarthmore Semester/Year Abroad Program. (For more information regarding the senior year rule, see section 7.6.1).
- Completed the physical education requirement set forth in the Physical Education and Athletics Department statements.
- Paid all outstanding bills and returned all equipment and library books.

9.2 Master of Arts and Master of Science

The degree of Master of Arts or Master of Science may be conferred subject to the following requirements:

Only students who have completed the work for the bachelor’s degree with some distinction, either at Swarthmore or at another institution of satisfactory standing, shall be admitted as candidates for the master’s degree at Swarthmore. The candidate’s record and a detailed program setting forth the aim of the work to be pursued shall be submitted, with a recommendation from the department or departments concerned, to the Curriculum Committee. If accepted by the committee, the candidate’s name shall be reported to the faculty at or before the first faculty meeting of the year in which the candidate is to begin work.

The requirements for the master’s degree shall include the equivalent of a full year’s work of graduate character. This work may be done in courses, seminars, reading courses, regular conferences with members of the faculty, or research. The work may be done in one department or in two related departments. A candidate for the master’s degree shall be required to pass an examination conducted by the department or departments in which the work was done. The candidate shall be examined by outside examiners, provided that where this procedure is not practicable, exceptions may be made by the Curriculum Committee. The department or departments concerned, on the basis of the reports of the outside examiners, together with the reports of the student’s resident instructors, shall make recommendations to the faculty for the award of the degree.

At the option of the department or departments concerned, a thesis may be required as part of the work for the degree.

A candidate for the master’s degree will be expected to show before admission to candidacy a competence in those languages deemed by his or her department or departments most essential for the field of research. Detailed language requirements will be indicated in the announcements of departments that admit candidates for the degree.

The tuition fee for graduate students who are candidates for the master’s degree is the same as for undergraduates (see section 4.1).

12 Alumni Association
Officers and Alumni Council

Alumni Council, the governing body of the Alumni Association, participates in a variety of activities to support students, alumni, and the College. If you have questions about Council, please contact the Lisa Shafer at 610-328-8009 or lshafer1@swarthmore.edu.

Goals
Support the College
Broaden participation of alumni with the College
Strengthen Alumni Council programs

Mission
Alumni Council provides a range of services to alumni, students, and the administration of Swarthmore College; fosters communication between the College and alumni; and facilitates input from alumni to the College in the development of policies.

Executive Committee

Emily Anne Nolte Jacobstein ’07, president
Anne Richards ’97, vice president
BoHee Yoon ’01, secretary
Julian Harper ’08, faculty & staff liaison
Laura McKee ’88, Advancement division liaison
Laura Markowitz ’85, student liaison
Christopher "Kip" Davis ’75, special appointment: volunteer groups liaison
Way-Ting Chen ’94, special appointment: volunteer groups liaison
Charles Bailey ’67, special appointment: Sustainability division liaison
Peter Jaquette ’74, special appointment: Sustainability division liaison
Janet Erlick ’88, nominating chair and immediate past president

13.1 Emeriti

Robert A. Barr Jr., B.A., Swarthmore College; M.A., University of Pennsylvania, Dean Emeritus of Admissions.

Stephen P. Bensch, M.A., University of Toronto; Ph.D., University of California, Berkeley, Professor Emeritus of History.

Thomas H. Blackburn, B.A., Amherst College; B.A., M.A., University of Oxford; Ph.D., Stanford University, Centennial Professor Emeritus of English Literature.

John R. Boccio, B.S., Polytechnic Institute of Brooklyn; Ph.D., Cornell University, Professor Emeritus of Physics.

Thompson Bradley, B.A., Yale University; M.A., Columbia University, Professor Emeritus of Russian.

Aurora Camacho de Schmidt, B.A., Universidad Iberoamericana; M.A., Ph.D., Temple University, Professor Emerita of Spanish.

Peter J. Collings, B.A., Amherst College; M.Ph., Ph.D., Yale University, Morris L.Clothier Professor Emeritus of Physics.

Michael W. Cothren, B.A., Vanderbilt University; M.A., Ph.D., Columbia University, Scheuer Family Professor Emeritus of Humanities.

Susan P. Davis, B.S., Springfield College; M.S., Smith College, Professor Emerita of Physical Education.

Lee Devin, B.A., San Jose State College; M.A., Ph.D., Indiana University, Professor Emeritus of Theater.

Marion J. Faber, B.A., M.A., University of California, Berkeley; Ph.D., Harvard University, Scheuer Family Professor Emerita of Humanities and Professor Emerita of German.

James M. Freeman, B.A., M.A., Ph.D., Harvard University, Daniel Underhill Professor Emeritus of Music.

Sharon E. Friedler, B.A., Colby College; M.F.A., Southern Methodist University, Professor Emerita of Dance.

J. William Frost, B.A., DePauw University; M.A., Ph.D., University of Wisconsin, Howard M. and Charles F. Jenkins Professor Emeritus of Quaker History and Research.

John E. Gaustad, A.B., Harvard University; Ph.D., Princeton University, Edward Hicks Magill Professor Emeritus of Astronomy.

Kenneth J. Gergen, B.A., Yale University; Ph.D., Duke University, Gil and Frank Mustin Professor Emeritus of Psychology.

Charles E. Gilbert, B.A., Haverford College; Ph.D., Northwestern University, Professor Emeritus of Political Science and Provost Emeritus.

Scott F. Gilbert, B.A., Wesleyan University; M.A., Ph.D., Johns Hopkins University, Howard A. Schneiderman Professor Emeritus of Biology.

Charles M. Grinstead, B.A., Pomona College; M.A., Ph.D., University of California, Los Angeles, Professor Emeritus of Mathematics.

Cynthia Perwin Halpern, B.A., Tulane University; M.A., London School of Economics; Ph.D., Princeton University, Associate Professor Emeritus of Political Science.

James H. Hammons, B.A., Amherst College; M.A., Ph.D., Johns Hopkins University, Professor Emeritus of Chemistry.

John J. Hassett, B.A., St. Francis College; M.A., University of Iowa; Ph.D., University of Wisconsin, Susan W. Lippincott Professor Emeritus of Modern and Classical Languages.

Mark A. Heald, B.A., Oberlin College; M.S., Ph.D., Yale University, Morris L. Clothier Professor Emeritus of Physics.

Robinson G. Hollister Jr., B.A., Amherst College; Ph.D., Stanford University, Joseph Wharton Professor Emeritus of Economics.

Raymond F. Hopkins, B.A., Ohio Wesleyan University; M.A., Ohio State University; M.A., Ph.D., Yale University, Richter Professor Emeritus of Political Science.

Gudmund R. Iversen, M.A., University of Michigan; Ph.D., Harvard University, Professor Emeritus of Statistics.

Charles L. James, B.S., State University of New York, New Paltz; M.S., State University of New York, Albany, Sara Lawrence Lightfoot Professor Emeritus of English Literature.

John B. Jenkins, B.S., M.S., Utah State University; PhD., University of California, Los Angeles, Isaac H. Clothier Jr. Professor Emeritus of Biology.

Jennie Keith, B.A., Pomona College; M.A., Ph.D., Northwestern University, Centennial Professor Emerita of Anthropology and Provost Emerita.

Charles F. Kelemen, B.A., Valparaiso University; Ph.D., Pennsylvania State University, Edward Hicks Magill Professor Emeritus of Computer Science.

Deborah G. Kemler Nelson, B.A., M.A., Ph.D., Brown University, Centennial Professor Emerita of Psychology.

T. Kaori Kitao, B.A., M.A., University of California, Berkeley; Ph.D., Harvard University,
William R. Kenan Jr., Professor Emerita of Art History.

Eugene A. Klotz, B.S., Antioch College; Ph.D., Yale University, Albert and Edna Pownall Buffington Professor Emeritus of Mathematics.

James R. Kurth, B.A., Stanford University; M.A., Ph.D., Harvard University, Claude C. Smith Professor Emeritus of Political Science.

Hugh M. Lacey, B.A., M.A., University of Melbourne; Ph.D., Indiana University, Scheuer Family Professor Emeritus of Philosophy.

Asmarom Legesse, B.A., University College of Addis Ababa; Ed.M., Ph.D., Harvard University, Professor Emeritus of Anthropology.

Lillian L. Li, A.B., Radcliffe College; A.M., Ph.D., Harvard University, Sara Lawrence Lightfoot Professor Emerita of History.

Jeanne Mareeck, B.S., Loyola University; Ph.D., Yale University, William R. Kenan Jr. Professor Emerita of Psychology.

Michael Marissen, B.A., Calvin College; Ph.D., Brandeis University, Professor Emeritus of Music.

Stephen B. Maurer, B.A., Swarthmore College; M.A., Ph.D., Princeton University, Professor Emeritus of Mathematics.

Ann Kosakowski McNamee, B.A., Wellesley College; M.Phil., Ph.D., Yale University, Professor Emerita of Music.

Rachel A. Merz, B.A., Western New Mexico University; M.S., University of Florida; Ph.D., University of Chicago, Walter Kemp Professor in the Natural Sciences, Professor Emerita of Biology.

Frank A. Moscatelli, B.S., C.W. Post College; M.S., Ph.D., New York University, Edward Hicks Magill Professor Emeritus of Physics.

Michael L. Mullan, B.A., University of California, Berkeley; M.Ed., Ph.D., Temple University; Ph.D., University of Delaware, Professor Emeritus of Physical Education.

Jane Mullins, B.A., Swarthmore College, Registrar Emerita.

Hans F. Oberdiek, B.S., Ph.D., University of Wisconsin, Henry C. and Charlotte Turner Professor Emeritus of Philosophy.

Frederick L. Orthlieb, B.S. M.S., Massachusetts Institute of Technology; Ph.D., Carnegie Mellon University, The Isaiah V. Williamson Chair of Civil and Mechanical Engineering, Professor Emeritus of Engineering.

Harold E. Pagliaro, A.B., M.A., Ph.D., Columbia University, Alexander Griswold Cummins Professor Emeritus of English Literature and Provost Emeritus.

Robert F. Pasternack, B.A., Ph.D., Cornell University, Edmund Allen Professor Emeritus of Chemistry and Biochemistry.

Jean Ashmead Perkins, B.A., Swarthmore College; M.A., Ph.D., Columbia University, Susan W. Lippincott Professor Emerita of French.

Steven I. Piker, B.A., Reed College; Ph.D., University of Washington, Professor Emeritus of Anthropology.

Ernest J. Prudente, B.S., M.S., University of Pennsylvania, Professor Emeritus of Physical Education.

Frederic L. Pryor, B.A., Oberlin College; M.A., Ph.D., Yale University, Professor Emeritus of Economics.

Gilbert P. Rose, B.A., Ph.D., University of California, Berkeley, Susan Lippincott Professor Emeritus of Modern and Classical Languages.

Alburn M. Rosenberg, B.A., Harvard University; M.S., University of Florida; Ph.D., University of Pennsylvania, Associate Professor Emeritus of Natural Science.

Robert Roza, B.A., University of Toronto; M.A., Ph.D., Princeton University, Susan W. Lippincott Professor Emeritus of French.

Richard Schuldenfrei, B.A., M.A., University of Pennsylvania; Ph.D., University of Pittsburgh, Professor Emeritus of Philosophy.

Barry Schwartz, B.A., New York University; M.A., Ph.D., University of Pennsylvania, Dorwin P. Cartwright Professor of Social Theory and Social Action, Professor of Psychology.

Helene Shapiro, B.A., Kenyon College; Ph.D., California Institute of Technology, Professor Emeritus of Mathematics.

Kenneth E. Sharpe, B.A., Dartmouth College; M.S., London School of Economics and Political Science; Ph.D., Yale University, William R. Kenan Jr. Professor of Political Science.

Don H. Shimamoto, B.S., Stanford University; M.A., Ph.D., Brandeis University, Professor Emeritus of Mathematics.

Kathleen K. Siwicki, B.S., Brown University; M.Phil., Cambridge University; Ph.D., Harvard University, Howard A. Schneiderman Professor Emeritus of Biology.

Bernard S. Smith, B.A., M.A., University of Oxford; Ph.D., Harvard University, Professor Emeritus of History.

David G. Smith, B.A., M.A., University of Oklahoma; Ph.D., Johns Hopkins University, Richter Professor Emeritus of Political Science.

Barbara Yost Stewart, B.A., Swarthmore College; M.A., Ph.D., Bryn Mawr College, Professor Emerita of Biology.

13 Faculty and Other Instructional Staff

Francis P. Tafoya, B.S., M.A., University of Colorado; Ph.D., Yale University, Professor Emeritus of French and Spanish.

Peter T. Thompson, B.A., Johns Hopkins University; Ph.D., University of Pittsburgh, Professor Emeritus of Chemistry.

Eva F. Travers, B.A., Connecticut College; M.A., Ed.D., Harvard University, Professor Emerita of Educational Studies.

Judith G. Voet, B.S., Antioch College; Ph.D., Brandeis University, James H. Hammons Professor Emerita of Chemistry.

Philip M. Weinstein, B.A., Princeton University; M.A., Ph.D., Harvard University, Alexander Griswold Cummins Professor Emeritus of English Literature.

Larry E. Westphal, B.A., Occidental College; Ph.D., Harvard University, J. Archer and Helen C. Turner Professor Emeritus of Economics.

Robert E. Williams, B.S., Delaware State College; M.S., Rutgers University, Marian Snyder Ware Professor Emeritus of Physical Education and Athletics.

Timothy C. Williams, B.A., Swarthmore College; A.M., Harvard University; Ph.D., Rockefeller University, Professor Emeritus of Biology.

13.2 Faculty and Other Instructional Staff

Tariq al-Jamil, B.A., Oberlin College; M.T.S., Harvard University; M.A., Ph.D., Princeton University, Associate Professor of Religion.

Elaine Allard, B.A., Swarthmore College; M.A., University of Pennsylvania; Ph.D., University of Pennsylvania, Assistant Professor of Educational Studies.

Hannah R. Allison, B.S., Pennsylvania State University, Head Coach/Instructor, Physical Education.

Khaled Al-Masri, B.A., M.A., Yarmouk University of Arabic Language and Literature; Ph.D., University of Michigan, Associate Professor of Arabic.

Kelly N. Ambruso, B.S., Lycoming College; M.S., Bucknell University, Lecturer of Chemistry and Biochemistry.

Todd Anckaitis, B.A., Lafayette College; M.S., Smith College, Head Coach/Instructional, Physical Education.

Diane Downer Anderson, B.A., Montclair State College; M.S., Drexel University; Ph.D., University of Pennsylvania, Associate Professor of Educational Studies.

Nathalie Anderson, B.A., Agnes Scott College; M.A., Georgia State University; Ph.D., Emory University, Professor of English Literature.

Diego Armus, B.A., University of Buenos Aires; M.A., Ph.D., University of California, Berkeley, Professor of History.

Kim D. Arrow, B.S., Temple University; M.F.A., New York University, Associate Professor of Dance.

Sa'ed A. Atshan, B.A., Swarthmore College; M.P.P., M.A., Ph.D., Harvard University, Assistant Professor of Peace and Conflict Studies.

Elizabeth Atkinson, B.F.A., Carnegie Mellon University; M.F.A., Yale University, Visiting Assistant Professor of Theater.

Farid Azfar, B.A., Tufts University; M.A., University of Southern California; Ph.D., Brown University, Associate Professor of History.

Alan R. Baker, B.A., University of Cambridge; M.A., Ph.D., Princeton University, Professor of Philosophy.

Shannon Ballard, B.S., Fairfield University; Ph.D., Brown University, Visiting Assistant Professor of Biology.

Marcantonio Barone, B.Mus., Curtis Institute of Music; Artist Diploma, Peabody Conservatory, Associate in Performance (Music).

Victor Barranca, B.S., M.S., Ph.D., Rensselaer Polytechnic Institute, Assistant Professor of Mathematics.

Alex Baugh, B.S. University of Texas-Austin, Associate Professor of Biology.

Peter Baumann, M.A., Ph.D., University of Gottingen, Professor of Philosophy.

Gabriel Quinn Bauriedel, B.A., Swarthmore College; Certificate, École Internationale de Théâtre Jacques Lecoq, Visiting Assistant Professor of Theater.

Amanda Bayer, B.A., Williams College; M.A., M.Phil., Ph.D., Yale University, Professor of Economics.

Benjamin Berger, A.B., Princeton University; M.A., Ph.D., Harvard University, Associate Professor of Political Science.

Deb Bergstrand, B.S., Allegheny College; M.S., Ph.D., University of Illinois, Professor of Mathematics.

Cacey Stevens Bester, B.S., Southern University and A&M College; M.S., Ph.D., University of Chicago, Assistant Professor of Physics.

Syon Bhanot, B.A., Princeton University; M.P.P., Ph.D., Harvard University, Assistant Professor of Economics.
John C. Blanchar, B.A., M.A., University of Arkansas; Ph.D., Purdue University, Indianapolis, Visiting Assistant Professor of Psychology.

Jean-Vincent Blanchard, B.A., M.A., Université de Montréal; Ph.D., Yale University, Professor of French and Associate Provost for Educational Programs.

James J. Blasina, B.A., Dalhousie University; M.A., Ph.D., Harvard University, Assistant Professor of Music.

Elizabeth Bolton, B.A., Middlebury College; M.Phil., Ph.D., Yale University, Professor of English Literature.

Karen Borbee, B.S., University of Delaware; M.Ed., Widener University, Professor of Physical Education.

Jason Box, B.A., Sewanee: The University of the South, Professor of Physical Education.

Jennifer Bradley, B.A., M.Ed., Loyola University; Ph.D., Temple University, Visiting Assistant Professor of Educational Studies.

Joshia Brody, B.S., Carnegie Mellon University; M.S., New York University; Ph.D., Dartmouth College, Assistant Professor of Computer Science.

Erin Todd Bronchetti, B.A., Miami University; M.A., Ph.D., Northwestern University, Associate Professor of Economics.

Megan Brown, B.S., Northwestern University; M.A., University of London, Institute in Paris; M.Phil., Ph.D., The Graduate Center, City University of New York, Assistant Professor of History.

Michael R. Brown, B.A., Pomona College; Ph.D., Dartmouth College, Morris L. Clothier Professor of Physics.

Laynie Browne, B.A., University of California, Berkeley; M.F.A., Brown University, Instructor, Department of English Literature.

Lei Ouyang Bryant, B.A., Macalester College; M.A., Ph.D., University of Pittsburgh, Associate Professor of Music.

Nanci Lissette Buiza, B.A., M.A. California State University; Ph.D., Emory University, Associate Professor of Spanish.

Timothy J. Burke, B.A., Wesleyan University; M.A., Ph.D., Johns Hopkins University, Professor of History.

Caroline A. Burkhard, B.S., M.S., University of Delaware, Senior Laboratory Instructor of Chemistry and Biochemistry.

Rachel Sagner Buurma, B.A., Swarthmore College; M.A., Ph.D., University of Pennsylvania, Associate Professor of English Literature.

Sydney L. Carpenter, B.F.A., M.F.A., Tyler School of Art, Professor of Art.

Dawn Carone, B.S., Ph.D., University of Connecticut, Assistant Professor of Biology.

Peter Carroll, B.S., M.A., Villanova University, Head Coach/Instructor, Physical Education and Athletics.

John P. Caskey, B.A., Harvard University; Ph.D., Stanford University, Joseph Wharton Professor of Economics.

Vasanta Chaganti, B.S., Ph.D., The Australian National University, Assistant Professor of Computer Science.

Pallabi Chakravorty, B.A., Jadavpur University; Ph.D., Temple University, Professor of Dance.

Kit Yu Karen Chan, B.S., University of Hong Kong; MSc, PhD, University of Washington.

Joy Charlton, B.A., University of Virginia; M.A., Ph.D., Northwestern University, Professor of Sociology.

Paloma Checa-Gismero, B.A., M.F.A., Universidad Complutense de Madrid; Ph.D., University of California, San Diego, Assistant Professor of Art History.

Erik Cheever, B.S., Swarthmore College; M.S.E., Ph.D., University of Pennsylvania, Professor of Engineering.

BuYun Chen, B.A., Barnard College; M.A., Ph.D., Columbia University, Assistant Professor of History.

Linda Chen, A.B. Harvard College; Ph.D., University of Chicago, Associate Professor of Mathematics.

Benjamin Cherel, D.E.A., Université de Grenoble; M.A., Université de Grenoble, Lecturer of French.

Julia Chindemi Vila, B.A., Universidad de Buenos Aires, Argentina; M.A., Temple University, Lecturer of Spanish.

Yvonne P. Chireau, B.A., Mount Holyoke College; M.T.S., Harvard University; Ph.D., Princeton University, Professor of Religion.

Stella Christie, B.A., Harvard University; Ph.D., Northwestern University, Associate Professor of Psychology.

Harleigh Chwastyk, B.A., Trinity College; M.S., Smith College, Head Coach/Instructor, Physical Education and Athletics.

Erin Clemens, B.S., DeSales University; M.S., Saint Joseph’s University, Laboratory Instructor of Biology.

Shelley Costa, B.S., University of Rhode Island; M.A., Princeton University; Ph.D., Cornell University, Visiting Assistant Professor of Gender and Sexuality Studies.

David H. Cohen, B.A., Harvard University; M.S., Ph.D., University of Wisconsin, Professor of Astronomy.

Eli Cohen, B.A., The George Washington University; M.A., Middlebury College; Ph.D., Princeton University, Visiting Assistant Professor of Spanish.
Lara Langer Cohen, B.A., University of Chicago; Ph.D., Yale University, Associate Professor of English.

Karin L. Colby, B.A., Carleton College; M.S., M.B.A., University of Massachusetts, Head Coach/Instructor, Physical Education.

Arnaud Courgey, M.A. (Maitrise) and Agrégation, U. de Franche-Comté, France; M.A., University Paris Diderot, France, Lecturer of French.

Denise Crossan, B.Sc., Queen’s University, Belfast; M.Sc., University of Ulster, Magee, Lang Visiting Professor for Issues of Social Change.

Catherine H. Crouch, A.B., Williams College; A.M., Ph.D., Harvard University, Professor of Physics.

Andrew Danner, B.S., Gettysburg College; M.S., Ph.D., Duke University, Associate Professor of Computer Science.

Brad Davidson, B.A., Swarthmore College; Ph.D., University of Washington, Assistant Professor of Biology.

Diana Davis, B.A., Williams College, Ph.D., Brown University, Visiting Assistant Professor of Mathematics.

LaDeva Davis, B.M.Ed., Temple University, Associate in Performance (Dance).

Maggie Delano, S.B., MEng., Ph.D., Massachusetts Institute of Technology, Assistant Professor of Engineering.

Renee L. DeVarney, B.A., University of Vermont; Teaching Certificate, George Washington University, Head Coach/Instructor, Physical Education and Athletics.

Ni Luh Kadek Kusuma Dewi, Associate in Performance (Dance).

Désirée Díaz, B.A., University of Havana; M.A., Ph.D., University of Wisconsin-Madison, Assistant Professor of Spanish.

Giovanna Di Chiuro, B.A., University of California, Santa Cruz; M.S., University of Michigan; Ph.D., University of California, Professor of Environmental Studies.

Rikker Dockum, B.A., Dartmouth College; M.A., Yale University; Ph.D. (expected), Yale University, Visiting Professor of Linguistics.

Allison Dorsey, B.A., University of San Francisco; M.A., Ph.D., University of California, Irvine, Professor of History.

Bruce A. Dorsey, B.A., Biola University; A.M., Ph.D., Brown University, Professor of History.

Timothy DuBuc, B.S., Siena Heights University; M.S., Ph.D., University of Hawaii, Visiting Assistant Professor of Biology.

Frank H. Durgin, B.A., St. John’s College; M.A., University of Pennsylvania; Ph.D., University of Virginia, Elizabeth and Summer Hayward Professor of Psychology.

Richard Eldridge, A.B., Middlebury College; M.A., Ph.D., University of Chicago, Charles and Harriett Cox McDowell Professor of Philosophy.

Shani Evans, B.A., Amherst College; M.S.Ed., University of Pennsylvania; Ph.D., University of Pennsylvania, Visiting Assistant Professor of Sociology.

Youssef Ezzyat, B.A., Princeton University; Ph.D., New York University, Visiting Assistant Professor of Psychology.

Erich Carr Everbach, A.B., Harvard College; M.S., Ph.D., Yale University, Professor of Engineering.

Philip J. Everson, B.A., Pomona College; M.A., Ph.D., Harvard University, Professor of Statistics.

Randall L. Exon, B.F.A., Washburn University; M.A., M.F.A., University of Iowa, Sara Lawrence-Lightfoot Professor of Art.

Jeremy Fahringer, B.A., Swarthmore College, Laboratory Instructor of Linguistics.

Daniela Fera, B.A., New York University; Ph.D., University of Pennsylvania, Assistant Professor of Chemistry and Biochemistry.

Theodore B. Fernald, B.A., M.A., Ohio State University; Ph.D., University of California, Santa Cruz, Professor of Linguistics.

Melissa Finley, B.A., Princeton University, Head Coach/Instructor, Physical Education and Athletics.

Molly Flaherty, BA, Columbia University; MSc The University of Edinburgh, PhD The University of Chicago, Visiting Assistant Professor of Psychology.

Lila Fontes, B.A., Harvard University; Ph.D., University of Toronto, Assistant Professor of Computer Science.

Vincent Formica, B.A., St. Mary’s College of Maryland, Ph.D., Indiana State University, Assistant Professor of Biology.

Sibelan Forrester, B.A., Bryn Mawr College; M.A., Ph.D., Indiana University, Professor of Russian.

Ella Foster-Molina, B.A., Swarthmore College; M.A., Ph.D., University of Rochester, Professor of Political Science.

Anthony Foy, B.A., University of California, Los Angeles; M.A., Ph.D., Yale University, Associate Professor of English.

Christopher Fraga, B.A. Michigan State University; M.A. New York University; Ph.D., New York University, Assistant Professor of Anthropology.

Gregory Frost, B.A., University of Iowa, Visiting Instructor of English Literature (part time).
Maria Gallagher, B.A., College of the Holy Cross; Ph.D., University of Florida, Lecturer of Chemistry and Biochemistry.

Vidya Ganapati, S.B., Massachusetts Institute of Technology; M.S., Ph.D. University of California, Berkeley, Assistant Professor of Engineering.

William O. Gardner, B.A., Columbia University; M.A., Ph.D., Stanford University, Professor of Chemistry and Biochemistry.

Emily A. Gasser, B.A., Swarthmore College; Ph.D., Yale University, Visiting Assistant Professor of Linguistics.

Jeffrey Gauthier, B.S., University of Chicago; PH.D., University of California, San Diego, Assistant Professor of Biology.

Benjamin D. Geller, B.A., Swarthmore College; M.A., Columbia University; Ph.D., University of Maryland, Assistant Professor of Physics.

Farha Ghannam, B.A., M.A., Yarmouk University; Ph.D., University of Texas-Austin, Professor of Anthropology.

Eleonora Giangi, Laurea (combined B.Sc. and M.Sc.), University of Pavia, Italy; First Level Master’s Degree, University of Milano-Bicocca, Italy; M.Sc., University of Milano-Bicocca, Italy; Ph.D., University of the Sciences in Philadelphia, US, Visiting Assistant Professor of Chemistry and Biochemistry.

Jane E. Gillham, B.A., Princeton University; Ph.D., University of Pennsylvania, Professor of Psychology.

Jill Gladstein, B.S., University of Wisconsin, Madison; M.S.E.D., Ph.D., University of Pennsylvania, Professor of English Literature and Director of Writing Associates Program.

Brian D. Goldstein, B.A., Harvard College; M.A., Ph.D., Harvard University, Assistant Professor of Art History.

Joshua Goldwyn, B.A., Pomona College, Ph.D., University of Washington, Assistant Professor of Mathematics.

Stephen S. Golub, B.A., Williams College; M.A., Ph.D., Yale University, Franklin and Betty Barr Professor of Economics.

Ralph R. Gomez, B.A., M.A., University of California, Santa Cruz; Ph.D., University of New Mexico; Associate Professor of Mathematics.

Amy Lisa Graves, B.A., Williams College; Ph.D., Massachusetts Institute of Technology, Walter Kemp Professor in the Natural Sciences, Professor of Physics.

Christopher R. Graves, B.S., Mount Allison University; Ph.D., Northwestern University, Associate Professor of Chemistry and Biochemistry.

Joseph Gregorio, B.A., Cornell University; M.M., Yale University, M.M., San Francisco Conservatory of Music, D.M.A. Temple University, Associate in Performance (Music), Music and Dance.

Pat Gress, B.S., Towson University; M.S., West Chester University, Head Coach/Instruction, Physical Education and Athletics.

Logan Grider, B.F.A., Art Institute of Chicago; M.F.A., Yale University, Associate Professor of Art.

Daniel J. Grodner, S.B., Ph.D., Massachusetts Institute of Technology, Associate Professor of Psychology.

Cheryl P. Grood, B.A., University of Michigan; M.A., Ph.D., University of Wisconsin, Professor of Mathematics.

Maria Luisa Guardiola, Licenciada, Universitat Autonoma de Barcelona; Ph.D., University of Pennsylvania, Professor of Spanish.

Alexandra Gueydan-Turek, Licence, Maitrise de Lettres Modernes, Université Jean Moulin, Lyon III; M.A., M. Phil, Ph.D., Yale University, Associate Professor of French.

Genevieve Haas, B.S., M.S., Northern Michigan University, Laboratory Instructor of Biology.

Donna T. Halley, B.S., University of Delaware, Senior Laboratory Instructor of Chemistry and Biochemistry.

Samuel Handlin, B.A. Swarthmore College, M.A. University of California Berkeley, Ph.D. University of California Berkeley

Dima Hanna, B.A., Damascus University, M.A., University of Virginia, Lecturer in Arabic.

Joseph Hargadon, B.S., M.S., Ph.D., Widener University, Visiting Professor of Economics.

K. David Harrison, B.A., American University; Magister, Jagiellonian University, Poland; M.A., Ph.D., Yale University; Professor of Linguistics.

Andrew D. Hauze, A.A., Simon’s Rock College of Bard; B.A., Swarthmore College; Diploma, Curtis Institute of Music; Lecturer in Music.

Daifeng He, B.A. Shanghai University; M.A, Shanghai University; M.A., Oregon State University, Ph.D., Washington University in St. Louis; Associate Professor of Economics.

Jim Heller, Head Coach, Physical Education and Athletics.

Adam Hertz, B.A., University of Redlands; M.Ed., Temple University, Marian Ware Director of Physical Education, Athletics and Recreation.

Sara Hiebert Burch, B.S., University of St. Andrews; Ph.D., University of Washington, Professor of Biology.

Steven P. Hopkins, B.A., M.A., University of California, Santa Barbara; A.M., Ph.D., Harvard University, Professor of Religion.

Kathleen P. Howard, B.A., Princeton University; Ph.D., Yale University, Professor of Chemistry and Biochemistry.
Constance Cain Hungerford, B.A., Wellesley College; M.A., Ph.D., University of California, Berkeley, Mari S. Michener Professor of Art History.

Thomas J. Hunter, B.S., University of Chicago; Ph.D., Massachusetts Institute of Technology, Professor of Mathematics.

Akiko Imamura, B.A., M.A., University of Hokkaido, Sapporo, Japan; Ph.D., University of Wisconsin-Madison, Visiting Assistant Professor of Japanese.

Patricia L. Irwin, B.A., Amherst College; M.A., Rutgers University; M.A., B.F.A., University of New Hampshire; M.S., Northeastern University; Ph.D., New York University, Visiting Assistant Professor of Linguistics.

Philip N. Jefferson, B.A., Vassar College; M.A., Ph.D., University of Virginia, Centennial Professor of Economics.

Eric L.N. Jensen, B.A., Carleton College; M.S., Ph.D., University of Wisconsin, Professor of Astronomy.

Yoshiko Jo, B.A., Seiwa College, Nishinomiya, Japan; B.A., North Central College, Illinois; M.A., University of Illinois-Urbana-Champaign, Senior Lecturer in Japanese.

Aimee S.A. Johnson, B.A., University of California, Berkeley; Ph.D., University of Maryland, College Park, Professor of Mathematics.

Nina Johnson, B.A., University of Pennsylvania; M.A., New York University; Ph.D., Northwestern University, Assistant Professor of Sociology.

Nora Johnson, B.A., University of California, Los Angeles; M. Div., Graduate Theological Seminary; M.A., Ph.D., University of California, Berkeley, Professor of English Literature.

Wol A. Kang, B.A., Fu-Jen Catholic University, Taipei, Taiwan; M.A., Peking University, Beijing, China, Senior Lecturer in Chinese.

Nicholas Kaplinsky, B.A., Reed College; Ph.D., University of California, Berkeley, Associate Professor of Biology.

Ayse Kaya, B.A. Wellesley College; MSc., Ph.D., London School of Economics, Associate Professor of Political Science.

Charles Kazer, B.S. Swarthmore College; M.S., University of Pennsylvania, Lecturer in Computer Science.

Gwynn Kessler, B.A., University of Florida; M.A., Ph.D., The Jewish Theological Seminary of America, Associate Professor of Religion.

Mary Ann Klassen, B.A., Agnes Scott College; M.S., University of Wyoming, Senior Lecturer in Physics and Astronomy.

Wing-Ho Ko, B.A., University of Illinois; Ph.D., Massachusetts Institution of Technology, Visiting Assistant Professor of Physics.

Jonathan Kochavi, B.A., University of Chicago; Ph.D., State University of New York, Buffalo; Associate Professor of Music.

Haili Kong, M.A., People's University, Beijing, China; Ph.D., University of Colorado, Boulder, Professor of Chinese.

Landry Komsalski, B.A., Davidson College, Head Coach/Instructor, Physical Education and Athletics.

Elizabeth D. Krause, B.A., Cornell University; M.A., Ph.D., Duke University, Visiting Assistant Professor of Psychology (part time).

Allen Kuharski, B.A., University of Wisconsin-Madison; M.A., Ph.D., University of California, Berkeley, Stephen Lang Professor of Performing Arts.

Mark Kuperberg, B.A., Amherst College; M.A., Ph.D., Massachusetts Institute of Technology, Professor of Economics.

Daniel Laurison, B.A., Swarthmore College; M.A., Ph.D. University of California, Berkeley, Assistant Professor of Sociology.

Grace M. Ledbetter, B.A., Bryn Mawr College; M.A., University of Virginia; Ph.D., Cornell University, Professor of Classics and Philosophy.

Jeremy Lefkowitz, B.A., University of North Carolina at Chapel Hill; M.A., Washington University in St. Louis; Ph.D., University of Pennsylvania, Associate Professor of Classics.

Gerald Levinson, B.A., University of Pennsylvania; M.A., Ph.D., University of Chicago, Jane Lang Professor of Music.

Stephanie Liapis, B.A., NYU Tisch School of the Arts; M.F.A., University of Washington, Assistant Professor of Dance.

Brook Lillehaugen, B.A., University of California, Berkeley; M.A., Ph.D., University of California, Los Angeles, Assistant Professor of Linguistics (Tri-College).

Margaret Inman Linn, B.S., M.Ed., University of Pittsburgh; Ph.D., University of Pennsylvania, Visiting Associate Professor of Educational Studies.

Roseann Liu, B.S. New York University; Ed.M., Teachers College, Columbia University; Ph.D. University of Pennsylvania. Visiting Assistant Professor of Educational Studies.

Jeremy Loomis, B.A., University of Maryland; M.S., Miami University; M.B.A., University of Maryland, Head Coach/Instructor, Physical Education and Athletics.

Tamsin Lorraine, B.A., Middlebury College; Ph.D., University of Massachusetts, Professor of Philosophy.
Amanda Luby, B.A., College of Saint Benedict; M.S., Ph.D., Carnegie Mellon University, Assistant Professor of Statistics.

José-Luis Machado, B.S., Universidad de Los Andes, Bogota; M.S., University of Vermont; Ph.D., University of Minnesota, Associate Professor of Biology.

Nelson A. Macken, B.S., Case Institute of Technology; M.S., Ph.D., University of Delaware, Howard N. and Ada J. Eavenson Professorship in Engineering.

Ellen B. Magenheim, B.A., University of Rochester; M.A., Ph.D., University of Maryland, Professor of Economics.

James Magruder, B.A., Cornell University; M.A., F.A., D.F.A., Yale University, Visiting Assistant Professor of Theater.

Kyle Mahoney, B.A., Gettysburg College; Ph.D. University of Pennsylvania, Visiting Assistant Professor of Classics.

Bakirathi Mani, B.S.F.S., Georgetown University; M.A., Jawaharlal Nehru University; Ph.D., Stanford University, Associate Professor of English Literature.

Luciano Martínez, Licenciado en Letras, Universidad Nacional de Mar del Plata, Argentina; M.A., Ph.D., University of Pittsburgh, Associate Professor of Spanish.

José Luis Pérez, B.A., Francis Marion University; M.A., Ph.D., Duke University, Associate Professor of Education.

Braulio Muñoz, B.A., University of Rhode Island; M.A., Ph.D., University of Pennsylvania, Centennial Professor of Sociology.

Rosaria V. Munson, Laurea in Lettere Classiche, Università degli Studi, Milano; Ph.D., University of Pennsylvania, Professor of Classics.

James Murphy, B.F.A., State University of New York, Albany, Associate in Theater Performance.

Marjorie Murphy, B.A., Jersey City State College; M.A., San Jose State University; Ph.D., University of California, Davis, Professor of History and James C. Hormel Professor in Social Justice.

Carol Nackenoff, A.B., Smith College; M.A., Ph.D., University of Chicago, Richter Professor of Political Science.

Maya Nadkarni, B.A., M.A., Harvard University; Ph.D., Columbia University, Associate Professor of Anthropology.

Donna Jo Napoli, B.A., M.A., Ph.D., Harvard University, Professor of Linguistics and Social Justice.

Adam Neat, B.S., M.S., Northern Arizona University, Lecturer in Physics and Astronomy.

Joseph Nelson, B.A., Loyola University; M.A., Marquette University; Ph.D., The Graduate Center, City University of New York, Assistant Professor of Educational Studies.

Tia Newhall, B.S.-SED, M.S., Ph.D., University of Wisconsin-Madison, Professor of Computer Science.
13 Faculty and Other Instructional Staff

Alba Newmann Holmes, B.A., University of Chicago; M.A., Ph.D., University of Texas-Austin, Visiting Assistant Professor and Assistant Director of the Writing Program.

Aline Normoyle, B.Sc., McGill University; M.Eng., Ph.D., University of Pennsylvania, Visiting Assistant Professor of Computer Science.

Catherine J. Norris, B.A., M.A., Ph.D., University of Chicago, Associate Professor of Psychology.

Stephen A. O’Connell, A.B., Oberlin College; Ph.D., Massachusetts Institute of Technology, Gil and Frank Mustin Professor of Economics.

Susan O’Donnell, B.S., Wesleyan University; M.S., Ph.D., University of Wisconsin, Madison, Laboratory Instructor of Biology.

Emily Paddon Rhoads, B.A., Brown University; M.Phil., University of Oxford; D.Phil., University of Oxford, Assistant Professor of Political Science.

Robert S. Paley, B.S., McGill University; M.S., Ph.D., University of Michigan, Edmund Allen Professor of Chemistry and Biochemistry.

Zachary Palmer, B.S., Indiana University of Pennsylvania; M.S.E., Johns Hopkins University; Ph.D., Johns Hopkins University, Visiting Assistant Professor of Computer Science.

Rachel Pastan, B.A., Harvard College; M.F.A., University of Iowa, Visiting Instructor of English Literature.

Sangina Patnaik, B.A., University of Iowa; M.A., Ph.D., University of California, Berkeley, Assistant Professor of English Literature.

Jennifer R. Peck, B.A., Swarthmore College; Ph.D., Massachusetts Institute of Technology, Assistant Professor of Economics.

Saleana E. Pettaway, B.S., M.Ed., Temple University, Associate in Performance (Dance).

Jennifer Pfugler, B.S., University of Illinois Urbana-Champaign; Ph.D., University of California Berkeley, Visiting Assistant Professor of Environmental Studies (part time).

Michael Piovoso, B.S., University of Delaware; M.S., University of Michigan; Ph.D., University of Delaware, Visiting Professor of Engineering (part time).

Helen Plotkin, B.A., Swarthmore College; M.A., University of Michigan, Visiting Assistant Professor of Classics.

Paul R. Rablen, B.A., Haverford College; M.A., Columbia University; Ph.D., Yale University, Professor of Chemistry and Biochemistry.

Charles Raff, B.A., University of Rochester; M.A., Ph.D., Brown University, Professor of Philosophy.

Keith Reeves, B.A., Swarthmore College; Ph.D., University of Michigan, Professor of Political Science.

Bob Rehak, B.A., Eastern Michigan University; M.A., University of North Carolina; Ph.D., Indiana University, Associate Professor of Film and Media Studies.

Patricia L. Reilly, B.A., University of California; M.A., Bryn Mawr College; Ph.D., University of California, Associate Professor of Art History.

Michele Reimer, B.A., Yale University; M.S.W., Smith College School for Social Work; Ph.D., Temple University, Assistant Professor of Psychology.

Marc Remer, B.A., Emory University; M.A., Ph.D., Johns Hopkins University, Assistant Professor of Economics.

K. Ann Renninger, B.A., University of Pennsylvania; M.A., Ph.D., Bryn Mawr College, Professor of Educational Studies.

Micheline Rice-Maximin, Licence and Maîtrise Universite de la Sorbonne, Paris-IV; M.A., University of North Texas; Ph.D., University of Texas-Austin, Associate Professor of French.

Benjamin Ridgway, B.A., Grinnell College; M.A., University of Minnesota; Ph.D., University of Michigan, Visiting Assistant Professor of Chinese.

Kathryn R. Riley, B.A., Swarthmore College; Ph.D., Wake Forest University, Assistant Professor of Chemistry and Biochemistry.

Jesus Rivera, B.A., The University of Texas at Brownsville; M.A., Ph.D., Rutgers, the State University of New Jersey, Visiting Assistant Professor of Astronomy.

Ellen M. Ross, B.A., Princeton University; M.A., Ph.D., University of Chicago, Professor of Religion.

Alicia Ruley-Nock, B.S., Pierce College; Artist in Residence, Department of History.

Olivia Sabee, B.A., The University of Chicago; Ph.D., The Johns Hopkins University, Assistant Professor of Dance.

Tomoko Sakomura, B.A., Keio University; M.A., Ph.D., Columbia University, Associate Dean for Academic Affairs and Associate Professor of Art History.

Matthew Saunders, B.A., Virginia Polytechnic Institute; M.F.A., Yale University, Associate Professor of Theater.

Deborah Schmidt, B.A., Franklin & Marshall College; M.A., Ph.D., University of Arizona, Assistant Professor of Astronomy.

Peter J. Schmidt, B.A., Oberlin College; M.A., Ph.D., University of Virginia, The William R. Kenan, Jr., Professor of English Literature.

Christopher Schnader, A.B., Dartmouth College; M.A., Ph.D., University of Pennsylvania, Lecturer in German Studies.

Allen M. Schneider, B.S., Trinity College; Ph.D., Indiana University, Centennial Professor of Psychology.
Lynne Steuerle Schofield, B.A., Swarthmore College; M.S., MPhil, Ph.D., Carnegie Mellon University, Associate Professor of Statistics and Associate Provost of Faculty Diversity and Development.

Christine Schuetze, B.A., The Colorado College; Ph.D., University of Pennsylvania, Associate Professor of Anthropology.

Peggy Ann Seiden, B.A., Colby College; M.A., University of Toronto; M.L.I.S., Rutgers University, College Librarian.

Adriano Shaplin, B.A., Sarah Lawrence College; M.A., University of California, Berkeley. Visiting Instructor of Theater.

Ahmad Shokr, B.A., University of Toronto; M.A., Ph.D., New York University, Assistant Professor of History.

Jedidiah Siev, B.A., Yale University; M.A., Ph.D., University of Pennsylvania, Assistant Professor of Psychology.

Sara Sinclair, B.A., Wellesley College; M.A., Ph.D., Dartmouth College, Lecturer of Computer Science.

Faruq M.A. Siddiqui, B.S., Bangladesh University of Engineering and Technology; M.S., Ph.D., University of Pittsburgh, Assistant Professor of Civil and Mechanical Engineering.

Sunka Simon, M.A., Universität Hamburg; Ph.D., Johns Hopkins University, Professor of German and Film and Media Studies.

Joseph Small, B.A., Swarthmore College; M.F.A., University of California Los Angeles, Assistant Professor of Dance.

Benjamin Lenox Smith, B.A., University of Virginia; M.A., Harvard University; Ph.D., Harvard University, Visiting Assistant Professor of Arabic.

Hillary L. Smith, B.A., Bryn Mawr College; M.A., Ph.D., California Institute of Technology, Assistant Professor of Physics.

Tristan L. Smith, B.A., University of Chicago; Ph.D., California Institute of Technology, Assistant Professor of Physics.

Lee A. Smithey, B.A., Emory University; M.A., Ph.D., University of Texas-Austin, Professor of Peace and Conflict Studies.

Eric Song, B.A., Pomona College; M.A., University of Chicago; Ph.D., University of Virginia, Associate Professor of English Literature.

Ameet Soni, B.S., University of Michigan-Ann Arbor; M.S., University of Wisconsin-Madison; Ph.D., University of Wisconsin-Madison, Assistant Professor of Computer Science.

Lori Sonntag, B.A., Mount Holyoke College, Laboratory Instructor of Chemistry and Biochemistry.

Kirsten E. Speidel, B.A., Oberlin College; M.A., Johns Hopkins University, Senior Lecturer in Chinese.

Thomas A. Stephenson, B.S., Furman University; Ph.D., University of Chicago, James H. Hammond Professor of Chemistry and Biochemistry.

K. Elizabeth Stevens, B.A., Reed College; M.F.A., Yale School of Drama, Associate Professor of Theater.

Nicole Stowell, B.A., Our Lady of the Lake University; M.S., Thomas Jefferson University, Laboratory Instructor of Biology.

I Nyoman Suadin, Associate in Performance (Music and Dance).

Atsuko Suda, B.A., Obirin University, Tokyo, Japan; M.A., University of Arizona, Lecturer in Japanese.

Laila Swanson, B.A., Trondheim School of Business, Trondheim, Norway; M.F.A., Temple University, Assistant Professor of Theater.

Janet C. Talvacchia, A.B., M.A., Bryn Mawr College; Ph.D., University of Pennsylvania, Professor of Mathematics.

Ron Tarver, B.A., Northeastern State University, Instructor of Art.

Jonny Thakkar, B.A, Oxford University; Ph.D., University of Chicago, Assistant Professor of Political Science.

Barbara Thelamour, B.A., Emory University; Ph.D., Michigan State University

Krista Thomason, B.A., University of North Carolina-Greensboro; M.A., Ph.D., University of Illinois-Urbana-Champaign, Associate Professor of Philosophy.

Jamie A. Thomas, A.B., Washington University in St. Louis; Ph.D., Michigan State University, Assistant Professor of Linguistics.

Suzanne M. Thornton, B.S., University of Florida; Ph.D., Rutgers University, Visiting Assistant Professor of Statistics.

Dominic Tierney, B.A., M.Phil., Ph.D., Oxford University, Associate Professor of Political Science.

Alex Torra, B.A., University of Pennsylvania; M.F.A., Brown University, Visiting Assistant Professor of Theater.

William N. Turpin, M.A., University of St. Andrews; M.A., University of Toronto; Ph.D., Cambridge University, Professor of Classics.

Richard Valely, B.A., Swarthmore College; Ph.D., Harvard University, Claude C. Smith, Class of 1914, Professor of Political Science.
13.3 Divisions, Departments, and Programs

Below are the divisions of the college for administrative purposes; for the purposes of the distribution graduation requirement see section 7.2.

13.3.1 Division of the Humanities
William Turpin, Chair

Art and Art History
Patricia Reilly, Chair

Classics
Grace Ledbetter, Chair

English Literature
Elizabeth Bolton, Chair

Film and Media Studies
Patricia White, Chair

Modern Languages and Literatures
Hansjakob Werlen, Chair

Music and Dance
Pallabi Chakravorty, Chair
13 Faculty and Other Instructional Staff

**Philosophy**
Alan Baker, Chair

**Religion**
Yvonne Chireau, Chair

**Spanish**
Luciano Martínez, Chair

**Theater**
K. Elizabeth Stevens, Chair

**13.3.2 Division of the Natural Sciences and Engineering**
Deborah Bergstrand, Chair

**Biology**
Nicholas Kaplinsky, Chair

**Chemistry and Biochemistry**
Liliya A. Yatsunyk, Chair

**Computer Science**
Lisa Meeden, Chair

**Engineering**
Matthew Zucker, Chair

**Mathematics and Statistics**
Aimee Johnson, Chair

**Physics and Astronomy**
David Cohen, Chair

**Psychology**
Jane E. Gilham, Chair

**13.3.3 Division of the Social Sciences**
Ann Renninger, Chair

**Classics**
Grace Ledbetter, Chair

**Economics**
Stephen O’Connell, Chair

**Educational Studies**
Diane Anderson, Chair

**History**
Robert Weinberg, Chair

**Linguistics**
Theodore Fernald, Chair

**Political Science**
Keith Reeves, Chair

**Psychology**
Jane E. Gilham, Chair

**Sociology and Anthropology**
Farha Ghannam, Chair

**13.3.4 Interdisciplinary Programs**
Gwynn Kessler, Chair

**Asian Studies**
Steven Hopkins, Coordinator

**Black Studies**
Anthony Foy, Coordinator

**Cognitive Science**
Frank Durgin, Coordinator

**Comparative Literature**
Richard Eldridge, Coordinator

**Environmental Studies**
Carr Everbach, Coordinator

**Gender and Sexuality Studies**
Bakirathi Mani, Coordinator

**Global Studies**
Carina Yervasi, Coordinator

**Interpretation Theory**
Sibelan Forrester, Coordinator

**Islamic Studies**
Tariq al-Jamil, Coordinator

**Latin American and Latino Studies**
Nanci Buiza, Coordinator

**Medieval Studies**
Craig Williamson, Coordinator

**Peace and Conflict Studies**
Krista Thomason, Coordinator

---

13.4 Standing Committees of the Faculty

- Academic Assessment Committee
- Academic Requirements
- Aydelotte Foundation Steering Committee
- Advisory Committee on Faculty Diversity and Excellence
- Faculty Advisory Council to Dean of Admissions
- Council on Educational Policy
- Committee on Faculty Procedures
- Curriculum Committee
- Fellowships and Prizes
- Health Sciences Advisory Committee
- Honors Program Advisory Committee
- ITS Committee
- Lang Center Advisory Board
- Library
- Mellon Mays Advisory Committee
- Physical Education and Athletics Advisory Committee
- Promotion and Tenure
- Research Ethics
- Teacher Education Committee
- Writing Program Advisory Committee

---

13.5 Other Committees with Faculty Representation

- Advisory Council to the Dean
- College Budget Committee
- College Judiciary Committee
- Cooper Foundation Committee
- Crum Woods Stewardship Committee
- Equal Opportunity Advisory Committee
- Faculty and Staff Benefits
- Honorary Degrees
- Howard Hughes Medical Institute
- Institutional Animal Care and Use Committee
- Off Campus Study
- Public Safety Advisory Committee
- Sager
- Social Responsibility
- Sustainability Committee
- Swarthmore Foundation
- Transportation and Parking Committee
- Work Life Initiatives Committee
14 Administration

14.1 Administrative Structure

President
   President
   Chief of Staff and Secretary of the College
   Sustainability
   Title IX

Vice President and Dean of Admissions
   Admissions

Interim Vice President for Communications
   Communications Office

Vice President for Advancement
   Advancement Services
      Advancement Systems
      Alumni and Gift Records
   Alumni Relations
   Development
      Alumni and Parent Engagement
      Individual Giving
      Donor Relations
   Advancement Research
   Sponsored Programs
   Institutional Relations

Vice President for Finance and Administration
   Assistant Vice President for Finance and Controller
      Business Office
      Occupational and Environmental Safety
   Assistant Vice President for Auxiliary Services
      Dining Services
      Events & Summer Programs
      Lang Performing Arts Center
      Office Services
      OneCard
      Post Office
      The Inn at Swarthmore
      Swarthmore Campus and Community Store
   Financial Aid Office
   Institutional Research

14.2 Admissions Office

James L. Bock III, B.A., Swarthmore College; M.Ed., University of Virginia, Vice President and Dean of Admissions.

Yvetta Moat, Administrative Coordinator.

J.T. Duck, B.A., Haverford College; M.Ed., Harvard University, Director of Admissions.

Zarinah James, B.A., Brown University; M.S.Ed., University of Pennsylvania, Associate Dean of Admissions.

Andrew Moe, B.A., Arizona State University; M.Ed, Vanderbilt University; Ed.D., University of Pennsylvania, Associate Dean of Admissions.
Windsor L. Jordan, Jr., B.A., Swarthmore College; M.A., Lehigh University, Senior Assistant Dean of Admissions.

Daniel Wittels, B.A., Tufts University; M.S.Ed., University of Pennsylvania, Senior Assistant Dean of Admissions.

Brenna Heintz, B.A., Tufts University; M.S.Ed., University of Pennsylvania, Assistant Dean of Admissions.

Josh Throckmorton, B.A., Occidental College, Assistant Dean of Admissions.

Chris Capron, B.A., Swarthmore College, Admissions Counselor.

Brenna Heintz, B.A., Tufts University; M.S.Ed., University of Pennsylvania, Assistant Dean of Admissions.

Youkun Zhou, B.A., Haverford College, Admissions Counselor.

Margaret T. Kingham, B.A., Mary Washington College, Admissions Officer.

Margaret Ralph, Systems Support Analyst.

Demetria Hamilton; Sharon Hartley, A.A., Neumann College; Stacy Jordan; Susan Wigo, Administrative Assistants.

### 14.3 Advancement

Karl W. Clauss, B.A., Colgate University, Vice President, Advancement.

Donald R. Cooney, B.A., Gettysburg College, Associate Vice President.

Deborah Scheiner, B.A., Washington University in St. Louis, M.S. Rosemont College, Administrative Coordinator.

Daniel Alania, B.A., University of North Carolina, Greensboro: M.F.A., University of North Carolina, Wilmington, Director.

Michelle Crouch, B.A., Swarthmore College, M.L.I.S., University of Pittsburgh, M.F.A., University of North Carolina - Wilmington, Associate Director, Prospect Development.

Abigail Komlenic, B.A. Franklin & Marshall College, Associate Director, Advancement Analytics.

Dierdre W. Konar, B.S., Babson College; M.S., Drexel University, Director.

Jason Ebersole, B.A., Muhlenberg College; M.S., University of Pennsylvania, Associate Director.

Barbara Mann, B.S., West Chester University, Senior Associate Director.

Rachelle N. Miclette, B.A., American University, Assistant Director, Advancement Systems.

### Alumni and Gift Records

Ruth Krakower, B.F.A., University of Hartford, Hartford Art School, Director.

Trish Tancredi, Senior Gift Information Specialist.

Marianne Kennedy, Gift Recorder.

Catherine Powell, B.S., Rosemont College, Alumni Recorder.

Andrea Rincon, B.A., Rutgers University, M.S., Drexel University, Alumni Recorder.

Theresa Rodriguez, Administrative Assistant.

### Alumni and Parent Engagement

Lisa Shafer, B.A., Wilkes University; M.A, West Chester University, Senior Director.

Alexandria L. Craig, B.S., B.A., Gettysburg College, Senior Associate Director, Volunteers.

Caitlin Halloran Edwards, B.A., UNC Asheville, Assistant Director, Volunteers.

Nick Forrest, B.A., Swarthmore College, Assistant Director, Marketing.

Katie Kuzoian, B.A., Villanova University, M.Ed., Temple University, Assistant Director, Alumni and Parent Engagement.

Marty Roelandt, B.F.A., Wright State University, Associate Director, Volunteers.

Molly Scott, B.A., Goucher College, Senior Associate Director, Events.

Geoff Semenuk, B.A., University of Delaware, Associate Director, Events.

Patton Vo, B.A., Widener University, Assistant Director, Marketing.

Fritz Ward, B.A., Eckerd College; M.F.A., University of North Carolina-Greensboro, Senior Associate Director, Marketing.

Esther Wieman, M.A., Utrecht University, Associate Director, Events.

Maddie LeSage, B.A. Ursinus College; M.Ed. Temple University, Administrative Assistant, Events.

Deborah J. Mulligan, Administrative Assistant, Marketing.

Carol Stuart, Administrative Assistant, Volunteers.

### Individual Giving and Donor Relations

Mike Gillum, B.A., Furman University, Senior Director, Individual Giving & Donor Relations.

Robert Alford, B.A., Swarthmore College; Ph.D. University of California, Berkeley, Associate Director, Donor Relations.

Renee P Atkinson, B.A., Neumann University, Associate Director, Individual Giving.

Sue Brennan, B.A., Shippensburg University, Assistant Director, Individual Giving.
Maura Demming, B.A. State University of New York Fredonia, M.A. Syracuse University, Associate Director, Individual Giving.

David Eldridge, B.A., Swarthmore College, M.S.W./Ph.D., University of Pennsylvania, M.S.Ed., St. Joseph's University, Associate Director, Individual Giving.

Bradley J. Kane, B.A., Franklin & Marshall College, M. Ed., Vanderbilt University, Associate Director, Individual Giving.

Susie Kwon, B.A., Smith College, Assistant Director, Individual Giving.

Susan Lathrop, B.A., Wellesley College; M.Ed., Smith College; B.S., University of Delaware, Associate Director, Individual Giving.

Liam McAlpine, B.A., Wesleyan University, Director, Individual Giving.

Brian T. Myers, B.A. Gettysburg College; M.A. University of Maryland, College Park, Associate Director, Individual Giving.

Anne O'Donnell, B.M., Bucknell University, M.M., University of Wisconsin-Madison, Associate Director, Individual Giving.

Nikki Senecal, A.B., Bryn Mawr College; Ph.D., University of Southern California, Director, Donor Relations.

Julie DiPietro, Administrative Assistant, Individual Giving and Donor Relations.

Institutional Relations

David M. Foreman, B.A., M.A., West Virginia University, Director.

Sponsored Programs

Tania Johnson, B.A., M.A., University of Pennsylvania, Director.

Joseph Watson, B.S. West Chester University; M.S. Neumann University, Associate Director.

Tarsia Duff, A.A., Delaware County Community College, Lead, Office Services.

Vincent J. Vagnozzi, B.S., West Chester University, Supervisor, Post Office.

14.5 Campus and Community Store (Swarthmore)

Paula Dale, B.A., Wake Forest University; M.A., University of North Carolina-Chapel Hill, Director.

Erica Considine, B.A., West Chester University, Assistant Director.

Michael Harper, Operations Manager.

14.6 Career Services

Nancy Burkett, B.A., M.A., University of Tennessee; Ed.S., College of William and Mary, Director.

Erin Massey, B.A., Kutztown University; M.Ed., Widener University, Senior Associate Director.

Jennifer Barrington, B.A., Gettysburg College; M.Ed., University of Delaware, Associate Director, Career Development (job share).

Kristie Beucler, B.A., Gettysburg College; M.S., West Chester University, Associate Director, Career Development (job share).

Pattie Kim-Keefer, B.A., Haverford College; M.S.Ed., University of Pennsylvania, Associate Director, Technology and Assessment.

Jackie Moriniere ’12, B.A., Swarthmore College; M.Ed., Drexel University, Assistant Director, Employer Relations.

Lisa Maginnis, Administrative Assistant.

Michelle Hall, Program Assistant.

14.7 Communications Office

Alisa Giardinelli, B.A., Pennsylvania State University; M.A., Temple University, Interim Vice President for Communications.

Mark Anskis, B.A., Susquehanna University; M.J., Temple University, Interim Director of Communications.

Kate Campbell, B.A., Temple University, Managing Editor of the Swarthmore College Bulletin.

Roy Greim, B.A., Swarthmore College, Assistant Director of Communications.

Mike Kappeler, B.A., Stockton University, Front End Web Developer.

Laurence Kesterson, U.S. Army/Air Force Still Photographic Specialist School, Photographer/Videographer.
14 Administration

Steven Lin, B.A., University of Maryland, Web Designer.
Jennifer Piddington, B.A., Long Island University, Interim Assistant Secretary of the College and Administrative Coordinator.
Jonathan Riggs, B.A., University of Kentucky; M.F.A., University of Southern California, Editor of the Swarthmore College Bulletin.
Alexandra Sastre, B.A., Swarthmore College; M.A., Ph.D., University of Pennsylvania, Senior Associate for Internal Communications.
Elizabeth Slocum, B.J., University of Texas at Austin, Writer/Editor and Class Notes Editor of the Swarthmore College Bulletin.
Phillip Stern, B.A., Swarthmore College; M.F.A., University of Pennsylvania, Associate Director for Design; Designer of the Swarthmore College Bulletin.
Emily Weisgrau, B.A., Vassar College; M.A., American University, Director of Advancement Communications.
Amanda Whitbred, B.A., Lafayette College, Associate Director of Advancement Communications.

14.8 Controller’s Office

Business Office
Alice Turbiville, B.A., New School University; M.B.A., Drexel University; C.P.A., Assistant Vice President for Finance & Controller
Joseph Cataldi, B.S., LaSalle University; M.B.A., LaSalle University, Associate Controller
Beth Baks, B.S., Shippensburg State College; M.B.A., St. Joseph’s University, Associate Controller
Robert Lopresti, B.S., Rutgers; C.P.A., Director, Finance and Administration Business Process
Ernest Wright, B.A. Haverford College; M.A.L.D., Fletcher School, Tufts University, Director of Budget and Planning
Denise A. Risoli, B.S., LaSalle University, Senior Accountant
Christie Ashton, B.A., Linfield College, Staff Accountant
Patricia Braun, Senior Buyer for Facilities
Patricia Hearty, PCARD Administrator/Buyer
Barbara Turner, Accounts Payable Coordinator
Deborah McGinnis, Accounts Payable Clerk
Nancy Kremmel, Accounting Assistant and Cashier

Student Accounts
Linda Weindel, Student Accounts Manager
Maria McBride, Student Accounts Assistant

Occupational and Environmental Safety

Virginia (Jinny) Schiffer, A.B., Smith College; M.S., Temple University, Environmental Health and Safety Officer

14.9 Counseling and Psychological Services (CAPS)
David Eric Ramirez, B.A., M.A., Ph.D., University of Texas, Director.
Stacy Green, B.A., Ithaca College; M.S.S, Ph.D., Bryn Mawr College Graduate School of Social Work and Social Research, Clinical Social Worker & Social Work Supervisor.
Heejin Kim, B.A., M.A., Chung-Ang University, Seoul, Korea; M.A., Ph.D., Bryn Mawr College, Clinical Psychologist and Assessment Supervisor.
Dawn Philip, B.A., University of California at Los Angeles; J.D., City University of New York; M.S.W., University of Maryland, Clinical Community Liaison.
Diane C. Shaffer, B.A., M.A., Trinity College; Psy.D., Immaculata University, Clinical Psychologist & Groups Coordinator.
Joseph C. Hewitt, B.A., University of Pennsylvania; D.O., University of Medicine and Dentistry, New Jersey School of Osteopathic Medicine, Consulting Psychiatrist.

Roxanne Lucchesi, B.A., Cabrini College, Technical Services Specialist.
Danie Martin, B.A., B.S., Ohio State University; M.L.S., Kent State University, Technical Services Specialist.
Alison J. Masterpasqua, B.S., Millserville State College, Access and Lending Services Supervisor.
Joanne McCole, B.A., Pennsylvania State University, Access and Lending Services Supervisor.
Amy McColl, B.A., University of Delaware; M.L.S., Drexel University, Assistant Director for Collections and TriCollege Consortium Licensing Librarian.
Kerry McElrone, B.A., Saint Joseph's University, Interlibrary Loan Specialist.
Annette Newman, B.A., The Evergreen State College, Assistant to the College Librarian.
Roberto Vargas, B.A., Knox College; M.L.I.S., Drexel University, Research Librarian for Humanities & Interdisciplinary Studies.
Sandra M. Vermeychuk, B.A., Swarthmore College; M.S. in Ed., University of Pennsylvania, Interlibrary Loan Services Coordinator.
Ken Watts, Book Van Driver.
Barbara J. Weir, B.S., Pennsylvania State University; M.L.S., Drexel University, Associate College Librarian for Technical Services & Digital Initiatives.

14.23.2 Friends Historical Library
Jordan Landes, B.A., Haverford College; M.A., M.L.S., University of Maryland, College Park; Ph.D. University of London, Curator.
Celia Caust-Ellenbogen, B.A., Swarthmore College; M.L.I.S., University of Pittsburgh, Archivist.
Emily Higgs, B.A., Rice University; M.S.I.S., University of Texas at Austin, Digital Archivist.
14 Administration

Patricia Chapin O'Donnell, B.A., M.A., University of Pennsylvania; M.A., University of Delaware, Archivist.

Susanna K. Morikawa, B.A., Dickinson College; M.F.A., Ph.D., Syracuse University, Archival Specialist.

Mary Beth Sigado, B.M., Temple University; M.S.W., Widener University, Cataloging and Metadata Librarian.

J. William Frost, B.A., DePauw University; M.A., Ph.D., University of Wisconsin, Howard M. and Charles F. Jenkins Professor Emeritus of Quaker History and Research.

Honorary Curators of the Friends Historical Library

14.23.3 Swarthmore College Peace Collection

Wendy E. Chmielewski, B.A., Goucher College; M.A., Ph.D., State University of New York, Binghamton, George R. Cooley Curator.

Emily Higgs, B.A., Rice University; M.S.I.S., University of Texas at Austin, Digital Archivist.

Mary Beth Sigado, B.M., Temple University; M.S.W., Widener University, Cataloging and Metadata Librarian.

Anne Yoder, B.A., Eastern Mennonite College; M.L.S., Kent State University, Archivist.

Advisory Council of the Swarthmore College Peace Collection

Harriet Hyman Alonso, Kevin Clements, John Dear, Donald B. Lippincott.

14.24 List Gallery

Andrea Packard, B.A., Swarthmore College; Certificate, Pennsylvania Academy of the Fine Arts; M.F.A., American University, Director.

14.25 Off-Campus Study Office

Jeremy Lefkowitz, B.A., University of North Carolina at Chapel Hill; M.A., Washington University in St. Louis; Ph.D., University of Pennsylvania, Associate Professor of Classics., Faculty Adviser for Off-Campus Study.

Patricia C. Martin, B.A., Williams College; M.A., School for International Training, Director for Off-Campus Study.

Sharlene Casado García, B.A., Ithaca College, M.S.Ed University of Pennsylvania, Study Abroad Associate

Diana R. Malick, B.S., Neumann University, Administrative Assistant for Off-Campus Study.

14.26 Office of the General Counsel

Sharmaine B. LaMar, B.S., St. Joseph's University; J.D., University of Richmond, General Counsel.

Elizabeth B. Pitts, B.F.A., Philadelphia College of Art; J.D., Widener University School of Law, Assistant General Counsel.

Christopher J. Kelly, B.S., Drexel University, Paralegal.

14.27 President’s Office

Valerie A. Smith, B.A., Bates College; M.A., Ph.D., University of Virginia, President of the College.

Jenny Gifford, Administrative Coordinator.

Chelsea Hicks, B.A., Swarthmore College, Special Assistant for Presidential Initiatives.

Edward P. Rowe, B.A., Pennsylvania State University; M.S., University of Denver, Chief of Staff and Secretary of the College.

14.28 Program on Urban Inequality and Incarceration (Formerly Center for Social and Policy Studies)

Keith W. Reeves, B.A., Swarthmore College; Ph.D., University of Michigan, Faculty Director.

Margaret O’Neil, B.A., Swarthmore College, UII Engagement Fellow and Teaching Assistant.

Nina Johnson, B.A., University of Pennsylvania; M.A., New York University; Ph.D., Northwestern University, Inside-Out Course Instructor.

Ellen Ross, B.A., Princeton University; M.A., Ph.D., University of Chicago, Inside-Out Course Instructor.

14.29 Provost’s Office

Sarah Willie-LeBreton, B.A. Haverford College; M.A., Ph.D., Northwestern University, Provost and Professor of Sociology.

Lynne Steuerle Schofield, B.A., Swarthmore College; M.S., MPhil, Ph.D., Carnegie Mellon University, Associate Provost for Faculty Diversity and Development and Associate Professor of Statistics.

Jean-Vincent Blanchard, B.A., M.A., Université de Montréal; Ph.D., Yale University, Associate Provost for Educational Programs and Professor of French.

Marcia C. Brown, B.A., Villanova University; M.Ed., University of Pennsylvania, Executive Assistant to the Provost.

Kim Fremont, B.S., St. Joseph's University; M.A., George Washington University; Ph.D., Temple University, Special Assistant to the Provost, Administration and Divisional Programs.
14 Administration

Robin H. Shores, B.A., M.A., Ph.D., University of Delaware, Assistant Vice President for Institutional Effectiveness and Assessment, Assistant Secretary of the College.

Cathy Pescatore, Administrative Coordinator
Joanne Kimpel, Administrative Coordinator
Debbie Thompson, Administrative Coordinator

14.30 Public Safety

Michael J. Hill, B.A., University of Pennsylvania, CPP, Director of Public Safety.

Sam Smemo, B.S., Florida State University; M.S., Long Island University, Director of Operations,

Osmond Mbaeri, B.A., Widener University, Patrol Sergeant

Kathy Agostinelli, Gina Goodwin, Keya Miah, Joseph Theveny, Robert Warren, Patrol Corporals.

Nicholas Borak, Drew Frescoln, Greg Hartley, George Iredale, Thomas Kincade, John McCans, Desmond McNeill, Montea Roundtree, Bob Stephano, Ben Trexler, Public Safety Officers.

George Darbes, Security Systems & Training Administrator

Mary Lou Lawless, Assistant to the Director of Public Safety & Office Manager

Sandra Briggs-Edwards, Alissa Dyitt, Tom Johnson, Brandi Jones, Peter Montesino, Erin Northcutt, Marcella Pringle, Michelle Wollman, Communications Center.

Robert Bennett, Joseph Cardella, John Furey, Clifton Madison, Joe McSwiggan, Joseph Phillips, Mark Swaney, Zach Witman, Shuttle Drivers

Meghan Browne, Administrative Assistant

14.31 Registrar’s Office

Martin O. Warner, B.A., University of North Carolina at Chapel Hill; M.A., Duke University, Registrar.

Lesa Shieber, B.S., Tuskegee University; M.A., Virginia Polytechnic Institute and State University, Associate Registrar.

Jenna Hunt, Assistant Registrar.

Jana Judge, Assistant Registrar.

14.32 The Scott Arboretum

Josh Coceno, B.S. and M.S. Virginia Polytechnic Institute and State University, Horticulturist.

Jody Downer, A.A.S., Drexel University, Administrative Assistant.

Jeff Jabco, B.S., Pennsylvania State University; M.S., North Carolina State University, Horticultural Coordinator.

Julie Jenney, B.A., University of Oregon, Educational Programs Coordinator.

Sue MacQueen, B.S. Temple University; B.A. Ohio Wesleyan University, Campus Engagement Coordinator.

Rebecca Robert, B.S., M.S., Pennsylvania State University, Member and Visitor Programs Coordinator.

Claire Sawyers, B.S., M.S., Purdue University; M.S., University of Delaware, Director.

Mary Tipping, M.S., Temple University; M.S. University of Illinois, Curator

Jacqui West, Administrative Coordinator.

14.33 Secretary of the College

Edward P. Rowe, B.A., Pennsylvania State University; M.S., University of Denver, Chief of Staff and Secretary of the College.

Robin H. Shores, B.A., M.A., Ph.D., University of Delaware, Assistant Vice President for Institutional Effectiveness and Assessment, Assistant Secretary of the College.

14.34 Sustainability

Aurora Winslade, B.A., University of California Santa Cruz; M.B.A., Fuqua School of Business, Duke University, Director of Sustainability.

Melissa Tier, B.A., Swarthmore College, Sustainability Program Manager.

14.35 Title IX Office

Bindu Kolli Jayne, B.A., Cornell University; J.D., University of Pennsylvania Law School, Title IX Coordinator.

Kathleen Withington, B.A., St. Joseph’s University, Administrative Assistant.

14.36 Academic Administrative Assistants and Technicians

Art and Art History: Stacy Bomento, B.A., LaSalle University, Slide Curator; Meg Gebhard, B.S., Kutztown University, Administrative Assistant; Doug Herren, B.F.A., Wichita State University; M.F.A., Louisiana State University, Studio Technician.

Asian Studies: Molly Lawrence, Administrative Assistant.

Biology: Matt Powell, B.S., Central Michigan University, Administrative and Technology Manager; Diane Fritz, Administrative Coordinator; John Kelly, A.A.S., Community College of Philadelphia; B.S., Wharton School, University of Pennsylvania, Senior Technical Specialist; Gwen Kannapel, B.S., Denison University; M.E., Widener University, Laboratory Coordinator; Kendra Ashenfelder, B.S., Delaware Valley University, Animal Facilities Manager.
Black Studies: Molly Lawrence, Administrative Assistant.

Chemistry and Biochemistry: Catherine Cinquina, Administrative Assistant; Ian P. McGarvey, B.S., Temple University, Scientific Instrumentation Specialist.

Classics: Deborah Sloman, Administrative Assistant.

Cognitive Science: Molly Lawrence, Administrative Assistant.

Computer Science: Kathleen Reinersmann, Administrative Assistant; Jeffrey M. Knerr, B.S., College of William and Mary; M.S., Ph.D., University of North Carolina, Lab/System Administrator. Lauri Courtenay, Academic Coordinator.

Economics: Megan Salladino, B.S., Widener University, Administrative Assistant.

Educational Studies: Ruthanne Krauss, Administrative Assistant.

English Literature: Catherine Roeder, B.A., Pennsylvania State University; M.Ed., Pennsylvania State University, Administrative Assistant.

Engineering: Cassy Burnett, Administrative Coordinator; Edmond Jaoudi, B.S., Fairleigh Dickinson University; M.Arch., Virginia Polytechnic Institute and State University, Electronics, Instrumentation, and Computer Specialist; James Johnson, Machinist; Ann Ruether, B.S., Swarthmore College, Academic Support Coordinator

Environmental Studies: Cassy Burnett, Administrative Coordinator.

Film and Media Studies: Catalina Lassen, Administrative Assistant.

Gender and Sexuality Studies: Molly Lawrence, Administrative Assistant.

History: Jennifer Moore, B.A., University of Pennsylvania; M.S.Ed., University of Pennsylvania, Administrative Assistant.

Interpretation Theory: Molly Lawrence, Administrative Assistant.

Islamic Studies: Anita Pace, Administrative Assistant.

Latin American and Latino Studies: Molly Lawrence, Administrative Assistant.

Linguistics: Jeremy Fahringer, B.A., Swarthmore College, Phonetics Lab Coordinator; Dorothy Kunzig, Administrative Assistant.

Mathematics and Statistics: Stephanie J. Specht, Administrative Assistant; Danielle Ledford, B.S., York College of Pennsylvania, M.S., University of Vermont, Academic Support Coordinator.

Modern Languages and Literatures: Suzanne McCarthy, Administrative Assistant; Bethanne Seufert, B.A., Penn State University, Administrative Assistant; Michael Jones, B.A., State University of New York, Buffalo, Director, Language and Media Centers; John Word, B.A., San Francisco State University, Language Media Center Technologist/Multi-Media Editor.

Music and Dance: Hans Boman, B.M., Philadelphia College of Performing Arts, Dance Program Accompanist; Bernadette Dunning, Administrative Coordinator; Susan Grossi, Administrative Assistant; Jeannette Honig, Director of Concert Programming, Production and Publicity (Music); Tara Nova Webb, B.A., Swarthmore College; M.A., New York University, Arts Publicity and Costume Shop Supervisor.

Peace and Conflict Studies: Molly Lawrence, Administrative Assistant.

Philosophy: Donna Mucha, Administrative Assistant.

Physical Education and Athletics: Nnenna Akotaobi, B.S./B.A., University of Denver, Associate Director of Athletics, Senior Woman Administrator, Deputy Title IX Coordinator; Marian Fahy, A.S., Delaware County Community College, Sharon J. Green, Administrative Assistants; Kyle Kondor, M.B.A. Ashland University, B.A. Indiana University, B.S. Indiana University, Communications Assistant; Brandon Hodnett, M.A. Villanova University, B.A. Bob Jones University, Director Athletic Communications; Marie Mancini, A.T.C., B.S., C.C.C.S., West Chester University; Allison Hudak, A.T.C., West Chester University; Maxwell Miller, M.S., Texas State University, B.S., Rutgers, the State University of New Jersey, Assistant Director of Athletics for Recreation & Wellness; Chris McPherson. B.S., Temple University, Sports Performance and Matchbox Fitness Center Coordinator; Michelle Pifer, Assistant Strength and Conditioning Coach; Larry Yannelli, B.A., Widener University, Equipment/Facilities Manager.

Physics and Astronomy: Carolyn Warfel, A.S., Widener University, Administrative Assistant; Paul Jacobs, B.S., Georgia Institute of Technology; M.S., Ph.D., University of Michigan, Instrumentation Technician; Steven Palmer, Machine Shop Supervisor.

Political Science: Gina Ingiosi, Deborah Sloman, Administrative Assistants.

Psychology: Kathryn Timmons, Administrative Coordinator; Kim Ngan Hoang, B.A. Gustavus Adolphus College, Research Manager & Academic Assistant; Peiyao Chen, B.A., Fuzhou University (China); M.S., Beijing Normal University (China); M.A., Northwestern University; Research Fellow, Psychology Department.

Religion: Anita Pace, Administrative Assistant.

Sociology and Anthropology: Stacey Hogge, B.S. West Chester State University, Administrative Assistant.
14 Administration

Theater: Scott Cassidy, B.A. Wilkes University, Production Manager & Technical Director; Michael Lambui, B.F.A., University of the Arts, Production Intern; Jean Tierno, B.A., J.D., Widener University, Administrative Assistant; Tara Nova Webb, B.A., Swarthmore College; M.A., New York University, Costume Shop Manager.

Writing Associates Program: Joanne Mullin, Administrative Assistant.
15 Visiting Examiners

2019 Visiting Examiners

Art
Matthew Bollinger, Purchase College
Anne Byrd, Whitney Museum
Bevin Engman, Colby College
Mary Shepard, University of Arkansas, Fort Smith

Biology
Regina Baucom, University of Michigan
Tyrrell Conway, Oklahoma State University
Kathleen Lynch, Hostra University
Xin Li, University of Rochester Medical Center
Angela Poole, Berry College
Albreto Stolfi, Georgia Institute of Technology
Matthew Willmann, Cornell University

Black Studies
Joel Blecher, George Washington University
Gordon Lewis, University of Connecticut at Storrs

Chemistry and Biochemistry
Wilfred Chen, University of Delaware
Bohdana Discher, University of Pennsylvania
School of Medicine
James Kovacs, University of Colorado, Colorado Springs
Koop Lammertsma, Vrije Universiteit Amsterdam
Christian Rojas, Barnard College

Classical Studies
Andrew Feldherr, Princeton University
Laura McClure, University of Wisconsin, Madison
Jacob Morton, Carleton College
Deborah Steiner, University of Toronto

Computer Science
Scott Alfeld, Amherst College
Eric Eaton, University of Pennsylvania
Adam Groce, Reed College
Julie Medero, Harvey Mudd College
Sam Taggart, Oberlin College
Cynthia Taylor, Oberlin College
Yi-Chieh Wu, Harvey Mudd College

Economics
Joshua Abel, Harvard University
Kate Ambler, International Food Policy Research Institute
Josh Dean, University of Bonn
Hongxing Liu, Lafayette College
Robert Murphy, Boston College
Gregory Nini, Drexel University
Melinda Petre, Williams College
Joseph Podwal, US Department of Justice
Antitrust Division
Muzhe Yang, Lehigh University

Educational Studies
Sigal Ben-Porath, University of Pennsylvania, Graduate School of Education
Elizabeth Buckner, University of Toronto
Roberto Gonzales, Harvard University, Graduate School of Education
Ilana Horn, Vanderbilt University, Peabosy School of Education
Tatyana Kleyn, City University of New York Graduate Center
Sonia Rosen, University of Pennsylvania
Chanelle Wilson-Poc, Bryn Mawr College

Engineering
Gonzalo Arce, University of Delaware
Youngmoo Kim, Drexel University
Izzetoglu Meltem, Villanova University
Christopher Rasmussen, University of Delaware
Jean Theurer, Voltus Inc.
Ryan Zurakowski, University of Delaware

English Literature
Sarah Lindsay, PACE Marketing Agency
Vicki Mahaffey, University of Illinois at Urbana-Champaign
Jill McCorkle, North Carolina State University
Asha Nadkarni, University of Massachusetts, Amherst
Harriet Pollack, College of Charleston
Simon Reader, College of Staten Island, CUNY
Jamie Taylor, Bryn Mawr College
Andrea Walkden, Queens College, CUNY
Isaiah Wooden, American University

Environmental Science
Robert Andrejewski, University of Richmond
Greta Gaard, University of Wisconsin, River Falls
Margaret Garcia, Arizona State University
Roger Karapin, Hunter College, CUNY

Film and Media Studies
Brandy Monk-Payton, Fordham University

Gender and Sexuality Studies
Ute Bettray, Lafayette College

History
Carol Benedict, Georgetown University
Annelle Curulla, Scripps College
John Lear, University of Puget Sound
Adele Lindenmeyr, Villanova University
Monica Patterson, Carleton University
Janice Reiff, University of California, Los Angeles
Timothy Stewart-Winter, Rutgers University, Newark
Jeremy Tai, McGill University
Rebecca Winer, Villanova University

Linguistics
Jane Chandlee, Haverford College
Lauren Collister, University of Pittsburgh
Christine Mallinson, University of Maryland, Baltimore County
Amanda Payne, Haverford College
Eric Rainey, University of Wisconsin, Madison
Kyle Rawlins, Johns Hopkins University
Alexander Williams, University of Maryland, College Park

Mathematics and Statistics
Marco Aldi, Virginia Commonwealth University
Rebecca Nugent, Carnegie Mellon University
Jeffrey Riedl, University of Akron
Stephen Robinson, Wake Forest University

Modern Languages and Literatures
William Granara, Harvard University
Jing Jiang, Reed College
Marjorie Salvodon, Suffolk University
15 Visiting Examiners

Bruno Thibault, University of Delaware
**Music and Dance**
Megan Flynn, Muhlenberg College

**Peace and Conflict Studies**
Phillip Ayoub, William James College
Jonathan Isham, Kent State University
Peter Redfield, Kennesaw State University

**Philosophy**
Rachel Barney, University of Toronto
Mavis Biss, Loyola University, Maryland
John Oberdiek, Rutgers Law School
Andrea Sholtz, Alvernia University
Gregg Strauss, University of Virginia
Claudine Verheggen, York University

**Physics and Astronomy**
Angela Capece, The College of New Jersey
Joshua Pepper, Lehigh University
Michael Schulz, Bryn Mawr College

**Political Science**
Ellen Donnelly, University of Delaware
Elizabeth Ferris, Georgetown University
Geoffrey Herrera, Pitzer College
Matthew Landauer, Princeton University
Robert Mickey, University of Michigan
Michael Pollack, Benjamin N. Cardozo School of Law Yeshiva University
Arthur Schmidt, Temple University
Jon Western, Mount Holyoke College
Annette Zimmermann, Princeton University

**Psychology**
Evelyn Behar, Hunter College, CUNY
Eunice Chen, Temple University
Daphna Heller, University of Toronto
Cheryl Dickter, College of William and Mary
Scott Eidelman, University of Arkansas
Charles Kalish, University of Wisconsin, Madison
Lynn Kirby, Temple University, School of Medicine
Matt Motyl, University of Illinois, Chicago
Jenny Saffran, University of Wisconsin, Madison
Florian Schwarz, University of Pennsylvania

**Religion**
Patrick Blanchfield, Brooklyn Institute for Social Research
Joel Blecher, George Washington University
Abigail Kluchin, Ursinus College

**Sociology and Anthropology**
Fida Adely, Georgetown University
Rachel Best, University of Michigan
Maura Finkelstein, Muhlenberg College
Charles Gallagher, LaSalle University
Juli Grigsby, Haverford College
Dustin Kidd, Temple University
Gary McDonogh, Bryn Mawr College
Anne Meneley, Trent University
Jess Newman, Temple University
Victor Ray, The University of Tennessee, Knoxville
Zainab Saleh, Haverford College

**Theater**
Gavin Witt, Centerstage
May 26, 2019

16 Degrees Conferred

16.1 Bachelor of Arts

Hanan Ali Ahmed, Psychology and Special Major in Peace & Conflict Studies
Judy Al, Mathematics and Political Science
Nicolas Castruita Aldaco, Environmental Studies and Economics
Daniel Paul Altieri, Environmental Studies and Economics
Bryan Alfredo Alvarez-Terrazas, Political Science and Economics
Nicholas Paul Ambiel, Biology
Celine Aziza Kaldas Anderson, Sociology & Anthropology
Nathan Robert Anderson, Art History
Dyami Rafn Andrews, Art and (Engineering)
Maxine Esi Atta Annoh, Biology
John Edward Arth, Economics
Jesse Thomas Atkins, English Literature
Ramish Azadzoi, Economics
Nathalie Ying Baer-Chan, Environmental Studies
Mariam Bahmane, Economics and (Engineering)
Elizabeth Ann Balch-Crystal, Political Science
Zelda Bank, Political Science
Julia Elisa Barbano, Biology
Emily Gower Barranca, Mathematics and Computer Science
Guillermo Barreto Corona, Biology
Maria Isabel Barros Guinle, Special Major in Neuroscience
Maximillian Cicero Barry, Art and (Engineering)
William Nicholas Barton, Philosophy
Tristan Beiter, English Literature and Special Major in Gender and Sexuality Studies
Daniel Micah O’Reilly Belkin, Physics
Casey Alexander Bennett, Economics
Ferial Ahmad Berjawi, Economics and Special Major in Peace and Conflict Studies
Elizabeth Patricia Berumen-Gonzalez, Psychology
Juan Alexander Best, Economics and Mathematics
Daniel Bidikov, Philosophy and Mathematics
Sierra Lyn Bienz, Linguistics
Byron A. Biney, Special Major in Computer Science and Educational Studies
Valerie Yuan Le Blakeslee, Political Science
Emily M. Bley, Mathematics and Psychology
Andrei Boiko, Economics
Douglass Boshkoff, Computer Science
Salim Bourguiba, Economics and Spanish
Kenneth Chang Bransdorf, English Literature
Marissa Marie Bredesen, Computer Science
Timothy Charles Brelig, English Literature
Michael Pierre Broughton II, Linguistics
Leah Elizabeth Brumgard, Computer Science and Art
Guihyun Cho Byon, Economics and Psychology
Naomi Rose Caldwell, History
Kyle Allen Campbell, Classical Studies and Biology
Kathleen Frances Carmichael, Special Major in Neuroscience
Amanda Taylor Carrillo, Sociology & Anthropology and Biology
Tobiah Acree Cavalier, Biology
Tessa Jalene Chambers, Political Science
David Wai Chan Jr., Film & Media Studies
Ethan Berman Chapman, Biology
Anna Livia Wen-Yuan Bransfield Chen, Special Major in History and Black Studies
Berlin Chen, Mathematics and Computer Science
Laura Chen, Economics and Computer Science
Stephanie Wei-Shan Chen, Political Science
Tianlu Chen, Computer Science
Wing Fung Chou, Computer Science and Mathematics
Tymoteusz Alan Chrzanowski, Linguistics
Alexa Caroline Clark, Chemistry and Computer Science
Jane Caroline Coats, English Literature
Margaret Elizabeth Cohen, Political Science
William Nathan Colgan, Biology and Computer Science
Richard Andrew Conti, Economics and Mathematics
Henry Adolph Cousineau IV, Economics and Psychology
Elise McKernon Cummings, Special Major in Neuroscience
Elizabeth Curcio, History and Economics
Melissa Joyce Curran, Biology
Ana Maria Curtis, English Literature and Economics
Aanya Priya Dalmia, Economics
Vamsi Arjun Damerla, Political Science and Economics
Maya Darst-Campbell, Psychology
Michael Scot Davinroy, Computer Science
Arthur Davis, English Literature and French
Seethalakshmi Halasyamani Davis, Special Major in Psychology and Educational Studies
Moniher Deb, Biology and Psychology
Jacob James Demree, Special Major in Medical Anthropology
Sky Noel Deswert, Psychology
Nicholas George DiMaio, Special Major in Interdisciplinary Chinese Studies and Economics
Chongmo Ding, English Literature
Yang Ding, Philosophy and Classical Studies
Alice S. Dong, Mathematics and Economics
Simona Margalit Dwass, Art and (Engineering)
Leo Elliott, Political Science
Conor John Elliott, Economics and Political Science
Elizabeth Jane Eppley, Psychology and Biology
Robert Adam Eppley, Biology and Political Science
Gabriel Etienne Evans, Sociology & Anthropology
Laela Ezra, Chemistry and Art
Zhicheng Fan, Philosophy and Mathematics
Henry Cooper Feinstein, Political Science
Nicole Sara Feldbaum, Computer Science and Classical Studies
Tobin Feldman-Fitzthum, Computer Science and Classical Studies
Thomas Russell Ferguson, Economics and Mathematics
Emily Katharine Ferrari, Biology
Elizabeth Marie Flores, Educational Studies and Biology
Natalie Courtney Flores Semyonova, Psychology
Maxwell Winter Franklin, Physics
Quinn Hagstrom Freedman, Psychology and Computer Science
Amos Frye, Economics and Environmental Studies
Erin Istra Fuhrmann, Chinese and Political Science
Allan Yang Gao, Biology
Saadiq Garba, Biology
James Steven Garcia, Art and Mathematics
Sam Elias Gardner, Film & Media Studies
Riya Singal Garg, Mathematics and Computer Science
Anna Leigh Garner, Political Science
Gillian Wallskog Gehri, Chemistry
Eleanor Rose Ghanbari, Psychology and Biology
Dakota Lee Gibbs, Philosophy and Economics
Sarah Girard, Mathematics and Political Science
Samantha Nicole Goins, Special Major in Environmental Policy
Julia Paula Gokhberg, Economics and Political Science
Morgin Goldberg, Sociology & Anthropology
Susan Celina Gonzalez, Special Major in Neuroscience
Zachary Noah Gonzalez, Computer Science
Louisa J. Grench, Sociology & Anthropology
Charles Hays Groppe, Biology
Jason Michael Guadalupe, Linguistics
Shuang Guan, Mathematics and Linguistics
Gilbert Guerra, Political Science
Shivani Gupta, Economics
Erick Alexis Gutierrez-Prado, Linguistics
Jamila Lynn Hageman, Sociology & Anthropology
Jonathan Hamel Sellman, Special Major in Political Science and Educational Studies
Evan Daerim Han, Economics
Hali Han, English Literature
Kyra Lynne Harvey, Biology
Benjamin George Hejna, Chemistry
Mark Mesropian Hergenroeder, Economics and Psychology
Shana Rachelle Herman, Special Major in Political Science, Conservation Biology, and Environmental Justice
Kelly Trinidad Hernandez, Art and Special Major in Interdisciplinary Race and Ethnicity Studies
Rodrigo Emilio Hernandez, Economics
McKenzie Lee Himelein-Wachowiak, Special Major in Neuroscience
Letitia Ho, Special Major in Neuroscience
Nhung Tuyet Thi Hoang, Computer Science
Connor Payton Hodge, Mathematics
Pascha Mei Lei Hokama, Biology
Cee Howe, Medieval Studies
Colin Clayton Howell, Chemistry and Mathematics
May Zin Htet, Economics and Art
Han Huang, Mathematics and Computer Science
Hunter Noel Hughes, Economics and Computer Science
Christina Hui, Political Science
Josephine Hung, Sociology & Anthropology
Jared Elias Hunt, Psychology
Rachel Muir Issacs-Falbel, Special Major in Dance and Anthropology
Amanda Grace Izes, Linguistics and Psychology
Arya Asdghig Jemal, Environmental Studies
Jasmine Jimenez, Religion
Roberto Jimenez Vargas, Special Major in Psychology and Educational Studies and Special Major in Peace and Conflict Studies
Alexander Jin, History and Special Major in Peace and Conflict Studies
John Griffin Johnston, Mathematics
Edward Harrison Jones, Classical Studies
Deondre Jordan, Chemistry
Pavan Kalidindi, Film & Media Studies and Economics
Mariko Joann Schwartz Kamiya, Mathematics
Lisa Kato, Economics and Special Major in Peace and Conflict Studies
Dylan Wyatt Katz, Economics
Rebekah Charley Katz, Psychology and Linguistics
Connor Austin Keane, Special Major in Cognitive Science
Umi Ilana Keezing, Psychology and Art
Emily Katherine Kennedy, Political Science
Simran Khanna, Economics and Political Science
Emily Mae Kibby, Special Major in Biochemistry and Spanish
Amy NaYoon Kim, English Literature
Gloria Kim, Economics
Juhyae Kim, Linguistics
Shakina Kimberly Kirton, Special Major in Peace and Conflict Studies
Chloe Lynn Klaus, Environmental Studies and Psychology
Melanie Alexandra Kleid, Linguistics and Sociology & Anthropology
Lauren Elizabeth Knudson, Political Science and Economics
Marion Manon Kudla, Greek
Theint Thinzar Kyaw, Computer Science
Noah Daniel Landay, Special Major in Philosophy of Language and Political Science
Elizabeth Yarrows Lanphear, Biology and Mathematics
Cedric Logan Lary, Special Major in Biology and Educational Studies
Natalie Paige LaScala, Biology and Environmental Studies
Zackary Shalom Watnik Lash, Special Major in Peace and Conflict Studies
John Patrick LaVigne, Psychology and Biology
Ashley My Phuong Le, Sociology & Anthropology and French & Francophone Studies
Matthew Carle Lee, Economics
Rachel Marie Leifield, Mathematics
Douglas Xavier Leonard, Economics and Mathematics
Charles Edward Levitt, Economics

So Jeong Lim, Political Science
Fuhui Lin, Mathematics and Computer Science
Noah Avery Linhart, Biology
Ellen Liu, Computer Science and Psychology
Henrik Liu, Economics and Computer Science
Natasha Lodhi, Economics
Ivan Ramses Lomeli, Computer Science
Amanda Lopez, Psychology
Marianne Sophie Lotter-Jones, Biology
Romeo Emmanuel Luevano, Sociology & Anthropology
Mandius Sessions Lundal, Economics
Yixuan Maisie Luo, Art
Michael Sirotta Lutzker, Psychology
Scott Hong Ma, History and French
Jessica Malisa, Special Major in Neuroscience
Abdul Aziz Mansaray, Computer Science
Maxwell Carson Gray Marckel, Biology
Anna Willson Marfleet, Art
Ryan William Marrone, Economics
Lee Andrew Martin Jr., Special Major in Urban Studies
Ashley Mankaa Mbah, Psychology
Marin Nicole McCoy, Biology
Michelle McEwen, Political Science
Killian McGinnis, Special Major in Peace and Conflict Studies
Katelyn Nicole McGlynn, Linguistics
Renan Meira Gascho, Special Major in Art, Media and Philosophy
Guinevere Xiao-ke Mesh, Biology and Art
Gabriel James Meyer-Lee, Special Major in Cognitive Science and (Engineering)
Julius Henry Miller, Economics and (Engineering)
Justin Addo Mintah, Biology and Economics
Sebastian Asiedu Mintah, Economics and Mathematics
Julia Mizrahi, Art
Sophia Patricia Guilfoyle Moody, Special Major in Neuroscience
Taylor Amy Morgan, Sociology & Anthropology
Julia Wray Morriss, Chemistry and Biology
Ryan Patrick Mulvey, Economics
Kevin Jerome Murphy, Mathematics and Linguistics
Bryan Richard Murray, Biology
Rohit Sheth Nair, Economics
Yasmeen Eliana Namazie, Political Science
Nerissa Nashin, Economics
Theresa Ng'andu, Economics
Lan Anh Ngo Quy, Mathematics and Computer Science
Diep Ngoc Ngoc Ngoc, Computer Science and (Engineering)
Jonas Nguyen, Computer Science and (Engineering)
Rebecca Norling-Ruggles, Computer Science
Mark Alexander Oet, Chemistry
Haruka Ono, Psychology
Gilbert Orbea, Political Science and Economics
Reed Isaac Orchinik, Economics
Martin Palomo Jr., History and Special Major in Peace and Conflict Studies
16 Degrees Conferred

Gabriella Anne Wadyko Pangelinan, Mathematics and Computer Science
Theodore Joonghyun Park, Computer Science
Matthew Francis Parker, Computer Science
Sarah Emily Parks, Environmental Studies
Sumera Patel, History and Biology
MacKenzie Kate Patterson, Psychology and English Literature

17 Distinctions, Awards, and Fellowships

17.1 Honors Awarded by the Visiting Examiners

Highest Honors
Naomi Rose Caldwell, Elise McKernon Cummings, Zhicheng Fan, Benjamin George Hejna, Alexander Jin, Julia Wray Morriss, Rebecca Esther Regan, David Benjamin Robinson, Kazuatsu Shimizu

High Honors

Honors
Sierra Lyn Bienz, Berlin Chen, Michael Scot Davinroy, Yang Ding, Amos Frye, Jasmine Jimenez, Edward Harrison Jones, Gloria Kim, Jessica Grace Li, So Jeong Lim, Janice Luo, Kevin Jerome Murphy, Rohit Sheth Nair, Theresa Ng’anfu, Garrett Mearthur Ruley, Nathaniel William Sandalow-Ash, Ganesh Setty, Simran Singh, Tennyson David Lindsay Teece, Benjamin Davis Warren, Cameron Alan Wiley, Giorgio Xie, Margaret Mei Zoz

Sigma Xi

Tau Beta Pi
Yosuke Higashi, Katherine Chiouhua Huang, Zachary Dylam Lamberty, Kyrstyn Sy Ong, Alison Hannah Rosenzweig, Thomas Patrick Sheehan, Chung Yuen Brandyn Yeung, Zhuoluon Zhao

17.2 Elections to Honorary Societies

Phi Beta Kappa
Elizabeth Ann Balch-Crystal, Daniel Micah O’Reilly Belkin, Douglass Boshkoff, Kathleen Frances Carmichael, Wing Fung Chou, Margaret Elizabeth Cohen, William Nathan Colgan, Aanya Priya Dalmia, Vamsi Arjun Damerla, Seethalakshmi Halasayamani Davis, Jacob James Demree, Yang Ding, Zhicheng Fan, Henry Cooper Feinstein, Nicole Sara Feldbaum, Julia Paula Gokhberg, Timothy Macdonald Greco, Shuang

17.3 Pennsylvania Teacher Certification
Sarah Caitlan Dobbs, Abigail Gomez, Brandon Torres, Zachary Raymond Yonda
17.4 Awards and Prizes

The Bruce Abernethy Community Service Award was created by Bruce Abernethy ’85 to support Swarthmore students, faculty, and staff involved in community service. Not awarded this year.

The Adams Prize is awarded each year by the Economics Department for the best paper submitted in quantitative economics. Awarded to Reed Orchinik ’19.

The Stanley Adamson Prize in Chemistry was established in memory of Stanley D. Adamson ’65. It is awarded each spring to a well-rounded junior majoring in chemistry or biochemistry, who, in the opinion of the department, gives the most promise of excellence and dedication in the field. Awarded to Kenji Yoshii ’20.

The American Chemical Society Scholastic Achievement Award is given to the student whom the Department of Chemistry and Biochemistry judges to have the best performance in chemistry and overall academic achievement. Awarded to Colin Howell ’19.

The American Chemical Society Undergraduate Award in Analytical Chemistry is awarded annually to the student whom the Chemistry and Biochemistry Department judges to have the best academic performance in analytical chemistry and instrumental methods. Awarded to Zachary O’Dell ’20.

The American Chemical Society Undergraduate Award in Inorganic Chemistry is awarded annually to the student whom the Chemistry and Biochemistry Department judges to have the best academic performance in inorganic chemistry. Awarded to Audra Woodside ’19.

The American Chemical Society Undergraduate Award in Organic Chemistry is awarded annually to the student whom the Chemistry and Biochemistry Department judges to have the best academic performance in organic chemistry. Awarded to Benjamin Hejna ’19.

The American Chemical Society Undergraduate Award in Physical Chemistry is awarded to the student whom the Chemistry and Biochemistry Department judges to have the best performance in physical chemistry. Awarded to Abigail Wong-Rolle ’19.

The American Institute of Chemists Student Honor Awards are given to students whom the Chemistry and Biochemistry Department judge to have outstanding records in chemistry and overall academic performance. Awarded to Julia Morriss ’19.

The Solomon Asch Award recognizes the most outstanding independent work in psychology, usually a senior course or honors thesis. Awarded to Elias Palmer Blinkoff ’17 and Tina Olympia Zhu ’17.

The Boyd Barnard Prize, established by Boyd T. Barnard ’17 is awarded by the music faculty each year to a student in the junior class in recognition of musical excellence and achievement. Awarded to Shira Samuels-Shragg ’20.

The James H. Batton ’72 Award, endowed in his memory by G. Isaac Stanley ’73 and Ava Harris Stanley ’72, is awarded for the personal growth or career development of a minority student with financial need. Awarded to Anis Charles ’17 and Sedinam Worlanyo ’17.

The Paul H. Beik Prize in History is awarded each May for the best thesis or extended paper on a historical subject by a history major during the previous academic year. Awarded to Naomi Rose Caldwell ’19.

The Believe Endowed Social Action Award was established in 2006 to enable students to spend the summer in a developing country working on a global social action project. The Mission of the Believe Award is "To support inspired global citizens who believe in the reality of a better world, and who believe that the key to peace and progress in the world is to develop personal connections in other cultures through social action and direct community engagement." The Believe award is administered through the Lang Center for Social Responsibility. Awarded to Juliette Narame ’21.

The Bobby Berman ’05 Memorial Prize Fund was established in 2008 in his memory, by his family. It is awarded by the Physics Department to a graduating senior with a major in physics who has shown achievement, commitment, and leadership in the field. Awarded to Li Tian ’19.

The Tim Berman Memorial Award is presented annually to the senior man who best combines qualities of scholarship, athletic skill, artistic sensitivity, respect from and influence on peers, courage, and sustained commitment to excellence. Awarded to Jared Hunt ’19.

The Black Alumni Prize is awarded annually to honor the sophomore or junior minority student who has shown exemplary academic performance and community service. Awarded to Maxine Annoh ’18 and Tyrone Clay ’18.

The Black Cultural Center Director’s Special Recognition Award is awarded for significant contributions to the Black community and campus-wide. Awarded to Allison Alcena ’17, Bolutife Fakoya ’17, Aaliyah Dillon ’17, Summer Johnson ’17, and Davis Logan ’17.

The Black Cultural Center Highest Academic Achievement Award recognizes the minority students from the graduating class who earned one of the highest grade-point averages and contributed to the larger college community. Awarded to Medgine Elie ’17 and Xavier Lee ’17.

The Black Cultural Center Freshman of the Year Award recognizes the First-Year student(s) who have been exceptional leaders and have made...
The Black Cultural Center Leadership Award recognizes the graduating senior(s) who continues the legacy of Black student leadership and activism by constructively and proactively contributing to the Black Cultural Center and advocating for and acting on issues of concern to the larger campus community. Awarded to Mosea Esaials '17.

The Brand Blanshard Prize honors Brand Blanshard, professor of philosophy at Swarthmore from 1925 to 1945, and was established by David H. Scull '36. The Philosophy Department presents the award each year to the student who submits the best essay on any philosophical topic. Awarded to Zicheng (John) Fan '19 and Alexander Jin '19.

The Sophie and William Bramson Prize is awarded annually to an outstanding student majoring in sociology and anthropology. The prize recognizes the excellence of the senior thesis, in either the course or external examinations program as well as the excellence of the student’s entire career in the department. The Bramson Prize is given in memory of the parents of Leon Bramson, founding chairman of Swarthmore’s Sociology and Anthropology Department. Awarded to Jacob Demree '19 and Rose See '19.

The Heinrich W. Brinkmann Mathematics Prize honors Heinrich Brinkmann, professor of mathematics from 1933 to 1969, and was established by his students in 1978 in honor of his 80th birthday. Awards are presented annually by the Mathematics and Statistics Department to the student or students who has demonstrated exemplary service to the Department of Mathematics and Statistics. Awarded to Rachel Leifield '19, Garrett Ruley '19 and Hao-Tong Yan '19.

The William J. Carter '47 Grant is funded by the William J. Carter '47 Religious Harmony Fund, administered by the Religion Department, and supports a student summer research project or internship in keeping with William J. Carter’s goal of "encouraging and promoting understanding, harmony, and respect among the various religions of the world." Awarded to Elyse O’Bannon '20 and Hamzah Qureshi '20.

The Chemistry and Biochemistry Department Service Awards are given each year to the students (usually one junior and one senior) who have provided the department with the greatest service during the preceding academic year. Awarded to Rajiv Potluri '20 and Diep Nguyen '19.

The Chemistry and Biochemistry Department Undergraduate Sophomore Award is awarded annually to a sophomore whom the Chemistry and Biochemistry Department judges to have a strong performance in the sophomore year, including the sequence of organic chemistry and biochemistry. Awarded to Ariana Yett '21.

The Susan P. Cobbs Scholarship is awarded to the most outstanding student(s) of classics in the junior class. It was made possible by a bequest of Susan P. Cobbs, who was dean and professor of classics until 1969, and by additional funds given in her memory. Awarded to Edward Jones '19.

The Sarah Kaighn Cooper Scholarship, founded by Sallie K. Johnson in memory of her grandmothers, Sarah Kaighn and Sarah Cooper, is awarded to the member of the junior class who is judged by the faculty to have had the best record for scholarship, character, and influence since entering the College. Awarded to Chanooot Sirisponsilp '19.

The CRC Press Freshman Chemistry Achievement Award is awarded annually by the Chemistry and Biochemistry Department to the first-year student(s) who achieves the highest performance in the first-year chemistry curriculum. Awarded to Emma Parker Miller '22 and Alexandra Scheve '22.

The Alice L. Crossley Prize in Asian studies is awarded annually by the Asian Studies Committee to the student or students who submit the best essays on any topic in Asian studies. First prize awarded to Irene Kwon '17 and Matthew Sueda '17. Second prize awarded to Spriha Dhanuka '17. Honorable mention to David Morrill '18.

The Dunn Trophy was established in 1962 by a group of alumni to honor the late Robert H. Dunn, a Swarthmore coach for more than 40 years. It is presented annually to the sophomore male who has contributed the most to the intercollegiate athletics program. Awarded to Conor Harkins '21.

The Robert S. DuPlessis Prize is awarded each May to a student for the best senior comprehensive research paper on a historical subject by a history major in the previous year. Awarded to Alexander Jin '19.

The Maurice G. Eldridge '61 Community Service Award is awarded to a graduating Senior that has served the Black Cultural Center Community, as well as the Swarthmore Community-at-large with a commitment to academic excellence linked to socially responsible and civic engagement. Awarded to Patrick Houston '17.

The William C. Elmore Prize is given in recognition of distinguished academic work. It is awarded annually to a graduating senior majoring in physics, astrophysics, or astronomy. Awarded to David Robinson '19.

The Lew Elverson Award is given in honor of Lew Elverson, who was a professor of physical education for men from 1937 to 1978. The award is presented annually to the junior or senior man who has demonstrated commitment and dedication to excellence and achieved the highest degree of
excellence in his sport. Awarded to Cam Wiley ’19.

The Flack Achievement Award, established by Jim and Hertha Flack in 1985, is given to a deserving student who, during his or her first two years at the College, has demonstrated leadership potential and a good record of achievement in both academic and extracurricular activities.

The Renee Gaddie Award. In memory of Renee Gaddie ’93, this award is given by the music faculty to a member of the Swarthmore College Gospel Choir who is studying voice through the Music Department (MUSI 048: Individual Instruction) program. The award subsidizes the entire cost of voice lessons for that semester. Awarded to Kayonna Tindle ’20.

The Dorothy Ditter Gondos Award was bequeathed by Victor Gondos Jr. in honor of his wife, Class of 1930. It is given by a faculty committee to a student of Swarthmore College who submits the best paper on the subject dealing with a literature of a foreign language. The prize is awarded under the direction of the Literature Committee. First Prize awarded to Laura Chen ’19, Second Prize awarded to Marion Kudla ’19, Third Prize awarded to Max Marckel ’19, Anthony Velleca ’19, and Linda Vu ’19.

The John Russell Hayes Poetry Prizes are offered for the best original poem or for a translation from any language. Awarded to Paul Buchanan ’21 and Maya Kikuchi ’20.

The Eleanor Kay Hess Award is given in honor of "Pete" Hess, whose 33 years of service to Swarthmore College and Swarthmore students were exemplified by her love of athletics, leadership, hard work, fairness, and objectivity. This award is given to the sophomore woman who best demonstrates those qualities and has earned the respect and affection of her peers for her scholarship and dedication through athletics. Awarded to Hannah Kloetzer ’21.

The Philip M. Hicks Prizes are endowed by friends of Philip M. Hicks, former professor of English and chairman of the English Literature Department. They are awarded to the students who submit the best critical essays on any topic in the field of literature. Awarded to Anna Weber ’19.

The Jesse H. Holmes Prize in Religion was donated by Eleanor S. Clarke, Class of 1918, and named in honor of Jesse Holmes, a professor of history of religion and philosophy at Swarthmore from 1899 to 1934. It is awarded by the Religion Department to the student(s) who submits the best essay on any topic in the field of religion. Awarded to Grant Brown ’21.

The Gladys Irish Award is presented to the senior woman who has best combined devotion to excellence in athletic performance with qualities of strong leadership and the pure enjoyment of sports activities at Swarthmore. Awarded to Marin McCoy ’19.

The Chuck James Literary Prize is awarded to the graduating senior who has made the greatest contribution to the literary life of the black community.

The Michael H. Keene Award, endowed by the family and friends of this member of the Class of 1985, is awarded by the dean to a worthy student to honor the memory of Michael’s personal courage and high ideals. It carries a cash stipend. Awarded in confidence to a worthy member of the graduating class.

The Naomi Kies Award is given in her memory by her classmates and friends to a student who has worked long and hard in community service outside the academic setting, alleviating discrimination or suffering, promoting a democratic and egalitarian society, or resolving social and political conflict. It carries a cash stipend.

The Kwink Trophy, first awarded in 1951 by the campus managerial organization known as the Society of Kwink, is presented by the faculty of the Physical Education and Athletics Department to the senior man who best exemplifies the society’s five principles: service, spirit, scholarship, society, and sportsmanship. Awarded to Jeff Tse ’19.

The Lang Award was established by Eugene M. Lang ’38. It is given by the faculty to a graduating senior in recognition of outstanding academic accomplishment. Awarded to Joshua Paul Mundinger ’18.

The Leo M. Leva Memorial Prize was established by his family and friends and is awarded by the Biology Department to a graduating senior in biology whose work in the field shows unusual promise. Awarded to William Colgan ’19, Elizabeth Flores ’19, Allan Gao ’19, John LaVigne ’19, Marianne Lotter-Jones ’19, Max Marckel ’19, Anthony Velleca ’19, and Linda Vu ’19.

The Linguistics Prizes were established in 1989 by contributions from alumni interested in linguistics. Awards are presented annually, for linguistic theory, applied and descriptive linguistics and outstanding thesis, to the students who, in the opinion of the program in linguistics, submit the best senior papers or theses in these areas. The Linguistics Prize in Applications of Theory was awarded to Shuang Guan ’19 (Swarthmore College) and Amanda Izes ’19 (Swarthmore College). The Linguistics Prize in Linguistic Theory was awarded to Juhyae Kim ’19 (Swarthmore College). The Linguistics Prize for Outstanding Thesis was awarded to Lyra Piscitelli (Bryn Mawr College)

The McCabe Engineering Award, founded by Thomas B. McCabe, Class of 1915, is presented each year to the outstanding engineering student in
The senior class. A committee of the Engineering Department faculty chooses the recipient. Awarded to Greta Studier ’19 and Bilige Yang ’19.

The Morris Monsky Prize in Mathematics was established by a gift from the children of Morris Monsky, who fell in love with mathematics at Boys’ High and at Columbia University and maintained the passion all his life. This prize in his memory is awarded to first-year students who have demonstrated outstanding promise and enthusiasm. Awarded to Yasmin Aguillon, Janet Barkdoll and Tarang Saluja.

The Kathryn L. Morgan Award was established in 1991 in honor of late Professor of History, Kathryn L. Morgan. The award recognizes the contributions of members of the African American community at the College to the intellectual and social well-being of African American students. The Morgan fund also supports acquisitions for the Black Cultural Center Library. The fund is administered by the Dean’s Office and the Black Cultural Center in consultation with alumni. Awarded to Donny Thomas.

The Lois Morrell Poetry Award, given by her parents in memory of Lois Morrell ’46, goes to the student who has submitted the best original poem in the annual competition for this award. The fund also supports campus readings by visiting poets. Awarded to Renn Tan ’20.

The Morrell-Potter Summer Stipend in Creative Writing, intended to enable a summer’s writing project, is awarded by the English Literature Department to a poet or fiction writer of exceptional promise in the spring of the junior year. Awarded to Maya Kikuchi ’20 and Renn Tan ’20.

The Music 48 Special Awards (Freeman Scholars). Endowed by Boyd T. Barnard, Class of 1917, and Ruth Cross Barnard, Class of 1919, and named for James D. Freeman, professor emeritus of music, grants are given by the music faculty to students who show unusual promise as instrumentalists or vocalists. Awarded to Matthew Anderson ’21; Shelby Billups ’20; Omar Camps-Kamrin ’20; Berlin Chen ’19; Alice Dong ’19; Eleanor Naiman ’20; Emma Novak ’21; Herbie Rand ’21; Rebecca Regan ’19; Shira Samuels-Shragg ’20; Elizabeth Stant ’19; Kyle Yee ’19.

The A. Edward Newton Library Prize, endowed by A. Edward Newton, to make permanent the Library Prize first established by W.W. Thayer, is awarded annually by the Committee of Award to the undergraduate who shows the best and most intelligently chosen collection of books upon any subject. Particular emphasis is laid not merely upon the size of the collection but also on the skill with which the books are selected and upon the owner’s knowledge of their subject matter. Awarded to Grant Brown ’21, Keton Kaddar ’20, and Therese Ton ’19.

The Oak and Ivy Award is given by the faculty to students in the graduating class who are outstanding in scholarship, contributions to community, and leadership. Awarded to Meghan Chi Kelly ’18 and Benjamin William TerMaat ’18.

The Pan American Award is administered by Latin American and Latino Studies. Not awarded this year.

The May E. Parry Memorial Award, donated by the Class of 1925 of which she was a member, is presented by the Physical Education and Athletics Department faculty to the senior woman who has made a valuable contribution to the College by her loyalty, sportsmanship, and skill in athletics. Awarded to Kayla Camacho ’19.

The Drew Pearson Prize is awarded by the dean on the recommendation of the editors of The Phoenix, The Daily Gazette and Voices, and the senior producers of War News Radio at the end of each staff term to a member of those respective organizations for excellence in journalism. The prize was established by the directors of The Drew Pearson Foundation in memory of Drew Pearson, Class of 1919. It carries cash stipends.

The John W. Perdue Memorial Prize, established in 1969 in memory of an engineering student of the Class of 1969, is awarded by the Engineering Department to the outstanding student entering the junior class with a major in engineering. Awarded to Zane Meyer ’21.

The William Plumer Potter Public Speaking Fund and Prize in Fiction was established in 1927. It provides funds for the collection of recorded literature and sponsors awards for the best student short stories. The fund is also a major source of funds for campus appearances by poets and writers. Awarded to Connor Hodge ’19, Lucy Jones ’20, and Ana Maria Curtis ’19.

The Snyder-Potter Summer Stipend in Literary Criticism supports students in summer learning experiences related to their course-work in the English major. These experiences may involve independent research projects or work with faculty on research of mutual interest. Awarded to Shaoni White ’21.

The Ernie Prudente Sportsmanship Award is given in honor of Ernie Prudente, a coach and professor at Swarthmore College for 27 years, to the male and female athletes that, through their participation, have demonstrated the characteristic exemplified by Ernie: sportsmanship, love of the sport, and respect for their teammates. Awarded to Conor Elliott ’19, Sophie Moody ’19.

The Dinny Rath Award is administered by the Athletics Department and is given to a senior woman who demonstrates the highest degree of achievement, commitment to intercollegiate athletics, high regard for fair play, and awareness of the positive values of competition. Awarded to Tess Wild ’19.

The Morris Monsky Prize in Mathematics was established by a gift from the children of Morris Monsky, who fell in love with mathematics at Boys’ High and at Columbia University and maintained the passion all his life. This prize in his memory is awarded to first-year students who have demonstrated outstanding promise and enthusiasm. Awarded to Yasmin Aguillon, Janet Barkdoll and Tarang Saluja.

The Kathryn L. Morgan Award was established in 1991 in honor of late Professor of History, Kathryn L. Morgan. The award recognizes the contributions of members of the African American community at the College to the intellectual and social well-being of African American students. The Morgan fund also supports acquisitions for the Black Cultural Center Library. The fund is administered by the Dean’s Office and the Black Cultural Center in consultation with alumni. Awarded to Donny Thomas.

The Lois Morrell Poetry Award, given by her parents in memory of Lois Morrell ’46, goes to the student who has submitted the best original poem in the annual competition for this award. The fund also supports campus readings by visiting poets. Awarded to Renn Tan ’20.

The Morrell-Potter Summer Stipend in Creative Writing, intended to enable a summer’s writing project, is awarded by the English Literature Department to a poet or fiction writer of exceptional promise in the spring of the junior year. Awarded to Maya Kikuchi ’20 and Renn Tan ’20.

The Music 48 Special Awards (Freeman Scholars). Endowed by Boyd T. Barnard, Class of 1917, and Ruth Cross Barnard, Class of 1919, and named for James D. Freeman, professor emeritus of music, grants are given by the music faculty to students who show unusual promise as instrumentalists or vocalists. Awarded to Matthew Anderson ’21; Shelby Billups ’20; Omar Camps-Kamrin ’20; Berlin Chen ’19; Alice Dong ’19; Eleanor Naiman ’20; Emma Novak ’21; Herbie Rand ’21; Rebecca Regan ’19; Shira Samuels-Shragg ’20; Elizabeth Stant ’19; Kyle Yee ’19.

The A. Edward Newton Library Prize, endowed by A. Edward Newton, to make permanent the Library Prize first established by W.W. Thayer, is awarded annually by the Committee of Award to the undergraduate who shows the best and most intelligently chosen collection of books upon any subject. Particular emphasis is laid not merely upon the size of the collection but also on the skill with which the books are selected and upon the owner’s knowledge of their subject matter. Awarded to Grant Brown ’21, Keton Kaddar ’20, and Therese Ton ’19.

The Oak and Ivy Award is given by the faculty to students in the graduating class who are outstanding in scholarship, contributions to community, and leadership. Awarded to Meghan Chi Kelly ’18 and Benjamin William TerMaat ’18.

The Pan American Award is administered by Latin American and Latino Studies. Not awarded this year.

The May E. Parry Memorial Award, donated by the Class of 1925 of which she was a member, is presented by the Physical Education and Athletics Department faculty to the senior woman who has made a valuable contribution to the College by her loyalty, sportsmanship, and skill in athletics. Awarded to Kayla Camacho ’19.

The Drew Pearson Prize is awarded by the dean on the recommendation of the editors of The Phoenix, The Daily Gazette and Voices, and the senior producers of War News Radio at the end of each staff term to a member of those respective organizations for excellence in journalism. The prize was established by the directors of The Drew Pearson Foundation in memory of Drew Pearson, Class of 1919. It carries cash stipends.

The John W. Perdue Memorial Prize, established in 1969 in memory of an engineering student of the Class of 1969, is awarded by the Engineering Department to the outstanding student entering the junior class with a major in engineering. Awarded to Zane Meyer ’21.

The William Plumer Potter Public Speaking Fund and Prize in Fiction was established in 1927. It provides funds for the collection of recorded literature and sponsors awards for the best student short stories. The fund is also a major source of funds for campus appearances by poets and writers. Awarded to Connor Hodge ’19, Lucy Jones ’20, and Ana Maria Curtis ’19.

The Snyder-Potter Summer Stipend in Literary Criticism supports students in summer learning experiences related to their course-work in the English major. These experiences may involve independent research projects or work with faculty on research of mutual interest. Awarded to Shaoni White ’21.

The Ernie Prudente Sportsmanship Award is given in honor of Ernie Prudente, a coach and professor at Swarthmore College for 27 years, to the male and female athletes that, through their participation, have demonstrated the characteristic exemplified by Ernie: sportsmanship, love of the sport, and respect for their teammates. Awarded to Conor Elliott ’19, Sophie Moody ’19.

The Dinny Rath Award is administered by the Athletics Department and is given to a senior woman who demonstrates the highest degree of achievement, commitment to intercollegiate athletics, high regard for fair play, and awareness of the positive values of competition. Awarded to Tess Wild ’19.
The Jeanette Streit Rohatyn ’46 Fund is used to grant the "Baudelaire Award" to a Swarthmore student(s) considering a major or a minor in French, and use the award, which is granted on the recommendation of the program director, to travel in metropolitan France. Awarded to Samuel H. Leonard ’20 and Christian L. Precise ’21.

The Gil Rose Prize, endowed by John Marincola ’76 in honor of Gilbert P. Rose, Susan Lippincott Professor Emeritus of Modern and Classical Languages, is awarded to a senior student of Latin and/or Greek, who, in the judgment of the department faculty, displays deep knowledge of the ancient language(s) and whose written work is both rigorous and imaginative. Awarded to Rebecca Regan ’19.

The Royal Society of Chemistry Certificate of Excellence is awarded to the student majoring in Chemistry or Biochemistry whom the Department of Chemistry and Biochemistry judges to have the strongest performance in biochemistry. Awarded to Mackinsey Smith ’19.

Judith Polgar Ruchkin Prize Essay is an award for a paper on politics or public policy written during the junior or senior year. The paper may be for a course, a seminar, or an independent project, including a thesis. The paper is nominated by a faculty member and judged by a committee of the department faculty, displays deep knowledge of the ancient language(s) and whose written work is both rigorous and imaginative. Awarded to Gabriella Small ’19 and Anna Marfleet ’19.

The Robert Savage Image Award recognizes outstanding biological images taken by Swarthmore biology students. The award is supported by the Robert Savage Fund which was established by students and colleagues to honor Professor Robert E. Savage, the first professor of Cell Biology at Swarthmore College. Awarded to Lynda Roe ’20, Lillian Fornof ’20, Karl Palmquist ’17.

The Frank Solomon Jr. Student Art Purchase Fund permits the Art and Art History Department to purchase outstanding student art from the senior major exhibitions. Awarded to Yixuan "Maisie" Luo ’19 and Anna Marfleet ’19.

The Hally Jo Stein Award, endowed in her memory by her brother Craig Edward Stein ’78, is given to an outstanding student who the dance faculty believes best exemplifies Hally Jo’s dedication to the ideals of dance. It carries a cash stipend. Awarded to Rachel Isaacs-Falbel ’19 (Dance); Marion Kudla ’19 (Dance) and Lili Tobias ’19 (Music).

The Albert Vollmecke Engineering Service Award was established in 1990 in memory of Albert Vollmecke, father of Therese Vollmecke ’77. The Vollmecke Prize is awarded for service to the student engineering community. The Engineering Department administers the fund. Awarded to Chinyere Odim ’17.

The Eugene Weber Memorial Fund was established in honor of the late Eugene Weber, professor of German. The Weber Fund supports study abroad by students of German language and literature. Awarded to Shantal Garcia ’20.

The Jerome H. Wood Memorial Excellence and Leadership Award was created in 1997 in honor of the late Professor Jerry Wood and is awarded annually. Awarded to Chinyere Odim ’17.

17.5 Faculty Award

The Flack Faculty Award is given for excellence in teaching and promise in scholarly activity by a member of the Swarthmore faculty to help meet the expenses of a full year of leave devoted to research and self-improvement. This award acknowledges the particularly strong link that exists at Swarthmore between teaching and original scholarly work. The president gives the award based upon the recommendation of the provost and the candidate’s academic department. This award is made possible by an endowment established by James M. Flack and Hertha Eisenmenger Flack ’38.

17.6 Fellowships

The Stanley Adamson Summer Internship for Research in Chemistry is endowed in memory of Stanley D. Adamson ’65 by his parents, June and George Adamson. It provides funding for the summer research of a well-rounded rising student who, in the opinion of the Chemistry and Biochemistry Department, gives great promise of excellence and dedication in the field. Awarded to Lucas Heinzinger ’20 and Pearl Zhang ’22.

The Altman Summer Grant was created by Shingmei Poon Altman ’76 in memory of her
husband, Jonathan Leigh Altman ’74. It is awarded by the Art Department to a junior who has strong interest and potential in art. It provides support for purposeful work during the summer between junior and senior year. Awarded to Gursimran Pannu ’20.

John W. Anderson ’50 Memorial Internship was created by his wife, Janet Ball Anderson ’51. The Anderson internship supports students teaching science to disadvantaged children, with preference for students interested in working with children in grades K-12. Not awarded this year.

The Lotte Lazarsfeld Bailyn ’51 Research Endowment established by Bernard Bailyn in 2005, in honor of his wife, the T. Wilson Professor of Management, emerita, at MIT. The fund supports a student summer research fellowship for a rising junior or senior woman majoring in mathematics, science, or engineering who intends to go into graduate studies in one or more of these fields. Awarded to Sarah Leonard ’21 and Edna Olvera ’21.

The David Baltimore/Broad Foundation Endowment was established in 2007 by a grant from the Broad Foundation at the request of David Baltimore ’60. This fellowship is awarded to a student doing summer research in the natural sciences or engineering with a preference given to a student engaging in mentored off-campus laboratory research and with letters of support from an on-campus faculty mentor. Awarded to Calvin Chan ’20, Molly Fennig ’20, Alexander Flowers ’21, Joshua Geselowitz ’21, Yusuf Qaddura ’20, and Alexandra Scheve ’22.

The Monroe C. Beardsley Research Fellowship and Internship Fund was established in 2004 to support students in the humanities by providing grants to encourage and facilitate research, original scholarship, and professional development in the areas of art, classics (literature), English literature, modern languages and literature, music and dance, philosophy, religion, and theater. Named after renowned contemporary philosopher Monroe C. Beardsley, a professor of philosophy at Swarthmore for more than 20 years, the fund is administered by the Division of the Humanities and the Provost’s Office. Awarded to Louisa Carman ’21, Elizabeth Conca ’21, Aayushi Dangol ’20, Sagnik Gayen ’20, Consolee Hitayezu ’21, Elizabeth Labows ’21, David Molina Cavazos ’20, Najla Nassar ’21, Ian Palmer ’20, Tobias Philip ’20, and Michael Thut ’20.

The William Carter ’47 Religious Harmony Fund was established in 2011. The fund’s purpose is to encourage and promote understanding, harmony and respect among the various religions of the world. Awarded to Leren Gao ’21.

The Cilento Family Community Service Internship was established in 2002 by Alexander Cilento ’71 to support Swarthmore College students who carry out community service projects that benefit low-income families in the area. The Swarthmore Foundation administers the fund. Not awarded this year.

The Cilento Family Information Technology Fund was established in 2002 by Alexander P. Cilento ’71 as an expression of gratitude and appreciation for the Engineering Department at Swarthmore College. The fund supports teaching innovations in information science, with preference for computer science, engineering, and related disciplines. The fund is administered by the Provost’s Office. Awarded to Yi Fei Cheng ’21.

The Class of 1961 Fund for the Arts and Social Change was established by the Class of 1961 in honor of its 50th Reunion. This fund provides a Summer Social Action Award to one or more students each summer with a preference for projects in which the arts and social change are joined. This reflects the distinctive interests of the Class of 1961 in the art, theater, music and dance of their time and their commitment to making a difference in the world. The recipient(s) will be chosen by the Lang Center for Civic and Social Responsibility. Summer Social Action Awards are granted to students on a competitive basis so that they may spend a summer engaging meaningfully with non-profit organizations, grass-roots advocacy groups, or public service agencies. Awarded to Amalia Gelpi ’20, Max Gruber ’20, and Zaina Dana ’21.

The Class of 1962 Student Summer Fellowship was established in 2012 by contributions from class members, on the occasion of their 50th Reunion celebration. The fund is intended to provide enriching learning experiences for students by supporting work, study or research during the summer. Awarded to Abby Clements ’20, Lucas Dyke ’20, Susanna McGrew ’20, and Iris Wang ’21.

The Class of 1968 President’s Sustainability Research Fellowship was established in 2018 by members of the Class of 1968 in recognition of their 50th reunion. The fund is intended to provide support for at least one President’s Sustainability Research Fellowship annually. The recipient(s) are chosen by a committee consisting of representatives from the President’s Office, the Office of Sustainability, the Lang Center for Civic and Social Responsibility, and the Environmental Studies Program.

The Susan P. Cobbs Prize Fellowship is awarded to one or more students to assist them in the study of Latin or Greek or with travel for educational purposes in Italy or Greece. It was made possible by gifts from alumni, managers, faculty members, and friends made in memory of Susan P. Cobbs, who was dean and professor of classics until 1969. Awarded to Madison Kline ’21, Madeleine Palden ’22, and Rebecca Posner-Hess ’21.
The Robert W. Edgar Endowed Fund for Provost’s Office.
The fund shall be used to support students participating in academic study, internships, and research fellowships in German-speaking countries or in immersive German language programs. It will be administered by the German section of the Modern Languages and Literatures Department. Awarded to Pauline McMurry ’20, Tobias Philip ’20, Grayson Mick ’21, Lanson Tang ’19, and Cyndi Lai ’21.

The Joel Dean Fellowships were established in 1982 and are supported by gifts from the Joel Dean Foundation. These fellowships are awarded for summer research in the social sciences. Awarded to Anna Abruzzo ’20, Miranda Amilcar ’20, Karen Avila ’20, Rebecca Castillo ’20, Dylan Chan ’22, Jonathan Kay ’20, Samantha Martin ’21, Grayson Mick ’21, September Porras Payea ’20, Phoebe Whiteside ’20, and Mo Xiong ’20.

The Deborah A. DeMott ’70 Student Research and Internship Fund was established by Deborah A. DeMott ’70 in 2004. The fund is awarded to students following their second or third years on the recommendation of the Provost’s Office in conjunction with an advisory panel of faculty. The recommendation is based on the caliber and potential of the student project proposals. Awarded to Christopher Chung ’21, Lilia McGee-Harris ’20, and Leslie Moreaux ’20.

The Economic Justice Internship Endowment was established in 2017 by Taras Kihiczak ’86 and Kristen Boling, who have a deep interest in addressing issues related to income inequality, and is intended to provide enriching summer research fellowships and/or internships for Swarthmore students in the Social Sciences Division. Preference shall be given to students conducting projects which are related to political or economic inequality. Recipients will be awarded by the academic division and administered by the Provost’s Office.

The Robert W. Edgar Endowed Fund for Internships was created in 2013 by contributions from Robin M. Shapiro. The fund, named for the late Bob Edgar, who represented the Seventh District, including Swarthmore, in the United States House of Representatives, is intended to provide enriching learning experiences for Swarthmore students by supporting work experience in any field during the summer months, with preference given to those whose internship opportunities stem from previously held externships. Two fellowships will be administered by the Career Services Office each summer.

The Robert Enders Field Biology Award was established by his friends and former students to honor Dr. Robert K. Enders, a member of the College faculty from 1932 to 1970. It is awarded to support the essential costs of both naturalistic and experimental biological studies in a natural environment. The Biology Department gives the field research award annually to Swarthmore students showing great promise in biological field research. Awarded to Noah Lee ’21 and Moey Rojas ’22.

The Anne and Alexander Faber International Travel Fund was established by family and friends in honor of Anne Faber and in memory of Alexander L. Faber, parents of three Swarthmore graduates. It provides grants for travel outside the United States and Canada for students majoring in the humanities. Awarded to Marcos Castro ’21 and Rina Kiyohara ’20.

The Haskin Fernald Student Summer Fellowship was established in 2007 by Guy Haskin Fernald ’94 and Lia Haskin Fernald ’94 and is intended to broaden and enrich the experience of a student by supporting a work or study experience dealing with public health issues of global significance, within a public or non-profit setting, in a lower or middle-income country. A student who has identified an opportunity to do research or volunteer work abroad can submit a proposal for support for travel and/or living expenses. Awarded to Qi Xu ’20 and Brandon Zunin ’20.

The David E. Fisher ’79-Arthur S. Gabinet ’79 Summer Internship for Biological Sciences and Public Service was established by Andrew H. Schwartz ’79 and his wife, Dagmar Schwartz, to honor Andy’s friends and classmates, David E. Fisher ’79 and Arthur S. Gabinet ’79, and supports students working in life sciences or public service who exemplify Fisher’s and Gabinet’s values, pursuing studies out of love of learning and devotion to the improvement of the human condition. Awarded to Emma Tapp ’20.

The Dorothy Ditter Gondos Summer Research Fellowship in Comparative Literature is chosen by the Program in Comparative Literature to support a fellowship for summer research in Comparative Literature. The fellowship may be used for research undertaken in the US or abroad, and preference will be given to juniors who will be preparing to write a comparative literature thesis in their senior year. Awarded to Alexandra Kingsley ’20.

The Carl Grossman Summer Opportunity Fund was established in 2018 by Eunice Cheung ’93. This fund honors Carl H. Grossman, who taught in the physics department from 1990 to 2015 and served as a trusted mentor to many of his students. The fund is intended to provide enriching learning experiences for Swarthmore students by supporting work, study, or research in physics during the summer months. The recipient(s) will be chosen by the Provost’s Office. Awarded to Micah Harkins ’21, Vaughn Parts ’20, and Alexandria Rensing ’21.
The Hay-Urban Prize in Religion is awarded to Madeline Farber '22. Bruce Hannay was a research chemist with Bell Laboratories and received an honorary doctor of science degree from Swarthmore in 1979. Awarded to Madeline Farber '22.

The Hannay Chemistry Fund was established by a gift from the General Signal Corp. in honor of N. Bruce Hannay '42. The fund will provide support for a student’s summer research in chemistry. Bruce Hannay was a research chemist with Bell Laboratories and received an honorary doctor of science degree from Swarthmore in 1979. Awarded to Madeline Farber '22.

The Hay-Urban Prize in Religion is named in honor of Stephen N. Hay ’51 and P. Linwood Urban, professor emeritus of religion. Thanks to a generous gift from Stephen Hay ’51, and funds given in honor of Professor Urban’s distinguished service as a Religion Department faculty member, the Hay-Urban Prize assists in supporting one student internship, summer study, or research in the area of religion studies. Awarded to Sawyer Lake ’20.

The Samuel L. Hayes III Award. Established in 1991 through the generosity of members of Swarthmore Alumni in Finance, the Hayes Award honors the contributions made by Samuel L. Hayes III ’57, former member of the Board of Managers and the Jacob Schiff Professor of Business at the Harvard Business School. The Economics Department administers the award, which provides support for student summer research in economics. Awarded to Eishna Ranganathan ’20.

The Hopkins International Public Policy Internship Endowment was established in 2005 to support students interested in policy issues of global significance, working within a public or non-profit organization. Such issues may be addressed within the U.S. or abroad, with a strong preference for experience internships overseas. The internship is available for two to six months--anytime of the year, including summers. It shall be administered by the Provost’s Office. Awarded to Nevien Swailmyeen ’20.

The William L. Huganir Summer Research Endowment is awarded each spring by the chairs of the Social Science Division based on the academic interests of a student or students who wish to pursue summer research on global population issues. Awarded to Alaina Chen ’21 and Jia Chern Teoh ’20.

The Richard M. Hurd ’48 Engineering Research Endowment was created in 2000 in memory of distinguished alumni and former member of the Board of Managers Richard M. Hurd ’48. The fund supports students interested in pursuing engineering research during the summer. Awarded to Vinay Keefe ’21.

The Connie Hungerford and Hans Oberdiek Student Summer Fellowship was established in 2017 through the generosity of Jeffrey ’75 and Marge Pearlman ’48 Scheuer and Adrienne Asch ’69 (posthumously) in honor of Connie’s and Hans’s innumerable contributions to the humanities at Swarthmore. This fund is intended to provide enriching learning experiences for Swarthmore students by supporting work, study, or research in the humanities during the summer months. The Fellowship is administered by the Provost’s Office, and awards are made in consultation with faculty. Awarded to Emilie Hautemont ’20 and Daria Mateescu ’20.

The Interdisciplinary Biology Fellowship, established in 2014, is intended to provide enriching learning experiences for Swarthmore students by supporting on- or off-campus summer research in Biology, with a primary focus on supporting students performing interdisciplinary work that integrates subjects or research methods from biology with those of other natural sciences, social sciences, or humanities. The fund will also make grants available for expenses related to off-campus travel associated with the student’s research project. The recipient(s) will be chosen by the Biology Department and the Provost’s Office. Awarded to Ellen Adams ’21 and Ziad Sabry ’21.

The Islamic Studies Summer Fellowship was established in 2015 by Inger Larsen ’88 and is intended to provide enriching summer research fellowships and/or internships for Swarthmore students in the area of Islamic Studies. These fellowships are administered by the Provost’s Office in consultation with the Islamic Studies Program Coordinator. Not awarded this year.

The Janney Fellowship, established through the bequest of Anna Janney DeArmond ’32, is named in honor of the donor’s grandmother, Anna Canby Smyth Janney, the donor’s mother, Emily Janney DeArmond (1904), and the donor’s aunt, Mary Janney Coxe (1906). It is awarded each year to a woman graduate of the College, preferably a member of the Religious Society of Friends, to assist graduate study in the humanities in this country or elsewhere. This renewable fellowship is awarded annually by the faculty to seniors or graduates of the College for the pursuit of advanced work on the basis of scholarship, character and need. Applications must be submitted by April 20. Awarded to Anita Castillo-Halvorssen ’15, Camila Ryder ’13 and Lucille Whitacre ’14.

The Japanese Summer Language Fellowship provides opportunities for students to study at intensive summer language programs recommended by the Japanese Studies Department. Awarded to Ismail Can ’21.

The Peter and Aleck Karis Fellowship in Environmental Studies shall be used to support summer research fellowships for students in the natural and social sciences studying the effects of environmental changes on ecosystems, biodiversity, and human populations, societies, and cultures, with a preference for investigations into climate change and the impact of climate change, at Swarthmore College beginning in 2014 in accordance with College policies and
procedures. The Fund will be administered by the Provost’s office upon the recommendation of the Environmental Studies Program Committee. Awarded to Maria Ingersoll ’20.

The Giles K. ’72 and Barbara Guss Kemp Student Fellowship Endowment was established by Giles and Barbara Kemp in 2005 to support student internships and research projects with a preference for students whose fellowship experience will be abroad. Awarded to Madelon Basili ’22, Kennedy Kings ’20, Marisa Mancini ’20, Thandiwe McMillan ’20, and Yuxiang Wu ’21.

The Kaori Kitao Humanities Research Fellowship. Kaori Kitao, Professor Emerita in Art History, established this research fellowship in 2013 in celebration of her 80th birthday. The fund supports students in the humanities by providing grants to encourage and facilitate historical research, original scholarship, and professional development, with a preference for Italian Studies, Japanese Studies, and Performing Arts. The fund is administered by the Division of the Humanities and the Provost’s Office. Awarded to Citlali Pizarro ’20.

Howard G. Kurtz, Jr. and Harriet B. Kurtz Memorial Fund was established to honor their lifelong dedication to ensuring a world at peace through the systematic prevention of war including the use of outer space technologies to assist in the design and implementation of war prevention systems. Not awarded this year.

The Olga Lamkert Memorial Fund is income from a fund established in 1979 by students of Olga Lamkert, professor of Russian at Swarthmore College from 1949 to 1956. It is available to students with demonstrated financial need who wish to attend a Russian summer school program in this country or summer or semester programs in Russia. Awards based on merit and financial need will be made on the recommendation of the Russian section of the Modern Languages and Literatures Department. Awarded to Gabby Cepeda ’22.

The Olga Lamkert Endowed Student Opportunity Fund was established in 2017 by Jane Moody Picker ’57 and Sidney Picker Jr. in memory of Olga Lamkert. The fund is intended to provide enriching learning experiences for Swarthmore students by supporting work, study, travel, research and/or internships in the study of Russia, including, but not limited to, language, literature, history, politics, or culture of Russia. The recipient(s) will be chosen by the Provost’s office, in consultation with the faculty of the Russian program.

The Landis Community Service Fund was established in 1991 by James Hormel and other friends of Kendall Landis ’48 in support of his 18 years of service to the College. The fund provides grants for students (including graduating seniors) to conduct service and social change projects in the city of Chester. Not awarded this year.

The Lande Research Fund was established in 1992 through a gift by S. Theodore Lande to provide support for student research in field biology both on and off campus. Grants are awarded at the direction of the provost and the chair of the Biology Department. Awarded to Vitor Dos Anjos ’21.

The Eugene M. Lang Summer Initiative Awards are made each spring to several students who are selected by the provost in consultation with the appropriate division heads to support faculty-student research, independent student research, and student social service activity specifically related to research objectives and tied to the curriculum, under the supervision of faculty members. Awarded to Gabriel Brossy de Dios ’20, Daniel Chaiken ’20, Kevin Choi ’21, Pemba Dorji ’21, Zena Ebrahimi ’20, Ilana Epstein ’21, Yiying Hu ’22, Janan Hui ’20, Emma Kassan ’20, Hannah Kloetzer ’21, Gregory Lee ’21, Zachary Lytle ’21, Mika Maenaga ’21, Vanessa Meng ’20, Clayton Meyer ’21, Elena Moore ’21, Nathan Pitock ’21, Gabrielle Rubinstein ’20, Ryan Stanton ’20, Nathaniel Stern ’20, Benjamin Stern ’20, Marie Tillson ’20, and Yi Wei ’21.

The Genevieve Ching-wen Lee ’96 Memorial Fund was established in her memory by family and friends and recognizes the importance of mutual understanding and respect among the growing number of ethnic groups in our society. The fund supports an annual lecture by a prominent scholar of Asian American studies and/or an annual award to two students to assist in projects pertaining to Asian American studies. Awarded to Yung Yung Liu ’21.

The Hannah A. Leedom Fellowship was founded by the bequest of Hannah A. Leedom. This award is granted on recommendation of the Committee on Fellowships and Prizes for a proposed program of advanced study that has the approval of the faculty. Applications must be submitted by April 20. Awarded to Leanna Browne ’15, Julia Melin ’13, Zachary Postone ’11, Alan Smith ’05 and Harrison Tasoff ’14.

The Lenfest Student Fellowship Endowment was established in 2008 by Gerry and Marguerite Lenfest. The fund shall be used to support student participation in research fellowships, internships, and other summer opportunities, and selection will be made by the Provost’s Office and the Lang Center for Civic and Social Responsibility. Awarded to Abigail Diebold ’20, Yingqi Lin ’20, and Evan Orticio ’20.

The Joshua Lippincott Fellowship was founded by Howard W. Lippincott, of the Class of 1875, in memory of his father. This award is granted on recommendation of the Committee on Fellowships and Prizes for a proposed program of advanced study that has the approval of the faculty. Awarded

17 Distinctions, Awards, and Fellowships
17 Distinctions, Awards, and Fellowships

to Efua Kumea Asibon ’16, Matthew Armstead ’08, Griffin Dowdy ’13, Aaron Austin Jackson ’16, Katia Lom ’06, Laura Michelle Thompson-Martin ’16, Nicole Lakesha Walker ’16.

The John Lockwood Memorial Fellowship was founded by the bequest of Lydia A. Lockwood, New York, in memory of her brother, John Lockwood. It was the wish of the donor that the fellowship be awarded to a member of the Society of Friends. The Lockwood Fellowship is renewable for a second year. This award is granted on recommendation of the Committee on Fellowships and Prizes for a proposed program of advanced study that has the approval of the faculty. Applications must be submitted by April 20. Not awarded this year.

The Joanna Rudge Long ’56 Conflict Resolution Endowment was created in 1996 in celebration of the donor’s 40th reunion. The stipend is awarded to a student whose meritorious proposal for a summer research project or internship relates to the acquisition of skills by elementary school or younger children for the peaceful resolution of conflict. Awarded to Josephine Ross ’21 and Lauren Savo ’20.

The Carol Finneburgh Lorber Fellowship in Environmental Studies was established in 2017 by the Swarthmore College Board of Managers in memory of Carol Finneburgh Lorber ’63, who held a passionate interest in the environment and supported numerous environmental organizations. The fund is intended to provide enriching experiences for Swarthmore students by supporting work, study, or research in Environmental Studies during the summer months. The recipient(s) will be chosen by the Provost’s Office in consultation with the department of Environmental Studies.

The Julia and Frank L. Lyman ’43 Student Summer Research Stipend was created in February 2000. It is awarded each spring by the provost upon receiving recommendations from members of the faculty involved with peace and conflict studies. Awarded to Shayla Smith ’20.

The Penelope Mason ’57 Memorial Fund was established in 2004 by Marc E. Weksler ’58 and Babette B. Weksler ’58 to honor Norman A. Meinkoth’s long service as a premedical adviser to students at Swarthmore College, where he was professor of biology for 31 years and chairman of the department for 10 years. The funds are awarded on the basis of scientific merit to a rising junior or senior premedical student to allow the pursuit of laboratory research in the sciences on or off campus. The Provost’s Office administers the fund. Awarded to Evangeline Adjei-Danquah ’20 and Aqil MacMood ’20.

The Norman Meinkoth Premedical Research Fund was established in 2004 by Marc E. Weksler ’58 and Babette B. Weksler ’58 to honor Norman A. Meinkoth’s long service as a premedical adviser to students at Swarthmore College, where he was professor of biology for 31 years and chairman of the department for 10 years. The funds are awarded on the basis of scientific merit to a rising junior or senior premedical student to allow the pursuit of laboratory research in the sciences on or off campus. The Provost’s Office administers the fund. Awarded to Evangeline Adjei-Danquah ’20 and Aqil MacMood ’20.

The Norman Meinkoth Field Biology Award was established by his friends and former students to honor Dr. Norman A. Meinkoth, a member of the College faculty from 1947 to 1978. It is awarded to support the essential costs of the study of both naturalistic and experimental biological studies in a natural environment. The intent of this fund is to facilitate the joint participation of Swarthmore students and faculty in field biology projects, with priority given to marine biology. The awards are given annually by the Biology Department. Awarded to Colin Perkins-Taylor ’20.

The Norman Meinkoth Premedical Research Fund was established in 2004 by Marc E. Weksler ’58 and Babette B. Weksler ’58 to honor Norman A. Meinkoth’s long service as a premedical adviser to students at Swarthmore College, where he was professor of biology for 31 years and chairman of the department for 10 years. The funds are awarded on the basis of scientific merit to a rising junior or senior premedical student to allow the pursuit of laboratory research in the sciences on or off campus. The Provost’s Office administers the fund. Awarded to Evangeline Adjei-Danquah ’20 and Aqil MacMood ’20.

Mellon Mays Undergraduate Fellowship Program. The Andrew W. Mellon Foundation has provided a grant to establish an undergraduate fellowship program intended to increase the number of minority students, and others, who choose to enroll in doctoral programs and pursue academic careers. The foundation’s grant provides term and summer stipends for students to work with faculty mentors as well as a loan-forgiveness component to reduce undergraduate indebtedness for those fellows who pursue graduate study. The fellowships are limited to the humanities, a few of the social sciences, and selected physical sciences. A faculty selection committee invites nominations of sophomores in February and awards the fellowships in consultation with the dean and provost. Awarded to Ruby Bantariza ’20, Leslie Moreaux ’20, Emma Morgan-Bennett ’20, Ariba Naqvi ’20, and Elyse O’Bannon ’20.

The James H. ’58 and Margaret C. Miller Internship for Environmental Preservation enables a Swarthmore student to engage in meaningful work directed toward the preservation
of the environment, including such activities as environmental education, environmental justice, habitat preservation and restoration, issues dealing with environmentally sustainable technologies and economies, and relevant public policy. This may take the form of an internship with an organization which is committed to a sustainable future. The Nature Conservancy, American Farmland Trust, and Natural Resources Defense Council are current examples of organizations engaging in such work. The Award is intended to encourage a student to explore a career in public policy relating to preserving the environment for future generations. The Lang Center for Civic and Social Responsibility selects the internship recipient. Awarded to William Marchese '20.

The Margaret W. and John M. Moore Endowment was created in September 1999 through the maturity of a life income gift contract. Income from this endowment helps to provide research stipends for the academic year or summer months for selected scholars using the resources of Friends Historical Library and/or the Peace Collection at Swarthmore College. Fellowships awarded to Tessa Hannigan '20, Keton Kakkar '20, Wambui (Marian) Mwenja '20, and Zara Williams-Nicholas '19.

The Lucretia Mott Fellowship was founded by the Somerville Literary Society and is sustained by the contributions of Swarthmore alumnae. It is awarded each year to a senior woman or alumna who is to pursue advanced study in an institution approved by the committee. Applications must be submitted by April 20. Awarded to Ruby Bhattacharya '11, Melanie Braithwaite-Jalloh '07, Christine Jane Emery '16, Anne Fredrickson '07, Paola Monseratt Mero '14, Lauren Mirzakhahlili '15, Natalia Munoz-Cote '12, Sabrina Singh '15 and Aikaterini Stampouloglou '14.

The John W. Nason Community Service Fellowship. The John W. Nason Community Service Fellowship celebrates the contributions of Swarthmore’s eighth president by supporting students pursuing off-campus community service related to their academic program. The Nason Fellowship was initiated by members of the Class of 1945 in anticipation of their 50th reunion. The Nason Fellowship is administered by the Swarthmore Foundation. Awarded to Jasmine Moore '20, Melissa La Noire '20, Brandon Shi '20, Destiny Samuel '22, Kadiatha Diallo '21, Kaitelyn Pasillas '20, Kiara Rosario ‘22, Lucas Barton '21, Pempho Moyo '21, Sarah Wheaton '21, and Sydnie Schwartz '20.

The Helen F. North Fund in Classics, established in 1996 by Susan Willis Ruff '60 and Charles F.C. Ruff '60 to honor the distinguished career of Helen F. North and her enduring impact on generations of Swarthmore students, is awarded to support the program of the Classics Department. At the discretion of the department, it shall be used to fund annually the Helen F. North Distinguished Lectureship in Classics and, as income permits, for a conference or symposium with visiting scholars; summer study of Greek or Latin or research in classics-related areas by students majoring in the field; or study in Greece or Italy in classics by a graduate of the department. Awarded to Tobias Phillip '20, Rebecca Rosenthal '20, and Rebecca Sanders '21.

The Arthur S. Obermayer '52 Summer Internship was established in 2005 and is intended to broaden and enrich the experience of a Swarthmore student. The grant shall be awarded with preference to a domestic student who is studying in a major that may not inherently offer an international opportunity. Awarded to Libby Hoffenberg '20 and Rebecca Rosenthal '20.

The Martin Ostwald Fund in Classics, established in 2012 by John Marincola '76 and other friends and colleagues to memorialize the distinguished career of Martin Ostwald and his enduring impact on generations of Swarthmore students, is awarded to support the program of the Classics Department. At the discretion of the department, it shall be used to fund annually the Martin Ostwald Distinguished Lectureship in Classics, and, as income permits, for a conference or symposium with visiting scholars; summer study of Greek or Latin or research in Classics-related areas by students; or study in Greece or Italy in Classics by a graduate of the department. Not awarded this year.

The Robert F. Pasternack Research Fellowship was established in 2005 by a gift from the estate of Thomas Koch, deceased husband of Jo W. Koch and father of Michael B. Koch '89. The fellowship honors a beloved member of Swarthmore’s Chemistry Department and supports student summer research in chemistry. The fellowship shall be administered by the Provost’s Office. Awarded to Joanne Miao '22.

The J. Roland Pennock Undergraduate Fellowship in Public Affairs. The fellowship, endowed by friends of Professor J. Roland Pennock at his retirement in 1976 and in recognition of his many years of distinguished teaching of political science at Swarthmore, provides a grant to support a substantial research project (which could include inquiry through responsible participation) in public affairs. The fellowship, for Swarthmore undergraduates, would normally be held off campus during the summer. Preference is given to applicants from the junior class. Awarded to Angus Lam '20, Nirav Mehta '20, Emma Morgan-Bennett '20, and Ming Ray Xu '20.

The Penrose International Service Fund provides a stipend to support participation in a project to improve the quality of life of a community outside North America. The project should involve direct interaction with the affected community and be of immediate benefit to them rather than action in support of social change at a
The Petrucci Family Foundation Summer Research Grant in Black Studies is awarded to allow students to pursue research, praxis, and creative development in the arts, humanities, and social and natural sciences and the students must center their experiences of black populations in Africa and/or the Diaspora. Awarded to Brandon Ekweonu '20 and Taylor Tucker '20.

Phi Beta Kappa Fellowship. The Swarthmore Chapter of Phi Beta Kappa (Epsilon of Pennsylvania) awards a fellowship for graduate study to a senior who has been elected to Phi Beta Kappa and has been admitted to a program of advanced study in some branch of the liberal arts. Awarded to Sophia Libkind '14.

The Simon Preisler Memorial Endowment was established in 2006 by Richard A. Barasch '75 and Renee Preisler Barasch to honor the memory of Simon Preisler. Mr. Preisler, Renee’s father, was an Auschwitz survivor, and with this endowment the Baraschs’s wish to create a permanent memorial of the human devastation that occurred during the Holocaust and the lack of adequate global response to the tragedy. The fund supports Ruach at Swarthmore as well as student summer internships and research fellowships in human rights, conflict resolution, and the promotion of peace and understanding. Preference will be given to students pursuing internships and research fellowships related to genocide and other large-scale violent conflicts, projects involving peaceful prevention or intervention, non-violent resistance, or local peacemaking, reconciliation, and healing initiatives. Awarded to Eleanor Naiman '20.

The Project Japan Fund is used to support one student during the summer months to conduct research in Japan on contemporary issues. Awarded to Emily Branam '21 and Siyuan Jiang '21.

The Ruth A. Rand ’56 Summer Research Fellowship was established in 2014 by William K. Wible, together with members of his family and friends, in memory of his wife. The fund is intended to provide enriching learning experiences for Swarthmore students by supporting work, study, or research in the sciences during the summer months. The recipient(s) will be chosen by the Provost’s Office. Awarded to Jean-Baptiste Robert ’21.

The Robert Reynolds and Lucinda Lewis ’70 Endowed Fund for Summer Research was established in 2013. The fund is intended to provide enriching learning experiences for Swarthmore students by supporting work, study, or research in the biological sciences during the summer months. The fund will be administered by the Provost’s Office and awards are made in consultation with faculty in the Biology and Chemistry departments. Awarded to Jack Rubien ’20 and Sarah Weinshel ’22.

The Robbins/Chang Summer Fellowship for Projects combining Big Data and Social Change/Liberal Arts in coordination with the Lang Center. The Internship was established in 2017 by David Robbins ‘83 and Joyce Chang. The fund shall be used to support student participation in fellowships, internships, and other summer opportunities that support our students’ use of big data while working for social change or in connection with the Liberal Arts. The selection will be made by the Lang Center for Civic and Social Responsibility, but is open to all students at Swarthmore. Awarded to Jared Gillen ’20 and Michael Kourakos ’21.

The Sager Fund of Swarthmore College was established in 1988 by alumnus Richard Sager ‘73, a leader in San Diego’s gay community. To combat homophobia and related discrimination, the fund sponsors events that focus on concerns of the lesbian, bisexual, and gay communities and promotes curricular innovation in the field of lesbian and gay studies. The fund also sponsors an annual three-day symposium. The fund is administered by a committee of women and men from the student body, alumni, staff, faculty, and administration. In 2004, Richard Sager created an “internship” to provide funding for students in internships with nonprofit organizations whose primary missions address gay/lesbian/bisexual/transgender issues. The Lang Center for Civic and Social Responsibility administers the internship. Awarded to Dylan Clairmont ’21.

The James H. Scheuer Summer Internship in Environmental and Population Studies Endowment was established in 1990. The Scheuer Summer Internship supports student research in environmental and public policy issues. The coordinators of the environmental studies and public policy concentrations select interns in alternate years. Awarded to Wambui Mwenja ’20 and Lillian Price ’20.

The June Rothman Scott Biology Summer Research Fellowship was established in 2017 by June Rothman Scott ’61. The fund is intended to provide enriching learning experiences for Swarthmore students by supporting off-campus research in Molecular Biology during the summer months. The recipient(s) will be chosen by the Provost’s Office in collaboration with the Biology Department. Student recipients are eligible to
apply for an additional grant (of up to 15% of the current summer stipend value) to cover post-research travel, professional conference and/or meeting registration. Awarded to Noah Cheng '21.

The Robin M. Shapiro '78 Endowed Fund for Summer Research was established in 2013. The fund is intended to provide enriching learning experiences for Swarthmore students by supporting work, study, or research in any field during the summer months. Two fellowships will be administered by the Provost’s Office each summer, and awards are made in consultation with the faculty. Awarded to Daniel Boehmler '20 and Jonathan Solomon '20.

The Somayyah Siddiqi '02 Economics Research Fellowship, for economics research, is funded by T. Paul Schultz '61 in memory of Somayyah Siddiqi '02. Awarded to Julia Ostrowski '21.

The David G. Smith Internship in Health and Social Policy, endowed by alumni, faculty, friends, and former students of David G. Smith, is to support an internship in the social services, with priority for the field of health care, for a Swarthmore undergraduate during the summer or a semester on leave. Awarded to Gilbert Orbea '19.

Solodar Family Science and Engineering Summer Research Fund was established in 2006. The fund supports a summer research fellowship for a Swarthmore student of science or engineering, with a preference toward the chemical sciences. Awarded to Leonora Blodgett '22.

The Starfield Student Research Endowment was established by Barbara Starfield '54 and Phoebe Starfield Leboy '57 in 2004. The fund supports student summer research fellowships in social justice with a preference for students pursuing research in the areas of health services delivery, health policy and social, demographic, and geographic equity. Starfield and Leboy established the fellowships to honor their parents, Martin and Eva Starfield, educators who instilled a love of learning and social justice in their daughters. Awarded to Eleanor Naiman '20.

The Surdna Fellowships were established in 1979 by a gift from the Surdna Foundation and are awarded for summer research by Swarthmore students in collaboration with a faculty member in any department in the Natural Sciences and Engineering Division. Awarded to Sabreen Ahmed '20, Nana Anikuabe '22, Kastan Day '20, Stacy Guan '22, Jason Jin '20, Peem Lerdputtipongporn '21, Emilie Morse '20, Samuel Sheppard '21, and Madison Snyder '21.

The Pat Tarble Summer Research Fund was established in 1986 through the generosity of Mrs. Newton E. Tarble. The Tarble Summer Fund supports undergraduate research. The Provost’s Office administers the fund. Awarded to Madison Bowe '21, Kenny Chen '22, Jae Tak Kim '21, Matiwos Mebratu '21, Judah Raab '21, Michael Selvaggio '21, Yifan Yan '22, and Eric Zhang '22.

The Martha E. Tyson Fellowship was founded by the Somerville Literary Society in 1913 and is sustained by the contributions of Swarthmore alumnae. It is awarded each year to a senior woman or alumna who plans to enter elementary or secondary-school work. The recipient of the award is to pursue a course of study in an institution approved by the committee. Applications must be submitted by April 20. Awarded to Samantha Stevens '15.

The Hans Wallach Research Fellowship, endowed in 1991 by colleagues and friends, honors the eminent psychologist Hans Wallach (1904-1998), who was a distinguished member of the Swarthmore faculty for more than 60 years. The fellowship supports one outstanding summer research project in psychology for a rising Swarthmore College senior or junior, with preference given to a project leading to a senior thesis. Awarded to Sadie Camilliere '20 and Francesco Massari '21.

The Ann Trimble Warren '38 and Sally A. Warren '65 Fund was established in 2017 by Sally Warren. The Fund is intended to provide enriching learning experiences for Swarthmore students by enabling them to further their pursuit of the Arts, including performing, work, study, or research during the summer months, with a preference given to production in the arts. The Fund supports summer experiences in Studio Arts, Music and Dance, Theater, and Art History, but not Film and Media Studies. The recipient(s) will be currently enrolled students selected by the Office of the Provost through an application process in consultation with the arts departments specified in this agreement. Awarded to Shira Samuels-Shragg '20.

17.7 Faculty Fellowships and Support

The Mary Albertson Faculty Fellowship was endowed by an anonymous gift from two of her former students, under a challenge grant issued by the National Endowment for the Humanities. It will provide an annual award of a semester’s leave at full pay to support research and writing by members of the humanities faculty. Mary Albertson joined the Swarthmore faculty in 1927 and served as chair of the History Department from 1942 until her retirement in 1963. She died in May 1986.

The Janice Robb Anderson '42 Junior Faculty Research Endowment was established by Janice Robb Anderson '42 in 2001. The Anderson endowment supports faculty research, with preference for junior faculty members in the humanities whose research requires study abroad.

The George Becker Faculty Fellowship was endowed by Ramon Posel ’50 under a challenge
17 Distinctions, Awards, and Fellowships

from the National Endowment for the Humanities, in honor of this former member of the English Department and its chairman from 1953 to 1970. The fellowship will provide a semester of leave at full pay for a member of the humanities faculty to do research and write, in the fields of art history, classics, English literature, history, linguistics, modern languages, music, philosophy, or religion but with preference given to members of the Department of English Literature.

The Brand Blanshard Faculty Fellowship is an endowed faculty fellowship in the humanities established in the name of philosopher and former faculty member Brand Blanshard, who taught philosophy at Swarthmore from 1925 to 1944. The fellowship will provide a semester leave at full pay for a member of the humanities faculty to do research and to write. On recommendation of the Selection Committee, a small additional grant may be available for travel and project expenses. Any humanities faculty member eligible for leave may apply. Fellows will prepare a paper about the work of their leave year and present it publicly to the College and wider community. The Blanshard Fellowship is made possible by an anonymous donor who was Blanshard’s student at Swarthmore, and a challenge grant from the National Endowment for the Humanities.

The Constance Hungerford Faculty Support Fund was established in 2007 by Eugene M. Lang ’38 to recognize Constance Cain Hungerford for her dedicated service as provost and faculty leader and for her outstanding contributions to Swarthmore’s educational program. Connie Hungerford, an art historian, joined the Art Department in 1974 and served as provost from 2001 to 2011. This fund allows the provost to make grants to individual faculty members to support their professional responsibilities and scholarly and creative careers. Awarded to Sean Emery ’20.

The Robert L. Jones ’75 and Catherine A. Rivlin ’79 Faculty Research Fund, established in 2017, supports faculty research at Swarthmore College on an unrestricted basis. This fund is administered by the Provost’s Office.

The Eugene M. Lang Faculty Fellowship is designed to enhance the educational program of Swarthmore College by contributing to faculty development, by promoting original or innovative scholarly achievement of faculty members, and by encouraging the use of such achievements to stimulate intellectual exchange among scholars. The fellowship will provide financial support for faculty leaves through a grant of about one-half the recipient’s salary during the grant year. On recommendation of the Selection Committee, a small additional grant may be available for travel and project expenses and for library book purchases. The Selection Committee shall consist of the provost, three divisional chairs, and three others selected by the president, of whom at least two must be Swarthmore alumni. Any faculty member eligible for leave may apply. Fellows will be expected to prepare a paper or papers resulting from the work of their leave year, presented publicly for the College and wider community. The Selection Committee may wholly or partially support the cost of publishing any of these papers. These fellowships are made possible by an endowment established by Eugene M. Lang ’38.
Endowed Chairs

The Edmund Allen Professorship of Chemistry was established in 1938 by a trust set up by his daughter Laura Allen, friend of the College and niece of Rachel Hillborn, who served on the Board of Managers from 1887 to 1913.

The Franklin E. and Betty Barr Chair in Economics was established in 1989 as a memorial to Franklin E. Barr Jr. ’48 by his wife, Betty Barr.

The Alfred H. and Peggi Bloom Professorship was established in 2002 by Eugene M. Lang ’38 in honor of President Alfred H. and Peggi Bloom.

The Albert L. and Edna Pownall Buffington Professorship was established in 1938 by a trust set up by his daughter Laura Allen, friend of the College and was established in 1905 by Morris L. Clothier, a member of the Board of Managers.

The Franklin E. and Betty Barr Chair in Economics was established in 1989 as a memorial to Franklin E. Barr Jr. ’48 by his wife, Betty Barr.

The Howard N. and Ada J. Eavenson Professorship in Engineering was established in 1959 by Mrs. Eavenson, whose husband graduated in 1895.

The Neil R. Grabois ’57 Professorship was established in 2010 by Eugene M. Lang ’38 to honor Neil Grabois, mathematician and educator. This fund supports a professorship in the division of natural sciences and engineering, with a preference for a member of the mathematics department.

The James H. Hammons Professorship was established in 1997 by Jeffrey A. Wolfson ’75, to recognize the inspiring academic and personal guidance provided by James H. Hammons, professor of chemistry, who began his distinguished teaching career at Swarthmore in 1964. The professorship may be awarded in any division, with preference given to the Chemistry Department.

The Elizabeth and Sumner Hayward Professorship was established by Priscilla Hayward Crago ’53 in 2013 in memory of her parents, Elizabeth and Sumner Hayward. This fund supports a full professorship awarded to an existing professor with preference for, in order, psychology, sociology, anthropology, English, Romance languages, or linguistics.

The James C. Hormel Professorship in Social Justice, established in 1995 by a gift from James C. Hormel ’55, is awarded to a professor in any academic division whose teaching and scholarship stimulate increased concern for and understanding of social justice issues, including those pertaining to sexual orientation.

The Howard M. and Charles F. Jenkins Professorship of Quakerism and Peace Studies was endowed in 1924 by Charles F. Jenkins H’26 and a member of the Board of Managers, on behalf of the family of Howard M. Jenkins, a member of the Board of Managers, to increase the usefulness of the Friends Historical Library and to stimulate interest in American and Colonial history with special reference to Pennsylvania. The fund was added to over the years through the efforts of the Jenkins family and by a 1976 bequest from C. Marshall Taylor, Class of 1904.

The Walter Kemp Professorship in the Natural Sciences was established in 2006 by Giles K. "Gil" ’72 and Barbara Guss Kemp. Gil and Barbara wanted to honor Gil’s father, a retired psychiatrist, who "has always been an inspiration" and "a great believer in both science and education." The professorship is awarded with particular regard for combining professional engagement with excellence in teaching.

The William R. Kenan Jr. Professorships were established in 1973 by a grant from the William R. Kenan Jr. Charitable Trust to "support and encourage a scholar-teacher whose enthusiasm for learning, commitment to teaching, and sincere
personal interest in students will enhance the learning process and make an effective contribution to the undergraduate community."

The Eugene M. Lang Research Professorship was established in 1981 by Eugene M. Lang '38, a member of the Board of Managers, normally rotates every four years among members of the Swarthmore faculty and includes one year devoted entirely to research, study, enrichment, or writing. It carries an annual discretionary grant for research expenses, books, and materials.

The Eugene M. Lang Visiting Professorship, endowed in 1981 by Eugene M. Lang '38, brings to Swarthmore College for a period of one semester to 3 years an outstanding social scientist or other suitably qualified person who has achieved prominence and special recognition in the area of social change.

The Jane Lang Professorship in Music was established by Eugene M. Lang '38, to honor his daughter, Jane Lang '67. The Jane Lang Professorship is awarded to a member of the faculty whose teaching or professional activity promotes the centrality of music in the educational process by linking it to other disciplines.

The Stephen Lang Professorship of Performing Arts was established by Eugene M. Lang '38, to honor his son, Stephen Lang '73. The Stephen Lang Professorship of Performing Arts is awarded for five years to a member of the faculty whose teaching or professional activity promotes excellence in the performing arts at Swarthmore.

The Sara Lawrence Lightfoot Professorship was created by the College in 1992 in recognition of an unrestricted gift by James A. Michener '29. The professorship is named in honor of Sara Lawrence Lightfoot '66, Doctor of Humane Letters, 1989, and a former member of the Board of Managers.

The Susan W. Lippincott Professorship of Modern and Classical Languages was endowed in 1911 through a bequest from Susan W. Lippincott, a member of the Board of Managers, a contribution from her niece, Caroline Lippincott, Class of 1881, and gifts from other family members.

The Edward Hicks Magill Professorship of Mathematics and Natural Sciences was created in 1888 largely by contributions of interested friends of Edward H. Magill, president of the College from 1872 to 1889, and a bequest from John M. George.

The Charles and Harriett Cox McDowell Professorship of Philosophy and Religion was established in 1952 by Harriett Cox McDowell, Class of 1887 and a member of the Board of Managers, in her name and that of her husband, Dr. Charles McDowell, Class of 1877.

The Mari S. Michener Professorship was created by the College in 1992 to honor Mrs. Michener, wife of James A. Michener '29, and in recognition of his unrestricted gift.

The Gil and Frank Mustin Professorship was established by Gilbert B. Mustin '42 and Frank H. Mustin '44 in 1990. It is unrestricted as to field.

The Richter Professorship of Political Science was established in 1962 by a bequest from Max Richter at the suggestion of his friend and attorney, Charles Segal, father of Robert L. Segal '46 and Andrew Segal '50.

The Scheuer Family Chair of Humanities was created in 1987 through the gifts of James H. Scheuer '42; Walter and Marge Pearlman Scheuer '48; and their children, Laura Lee '73, Elizabeth Helen '75, Jeffrey '75, and Susan '78 and joined by a challenge grant from The National Endowment for the Humanities.

The Howard A. Schneiderman '48 Professorship in Biology was established by his wife, Audrey M. Schneiderman, to be awarded to a professor in the Biology Department.

The Claude C. Smith '14 Professorship was established in 1996 by members of the Smith family and friends of Mr. Smith. A graduate of the Class of 1914, Claude Smith was an esteemed lawyer with the firm of Duane, Morris and Heckscher and was active at the College, including serving as chairman of the Board of Managers. This chair is awarded to a member of the Political Science or Economics departments.

The Henry C. and Charlotte Turner Professorship was established in 1998 by the Turner family. Henry C. Turner, Class of 1893 and J. Archer Turner, Class of 1905, served as members of the Board of Managers of Swarthmore College, as officers of the corporation, and as members of various committees. Henry Turner was founder of the Turner Construction Co.; his brother, J. Archer Turner, was the firm’s president. Four generations of Turners have had ties with the College, and Sue Thomas Turner '35, wife of Robert C. Turner '36 (son of Henry C. Turner), is a board member emerita. Howard Turner '33, son of J. Archer Turner, has also been very active as a member of the Board of Managers over the years.

The J. Archer and Helen C. Turner Professorship was established in 1998 by the Turner family. Henry C. Turner, Class of 1893 and J. Archer Turner, Class of 1905, served as members of the Board of Managers of Swarthmore College, as officers of the corporation, and as members of various committees. Henry Turner was founder of the Turner Construction Co.; his brother, J. Archer Turner, was the firm’s president. Four generations of Turners have had ties with the College, and Sue Thomas Turner '35, wife of Robert C. Turner '36 (son of Henry C. Turner), is a board member emerita. Howard Turner '33, son of J. Archer Turner, has also been very active as a member of the Board of Managers over the years.

The Scheuer Family Chair of Humanities was created in 1987 through the gifts of James H. Scheuer '42; Walter and Marge Pearlman Scheuer '48; and their children, Laura Lee '73, Elizabeth Helen '75, Jeffrey '75, and Susan '78 and joined by a challenge grant from The National Endowment for the Humanities.

The Henry C. and Charlotte Turner Professorship was established in 1998 by the Turner family. Henry C. Turner, Class of 1893 and J. Archer Turner, Class of 1905, served as members of the Board of Managers of Swarthmore College, as officers of the corporation, and as members of various committees. Henry Turner was founder of the Turner Construction Co.; his brother, J. Archer Turner, was the firm’s president. Four generations of Turners have had ties with the College, and Sue Thomas Turner '35, wife of Robert C. Turner '36 (son of Henry C. Turner), is a board member emerita. Howard Turner '33, son of J. Archer Turner, has also been very active as a member of the Board of Managers over the years.

The J. Archer and Helen C. Turner Professorship was established in 1998 by the Turner family. Henry C. Turner, Class of 1893 and J. Archer Turner, Class of 1905, served as members of the Board of Managers of Swarthmore College, as officers of the corporation, and as members of various committees. Henry Turner was founder of the Turner Construction Co.; his brother, J. Archer Turner, was the firm’s president. Four generations of Turners have had ties with the College, and Sue Thomas Turner '35, wife of Robert C. Turner '36 (son of Henry C. Turner), is a board member emerita. Howard Turner '33, son of J. Archer Turner, has also been very active as a member of the Board of Managers over the years.

The Henry C. and J. Archer Turner Professorship in Engineering was established with contributions and gifts from members of the
Turner family in 1946 in recognition of the devoted service and wise counsel of Henry C. Turner, Class of 1893 and his brother, J. Archer Turner, Class of 1905. Both were members of the Board of Managers.

**The Daniel Underhill Professorship of Music** was established in 1976 by a bequest from Bertha Underhill to honor her husband, Class of 1894 and a member of the Board of Managers.

**The Marian Snyder Ware Director of Physical Education and Athletics** was endowed in 1990 by Marian Snyder Ware ’38.

**The Joseph Wharton Professorship of Political Economy** was endowed by a trust given to the College in 1888 by Joseph Wharton, chair of the Board of Managers.

**The Isaiah V. Williamson Professorship of Civil and Mechanical Engineering** was endowed in 1888 by a gift from Isaiah V. Williamson.

</table>

NOTE: These counts include 88 students studying abroad.
The semester course credit is the unit of credit. One semester course credit is normally equivalent to 4 semester hours elsewhere. Upper-class seminars and colloquia are usually given for 2 semester course credits. A few courses are given for 0.5 credit.

Courses are numbered as follows:

- 001 to 010: Introductory courses
- 011 to 099: Other courses (Some of these courses are not open to first-year students or sophomores.)
- 100 to 199: Seminars for upper-class students and graduate students.

The numbers for yearlong courses are joined by a hyphen (e.g., 001-002) and must be continued for the entire year. For introductory language yearlong courses, credit is not given for the first semester's work only, nor is credit given for the first semester if the student fails the second semester. In cases where credit is not earned for the second half of a yearlong course, the first semester is excluded from counting toward degree credit, although the registration and grade for the first semester remain on the permanent record.

Course listings in this catalog are intended to facilitate planning, but are subject to change. A better guide to course offerings in any particular semester is the schedule of courses available at the Registrar's website www.swarthmore.edu/Admin/registrar/.

**Credit Policy**

**Academic Period:** Swarthmore College uses the semester course credit system, and lists semester course credits on the official Swarthmore College transcript. Excluding holidays, Swarthmore College has two semesters of fourteen or fifteen weeks, thirteen or fourteen instructional weeks including a mid-semester break, and one week of final examinations.

**Recommended instructional time:** Our official normal student work load is four course credits per semester. One unit of Swarthmore College credit normally represents three to four hours of class or seminar time, with conference sessions and laboratory periods in addition. Conference sections, professor-lead additional study sessions, and laboratories are usually three hours or more in length, and are not reflected on the transcript, but occur in many courses.

**Recommended out of class time requirements:** We advise students to plan to spend two to three hours of work for every hour of class attended. Our research shows that Swarthmore College students typically work at least two hours outside of class preparing for every hour of class attended. The typical student attends class or seminar for 12 or more hours per week, and prepares for class or seminar at least 24 hours per week.

The Academic Program

THE MAJORS: The Department of Art & Art History offers two majors: Art History and Art. The Art History Major consists of eight credits in art history (ARTH) and one credit in studio art (ARTT). The Art Major consists of seven credits in studio art (ARTT) and three credits in art history (ARTH).

First Course Recommendations

The Art Major:
ARTT 001. Foundation Drawing
This (1) credit course is designed as an introduction to drawing as the basis for visual thinking and perception. The class will focus on concepts and practices surrounding the use of drawing as a visual language rather than as a preliminary or planning process. Whether students are interested in photography, painting, pottery, sculpture, installation or performance, the ability to design and compose visually is fundamental to their development. The course follows a sequence of studies that introduces students to basic drawing media and compositional elements while they also learn to see inventively. This course is a prerequisite for all other courses in studio art.

ARTT 002 First-Year Seminar
This (1) credit studio art experience is designed for first-year students who have demonstrated through a portfolio presentation their knowledge of the elements of design, composition, and visual thinking. The course follows a sequence of studies that introduces students to basic drawing media and compositional elements while they also learn to see inventively. This course is a prerequisite for all other courses in studio art.

The Art History Major:
Most Art History courses do not have pre-requisites, except for 2-credit seminars that are intended for juniors and seniors. While students may elect mid-level topics that interest them, we recommend that for a 1st course students take either a First Year Seminar or an introductory survey. These courses are valuable even for students who may arrive with AP credit.

A First Year Seminar introduces students to the discipline of art history - questions, methods of inquiry - through an in-depth focus on a topic such as "Architecture of Philadelphia," "Animation in East Asia" or "Michelangelo." There is no presumption of prior study of art history or engagement with studio arts; the course is ideal for art history and studio students, but equally for those who may not think they will take other art history courses (though they may, completing a major or minor). Limited to 12 students, these courses foreground discussion and individual and group presentations, as well as writing.

Introductory surveys focus on broader coverage of major topics in art history: Western Tradition (ARTH 002), Asian Art (ARTH 003), Modern Art in Europe and the US (ARTH 005), Global History of Architecture: 1800-Present (ARTH 073). With slightly larger enrollments, these courses may be more lecture-driven, but also entail writing and often discussion.
**Course Major**

**REQUIREMENTS FOR ADMISSION TO THE MAJORS**

**ART HISTORY:**
1. Overall average of C or better in all courses taken during the two semesters preceding the time of application.
2. Completion of at least two courses in art history at Swarthmore with grades of B or better. For a double major the grade minimum is also B.

**ART:**
1. Overall average of C or better in all courses taken during the two semesters preceding the time of application. For a Double Major the overall average must be B.
2. Completion of at least one course in art history and one course in studio art at Swarthmore with grades of B or better.
3. A student may be asked to present a portfolio as evidence of ability to see, describe, and analyze visual phenomena critically.

**Art History**
All Art History Majors, Course and Honors, are required to take 9 credits to fulfill major requirements. Nine credits must include one 2-credit seminar and the following:
1. ARTH 002: The Western Tradition (students are encouraged to take this early in their major program)
2. One course or seminar on art in the western tradition post-1800
3. One course or seminar on art outside the western tradition
4. ARTH 095: Cracking Visual Codes (strongly recommended in the junior year)
5. One credit in studio art

The remaining four credits will consist of other 1-credit art history courses and/or 2-credit art history seminars and/or a 2-credit thesis. For those majors considering graduate study in art history, it is strongly advisable to choose a series of courses that will provide geographical and historical breadth.

**The Comprehensive Requirement**
During the senior year, Course Majors will complete a comprehensive project. The requirement can also be satisfied by a 2-credit thesis (ARTH 097).

**Art**
All Art Majors, in both Course and Honors Programs, are required to take 10 courses to fulfill major requirements:
1. Seven credits of studio art and three credits of art history, which must include ARTH 002 The Western Tradition:
   - ARTT 001 Foundation Drawing, (Or, ARTT 002 First-Year Seminar: Drawing)
   - A level I 2-D course
   - A level I 3-D course
   - A level II course, (2D or 3D)
   - A level II course, (2D or 3D)
   - ARTT 090 Senior Workshop I
   - ARTT 091 Senior Workshop II
2. Art majors can complete an art history minor as well with the completion of 4 art history credits in addition to those required by their art major.
   - Five credits in studio art must be completed before entry to ARTT 090 Senior Thesis Workshop I.
   - Students are encouraged to consult with professors and advisors about art history selections relevant to their interests.
   - The Senior Art Major is required to mount a one-person exhibition in the school gallery representing a culmination in their studio work. This exhibition-and accompanying artist statement (of no less than 2500 words), is the comprehensive examination for the art major. Senior exhibitions are scheduled during the last weeks of the spring semester each year.
   - **There is no course minor in art.**

**Course Minor**

**Art History Minor**
The course minor in art history will consist of 5 credits in art history; four of the 5 credits must be taken at Swarthmore. Art majors can complete an art history minor with the completion of 4 art history credits in addition to those required by their art major.

**Honors**

**Honors in Art History**
Requirements for admission to Honors do not differ from those for admission to the Course Major. Once admitted to the Honors Major, students will be expected to maintain an average of B+ or better in all courses in art history.

**Major**
1. An Honors Major in Art History requires three 2-credit preparations, consisting of three 2-credit seminars. The normal prerequisite for any art history seminar is 2 credits of previous art history course work. Each seminar will be examined in a three-hour written examination and an individual 30-minute oral.
2. An Honors Major in Art History must fulfill the requirements for a 9-credit Course Major.

Minor
An Honors Minor in Art History will take one 2-credit seminar, and must have done at least two other courses in Art History. Only one of those credits can be a transfer credit.

Honors in Art
Requirements for admission to Honors do not differ from those for admission to the Course Major. Students will be expected to maintain an average of B+ or better in all courses in studio art.

Major
1. An Honors Major in Art will present 2 preparations in studio art and 1 preparation in art history.
2. Each of the two studio preparations will consist of two paired studio courses. The examiner of each preparation will receive the syllabus for both courses and slides representing the body of work produced in them and will examine the student in an individual oral examination of 30 minutes.
   a. One preparation pair will consist of ARTT 030 Senior Workshop I and ARTT 040 Senior Workshop II.
   b. The second pair might consist of an intermediate and an advanced course in a specific medium OR two courses with a different approach to the same medium (ex: Pottery and Ceramic Sculpture, Drawing and Life Drawing), OR two related courses (ex: Ceramic Sculpture and Sculpture, Drawing and Photography, Drawing and Works on Paper, Drawing and Painting).

ALL PREPARATIONS FOR HONORS MUST BE APPROVED IN ADVANCE BY THE DEPARTMENT.
- Studio courses taken at an institution outside of Swarthmore cannot count towards an honors studio preparation.
- Only courses taught by regularly teaching faculty in studio art can be applied toward a preparation. Courses taught by regularly returning adjuncts might be applied pending department approval.
- Honors preparations approved in the sophomore year must be adhered to. Any later changes to your program as it relates to preparations, must be approved by the department.
3. The preparation in art history will consist of one 2-credit seminar.
   a. The prerequisite for any art history seminar is 2 previous credits in art history, including ARTH 002.
   b. All Majors in Art, whether Course or Honors, must do 3 credits of art history work. Studio faculty may recommend particular art history courses as most relevant to a student’s studio interests.
4. Honors candidates in Art must fulfill the Course Major Requirements. The prerequisite for all studio work, unless waived, is ARTT 001. The distribution requirements for 2-D and 3-D for the Honors Major in Art are the same as those in course.
5. Honors study in Art is comprised of a culminating exhibition of the student’s studio work, with an accompanying artist essay of 3750 to 5000 words. Some of this work may figure in the selections of work presented for one or both of the course pairs described above, but the rationale for inclusion in the exhibition will differ. The artist essay will be sent to both examiners of studio preparations. A revision of a paper written previously for the art history preparation will be sent to the art history examiner. The senior honors study essay will differ from the artist essay written by course students in that it will integrate the preparations in studio and art history.
   1. The SHS essay will differ from the artist essay written by course students in that it will integrate the preparations in studio and art history.
   2. For Honors Majors, ARTT 040 will count outside the Major for purposes of calculating the 20-course rule, since it serves as Senior Honors Study. It will be listed on the transcript not as ARTT 040 but as Senior Honors Study.
   3. If a student drops out of Honors after the drop/add period in the last semester, the SHS credit will receive a grade of NC. Senior Workshop II (ARTT 040), assuming it had been successfully completed in the Spring, will then be listed on the transcript with the appropriate grade.
   4. WARNING: if a student drops out of Honors, Senior Workshop II no longer counts as outside the major, but as within. A student who has taken 12 other credits within the department, and who is graduating with the minimum of 32 credits will then have 13 in the major and only 19 outside. Honors Art Majors should be especially careful to take enough credits outside the department if they contemplate withdrawing from Honors.

Minor
1. An Honors Minor in Art will present to the honors examiners one studio preparation
consisting of ARTT 030 Senior Workshop I and ARTT 040 Senior Workshop II.

2. An Honors Minor in Art must fulfill the requirements for the Course Major in studio art (see Major in Art.)

3. During the Spring semester of the senior year a minor will write a 2500 word artist essay to be sent to the examiner, along with the relevant syllabi and slides for the two-credit preparation.

**Major Application Process**

*R *requirements for admission to the majors:

**Art History**

1. Overall average of C or better in all courses taken during the two semesters preceding the time of application.

2. Completion of at least two courses in art history at Swarthmore with grades of B or better. For a double major the grade minimum is also B.

**Art**

1. Overall average of B or better in all courses taken during the two semesters preceding the time of application. For a double major the overall average must be B.

2. Completion of at least one course in art history and one course in studio art at Swarthmore with grades of B or better.

3. A student may be asked to present a portfolio as evidence of ability to see, describe, and analyze visual phenomena critically.

**Art Department Majors and the 20-Course Rule**

It is a college requirement that 20 of the 32 credits required for graduation must be OUTSIDE the major. This means that one can take no more than 12 courses in the major, unless one graduates with more than 32 credits, in which case the surplus can also be in the major.

For Art History Majors, the one required credit of studio art course work counts as within the Major, but additional credits of studio art count as outside. Thus, an Art History Major graduating with 32 credits could take no more than 3 additional art history credits beyond the 8 art history credits that are required for the Major. But an Art History Major could take as many more studio credits as desired.

For Art Majors, the required 3 credits in art history count within the major, but additional credits in art history count outside the major.

**Advanced Placement Credit**

Credit for an AP5 will be given upon completion of an art history course in the department. For majors this credit will cover the requirement for ARTH 002.

**Transfer Credit**

A maximum of two transfer credits will count toward the major, either from study abroad or other U.S. institutions. Students transferring into Swarthmore from another institution should consult with the art history coordinator regarding their specific situation.

**Off-Campus Study**

The Art Department strongly encourages those with an interest in art and its history to consider incorporating study abroad--either during a summer or a regular academic term--into their Swarthmore program. Important examples of art and architecture are scattered throughout the world, and the encounter with works still imbedded in their original context is vital to an understanding of their historical and contemporary significance. Past experience has shown, however, that art courses in most foreign study programs fall considerably below the academic standards of comparable courses at Swarthmore. Students who are interested in bettering their chances of gaining a full Swarthmore credit for a course taken in a foreign program are advised to meet with the Art Coordinator and/or the Art History Coordinator before leaving the campus. PLEASE NOTE: to receive transfer credits in art history, you must have taken at least one art history course at Swarthmore (normally before going abroad).

**Art History Courses**

ARTH 001C. First-Year Seminar: Making Art History

Are works of art direct extensions, pure reflections, or unique expressions of an individual artist’s genius, fragile by implication and susceptible to destruction from over analysis? Or are works of art (as well as the definition just offered) cultural artifacts produced under specific material and social conditions, and fully meaningful only under extended analysis? Must we choose? And are these questions themselves, and the talk they generate or suppress, yet another manifestation of the Western European and American commodification of art, its production, and its consumption? Such questions will underlie this introduction to the goals, methods, and history of art history. Focusing on works drawn from a variety of cultures and epochs, as well as on the art historical and critical attention those works have attracted, students will learn to describe, analyze, and interpret both images and their interpretations and to convey their own assessments in lucid writing and speaking.

Humanities.

Writing course.

1 credit.
ARTH 001D. First-Year Seminar: Architecture of Philadelphia
Philadelphia offers a virtual hall of fame of architectural and urban history. Even a cursory list touches on many of the major developments in the built environment over the last five centuries and beyond: William Penn’s Philadelphia Plan; Independence Hall; Eastern State Penitentiary; Levittown; Society Hill; the Vanna Venturi House; and the Barnes Foundation. This discussion-based seminar turns to this history not only to understand the architecture of one important metropolitan area, but to understand how these examples can teach about broader themes including the history of land use and planning, the industrial and urban revolutions, social struggle and social change, public memory, metropolitan growth and urban renewal, and aesthetic and formal innovation. Through field trips, archival research, critical interpretation of interdisciplinary sources, and writing assignments, students will learn the foundational methods of architectural history as well as many of the major cultural and social forces that have shaped it.

Humanities.
Writing course.
1 credit.
Fall 2019. Staff.
Fall 2020. Goldstein.

ARTH 001M. First-Year Seminar: Leonardo: Artist, Engineer, Architect, and Anatomist
Leonardo da Vinci was a great anatomist, engineer, architect and inventor whose drawings circulated around the courts of Europe. In this discussion-based course we will study the inventions, writings, paintings, drawings and biographies of this important Renaissance artist. We will consider the ways in which the works, biographies, and myths of Leonardo have been analyzed (and created) over the centuries. In doing so, we will develop a critical understanding of the methods and terminology of the discipline of art history itself.

Humanities.

1 credit.
Fall 2019. Staff.
Fall 2020. Lee.

ARTH 002. The Western Tradition
This course provides an introduction to Mediterranean and European art from prehistoric cave painting to the 18th century. We will consider a variety of media—from painting, sculpture, and architecture to ceramics, mosaic, metalwork, prints, and earthworks. The goal of this course is to provide a chronology of the major works in the Western tradition and to provide the vocabulary and methodologies necessary to analyze these works of art closely in light of the material, historical, religious, social, and cultural circumstances in which they were produced and received. We will give attention to the use and status of materials; the representation of social relations, gender, religion, and politics; the context in which works of art were used and displayed; and the critical response these works elicited.

Humanities.
1 credit.
Eligible for MDST, GLBL-Paired
Fall 2019. Reilly.
Fall 2020. Staff.

ARTH 003. Asian Art: Past and Present
This course provides a thematic introduction to the arts of India, China, Korea, and Japan from prehistoric times to the present. Through explorations of select works of calligraphy, painting, prints, ceramics, sculpture, and architecture, this course aims to familiarize students with artistic vocabularies and conventions, sociocultural contexts of production and consumption, and tools of art historical analysis. Particular focus will be given to the interrelationships between art, religion, philosophy, and literature.

Humanities.
1 credit.
Eligible for ASIA
Fall 2019. Lee.
Fall 2020. Lee.

ARTH 004. First Year Seminar: Brought to Life: The Art of Animation in East Asia
Eligible for ASIA
Fall 2019. Lee.

ARTH 005. Modern Art in Europe and the United States
This course surveys Western European and American art from the late 18th century to the 1960s. It introduces significant artists and art movements in their social and political contexts and also focuses attention on art historical approaches that have been developed to interpret this art, including socio-economic and feminist perspectives.

Humanities.
1 credit.
Eligible for GMST, GLBL-Paired
Fall 2019. Staff.
Fall 2020. Hungerford.

ARTH 006. Contemporary Art
This course takes a focused look at European and American art from 1945 to the present, a period during which most conventional meanings and methods of art were challenged or rejected. Beginning with the brushstrokes of abstract expressionism and continuing through to the bitmaps of today’s digital art, we consider the changing status of artists, artworks, and institutions. Emphasis will be placed on critical understanding of theoretical and historical foundations for these shifts.

Fall 2020. Staff.

ARTH 019. Contemporary Art
Humanities.
1 credit.
Eligible for GMST

ARTH 021. Art and Technology
This course examines the intersections of art and technology across a wide range of art and popular media. Beginning with an exploration of a set of aesthetic and cultural production that includes 16th century woodcuts, 17th century cabinets of curiosity, 18th century magic lantern shows, and 19th century stereoscopes and panoramas, the course will provide historical context for a consideration of the role that various forms of technology have played in shaping art and culture in the 20th and 21st century. Through class trips to local museums and galleries, classroom and online discussions, guest lectures, readings, screenings, and creative experiments in art and technology, this course will reflect on emerging technologies and their historical origins to understand the ways in which the relationships between humans and machines continue to evolve in our contemporary cultural context.

Humanities.
1 credit.
Spring 2020. Staff.

ARTH 026. Colloquium: Art Chemistry and Conservation
This interdisciplinary course explores the intersection of chemistry with the visual arts. During the course of the semester we will learn about the materials available to artists, issues faced by museum curators and conservators, and some basic chemistry concepts related to these topics. Our exploration of the chemistry, and history, of art media will include labs that extend and enhance the lecture topics.

Humanities.
1 credit.

ARTH 027. Colloquium: Exhibiting Women
The course considers the history and practice of exhibiting art. Using Philadelphia’s rich array of museums, galleries, and public art collections, we will examine past and present exhibition practices to ask: what educational, aesthetic, and political purposes do exhibitions serve? How have they done so and why? How do exhibition curators and designers use space, design, and technology to contribute to—and control—the experience of the visitor? As part of this course students will conceive, design, and execute a virtual exhibition.

Humanities.
1 credit.

ARTH 028. Replication in Chinese Art
The making of duplicates informs a long tradition of artistic productions in China. This course explores diverse modes and technologies of reproduction, bringing into focus the function and cultural value of the copy in the history of Chinese art and visual culture. Through case studies of replications of painting, calligraphy, sculpture, film, architecture, ritual and religious art, we will consider a range of motivations for making copies that often became something more than just mindless imitation, serving as integral components of an artist’s training, as acts of piety, as forms of preservation and documentation, as agents of dissemination, and as homage to artists and calligraphers of the past. As we study multiples made from the Bronze Age to contemporary China, we will pay close attention to the different processes of reproduction, examining how technique and material shape not only the duplicate produced but also the varied perception of the practice of copying.

Humanities.
1 credit.

ARTH 029. Colloquium: Architecture of Philadelphia
Swarthmore sits amidst a hall of fame of architectural and urban history. This course turns to this history not simply to understand the architecture of one important metropolitan area, but to understand how these examples can teach about broader themes including the history of city planning, the industrial and urban revolutions, the search for “American” architectural styles, metropolitan growth and urban renewal, the ascent of modernism, the emergence of postmodernism, and historic preservation, among others. Students will learn both foundational methods of architectural history as well as many of the major movements that have constituted it.

Humanities.
1 credit.

ARTH 031. Arts of China
1 credit.

ARTH 037. Modern & Contemporary Chinese Art
This course explores Chinese art and visual culture from the late nineteenth century to the present. It surveys key artists, movements, landmark exhibitions, major debates and issues to trace the contours of the modern and contemporary art scene, focusing on intercultural encounters beginning from the era of international treaty ports to contemporary global art circuit. By studying works across media in tandem with primary sources including artist writings, group manifestoes, and exhibition statements, we consider how artistic concerns engaged with the unfolding seismic sociopolitical and economic
transformations in China, as well as with an expanding art world and art market.

Option: Honors Attachment
Humanities.
1 credit.
Eligible for ASIA.

ARTH 040. Michelangelo to Mussolini: Classical Tradition in Rome
This course considers how artists and patrons in Rome (and beyond) imitated, reinterpreted, and challenged the classical tradition of art and architecture-and to what ends. I will first provide students with a foundational knowledge of the Greco-Roman tradition and then we will analyze how artists and architects from the Renaissance to the twelfth-century employed this tradition to promote the agendas of popes, bankers, kings and dictators. For the final project, students will analyze an example of how the "neoclassical" project took form in other countries, such as Germany, Russia, England and the United States.

Option: Honors attachment
Humanities.
1 credit.
Spring 2021. Staff.

ARTH 041. Arts of Japan
1 credit.

ARTH 042. History of Photography in East Asia
1 credit.

ARTH 043. Colloq: Tricks and Deception
1 credit.
Fall 2020. Lee.

ARTH 044. Contemporary Art in Asia
1 credit.

ARTH 046. Socially Engaged Art in the Americas
Can art change the world? Questions about the impact of art in the social fabric are constitutive of the idea of avant-garde art. This course will introduce students to these debates as they took shape in the American continent since 1960. With an emphasis on forms of art practice that outspokenly seek to provoke positive social change, this class provides a parallel narrative of contemporary art, in which art exits the museum space to ingrain itself in broader social processes. During the semester students will learn about different theories of socially engaged art articulated by artists and art historians alike. We will consider art as activism in the Civil Rights era, forms of artistic resistance to Latin American military dictatorships, second wave feminist art, contemporary community-based art, and forms of engaged art practice concerned with planet-wide environmental crisis. We will debate the tactics and ideals guiding these practices, and we will evaluate the potential risks that come with relying on art for social transformation. This course alternates short lecture periods with in-class discussion of primary and secondary sources. It is structured around six thematic blocs, at the end of which students will produce a short written assignment.

Humanities.
1 credit.

ARTH 052. Global Renaissance
The "Global Renaissance," focuses on Europe’s relations with Latin America, Africa, Asia, and the Middle East in the early era of colonization and global expansion.
Students will explore what the visual arts can reveal about the transfer of ideas and the growth of global trade and cultural/religious conflict in this era of increasing internationalism. We will focus on cross-cultural exchange in the 15th and 16th centuries, and consider these issues primarily from the European perception of the expanding world. Theme of globalism will be addressed through the lens not only of painting, sculpture and architecture, but also objects that are not typically considered "high art" such as maps, textiles, festival arts, and ceramics.

Humanities.
1 credit.
Eligible for GLBL-Core
Fall 2019. Reilly.

ARTH 057. Leonardo, Raphael, Michelangelo
Leonardo, Raphael, and Michelangelo have come to stand for Renaissance art itself. This course will study these masters, their works, and their heated rivalries with one another in the context of the worlds in which they lived and worked. We will consider topics such as the construction of the artist as genius, the relationship between art and science, the role of art in the domestic sphere, the use of art as propaganda, and the education of the artist.

Humanities.
1 credit.

ARTH 153. Modern Architecture and Urbanism
This course traces the development of modern architecture and the built environment from the Industrial Revolution in Europe to the global present with an emphasis on the critical debates that informed its production, practice and reception. We will study architecture as a social process and formal practice through a variety of methodologies. Important themes include, technology and materials, form and function, the identity of the architect, public and private space, housing and domesticity, monuments and
informality, colonization and globalization. Field visits will be an important element to the class. Prerequisite: Two courses in art history or permission of instructor. Humanities. 
2 credits.

ARTH 063. Architecture and American Landscape
In his essay, "Preserving Wildness," environmentalist Wendell Berry wrote: "We need to understand [nature] as our source and preserver, as an essential measure of our history, and as the ultimate definer of our possibilities." With Berry's multidimensional conception of nature in mind, this course examines the interrelationship of architecture, planning, and the ever-changing American landscape. It looks at the ways in which architecture may respond to the political, social, and philosophical implications of diverse ecological perspectives and uncovers the part architecture plays in environmental preservation and degradation. The class takes as its starting point colonial settlements and Native American land use patterns in the Eastern United States and concludes with national responses to 21st-century climate change discourse, paying particular attention to fluctuating conceptions of wildness and nature over time and to the wider socio-cultural implications of these attitudes. Humanities. 
1 credit. Eligible for ENVS Fall 2019. Gaglio.

ARTH 066. Colloquium: Race, Space, and Architecture
This colloquium considers how race and identity interact with architectural and urban spaces, especially in the United States in the twentieth century. By studying the historical and theoretical dimensions of topics including the meanings attached to public and private housing, the training and practice of designers, and the reconstruction and transformation of urban places, we will interpret how race has shaped buildings, landscapes, and plans. In turn, we will also examine how the built environment has shaped the formation and interpretation of racial categories. Humanities. 
1 credit. Eligible for BLST

ARTH 068. Topics in Contemporary Architecture
Spring 2020. Staff.

ARTH 070. Architecture, Crime and Punishment
1 credit. Spring 2021. Goldstein.

ARTH 072. Global History of Architecture: Prehistory-1750
This survey will provide an introduction to the history of the global built environment from the earliest human settlements to the middle of the second millennium. Chronologically and geographically broad, we will examine selected works of architecture and urbanism from diverse cultures around the world, commencing ca. 10,000 B.C.E. and ending around 1750 C.E. In doing so, we will interpret the built environment as both a product of its social, political, and cultural contexts and a force that shapes those contexts. Despite a diversity of examples, common themes—such as cultural interaction and exchange, religion and belief, transmission of knowledge, architectural patronage, spatial and aesthetic innovation, and technological transformation—will emerge across the course. Humanities. 
1 credit. Eligible for GLBL- Core Fall 2020. Goldstein.

ARTH 073. Global History of Architecture: 1800-Present
This survey will visit some of the major structures, events, and innovations that defined the global built environment in the last six centuries, beginning with the Renaissance and its contemporaries and extending through Modernism. Our consideration will go beyond a history of style to examine the built environment as a product of and force acting on its broader social, political, and cultural contexts. We will pay attention to architecture and urbanism from the place of work to the place of leisure; from sites belonging to the very powerful to those belonging to the disenfranchised; and from those designed by well-known figures to those without known designers. Themes will include power, belief, technology, industrialization, trade, patronage, professionalization, identity, empire, and urbanization. Humanities. 

ARTH 074. Histories of Photography
Recent boom in national histories of photography has brought to light the medium’s varied and colorful developments around the globe. This course surveys the history of photography across this expanded geography, from the announcement of photography’s invention in the nineteenth century to the present. As we engage with the impressive diversity of photographic practices in different geographical and historical contexts, we will consider the roles and meanings of photography across both cultural and disciplinary divide, developing a range of perspectives for thinking about photography beyond borders.
**ARTH 075. Public Art in America**  
Spring 2021. Staff.

**ARTH 095. Cracking Visual Codes**  
How do we understand the visual? What ways of seeing do we engage in and what kinds of questions do we ask when analyzing paintings, buildings, sculptures, ceramics, photographs, or prints? How do we crack the visual codes specific to images, objects, and structures of a given time and place? This colloquium will explore various approaches to the interpretation of the visual arts through the critical reading of important texts of the discipline and writings that propose or challenge a variety of analytic strategies. Students will directly engage in the interpretive process by researching, writing, and presenting on a work of art or architecture in the Philadelphia area, an exercise that will assist the exploration of questions central to their own interest in the study of visual culture. Through this course students will acquire the skills for interpreting images we encounter every day—such as advertisements, logos, icons, and other forms of visual culture.

Humanities.  
Writing course.  
1 credit.  
Spring 2020. Staff.  
Spring 2021. Staff.

**ARTH 096. Directed Reading**  
1 credit.

**ARTH 097. Thesis**  
A 2-credit thesis normally carried out in the fall of the senior year. The topic must be submitted and approved by the instructor in charge before the end of the junior year.

**ARTH 154. Honors Seminar: Modern and Contemporary Chinese Art**

**ARTH 164. Modernism in Paris and New York**  
This seminar focuses on "Modernism" in 19th and 20th-century art, addressing selected artists from Courbet and Manet through Degas, Gauguin, Cézanne, Picasso, Pollock, and Rothko. Artists and readings are also chosen to illuminate current scholarly approaches to "Modernism," including socio-economic, feminist, and post-colonialist perspectives. Prerequisite: Two courses in art history or permission of instructor.  
Humanities.  
2 credits.  
Eligible for INTP  
Fall 2019. Hungerford.  
Fall 2020. Hungerford.

**ARTH 180. Thesis**  
A 2-credit thesis normally carried out in the fall of the senior year. The topic must be submitted and approved by the instructor in charge before the end of the junior year.  
2 credits.

**Seminars**

Unless otherwise noted, the prerequisite for all seminars is two courses in art history.

**ARTH 136. Word and Image in Japanese Art**  
This seminar explores the dialogue between text and image as manifested in visual representations of courtly culture in Japan from the 10th to the 18th century. Through select works of courtly narrative and poetry, such as the 11th-century classic *The Tale of Genji*, we will examine the complex and nuanced interactions of text, image, calligraphy, object, function, patronage, production, and consumption as shaped by the materiality of a range of media including handscrolls, folding screens, poem sheets, illustrated and printed books, lacquerware, and fans. Prerequisite: two courses in art history or permission of instructor.  
Humanities.  
2 credits.  
Eligible for ASIA  
Fall 2019. Sakomura.

**ARTH 151. Renaissance Rome**  
From the 14th to the 17th century, Rome was transformed from a "dilapidated and deserted" medieval town to a center of spiritual and worldly power. This seminar will consider the defining role that images played in that transformation. In addition to studying the painting, sculpture and architecture of artists such as Fra Angelico, Bramante, Raphael, and Michelangelo, we will study the creation and use of objects such as banners, furniture, and temporary festival decorations. Topics will include papal reconstruction of the urban landscape; the rebirth of classical culture, art and the liturgy, private devotion and public ritual, and the construction of the artist as genius.  
Humanities.  
2 credits.

**ARTH 164. Modernism in Paris and New York**  
This seminar focuses on "Modernism" in 19th and 20th-century art, addressing selected artists from Courbet and Manet through Degas, Gauguin, Cézanne, Picasso, Pollock, and Rothko. Artists and readings are also chosen to illuminate current scholarly approaches to "Modernism," including socio-economic, feminist, and post-colonialist perspectives. Prerequisite: Two courses in art history or
Art and Art History

permission of instructor.
Humanities.
2 credits.
Eligible for INTP
Fall 2019. Hungerford.
Fall 2020. Hungerford.

Art Courses

ARTT 001. Foundation Drawing
This course is designed as an introduction to drawing as the basis for visual thinking and perception. The class will focus on concepts and practices surrounding the use of drawing as a visual language rather than as a preliminary or planning process. Whether students are interested in photography, painting, pottery, sculpture, installation or performance, the ability to design and compose visually is fundamental to their development. The course follows a sequence of studies that introduces students to basic drawing media and compositional elements while they also learn to see inventively. This course is a prerequisite for all other courses in studio art.
Humanities.
1 credit.
Fall 2019. Carpenter. DeNizio
Fall 2020. Exon. Staff.

ARTT 002. First-Year Seminar
This studio art experience is designed for first-year students who have demonstrated through a portfolio presentation their knowledge of the elements of design, composition, and visual thinking. This course is similar in content to the foundation drawing class ARTT 001. However, it will be more in depth, with more emphasis on individually designed studio and research projects. Portfolios of actual or photographed work must be submitted for evaluation during orientation week. This portfolio should include, in addition to whatever medium you choose to present, several drawing examples demonstrating proficiency in drawing. Contact the department for details. This course is a prerequisite for all other courses in studio art.
Humanities.
1 credit.
Fall 2019. DeNizio.
Fall 2020. Grider.

ARTT 010. Drawing II: Life Drawing
Work in various media directed toward a clearer perception of the human form. The class is centered on drawing from the model and within this context. The elements of gesture, line, structure, and light are isolated for the purpose of study.
Prerequisite: ARTT 001 or ARTT 002
Humanities.
1 credit.

ARTT 011. Drawing II - Drawing Architecture Turning Corners
The Beaux-Arts practice of "analytique"—a drawn, or sketched, tour of a building’s unifying visual elements, proportional relationships, and structural details—will be the primary mode of inquiry in this course. Taking advantage of the great number of the fine examples of historical and contemporary architecture in this region, the class will take a series of field trips to a select group of local monuments to gather visual material. We will continue and build on the student’s competency and understanding of linear perspective and free hand sketching, established in the prerequisite, while introducing new methods in site measuring and isometric drawing. Extensive use of watercolor and gouache will also be used, although previous experience in these techniques is not required, in order to articulate the decorative and light specific qualities of each building, and its surroundings.
Prerequisite: ARTT 001 or ARTT 002
Humanities.
1 credit.

ARTT 020. Ceramics I
This introduction to ceramic process and aesthetics focuses on acquiring basic skills on the potter’s wheel as well as an introduction to making and applying glazes both high and low temperature. Students will also learn to operate an electric kiln. Through image presentations and exposure to actual objects, students will learn to discuss and evaluate the aesthetic attributes of the handmade object.
Prerequisite: ARTT 001 or ARTT 002
Humanities.
1 credit.
Fall 2019. Carpenter.
Fall 2020. Staff.

ARTT 021. Ceramics II - The Potter’s Wheel
This class focuses on a series of projects for the wheel to assist in developing proficiency, technique and ideas for both functional and sculptural form. Critiques and in class discussion are an important component of this experience. Students will be exposed to traditional and nontraditional solutions to the wheel thrown container through slide lectures, videos and guest artists. For beginners and experienced students.
Prerequisite: ARTT 020
Humanities.
1 credit.
Fall 2020. Staff.
Spring 2021. Staff.

ARTT 022. Ceramics II - The Container as Architecture
This class focuses on designing and constructing container-based forms using clay as the primary medium. Using hand-building processes including
slab, coil and cast forms students will develop architecturally imagined forms. Thematically conceived projects will allow students to explore problems in three-dimensional design using a broad range of architectural references. The experience will be complimented with slide presentations, demonstrations and guest artists. Prerequisite: ARTT 020 Humanities. 1 credit. Spring 2020. Carpenter. Spring 2021. Staff.

ARTT 030. Painting I
Students will investigate the pictorial structure of oil painting and the complex nature of color. A thorough study of texture, spacial conventions, light, and atmosphere will be included. Prerequisite: ARTT 001 or ARTT 002 Humanities. 1 credit. Fall 2019. Exon. Fall 2020. Exon.

ARTT 032. Painting II - Figure Composition
In this advanced course in painting and drawing the human form, emphasis will be given to the methods, thematic concepts, conventions, and techniques associated with multiple figure design and composition. Prerequisite: ARTT 030 and/or ARTT 010 Humanities. 1 credit. Spring 2020. Exon. Spring 2021. Exon.

ARTT 033. Painting II - Color
Color functions in many ways in painting. The interaction of color may be used to create the illusion of light and space or to establish an expressive tone. Color can also operate on a symbolic level or be used to create a compositional structure. Using various drawing and painting media students will explore the ways which color can be manipulated. Assigned readings, critiques and group discussions will be included. Prerequisite: ARTT 030 Corequisite: ARTT 002 Humanities. 1 credit. Spring 2020. Tarver. Spring 2021. Tarver.

ARTT 040. Photography I
This class introduces students to the traditional craft of silver wet dark-room photography. Though black-and-white images can be created digitally, enough visual and technical complexity remains in silver gelatin printing that many artists continue to work in this time-honored medium long after the "digital revolution." Students use film cameras, film, and light-sensitive paper to create a final body of work. Weekly critiques, photographer research projects, and at least one field trip to look at art make up the class. Prerequisite: ARTT 001 Humanities. 1 credit. Fall 2019. Tarver. Fall 2020. Tarver.

ARTT 041. Photography II - Color
This class is an introduction to the art and craft of color photography using the tools that are most widely practiced by artists today. Students work toward a final project using either a film or digital camera, processing images in Photoshop and outputting them on a professional-grade ink-jet printer. Weekly critiques, photographer research projects, and at least one field trip to look at art. Prerequisite: ARTT 040 Humanities. 1 credit. Spring 2020. Tarver. Spring 2021. Tarver.

ARTT 042. Photography III: Alternative Processes
Photography is ever changing. This course is designed to introduce students to various ways of thinking beyond the limitations of the two dimensional photograph. Eighteenth century processes, investigations into collage, involving elements of painting and mark making, along with 3-D will be explored. Emphasis will be placed on class discussions of masters in the field, invited artists workshops, and a visit to a local artist studio or gallery. During class experimentation will be encouraged and failure may be sometimes rewarded. Prerequisite: ARTT 040 and ARTT 041 Humanities. 1 credit. Spring 2020. Tarver. Spring 2021. Tarver.

ARTT 050. Sculpture I: Materials and Processes
This course is an introduction to 3-D design, through the study of the basic elements, techniques, materials and history of sculpture. We cover both additive and reductive processes. Working primarily with non-powered hand tools, materials will include clay, wire, cardboard, wood, paper, Plaster Craft, Cellu Clay, and the use of found objects There is an emphasis on the development of form and structure particular to each material and process, in regards to the concepts of space, form, volume, weight, mass and design in sculpture. The teaching method includes slide lectures, demonstrations of techniques and individual guidance on studio projects. Prerequisite: ARTT 001 or ARTT 002 Humanities. 1 credit. Fall 2019. Meunier. Spring 2020. Meunier. Fall 2020. Meunier. Spring 2021. Meunier.
ARTT 051. Sculpture II - Sculpting Everyday Things
Covering a broad range of contemporary sculptural concepts and techniques as they apply to the design and construction of the most common of functional objects - chairs, tables, lamps and other smaller functional forms. Using found objects and the technique assemblage, students will deconstruct the objects, (conceptually and literally), toward the creation of a thematically related series of three functional forms. Several different mediums will be explored, including clay and epoxy modeling, plaster casting, woodworking, fabric work, and the overall assemblage of found materials for surface treatment.
Prerequisite: ARTT 050
Corequisite: ARTT 001 or ARTT 002
1 credit.

ARTT 052. Sculpture II - Woodworking
This course is designed to introduce students to general woodworking practices. Students will expand their knowledge and experience through various projects, lessons and vocabulary. Students will be expected to learn about and safely use hand tools, power tools, and woodworking machinery. The projects are designed to give students as much experience as possible by using many different machines and tools. Emphasis is on a variety of design approaches, including non-functional and functional forms, through the execution of working drawings, and completing wood projects. The teaching method includes slide lectures, demonstrations of techniques and individual guidance on studio projects.
Prerequisite: ARTT 001 or ARTT 002
Corequisite: ARTT 001 or ARTT 002
Humanities.
1 credit.
Fall 2019. Meunier.
Fall 2020. Meunier.

ARTT 070. Advanced Studies - Ceramics
These courses are designed to usher the intermediate and advanced student into a more independent, intensive study in one or more of the fields listed earlier. A discussion of formal issues generated at previous levels will continue, with greater critical analysis brought to bear on stylistic and thematic direction. All students are expected to attend, throughout the semester, a given class in their chosen medium and must make sure at the time of registration that the two class sessions will fit into their schedules. In addition to class time, students will meet with the professor for individual conferences and critiques.
This series of courses also serves as the Junior Workshop, a colloquium for junior studio art majors in the spring semester. Students will produce work within the classes offered as Advanced Studies. Regularly scheduled group and individual critiques with other junior majors and a faculty coordinator will occur throughout the semester, culminating in a group exhibition.
Note: Although this course is for full credit, a student may petition the studio faculty for 0.5 credit.
Prerequisite: ARTT 001 or ARTT 002 and at least one previous course in the chosen medium.
Humanities.
1 credit.

ARTT 071. Advanced Studies - Drawing
These courses are designed to usher the intermediate and advanced student into a more independent, intensive study in one or more of the fields listed earlier. A discussion of formal issues generated at previous levels will continue, with greater critical analysis brought to bear on stylistic and thematic direction. All students are expected to attend, throughout the semester, a given class in their chosen medium and must make sure at the time of registration that the two class sessions will fit into their schedules. In addition to class time, students will meet with the professor for individual conferences and critiques.
This series of courses also serves as the Junior Workshop, a colloquium for junior studio art majors in the spring semester. Students will produce work within the classes offered as Advanced Studies. Regularly scheduled group and individual critiques with other junior majors and a faculty coordinator will occur throughout the semester, culminating in a group exhibition.
Note: Although this course is for full credit, a student may petition the studio faculty for 0.5 credit.
Prerequisite: ARTT 001 or ARTT 002 and at least one previous course in the chosen medium.
Humanities.
1 credit.

ARTT 072. Advanced Studies - Painting
These courses are designed to usher the intermediate and advanced student into a more independent, intensive study in one or more of the fields listed earlier. A discussion of formal issues generated at previous levels will continue, with greater critical analysis brought to bear on stylistic and thematic direction. All students are expected to attend, throughout the semester, a given class in their chosen medium and must make sure at the time of registration that the two class sessions will fit into their schedules. In addition to class time, students will meet with the professor for individual conferences and critiques.
This series of courses also serves as the Junior Workshop, a colloquium for junior studio art majors in the spring semester. Students will produce work within the classes offered as Advanced Studies. Regularly scheduled group and individual critiques with other junior majors and a faculty coordinator will occur throughout the
Art and Art History

semester, culminating in a group exhibition.

Note: Although this course is for full credit, a
student may petition the studio faculty for 0.5
credit.
Prerequisite: ARTT 001 or ARTT 002 and at least
one previous course in the chosen medium.

Humanities.
1 credit.

student may petition the studio faculty for 0.5
credit.
Prerequisite: ARTT 001 or ARTT 002 and at least
one previous course in the chosen medium.

Humanities.
1 credit.

ARTT 075. Advanced Studies - Architectural Drawing
These courses are designed to usher the
intermediate and advanced student into a more
independent, intensive study in one or more of the
fields listed earlier. A discussion of formal issues
generated at previous levels will continue, with
greater critical analysis brought to bear on stylistic
and thematic direction. All students are expected
to attend, throughout the semester, a given class
in their chosen medium and must make sure at the
time of registration that the two class sessions will
fit into their schedules. In addition to class time,
students will meet with the professor for individual
conferences and critiques.
This series of courses also serves as the Junior
Workshop, a colloquium for junior studio art
majors in the spring semester. Students will
produce work within the classes offered as
Advanced Studies. Regularly scheduled group and
individual critiques with other junior majors and a
faculty coordinator will occur throughout the
semester, culminating in a group exhibition.

Note: Although this course is for full credit, a
student may petition the studio faculty for 0.5
credit.
Prerequisite: ARTT 001 or ARTT 002 and at least
one previous course in the chosen medium.

Humanities.
1 credit.

ARTT 080. Advanced Studies II - Ceramics
Continuation of ARTT 070 on a more advanced
level. This series of courses also serves as the
Junior Workshop, a colloquium for junior studio art
majors in the spring semester. Students will
produce work within the classes offered as
Advanced Studies. Regularly scheduled group and
individual critiques with other junior majors and a
faculty coordinator will occur throughout the
semester, culminating in a group exhibition.

Prerequisite: ARTT 070
Corequisite: ARTT 002
Humanities.
1 credit.

ARTT 081. Advanced Studies II - Drawing
Continuation of ARTT 071 on a more advanced
level. This series of courses also serves as the
Junior Workshop, a colloquium for junior studio art
majors in the spring semester. Students will
produce work within the classes offered as
Advanced Studies. Regularly scheduled group and
individual critiques with other junior majors and a
faculty coordinator will occur throughout the
semester, culminating in a group exhibition.

Prerequisite: ARTT 071
Art and Art History

Humanities.
1 credit.

ARTT 082. Advanced Studies II - Painting
Continuation of ARTT 072 on a more advanced level. This series of courses also serves as the Junior Workshop, a colloquium for junior studio art majors in the spring semester. Students will produce work within the classes offered as Advanced Studies. Regularly scheduled group and individual critiques with other junior majors and a faculty coordinator will occur throughout the semester, culminating in a group exhibition.
Prerequisite: ARTT 072
Humanities.
1 credit.

ARTT 083. Advanced Studies II - Photography
Continuation of ARTT 073 on a more advanced level. This series of courses also serves as the Junior Workshop, a colloquium for junior studio art majors in the spring semester. Students will produce work within the classes offered as Advanced Studies. Regularly scheduled group and individual critiques with other junior majors and a faculty coordinator will occur throughout the semester, culminating in a group exhibition.
Prerequisite: ARTT 073
Humanities.
1 credit.

ARTT 084. Advanced Studies II - Sculpture
Continuation of ARTT 074 on a more advanced level. This series of courses also serves as the Junior Workshop, a colloquium for junior studio art majors in the spring semester. Students will produce work within the classes offered as Advanced Studies. Regularly scheduled group and individual critiques with other junior majors and a faculty coordinator will occur throughout the semester, culminating in a group exhibition.
Prerequisite: ARTT 074
Humanities.
1 credit.

ARTT 085. Advanced Studies II - Architectural Drawing
Continuation of ARTT 075 on a more advanced level. This series of courses also serves as the Junior Workshop, a colloquium for junior studio art majors in the spring semester. Students will produce work within the classes offered as Advanced Studies. Regularly scheduled group and individual critiques with other junior majors and a faculty coordinator will occur throughout the semester, culminating in a group exhibition.
Prerequisite: ARTT 075
Humanities.
1 credit.

ARTT 090. Senior Thesis Workshop I
This course is designed to strengthen critical, theoretical, and practical skills on an advanced level. Critiques by the resident faculty members and visiting artists as well as group critiques with all members of the workshop will guide and assess the development of the students’ individual directed practice in a chosen field. Assigned readings and scheduled discussions will initiate the writing of thesis for the senior exhibition. This course is required of senior art majors.
Humanities.
1 credit.
Fall 2019. Exon.
Fall 2020. Staff.

ARTT 091. Senior Thesis Workshop II
This course is designed to further strengthen critical, theoretical, and practical skills on a more advanced level. During the spring semester of the senior art major, students will write their senior artist statement and mount an exhibition in the List Gallery of the Eugene M. and Theresa Lang Performing Arts Center. The artist statement is a discussion of the development of the work to be exhibited. The exhibition represents the comprehensive examination for the studio art major. Gallery exhibitions are reserved for studio art majors who have passed the senior workshop and fulfilled all requirements, including the writing of the senior art major statement.
Humanities.
1 credit.

2 Absent on leave, academic year 2019-2020

Asian Studies is an interdisciplinary program that introduces students to the critical and methodological approaches that have informed the study of Asia. As one of the largest interdisciplinary programs at Swarthmore, Asian Studies trains students in the study of diverse texts, images, performances, bodies of knowledge and cultural practices across geographic and temporal boundaries. Students are encouraged to engage in a rigorous examination of the political, economic, social, environmental, and religious formations of the myriad societies that have constituted Asia. Asian Studies aims to provide students with a depth of knowledge and multiple critical perspectives with which to understand how these diverse locales have been and continue to be interwoven with the global.

The Academic Program

The Asian Studies Program offers a major and a minor in course and honors. Students who declare a major in Asian studies construct individualized programs of study, with a focus on a comparative theme or on a particular country or region. Some examples of comparative themes are classical traditions in Asian literature and art, Buddhist studies, Asian nationalisms and the emergence of nation-states, and the political economy of Asian development. In all cases, the core of the major involves exposure to multiple regions and multiple disciplines.

Students interested in Asian studies are urged to consult the Asian studies website for up-to-date information on courses and campus events. Students should meet with the program chair in advance of preparing a Sophomore Plan. Advance planning is especially important for students contemplating the Honors Program and those planning to study abroad.

Learning Goals

1. Interdisciplinary breadth. The student must have mastered more than one academic discipline, to be able to speak to issues/ themes of their research on topics rooted in Asian traditions/regions from more than one disciplinary perspective;

2. Comparative Scope. The student must know in some depth more than one region in Asia; though they may focus, for instance, primarily on studies in Chinese traditions, pre-modern or modern, the student must also be able to think comparatively, and engage with more than one Asian tradition in regard to the topics/ themes that are central to their main region-specific research;

3. Depth of Knowledge in One Tradition. If the student’s research project is fundamentally trans-national or trans-regional, they should know at least one Asian tradition with depth and detail, including knowledge of language (see below);
Asian Studies

4. The Past, the Present, and the Future. The student should be aware of modern/contemporary or pre-modern formations (depending upon the student’s scholarly focus) within the Asian traditions they study, with the idea that one cannot never really understand the present without more than cursory knowledge of the past, and also that one cannot study the past without a scholarly awareness of the present forms of political, economic, social, environmental, or religious formations at the center of a student’s project in Asian Studies;

5. Languages and Language Study. The student majoring in Asian Studies should demonstrate advanced knowledge of at least one Asian language central to the region/tradition that is the focus of their academic work.

Course Major
Asian studies invites students to make connections among courses that differ widely in content and method. When considering applicants to the major, the Asian Studies Committee looks for evidence of intellectual flexibility and independence. Students must have completed at least two Asia-related courses in different departments with grades of B or better to be accepted into the major.

The major in Asian studies consists of a minimum of ten (10) credits, with requirements and distribution as follows:

1. Geographic breadth. Coursework must include more than one of the following regions of Asia: (East, South, Central, Northeast, Southeast, and study of Asian diasporas). This requirement can be fulfilled by taking at least two courses that are pan-Asian or comparative in scope or by taking at least one course on a country or region that is not the principal focus of a student’s program.

2. Disciplinary breadth. Courses must be taken in at least three different departments.

3. Temporal breadth. At least one course focusing on the Premodern or Early Modern (before 1900) Eras, and at least one course on the Modern (after 1900) Era must be completed. This requirement can be fulfilled by taking at least two courses that examine substantial material on both the Premodern/Early Modern and Modern Eras.

4. Intermediate and advanced work. A minimum of 5 credits must be completed at the intermediate or advanced level in at least two departments.

5. Asian language study. At least one year of college-level study of an Asian language or its equivalent in intensive summer coursework is required of all majors. Up to four credits of Asian language study may be applied to the major. Advanced topical courses taught in the original language are not subject to the four credit limit. Students wishing to study an Asian language not offered at Swarthmore are encouraged to fulfill this requirement through study abroad, intensive summer study, approved coursework at neighboring institutions (tri-co, University of Pennsylvania), etc. The language requirement may be waived at the discretion of the Asian Studies coordinator in cases of advanced oral and written proficiency in an Asian language relevant to a student’s area of geographic focus.

Thesis / Culminating Exercise

Thesis / Culminating Exercise. Students in the Asian studies course major have a choice of culminating exercises.

Qualifying papers option. Students revise and expand two papers they have written for Asian studies courses in consultation with Asian studies faculty members.

Honors seminar option. Students take a 2-credit honors seminar in an Asian studies topic in either their junior or senior year. (Note: A two-course combination or a course plus attachment will not satisfy this requirement.)

Course Minor
Students will be admitted to the minor after having completed at least two Asian studies courses in different departments with grades of B or better. The Asian studies minor in course consists of five courses, distributed as follows:

1. Geographic breadth. Coursework must cover more than one region of Asia. This can be accomplished by taking at least two courses that are pan-Asian or comparative in scope or by taking at least one full course on a country that is not the principal focus of a student’s program.

2. Disciplinary breadth. Asia-related courses must be taken in at least two departments outside of the disciplinary major. Only one course may overlap the Asian studies minor and the disciplinary major.

3. Temporal breadth. At least one course focusing on the Premodern or Early Modern (before 1900) Eras, and at least one course on the Modern (after 1900) Era must be completed. This requirement can be fulfilled by taking at least two courses that examine substantial material on both the Premodern/Early Modern and Modern Eras.

4. Intermediate or advanced work. At least 2 credits of work must be completed at the intermediate or advanced level.

5. Asian language study. Asian-language study is not required but is strongly recommended. Up to two credits in Asian language study may be applied toward the course minor. For languages offered at Swarthmore (Chinese and Japanese), courses above the first-year level may count
Asian Studies
toward the minor. For Asian languages not offered at Swarthmore, courses at the entry level may count toward the minor if at least the equivalent of 1.5 credits is earned in an approved program.

### Honors Major
To be admitted to the honors major, students should have completed at least two Asian studies courses in different departments with grades of B+ or better.
The honors major in Asian studies consists of a minimum of ten (10) credits (including four honors preparations). The four preparations in an Honors Program must be drawn from at least two different disciplines.

1. **Geographic, disciplinary, and temporal breadth requirements.** These are the same as those for the course major (see above).
2. **Asian language study.** This requirement is the same as for the course major (see above).
3. **Asian studies as an interdisciplinary major.** All four fields for external examination must be Asian studies subjects. One of the fields may also count toward an honors minor in a department. The four preparations must be drawn from at least two different disciplines.
4. **Grade-point average requirement.** A student must earn at least a B+ in all courses applied to the honors major.

### Honors Minor
To be admitted to the honors minor, students should have completed at least two Asian studies courses in different departments with a grade of B+ or above.
An honors minor in Asian studies consists of a minimum of 5 credits, distributed as follows:

1. **Geographic breadth.** There are two tracks within the minor:
   - **a. Comparative Asian cultures:** The selection of courses and the honors preparation should offer a comparative perspective on the traditional or modern cultures of Asia. Individual programs should be worked out in close consultation with the Asian studies coordinator. (Language study does not count toward this track.)
   - **b. Focus on a single country or region:** All courses in the program should focus on the same region or country. One or 2 credits of language study may be included.
2. **Disciplinary breadth.** Asia-related courses must be taken in at least two departments outside of the disciplinary honors major. Only one course may overlap the honors minor and the disciplinary honors major.
3. **Temporal breadth.** At least one course focusing on the Premodern or Early Modern (before 1900) Eras, and at least one course on the Modern (after 1900) Era must be completed. This requirement can be fulfilled by taking at least two courses that examine substantial material on both the Premodern/Early Modern and Modern Eras.
4. **Asian language study.** Asian language study is not required, but courses in Asian languages may count toward the honors minor. Up to 2 credits of Asian language study may be applied to the honors minor. For languages offered at Swarthmore (Chinese and Japanese), courses above the second-year level count toward the minor. For Asian languages not offered at Swarthmore, courses at the entry level may be counted if the equivalent of 1.5 credits is earned in an approved program.
5. **Honors preparation.** One preparation, normally a two-credit seminar, will be submitted for external examination.
6. **Senior Honors Seminar for minors.** The student will fulfill the requirements set for honors minors by the department offering the honors preparation.
7. **Grade-point average requirement.** A student must earn at least a B+ in all courses applied to the honors major.

### Fellowship and Grant Opportunities for Students
*The Alice L. Crossley Prize in Asian Studies* is awarded annually to the student or students who submit the best essay(s) on any topic in Asian or Asian American Studies.
*The Genevieve Ching-wen Lee ’96 Memorial Fund* supports a lecture each year in Asian American studies. This fund also supports an annual competition for summer research support for projects related to Asian studies or Asian American studies.
*The Penelope Mason ’57 Memorial Fund for Asian Studies* is available to support Asian studies related projects proposed by students, faculty members, or both.

### Off-Campus Study
Students with majors in Asian studies are strongly encouraged to undertake a period of study in Asia. The Asian studies faculty can recommend academically rigorous programs in several Asian countries. Study abroad is the ideal arena for intensive language study. Courses taken abroad may be applied toward the major, subject to the approval of the Asian studies coordinator. However, at least half of the credits in a student’s Asian studies major or minor should be earned at Swarthmore.

### Life After Swarthmore
Students with a background in Asian studies have pursued a number of paths after graduation. Some have gone abroad to continue their studies, do research, or work in humanitarian or social service organizations. Others have gone directly to graduate school. Many eventually become teachers.
Asian Studies

or professors. Others work in the arts, journalism, international law, business, finance, in the diplomatic corps, or in non-governmental organizations. Other Asian studies graduates pursue careers not directly related to Asia, in medicine or law, for example. All consider Asian studies to have been an important part of their liberal arts education.

Asian Studies Courses

Courses in the Asian Studies Program are listed below. Courses of independent study, special attachments on subjects relevant to Asian Studies, and courses offered by visiting faculty that are not regularly listed in the catalog may also qualify for credit in the program, subject to the approval of the Asian Studies Committee. Students who wish to pursue these possibilities should consult with the Asian Studies chair.

ASIA 015. Introduction to East Asian Humanities
(Cross-listed as CHIN 015, LITR 015CH)
This course is a survey of East Asian literatures and cultural histories from antiquity to around 1800. The primary purpose is to provide students with a basic literacy in East Asian cultures and literatures with substantive emphasis on topics common across East Asia, such as the classical traditions and cosmology, the Chinese script, Buddhism, the civil service examination, folklore, theater, literature, and medicine. This course is a colloquium designed to meet the needs of students just beginning their study of China, Japan and Korea, who would like to explore the region broadly; and those who have already done substantial study of China or Japan and welcome the chance to situate it within the larger context of traditional East Asia. This course will provide students with information and approaches to analyze primary sources in translation through assigned postings and short writing assignments. Humanities.

Eligible for ASIA

ASIA 093. Directed Reading
1 credit.

ASIA 096. Thesis
Writing course.
1 credit.

ASIA 180. Honors Thesis
Writing course.
2 credits.

The following courses may be counted for credit in the Asian Studies Program. Descriptions of the courses can be found in each department’s course listings in this catalog:

Art (Art History)
ARTH 001L. First-Year Seminar: From Handscrolls to Comic Books: Pictorial Narratives in Japan

Chinese
CHIN 003. Second-Year Mandarin Chinese
CHIN 004. Second-Year Mandarin Chinese
CHIN 007. Chinese/Japanese Calligraphy
CHIN 008. First-Year Seminar: Literary and Cinematic Presentation of Modern China
CHIN 011. Third-Year Chinese
CHIN 011A. Third-Year Chinese Conversation
CHIN 012. Advanced Chinese
CHIN 012A. Advanced Chinese Conversation
CHIN 020. Readings in Modern Chinese
CHIN 020A. Chinese Business Conversation
CHIN 021. Reading and Writing in Modern Chinese
CHIN 023. Modern Chinese Literature: A New Novelistic Discourse (1918-1948)
CHIN 033. Introduction to Classical Chinese
CHIN 036. Women’s Literature in Premodern China
CHIN 037. Text and Image: Classical Chinese Poetry and Painting
CHIN 052. Chinese Opera and Performing Art
CHIN 065. Peking Opera and Globalization
CHIN 086. Chinese Food Culture and Farming: Traditions and Transitions
CHIN 087. Water Policies, Water Issues: China/Taiwan and the U.S.
CHIN 088. Governance and Environmental Issues in China
CHIN 089. Tea in China: Cultural and Environmental Perspectives.
CHIN 090. Practicum in Bridging Swarthmore and Local Chinese Communities
CHIN 092. Special Topics: Appreciation of Tang-Song Poetry in Chinese
CHIN 099. Senior Colloquium
CHIN 103. Lu Xun and His Legacy in 20th-Century China
CHIN 108. The Remaking of Cinematic China: Zhang Yimou, Wong Kar-wai, and Ang Lee
Classics

At all levels of the biology curriculum, students
are engaged in learning about the functions and
evolution of diverse biological systems as well as
the methods by which biologists study nature.
There is much flexibility in the curriculum,
allowing students to craft a path through the
biology major that best suits their own interests.
While fulfilling the requirements for the major,
students are able to build a broad biological
background by taking courses focused on different
levels of biological organization, while also being
able to concentrate on specialized areas of
particular passion if they choose.
Our goals for biology majors:
A basic tenet of the department is that the best way
to learn about biology is to do biology. Therefore,
almost every course has weekly laboratories or
field trips, where students learn to become
biologists by making original observations, asking
questions about life processes, solving problems
and designing and testing hypotheses by
performing experiments. Communication skills are
emphasized in all biology courses, as students read
and evaluate research articles in scientific journals,
write laboratory reports according to the standards
of professional scientific writing, participate in
frequent opportunities for oral presentations and
critical discussion, and work in research teams.
The curriculum prepares students to pursue careers
in research or to apply their biology interests and
knowledge to careers as diverse as medicine,
governmental policy planning, science education,
public health, and writing children’s books. A
number of departmental alumni have also chosen
careers outside of science, such as law and
finance, where they report that the organizational,
critical thinking, and communication skills that

they learned as a biology major have been crucial
for their success.

The Academic Program

In addition to first-year seminars, the department
offers four different types of courses. Students are
introduced to the study of biology at Swarthmore
by taking BIOL 001, Cellular and Molecular
Biology, and BIOL 002, Organismal and
Population Biology. Either course may be taken
first. Courses numbered 003-009 do not have
associated laboratories; usually BIOL 001 and
BIOL 002 are prerequisites. Diverse intermediatelevel courses, some offered in alternate years,
allow students to choose coursework in areas of
particular interest. These courses are numbered
010-039 and generally have BIOL 001 and BIOL
002 (or AP credit) as prerequisites. Some of these
courses also require prior coursework in the
Chemistry Department. Finally, two-credit
seminars (with three-digit course numbers) have
an intermediate-level course as a prerequisite and
are usually taken by students in their junior or
senior years.
Majors and minors
The Biology Department offers a course major,
course minor, honors major and honors minor. In
addition, special majors in biochemistry and
neuroscience are regularly offered in cooperation
with the Chemistry and Biochemistry and
Psychology departments, respectively. A student
may choose an interdisciplinary minor in
environmental studies, which includes courses in
the Biology Department. In addition, the
department has also supported special majors as
described below.


Sample paths through the discipline
As pointed out in the introduction, there are many paths to a biology major. Following are some ideas to keep in mind as you plan your schedule.

Getting started as a biology major: Many majors take BIOL 001 and/or BIOL 002 during their first year. These two courses may be taken in either order and it is not uncommon for prospective majors to take BIOL 002 during the spring semester of their first year, and BIOL 001 during the fall semester of their second year. Students who realize their interest in biology later have also taken both courses during their sophomore year and successfully completed the major in eight semesters. We generally encourage all students to take at least one of the introductory courses, even if they have AP credit. BIOL 001 is always offered in the fall semester, and BIOL 002 always in the spring semester.

We encourage majors to fulfill the mathematics and chemistry requirements for the major during their first two years. In particular, some intermediate level courses require CHEM 010 and CHEM 022. Completion of those chemistry courses gives more flexibility in biology course choice. However, we are willing to work with students to craft the best path for each individual.

Continuing as a biology major: Because most intermediate level courses require both BIOL 001 and BIOL 002 (or AP credit), taking both courses before continuing on in the field usually serves students best. For planning purposes, most Group III intermediate-level courses are taught in the fall semester, and most Group I intermediate-level courses are taught in the spring semester. Some Group II courses are taught in spring and others in fall.

The two-credit seminar course(s) you are most interested in taking may influence your other course choices. In addition to your own interests, prerequisites for seminars (which may consist of a specific intermediate-level course), faculty leave schedules, and study abroad considerations may constrain your course choice and schedule.

Some faculty strongly encourage students interested in doing research with them to take at least one course with them before working on a research project. It is important to talk to specific faculty members you are interested in working with to understand their specific requirements for work in their laboratory.

Completion of the biology major: Course majors must pass the comprehensive exam (BIOL 097 Themes in Biology) during the fall semester of the senior year. Honors majors are required to enroll in at least one credit of BIOL 180 (often but not always in fall semester of the senior year), and in Senior Honors Study (BIOL 199), which is taken in the spring semester of the senior year.

Course Major
Acceptance criteria
Three courses (or advanced placement credit and two courses) in biology. If the student does not have AP or transfer credit, both BIOL 001 and BIOL 002 are required.

CHEM 010, or placement approved by the Chemistry and Biochemistry Department.

Swarthmore College credit for two courses in mathematics or statistics (not STAT 001 or MATH 003). Alternatively, students may complete calculus II (MATH 025). The Biology Department strongly recommends a course in statistics for majors.

Completion of an additional course in the specified list of quantitative courses in NSE. Applicants must have an average grade of C (2.00) or better in BIOL 001 and BIOL 002 (or if AP credit is given, in the first two biology courses taken at Swarthmore). In addition, the applicant must have an average grade of C (2.00) or better in all courses taken in the Biology Department, and an overall average grade of C (2.00) or better in the Division of Natural Sciences and Engineering at Swarthmore College (biology, physics and astronomy, chemistry and biochemistry, mathematics and statistics, engineering, and computer science). Unpublished grades in biology for the first semester of the first year will be considered in the C average requirement; passing grades of CR in other courses in the Division of Natural Sciences and Engineering are acceptable. Students who have not completed the requirements for acceptance to the major will be deferred until the end of the fifth semester. Students who have not completed all requirements for acceptance to the major by the end of the fifth semester will no longer have priority in lotteries based on their sophomore plan, and will need to re-apply for the major before the last day of classes in their junior year.

Requirements for graduation
Credit requirements: Students majoring in biology must complete a minimum of eight biology credits by the end of their senior year, two of which come from a seminar (numbered 110-139). Students may take a course or seminar in biology as CR/NC but are not encouraged to do so.

Distribution requirements: Students majoring in biology must pass at least one course in each of the following three groups: I. Cellular and Molecular Biology, II. Organismal Biology and III. Population Biology. The digit in the tens place of the course number signifies the group of the course (i.e., BIOL 020 is a Group II course and BIOL 114 is a Group I course).

Students majoring in biology may count only one course numbered 003-009 toward the eight required credits. Courses numbered 003-009 do not meet the Group distribution requirement. BIOL 093 (Directed Reading) and BIOL 094
Biology

(Independent Research) count as credits toward the biology major but cannot be used as distribution requirements. No more than two credits in BIOL 093, BIOL 094 or BIOL 093 and BIOL 094 in combination may be used to satisfy the eight-credit requirement for the biology major. CHEM 038 (Biochemistry) may be counted as a Group I course. In this case, the CHEM 038 grade will be counted towards the biology GPA.

Seminar requirement: All biology majors are required to take at least one two-credit seminar (with a number greater than 100) in their courses in the major. A seminar in biology is defined as an advanced offering that uses primary rather than secondary source materials and encourages active student participation in presentation and discussion of materials. Note that all two-credit seminars have at least one intermediate level course (numbered 10-39) as a prerequisite; the particular prerequisites for seminars vary and should be considered during selection of intermediate level courses.

All seminars must be taken at Swarthmore College.

A student may, with permission of the faculty instructor, take a seminar without the laboratory component. A seminar without the laboratory component becomes a BIOL 093 and does not meet the seminar requirement.

Students majoring in Biology must complete two courses from the list of quantitative NSE courses (below).

Comprehensive examination: All biology course majors must satisfy the general College requirement of passing a comprehensive examination given by the major department. In biology, this comprehensive examination is the lecture series BIOL 097, Themes in Biology. BIOL 097 is offered only in the fall semester and is usually taken by students during the fall of their senior year. This course features a series of visiting speakers who give presentations connected by an overarching theme that can be addressed from all areas of biology. It enables faculty and students to interact on an intellectually challenging project, allows students to think about a topic from a variety of levels of biological organization and gives students the opportunity to meet and interact with a variety of distinguished biologists.

Biology majors are required to take BIOL 097. BIOL 097 is a C/NC course. BIOL 097 counts as one of the eight credits required for a major in biology.

Evaluation of a student’s performance for this comprehensive exam will be translated into Credit/No Credit for purposes of earning credit. Students who fail BIOL 097 fail the comprehensive exam and thus may not graduate. The department will evaluate all such failures and decide on the appropriate action. Students will be notified of failure by the first day of classes in the spring semester of their senior year.

If a student is given permission by the College to be away from campus during the fall semester of the senior year, the Biology Department faculty may give permission to the student to write a senior paper and enroll in BIOL 095, a Senior Project, to satisfy the College requirement of a comprehensive examination. Alternatively, the student may be given permission by the Biology faculty to enroll in Themes in Biology during the junior year if the student has planned in advance to be away during the fall semester of the senior year.

Quantitative non-Biology courses which can be used for the Biology major: ASTRO 016, CHEM 015 or above, COMP SCI 021 or above, ENGR 005 or above (with the exception of ENGR 010), MATH 26 or above, PHYS 003 or above (with the exception of PHYS 029), STAT 11 or above, ECON 031 or 035.

Courses used to meet the Math/Stat criterion for acceptance to the major may not be counted toward the quantitative course requirement. Courses used to meet any other Biology major requirement may not be counted toward this requirement. While a student may test or place out of the Math criterion by AP, IB, or math placement test for acceptance to the Biology major, both quantitative courses necessary for the completion of the major must be taken after matriculation into Swarthmore. If a student is using CHEM 038 to satisfy their Group I requirement, it may not be used to satisfy this requirement.

Course Minor

Students who wish to minor in biology must complete six credits, at least four of which are to be taken at Swarthmore College. The GPA requirement to enter the minor is the same as for biology course majors 2.00 in BIOL 001 and BIOL 002, 2.00 in courses taken in the Biology Department, and 2.00 in all courses taken in the Division of Natural Sciences and Engineering. Both BIOL 001 and BIOL 002 are required (although one or both of these may be replaced by credit from an advanced placement examination after another biology course is completed; note that the department strongly encourages all students with AP credit to take at least one of the introductory courses). There are no requirements for courses outside the department. There is no distribution requirement within the department for the minor. Only one course numbered 003-009 is allowed. Only one credit in BIOL 093 or BIOL 094 is allowed. CHEM 038 (Biochemistry) may be counted as one of the six biology credits. BIOL 097 may NOT be used as a Biology credit for Biology minors.
Honors Major

Acceptance criteria
The course requirements for an honors major in biology are the same as those for a course major in biology (see above).

Admission to the Honors Program in biology is based on academic record. Applicants to the Honors Program in biology must have a grade point average (GPA) of 3.00 in all courses taken in the Natural Sciences and Engineering Division at Swarthmore College and must obtain a grade of B or better in all lecture courses and seminars used for the Honors Program. Applicants must also have a GPA of 3.00 in all biology courses. Unpublished grades in biology for the first semester of the first year will be considered in these requirements; passing grades of CR in other courses in the Division of Natural Sciences and Engineering are acceptable.

Students should list the anticipated fields of study, including two 2-credit seminar courses, in their Sophomore Plan.

Students who are accepted into the program must select a research project and mentor by the middle of the junior year. Final approval of the student’s Honors Program will occur during the fall semester of the senior year when the Final Honors Program Form is signed by the chairs of the participating departments.

Requirements for graduation

Credit requirements for honors: In addition to fulfilling the requirements to be accepted as biology honors major, the student majoring in biology must complete a minimum of eight biology credits. Students may take a course or seminar in biology as CR/NC but are not encouraged to do so. Students must earn a grade of B or better for all courses and seminars used for honors preparations. Honors students may not take Bio 097, Themes in Biology, for credit but are welcome and encouraged to attend the seminars.

Distribution requirements for honors: Students graduating with an honors major in biology must pass at least one course in each of the following three groups: I. Cellular and Molecular Biology, II. Organismal Biology, and III. Population Biology. The digit in the tens place of the course number signifies the group of the course (i.e., BIOL 020 is a Group II course and BIOL 114 is a Group I course).

The Biology Department faculty strongly encourage honors students to fulfill their group distribution requirements with intermediate- or seminar-level courses. Our experience has been that students with coursework at these levels have a more complete and deeper understanding of biology. In addition, students who alter their plans and withdraw from the Honors Program have much more flexibility in scheduling if they have already planned to fulfill the department distribution requirement with intermediate- or seminar-level courses. To mitigate the scheduling constraints imposed by the Honors Program, however, the following rules also apply to honors students:

An honors major who has taken both BIOL 001 and BIOL 002 at Swarthmore may use this pair of courses to satisfy any one of the distribution requirements (Group I, Group II, or Group III). An honors major who has AP or IB credit and has taken BIOL 001 but not BIOL 002 can use BIOL 001 to satisfy the Group I distribution requirement. An honors major who has AP or IB credit and has taken BIOL 002 but not BIOL 001 can use BIOL 002 to satisfy the Group III distribution requirement.

AP credit may not be used to satisfy the Biology distribution requirement.

Seminar requirement for honors: All honors biology majors are required to complete at least two 2-credit seminars (those with a number greater than 100) for honors preparations. A seminar in biology is defined as an advanced offering that uses primary rather than secondary source materials and encourages active student participation in presentation and discussion of materials. Note that all two-credit seminars have a prerequisite course from the intermediate level (numbered 010-039); the particular prerequisites for each seminar should be considered during selection of intermediate level courses. The two seminars used for honors preparations must be taken from different faculty members and must be taken at Swarthmore College.

Research (Thesis) requirement for honors: At least one, but not more than two, credits of thesis research (BIOL 180) are required. Thesis research will be graded by an External Examiner. Thesis research will be a substantial project carried out over 2 semesters, 2 summers, or 1 summer + 1 semester.

The primary mentor for thesis need not be a Swarthmore faculty member, but a Swarthmore faculty member must agree to be an on-campus mentor.

Students should plan on completing their research by the end of the fall semester of their senior year. The honors thesis has a page limit of 20 pages, not counting references, figures, figure legends or tables.

Senior Honors Study: Senior Honors Study (BIOL 199) is required for all honors majors in the spring semester of their senior year. This integrative/interactive program prepares each student to finalize and present his or her thesis work formally, in both oral and written forms. During the first few meetings of the semester, faculty members are available for consultation about data analysis. At mid-semester, students present posters of their projects to the faculty and other honors students for review. Comments from faculty and students on these posters will guide students in revising and polishing their written theses. SHS BIOL 199 is Credit/No Credit and the evaluation is done by the biology faculty.
**Honors Minor**

Biology minors in the Honors Program do not need to satisfy the distribution requirements of the major or take chemistry or mathematics unless required to do so for a specific preparation. Honors minors do not participate in Senior Honors Study.

Applicants to the Honors Program in biology must have a GPA of 3.00 in all courses taken in the Divisions of Natural Sciences and Engineering, a GPA of 3.00 in all biology courses taken at Swarthmore College, and a grade of B or better in all lecture courses and seminars used for the Honors Program.

The program in biology for an honors minor requires at least four credits and usually consists of BIOL 001 and BIOL 002, an intermediate level course (course number between 10 and 39) and a two-credit seminar (course number greater than 100).

---

**Application Process Notes for the Major or the Minor**

In addition to the process described by the Dean’s Office and the Registrar’s Office for how to apply for a major, we also ask that you attend the departmental information meeting for sophomores. A copy of the Biology Student Handbook, which contains detailed information about courses and other aspects of the major, minor, and regularized special majors, is available online via a link from the departmental homepage at www.swarthmore.edu/biology.

Applicants from the sophomore or junior classes who have completed all the requirements with the appropriate grades are accepted as a course major in biology. Applicants from the sophomore class who are in the process of completing these requirements with the required GPA are accepted contingent upon successful completion of the missing courses. Others who will not complete these requirements by the end of the current semester are deferred until the requirements are met. All students who have applied for the major in biology and who have been accepted or deferred are assigned an advisor in the Biology Department.

---

**Special Majors and Minors**

**Biochemistry**

The Biology Department, in collaboration with the Chemistry and Biochemistry Department, offers a course major and an honors major in biochemistry. This major gives students the opportunity to gain a strong background in chemistry with special emphasis on the application of chemistry to biological problems. Approval and advising for this special major are obtained through the Chemistry and Biochemistry Department and details about the course and honors major can be found in the Chemistry and Biochemistry section of this catalog. The Biology Department encourages biochemistry majors to take both BIOL 001 and BIOL 002 as a number of intermediate level courses in biology require both courses as a prerequisite.

Honors biochemistry majors are expected to participate in Senior Honors Study (BIOL 199) only if thesis research is done in the Biology Department.

Honors biochemistry majors must conduct thesis research with a Swarthmore faculty member.

**Neuroscience**

The Psychology and Biology departments offer a special major in Neuroscience for course and honors majors that combines work in the two departments in a way that allows students flexibility in choosing the focus of their Neuroscience major. Approval for this special major is done through both departments. Each Neuroscience major is assigned a faculty advisor from whichever of the two departments best
reflects the focus of that student’s plan of study. Details about the Neuroscience special major can be found on the Biology website.

**Bioeducation**
The special major in bioeducation requires six credits in biology. Most students take BIOL 001 and BIOL 002; a score of 5 on the Biology AP exam or equivalent can substitute for BIOL 001 and/or BIOL 002 and count for 1 credit. Students must take Evolution (BIOL 034) and at least one Group I and one Group II course. Completion of Chem 010, Math 015 and STAT 011 or placement out of these courses is required. In addition, the NSE elective requirement can be fulfilled by one of the following: ASTR 016, CHEM 015 or CHEM 022, CPSC 021 or above, PHYS 003/003L or above (not including PHYS 29 or 95), ENGR 005 or above, Math 025 or above. The special major in Bioeducation will include at least five credits in Educational Studies. Students should consult with the chair of the Educational Studies Department about specific requirements. Approval and advising for this special major are through the Biology and Educational Studies Departments.

**Environmental Studies**
A minor in environmental studies consists of an integrated program of five courses plus a capstone seminar (ENVS 091), which a student takes in addition to a regular major. The details of the minor and courses offered may be found at www.swarthmore.edu/envs.xml. The five courses must include at least one course in environmental science/technology; at least one course in environmental social science/humanities; and at least one more course from either of these two groups for a minimum of three courses from these two lists. Up to two of the five required courses may be chosen from the list designated adjunct and interdisciplinary courses. The capstone seminar is offered in the spring of the student’s senior year. Advising for this program is by the chair of the Environmental Studies Committee.

**Other special majors**
Individualized special majors may be constructed after consultation with the chairs and approval of the participating departments. The special major is expected to specify a field of learning that crosses departmental boundaries and can be treated as a sub-field within the normal departmental major. Individualized special majors consist of at least 10 credits, but usually not more than 12. A more detailed explanation of the individualized special major is found in Chapter 7 "Educational Program." Previously approved special majors include cognitive science, neuroscience, environmental science, biostatistics and biophysics.

**Thesis / Culminating Exercise**
See Acceptance Criteria and Requirements for Graduation, Comprehensive Examination.

**Advanced Placement/International Baccalaureate Credit**
Both BIOL 001 and BIOL 002 are required for the biology major and minor. However, one or both of these courses may be replaced by credit from one of the advanced placement examinations listed below, which will be granted after one biology course with laboratory is completed in the department. One biology credit is awarded for a score of 5 on the advanced placement examination; a score of 6 or 7 on the International Baccalaureate; or A on the Higher Level of Biology, Advanced Level Examination, German Arbitur, Austrian Matura or French Baccalaureate exam. Note that the department strongly encourages all students with advanced placement credit to take at least one of the introductory courses.

**Transfer Credit**
Credit for courses taken at an institution at which the student was previously matriculated may be counted toward the biology major. Courses will be evaluated on an individual basis to determine which departmental distribution requirements they meet.

**Off-Campus Study**
The Biology Department faculty enthusiastically support study abroad for their majors. Majors may study abroad and earn credits that count toward the requirements for a biology major or, alternatively, participate in programs without earning biology credit, while still completing the major in eight semesters. By college regulation, we cannot guarantee a specific amount of credit in advance toward the Swarthmore degree for successful completion of academic work completed at other institutions, with the exception of regular semester coursework at Bryn Mawr, Haverford, and the University of Pennsylvania completed under the four-college arrangement. Notwithstanding this restriction, our experience has shown that, with proper advance planning, study abroad is nearly always compatible with completion of the degree in eight semesters (including the semester(s) spent abroad). Planning is the key to success, and students contemplating study abroad are urged to see the Off-Campus Study Advisor early in the planning process.

Prior to studying abroad, students should obtain preapproval and credit estimation from the faculty member with teaching and research interests most closely related to the proposed course. At this time, the faculty member will describe what course characteristics are important for obtaining Swarthmore College credit, how credit will be calculated upon completion of the program, and which departmental distribution requirements, if any, the courses are likely to fulfill.
Upon return, the student should present a transcript, syllabus of the course (including the number of hours in lecture and laboratory), class notes, laboratory directions, examinations, laboratory reports and any papers or other written work (but not the textbooks) to the Biology Department’s Academic Coordinator, who will then determine which faculty member will be asked to award credit for the course. Courses without a laboratory will be awarded no more than one-half credit.

Research and Service-Learning Opportunities

Academic year opportunities

Research
Students may receive academic credit for research carried out either on- or off-campus (BIOL 094). Students interested in doing research on campus should contact individual faculty members directly. For off-campus research credit in BIOL 094, the student must submit a one-page proposal to the department indicating 1) prior course work in the area of research, 2) previous technical experience in a laboratory, 3) the name and address of the director of the laboratory and the name of the person under whom the student will work directly, and 4) a short description of the proposed project and the methods to be used in the investigation. This proposal must be presented to the chair of the Biology Department, no later than one week before registration for the semester in which credit will be received. There are also opportunities for students to be paid for research during the academic year. Individual faculty members should be contacted about the potential for positions in their laboratory.

Academic Assistants
Each year approximately 10 students are selected to assist in the BIOL 001 and BIOL 002 laboratories. These students are selected for their academic excellence, laboratory expertise, and ability to communicate with students. Each selected student assists in one laboratory per week and attends a weekly staff meeting for the course. BIOL 002 hires two or three additional students to staff evening computer clinics. Contact the laboratory coordinator for BIOL 001 or BIOL 002 for more information. Approximately eight students are selected as Science Associates (SAs) for excellence in comprehension, communication and compassion. SAs attend all BIOL 001 and BIOL 002 lectures on Monday, Wednesday, and Friday mornings, meet weekly with the SA program coordinator and faculty lecturers throughout the semester, and facilitate small group problem-based learning in evening study sessions. Contact the department for more information. Dean’s tutors in biology are hired on a rolling basis, to support student learning in BIOL 001 and BIOL 002. This is a flexible student position in which tutors meet one-on-one with students at mutually convenient times, typically for one hour per week. Contact the department for more information.

Experienced students are hired as laboratory assistants, van drivers and/or study guides in several intermediate level courses, including Genetics, Marine Biology, and Neurobiology. Students are also hired to help with the care of organisms associated with various courses and research laboratories. The departmental administrative assistant, animal facility manager and greenhouse manager, as well as individual faculty members, may be contacted about these positions.

The department collaborates with the Chester Children’s Chorus (www.chesterchildrenschorus.org/) to support Science for Kids, a summer and academic year program focused on engaging children from the nearby Chester-Upland school district with experimental science. The academic year program meets on Saturdays while classes are in session and the College has funds from the Howard Hughes Medical Institute to pay Swarthmore students involved in the program.

Student Committee for faculty searches
Each year the Biology Department conducts several searches for replacement faculty to teach courses when regular members of the department are on leave. In some years there is a search for a permanent or tenure-track position. Students are invited to serve on a Student Search Committee to interview and help select a candidate.

Summer opportunities

Research
Paid fellowships for summer research are offered by the Biology Department as well as other institutions. Funds are available for field and laboratory research projects conducted on- and off-campus. Information regarding the awards, application deadlines and downloadable applications are available on the Biology Department website. An information session is usually offered at the end of the fall semester to describe opportunities in more detail.

Community service
The Biology Department collaborates with the Chester Children’s Chorus (www.chesterchildrenschorus.org) to support Science for Kids, a summer and academic year program focused on engaging children from the nearby Chester-Upland school district with experimental science. The summer program commitment is 5-8 hours per week for 5 or 6 weeks and can usually be integrated with a full-time job or research position elsewhere on campus. Contact Jocelyne Noveral or Stacey
Teacher Certification

Students may complete the requirements for teacher certification through a program approved by the state of Pennsylvania. Options to pursue a biology major along with teacher certification or to pursue a special major in biology and educational studies are available. For further information about the relevant set of requirements, please refer to the Educational Studies section of the Bulletin.

Life After Swarthmore

Graduate school

Many of our majors have gone on to graduate school in biology after completion of their degree. While some students attend graduate school immediately after graduation from Swarthmore, others work for at least a year or two before applying to graduate programs. This time between finishing at Swarthmore and graduate school can be used to gain more experience in biology, or to try out a new field. These experiences both strengthen your graduate school applications and help you to know what you are most interested in studying. One- or two-year jobs are available at a variety of research institutes, field stations, universities, museums, government laboratories and companies. The Biology Student Handbook contains specific suggestions for applying to graduate programs and Biology Department faculty are happy to talk with students about programs and projects. Note that graduate schools in biology pay Ph.D. students a stipend for research and/or teaching. In addition, a few prestigious fellowships (e.g., National Science Foundation Graduate Research Fellowship) are awarded to the student (not to the program), giving the recipient more flexibility and autonomy in their graduate program.

Career options/opportunities

In addition to graduate school and professional school (medical, law, veterinary, business) there are many other job possibilities. The American Institute of Biological Sciences web page (www.aibs.org/careers/), which describes jobs open to people with a degree in biology, is a helpful resource. A degree in biology can lead to positions in the following areas:

**Research:** This could include laboratory work, fieldwork, or some combination of the two. Major employers include universities, research institutes, non-government organizations and companies (e.g., pharmaceutical, agricultural, biotechnology, food science).

**Healthcare:** Many doctors, dentists, nurses, veterinarians, laboratory technicians and other health care providers have backgrounds in the biological sciences. Other biologists utilize their background in disease prevention and control.

**Environmental management:** Park rangers, conservation biologists, zoo biologists, and land management specialists use their background in biology to develop and evaluate management plans to conserve natural resources.

**Education:** In addition to serving as university and college professors, some of our graduates teach in elementary and secondary schools, at museums and zoos, and at aquaria and nature centers. Biology majors also author newspaper and magazine articles, and may contribute to textbooks as writers, editors or illustrators.

**Other ideas:** Our graduates have obtained jobs in politics and policy, in areas such as economic and biological impacts of land use practices, science advising on biomedical procedures, effects of climate change, and educating members of Congress about scientific issues. Other biology majors have found positions in forensics, bioinformatics and computational biology. Finally, some majors have had careers in investment banking, consulting and law.

Biology Courses

Biology course numbers reflect study at different levels of organization-General Studies (001-009, 061-069), intermediate courses in Cellular and Molecular Biology (010-019), Organismal Biology (020-029), Population Biology (030-039), Seminars in Cellular and Molecular Biology (110-119), Seminars in Organismal Biology (120-129), and Seminars in Population Biology (130-139).

**Suggested first courses:** BIOL 001 and BIOL 002 are usually the first courses for students with an interest in biology. This includes students who are prospective biology majors or minors as well as students who have taken the biology Advanced Placement exam. These courses can be taken in any order. BIOL 001 is not a pre-requisite for BIOL 002.

**General Studies**

**BIOL 001. Cellular and Molecular Biology**

An introduction to the study of living systems illustrated by examples drawn from cell biology, biochemistry, genetics, microbiology, neurobiology, and developmental biology. BIOL 001 does not have to be taken before BIOL 002; it can be taken afterward. Natural sciences and engineering practicum. Writing course. One laboratory period per week. 1 credit. Fall 2019. Staff. Fall 2020. Staff.

**BIOL 001SP. Cellular and Molecular Biology**

BIOL 001SP will provide an enriched experience for first-year students who want to excel and continue studies in biology or a related discipline (e.g., biochemistry, neuroscience, environmental
Biology

Group I: Cellular and Molecular Biology (010-019)

BIOL 010. Genetics
The goal of this course is to provide a detailed understanding of the organization, function, and evolution of genes and genomes from a variety of model organisms. Topics include classical genetics and the molecular basis of heredity, chromosome structure and genome organization, genomic variation and gene regulation. In lecture and the laboratory, we will investigate both classical and current molecular approaches to genetic analysis. A major component of the course will also explore the unique scientific methods geneticists use to solve problems. Finally, over the course of the semester, we will consider the ways in which modern genetic technology affects society and our understanding of disease.
Prerequisite: BIOL 001 and BIOL 002; or permission of the instructor.
Natural sciences and engineering practicum. Lab required.
1 credit.
Spring 2020. Staff.

BIOL 013. Stem Cell Biology
Undifferentiated stem cells divide and differentiate throughout development to produce the specialized cell types found in multi-cellular organisms. Stem cells also play critical roles in tissue regeneration. In this course, the molecular and cellular properties of embryonic and adult stem cells and their potential therapeutic properties will be examined. Laboratory projects will include the evolution of stem cell systems, pluripotency during embryonic development, growth, regeneration, and reproduction.
Prerequisite: BIOL 001 and 002 or permission of instructor.
Natural sciences and engineering practicum.
1 credit.
Fall 2019. DuBuc.

BIOL 014. Cell Biology
A study of the ultrastructure, molecular interactions, and function of cell components, focusing primarily on eukaryotic cells. Topics include protein and membrane structure, organelle function and maintenance, and the role of the cytoskeleton.
Prerequisite: BIOL 001 and BIOL 002, and previous or concurrent enrollment in CHEM 010; or permission of the instructor.
Natural sciences and engineering practicum.
1 credit.
Fall 2019. Vallen.

studies). Entrance to the course will be determined by a commitment to both hard work and engagement with the subject rather than by high school GPA, SAT or AP scores.
Graded CR/NC.
Corequisite: Students must apply to get into BIOL 001SP and concurrently enroll in BIOL 001 (including a lab section).
Please click here for an application.
0.5 credit.
Fall 2019. Staff.
Fall 2020. Staff.

BIOL 002. Organismal and Population Biology
Introduction to the study of organisms emphasizing morphology, physiology, behavior, ecology, and evolution of whole organisms and populations.
Natural sciences and engineering practicum.
Writing course.
One laboratory per week.
1 credit.
Eligible for ENVS
Spring 2020. Staff.
Spring 2021. Staff.

BIOL 002SP. Organismal and Population Biology
BIOL 002SP will provide an enriched experience for first-year students who want to excel and continue studies in biology or a related discipline (e.g., biochemistry, neuroscience, environmental studies). Entrance to the course will be determined by a commitment to both hard work and engagement with the subject rather than by high school GPA, SAT or AP scores.
Graded CR/NC.
Corequisite: Students must apply to get into BIOL 002SP and concurrently enroll in BIOL 002 (including a lab section).
Please click here for an application.
0.5 credit.
Spring 2020. Staff.
Spring 2021. Staff.

BIOL 009. Our Food
(Cross-listed as ENVS 009)
The scale and efficiency of our food system is one of the marvels of the modern world. Yet in many ways this system is broken. This course will address the current state of our agricultural food system from a scientific perspective, focusing on the U.S. Each student will grow and maintain a micro-garden plot as part of the class, as well as develop educational signage for the public that conveys information about agriculture or their crop. Three hours of lecture/discussion/lab and one floating hour of fieldwork per week. One field trip.
Natural sciences and engineering.
1 credit.
Eligible for ENVS
**BIOL 016. Microbiology**
This study of the biology of microorganisms will emphasize aspects unique to prokaryotes. Topics include microbial cell structure, metabolism, physiology, genetics, and ecology. Laboratory exercises include techniques for detecting, isolating, cultivating, quantifying, and identifying bacteria. Students may not take both BIOL 016 and BIOL 017 for credit.
Prerequisite: CHEM 022; BIOL 001 and BIOL 002 or by permission of the instructor.
Natural sciences and engineering practicum.
One laboratory period per week.
1 credit.
Eligible for ENVS

**BIOL 017. Microbial Pathogenesis and the Immune Response**
A study of bacterial and viral infectious agents and of the humoral and cellular mechanisms by which vertebrates respond to them. Laboratory exercises include techniques for detecting, isolating, cultivating, quantifying, and identifying bacteria. Students may not take both BIOL 016 and BIOL 017 for credit.
Prerequisite: CHEM 022; BIOL 001 and BIOL 002 or by permission of the instructor.
Natural sciences and engineering practicum.
One laboratory period per week.
1 credit.
Eligible for ENVS

**BIOL 019. Omics**
An introduction to the study of genome structure, function, and evolution, with a focus on applying our understanding of genomes to answer fundamental biological questions. The course will also investigate the related fields of proteomics, metabolomics, and systems biology.
Prerequisite: BIOL 001 and BIOL 002 or by permission of the instructor.
Natural sciences and engineering practicum.
One laboratory period per week.
1 credit.

**Group II: Organismal Biology (020-029)**

**BIOL 020. Animal Physiology**
An examination of the principles and mechanisms of animal physiology, ranging from the subcellular to the integrated whole animal in its environment. Possible topics include metabolism, thermoregulation, endocrine regulation, nutrient processing, and muscle physiology.
Prerequisite: BIOL 001 and BIOL 002 or permission of the Instructor.
Natural sciences and engineering practicum.
1 credit.
Eligible for ENVS
Fall 2020. Staff.

**BIOL 022. Neurobiology**
A comprehensive study of the basic principles of neuroscience, ranging from the electrical and chemical signaling properties of neurons and their underlying cellular and molecular mechanisms to the functional organization of selected neural systems.
Prerequisite: BIOL 001 and CHEM 010.
Natural sciences and engineering practicum.
One laboratory period per week.
1 credit.
Eligible for COGS

**BIOL 023. Biology and Conservation of Amphibians and Reptiles**
An introduction to the scientific study of amphibians and reptiles. Examines their form, function, life histories, habitat requirements, and biodiversity. Topics include anatomy, physiology, population biology, and conservation biology. Special attention will be given to conceptual and applied topics relating to current concerns in amphibian and reptile conservation.
Prerequisite: BIOL 001 and BIOL 002.
Natural sciences and engineering practicum.
One laboratory period per week.
1 credit.

**BIOL 024. Developmental Biology**
In this course, we will explore the process by which single cells (fertilized eggs) develop into complex organisms. Students will conduct detailed observations of live embryos and engage in independent experimental analysis during weekly laboratory sessions.
Prerequisite: BIOL 001 and BIOL 002.
Natural sciences and engineering practicum.
One laboratory period per week.
1 credit.
Eligible for GSST
Spring 2021. Davidson.

**BIOL 025. Plant Biology**
This course is an exploration of the diverse field of plant biology. Topics will include growth and development, reproduction, genetics and genome biology, evolution and diversity, physiology, responses to pathogens and environmental stimuli, domestication, agriculture, and applications of plant genetic modification. Laboratories will introduce organismal, cellular, molecular, and genetic approaches to understanding plant biology.
Prerequisite: BIOL 001 and BIOL 002.
Natural sciences and engineering practicum.
One laboratory period per week.
1 credit.
Eligible for ENVS
Fall 2020. Kaplinsky.

**BIOL 029. Developmental Neurobiology**
Group A Neuroscience.
This course and its laboratory component will examine the fundamental principles underlying
nervous system development in both vertebrates and invertebrates. Students will be introduced to the complex underlying mechanisms guiding neural development in several model organisms. Prerequisite: BIOL 001 and BIOL 002; or permission of instructor.
Natural sciences and engineering practicum.
One laboratory period per week.
1 credit.
Fall 2019. Ballard.

BIOL 027. Systems Biology
This interdisciplinary course and its mandatory laboratory component will teach students methods and approaches in quantitative biology. Students will be introduced to physical principles in biology, experimental design, instrumentation, and computational image and data analysis. Prerequisite: BIOL 001 and BIOL 002; or permission of instructor.
Natural sciences and engineering practicum.
1 credit.

Group III: Population Biology (030-039)

BIOL 030. Animal Behavior
This course will focus on the mechanistic basis, functional consequences, evolutionary history and development of animal behavior. We will explore the conceptual roots of ethology and the current state of the art. Bi-monthly journal clubs introduce students to the primary literature. Lab and field component combines descriptive and experimental approaches to studying behavior and class-wide projects offer an opportunity to discover new knowledge in this field. Course content emphasizes statistical and quantitative methods. Prerequisite: BIOL 001 and BIOL 002 or equivalent.
Natural sciences and engineering practicum.
Lab required.
1 credit.

BIOL 031. Marine Mammal Biology and Conservation
A survey of the unique evolutionary histories, ecological strategies and conservation concerns of cetaceans (whales & dolphins), pinnipeds (seals, sea lions, and walruses), and sirenians (manatees and dugongs). Topics include how biologists study these animals, comparative approaches to examining their evolution, anatomy and physiology, and marine mammal adaptations for living in a marine environment. Prerequisite: BIOL 002 or permission of the instructor.
Natural science and engineering practicum.
Lab required.
1 credit.
Eligible for ENVS.

BIOL 034. Evolution
The course focuses on how the genetic and phenotypic structure of a population changes in response to mutation, natural selection, migration, and genetic drift. Other topics, such as quantitative genetics, speciation, phylogeography, and adaptation, provide a broader view of evolutionary processes. Prerequisite: BIOL 001 and BIOL 002.
Natural sciences and engineering practicum.
One laboratory period or field trip per week.
1 credit.
Eligible for ENVS, GLBL-Core
Fall 2019. Leslie.
Fall 2020. Formica.

BIOL 036. Ecology
The goal of ecology is to explain the distribution and abundance of organisms in nature through an understanding of how they interact with their abiotic and biotic environments. Students will gain ecological literacy and practice by studying processes that operate within and between hierarchical levels or organization such as individuals, populations, communities, and ecosystems. All this knowledge will be applied to understand the current global changes occurring in nature as a result of human activities. Prerequisite: BIOL 002 or permission of the instructor.
Natural sciences and engineering practicum.
Three to 6 hours of laboratory and/or fieldwork in the Crum Woods per week, in addition to at least one field trip per semester.
1 credit.
Eligible for ENVS, GLBL-Core
Fall 2019. Machado.

BIOL 037. Conservation Biology
This course provides an overview of the foundational concepts and future horizons of biodiversity conservation and illustrates central issues in contemporary conservation with case studies, critical reading of primary literature, field experiences and exposure to quantitative methods. Prerequisite: BIOL 002 or permission of the instructor.
Natural sciences and engineering practicum.
One laboratory period or field trip per week.
1 credit.
Eligible for ENVS, GLBL-Core

BIOL 039. Marine Biology
Ecology of oceans and estuaries, including discussions of physiological, structural, and behavioral adaptations of marine organisms. Prerequisite: BIOL 001 and BIOL 002.
Natural sciences and engineering practicum.
One laboratory per week; several all-day field trips.
1 credit.
Eligible for ENVS
Fall 2020. Chan.
Biology

BIOL 068. Bioinformatics
(Cross-listed as CPSC 068)
This course is an introduction to the fields of bioinformatics and computational biology, with a central focus on algorithms and their application to a diverse set of computational problems in molecular biology. Computational themes will include dynamic programming, greedy algorithms, supervised learning and classification, data clustering, trees, graphical models, data management, and structured data representation. Applications will include genetic sequence analysis, pair wise-sequence alignment, phylogenetic trees, motif finding, gene-expression analysis, and protein-structure prediction. No prior biology experience is necessary.

Can count as one of the credits required for the Biology major but does NOT satisfy distribution (Group I, II, or III) requirements.

Prerequisite: CPSC 035.

Natural science and engineering.
Lab required.
1 credit.
Eligible for COGS

Independent Studies

BIOL 093. Directed Reading
A program of literature study in a designated area of biology not usually covered by regular courses or seminars and overseen by a biology faculty member.
0.5 or 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

BIOL 094. Research Project
Qualified students may pursue a research program for course credit with the permission of the department. The student will present a written report to the biology faculty member supervising the work.
0.5 or 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

BIOL 094A. Research Project: Departmental Evaluation
Students carrying out a BIOL 094 research project will present a written and oral report on the project to the Biology Department.
0.5 credit.

BIOL 180. Honors Research
Independent research in preparation for an honors research thesis.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

Senior Comprehensive Examination

BIOL 095. Senior Project
With the permission of the department chair, a student may write a senior paper in biology to satisfy the requirement of a comprehensive examination for graduation.
Spring 2020. Staff.
Spring 2021. Staff.

BIOL 097. Themes in Biology
Invited scientists present lectures and lead discussions on a selected topic that can be engaged from different subdisciplines within biology. Serves as the senior comprehensive and examination; it is required of all biology majors in course. BIOL 097 may NOT be used as a Biology credit for Biology minors.
Prerequisite: This class is available only to Biology course majors who are seniors or with permission from the department chair.
Natural science and engineering.
1 credit.
Fall 2019. Staff.
Fall 2020. Staff.

Honors Study

BIOL 199. Senior Honors Study
An interactive, integrative program that allows honors students to finalize their research thesis spring semester. BIOL 199 is not part of the 8-credit minimum required for the biology major.
Writing course.
1 credit.
Spring 2020. Staff.
Spring 2021. Staff.

Seminars

BIOL 111. Genome Regulation by Noncoding RNA
This seminar explores regulatory mechanisms governing gene expression, nuclear organization and inheritance. We will specifically explore the ways in which non-protein-coding RNA contributes to gene regulation and the maintenance of genomic integrity, including the molecular bases for a variety of human pathologies such as cancer and aging. Through extensive reading of primary literature and laboratory research, students can expect to gain an in-depth understanding of the properties, functions and evolution of noncoding RNAs in critical genomic regulatory processes and current applications to human disease research.
Prerequisite: Any Group I course or BIOL 024, or BIOL 025, or permission of instructor.
Natural Science and Engineering practicum.
2 credits.

BIOL 114. Symbiotic Interactions
This seminar will focus on the molecular basis of plant-microbe, animal-microbe, and possibly microbe-microbe symbioses. In addition to
Biology

studying specific systems, common themes and pathways will be analyzed and discussed (nutrient exchange, suppression of the immune response, specificity of host-symbiont recognition, etc.). Readings will be primarily from the research literature. Laboratory projects will use molecular techniques and likely focus on the sea anemone *Aiptasia* and its symbiotic, photosynthetic dinoflagellate, *Symbiodinium*.

With permission of instructor, a student may take the discussion (NOT LAB) section of this seminar as 1 credit of BIOL 093.

Prerequisite: Any Group I or Group II biology course.

Natural sciences and engineering practicum.

One required laboratory per week.

2 credits.

**BIOL 115E. Plant Molecular Genetics and Biotechnology**

The course will investigate the technological approaches that plant scientists are using to address environmental, agricultural, and health issues. Topics will include biofuels, nutritional engineering, engineering disease and stress resistance, bioremediation, and the production of pharmaceuticals in plants. This course consists of one discussion and one laboratory per week.

With permission of instructor, a student may take the discussion (NOT LAB) section of this seminar as 1 credit of BIOL 093.

Prerequisite: BIOL 025 or any Group I course.

Natural sciences and engineering practicum.

Lab required.

2 credits.

**BIOL 116. Microbial Processes and Biotechnology**

A study of microbial mechanisms regulating metabolism and gene expression in response to natural and experimental stressors. Technical and ethical applications of these concepts in biotechnology will be addressed. Independent laboratory projects.

Prerequisite: BIOL 015, BIOL 016, BIOL 017, or CHEM 038.

Natural sciences and engineering practicum.

Writing course.

Lab required.

2 credits.

Eligible for ENVS

**BIOL 119. Genomics and Systems Biology**

Fundamental questions in biology are being answered using revolutionary new technologies including genomics, proteomics, metabolomics, systems biology, modeling, and large-scale protein and genetic interaction screens. These approaches have fundamentally changed how scientists investigate biological problems and allow us to ask questions about cells, organisms and evolution that were impossible to address even five years ago.

Readings will include animal, plant, fungal, and bacterial literature. Weekly laboratory projects will incorporate genomic and molecular approaches.

With permission of instructor, a student may take the discussion (NOT LAB) section of this seminar as 1 credit of BIOL 093.

Prerequisite: Any Group I intermediate biology course or permission of instructor.

Natural sciences and engineering practicum.

Lab required.

2 credits.

**BIOL 121. Neural Systems and Behavior.**

This seminar will examine the genetic, molecular, and functional requirements of identified brain systems, neural circuits, and individual neurons in the regulation of behavior. Discussion of primary literature will include the neural systems and behaviors of invertebrate and vertebrate model organisms, including Drosophila, mice, and humans. Research projects will utilize Drosophila as a model system to investigate the genes, neurons, and circuits involved in courtship, motor, and pain-sensing behaviors.

Prerequisite: BIOL 022, or BIOL 029, or permission of instructor.

Natural sciences and engineering practicum.

2 credits.

**BIOL 124. Hormones and Behavior**

This course will focus on endocrine regulation of animal behaviors, including reproduction, aggression, stress, sickness, parental care, and seasonality, with an emphasis on critical reading of primary literature.

With permission of instructor, a student may take the discussion (NOT LAB) section of this seminar as 1 credit of BIOL 093.

Prerequisite: BIOL 020 or BIOL 022 or permission of the instructor.

Natural sciences and engineering practicum.

Independent laboratory projects required.

2 credits.

Fall 2019. Hiebert Burch.

**BIOL 125. The Cellular Basis of Embryonic Development and Cancer**

Through discussion of the primary literature and independent experimental studies, students will investigate how precisely coordinated cellular processes promote the formation of embryos. We will also explore how disruptions in these processes promote cancerous cell behaviors. Potential topics include - cell migration and metastasis, the role of matrix adhesion in regulating embryonic and stem cell proliferation and the ability of cells to interpret their
environment using dynamic internal structures. Prerequisite: Completion of one of the following: BIOL 010, 014, 019, 024, or 025 or permission of the instructor. Natural sciences and engineering practicum. Lab required. 2 credits.

**BIOL 126. Biomechanics in Development and Regeneration**
Mechanical forces are an important mechanism influencing cell differentiation and migration during embryonic development and regeneration in animals. In this seminar, student will explore the primary literature in biomechanics and work on independent research projects aimed at dissecting the role of mechanics in development. One required laboratory each week with continuing, independent laboratory projects. Prerequisite: BIOL 001 and BIOL 024, BIOL 025, or BIOL 027; PHYS 003L or PHYS 007; or permission of instructor. Natural sciences and engineering practicum. Lab required. 2 credits.

**BIOL 127. Advanced Topics in Behavioral Biology**
This seminar examines the mechanistic and functional basis for the diversity of animal behavior seen in the natural world. Topics vary by semester but may include areas such as behavioral and environmental endocrinology, neuroethology, sensory and perceptual systems, social behavior, behavioral development and the evolution of behavior. Weekly readings and student-led discussion of the primary literature are modeled after a journal club course in graduate school and allow students to develop an in-depth understanding of scientific critique. Engage participation in these "crit sessions" provides students with the skills and confidence to decompose complex scientific studies, extract the relevant results, and evaluate the rigor of experimental design. By coupling these discussions with semester-long projects, students combine theory and practice in a way that translates into a more complete and mature understanding of the scientific process. This class takes an explicit quantitative approach to understanding animal behavior. Prerequisite: BIOL 001 and 002, or their equivalents. Completion of at least one organismal intermediate course (Group II). Recommended: a course in statistics (e.g. STAT 011 or higher). Natural sciences and engineering practicum. One required laboratory per week. 2 credits.

**BIOL 129. Developmental Neurotoxicology**
In this seminar students will explore the field of developmental neurotoxicology, with an emphasis on alternative toxicology models and computational approaches. The seminar will encompass student-driven discussion of primary literature and a required laboratory component with independent research projects aimed at mechanistic studies of neurotoxicity. Course content emphasizes statistical and quantitative methods. Prerequisite: Completion of BIOL 001, BIOL 002 and STAT 011, or their equivalents; completion of at least one of the following: BIOL 020, BIOL 022, BIOL 027, BIOL 029 with lottery preference for students who have completed BIOL 027. Recommended: STAT 021. Natural sciences and engineering practicum. Lab required. 2 credits. Fall 2020. Collins.

**BIOL 131. Animal Communication**
This seminar will examine animal communication from a cross-disciplinary perspective with a focus on the physiological basis and evolution of communication systems and an emphasis on understanding the primary literature. Independent projects form the core of the course and these typically involve studies of wild songbirds (Crum) or captive frogs (lab). Course content emphasizes statistical and quantitative methods. Prerequisite: Completion of BIOL 001 and BIOL 002, or their equivalents; completion of at least one of the following: BIOL 020, BIOL 022, BIOL 030, BIOL 034, BIOL 123 or BIOL 124 with lottery preference for students who have completed BIOL 030. Recommended: A course in statistics (e.g. STAT 011). Natural sciences and engineering. One required laboratory per week. 2 credits. Eligible for COGS Fall 2019. Baugh.

**BIOL 136. Molecular Ecology and Evolution**
Understanding molecular techniques and analysis has become increasingly important to researchers in the fields of ecology and evolution. Through discussion of the primary literature, and independent laboratory projects, students will explore how molecular tools are being implemented in studies of biogeography, dispersal, mating systems, biological diversity, and speciation. Depending on interest, topics such as wildlife forensics, conservations genetics, human migration, molecular clocks, and bioinformatics will also be discussed. With permission of instructor, a student may take the discussion (NOT LAB) section of this seminar as 1 credit of BIOL 093. Prerequisite: BIOL 002 or BIOL 034, and one Group I or Group III Biology course or BIOL 025. Natural sciences and engineering practicum. One required laboratory each week with
continuing, independent laboratory projects. 2 credits.

**BIOL 137. Biodiversity and Ecosystem Functioning**  
Can the current decline in global biodiversity alter the functioning and stability of ecosystems? The answer to this question can be reached by evaluating the ecological consequences of changing patterns in biodiversity, through either extinction or addition of species. We will review the relative or specific role of extrinsic factors (climate, disturbance, soils, etc.), genetic, taxonomic, and functional diversity in ecosystem functioning using both experimental and natural evidence.  
With permission of instructor, a student may take the discussion (NOT LAB) section of this seminar as 1 credit of BIOL 1093. 
Prerequisite: BIOL 002 and/or BIOL 036, or permission of instructor.
Natural sciences and engineering practicum.  
Lab required.  
2 credits.  
Eligible for ENVS.

**BIOL 139. Global Ocean Change Biology**  
This seminar will examine the impact of anthropogenic activities on marine organisms across different level of biological organization. Keeping pace with this rapidly evolving field, we will discuss primary literature across disciplines, including epigenetic and genetic responses, organismal performances, and ecosystem functions and services. Strong emphases are place on study design and statistical analysis. Manipulative and numerical experiments will involve marine invertebrate models. 
Prerequisite: BIOL 001 and BIOL 002, and a Group II or III course, or permission of instructor.
Natural Science and Engineering practicum.
The purpose of Black Studies is to introduce students to the history, culture, art, social relationships, and political, religious, and economic experiences of Black people in Africa, the Americas, and elsewhere in the world and to explore new approaches - in perspectives, analyses and interdisciplinary techniques - appropriate to the study of the Black experience.

Black Studies has often stood in critical relation to the traditional disciplines. Its scholars have used traditional and nontraditional methodological tools to pursue knowledge that assumes the peoples and cultures of Africa and the African diaspora are central to understanding the world accurately. The courses in the Black Studies Program at Swarthmore enhance the liberal arts tradition of the College, acknowledging positivist, comparative, progressive, modernist and postmodern, postcolonial, and Afrocentric approaches.

First Course Recommendations

**BLST 015. Introduction to Black Studies**

This course introduces students to the breadth and depth of the discipline in the Black Studies Program, using primary sources. It begins with an examination of current debates that define theory, method, and goals in black studies. It also examines the movement from the more object centered Africana studies to subject- and agentic oriented black studies that occurred as a result of civil rights and anti-colonialist movements in the U.S., Africa, the Caribbean, and Europe. The course examines the challenges that were levied against traditional academic disciplines with the rise of anti-racist scholarship. It briefly examines the conversation between American, Caribbean, and African postcolonialists, and it allows students to delve into some of black studies’ most current and exciting scholarship, with a focus on the U.S. Non-distribution.

The Academic Program

Course Minor

All interdisciplinary minors in Black Studies are required to take BLST 015: Introduction to Black Studies, ordinarily during their first two years, and four additional courses listed in the catalog that earn Black Studies credit. Honors minors must complete a two-credit honors thesis as one of these additional courses. Of these four additional courses, at least one of them must be outside of the departmental major, and no more than one course may be taken outside of Swarthmore. To be accepted into the minor a GPA of 3.0 in Black Studies related courses will be required. We strongly advise students to take a course in African or African diasporic history.

Honors Minor

Honors minors must meet all requirements of the course minor. Students participating in the Honors
Program are invited to define a minor in the Black Studies Program. Honors minors in Black Studies must complete a two-credit preparation for their honors portfolio to be submitted to external examiners. The following options apply:

1) A two-credit honors thesis written under program supervision,
2) A one credit thesis paired with a BLST course,
3) A two-credit honors seminar that counts toward the BLST Program, or
4) The pairing of two one-credit courses that count toward the BLST Program.

**Requirements and Preparation for Honors Minors**
The two-credit honors thesis must include work done for the interdisciplinary minor and should entail some unifying or integrative principle of coherence. In addition, an honors thesis must also include substantial work (normally 50% or more), drawing on a discipline that is outside of the student’s major. The Black Studies Committee must approve the proposal for the 2-credit honors thesis, normally during the fall of the student’s senior year.

After consultation with the major department, minors may draw on these preparations to enhance or, where appropriate, to integrate their completed or ongoing senior honors study for the major. Work in the Black Studies Program may be represented in the honors portfolio sent to the external examiner by the inclusion of an essay designed to enhance and/or integrate work done in two or more courses, a revised and enriched seminar paper or a term paper from a Black Studies Program course, a video or audio tape of a creative performance activity in dance or music, or other approved creative work.

**Special Major**
Students preferring more intensive work in Black Studies are welcome to design a special major by consulting with the program’s coordinator, usually during sophomore year. The special major includes the requirements for the minor plus 5 additional credits, one of which usually includes a capstone experience to be decided upon in consultation with the program’s coordinator. Forms for the Special Major are available from the Registrar’s Office and should be filed with the program coordinator and the Registrar’s Office.

**Thesis / Culminating Exercise**
Students may complete a one-credit course thesis (BLST 091) as part of the Black Studies minor or special major. Permission will be granted only after consultation with the Black Studies coordinator and committee. Approval must be secured by the spring of junior year.

**Application Process Notes for the Major or the Minor**
Students in any department may add an interdisciplinary minor in Black Studies to their departmental major by fulfilling the requirements stated subsequently. Applications for admission to the interdisciplinary minor should be made in the spring semester of the sophomore year through MY Swarthmore.

**Life After Swarthmore**
Students with a background in Black Studies have pursued a number of paths after graduation. Some have worked in research, or social service organizations, while others have gone directly to graduate school. Many eventually become teachers or professors. Others work in the broadcasting, arts, journalism, international law, business, finance, or in non-governmental organizations. All consider black studies to have been an important part of their liberal arts education.

**Black Studies Courses**
Courses in the Black Studies Program are listed below. Courses of independent study, special attachments on subjects relevant to black studies, and courses offered by visiting faculty that are not regularly listed in the catalog may also qualify for credit in the program, subject to the approval of the Black Studies Committee. Students who wish to pursue these possibilities should consult with the program coordinator.

The following courses may be counted for credit in the Black Studies Program. Descriptions of the courses can be found in each department’s course listings in this catalog.

**BLST 015. Introduction to Black Studies**
This course introduces students to the breadth and depth of the discipline in the Black Studies Program, using primary sources. Black Studies

BLST 059. The Black Freedom Struggle: From Civil Rights to Hip-Hop
This course is devoted to the study of the black efforts to achieve political, social and economic equality within the United States through protest. Students will investigate the links between protest efforts in the era of World War II, the nonviolent and radical phases of the modern civil rights movement and the development of a new culture of protest in the last quarter of the 20th century. In addition to studying historical texts, students will analyze various forms of protest media such as Black Radio Days, cartoons, paintings and plays of 1960s Black Arts Movement and the poems, lyrics, and graphic art of early hip-hop. Non-distribution.
1 credit.

This research seminar on the civil rights movement and student activism will investigate the history of the black student movement on college campuses in America circa 1968-1972 with an emphasis on unearthing the story of Swarthmore’s own black student protest in 1969. Students will write the first accurate history of the black protest as well as develop a creative project designed to educate the campus and broader community about these events. Non-distribution.
1.5 credits.

BLST 091. Thesis
Writing Course.
1 credit.

BLST 092. Seminar in Black Studies
Non-distribution.
1 credit.

BLST 093. Directed Reading
1 credit.

BLST 116. Redefining US Southern Literature
(Cross-listed as ENGL 116)
Our focus this year will be on the long, grand, and problematic tradition of U.S. Southern literature especially fiction in both comic and tragic modes as it developed after the Civil War to the present. Humanities.
2 credits.

BLST 133. Black Childhoods, Intersectionality and Education
(Cross-listed as EDUC 133)
Eligible for BLST

BLST 180. Honors Thesis
2 credits.

The objective of the Chemistry and Biochemistry Department is to offer effective training in the fundamental principles and basic techniques of the science and to provide interested students with the opportunity for advanced work in the main subdisciplines of modern chemistry. The department offers a course major, honors major, course minor, and honors minor in chemistry. In addition, the department offers the following special majors: in collaboration with the Biology Department, a course major and an honors major in biochemistry; and in collaboration with the Physics and Astronomy Department, a course major and an honors major in chemical physics. We offer teacher certification in chemistry through a program approved by the state of Pennsylvania. For further information about the relevant set of requirements, please refer to the Educational Studies section.

The Academic Program

Course Sequence Recommendations
Students planning a major in chemistry or biochemistry should complete Chemistry 010/010 HN and 022 during their first year at Swarthmore. During the sophomore year students can take 032 and 038 or 044 and 055 if the physics and mathematics requirements for physical chemistry have been completed. In addition, students planning a major in Biochemistry should complete Biology 001 in their first two years at Swarthmore. In the last two years, chemistry and biochemistry majors have some flexibility about the sequencing of the remaining requirements for the major. However, students should note that completion of Chemistry 010/010 HN, 022 and one semester of a 40-level or 50-level course constitute a minimum set of prerequisites for enrollment in any Chemistry and Biochemistry Department 100-level seminar. In addition, individual seminars carry additional prerequisites so students should plan ahead accordingly.

Course Major in Chemistry
The course major in chemistry consists of the courses listed below as well as their mathematics and physics prerequisites.

Acceptance Criteria
All applications are reviewed by the entire department. We consider grades in all college-level courses in chemistry, biology, mathematics, and physics. Decisions will not normally be made until two chemistry courses are completed and significant progress has been made towards meeting the physics and mathematics prerequisite requirements for enrollment in physical chemistry. An element in a student’s acceptance as a major is the considered judgment of the faculty, that includes the student’s potential for satisfactory performance in advanced course work and their fulfillment of the comprehensive requirement.
Course Minor in Chemistry

Requirements
The course minor in chemistry has the following requirements:

1. The minor consists of five chemistry credits, plus any prerequisites necessary. Two courses must be numbered 040 or higher. Research credits (094, 096, 180) may not be used to fulfill the requirements for the minor.
2. At least four of the five credits must be earned at Swarthmore College.
3. The minor will not be titled anything other than "chemistry." For example, there will be no minor in "organic chemistry" or "physical chemistry," etc.

Acceptance Criteria
Applications are reviewed by the entire department, and decisions are made on the basis of the considered judgment of the faculty, that includes the student's potential for satisfactory performance in advanced course work.

Honors Major in Chemistry

Requirements
An Honors preparation in Chemistry consists of three seminars - two in Chemistry (see item 1, below) and one in a minor - and a research thesis (see item 2, below). If, after following the procedures for applying for research in the department, an on-campus research mentor cannot be found, an Honors candidate should consult with the department’s class advisor to explore alternate means of meeting the requirement.

1. Honors chemistry majors must take at least two seminars (instead of only one required for the course major). These seminars (and their associated prerequisites) will serve as two of the honors preparations in the major.
2. Honors chemistry majors are expected to write a senior research thesis under the supervision of an on-campus research mentor. Thesis represents the third honors preparation. Preparation for a Research Thesis within an Honors Program consists of enrollment in two credits of Chemistry 180 during the senior year. Except under extraordinary circumstances, students presenting a thesis for external examination will also spend the summer between their junior and senior years on campus initiating their research project.

The Honors Exams for Majors and Preparations
The fields offered by the Chemistry and Biochemistry Department for examination by external examiners as part of the Honors Program are the topics of the 100-level seminars. The department will offer at least two of these preparations (seminars) during each academic year.

All fields in chemistry (except the Research Thesis) will be examined in three hour written examinations prepared by External Examiners. The Honors Research Thesis will be examined orally by the External Examiner chosen in that field. Honors oral exams for other preparations will be conducted by individual Examiners as well.

Acceptance Criteria
Applications are reviewed by the entire department, and decisions are made on the basis of the considered judgment of the faculty, that includes the student’s potential for satisfactory performance in advanced course work. To be admitted as a major in the Honors Program, a student must present a minimum of two courses in chemistry taken at Swarthmore College. In addition, the department looks for indications that the student will participate actively in seminars and can successfully work in an independent manner. To be eligible, the GPA in chemistry courses required for the major must be 3.0 or higher. A student previously accepted into the Honors Program but not maintaining this GPA in chemistry courses will be asked to withdraw from the Honors Program.

Honors Minor in Chemistry

Requirements
The honors minor in chemistry parallels the course minor, except that the program for an honors minor must include a seminar. The seminar serves as the basis of the honors preparation.

The Honors Exam for Minors and Preparations
All of the fields available to majors are available for students wishing to minor in chemistry, with the exception of the Research Thesis. All minors must meet the same prerequisite requirements for seminars established by the Chemistry and Biochemistry Department majors.

Acceptance Criteria
Applications are reviewed by the entire department, and decisions are made on the basis of the considered judgment of the faculty, that includes the student’s potential for satisfactory performance in advanced course work. To be admitted as a minor in the Honors Program in chemistry, a student must present a minimum of two courses in chemistry taken at Swarthmore College. In addition, the department looks for indications that the student will participate actively in seminars and can successfully work in an independent manner. To be eligible, the GPA in chemistry courses required for the minor must be 3.0 or higher. A student previously accepted into the Honors Program but not maintaining this GPA in chemistry courses will be asked to withdraw from the Honors Program.
Special Major in Biochemistry
The biochemistry major combines work in both the Chemistry and Biochemistry Department and the Biology Department. The requirements for a biochemistry major include all the requirements for a chemistry major plus additional course work in biology.

Requirements
CHEM 010/010 HN  CHEM 022
CHEM 032  CHEM 038
CHEM 044 or 055  CHEM 048
CHEM 058
One biochemically related 100-level seminar in the Chemistry and Biochemistry Dept. (CHEM 106, 108, 110 or 112, 118 or others with approval of Department)
Biochemistry majors must also complete either (1) a sophomore-level Biology course (with lab) and a biochemically related advanced Biology seminar (with lab) or (2) two sophomore-level biology courses (with labs).
The sophomore level Biology classes for Biochemistry majors can be any Biology course numbered 010 through 039. Please note the biology prerequisites for these courses and plan accordingly.
Biochemistry-related seminars offered in the Biology Department include: BIOL 110 (Human Genetics), BIOL 114 (Symbiotic Interactions), BIOL 115 (Plant Developmental Biology), BIOL 116 (Microbial Processes and Biotechnology), BIOL 123 (Learning and Memory), and BIOL 124 (Hormones and Behavior). Please note the biology prerequisites for these courses and plan accordingly.

Ancillary Requirements (prerequisites for physical chemistry):
PHYS 003/003L and PHYS 004/004L (or 007,008);
MATH 25 or 26 (for CHEM 044) or MATH 034 or equivalent (for CHEM 055)

Acceptance Criteria
Acceptance criteria are the same as for chemistry majors.

Requirements for Honors Major in Biochemistry
Acceptance criteria for the honors major in biochemistry are the same as for the honors major in chemistry.
The honors biochemistry major has the same set of requirements as the course biochemistry major, plus the requirement of four honors preparations in at least two departments must also be met, as follows:
1. Topics in Bioinorganic Chemistry (CHEM 106) or Biochemistry (CHEM 108) or Biophysical Chemistry (CHEM 110), Supramolecular Chemistry (CHEM 112), or Special Topics in Biochemistry and Its Applications (CHEM 118).
2. One biochemically oriented preparation from the Biology Department.
3. A two-credit biochemically oriented Research Thesis carried out under the supervision of faculty from the Chemistry and/or Biology Departments.
4. One additional preparation chosen from the Chemistry and Biochemistry Department or from biochemically related preparations offered by either the biology or psychology departments.

Special Major in Chemical Physics
The chemical physics major combines course work in chemistry and physics at the introductory and intermediate levels, along with some advanced work in physical chemistry and physics, for a total of between 10 and 12 credits. Laboratory work at the advanced level in either chemistry or physics is required; math courses in linear algebra and multivariable calculus are prerequisites for this work.

Requirements
In preparation for a major in chemical physics, students must complete by the end of the sophomore year: (1) CHEM 010/010 HN and 022; (2) PHYS 005, 007, 008 (PHYS 003, 004 can substitute, but the 005, 007, 008 sequence is strongly recommended); (3) further work appropriate to the major in either CHEM (044, 055, 056, and/or 065 or 066) or PHYS (013/015 and 017/018); (4) MATH 034. A chemical physics major will ordinarily include both semesters of physical chemistry (CHEM 044 and 055). A student may satisfy the requirement for laboratory work at the advanced level by completing a research thesis (CHEM 096 or 180), but in the absence of a research thesis, the major must include CHEM 065 or 066 or PHYS 082 in order to satisfy the requirement.

Example of a special major in chemical physics:
CHEM 022, 044, 055, 056, 065 or 066, 105;
PHYS 007, 008, 013/015, 017/018 050, 111, 113.

Acceptance Criteria
Acceptance criteria are the same as for chemistry majors, except that the faculty of the Chemistry and Biochemistry Department and Physics and Astronomy are both actively involved in the decision.

Acceptance Criteria and Requirements for Honors Major in Chemical Physics
Acceptance criteria for the honors major in chemical physics are the same as for the honors major in chemistry, except that the faculty of the Chemistry and Biochemistry Department and Physics and Astronomy are both actively involved in the decision.
The honors chemical physics major has the same
set of requirements as the course chemical physics major, plus the requirement of four Honors Preparations in at least two departments must also be met, as follows:

1. One preparation (seminar) chosen from the Chemistry and Biochemistry Department.
2. One preparation (seminar) chosen from the Physics and Astronomy Department.
3. A two-credit Research Thesis carried out under the supervision of faculty from the Chemistry and/or Physics Departments. If, after following the procedures for applying for research in the department, an on-campus research mentor cannot be found, an Honors candidate should consult with the department’s class advisor to explore alternate means of meeting the requirement.
4. One additional preparation chosen from the Chemistry and Biochemistry Department or from the Physics and Astronomy Department.

Finally, all students must attend at least one safety training session before the beginning of the senior year. These are offered one time per semester during the academic year and one time during the summer research session.

Biochemistry

The comprehensive requirement for biochemistry majors is the same as for chemistry majors.

Chemical Physics

The comprehensive requirement for chemical physics majors is the same as for chemistry majors. Occasionally, however, and on a case-by-case basis, the department is willing to negotiate a "hybrid" colloquium series for students completing a chemical physics special major. In consultation with both departments (chemistry and biochemistry and physics and astronomy), the student may draw up a list of colloquia pertinent to the special major and taken partly from the colloquium series of each department, and then participate in only these colloquia. However, in no event will the total number of talks for the year amount to fewer than the number of colloquia scheduled for the Chemistry and Biochemistry series.

Advanced Placement/International Baccalaureate Credit

Students with a score of 5 on the Chemistry AP exam (taken their junior year in high school or later) or a score of 6 or 7 on the Higher Chemistry IB exam are eligible to take the Honors Placement exam. Satisfactory performance on the exam will qualify the student to take Foundations of Chemical Principles - Honors (Chemistry 010 HN). In the absence of an AP/IB score students should take the Chemistry Readiness Exam for access to the Honors Placement exam.

Transfer Credit

It is sometimes possible to receive Swarthmore credit for chemistry courses taken at other colleges and universities, provided that they were taken after the student matriculated at Swarthmore. If you wish to take a chemistry course on another campus and to receive Swarthmore credit for doing so, it is essential that you follow the proper procedure and that you plan in advance. It is also important to realize that not all courses will be eligible for credit. See the department website for details.
Chemistry and Biochemistry

Off-Campus Study
The Chemistry and Biochemistry Department will offer advising to support the study abroad aspirations of chemistry and biochemistry majors. However, substantial advance planning is required and interested students are encouraged to plan their Sophomore Plan carefully and consult with their academic advisor.

Research
The Chemistry and Biochemistry Department offers opportunities for students to engage in collaborative research with faculty members. Each fall semester, the department hosts a series of short presentations by faculty members, outlining the research projects available. This meeting, normally held in November, serves as the starting point for student participation in research during the following summer and/or academic year.

Academic Year Opportunities
The Department of Chemistry and Biochemistry offers three ways for students to engage in supervised research for academic credit, during the academic year:

a. CHEM 094 (research project). Students may enroll in this course for either a half credit or a full credit. A half credit implies a time commitment of 5-7 hours per week, while a full credit implies a time commitment of 10-15 hours per week.

b. CHEM 096 (research thesis). A full year (two credits) of CHEM 096 corresponds to a research thesis for course majors.

c. CHEM 180 (honors research thesis). A full year (two credits) of CHEM 180 corresponds to a research thesis for honors majors.

All students who enroll for at least one full credit of research during an academic year are required to participate in the department’s Colloquium Series and present a poster sometime during the academic year.

Research Conducted in Other Departments
Students writing a research thesis as part of their plan to satisfy the comprehensive requirement in a chemistry, biochemistry, or chemical physics major (see above) sometimes elect to carry out their research with a faculty member in an allied department, such as biology, physics and astronomy, or engineering. In general, such students have two options for how to register for courses corresponding to thesis:

Option 1: Use the appropriate chemistry courses (two credits of CHEM 096 for a course thesis, or two credits of CHEM 180 for an honors thesis).

Option 2: Use the course designations appropriate to the department in which the research is conducted. For research conducted with a biology faculty member, for instance, a student might enroll in one credit of BIOL 180 and one credit of BIOL 199 over the course of the senior year. Thesis must ultimately consist of at least two full credits.

American Chemical Society Certification
The Department offers a degree certified by the American Chemical Society. Interested students should consult with their Departmental Advisor for more information concerning requirements for the certified degree.

Chemistry and Biochemistry Courses

CHEM 003A. The Process of Discovery: Diagnosis and Drugs
Discoveries in basic science over the past century have led to dramatic changes in the methods used to detect and treat disease. We will learn about the scientists and circumstances responsible for some of the fundamental discoveries instrumental to the rise of modern medicine. Discussions related to diagnostic methods will include imaging, blood testing and genetic screening. Discussions about modern medical treatments will include the process of drug discovery, the use of nuclear medicine and the introduction of artificial implants.
Natural science and engineering.
1 credit.

CHEM 010. Foundations of Chemical Principles
Building upon a student’s high school introduction to chemistry, a study of the general concepts and basic principles of chemistry, including atomic and molecular structure, bonding theory, molecular interactions, and the role of energy in chemical reactions. Applications will be drawn from current issues in fields such as environmental, biological, polymer, and transition metal chemistry. CHEM 010 is the normal point of entry for the chemistry and biochemistry curriculum.
Natural sciences and engineering practicum.
1 credit.
Fall 2019. Staff.
Fall 2020. Staff.

CHEM 010 HN. Foundations of Chemical Principles - Honors
Topics will be drawn from the CHEM 010 curriculum but discussed in greater detail and with a higher degree of mathematical rigor. Special emphasis will be placed on the correlation of molecular structure and reactivity, with examples drawn from such fields as biological, transition metal, organic, polymer, and environmental chemistry. Some familiarity with elementary calculus concepts will be assumed. Can only be taken as either a first or second year student.
Prerequisite: Performance on the departmental placement examination taken the week prior to the start of classes of a student’s first-year at
Chemistry and Biochemistry

Swarthmore.
Natural sciences and engineering practicum.
One laboratory period weekly.
1 credit.
Fall 2019. Graves.
Fall 2020. Staff.

CHEM 015. Environmental Chemistry
The course covers selected aspects of atmospheric chemistry, aquatic chemistry, and soil chemistry. There will be a specific focus on the environmentally important element cycles for C, N, O, P, and S in the absence and presence of current human activity. The chemistry of organic pollutants across the three zones will also be examined. The course content will involve a discussion of relevant current events.
Prerequisite: CHEM 010 or CHEM 010 HN; or discretion of the instructor.
Natural sciences and engineering practicum.
One laboratory period weekly.
1 credit.
Fall 2019. Graves.
Fall 2020. Staff.

CHEM 022. Organic Chemistry I
An introduction to the chemistry of some of the more important classes of organic compounds; nomenclature, structure, physical and spectroscopic properties; methods of preparation; and reactions of aliphatic and aromatic hydrocarbons, halides, and monofunctional oxygen compounds, with an emphasis on ionic reaction mechanisms.
Prerequisite: CHEM 010 or CHEM 010 HN.
Natural sciences and engineering practicum.
One laboratory period weekly.
1 credit.
Spring 2020. Staff.
Spring 2021. Staff.

CHEM 032. Organic Chemistry II
A continuation of CHEM 022 with emphasis on more advanced aspects of the chemistry of monofunctional and polyfunctional organic compounds, multistep methods of synthesis, and an introduction to bio-organic chemistry.
Prerequisite: CHEM 022.
Natural sciences and engineering practicum.
One laboratory period weekly.
1 credit.
Fall 2019. Paley.
Fall 2020. Paley.

CHEM 038. Biological Chemistry
An introduction to the chemistry of living systems: protein conformation, principles of biochemical preparation techniques, enzyme mechanisms and kinetics, bioenergetics, intermediary metabolism, and molecular genetics.
Prerequisite: CHEM 032.
Natural sciences and engineering practicum.
One laboratory period weekly.
1 credit.
Spring 2020. Staff.
Spring 2021. Staff.

CHEM 043. Analytical Methods and Instrumentation
An introduction to the techniques and instrumentation used for the separation, identification, and quantification of chemical species.
Prerequisite: CHEM 010/010HN, CHEM 022, PHYS 003/004 (or 003L/004L or 007/008), and MATH 025 (or 026).
Natural sciences and engineering practicum.
One laboratory period weekly.
1 credit.
Spring 2021. Staff.

CHEM 044. Physical Chemistry: Atoms, Molecules and Spectroscopy
A quantitative approach to the description of structure in chemical and biochemical systems. Topics will include introductory quantum mechanics, atomic/molecular structure, a range of spectroscopic methods and statistical mechanics. Systems of interest will range from gas-phase single molecules to condensed-phase macromolecular assemblies.
Prerequisite: CHEM 010/CHEM 010 HN; CHEM 022; MATH 025 (or MATH 026); and PHYS 003 and PHYS 004 (or PHYS 003L, PHYS 004L, or PHYS 007, PHYS 008).
Natural sciences and engineering practicum.
One laboratory period weekly.
1 credit.
Fall 2019. Wagner.
Fall 2020. Staff.

CHEM 048. Biological Chemistry II
A continuation of CHEM 038. More advanced aspects of proteins, nucleic acids, and metabolism will be covered along with an introduction to the structure, function and chemistry of carbohydrates and lipids. Additional topics include the transport of molecules and signals across and within membranes.
Prerequisite: CHEM 038
Natural sciences and engineering.
1 credit.
Fall 2019. Fera.
Fall 2020. Staff.

CHEM 055. Physical Chemistry: Energy and Change
A quantitative approach to the role that energy and entropy play in chemical and biochemical systems. Topics include states of matter, the laws of thermodynamics, chemical equilibria, electrochemistry, thermodynamics of solutions and phases and chemical kinetics/dynamics. Examples will be drawn from both real and ideal systems in chemistry and biochemistry.
Prerequisite: CHEM 010/CHEM 010 HN; PHYS 003, PHYS 004 (or PHYS 003L, PHYS 004L or
CHEM 056. Inorganic Chemistry
A study of the structure, bonding, and reactivity of inorganic compounds with emphasis on the transition metals. Included in the syllabus are discussions of crystal and ligand field theories, organometallic chemistry, and bioinorganic chemistry.
Prerequisite: Four prior semesters of college chemistry or discretion of the instructor.
Natural sciences and engineering.
1 credit.
Spring 2020. Staff.
Spring 2021. Staff.

CHEM 057. Advanced Integrated Experimental Chemistry
Integrated experimental projects incorporating analytical, inorganic, physical, and biochemistry methods. In the absence of extenuating circumstances, it is strongly recommended that this course be taken as a junior.
Prerequisite: CHEM 044; CHEM 056 must have already been completed or taken as a co-requisite.
Natural sciences and engineering practicum.
Writing course.
Laboratory course.
1 credit.

CHEM 058. Advanced Experimental Biological Chemistry
Experimental projects will build upon fundamental laboratory techniques acquired in earlier courses and focus on recombinant DNA technology, biochemical and structural biology methods to obtain information about biological macromolecules. Students will gain experience in experimental design and data analysis while exploring numerous classical and modern experimental techniques used in biochemistry research. Enrollment limited; preference will be given to biochemistry majors.
Prerequisite: CHEM 038; CHEM 048 must have already been completed or taken as a co-requisite.
Natural sciences and engineering.
1 credit.
Fall 2019. Fera.
Fall 2020. Staff.

CHEM 065. Advanced Experimental Chemistry: Physical
This course will consist of projects incorporating a range of chemistry sub-disciplines with a particular focus on physical experimental methods.
Prerequisite: CHEM 044
Natural sciences and engineering.
1 credit.
Spring 2021. Staff.

CHEM 066. Advanced Experimental Chemistry: Inorganic
The course will consist of 2-3 week projects which bring together a range of chemistry sub-disciplines with the focus on inorganic chemistry concepts, specifically, transition metal complexes, electrochemistry, spectroscopy, NMR, paramagnetism etc. Experimental skills and scientific writing will be emphasized.
Prerequisite: CHEM 056
Natural sciences and engineering.
1 credit.

CHEM 093. Directed Reading
A program of literature study in a designated area of chemistry not usually covered by regular courses or seminars. Overseen by a chemistry faculty member. The student will present oral and written reports to the instructor.
0.5 or 1 credit.

Seminars
Students should note that completion of CHEM 010/010 HN, 022, and one semester of a 40-level or 50-level course constitute a minimum set of prerequisites for enrollment in any Chemistry and Biochemistry Department seminar. In unusual circumstances, the department will consider whether completion of work of comparable sophistication in another department can substitute for the requirement that a 40-level or 50-level chemistry course be completed prior to enrollment in a seminar. Individual seminars carry additional prerequisites, as listed here.

CHEM 102. Topics in Synthetic Organic Chemistry
This course will address selected advanced topics of current interest in the field of synthetic organic chemistry. Material will largely be drawn from the current research literature and will likely include such topics as the applications of stoichiometric and catalytic organometallic chemistry, the control of relative and absolute stereochemistry, the use of "organocatalysts," and carbohydrates. The total synthesis of architecturally challenging natural products will serve to highlight the application of these technologies.
Prerequisite: CHEM 032 and one of the following: CHEM 044, CHEM 055 or CHEM 056.
Natural sciences and engineering.
1 credit.

CHEM 105. Quantum Chemistry and Spectroscopy
Advanced consideration of topics in quantum mechanics including the harmonic oscillator, angular momentum, perturbation theory, and electron spin. These concepts, along with molecular symmetry and group theory, will be applied to the study of atomic and molecular spectroscopy.
Prerequisite: CHEM 044, MATH 034 (or
equivariant). Some familiarity with linear algebra will be useful.
Natural sciences and engineering.
1 credit.

**CHEM 106. Topics in Bioinorganic Chemistry**
This seminar will start with a brief review of the basic principles of inorganic and biological chemistry as well as an overview of relevant biophysical techniques. Materials will be drawn largely from the primary literature. Students will be challenged to read and evaluate scientific papers critically. The main topics of this course will have to do with the function and coordination of metals in biological systems: important cofactors and metal clusters that carry out catalysis and electron transfer reactions, metal homeostasis, metals in medicine, and the importance of inorganic model compounds to understand the function of biological systems.
Prerequisite: CHEM 038 and CHEM 056.
Natural sciences and engineering.
1 credit.

**CHEM 107. Topics in Surface Chemistry and Surface Analysis**
The ability to design and specifically modify surfaces at the molecular level has enabled the miniaturization of many technologies. Topics will include methods to fabricate micropatterned surfaces and techniques used to characterize surfaces chemically and spatially using microscopy and surface spectroscopies. Material will be drawn both from current literature and textbook sources.
Prerequisite: CHEM 044 or CHEM 055.
Natural sciences and engineering.
1 credit.

**CHEM 108. Topics in Biochemistry**
Physical methods used to study high-resolution biomacromolecular structure will be discussed, using examples from the primary literature. Techniques used to measure the forces stabilizing intramolecular and intermolecular interactions and their application to proteins will be included.
Prerequisite: CHEM 038, CHEM 044 or CHEM 055.
Natural sciences and engineering.
1 credit.

**CHEM 110. Topics in Biophysical Chemistry**
An introduction to the interdisciplinary field of biophysical chemistry in which biological systems are explored using the quantitative perspective of the physical scientist.
Prerequisite: CHEM 038, CHEM 044 or CHEM 055.
Natural sciences and engineering.
1 credit.

**CHEM 112. Topics in Supramolecular Chemistry**
This course will focus on supramolecular chemistry as related to nanotechnology, logic gates, drug delivery, and novel materials. We will start with the principles of supramolecular chemistry covering the works of the Nobel Prize winner Jean-Marie Lehn considered by some to be the "Father of Supramolecular Chemistry". Major part of the course will focus on unusual DNA structures, DNA assemblies, and DNA-based nanomaterial (including DNA origami) as well as DNA nanomachines. The other part of the course will cover topics selected by students according to their interests.
Prerequisite: CHEM 038, CHEM 044 or CHEM 055.
Natural sciences and engineering.
1 credit.

**CHEM 114. Biophysics**
(Cross-listed as PHYS 139)
This seminar will provide an introduction to the study of biological systems using the tools of the physical sciences. Topics will include the role of statistical phenomena in life; feedback and control processes in biological networks; biological electricity; fluid dynamics as they pertain to organisms (both unicellular and multicellular), and topics chosen from the literature by the members of the seminar.
Prerequisite: PHYS 008, 013, 015, and 017; or PHYS 004 or 004L, CHEM 044 and CHEM 055; or permission of the instructor. Also BIOL 001 or CHEM 038, or permission of the instructor.
Students who have not previously taken an honors seminar in the physics department should discuss class format and expectations with the instructor before registering.
Natural sciences and engineering.
1 credit.
Fall 2019. Crouch.

**CHEM 118. Special Topics in Biochemistry and Its Applications**
This course will address selected topics of interest in the field of biochemistry, which may include protein-protein and protein-nucleic acid recognition, viruses, immunoglobulins, signal transduction, and structure-based drug design. Different experimental approaches, as well as the atomic and physical properties of different biological macromolecules and their complexes, will be analyzed and evaluated in the context of human disease development and research. Material will largely be drawn from the primary literature and students will read, evaluate and discuss scientific papers critically.
Prerequisite: CHEM 038 and either CHEM 044 or CHEM 055.
Natural sciences and engineering.
1 credit.
Chemistry and Biochemistry

Spring 2021. Staff.

CHEM 122. Topics in Physical Organic Chemistry
An in-depth exploration of major topics in organic chemistry, emphasizing physical principles over synthesis. Themes will include the detailed consideration of molecular structure, including of unusual and theoretically important molecules; the interpretation and elucidation of reaction mechanisms; thermodynamic and kinetic approaches to understanding reactivity; and quantitative approaches to all of the preceding. The course will also examine qualitative molecular orbital theory, as well as provide a brief introduction to computational electronic structure methods. In general, the goal will be to continue the study of organic chemistry from where the Chemistry 022/032 sequence ends.
Prerequisite: CHEM 022, CHEM 032 and either CHEM 044 or CHEM 055. Natural sciences and engineering. 1 credit.

Student Research
All students who enroll in one or more research courses during the academic year are required to participate in the department’s colloquium series and present the results of their work at a poster session during the academic year.
CHEM 094. Research Project
This course provides the opportunity for qualified students to participate in research with individual faculty members. Students who propose to take this course should consult with the faculty during the preceding semester concerning areas under study. This course may be elected more than once. Students may enroll in this course for either a half credit or a full credit. A half credit implies a time commitment of 5-7 hours per week, while a full credit implies a time commitment of 10-15 hours per week.
0.5 or 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

CHEM 096. Research Thesis
Chemistry and biochemistry majors will be provided with an option of writing a senior research thesis as part of their comprehensive requirement. Thesis students are strongly urged to participate in on-campus research during the summer between their junior and senior years. A minimum of 2 credits of CHEM 096 must be taken during the last three semesters of the student’s residence at Swarthmore. For Spring enrollment in Chem 096, students must also be enrolled in CHEM 199 concurrently.
1 credit.

CHEM 180. Honors Thesis - Research
An opportunity for students in the External Examination Program to participate in research with individual faculty members. Thesis topic must be chosen in consultation with a member of the faculty and approved early in the semester preceding the one in which the work is to be done. A minimum of 2 credits of CHEM 180 must be taken during the last three semesters of the student’s residence at Swarthmore. For Spring enrollment in CHEM 180, students must also be enrolled in CHEM 199 concurrently.
1 credit.

CHEM 199. Senior Thesis Workshop
Interactive course where students completing a senior research thesis discuss their work. Strategies for effective writing and oral presentations will be emphasized. Course is required of all students enrolled in Spring sections of CHEM 096 or 180. Enrollment is limited to those enrolled in CHEM 096 or 180. Natural sciences and engineering. 0 credit.
The field of Classics is devoted to the study of the cultures of the ancient Greeks and Romans. The curriculum includes training in the Greek and Latin languages at the Elementary, Intermediate, and Seminar levels. In addition, the department offers courses in Classical Hebrew and Sanskrit, and a range of courses on the history, literature, philosophy, religion, and cultural life of antiquity, including classes that explore the reception of the Classical past in later periods up to the present day. The rigorous training in Greek and Latin that is the hallmark of Swarthmore’s Classics program has meant that the department enjoys remarkable success in producing students who go on to become leaders in the field. But because it is a truly interdisciplinary field, Classics also appeals to students with a wide variety of interests and career goals.

The Academic Program

Greek, Latin, Ancient History, and Classical Studies may be a student’s major or minor subject in either the Course or the Honors Program. Three of these tracks (Greek, Latin, and ancient history) require advanced work in one of the original languages, while a major or minor in Classical Studies does not require but may include language study. Acceptance into one of the majors is dependent on promising work in relevant courses (normally indicated by A’s and B’s).

First course recommendations

The elementary Classics courses recommended are: GREK 001 Intensive First Year Greek and GREK 002 Intensive First Year Greek to be taken after completion of GREK 001; LATN 001 Intensive First Year Latin and LATN 002 Intensive First Year Latin to be taken after completion of LATN 001; all First Year Seminars (FYS) in ANCH, CLST, GREK and LATN; all ANCH courses and CLST 036 Mythology.

Course Major

Greek: 8.5 credits required, including 5-credit senior course study (see below). Two credits must come from an honors seminar in Greek.
Latin: 8.5 credits required, including 5-credit senior course study (see below). Two credits must come from an honors seminar in Latin.
Classical Studies: 8.5 credits in Greek, Latin, Classical Studies or Ancient History including 5-credit senior course study (see below). Two credits must come from a double-credit Classical Studies Capstone Seminar. Other disciplines on campus offer courses focused on aspects of classical antiquity (e.g. Art History, Philosophy, Political Science), and usually these will count toward completion of the major; students are advised to consult the chair for an accurate list of such courses.

Ancient History: A major in Ancient History consists of four Ancient History courses (ANCH 031, 032, 042, 044, 056, or 066), four credits in Greek or Latin, two of which must be from an honors seminar, and 5-credit senior course study. A second seminar in Latin or Greek may be substituted for two Ancient History courses.

Course Minor

Greek: 5 credits in Greek.
Latin: 5 credits in Latin.
Classical Studies: 5 credits in Greek, Latin, Classical Studies or Ancient History.
Ancient History: A course minor in Ancient History will consist of four courses in Ancient History, and an attachment to one of them.

Culminating Exercise/Senior Course Study

The culminating experience for course majors in Greek, Latin, Classical Studies, and Ancient History is a 5-credit senior course study (GREK 098, LATN 098, CLST 098, ANCH 098). This independent study will be taken in the senior year to prepare for a graded oral exam taken in the spring with the Classics faculty. The oral exam will be based on a 2-credit seminar the student has completed. The students will submit their final exams and a paper from the seminars, which may be revised. The oral exams focus on the seminar as a whole as well as on the papers and written exams submitted.

Honors Program in Classics

Greek and Latin: For a major in Greek or Latin, preparation for honors exams will normally consist of three seminars. A student minoring in Greek or Latin will take one external examination based on one seminar. Minors are, however, strongly encouraged to take more than one seminar, in order to be adequately prepared for the examination.
Classics

Classical Studies: Honors majors will complete 8 credits in Greek, Latin, Classical Studies, or Ancient History. They must complete three 2-credit units of study, of which at least one must be a double-credit Classical Studies Capstone Seminar. Minors will complete 5 credits in Greek, Latin, Classical Studies, or Ancient History including a double-credit Classical Studies Capstone Seminar.

Ancient History: For a major in Ancient History, one preparation will be a seminar in either Latin or Greek. The other two preparations can be another seminar in the same language and a course-plus-attachment, or two courses-plus-attachments. Students minoring in Ancient History will take three courses in Ancient History and add an attachment to one of them. That course-plus-attachment will be the preparation for the external exam. No ancient language is required for this minor.

Senior Honors Study
All honors majors and minors will select one paper from each seminar to be sent to the external examiner for that seminar. The student is free to submit the paper with minor or major revisions or no revisions at all. 4,000 words is the senior honors limit set by the college. Majors will, therefore, submit three such papers, and minors will submit one. Senior Honors Study is not required for students whose Honors preparation is a course with an attachment. The portfolio sent to external examiners will contain the seminar papers, together with syllabi and related materials, if any, from the instructors. A combination of (three-hour) written and (one-hour) oral exams will be the mode of external assessment for seminars. For course-plus-attachment, examiners will receive the course syllabus and the written product of the attachment. The exam will be just an oral assessment.

Advanced Placement/International Baccalaureate Credit
The department will grant one credit (only) for one or more grades of 5 on the Latin AP, or the IB equivalent. This credit may be counted toward the major or minor in Latin or CLST.

Off-Campus Study
A semester of off-campus study is usually possible for majors in classics. The department is a member of the Intercollegiate Center for Classical Studies in Rome, and encourages interested students to participate, preferably in the fall semester of their junior year. The ICCS program offers traditional courses in Greek, Latin, Italian, Renaissance and Baroque art history, and a required two-credit course based on first-hand exposure to the archaeological and artistic monuments of the ancient world to be found in Rome, the Bay of Naples, and Sicily.

Research and Summer Study
Students may apply to the department for summer funding to support intensive summer courses in Latin and Greek, participation in archaeological field work abroad, internships connected with classics, or research projects undertaken with a member of the department. Some summer programs recently attended by Swarthmore students include CUNY Summer Language Institute, Berkeley Summer Language Programs, University College in Cork, Ireland, Via Consulare Project in Pompeii, Agora Project in Athens, American Academy in Rome Summer Program, Gabii Project, Azoria Project, Morgantina, and Mt. Lykaion.

Life After Swarthmore
Many of our majors, and some minors, go on to pursue careers as professional classicists, at both the college and secondary levels. Swarthmore students well prepared in both Latin and Greek are competitive candidates for excellent graduate programs in classics, and in related fields such as medieval studies, English, history, and archaeology. In recent years Classics majors have been admitted to graduate programs at UNC-Chapel Hill, Penn, CUNY Graduate Center, Yale, Harvard, Duke, Princeton, University of Chicago, and Stanford. Others have successfully obtained teaching positions in secondary schools, both public and private; it is worth mentioning that there is a significant demand for teachers of Latin, particularly at the secondary level, and some states, including Pennsylvania, make it possible to teach Latin in public schools before obtaining professional certification. Most majors and minors have successfully pursued careers only tangentially related to classics, often after attending professional school. There are Swarthmore classicists in law, medicine, business, art, and music, and many other walks of life.

Classics Department Courses

CLST 004. Radical Jesus
Cross listed with RELG 004 Humanities.
1 credit.
Eligible for CLST, RELG
Fall 2020. Wallace.

Greek
Each semester we offer Greek at the elementary level (Greek 001 and 001), at the intermediate level (Greek 011, 012, 014), and at the advanced level. Teaching at the advanced level is typically an Honors seminar open to all qualified students.

GREK 001. Intensive First-Year Greek
Students learn the basics of the language and are introduced to the culture and thought of the Greeks. The course provides a selection of
readings from the most important Greek authors, including Herodotus, Thucydides, Sophocles, Euripides, and Plato. The course meets four times a week and carries 1.5 credits each semester. Students who start in the GREK 001-GREK 002 sequence must pass GREK 002 to receive credit for GREK 001. Year-long course. Humanities. 1.5 credits. Fall 2019. Munson. Fall 2020. Staff.

GREK 002. Intensive First-Year Greek
Students learn the basics of the language and are introduced to the culture and thought of the Greeks. The course provides a selection of readings from the most important Greek authors, including Herodotus, Thucydides, Sophocles, Euripides, and Plato. The course meets four times a week and carries 1.5 credits each semester. Students who start in the GREK 001-002 sequence must pass GREK 002 to receive credit for GREK 001. Year-long course. Humanities. 1.5 credits. Spring 2020. Lefkowitz. Spring 2021. Staff.

GREK 011. Plato and Socratic Irony
This course will focus on one or more of the Socratic dialogues of Plato in Greek. Emphasis will be placed on developing skills in reading and composing Greek, and also on the analysis of Plato’s characteristic literary techniques and philosophical thought. The course will include a systematic review of grammar, syntax, and vocabulary. GREK 011 is normally taken after GREK 002. Humanities. 1 credit.

GREK 012. Homer’s Iliad
This course examines the literary, historical, and linguistic significance of Homer’s Iliad. Selections from the poem are read in Greek and the entire poem is read in translation. Humanities. 1 credit.

GREK 013. Introduction to Plato’s Republic
The main focus will be on reading Book I of the Republic in Greek, giving sustained attention to Greek grammar and vocabulary. We will also read the rest of the Republic in English, and consider select problems of interpretation, such as the role of Plato’s “guardians,” the place of poetry, and Plato’s purpose in exploring an “ideal state.” The course is intended for students who have completed a first year of classical Greek, or the equivalent in High School or summer courses. Humanities. 1 credit.

GREK 014. Greek Prose Survey
Introduction to reading and analysis of Greek prose, including selections from Lysias, Xenophon, Lucian, and the fables of Aesop. Humanities. 1 credit. Fall 2019. Lefkowitz.

GREK 015. Sophocles
In Sophocles’ Ajax, Achilles is dead and the prize of his arms has been awarded to Odysseus. Can the hero withstand being passed over as “the best of the Achaeans”? Can he accept that in a political community everything is in flux and friends become enemies, and enemies friends? We will be reading this tragedy in Greek, paying great attention to grammar and style. Humanities. 1 credit.

GREK 091. Attachment: Classical Studies Capstone Seminar
Students read texts in Greek that complement a Classical Studies Capstone Seminar. Humanities. 1 credit.

GREK 093. Directed Reading
Independent work for advanced students under the supervision of an instructor. Interested students should contact the chair as soon as possible concerning possible authors and topics. 1 credit.

GREK 096. Aesop’s Fables
This course will be organized as a research workshop for intermediate and upper-level students in Greek and/or Latin. For more information please contact Professor Jeremy Lefkowitz (jlefkow1@swarthmore.edu). Humanities. 1 credit.

GREK 098. Senior Course Study
Independent study taken normally in the spring of senior year by course majors. Students will prepare for a graded oral exam held in the spring with department faculty. The exam will be based on any two-credit unit of study within the major (Honors seminar or course plus attachment), with students submitting their final exam and a paper, which can be revised. 0.5 credit. Spring 2020. Ledbetter. Spring 2021. Ledbetter.

Latin
Each semester we offer Latin at the elementary level (Latin 001 and 002), the intermediate level, and we offer an Honors seminar open to all qualified students. We also offer intermediate Latin courses that can be taken with an attachment
to create a two-credit unit for the Honors Program or the course major.

LATN 001. Intensive First-Year Latin
Students learn the basics of the language, with readings drawn from Plautus, Cicero, Sallus, Martial, the emperor Augustus, and Catullus. The course meets four times a week and carries 1.5 credits each semester. Year-long course. Students must pass LATN 002 to receive credit for LATN 001.
Humanities.
1.5 credits.
Fall 2019. Turpin.
Fall 2020. Staff.

LATN 002. Intensive First-Year Latin
Students learn the basics of the language, with readings drawn from Plautus, Cicero, Sallus, Martial, the emperor Augustus, and Catullus. The course meets four times a week and carries 1.5 credits each semester. Year-long course. Students must pass LATN 002 to receive credit for LATN 001.
Humanities.
1.5 credits.
Spring 2020. Staff.
Spring 2021. Staff.

LATN 011. Lyric, Pastoral, and Elegiac Poetry
This course is intended for students who have completed Intensive First Year Latin (Latin 001-002) or the equivalent in summer programs or high school. Readings will be drawn from such authors as Catullus, Horace, Vergil, Propertius and Ovid. Students will read selected modern criticism and will develop interpretative as well as linguistic skills.
Humanities.
1 credit.
Fall 2019. Mahoney.
Fall 2020. Staff.

LATN 013. Tradition and Transformation in the Roman Empire
Selected readings by the poet Ovid. opics will include the range of poetic genres in which Ovid wrote, the characteristics of his writing that remain stable across these different genres, and Ovid’s relationship to the history and culture of the time in which he lived.
Prerequisite: LATN 011 or its equivalent.
Humanities.
1 credit.

LATN 014. Medieval Latin
Readings are chosen from the principal types of medieval Latin literature, including religious and secular poetry, history and chronicles, saints’ lives, satire, philosophy, and romances.
Prerequisite: LATN 011 or its equivalent.
Humanities.

LATN 017. Latin Poetry and the Modernists
This course explores Latin poems influential in the creation of the modernist verse of, in particular, Ezra Pound and T.S. Eliot. The Latin texts are read in the original, for their own sake and in their own context. But we also explore the readings given them by the modernists, in an attempt to assess the uses and importance of their common literary tradition.
Prerequisite: LATN 011 or its equivalent.
Humanities.
1 credit.

LATN 019. Roman Imperial Literature
This is an intermediate Latin course that will focus on reading a few key texts in order to give us insight into everyday life and social history in imperial Rome. The primary aim of the class is to improve students’ skills of reading Latin. A secondary goal is to examine the lives of various social groups in imperial Rome, including slaves, recently freed men and women, and freeborn citizens. We will consider their attitudes on a number of issues still relevant today, including gender, grief, slavery, education, administration, love, justice and morality. The principal Latin texts will be Petronius’ Satyricon, the letters of Pliny the Younger, and selected documents such as inscriptions and papyri. Students with no previous Latin courses at the college level should consult the instructor before enrolling.
Humanities.
1 credit.

LATN 021. Republican Literature
In this course, we will be reading Book 1 of the Ab Urbe Condita by Livy as an example of Roman historiography in the Late Republic and Early Empire. The course will view the text both as a problematic document for Rome’s earliest history but also as evidence for Livy’s own age in the early Augustan regime.
Humanities.
1 credit.

LATN 023. The Roman Novel
This course focuses on Petronius’ Satyricon and/or Apuleius’ Golden Ass. Besides reading extensively from the works themselves, we will consider what the genre "novel" means in Latin, what these works have to tell us about Roman society and language, and various other topics arising from the novels and from contemporary scholarship about them.
Humanities.
Writing course.
1 credit.
LATN 024. Latin Poetry and the Roman Revolution
The transformation of the Roman Republic into the monarchy of Augustus and the emperors was accompanied by a similar transformation in Roman poetry. In place of the staunch independence of Lucretius and the outrageous irreverence of Catullus, the new poets Propertius, Horace, and Vergil wrote poetry that responded directly or indirectly to the new political world. This course will explore one or more of these poets in depth, both within their political context and within the broader literary tradition. Students will read modern scholarly criticism, and develop their own critical approaches to writing about Latin poetry. They will also review basic Latin morphology and syntax, and build a stronger Latin vocabulary. The course is suitable for those with 3-4 years of High School Latin, or 1-2 years of Latin in college.

Humanities.
Writing course.
1 credit.

LATN 025. Latin Poetry and the English Renaissance
Ben Jonson said that Shakespeare had "small Latin and less Greek," but all products of the Elizabethan grammar schools were steeped in Latin literature. This course will explore some of their seminal Latin texts, including Ovid’s Amores; Horace’s Odes, and Vergil’s Eclogues. We will also read some of the English poems most directly influenced by these Latin works, by poets such as Donne, Spenser, Marvell, Lovelace, Herrick, Rochester, and Milton.

Humanities.
Writing course.
1 credit.

LATN 027. Gender and Sexuality in Rome
This course will focus on Latin texts that reflect the sexual attitudes and behaviors of the ancient Romans and the gender roles that both shaped and were shaped by those attitudes. Among other topics, we will explore the Roman institutions of marriage and the family. Conceptions of femininity and masculinity, and attitudes toward homosexuality. We will also engage with recent scholarship on gender and sexuality in antiquity from a wide range of critical perspectives. Our Latin texts will be drawn from several different genres, including graffiti, comedy, satire, love poetry, epic, letters, history and inscriptions.

Humanities.
1 credit.

LATN 028. Apuleius
Ready to be shocked, perplexed, and surprised at every turn? Try Apuleius’ Metamorphoses (or Asinus Aureus), one of the earliest novels in Western literature. We will read the whole of this unconventional and mysterious work in English and books I and III in Latin, paying close attention to grammar, style, narratology, issues of genre and cultural context. Assignments will include articles dealing with literary criticism and background of the work.

LATN 029. Caligula and Claudius
This is an advanced Latin course, intended for students with one or more intermediate Latin courses at the college level, or c. 4 years of Latin in high school. The emperor Gaius Caligula, famous for considering his favorite racehorse for the office of consul, raises urgent questions about what we consider normal in our leaders. The emperor Claudius, made generally famous by the classic TV series "I Claudius," presents similar questions. He was a transformative figure in Roman imperial history, responsible for the creation of a civil service, expansion of the Roman citizenship, and the conquest of Britain. But he also had medical problems, and made some spectacularly inappropriate marriages. The principal Latin texts will be Suetonius’ Life of Gaius Caligula, Tacitus’ bitter account of Claudius in his Annals, and selected documents (inscriptions and Latin papyri). We will also read Seneca’s exposition of Stoic ideals in his de Providentia, and Seneca’s (?) Apocolocyntosis, a spoof account of Claudius’ posthumous journey to heaven.

Can serve as an honors preparation when combined with a one credit attachment.

Humanities.
Writing course.
1 credit.

Fall 2019. Turpin.

LATN 029A. Attachment: Caligula and Claudius
Attachment to LATN 029 Caligula and Claudius (see LATN 029 for course description).

Humanities.

1 credit.

Fall 2019. Turpin.

LATN 030. Advanced Survey of Latin Poetry
The poems in this course will be chosen in consultation with participants. Depending on interest, texts to be read in Latin may include Catullus, "The Marriage of Peleus and Thetis" and "The Lock of Berenice"; Lucretius; Vergil, Eclogues or Georgics; Ovid, esp. Ars Amatoria; the Pervigilium Veneris; selections from the Anthologia Latina; selections from the Carmina Burana or other medieval texts. Students will read modern critical scholarship and write a number of critical essays. Students interested in this course should contact the instructor, preferably before the start of classes.

Prerequisite: Students should have completed one or two intermediate Latin courses at the college level, or the equivalent in high school (e.g.
LATN 031. Latin Rhetoric & History
This is an advanced intermediate course suitable for students with two or more courses of Latin at the intermediate level (or equivalent). Texts to be read in Latin may include Tacitus, Agricola and Annals (selections), Suetonius, Sallust, or Cicero. In addition, we will read certain rhetorical texts in translation, e.g. Cicero, Quintilian, or the Auctor and Herennium. This course is NOT a writing course.
Prerequisite: Two or more courses of Latin at the intermediate level (or equivalent)
Humanities.
1 credit.

LATN 032. Latin Satire
This course will focus on the Latin satirical poetry of Horace and Juvenal. We will also read Greek and Latin texts in English (e.g. Aristophanes, Plautus, Terence, Lucian), to explore ancient ideas about humor in general and literary characters in particular.
For students at the advanced intermediate level in Latin, e.g. a 5 on the Latin AP or one or two intermediate Latin courses at the college level. For questions about placement contact the instructor.
Humanities.
1 credit.

LATN 033. Horace, Lyric and Literary Criticism
In this course we will read selected Odes and Epodes of Horace, as well as his Ars Poetica, a long hexameter poem that is one of seminal works in Western literary criticism. We will translate each poem and learn how to read it aloud, in the appropriate meter. For most poems we will also read Greek and Latin predecessors (in English), and for many poems we will also read English poems (and in one case a short story) influenced by Horace. For each poem of Horace we will also read at least three scholarly treatments, to stimulate our own critical responses. In reading Odes and Epodes the central issue will be what makes Horatian lyric so successful, along with questions of allegory and historical context. With the Ars Poetica the main question is the extent to which the poem is to be read as serious literary criticism or a parody. The course is intended for students at the advanced intermediate level in Latin, e.g. students who have received a 5 on the Latin AP or the equivalent, or who have taken at least intermediate Latin course at the college level. For questions about placement contact the instructor.
Humanities.
1 credit.

LATN 034. Apuleius, Augustine, and the African Tradition
This course will explore the two most important Latin authors from the Roman province of Africa (roughly modern Tunisia). We will read selections in Latin from the Metamorphoses of Apuleius (also known as The Golden Ass) and from the Confessions of St. Augustine; we will read the complete books in English, as well as Peter Brown’s famous biography, Augustine of Hippo.
General topics will include: the peculiar qualities of "African Latin"; the place of Apuleius within the tradition of Greek and Roman novels; Platonism, the cult of Isis, and allegory in Apuleius; Augustine’s purposes as a writer of "autobiography"; the place of Latin literature, Platonism, Manichaeism, and orthodox Christianity in Augustine’s life and thought.
This is not an approved writing course, but students will work over the course of the semester on producing a formal research paper of about ten pages.
Humanities.
1 credit.
Spring 2021. Turpin.

Attachment to LATN 035
Humanities.
1 credit.

LATN 050. The Age of Nero
This course will explore Latin texts from the circle of Nero, such as Petronius’ Satyricon and Seneca’s De Providentia. The Neronian texts will be complemented by Tacitus’ later account of the period in his Annales. Selected Latin texts will be supplemented by further reading in English translation. The course will explore the events and the ethos of Nero’s regime, including his dramatic matricide, his interesting hobbies, his disastrous marriages, the Great Fire of Rome, the scapegoating of Christians, the Pisonian Conspiracy, and the "Stoic Opposition."
Students should have completed one or two intermediate Latin courses at the college level, or the equivalent in High School (e.g. successful completion of the AP or IB programs). The course may be taken in conjunction with an attachment (Latin 51A) to create a two credit honors preparation.
Humanities.
1 credit.
Fall 2020. Turpin.
LATN 091. Attachment: Classical Studies Capstone Seminar
Students read texts in Latin that complement a Classical Studies Capstone Seminar.
Humanities.
1 credit.

LATN 093. Directed Reading

This course will be organized as a research workshop for intermediate and upper-level students in Greek and/or Latin. For more information contact Professor Jeremy Lefkowitz (jlefkow1@swarthmore.edu).
Humanities.
1 credit.

LATN 098. Senior Course Study
Independent study taken normally in the spring of senior year by course majors. Students will prepare for a graded oral exam held in the spring with department faculty. The exam will be based on any two-credit unit of study within the major (Honors seminar or course plus attachment), with students submitting their final exam and a paper, which can be revised.
0.5 credit.
Spring 2021. Ledbetter.

Ancient History
Each semester we offer one course in Ancient History (typically Greek history in the Fall and Roman history in the Spring). Students may combine any course with a research paper (“attachment”) to create a 2-credit unit for the Honors program or the Course major.

ANCH 010. First-Year Seminar: Slavery in Ancient Greece and Rome
According to the ancient historian M. I. Finley, there have been only five genuine slave societies, and two of them were ancient: those of classical Greece and Rome (the other three are the United States, the Caribbean and Brazil). Slavery was deeply woven into the fabric of everyday life in both societies, since it functioned as the key principle of social organization and the dominant mode of production. This course will explore slavery as a social, political, legal, economic and cultural institution in both the Greek and Roman worlds. In order to consider the impact of slavery on state and society in ancient Greece and Rome we will reflect on a number of topics, including the origins of slavery; the sources, number, legal status and treatment of slaves; ancient attitudes towards slaves and slavery; the family life of slaves; the many forms of slave labor; slave revolts and resistance; and manumission and freedom. We will also consider slavery in the American south to help us situate ancient slavery in a broader historical context.
Social sciences.
Writing course.
1 credit.

ANCH 011. First Year Seminar: Rome: The Archaeology of Empire
This first year seminar explores the physical development of Rome as it progressed from a tiny village of shepherds to become the metropolis of the ancient Mediterranean. Through reading ancient sources and examining archaeological sites and monuments, we will investigate the relationships linking politics, religion, art, and architecture in the ancient world.
Social sciences.
1 credit.
Fall 2019. Mahoney.

ANCH 016. First-Year Seminar: Augustus and Rome
The great-nephew and adopted son of Julius Caesar rose to sole power in Rome after a series of civil wars culminating in the defeat of Antony and Cleopatra. He, along with his wife Livia, transformed Rome by creating a monarchical system that hid the real power behind the traditional institutions of the Roman republic. The process was supported and explained by a unique program of literary, artistic, and architectural revival. Ancient authors to be read (in English) may include Augustus himself, Livy, Vergil, Horace, Propertius and Ovid; we will also study the artistic and architectural projects that helped to communicate the ideologies of the new regime.
Social sciences.
Writing course.
1 credit.

ANCH 017. First-Year Seminar: Pompeii: In the Shadow of Vesuvius
Destroyed by the eruption of Mt. Vesuvius in 79 CE, Pompeii continues to captivate the Western imagination as the prototypic image of apocalyptic disaster. In this course we will use Pompeii to explore how we think about the past. We will study the physical remains of the ancient town in order to better understand social, political and commercial life in the Roman world. We will also consider the site’s role in the development of archaeology as a discipline, from its origins in the eighteenth century as a scientific form of treasure-hunting, up to the present day, when scholars are questioning the ethics of excavating at all. Finally, we will consider how the last days of Pompeii have been imagined and even romanticized in various forms of mass media, such as novels, films and television programs.
Social sciences.
Writing course.
1 credit.
ANCH 023. Alexander and the Hellenistic World
The conquests of Alexander the Great (332-323 BCE) as far as Afghanistan and the Hindu Kush mark one of the great turning points of ancient history. In his wake, what it meant to be Greek was radically changed, and a new world and culture emerged. In this course, we start with the life and campaigns of the Macedonian King, before turning to the Hellenistic world of his successors, following events down to the rise of Rome. Along with the political narrative, the course will consider Hellenistic poetry and historiography, archaeology and architecture, and the documentary evidence for daily life.
Social sciences.
1 credit.

ANCH 030. History and Archaeology of the Early Roman Empire
This course is an introduction to the history and archaeology of the Roman Empire from the fall of the Republic through the Antonine Age (50 BCE-192 CE). Major themes include the political, economic, social and cultural impact of the Roman Empire; the material, visual and spatial manifestations of power; the homogeneity and diversity of Roman imperial culture; and the changing relationship between the state and society. We will draw on a wide range of evidence to explore these themes, focusing mainly on the close reading of works of ancient literature and the study of ancient artifacts and monuments. Key authors include Petronius, Suetonius, Tacitus and Apuleius.
Social sciences.
1 credit.

ANCH 031. The Greeks and the Persian Empire
This course studies the political and social history of Greece from the Trojan War to the Persian Wars. We will examine the connections between Greeks and non-Greeks and their perceptions of mutual differences and similarities. Readings include Homer, Hesiod, the lyric poets (including Sappho), and Herodotus and Near Eastern documents.
Social sciences.
Writing course.
1 credit.
Fall 2019. Munson.

ANCH 032. The Roman Republic
This course studies Rome from its origins to the civil wars and the establishment of the principate of Augustus (753-27 B.C.E.). Topics include the legends of Rome’s foundation and of its republican constitution; the conquest of the Mediterranean world, with special attention to the causes and pretexts for imperialism; the political system of the Late Republic, and its collapse into civil war.
Social sciences.

ANCH 035. History and Archaeology of Republican Rome
This course is an introduction to the history and archaeology of Rome from its early beginnings in the 9th century BCE to the establishment of the Roman Empire in the 1st century BCE. We begin with the pre-Roman inhabitants of central Italy who most influenced early Rome, continue with the foundation of the city and its growth as the leader of peninsular Italy and Mediterranean world, and end with the social turmoil of the late Republic and the establishment of the principate of Augustus. The course combines the study of Italy’s rich archaeological record with a close reading of ancient texts including Plautus, Polybius, Plutarch, Cicero and Livy.
Social sciences.
1 credit.

ANCH 042. Democracy and Its Challenges: Athens in the Fifth Century
Using diverse primary sources (Thucydides’ Histories, tragedy, comedy, and others), this course explores several aspects of classical Athenian culture: democratic institutions and ideology, social structure, religion, intellectual trends, and the major historical events that affected all of these and shaped the Greek world in the fifth and early fourth centuries B.C.E.
Social sciences.
Writing course.
1 credit.
Fall 2020. Munson.

ANCH 044. The Early Roman Empire
A detailed study of the political, economic, social, and cultural history of the Roman world from the fall of the Republic through the Antonine Age (50 B.C.E.-C.E. 192). Ancient authors read include Petronius; Apuleius; Suetonius; and, above all, Tacitus.
Social sciences.
Writing course.
1 credit.
Spring 2021. Turpin.

ANCH 046. The History and Archaeology of the Late Roman Empire
This course will examine the history and archaeology of the late Roman Empire from its height under Septimius Severus (ca. 193-211 CE), through the "conversion" of Constantine and the foundation of Constantinople, to the sack of Rome by Alaric the Visigoth (ca. 410 CE). The course will involve an historical overview of this period, with a view to understanding the social, political and military aspects of the empire, as well as the religious and cultural conflicts that emerged between pagans and Christians and within the Church itself. We will draw on a wide range of
evidence to explore these themes, focusing on the close reading of works of ancient literature. Principal texts include the accounts of Christian martyrs, Eusebius, Ammianus Marcellinus, and Augustine. In order to enhance and complicate these accounts, we will also examine the archaeological remains of the empire, focusing on those recovered from the city of Rome, the important provincial centers of North Africa and the eastern Mediterranean, and the frontiers of the empire. The class takes an interdisciplinary approach to the study of history, and as such its main goals are to learn the history of the late Roman Empire and to interpret material and visual culture within its historical context.

Social Sciences.
Writing course.
1 credit.

ANCH 056. Pagans and Christians in the Roman Empire
This course considers the rise of Christianity and its encounters with the religious and political institutions of the Roman Empire. It examines Christianity in the second and third centuries of the Common Era and its relationship with Judaism, Hellenistic philosophies, state cults, and mystery religions and concentrates on the various pagan responses to Christianity from conversion to persecution. Ancient texts may include Apuleius, Lucian, Marcus Aurelius, Porphyry, Justin, Origen, Lactantius, Tertullian, and the Acts of the Christian Martyrs.
ANCH 044 (The Early Roman Empire) provides useful background.
Social sciences.
Writing course.
1 credit.

ANCH 066. Rome and Late Antiquity
This course will consider the history of the Roman Empire from its near collapse in the third century C.E. through the "conversion" of Constantine and the foundation of Constantinople to the sack of Rome by Alaric the Visigoth in 410 C.E. Topics will include the social, political, and military aspects of this struggle for survival as well as the religious and cultural conflicts between pagans and the Christian church and within the Church itself. Principal authors will include Eusebius, Athanasius, Julian the Apostate, Ammianus Marcellinus, Ambrose, and Augustine.

Classical Studies
Courses in Greek, Latin, and Ancient History can be part of any Classical Studies program. In addition, we offer at least one Classical Studies course (in English translation) every Fall, and a Capstone Seminar (open to all students but with preference given to those with at least one course in the field) in the Spring.

CLST 004. Radical Jesus
Cross listed with RELG 004
Humanities.
1 credit.
Eligible for CLST, RELG
Fall 2020. Wallace.

CLST 006B. The Talmud
(Cross-listed as RELG 006B)
This course introduces students to the academic study of the Babylonian Talmud (Bavli) - and through it, the academic study of Judaism. Through close, critical, and engaged readings of both brief selections and more lengthy pasages, the course not only explores the vast seas of the Bavli but also considers the Bavli’s foundational place within Judaism and its importance to Jewish tradition. We begin by reading selections of the Talmud that both seek to situate the material in its immediate historical-literary contexts and to explore current points of relevance. We proceed to a close reading of one sugya (passage) and then spread out to examine some specific topics, focusing on rabbinic constructions of gender and rabbinic theology. The close readings of texts are supplemented by contemporary scholarship on the Talmud and the rabbis of antiquity. Finally, we read two contemporary mediations on Judaism that use the Talmud as their "anchor," their point of reference.
Humanities.
1 credit.
Eligible for RELG

CLST 011. First-Year Seminar: Talking Animals
Talking animals appear in diverse storytelling traditions in virtually all periods of recorded history. Often dismissed as nothing more than a playful device of children’s literature, the granting of speech to voiceless animals is in fact a complex and potentially transgressive modification of the human-animal binary. What is it about talking animals that has proven so appealing to storytellers in such different cultural and historical contexts? Does the overt anthropomorphism of such
representations preclude the possibility of serious ethical concern for real animals? This first-year seminar surveys the history and meanings of talking animals in ancient and modern storytelling traditions, from Aesop’s fables to Disney films, from the Panchatantra to the graphic novels of Art Spiegelman. And we will go to the zoo.

CLST 012. First Year Seminar: Comparative Mythology
Humanities.
1 credit.

CLST 013. First-Year Seminar: Mythology
This course examines selected myths in such major works of Greek and Latin literature as Homer’s Iliad and Odyssey, the tragedies of Aeschylus, Sophocles, and Euripides, Virgil’s Aeneid, and Ovid’s Metamorphoses. Specific texts and images are treated both as individual stories and in relation to other texts and images that tell the same mythological tale. Primary texts are supplemented by modern theoretical readings in gender, psychology, and literary theory.
Humanities.
Writing course.
1 credit.

CLST 014. First-Year Seminar: Mystery Religions and the Greek Philosophers
What do ancient mystery religions teach us about spiritual transformation and contact with the divine? What were the secret rites of these religions? How do their mythological themes have universal value? Why are the language and themes of mystery traditions so central to the philosophical thought of Parmenides, Empedocles, and Plato? This seminar will study texts associated with Orphism, Pythagoreanism, the Eleusinian and Dionysian mystery cults, Isis and Osiris, and Presocratic and Platonic philosophy.
Readings may include The Homeric Hymn to Demeter; Euripides’ Bacchae; fragments of Parmenides and Empedocles; the Derveni Papyrus; Plato’s Phaedo, Symposium, and Phaedrus; and Apuleius’ Golden Ass. Topics discussed will include cosmology, mystical knowledge/ascent; philosophical method; allegorical interpretation; immortality of the soul; archetypal figures of mother/daughter and rebirth.
Humanities.
Writing course.
1 credit.

CLST 015. First-Year Seminar: Dante
With Virgil, Beatrice, and Dante-poet as guides, we shall follow the Pilgrim on a journey of despair, hope, and redemption. We shall read the Divine Comedy in its entirety, teasing out the poem’s different levels of meaning and reconstructing Dante’s world view in the context of Medieval culture: his thought on life, death, love, art, politics, history and God.

Humanities.
Writing course.
1 credit.

CLST 019. First-Year Seminar: The Birth of Comedy
This course investigates the origins of comedy and satire in classical antiquity. In addition to plays by Aristophanes, Plautus, and Terence, and satirical poetry by Archilochus, Hipponax, Horace, and Juvenal, we will also explore the very idea of the “origins of comedy” from diverse perspectives. Questions about what motivates satirists to attack the behavior of their contemporaries and speculation about the quasi-religious roots of mockery have been fertile and contested areas of inquiry for centuries. We will read numerous thinkers (ancient and modern) who have proposed theories of the origins of comedy, including Aristotle, Freud, Bakhtin, Bergson, and Francis Cornford. And we will also encounter more recent comedians’ reflections on their own birth and origins, including performers such as Richard Pryor, Howard Stern, Tina Fey, Louis CK, Sarah Silverman, Jon Stewart, and Lenny Bruce.
Humanities.
Writing course.
1 credit.

CLST 020. Plato and His Modern Readers
(Cross-listed as PHIL 020)
Plato’s dialogues are complex works that require literary as well as philosophical analysis. While our primary aim will be to develop interpretations of the dialogues themselves, we will also view Plato through the lens of various modern and postmodern interpretations (e.g., Nietzsche, Heidegger, Derrida, Jung, Foucault, Irigaray, Rorty, Lacan, Nussbaum, Vlastos).
Humanities.
Writing course.
1 credit.

CLST 021. Roman Society and Identity: Food and War
(Cross-listed as ANCH 021)
This class will examine the interconnected roles of food and war in ancient Roman society. The first part of the semester will focus on the practicalities of the Roman diet. Building on this knowledge, we will explore how food and war together shaped the Roman sense of identity. Finally, we will study how food drove Roman military and political policy. The last seven weeks of the term will involve detailed case studies considering how issues directly related to food shaped the decisions and actions that enabled Rome to expand from the Italian peninsula to a Mediterranean empire in only 100 years, and then later tear itself apart in civil wars, only to emerge as a stable empire. This class will combine social, political, and military history while looking at a variety of sources of
evidence.
Humanities.
1 credit.

**CLST 023. Introduction to Sanskrit**
A basic introduction to the pronunciation, grammar, and vocabulary of Sanskrit, in preparation for reading. No prerequisites.
Humanities.
1 credit.
Eligible for ASIA
Fall 2019. Khanna.

**CLST 024. Sanskrit Grammar**
This course is designed to help students appreciate the grammar system of Sanskrit as codified by the great grammarian Pāṇini (5th century BCE), whose system has been called the "greatest monument to human intelligence" (G. Cardona). In this course, students will first be exposed to basic features of the Sanskrit language, followed by a study of the grammar system of Pāṇini, and, by the end of the semester, readings in Sanskrit. This course is open to all students interested in learning Sanskrit. No prior knowledge is necessary. It is also open to students who took CLST 023 in Fall 2018, as a continuation of the first class, but following a different parallel stream of learning Sanskrit.
Humanities.
1 credit.

**CLST 025. Greek Myth in Opera and Ballet**
Greek myths have provided the subject matter for some of the most important and pivotal works in the history of opera and ballet. Just as Greek myth informs these arts, so too, opera and ballet transform these myths and the way they are viewed by modern audiences. New and daring productions of classical operas continue to transform both Greek mythology and its operatic incarnations. George Balanchine’s Neoclassicism modernized ballet radically in the 20th century by drawing largely on Greek myth and classical aesthetic structures. In this course, we will study the relevant primary classical sources for operas and ballets such as Handel’s *Xerxes*, Gluck’s *Orfeo ed Euridice*, Berlioz’s *Les Troyens*, Strauss’s *Electra*, Stravinsky’s *Oedipus Rex*, Balanchine’s *Apollo*, *Agon*, and *Orpheus*. At the same time, we will study the operas and ballets themselves in their cultural context, and in the course of their performance history, paying special attention to recent productions.
Humanities.
1 credit.

**CLST 026. Athletics and the Competitive Spirit in Ancient Greece**
Athletic competition was born in ancient Greece, where contests were held to honor the gods, such as Zeus, Poseidon, and Apollo. This course will explore the world behind these phenomena, focusing in particular upon the wider cultural context of the Archaic and Classical Greeks, for whom athletics and an ethos of strife went hand in hand. By reading ancient sources - literary, artistic, and archaeological - students will have the opportunity to understand ancient athletics from the ground up.

Fall 2019. Zadara.

**CLST 036. Classical Mythology**
What is a myth? How is myth different from fairy tale or fable? What is its connection to ritual and religion? What sets myth apart from history? In this survey of the mythology of Greco-Roman antiquity, we will investigate the diverse meanings of ‘myth’, its social functions, its origins, its history, and its contemporary relevance. Students will get a broad overview of Classical mythology through direct and close readings of primary sources (all in English translation), including such texts as Homer’s *Odyssey*, plays by all three of the major Greek tragedians (Aeschylus, Sophocles, and Euripides), and Ovid’s *Metamorphoses*. Our readings of ancient texts will be supplemented by study of ancient art and frequent investigations of modern responses to and theorizing of myth in diverse fields and media, including sociological, psychological, and philosophical treatises; modern poetry; visual arts; and film.
Humanities.

Fall 2019. Mahoney.
Fall 2020. Staff.

**CLST 040. Visions of Rome**
This course provides an overview of cinematic responses to the idea of Rome, ancient and modern, city and empire, place and idea, from the silent era to the present day. We will spend some time comparing films set in Rome to ancient and modern representations of the eternal city in literary and other visual media. But our primary focus will be on the ways in which cinematic visions of Rome reflect evolving cultural, political, and social conditions on both sides of the Atlantic. Specific topics to be explored include the popularity of classical themes in early silent films; Rome on screen during the rise and fall of fascism; neorealism and the shifting landscape of the city; the politics of Hollywood epics; and the dialectic between conceptions of antiquity and modernity as reflected in cinema. Screenings of films by major Italian and Anglophone filmmakers, including...
Pastrone, DeMille, Rossellini, Visconti, Wyler, Pasolini, Fellini, Virzi, and other major directors. Readings of texts by Petronius, Juvenal, Byron, Hawthorne, Dickens, Freud, Yourcenar, Rohmer, Calvino, and Barthes.

**CLST 059. Hebrew for Text Study II**

Cross listed LING 059

This course is a continuation of Hebrew for Text Study I. Students who have not completed that course will require the permission of the instructor to enroll in this course. This set of courses teaches the grammar and vocabulary required to experience the Hebrew Bible and ancient Hebrew commentaries in the original language. You will learn to use dictionaries, concordances, and translations to investigate word roots and to authenticate interpretations of the texts. In addition to teaching basic language skills, this course offers students the opportunity for direct encounter with primary biblical, rabbinic, and Jewish liturgical sources.

Prerequisite: Hebrew Text Study I

Humanities.

**CLST 093. Directed Reading**

Independent work for advanced students under the supervision of an instructor.

1 credit.

**CLST 098. Senior Course Study**

Independent study taken normally in the spring of senior year by course majors. Students will prepare for a graded oral exam held in the spring with department faculty. The exam will be based on any two-credit unit of study within the major (Honors seminar or course plus attachment), with students submitting their final exam and a paper, which can be revised.

0.5 credit.

Spring 2021. Ledbetter.

**CLST 104. Classical Studies Seminar: Ancient Storytelling and Fiction**

This course will explore the origins, uses and genres of ancient Greek and Latin narratives in prose. We will be reading (in English translation) different types of fables, specimens of anecdotes, novelle, and myths embedded in the works of Herodotus, Xenophon, Plato, Plutarch and others, as well as the first representatives of the Western genre of the novel, such as the works of Petronius, Apuleius, Chariton, and Longus. With the help of narratological theory and parallels with modern narratives, we will especially pay attention to the voice of the narrator, the character of the narrate as inscribed in the text, and the different discourse techniques used for creating a narrative. We will also explore the ways in which a narrative advertises itself as a fiction, a piece of history, or a parable, and learn to recognize a narrative’s rhetorical purpose and the more or less covert message it intends to convey.

Humanities.

2 credits.

**CLST 105. Classical Studies Capstone: The Classical in Art and Literature**

Layers of representation, interpretation, and theoretical frameworks filter our view of Greco-Roman Antiquity, and continually reconfigure the meaning of the "classical". This seminar will examine the histories, texts, theories, and works of art through which the classical tradition continues to evolve. Topics and authors may include: Greek mythology in contemporary art and fiction, theories of mythology, adaptation studies, the figure of Oedipus (Sophocles, Freud, Girard, Stravinsky, Pasolini), classicism in the history of art and architecture (Michelangelo, Palladio, Jacques-Louis David, Thomas Jefferson, Picasso), antiquity in modernism.

Humanities.

2 credits.

**CLST 106. Classical Studies Capstone: Dante: Christianity and the Classical Tradition**

In the *Divina Commedia*, Dante adapts the Classical theme of the heroic journey to the Underworld to his task as a visionary poet and Christian prophet. We will read the *Inferno*, *Purgatorio*, and *Paradiso* in English translation, exploring its different levels of meaning and Dante’s surprising reinterpretation of the ancient authors. We will reconstruct his world view in the broader context of Medieval culture: his thought on life, death, love, language, the visual arts, politics and history.

Humanities.

2 credits.

**CLST 108. Capstone: Greek and Roman Religion: Text, Theory and Archaeology**

This seminar focuses upon religion in the ancient Mediterranean world. Through a comprehensive approach that combines reading ancient texts, the discussion of modern theories of religion, and a thorough investigation of archaeological sites and monuments, we will reconstruct the cult practices, ideologies, and belief systems of the ancient Greeks and Romans. Particular emphasis will be placed upon how such systems changed over time.
This course will also introduce students to Greek and Latin epigraphy, or the study of ancient texts inscribed in stone, bronze, and clay. Humanities.
2 credits.

**CLST 154. Capstone: Myth and Opera**
Humanities.
2 credits.

**Honors Seminars and Capstone Seminars**

**CLST 094. Ancient Drama in Performance**
What does it mean to study the performance of plays that were composed and staged more than two thousand years ago? How is this approach different from simply reading the texts? Focusing on Greek and Roman tragedy, comedy, and satyr plays (all of which we will read in English translation), we will examine approaches to ancient drama that emphasize its performance, including historical and cultural conditions; the physical realities of ancient theaters; staging conventions; acting and actors; and the various ways in which Greek and Roman plays are continually rediscovered and reinvented through modern performances on stage and screen. May be taken with CLST 094A for a total of 2 credits. Humanities.
1 credit.

**CLST 104. Classical Studies Seminar: Ancient Storytelling and Fiction**
This course will explore the origins, uses and genres of ancient Greek and Latin narratives in prose. We will be reading (in English translation) different types of fables, specimens of anecdotes, novelle, and myths embedded in the works of Herodotus, Xenophon, Plato, Plutarch and others, as well as the first representatives of the Western genre of the novel, such as the works of Petronius, Apuleius, Chariton, and Longus. With the help of narratological theory and parallels with modern narratives, we will especially pay attention to the voice of the narrator, the character of the narrate as inscribed in the text, and the different discourse techniques used for creating a narrative. We will also explore the ways in which a narrative advertises itself as a fiction, a piece of history, or a parable, and learn to recognize a narrative’s rhetorical purpose and the more or less covert message it intends to convey. Humanities.

**GREEK 111. Greek Philosophers**
This seminar usually focuses on selected literary and philosophical topics in the Presocratics and Plato. Humanities.
2 credits.
Fall 2019. Ledbetter.

**GREEK 112. Greek Epic**
This seminar studies either the entirety of Homer’s Odyssey in Greek or most of the Iliad. Humanities.
2 credits.

**GREEK 113. Greek Historians**
This seminar is devoted to a study of Herodotus and Thucydides, both as examples of Greek historiography and as sources for Greek history. Humanities.
Writing course.
2 credits.
Fall 2020. Munson.

**GREEK 114. Greek Drama**
This seminar usually focuses on one play by each of the major tragedians-Aeschylus, Sophocles, and Euripides. Other plays are read in translation. The works are placed in their cultural setting and are discussed as both drama and poetry. Humanities.
2 credits.

**GREEK 115. Greek Lyric Poetry**
This seminar will focus on the development of archaic Greek elegy (Archilochus, Tyrtaeus, Solon, Xenophanes, Semonides, Theognis) monodic lyric (Sappho, Alceaus, Anacreon, and Simonides) and choral lyric (Pindar and Bacchylides), paying particular attention to lyric’s dialogue with the epic tradition, the so-called rise of the individual, political and performative contexts, and modern interpretive approaches. Humanities.
2 credits.

**LATN 102. The Roman Emperors**
This seminar explores Latin authors of the first and second centuries, with particular attention to their responses to the social and political structures of the period. Expressed attitudes toward the
emperors range from adulation to spite, but the seminar concentrates on authors who fall somewhere in between, writing skeptically or subversively. Both prose writers (e.g., Tacitus, Suetonius, and Pliny) and poets (e.g., Lucan, Seneca, and Juvenal) may be included.

**Classics**

LATN 103. Latin Epic
This seminar usually focuses on Vergil’s *Aeneid*, although it may include other major Latin epics.

Humanities.
Writing course.
2 credits.
Fall 2019. Lefkowitz.

LATN 104. Ovid’s Metamorphoses
This seminar is devoted to the *Metamorphoses*, which is read against the background of Ovid’s Roman and Greek literary predecessors.

Humanities.
Writing course.
2 credits.

LATN 105. The Fall of the Roman Republic
This seminar examines Latin texts from the traumatic period of the Late Republic (70-40 B.C.E.). It focuses on the social and political crisis of the period as well as its connections with the artistic and philosophical achievements of the first great period of Latin literature. Authors may include Lucretius, Catullus, Caesar, Cicero, and Sallust.

Humanities.
2 credits.

LATN 106. Tacitus
The seminar will read extensive excerpts from the *Annals* of Tacitus, usually including at least one complete book. Additional readings from the *Histories* and the *Agricola* may also be included. The principal questions addressed will include: Tacitus’ accuracy and objectivity as a historian, the importance of rhetorical techniques on Tacitus’ language and narrative, and the question of his attitude to particular emperors (Augustus, Tiberius, Claudius, Nero, Vespasian, and Domitian). Above all we will consider the question of Tacitus’ ideas about the imperial system of government: to what extent did he think Romans should resist monarchy or tyranny, and to what extent should they adjust their morality to accommodate it?

Humanities.
2 credits.

LATN 107. Horace
The seminar emphasizes the *Odes* and *Epodes* and their place in the tradition of Greek and Roman lyric poetry. Attention is also given to the *Satires* and *Epistles*, including the *Ars Poetica*, and to their importance for the history of satire and literary criticism. An effort is made to grasp the totality of Horace’s achievement in the context of the Augustan Age.

Humanities.
Writing course.
2 credits.
Fall 2020. Turpin.

**LATN 108. Roman Comedy**
This seminar is devoted to Plautus and Terence, whose adaptations of Greek plays are among the oldest surviving works of Latin literature. The primary focus will be on close study of the language and structure of the plays, but students will also become familiar with a range of critical and theoretical approaches to comedy. Specific topics to be explored include the production and performance of ancient drama; the Roman appropriation of Greek literary genres; representations of slaves, prostitutes, and other marginal figures on the comic stage; and the influence of Roman Comedy on post-classical European drama.

Humanities.
2 credits.

LATN 110. Roman Rhetoric
This seminar will focus on Roman rhetoric. We will read speeches delivered in the Roman Senate, before the popular assembly, or before juries. The principal author will be Cicero, but we will also read discussions of rhetorical theory and practice, both ancient and modern. In addition, students will have the opportunity to explore a number of topics related to ancient oratory and rhetoric, including (among others) public performance; theories of persuasion; the relationship between rhetoric and Roman law; Roman (and Greek) education practices; and the enduring influence of ancient rhetoric and oratory in the contemporary world.

Humanities.
2 credits.

LATN 129. Caligula and Claudius
This is an advanced Latin course, intended for students with one or more intermediate Latin courses at the college level, or c. 4 years of Latin in high school. The emperor Gaius Caligula, famous for considering his favorite racehorse for the office of consul, raises urgent questions about what we consider normal in our leaders. The emperor Claudius, made generally famous by the classic TV series “I Claudius,” presents similar questions. He was a transformative figure in Roman imperial history, responsible for the creation of a civil service, expansion of the Roman citizenship, and the conquest of Britain. But he also had medical problems, and made some spectacularly inappropriate marriages. The principal Latin texts will be Suetonius’ Life of Gaius Caligula, Tacitus’ bitter account of Claudius in his *Annals*, and selected documents (inscriptions and Latin papyri). We will also read Seneca’s exposition of Stoic ideals in his *De Providentia*, and Seneca’s (?) *Apocolocyntosis*, a
Classics

spoof account of Claudius’ posthumous journey to heaven.
Humanities.
Writing course.
2 credits.
The Cognitive Science Program has been developed to guide students who are interested in the interdisciplinary study of the mind, brain, and language, with emphases on formal structure, biological information processing, and computation. The program is designed to emphasize guided breadth across various disciplines that contribute to cognitive science as well as depth within a chosen discipline.

First Course Recommendations

COGS 001. Introduction to Cognitive Science provides a multidisciplinary introduction to the field of cognitive science. It does this not only by exposing students to fundamental ideas and findings, but also by incorporating a substantial guest-scholar component: Typically, as many as ten different Swarthmore professors each conduct lecture/discussions during the semester. In this way, students get exposed to professors from many different departments involved in cognitive science. Note that this course is only offered in the fall semester.

The Academic Program

We conceive of cognitive science as a loose federation of six specific disciplines. The disciplines included are: artificial intelligence (including robotics), cognitive psychology, linguistics, mathematics and statistics, neuroscience, and philosophy. To demonstrate breadth, students majoring or minoring in cognitive science are required to complete credits in at least three of these six disciplines.

Course Minor

Six credits are required for the minor. One of these is a required introductory course, COGS 001. The remaining 5 credits are to be distributed across three different disciplines of cognitive science. That is, 2 credits of listed courses, from 3 of the 6 disciplines, must be completed with the exception that in one-and only one-of the three disciplines, a single "focus course" may be used to meet the breadth requirement. Students who wish to use 2 credits in mathematics and statistics as one of their disciplines for a cognitive science minor must choose 2 credits from a single sub-area of mathematics and indicate its relevance to at least one of the two other disciplines chosen for the minor.

The list of courses currently approved as cognitive science courses is rather selective because it is intended to focus students on the most essential cores of cognitive science within each discipline. Many more courses, taught on campus, are closely relevant to cognitive science. This list is subject to periodic re-evaluation.

In addition to fulfilling the breadth requirements, students must indicate one cognitive science field in which they have substantial depth of preparation. Such depth can be documented by completion of at least 4 courses from within a cognitive science discipline (even if some of those courses are not directly related to cognitive science). Alternative curricular and extracurricular ways of fulfilling the depth requirement may be discussed with the coordinator.

Honors Minor

To complete an honors minor in cognitive science, students must complete all requirements listed above. The honors preparation for the minor will normally be a 2-credit unit approved by the relevant department from courses listed for the minor. The minor preparation must be within a discipline that is not the student’s honors major. Students are encouraged to develop an appropriate preparation in consultation with the coordinator.

Special Major

Typically, the program for a special major in cognitive science involves fulfilling all requirements for the minor and then adding 4 or more cognitive science related courses including a thesis, bringing the total number of credits up to
Note that these additional credits may include courses not listed as eligible for the minor or major, subject to the approval of the program coordinator. Students who special major in cognitive science are normally required to do a 1-credit senior thesis (COGS 090), though other formats for completing thesis requirement exist, and students may elect to complete a 2-credit thesis with the approval of a thesis advisor and the program coordinator.

An honors special major in cognitive science is possible. While fulfilling the requirements of the minor, students must take four 2-credit honors preparations. One of these preparations is a Senior Honors Thesis (COGS 180). The other three preparations must be distributed across two or more disciplines within cognitive science. The nature of these honors preparations will be determined by the standard practices of the relevant departments.

Minors who wish to get formal research experience may choose to complete a 1-credit thesis or a 2-credit honors thesis in cognitive science during their senior year. Non-honors theses in cognitive science will normally be examined by Cognitive Science Committee members from within at least two different departments.

An introduction to the science of the mind from the perspective of cognitive psychology, linguistics, neuroscience, philosophy, and artificial intelligence. The course introduces students to the scientific investigation of such questions as the following: What does it mean to think or to have consciousness? Can a computer have a mind? What does it mean to have a concept? What is language? What kinds of explanations are necessary to explain cognition? Non-distribution. 1 credit. Eligible for COGS, PSYC Fall 2019. Durgin. Fall 2020. Durgin.

The one-credit thesis project can be supervised by any of a number of faculty members associated with the departments in the program but should be approved in advance by the program coordinator. A thesis may be used to establish depth in an area and is normally a required component of a special major in cognitive science.

COGS 092. Independent Study
1 credit. Eligible for COGS

COGS 180. Senior Honors Thesis

PHIL 118. Philosophy of Mind
The comparative literature major is administered by a Comparative Literature Committee, made up of the coordinator and faculty representing the Classics, English literature, Modern Languages and Literatures, Film and Media Studies, and Theater departments. The basic requirement for the major is work in two literatures in the original language.

The major in comparative literature is designed for those students who have a love for literature and a strong desire to write, and who are interested in literary critical research. This major is not for everyone: it assumes a fair degree of discipline, independence, and self-motivation on the part of the student, especially in the development and writing of thesis.

The Academic Program

In planning a comparative literature major, students should look at course listings in the Classics, English literature, Modern Languages and Literatures, Film and Media Studies, and Theater departments. In Classics and Modern Languages and Literatures, only courses numbered 011 or above may count as constituents of the comparative literature major. Only one course in English Literature numbered ENGL 008A-Z and 009A-Z, may be counted toward the major.

Major in Course

Ten credits in two or more literatures in the original languages, including a substantial concentration of work—normally four or five courses—in each of the literatures of specialization. The Senior thesis (described in the section on "Thesis/Culminating Exercise" section, below) does not count toward these 10 credits. Students working in French, German, or Spanish may propose one course in translation (or LITR course) from that language. Because of the special demands of Arabic, Chinese, Japanese, and (to a lesser extent) Russian, students working in any of these languages may propose a program based on attachments (in Arabic, Chinese, Japanese or Russian) to literature courses taught in translation. A 1- or 2-credit thesis of 35 to 40 pages for one credit, 50-60 pages for two credits, covering work in at least two languages (see "Thesis/Culminating Exercise," below).

An oral comprehensive examination, of 1 hour, during the final exam period of the senior year, based on thesis and courses and seminars that the major comprises.

Honors Major

Four 2-credit preparations---3 seminars and a 2-credit thesis of 50 to 60 pages---in at least two literatures in the original language. One of the preparations may be used as an independent minor (in Russian or Theater, for instance) if the minor’s departmental requirements have been met. Minors requiring unrelated preparations such as biology or psychology are not allowed. All four honors preparations are necessary components of the comparative literature honors major. A 3-hour written examination for each preparation, prepared by the external examiner, and a 30-minute oral based on the contents of the written examination, as well as an oral thesis examination with two Honors examiners.

Honors Minor

Five credits in two literatures in the original languages, with a minimum of 2 courses in each of the literatures. A 2-credit thesis of 50 to 60 pages, integrating preparations that have been done in two literatures in the original language.

Thesis / Culminating Exercise

All majors and minors will meet with the Coordinator of the Comparative Literature
Comparative Literature

Program before the end of the junior year to review and assess the student’s program. At this time, the student will submit a general thesis outline, and will propose two faculty advisors from appropriate departments. In some cases, the committee may ask that thesis be written in whole or in part in the language of a literature studied other than English.

The final draft of thesis will be submitted no later than April 30 of the senior year, and it may be due earlier for Honors Majors.

Application Process for the Major
and the Minor

Successful completion of an advanced literature course in each of the literatures of the student’s program of study is a prerequisite for admission into the Honors Program. A minimum grade of B is required.

Students applying for the (Honors) major will submit to the comparative literature coordinator a proposal of integrated study that sets forth the courses and/or seminars to be taken and the principle of coherence on which the program of study is based. The student will also submit a 6- to 10-page writing sample from a previously completed course. The committee will then review the proposal and the essay to advise the student.

In lieu of a traditional course, the Comparative Literature Committee will consider proposals for one or more research papers written as course attachments.

Sample: Comparative Literature Course Major

The courses and seminars that compose the comparative literature major’s formal field of study will naturally differ with each major. To give some sense of the range of possibilities available, a series of sample programs is offered.

Focus: The Black Atlantic (English and French)
1-credit thesis
ENGL 009S. First-Year Seminar: Black Liberty/Black Literature
FREN 014. Advanced French: Bravo! L’Étranger et Meursault, contre-enquête
FREN 045C. Etonnante Haïti: littérature et cultures.
SPAN 050. Afrocaribe: literatura y cultura visual
ENGL 060. Early Black Print Cultures
ENGL 061. Fictions of Black America
FREN 110. Histoires d’îles
ENGL 119. Black Cultural Studies

Sample: Comparative Literature Honors Major

Focus: Myth inFilm and Literature (Classics and Japanese)
2-credit thesis

CLST 025. Greek Myth in Opera and Ballet
CLST 036. Classical Mythology
ENGL 009E. First-Year Seminar: Narcissus and the History of Reflection
ENGL 046. Tolkien and Pullman and Their Literary Roots
ENGL 071K. Lesbian Novels Since World War II
FMST 020. Critical Theories of Film and Media
FMST 090. Film and Media Studies Capstone
JPNS 024. Japanese Film and Animation
JPNS 074. Japanese Popular Culture and Contemporary Media
RUSS 047. Russian Fairy Tales

Sample: Comparative Literature Honors Minor

Focus: Modernism (English and Spanish)
2-credit thesis
SPAN 023. Introducción a la literatura latinoamericana
ENGL 045. Modern British Poetry
ENGL 078. Modernism
GMST 091. Topics in German Studies II

Comparative Literature Courses

CPLT 014. Intro to Comparative Literature & Literature Theory
This course will survey major theories of the literary object and how to understand it (New Critical Close Reading;Structuralism; Russian Formalism; Psychoanalytic Theory; Deconstruction; Marxism and Neo-Marxism; New Historicism; Post-Colonialism; Feminism and Gender Theory; Distant Reading; Philosophical Approaches; World Literature) juxtaposed with attention to a wide range of literary objects in different languages and from different cultures. This juxtaposition will enable us to highlight and assess various conceptions of the cultural functions of literature and of literary critical knowledge. This is an introductory level theory and analysis course, and all texts will be in English, though working with a few short originals in other languages will be possible and encouraged. Pre-requisite: one course in literature (any language).

Students must have completed either one course in Philosophy OR one course in Literature (any language).

Humanities
1 credit.

CPLT 050. Literature and Music
(Cross-listed as LITR 020)
Literature and music have at some times been viewed as natural allies, and at others - in philosopher Peter Kivy’s phrase - as "antithetical arts." This course approaches the rich relationship between music and literature from a variety of angles, including aesthetics, form, style and genre,
Comparative Literature

reception, and adaptation. Case studies toward the end of the semester will explore the literary legacy of Richard Wagner’s provocative music drama Tristan and Isolde as well as two very different adaptations of Tolstoy’s War and Peace: an opera by Sergei Prokofiev and an electropop musical by Dave Molloy. No prior musical training is required, though students with score-reading ability may be given alternate assignments. Humanities.
1 credit.

CPLT 096. Senior Thesis
1 credit.
Spring 2020. Staff.

CPLT 180. Senior Honors Thesis
Spring 2020. Staff.
Computer science is the study of algorithms and their implementation. This includes the study of computer systems; methods to specify algorithms (for people and computer systems); and the formulation of theories and models to aid in the understanding and analysis of the properties of algorithms, computing systems, and their interrelationship.

The computer science curriculum is designed to provide students with a flexible set of computing choices that can be tailored to satisfy various interests and depths of study. All courses emphasize the fundamental concepts of computer science, treating today’s languages and systems as current examples of the underlying concepts. The computer science laboratory provides up-to-date software and hardware facilities.

The Academic Program

The Computer Science Department offers course majors and minors and honors majors and minors. Students interested in any of these options are encouraged to meet with the chair of the Computer Science Department as early as possible in their college career. Students who are interested in a computer science major or minor are encouraged to take CPSC 021, CPSC 031 and CPSC 035 sometime in their first four semesters at Swarthmore. The minor in computer science is designed for students who desire a coherent introduction to the core topics in the field. Students completing the minor will possess intellectual skills that are useful in many disciplines.

First course recommendations
CPSC 021. Introduction to Computer Science presents fundamental ideas in computer science while building skill in software development. No previous experience with computers is necessary. This course is appropriate for all students who want to write programs. It is the usual first course for computer science majors and minors. It is common for students with Advanced Placement credit or extensive programming experience to place out of this course.

CPSC 031. Introduction to Computer Systems assumes that the student has completed CPSC 021 or its equivalent. It is the best entry point for students intending to be Computer Science majors or minors who already have extensive computing experience.

CPSC 035. Data Structures and Algorithms assumes that the student has completed CPSC 021 or its equivalent. It is an appropriate entry point for students with extensive computing experience.

Students who think they may qualify for CPSC 031 or CPSC 035 and have not taken CPSC 021 should take the placement exam and also contact the department placement coordinator about placement. Students or advisors who want more advice on placement in computer science courses should feel free to contact any computer science faculty.

Interdisciplinary recommendations

The department recommends that students with an interest in computer science should consider using MATH 027. Linear Algebra and/or MATH 029. Discrete Mathematics to satisfy the math requirement for the major and minor. Statistics courses at the level of STAT 041. Topics in Statistics or above can also be used to satisfy the math requirement.

in Cognitive Science are encouraged to consider COGS 001, Introduction to Cognitive Science. In addition to courses offered by computer science faculty, the department recommends that students with an interest in computer engineering consider courses offered by the Engineering department, including three courses that are cross-listed by the Computer Science department: CPSC 052, Principles of Computer Architecture, CPSC 072, Computer Vision and CPSC 082, Mobile Robotics.

Course Major
The following are the requirements for a major in computer science:

1. Eight credits in computer science:
   a. CPSC 021. (If exempted from CPSC 021 without AP credit, substitute one course from any Group listed below.)
   b. CPSC 031 and CPSC 035.
   c. One course from each of the following three groups:
      i. Group 1: CPSC 041 or CPSC 046.
      ii. Group 2: CPSC 043, CPSC 044, CPSC 045, CPSC 075, CPSC 087 or CPSC 089.
      iii. Group 3: CPSC 040, CPSC 056, CPSC 063, CPSC 065, CPSC 066, CPSC 068, CPSC 071, CPSC 073 or CPSC 081.
   d. Two CPSC courses numbered above CPSC 035 that are different than the choices in part (c) above. Excludes courses that earn less than 1 credit.

2. The senior comprehensive, CPSC 099.

3. Two credits in MATH at the level of MATH 027 or above. Discrete Math and Linear Algebra are recommended. Students may satisfy one of these requirements with STAT 021. Students who place out of this credit should contact the Computer Science department chair. CPSC 046/MATH 046 may not be used to satisfy the Math requirement.

Acceptance Criteria
To be eligible for a computer science major, a student must have at least a C+ average in the intermediate courses (CPSC 031 and CPSC 035). In addition, students must have at least a C in CPSC 031 and CPSC 035. Students who have not met this criterion may re-take CPSC 031 or CPSC 035 to obtain the necessary foundation for success in upper-level courses.

Course Minor
The minor in computer science provides students with a well-rounded background in computer science sufficient to develop significant, creative applications and to keep up with the rapid changes in the field.

The following are the requirements for a minor in computer science:

1. Six credits in computer science:
   a. CPSC 021. (If exempted from CPSC 021 without AP credit, substitute one course from any Group listed below.)
   b. CPSC 031 and CPSC 035.
   c. Two upper-level courses drawn from two of the following three groups:
      i. Group 1: CPSC 041 or CPSC 046.
      ii. Group 2: CPSC 043, CPSC 044, CPSC 045, CPSC 075, CPSC 087 or CPSC 089.
      iii. Group 3: CPSC 040, CPSC 056, CPSC 063, CPSC 065, CPSC 066, CPSC 068, CPSC 071, CPSC 073 or CPSC 081.
   d. One CPSC course numbered above CPSC 035 that is different from the choices in part (c) above. Excludes courses that earn less than 1 credit.

2. One MATH course at the level of MATH 027 or above. Discrete Math is recommended. Students may satisfy this requirement with STAT 021. Students who place out of this credit should contact the Computer Science department chair. CPSC 046/MATH 046 may not be used to satisfy the Math requirement.

Acceptance Criteria
The requirements for acceptance into the minor are the same as for acceptance into the major.

Honors Major
An honors major in computer science must complete the regular course major requirements. The honors major includes three honors preparations: an honors thesis and two separate 2-credit honors preparations.

The following will be submitted to external examiners for evaluation:

1. Two 2-credit preparations selected from combinations of upper-level courses listed under Approved Preparations. Each preparation will be examined by a 3-hour written examination and an oral examination. The exams will focus on a single course in each preparation (the focus course), with the second course (the breadth course) providing additional background in the general area of the focus course.

The two 2-credit preparations must include at least 3 distinct courses. In certain circumstances, the Computer Science Department may be willing to consider other groupings of courses, seminars, or the inclusion of a specific Special Topics course (CPSC 091). These are approved on a case-by-case basis by the chair. Students are required to
petition for approval by September 15 of their senior year.

If the required courses and preparations would not satisfy a course major, additional computer science courses must be taken to meet course major requirements. In all cases, the Computer Science Department must approve the student’s plan of study.

2. An honors thesis to be read by an external examiner and examined in an oral examination. Thesis will report on a research experience involving the student under the supervision of a faculty member (at Swarthmore or elsewhere). It is expected that most of the research or scholarly groundwork will be completed before the fall semester of the senior year, either by one credit of work in the spring semester of the junior year or full-time summer work. Students will register for at least one credit of thesis work (CPSC 180) to complete the research and write thesis in the fall of their senior year. It is recommended that thesis be completed by the end of the fall semester. Credits earned in CPSC 180 do not count towards completion of the course major.

Acceptance Criteria
To be eligible for an Honors major in Computer Science, a student must meet the course major acceptance requirements. In addition, students must earn a B average in all courses used to complete the course major, including cross-listed electives and required courses in Mathematics and Statistics. A student previously accepted into the Honors Program but not maintaining this GPA in CPSC courses might be, by department decision, asked to withdraw from the Honors Program.

Honors Minor
An honors minor in computer science will consist of completion of the course minor and one 2-credit preparation.

The following will be submitted to external examiners for evaluation:
One 2-credit preparation to be selected from the combinations of courses listed under Approved Preparations. This 2-credit preparation will be examined by a 3-hour written examination and an oral examination. The exams will focus on a single course in each preparation (the focus course), with the second course (the breadth course) providing additional background in the general area of the focus course. In certain circumstances, the Computer Science Department may be willing to consider other groupings of courses, seminars, or the inclusion of a specific Special Topics course (CS91). These are approved on a case-by-case basis by the chair. Students are required to petition for approval by September 15 of their senior year.

If the required courses and preparations would not satisfy a course minor, additional computer science courses must be taken to meet course minor requirements. In all cases, the Computer Science Department must approve the student’s plan of study.

Acceptance Criteria
To be eligible for an Honors minor in Computer Science, a student must meet the course minor acceptance requirements. In addition, students must earn a B average in all courses used to complete the course minor, including cross-listed electives and required courses in Mathematics and Statistics. A student previously accepted into the Honors Program but not maintaining this GPA in CPSC courses might be, by department decision, asked to withdraw from the Honors Program.

Approved Preparations for the Honors Major and Minor
Honors majors must complete two 2-credit honors preparations and honors minors must complete one 2-credit honors preparation. Each preparation will contain one Focus course and one Breadth course selected the same set. For example, CPSC 043 and CPSC 044 is a valid course preparation pairing since both courses are in Set 2, but CPSC 041 and CPSC 044 is not a valid pairing. The Focus course for each preparation must be different, and the two preparations must be comprised of at least three distinct courses. Honors majors may choose both of their 2-credit preparations from the same set, or may choose one 2-credit preparation from one set and the other from a different set. The following are the approved sets of course groupings. All courses may not be available to all students and will depend on the schedule of course offerings.

Set 0:
- CPSC 041. Algorithms
- CPSC 046. Theory of Computation
- CPSC 049. The Probabilistic Method

Set 1:
- CPSC 063. Artificial Intelligence
- CPSC 065. Natural Language Processing
- CPSC 066. Machine Learning
- CPSC 068. Bioinformatics
- CPSC 081. Adaptive Robotics

Set 2:
- CPSC 043. Computer Networks
- CPSC 044. Database Systems
- CPSC 045. Operating Systems
- CPSC 087. Parallel and Distributed Computing
- CPSC 089. Cloud Systems and Data Center Networks

Set 3:
- CPSC 073. Programming Languages
- CPSC 075. Compilers

Set 4:
- CPSC 040. Computer Graphics
CPSC 087. Parallel and Distributed Computing

**Senior Comprehensive**
CPSC 099. Senior Comprehensive is the comprehensive requirement for Computer Science course and honors majors. It provides an opportunity to delve more deeply into a particular topic in computer science, synthesizing material from previous courses. Information specific to each graduating class can be found on the department website.

**Application Process and Acceptance Criteria for Majors/Minors**
In addition to the process described by the Dean’s Office and the Registrar’s Office for how to apply for a major, students should complete a departmental form, found on the departmental website, outlining how they intend to fulfill the requirements for their intended major, minor, honors major or honors minor. Successful completion of at least two Computer Science courses, including CPSC 031 or CPSC 035, is ordinarily required to be admitted as a Computer Science major or minor. Students who are deferred from the major or minor will be re-evaluated upon completion of additional Computer Science courses.

**Advanced Placement**
Students who receive a 4 or 5 on the Computer Science Advanced Placement exam will be awarded one (1) credit upon successful completion of a Computer Science course taken at Swarthmore. Upon completion of a CS course at Swarthmore, students must notify the department in order to receive AP credit. Students who are placed out of CPSC 021 with AP credit need to take only seven (7) additional courses in computer science to complete the major, and five (5) additional courses in computer science to complete the minor.

Students should consult with any Computer Science faculty member about placement out of courses in the introductory sequence.

**Computer Science Placement**
The computer science placement exam is required for all students who think that they may place out of the introductory computer science course (CPSC 021). Students who want to start with CPSC 021 do not need to take the placement exam. Students who think they may place out of both CPSC 021 and CPSC 035 should take the placement exam and also contact the department placement coordinator about their placement.

Incoming first year students should take the placement exam during fall orientation week.

Students who do not take it during orientation can contact the CS departmental office to schedule a time to take the exam. Students who do not take CPSC 021 must take the placement exam before registering for CPSC 031 or CPSC 035. For more information see: https://www.swarthmore.edu/computer-science/computer-science-placement-exam

**Off-Campus Study**
Students planning to major or minor in computer science may opt to study abroad for one semester or a whole year. Because some advanced courses in computer science are offered in only alternate years, some selections will be unavailable to some students. The Computer Science Department should preapprove all courses of study abroad in advance of the student’s departure. The department will credit appropriate courses based on sufficient evidence of work completed presented by the student upon returning to Swarthmore.

**Life After Swarthmore**

**Graduate School**
Students interested in graduate study in computer science will be well prepared with a computer science major. Some graduate programs will also accept students who have majored in mathematics or engineering and completed a sufficient number and selection of computer science courses. The choice of the appropriate major and computing courses will depend on the student’s interests and should be made in consultation with the chair of the Computer Science Department. Other majors are also reasonable for students with special interests. For example, a major in linguistics or psychology might be appropriate for a student interested in artificial intelligence or cognitive science. In such cases, students should consult with the chair of the department as early as possible to ensure that they take the necessary mathematics and computing courses for graduate work in computer science.

**Computer Science Courses**
A grade of C or better is required in order to fulfill any CPSC prerequisite listed below.

**CPSC 015. First-Year Seminar: Ethics and Technology**
(Cross-listed as PHIL 007)
Natural science and engineering.
1 credit.

**CPSC 021. Introduction to Computer Science**
This course presents fundamental ideas in computer science while building skills in software development. Students implement algorithms as programs in a high-level programming language.
Introducing object-oriented programming and data structures allows students to construct correct, understandable, and efficient algorithms. CPSC 031 and CPSC 035 present a deeper coverage of these topics. CPSC 021 is appropriate for all students who want to be able to write programs. It is the usual first course for computer science majors and minors. Students with Advanced Placement credit or extensive programming experience may be able to place out of this course. Students who think that they may fall into this latter category should consult with any computer science faculty member.

Natural sciences and engineering practicum. Lab work required, programming intensive. 1 credit. Eligible for DGHU

CPSC 031. Introduction to Computer Systems
This course is a broad introduction to computer science that focuses on how a computer works and how programs run on computers. We examine the hardware and software components required to go from a program expressed in a high-level programming language like C or Python to the computer actually running the program. This course takes a bottom-up approach to discovering how a computer works. Topics include theoretical models of computation, data representation, machine organization, assembly and machine code, memory, I/O, the stack, the operating system, compilers and interpreters, processes and threads, and synchronization. This course also introduces parallel and distributed computing with a specific focus on shared memory parallelism for multicore and SMP systems.

Prerequisite: CPSC 021 or equivalent.
Natural sciences and engineering practicum.
Lab work required.
1 credit.
Eligible for DGHU

CPSC 035. Data Structures and Algorithms
This course completes the broad introduction to computer science begun in CPSC 021. It provides a general background for further study in the field. Topics to be covered include object-oriented programming in C++, advanced data structures (trees, priority queues, hash tables, graphs, etc.) and algorithms, and software design and verification. Students will be expected to complete several programming projects illustrating the concepts presented.

Prerequisite: CPSC 021 or equivalent. Discrete Mathematics is recommended.
Natural sciences and engineering practicum.
Lab work required.
1 credit.

CPSC 040. Computer Graphics
(Cross-listed as ENGR 026)
Computer graphics focuses on the creation and manipulation of digital imagery. We cover the modeling, rendering, and animating of geometric object in two (2D) and three (3D) dimensions. Topics include drawing algorithms for 2D geometric primitives (points, lines, polygons), geometric matrix transformations, projective geometry, geometric object representations, hidden surface removal, hierarchical modeling, shading, lighting, shadows, ray-tracing, procedural (non-geometric) modeling, texture mapping, and animation. Labs will explore various tools for rendering graphics, including pixel buffers, OpenGL, shading languages, and general purpose GPU computing.

Group 3 course.
Prerequisite: CPSC 031, CPSC 035 and Linear Algebra required or permission of the instructor.
Corequisite: (Linear Algebra may be taken concurrently.)
Natural sciences and engineering practicum.
Lab work required.
1 credit.
Eligible for DGHU

CPSC 041. Algorithms
The study of algorithms is useful in many diverse areas. As algorithms are studied, considerable attention is devoted to analyzing formally their time and space requirements and proving their correctness. Topics covered include abstract data types, trees (including balanced trees), graphs, searching, sorting, NP complete optimization problems, and the impact of several models of parallel computation on the design of algorithms and data structures.

Group 1 course.
Prerequisite: CPSC 035 required. Mathematics background at the level of Linear Algebra or higher is required (may be taken concurrently).
Natural science and engineering.
Writing course.
Lab work required.
1 credit.
Eligible for DGHU

CPSC 043. Computer Networks
This course covers the design, implementation and applications of computer networks, primarily focused on the protocols that enable the Internet and network applications. Additionally, this course will cover network security, such as viruses, worms, and botnets. Topics will include: data communication theory; packet-switched routing; the Internet and its protocols; socket and network application programming; overlays and P2P networks; and network security.

Group 2 course.
Prerequisite: CPSC 031 and CPSC 035
Natural science and engineering.
Lab work required.
1 credit.

CPSC 044. Database Systems
This course provides an introduction to relational database management systems. Topics covered include data models (ER and relational model);
data storage and access methods (files, indices); query languages (SQL, relational algebra, relational calculus, QBE); query evaluation; query optimization; transaction management; concurrency control; crash recovery; and some advanced topics (distributed databases, object relational databases). A project that involves implementing and testing components of a relational database management system is a large component of the course.

Group 2 course.
Prerequisite: CPSC 031 and CPSC 035
Natural science and engineering.
Lab work required.
1 credit.

CPSC 045. Operating Systems
(Cross-listed as ENGR 022)
This course is an introduction to theory, design, and implementation of operating systems. An operating system is the software layer between user programs and the computer hardware. It provides abstractions of the underlying hardware that are easier to program, and it manages the machine’s resources. The following topics will be covered: processes (including synchronization, communication, and scheduling); memory (main memory allocation strategies, virtual memory, and page replacement policies); file systems (including naming and implementation issues); I/O (including devices, drivers, disks, and disk scheduling); and security.

Group 2 course.
Prerequisite: CPSC 031 and CPSC 035
Natural sciences and engineering practicum.
Lab work required.
1 credit.

CPSC 046. Theory of Computation
(Cross-listed as MATH 046)
This study of various models of computation leads to a characterization of the kinds of problems that can and cannot be solved by a computer. Solvable problems will be classified with respect to their degree of difficulty. Topics to be covered include formal languages and finite state devices; Turing machines; and other models of computation, computability, and complexity.

Group 1 course.
Prerequisite: CPSC 035 and Mathematics background at the level of Linear Algebra or higher (may be taken concurrently)
Natural science and engineering.
Lab work required.
1 credit.

CPSC 049. The Probabilistic Method
(Cross-listed as MATH 059)
In mathematics and theoretical computer science, we often consider classes of objects (say graphs, circuits or matrices) and we’d like to know if there are objects that have certain nice properties. One way to show these nice objects exist is to look at a random object, and show it has the nice property with nonzero probability. If this is true, there must be some object with this nice property. This is the Probabilistic Method in a nutshell. It has become an essential tool for understanding structure of lots and lots of things in theoretical computer science and combinatorics, even in problems and applications which involve no randomness at all. This class will start from the ground up, first introducing discrete probability theory, then covering the probabilistic method in detail: how it works, extensions, and most of all lots of applications. We’ll also spend a few weeks discussing NP-Completeness and randomized algorithms.

Group 1 course.
Prerequisite: CPSC 035 and MATH 029, or permission of the instructor.
Natural sciences and engineering.
Lab work required.
1 credit.

CPSC 052. Principles of Computer Architecture
(Cross-listed as ENGR 025)
Natural sciences and engineering practicum.
1 credit.

CPSC 056. Computer Animation
The goal of this course is to give students a foundation for programming animated and interactive graphics. In particular, we will "look under the hood" at the algorithms used by game engines and modeling tools to create authorable, interactive characters and special effects. Labs will give students hands on experience implementing algorithms in C++ as well as opportunities to derive their own unique animations. Topics will include mathematical foundations (coordinate systems, transformations, quaternions), interpolation techniques, keyframing, motion capture and procedural animation, and physically-based systems.

Group 3 course.
Prerequisite: CPSC 031, CPSC 035, MATH 015 (or have placed into MATH 025)
Lab work required.
1 credit

CPSC 063. Artificial Intelligence
Artificial intelligence (AI) can be defined as the branch of computer science that is concerned with the automation of intelligent behavior. Intelligent behavior encompasses a wide range of abilities; as a result, AI has become a very broad field that includes game playing, automated reasoning, expert systems, natural language processing, modeling human performance (cognitive science), planning, and robotics. This course will focus on a subset of these topics and specifically on machine learning, which is concerned with the problem of how to create programs that automatically improve with experience. Machine learning approaches studied typically include neural networks, decision trees, genetic algorithms, and reinforcement...
techniques.
Group 3 course.
Prerequisite: CPSC 035
Natural sciences and engineering practicum.
Lab work required.
1 credit.
Eligible for COGS

**CPSC 065. Natural Language Processing**
(Cross-listed as LING 020)
This course is an introduction to the fundamental concepts in natural language processing, the study of human language from a computational perspective. The focus will be on creating statistical algorithms used in the analysis and production of language. Topics to be covered include parsing, morphological analysis, text classification, speech recognition, and machine translation. No prior linguistics experience is necessary.
Group 3 course.
Prerequisite: CPSC 035
Natural science and engineering.
Lab work required.
1 credit.
Eligible for COGS

**CPSC 066. Machine Learning**
This course will introduce algorithms and frameworks that train computers to learn from data in order to better complete specific tasks. The first part of the course will focus on the task of making predictions (supervised learning). The course will then cover other areas of the field including structured learning, unsupervised learning, and semi-supervised learning, among others. The course will also develop general machine learning methodologies; frameworks for analyzing and validating algorithms and theoretical foundations.
Group 3 course.
Prerequisite: CPSC 035
Natural science and engineering.
Lab work required.
1 credit.
Eligible for COGS

**CPSC 068. Bioinformatics**
(Cross-listed as BIOL 068)
This course is an introduction to the fields of bioinformatics and computational biology, with a central focus on algorithms and their application to a diverse set of computational problems in molecular biology. Computational themes will include dynamic programming, greedy algorithms, supervised learning and classification, data clustering, trees, graphical models, data management, and structured data representation. Applications will include genetic sequence analysis, pair wise-sequence alignment, phylogenetic trees, motif finding, gene-expression analysis, and protein-structure prediction. No prior biology experience is necessary.
Group 3 course.
Prerequisite: CPSC 035

Natural science and engineering.
Lab work required.
1 credit.
Eligible for COGS

**CPSC 071. Software Engineering**
Software engineering is the application of systematic, measurable, and disciplined approach to the creation of computer programs. In this course, students will learn how to plan, organize, and maintain large software projects. Topics include software development methodologies, design principles, collaboration techniques, the use of modern libraries and frameworks, quality assurance, and timeline management.
Group 3 course.
Prerequisite: CPSC 035
Natural science and engineering.
Lab work required.
1 credit.

**CPSC 072. Computer Vision**
(Cross-listed as ENGR 027)
Natural sciences and engineering practicum.
1 credit.
Eligible for COGS

**CPSC 073. Programming Languages**
This course presents a collection of features central to programming languages' design and implementation. Core topics include identifiers and scope, higher-order functions, types and type checking, state and mutation, objects, and memory management. The course explores these concepts through the implementation of interpreters and other programs that manipulate programs, and through exercises that explore choices in the space of programming language design.
Prerequisite: CPSC 035
Group 3 course.
Lab work required, programming intensive

**CPSC 075. Compilers**
(Cross-listed as ENGR 023)
This course explores the conversion of programs from source code to executable forms. Topics covered include lexical analysis, formal grammars and parsing, runtime representation decisions, code transformation and generation, and static optimization techniques.
Group 2 course.
Prerequisite: CPSC 031 and CPSC 035
Natural sciences and engineering.
Lab work required.
1 credit.

**CPSC 081. Adaptive Robotics**
This seminar addresses the problem of controlling robots that will operate in dynamic, unpredictable environments. In laboratory sessions, students will work in groups to program robots to perform a variety of tasks such as navigation to a goal, obstacle avoidance, and vision-based tracking. In
discussion sessions, students will examine the major paradigms of robot control through readings from the primary literature with an emphasis on adaptive approaches.

Group 3 course.
Prerequisite: CPSC 035. Recommended: CPSC 063
Natural sciences and engineering practicum.
Lab work required.
1 credit.
Eligible for COGS

CPSC 082. Mobile Robotics
(Cross-listed as ENGR 028)
Natural sciences and engineering practicum.
1 credit.
Eligible for COGS
Fall 2019. Zucker.

CPSC 087. Parallel and Distributed Computing
This course covers a broad range of topics related to parallel and distributed computing, including parallel and distributed architectures and systems, parallel and distributed programming paradigms, parallel algorithms, and scientific and other applications of parallel and distributed computing.
In lecture/discussion sections, students examine both classic results as well as recent research in the field. The lab portion of the course includes programming projects using different programming paradigms, and students will have the opportunity to examine one course topic in depth through an open-ended project of their own choosing. Course topics may include: multi-core, SMP, MPP, client-server, clusters, clouds, grids, peer-to-peer systems, GPU computing, scheduling, scalability, resource discovery and allocation, fault tolerance, security, parallel I/O, sockets, threads, message passing, MPI, RPC, distributed shared memory, data parallel languages, MapReduce, parallel debugging, and parallel and distributed applications.
Group 2 course.
Prerequisite: CPSC 031 and CPSC 035 are required. At least one completed upper-level CS course is recommended.
Natural science and engineering.
Writing course.
Lab work required.
1 credit.

CPSC 089. Cloud Systems and Data Center Networks
On the Internet today, popular services like Google, Facebook, and many others are too large to be hosted by just a few servers. Instead, service providers "scale out" across a coordinated set of hundreds to thousands of machines. Such clusters yield an interesting operating environment, the data center, in which a single administrative entity owns a network at the scale that resembles the Internet. To meet customer demands, administrators often face stringent inter-machine coordination constraints. In this course, we'll examine the current state of the art in providing cloud-based services, including many interesting problems in distributed systems, networking, failure recovery, and OS virtualization.
Group 2 course.
Prerequisite: CPSC 031 and CPSC 035
Lab work required.

CPSC 091. Special Topics in Computer Science
Subject matter for is generally dependent on group need or individual interest. The course is normally restricted to upper-level students and offered only when interest and staff availability make it practicable to do so.
Natural science and engineering.
Lab work required.
1 credit.

CPSC 093. Directed Reading and/or Research Project
A qualified student may undertake a program of extra reading and/or a project in an area of computer science with the permission of a staff member who is willing to supervise.

CPSC 099. Senior Comprehensive
For the culminating senior capstone experience, students will create a poster based on a project from either a course taken in the Computer Science Department at Swarthmore or from a summer research project with a Swarthmore CS faculty member. Seniors will present their work at a poster session to be held late in the Fall semester of their senior year. The Chair will send out information at the start of the Fall semester detailing the scheduling of the poster session and other relevant dates. This course must be satisfactorily completed in order to complete the major.
0 credit.

CPSC 180. Thesis

CPSC 199. Senior Honors Study
The Academic Program

The economics curriculum is structured so that students achieve the following goals:
1. Learn and apply models and tools for analyzing economic processes, decisions, and institutions;
2. Analyze and evaluate public policy; and
3. Think critically about the outcomes of public and private economic institutions and systems domestically and globally.

The Economics Department offers a course major, honors major, and honors minor. A course minor is not offered.

Major Requirements

ECON 001 or its equivalent is a prerequisite for all other work in the department. In addition, all majors in economics must satisfy a theory requirement by taking ECON 011 (Intermediate Microeconomics) and ECON 021 (Intermediate Macroeconomics). They must also satisfy a statistics requirement. The statistics requirement is typically satisfied by taking ECON 031. It can alternatively be satisfied, however, by taking ECON 035 (which requires either ECON 031 or STAT 051 as prerequisite), by taking STAT 111 (which requires STAT 051), or by taking STAT 051 in combination with either STAT 011 or STAT 021. STAT 011 and STAT 021 alone are not sufficient.

In order to read the literature in economics critically, a knowledge of elementary calculus is extremely useful. Students need to take MATH 015 (or receive MATH 015 credit or placement out of MATH 015 from the Mathematics Department) prior to taking ECON 011 or ECON 021. Since ECON 011 and ECON 021 are required for the economics major, MATH 015 is a requirement for the major. Students can take ECON 001, ECON 031, and other courses that do not have ECON 011 or ECON 021 as a prerequisite before they meet the MATH 015 requirement.

Course Major

To graduate as a course major, a student must:
1. Have at least eight credits in economics.
2. Meet theory and statistics requirements.
   Note: Course students should take these courses before the second semester of their senior year to be prepared for the comprehensive examination.
   Note also that some seminars and courses have ECON 011, 021, and/or 031 as prerequisites.
3. In the senior year, pass the comprehensive examination given early in the spring semester.

Comprehensive Examination

Course majors must pass the Comprehensive Examination which is given in January or February of each year and covers theory and statistics requirements. The exam is given only once a year and students must take it at Swarthmore College. All students will take the examination in their senior year. The only exception is for students who are graduating early; those students can take the comprehensive exam in the spring semester prior to their final semester at Swarthmore.

Acceptance Criteria: The Course Program

Except for students who have been granted advanced standing, applicants should have:
1. Completed at least two economics courses at Swarthmore.
2. Have an overall grade average of C or better.
3. Have a grade of B or better in at least one economics course taken at Swarthmore.
4. Should not have any D’s or NC’s in any economics course. These conditions include the grade equivalent(s) for any course(s) taken Credit/No Credit. [Note: Regarding the "grade of B or better” requirement, a B in a course taken elsewhere may not suffice. Students who expect to satisfy the requirement with course work done at other schools should consult the chair about grade equivalencies ahead of time. For example, an A- is typically required in the case of a course taken in summer school.]

Students have one year from the date of their application to satisfy these requirements. Failure to do so within one year will mean rejection.

Students who wish to apply for a double major must submit a copy of their Sophomore Plan to both departments.

---

**Honors Major**

Typically, a student who wants to major in the Honors Program first applies for the program through the Sophomore Plan. In the Sophomore Plan, the student should indicate the intention to apply for the Honors Program and should list all preparations that the student plans to take as part of that program. The student would usually take at least one preparation in the junior year. Approval of a student’s Honors Program must be granted by the department. Changes of major and/or honors status can be made at any time by picking up forms and instructions in the Registrar’s Office.

**The Honors Exam for Majors and Preparations**

Honors majors in economics must complete 3 preparations. All preparations in economics consist of 2 credits. Most preparations involve taking a 2 credit seminar, but some preparations may combine a course and a 1 credit seminar. A complete list of preparations, with their prerequisites, appears below.

**Culminating Exercise**

External examiners will determine a student’s Honors performance in an individual preparation based on a 3 hour written exam, an oral exam, and if applicable, a seminar paper. (Honors majors do not take the comprehensive exam given to course majors.)

**Acceptance Criteria: The Honors Program**

Applicants for an honors major should have satisfied all of the requirements for acceptance as an economics course major and, in addition, should have a straight B or better grade average in economics courses. This condition includes the grade equivalent(s) for any course(s) taken credit/no credit.

---

**Honors Minor**

**Requirements**

Applicants for an honors minor should have satisfied all of the requirements for acceptance as an economics course major and, in addition, should have a straight B or better grade average in economics courses. This condition includes the grade equivalent(s) for any course(s) taken Credit/No Credit. While minors are not required to complete a specific number of economics courses, they must satisfy all the prerequisites for their honors preparation.

**Culminating Exercise**

External examiners will determine a student’s honors performance in an individual preparation based on a 3 hour written exam, an oral exam, and if applicable, a seminar paper. (Honors minors do not take the comprehensive exam given to course majors.)

**Acceptance Criteria: The Honors Minor**

Applicants for an honors minor should have satisfied all of the requirements for acceptance as an economics course major and, in addition, should have a straight B or better grade average in economics courses. This condition includes the grade equivalent(s) for any course(s) taken credit/no credit.

---

**Application Process Notes for the Major**

Normally, any student planning to major in economics, whether in the Course or Honors Program, applies for the major by submitting a Sophomore Plan in the spring of the Sophomore year. (Except for students who have been granted advanced standing, applicants should have completed at least two economics courses at Swarthmore.) A student who will be away that semester should submit the paper before leaving at the end of the fall semester. In the Sophomore Plan, students should state their reasons for wanting to major in economics along with any associated considerations, and they should indicate the courses and seminars essential to their plan of study. Through the paper, students are preregistered for seminars offered over the following two years; thus, students are strongly urged to select their seminars carefully. Moreover, if a student decides to change seminars, the department’s program coordinator should be informed as soon as possible, since entry into oversubscribed seminars is first-come, first-served, with seniors in the Honors Program having absolute priority.
Honors Preparations
ECON 101: Advanced Microeconomics (2 credits)
Prerequisites: ECON 011 and multivariable calculus (MATH 033, 034, or 035). Enrollment is restricted to juniors and seniors.
ECON 102: Advanced Macroeconomics (2 credits)
Prerequisites: ECON 011 and ECON 021, and multivariable calculus: MATH 033, 034, or 035 (or MATH 025 or 026 with permission of the instructor).
Recommended: MATH 043 or 044.
ECON 122: Financial Economics (2 credits)
Prerequisites: ECON 011, ECON 031 or ECON 035, and MATH 025 or higher calculus.
ECON 135: Advanced Econometrics (1 credit) and ECON 035: Econometrics (1 credit)
Prerequisites: ECON 035 and linear algebra (Math 027, 028, or 028S).
ECON 141: Public Economics (2 credits)
Prerequisite: ECON 011 and ECON 031 (or its equivalent).
ECON 151: International Economics (2 credits)
Prerequisites: ECON 011 and ECON 021.
ECON 155: Behavioral and Experimental Economics (2 credits)
Prerequisites: ECON 011 and ECON 031 (or its equivalent).
ECON 162: Regulating Markets: How and Why the US Government Intervenes (2 credits)
Prerequisites: ECON 011 and ECON 031 (or its equivalent).
ECON 175: Health Economics (2 credits)
Prerequisites: ECON 011 and ECON 031 (or its equivalent).
ECON 176: Environmental Economics (2 credits)
Prerequisites: ECON 011 and ECON 031 (or its equivalent) and single-variable calculus (MATH 025 or higher).
ECON 181: Economic Development (2 credits)
Prerequisites: ECON 011, ECON 021, and either ECON 031, STAT 011, or STAT 021.

Interdisciplinary Majors and Minors including Economics
Certain economics courses can be counted toward programs in Black Studies, Asian Studies, Environmental studies, Latin American and Latino Studies, Peace and Conflict Studies, and Gender and Sexuality Studies.

Advanced Placement/International Baccalaureate Credit
Economics before Swarthmore: The Economics Department offers a one-semester Introduction to Economics course (ECON 001) that is the prerequisite for all further study in economics. The department does not give credit for work done in economics in secondary schools and it does not give credit for Advanced Placement exams. All students planning to study economics are required to begin with ECON 001 unless granted a waiver by the department. To receive a waiver, students must have a score of 5 on both the Microeconomics and Macroeconomics AP exams (or a 6 or 7 on the Economics Higher Level Exam of the International Baccalaureate, or an A on the British A Levels). This waiver does not count as a course credit. Students who receive the waiver cannot enroll in ECON 011 or 021 before taking at least one other economics course.

Work done at a college or university while attending secondary school is eligible for credit subject to the chairperson’s normal discretion in giving credit for such work, but only if the work is credited on an official college or university transcript. With respect to satisfying the prerequisite requirements for other economics courses: either semester of a two-semester introductory course alone counts as the equivalent of ECON 001 but if only one of two introductory semesters is taken, the material covered in the other half must be accessed by auditing (subject to the instructor’s approval) the relevant parts of ECON 001 or by taking the appropriate intermediate theory course (ECON 011 or ECON 021).

Transfer Credit
Transferring economics credits: Students must consult the department chair before taking a non-Swarthmore course for credit. In turn, when formally requesting a credit transfer, students should always bring evidence-syllabus, papers, and examinations-concerning the content of the course. Problems transferring credit typically arise in connection with courses offered in programs abroad that are labeled as economics though they are in fact courses in law, history, or political science; the department does not accept such credits as being within the domain of economics. It is usually sufficient for partial credit transfer if the course is taught by a qualified economist and is largely analytical in content, as are nearly all courses in economics departments in American colleges and universities.

Transferring credit for introductory economics: Subject to the department’s approval, students may transfer credit for introductory economics taken at other colleges or universities, whether taken in the context of a one or a two semester introductory course.

Transferring credits for business courses: Students must consult the department chair before taking a non-Swarthmore course for business credit. Students should bring all relevant business
course materials as well as a completed copy of the Economics Department Credit Transfer form when seeking credit for business courses completed away from Swarthmore. Students can only apply one course in Accounting toward their 8 credit requirement in Economics. Business courses taken at the University of Pennsylvania or other universities beyond this cannot be counted toward the eight credits required for an Economics major. They can be included as part of the 32 credits required for graduation but students can receive no more than two credits in total for such courses. The only exception to this rule is for students who take the equivalent of ECON 033 (Financial Accounting) at another school; the course is not counted against the two allowed business credits, and can be counted as part of the 8 credits needed for the Economics major. No credit is given for night school classes at Wharton. Swarthmore students can get business credit (subject to the above restrictions), but not economics credit, for finance courses taken outside of the tri-College system. If, however, a student has taken Financial Economics at Swarthmore (ECON 022 or 122), or a similar course elsewhere, no credit will be granted for additional, substantially overlapping, finance courses.

Teacher Certification

For economics majors, the College offers teacher certification in social studies or citizenship through a program approved by the state of Pennsylvania. For further information about specific requirements for Economics students, please refer to the Educational Studies section of the Bulletin.

Additional Matters

Recommended course sequence: Take ECON 001 in the first year. Take ECON 011, 021, and 031 in the sophomore and junior years and certainly before the beginning of the senior year. For students contemplating graduate study in economics, take one or more of: ECON 101, ECON 102, and ECON 135, as well as the Mathematics and Statistics courses discussed at the beginning of this document.

Ranking for entry into seminars: Entry into oversubscribed seminars is first-come, first-served for students in the Honors Program, with priority given to seniors, then to juniors. Any places remaining are allocated on the basis of first-come, first-served for students in the Course Program.

Double major in Economics and Engineering:
Double majors may count Operations Research (cross-listed as ECON 032 and ENGR 057) for both majors. It will appear as ENGR 057 on the student’s transcript if it is taken to satisfy engineering or both requirements.

Semester or year away: The Economics Department will facilitate study abroad or elsewhere in the United States. Correspondingly, it has designed a major that can, without difficulty, be completed in no more than four semesters. Moreover, the department is quite liberal in approving transfer credits for courses offered by economics departments elsewhere. Students should, however, be aware of the following considerations: to graduate with an economics major from Swarthmore, a student must have taken at least two economics courses at Swarthmore and must pass the department’s comprehensive exam.

Economics Courses

ECON 001. Introduction to Economics
Covers the fundamentals of microeconomics and macroeconomics: supply and demand, market structures, income distribution, fiscal and monetary policy in relation to unemployment and inflation, economic growth, and international economic relations. Focuses on the functioning of markets as well as on the rationale for and the design of public policy. Prerequisite for all further work in economics. Social sciences. 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

ECON 002. First-Year Seminar: Greed
In 1776, Adam Smith wrote in The Wealth of Nations: "It is not from the benevolence of the butcher, the brewer, or the baker, that we expect our dinner, but from their regard to their own interest...Every individual...neither intends to promote the public interest, nor knows how much is is promoting it...he intends only his own gain, and he is in this, as in many other cases, led by an invisible hand to promote an end which was no part of his intention. Nor is it always worse for the society that it was no part of it. By pursuing his own interest he frequently promotes that of the society more effectually than when he really intends to promote it." This seminar investigates the degree to which self-interest should be the organizing principle of economic and social organization. This course counts as 1 of the 8 economics credits needed to fulfill an economics major, but it does not take the place of ECON 001. It, therefore, cannot be used to fulfill the ECON 001 prerequisite for further work in the Economics Department. Social sciences. Writing course. 1 credit.
Spring 2021. Staff.
ECON 002A. First-Year Seminar: Emerging Market Economies: The BRICS 1900-2020
Will Brazil, Russia, India, and China be the most dominant economies in the world by 2050? Why is South Africa (S) in the group? We study the economic trajectories of these countries from roughly 1900, emphasizing the roles of domestic reforms and global markets in spurring human capital accumulation, industrial development, and economic growth. We ask how international organizations like the International Monetary Fund (IMF) and World Trade Organization (WTO) are accommodating the emergence of these countries, and what influence the BRICS are likely to exert on the global governance of trade, aid, finance, and the environment. This course counts as 1 of the 8 economics credits needed to fulfill an economics major, but it does not take the place of ECON 001. It, therefore, cannot be used to fulfill the ECON 001 prerequisite for further work in the Economics Department. Social sciences. 1 credit.

ECON 002B. First-Year Seminar: Technological Change and the Economy
This seminar examines the economic and social impact of technological advances and the economic structures that encourage or inhibit innovation. Among the questions we will address are: What technological advances contributed to the dramatic increase in standards of living and improved public health in the U.S. since the mid-nineteenth century? What social disruptions accompanied these changes? In the coming decades, are standards of living likely to increase as rapidly as they did in the twentieth century? Will advances in computer capabilities lead to mass unemployment and social disruptions? Can public policy make important contributions to the pace of technological change? Technological advances in weapons threaten the very existence of humans. Will we be able to manage these threats? This course counts as 1 of the 8 economics credits needed to fulfill an economics major, but it does not take the place of ECON 001. It, therefore, cannot be used to fulfill the ECON 001 prerequisite for further work in the Economics Department. Social sciences. 1 credit.

ECON 005. Savage Inaccuracies: The Facts and Economics of Education in America
(Cross-listed as EDUC 069) This course investigates the relationship between issues of resource allocation and educational attainment. It examines the facts about student achievement, educational expenditure in the United States, and the relationship between them. It studies such questions as: Does reducing class size improve student achievement? Does paying teachers more improve teacher quality and student outcomes? The course also investigates the relationship between educational attainment and wages in the labor market. Finally, it analyzes the effects of various market-oriented education reforms such as vouchers and charter schools. Prerequisite: ECON 001 and any statistics course (or the consent of the instructor). EDUC 014 is strongly recommended. Social sciences. 1 credit.

ECON 009. Creativity and Economics
The creation of new products, from movies and paintings to computers and the human genome has become increasingly central to the US economy. In this course, we seek to deepen our understanding of the creative act, its economic causes and consequences, and of economic theory as it has changed in reaction to the increased economic importance of creativity. Students write a short paper about a specific new product or line of products, using the economic ideas developed in the class. Prerequisite: ECON 001.

ECON 011. Intermediate Microeconomics

ECON 021. Intermediate Macroeconomics
The goal of this course is to give the student a thorough understanding of the actual behavior of the macroeconomy and the likely effects of
government stabilization policy. Models are developed of the determination of output, interest rates, prices, inflation, and other aggregate variables such as fiscal and trade surpluses and deficits. Students analyze conflicting views of business cycles, stabilization policy, and inflation/unemployment trade-offs. Freshmen may not enroll. Prerequisite: ECON 001 and MATH 015.

Social sciences.
1 credit.

ECON 022. Financial Economics
This course analyzes the ways that firms finance their operations. It discusses the organization and regulation of financial markets and institutions. It examines theories explaining asset prices and returns, and it discusses the function and pricing of options and futures contracts.
Prerequisite: ECON 001 and ECON 031 or its equivalent.
Social sciences.
1 credit.
Fall 2020. Caskey.

ECON 031. Introduction to Econometrics
This course provides an introduction to theory and practice of applied quantitative analysis in economics. Following a brief discussion of probability, statistics, and hypothesis testing, this course emphasizes using regression analysis to understand economic relationships and to test their statistical significance. Computer exercises provide practical experience in using these quantitative methods.
Prerequisite: ECON 001.
Social sciences.
1 credit.
Fall 2019. He
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

ECON 032. Operations Research
(Cross-listed as ENGR 057)
Social Sciences.
1 credit.
Eligible for CBL, ENVS

ECON 033. Financial Accounting
This course is designed to provide students with an intermediate level study of corporate accounting theory and practice as it falls within the framework of United States generally accepted accounting principles (GAAP). A major focus of the course is how accounting provides information to various user groups so that they can make more informed decisions. In particular, students will learn the steps in the accounting cycle leading up to the preparation and analysis of corporate financial statements. Students are also exposed to some of the fundamental differences between federal tax rules and external financial reporting requirements and are made aware of the organizations that influence and contribute to the body of knowledge in financial accounting. Finally, ethical issues that may be confronted by the accountant are also discussed throughout the course.
Prerequisite: ECON 001.
Social sciences.
1 credit.
Fall 2019. Hargadon.
Fall 2020. Hargadon.

ECON 035. Econometrics
Quantitative methods used in estimating economic models and testing economic theories are studied. Students learn to use statistical packages to apply these methods to problems in business, economics, and public policy.
Prerequisite: ECON 001 and ECON 031 or STAT 051.
Social sciences.
1 credit.
Fall 2019. May be offered.
Fall 2020. Staff.

ECON 041. Public Economics
This course focuses on government expenditure, tax, and debt policy. A major part of the course is devoted to an analysis of current policy issues in their institutional and theoretical contexts. The course will be of most interest to students having a concern for economic policy and its interaction with politics.
Prerequisite: ECON 001. Recommended: ECON 011.
Social sciences.
1 credit.
Spring 2021. Staff.

ECON 042. Law and Economics
The purpose of this course is to explore the premises behind the use of utilitarian constructs in the analysis of public policy issues. In particular, the appropriateness of the growing use of economic methodology will be examined through an intensive study of issues in property, tort, contract, and criminal law.
Prerequisite: ECON 001. Recommended: ECON 011.
Social sciences.
1 credit.
Fall 2020. Staff.

ECON 044. Urban Economics
The topics covered in this course include the economic decline of central cities, transportation policies, local taxation, theories of urban growth patterns, local economic development initiatives, and the economics of land use and housing.
**Economics**

Prerequisite: ECON 001 and ECON 031 or its equivalent.
Social sciences.
1 credit.

**ECON 045. Labor Economics**
This course offers an introduction to labor economics. Students will learn to apply microeconomic principles to topics such as labor supply and demand, unemployment, determinants of earnings, minimum wages, taxes and transfers, immigration, discrimination, education, and labor unions. Students will investigate these topics by evaluating recent economic research and analyzing labor market data.
Prerequisite: ECON 031 and ECON 011
Spring 2020. He.

**ECON 051. International Trade and Finance**
This course surveys theory of trade (microeconomics) and of the balance of payments and exchange rates (macroeconomics). Theories are used to analyze topics such as trade patterns, trade barriers, flows of labor and capital, exchange-rate fluctuations, the international monetary system, and macroeconomic interdependence.
Prerequisite: ECON 011 and ECON 021.
Social sciences.
1 credit.
Eligible for ASIA PEAC

**ECON 054. Global Capitalism Since 1920**
This course will study global capitalism over the last century, focusing on the interplay between events, economic theories and policies. The issues to be examined include: financial market booms and busts; business cycles; inequality; the social welfare state; technological change and economic growth; and international trade and financial arrangements. The time period covers: the Roaring Twenties; the Great Depression, the post war Golden Age (1945-1973); the stagflation of the 1970s; the Thatcher-Reagan-Greenspan-Bush era of market liberalization (1980-2007); and the financial crisis and Great Recession of 2007-2010. Economic theories include: the classical laissez-faire view; Schumpeter’s theory of "creative destruction"; Keynes and the "neo-classical synthesis" advocating a mixed economy; Minsky’s theory of financial instability; Friedman, the efficient-markets hypothesis, and the "new classical" critiques of government interventions; and emerging ideas in response to the present crisis. The course will chronicle and compare economic policy and performance of the United States, Europe, Japan, and the developing world (Asia, Latin America, Africa).
Prerequisite: ECON 001.
Social sciences.
1 credit.

**ECON 055. Behavioral Economics**
In the past 50 years, economists have increasingly used insights from psychology to explore the limitations of the standard economic model of rational decision making - a field now known as "behavioral economics." This course is an introduction to the central concepts of behavioral economics, touching on related research in psychology and experimental economics. We will also discuss the public policy implications of this work, and current policy applications of behavioral research around the world. Topics covered include: self-control, procrastination, fairness, cooperation and reciprocity, reference dependence, and choice under uncertainty.
A student can count only 1 credit of either ECON 055 or ECON 056, not both, towards a major in Economics.
Prerequisite: ECON 001.
Social sciences.
1 credit.
Fall 2019. Bhanot.
Spring 2021. Staff.

**ECON 061. Industrial Organization**
Industrial organization studies how competition between firms affects prices, profits, and consumer welfare. This course moves beyond basic models of perfect competition and monopoly, and analyzes markets where businesses make strategic choices and anticipate responses from competitors.
We will explore how businesses set prices, choose product attributes, and make entry decisions. Other topics include antitrust policy, collusion, advertising, and network competition.
Prerequisite: ECON 001.
Social sciences.
1 credit.
Fall 2019. Remer.

**ECON 073. Race, Ethnicity, and Gender in Economics**
Does difference make a difference in economics? In this course, we use theoretical and empirical tools of economics to recognize and analyze the diverse economic experiences of individuals and groups and to explore sources of and solutions to persistent inequalities. We also examine the roles of difference and diversity in the development of economic theory and policy.
Prerequisite: ECON 001.
Social sciences.
1 credit.
Eligible for BLST, GSST
Spring 2020. May be offered.
Fall 2020. Staff.

**ECON 074. Economics of the Family**
The family plays a key role in economic systems, as a consumer of goods and services and as a supplier of inputs, particularly labor.
Microeconomics can help us understand a range of topics about the family and household including decisions about fertility, child rearing, household management, marriage and divorce, immigration, and labor supply. Our focus will be on the contemporary American family, but we will also consider international and historical perspectives and the influence of public policy. Prerequisite: ECON 001 Social Science. 1 credit. Eligible for GLBL-Paired, GSST Fall 2019. Magenheim. Fall 2020. Magenheim.

ECON 075. Health Economics
This course applies microeconomic theory, including models from behavioral economics, to analyze consumers’, producers’, and the government’s behavior with respect to health and health care. Special attention will be paid to the role of socioeconomic and demographic factors in explaining patterns of health and access to health care. Other topics include environmental health, international comparisons of health and health care policy systems, and ongoing state and federal health care policy reform. Prerequisite: ECON 001. Social sciences. 1 credit. Eligible for GLBL-Paired Fall 2019. Magenheim. Fall 2020. Magenheim.

ECON 076. Environmental Economics
Introduction to the microeconomics of environmental issues with applications to the design of environmental policy. The course will cover the concepts and methods used in the valuation of environmental goods as well as the design of policy instruments and regulations to improve environmental quality. Specific topics include pollution and environmental degradation, the use of renewable and non-renewable resources, and climate change. Prerequisite: ECON 001. Recommended: ECON 011. Social sciences. 1 credit. Eligible for ENVS Fall 2019. Peck. Spring 2021. Staff.

ECON 081. Economic Development
A survey covering the principal theories of economic development and the dominant issues of public policy in low-income countries. Topics include the determinants of economic growth and income distribution, the role of the agricultural sector, the acquisition of technological capability, the design of poverty-targeting programs, the choice of exchange rate regime, and the impacts of international trade and capital flows (including foreign aid). Prerequisite: ECON 001. Social sciences. 1 credit. Eligible for ASIA, BLST, PEAC Spring 2021. Staff.

ECON 082. Political Economy of Africa
A survey of the post-independence development experience of Sub-Saharan Africa. We study policy choices in their political and institutional context, using case-study evidence and the analytical tools of positive political economy. Topics include development from a natural resource base, conflict and nation building, risk management by firms and households, poverty reduction policies, globalization and trade, and the effectiveness of foreign aid. Prerequisite: ECON 001. Social sciences. 1 credit. Eligible for BLST PEAC

ECON 083. East Asian Economies
This course will provide an overview of the East Asian economy and the economic interdependencies that characterize the region. After providing an understanding of the factors that have made East Asia the most dynamic in the world economy, current challenges of the region will be given particular attention. Topics that will be addressed include: economic growth in East Asia; trade and economic growth; the East Asian trade-production network; East Asia’s role in global imbalances; the Asian financial crisis; financial cooperation in East Asia; East Asia’s role in global economic governance; inequality in East Asia; demographic challenges of East Asian countries; environmental challenges and the move to sustainable economics. Prerequisite: ECON 001 Social sciences. 1 credit. Eligible for PEAC, ASIA, GLBL-Paired Fall 2019. Wang. Spring 2021. Staff.

ECON 099. Directed Reading
With consent of a supervising instructor, individual, or group study in fields of interest not covered by regular course offerings.

ECON 091C. Research Seminar in Economics: Public Policy
Students in this seminar will write a public policy research paper. The course will guide students through the elements of conducting public policy research, including identification of a policy-relevant problem, research design, data collection and analysis, policy analysis, and recommendations. Student projects can analyze existing policy or focus on problems for which policy approaches can be proposed. As background for conducting their own projects, students will read and discuss examples of public
Economics

policy research across a range of fields, including but not limited to, health, education, trade, and finance. Students will also present their own work in class throughout the semester, culminating in a presentation of the finished project at the end of the semester. Student research projects can be in any policy-relevant field, subject to data availability. The projects can employ existing data sets (e.g., administrative, survey, or experimental data) or students can collect their own data (e.g., through surveys and interviews).

Prerequisite: ECON 011 and ECON 031 (or its equivalent)

Seminars

ECON 091B. Research Seminar in Economics: Development Economics

This course provides each student with an opportunity to write an original empirical research paper in development economics. The course emphasizes key steps in the research process, including motivating and posing a research question, adopting a theoretical framework, designing and implementing an empirical strategy, presenting data and findings, and developing policy implications. Students study the research process through the lens of prominent recent papers in development economics, while developing and reporting on their own projects from initiation to conclusion. Student-identified projects may focus on aspects of household or firm behavior; poverty, inequality, and/or economic growth; public service delivery; impact assessment; or economic policy, along with other potential topics in a developing-country context. Student projects will employ observational or experimental data as appropriate, with an emphasis (not exclusive) on publicly available data.

Prerequisite: ECON 011 and ECON 031 (or its equivalent)

Social Sciences.
1 credit.

ECON 101. Advanced Microeconomics

Subjects covered include consumer and producer theory, optimization and duality, general equilibrium, risk and uncertainty, asymmetric information, and game theory.

Students are required to take either the afternoon section or the evening section in order to receive 2 credits.

Prerequisite: ECON 011 and multivariable calculus (MATH 033, MATH 034, or MATH 035). Enrollment is restricted to juniors and seniors.

Social sciences.
2 credits.

Spring 2021. Staff.

ECON 102. Advanced Macroeconomics

Subjects covered include microfoundations of macroeconomics, growth theory, rational expectations, and New Classical and New Keynesian macroeconomics. Extensive problem solving, with an emphasis on the qualitative analysis of dynamic systems.

Prerequisite: ECON 011, ECON 021, and multivariable calculus (MATH 033, MATH 034 or MATH 035, or MATH 025 or MATH 026 with permission of the instructor). Recommended: MATH 043 or MATH 044.

Social sciences.
2 credits.

Fall 2020. Staff.

ECON 122. Financial Economics

This seminar analyzes the ways that firms finance their operations. It discusses the organization and regulation of financial markets and institutions. It examines theories explaining asset prices and returns, and it discusses the function and pricing of options and futures contracts.

Prerequisite: ECON 011, ECON 031 or ECON 035, and MATH 025 or higher calculus.

Social sciences.
2 credits.

Fall 2019. Caskey.
Fall 2020. Staff.

ECON 135. Advanced Econometrics

Quantitative methods used in estimating economic models and testing economic theories are studied. Students learn to use statistical packages to apply these methods to problems in business, economics, and public policy. Students will also evaluate studies applying econometric methods to major economic issues. An individual empirical research project is required.

Prerequisite: ECON 035 and linear algebra (MATH 027, MATH 028 or MATH 028S).

Social sciences.
1 credit.

Spring 2020. He.

ECON 141. Public Economics

This seminar focuses on the analysis of government expenditure, tax, and debt policy. A major part of the seminar is devoted to an analysis of current policy issues in their institutional and theoretical contexts. The seminar will be of most interest to students having a concern for economic policy and its interaction with politics.

Prerequisite: ECON 011 and ECON 031 (or its equivalent)

Social sciences.
2 credits.

Spring 2021. Staff.

ECON 151. International Economics

Both microeconomics and macroeconomics are applied to an in-depth analysis of the world economy. Topics include trade patterns, trade
Economics barriers, international flows of labor and capital, exchange-rate fluctuations, the international monetary system, financial crises, macroeconomic interdependence, the roles of organizations such as the World Trade Organization and International Monetary Fund, and case studies of selected industrialized, developing, and transition countries.
Prerequisite: ECON 011 and ECON 021.
Social sciences.
2 credits.
ECON 155. Behavioral and Experimental Economics
The standard model of economic behavior is based on a set of assumptions about individual rationality, willpower, and preferences. Increasingly, researchers are finding that these assumptions can be inconsistent with observed behavior. This seminar focuses on behavioral and experimental economics, subfields of economics that draw from the broader social science literature to explore how individuals actually behave and make decisions, with the goal of improving both economic theory and public policy. The seminar will cover behavioral economics concepts and their applications in the real-world (in both high-income and low-income contexts worldwide), as well as experimental economics research and methods. Students in the seminar will read, critique, and present on the latest and most influential academic papers in behavioral and experimental economics. Topics include: self-control problems in financial behavior, preferences regarding inequality and fairness, cooperative behavior, social preferences, and consumer decision making.
A student will receive 1 credit for ECON 155 if they’ve received credit for either ECON 055 or ECON 056.
Prerequisite: ECON 011 and ECON 031.
Social sciences.
2 credits.
Fall 2019. Bhanot.
Spring 2021. Staff.
ECON 162. Antitrust and Market Regulation
This seminar studies the regulation of firms operating in imperfectly competitive markets. The course will have a strong focus on antitrust topics, such as collusion, mergers, and exclusive dealing. Other forms of regulation, such as net neutrality, FCC wireless spectrum auctions, and energy price controls, will also be studied. Students will learn to apply economic models and use data to understand the impact of government intervention on the strategic actions of businesses and consumer welfare. There will be a strong emphasis on learning the realities of policy implementation, the tools government economists use to evaluate regulations, and real-world case studies.
Prerequisite: ECON 011 and ECON 031 (or its equivalent).
Social sciences.
2 credits.
Spring 2021. Staff.
ECON 176. Environmental Economics
This seminar examines the microeconomics of environmental issues with applications to the design of environmental policy. The seminar will cover the concepts and methods used in the valuation of environmental goods as well as the design of policy instruments and regulations to improve environmental quality. Specific topics include pollution and environmental degradation, the use of renewable and non-renewable resources, and climate change.
Prerequisite: ECON 011 and ECON 031 (or its equivalent), and single-variable calculus (MATH 025 or higher).
Social sciences.
2 credits.
Eligible for ENVS
Fall 2019. Peck.
ECON 181. Economic Development
The economics of long-run development in Africa, Asia, and Latin America. We cover the leading theories of growth, structural change, income distribution, and poverty, with particular attention to development strategies and experience since World War II. Topics include land tenure and agricultural development, rural-urban migration, industrialization, human resource development, poverty targeting, trade and technology policy, aid and capital flows, macroeconomic management, and the role of the state. Students write several short papers examining the literature and a longer paper analyzing a particular country’s experience.
Prerequisite: ECON 011, ECON 021, and either ECON 031, STAT 011, or STAT 021.
Social sciences.
2 credits.
Eligible for ASIA, BLST, PEAC
Fall 2020. Staff.
ECON 198. Thesis
With consent of a supervising instructor, honors majors may undertake a senior thesis for double credit.
The Educational Studies Department at Swarthmore engages students in the investigation of educational theory, policy, research, and practice from a variety of disciplinary perspectives. We prepare students to work in educational research or policy, to enter the teaching profession, and/or to pursue graduate study in educational studies or a related field. The department encourages undergraduates to think critically and creatively about the processes of teaching and learning and about the place of education in society. The department is also committed to preparing students to address education-related needs in an era of rapidly increasing racial, ethnic, and linguistic diversity and technological change and to develop students’ abilities to participate fully in civic, cultural, and economic arenas. Both introductory and upper level courses in the department draw on theory and research in anthropology, economics, history, political science, psychology, and sociology.

The Academic Program

Students interested in Educational Studies at Swarthmore may design an honors or course major in Educational Studies; a special major in Educational Studies and another discipline; or an honors or course minor in Educational Studies. Students also have the option to pursue teacher certification.

First course recommendation

EDUC 014F: First-year seminar: Pedagogy and Power: An Introduction to Education - Schools are complex institutions, central to any society. Schools are sites of teaching and learning, places where inequalities are maintained or challenged, and institutions within which children and their teachers live out the daily realities of national political agendas. This course explores major questions in educational policy, theory, and practice. Students read original source materials from multiple disciplines, write, discuss, and complete fieldwork in area schools as an introduction to the interdisciplinary and expansive field of educational studies. EDUC 014 or the first-year seminar EDUC 014F, is required for students pursuing teacher certification.

Course Major

An Educational Studies major includes at least 8 credits in Educational Studies. In their sophomore plan, we recommend that prospective majors clarify a focus within the department. Foci might include policy, social and cultural foundations of education, or the study of learning. All majors must include a methods course in their program as preparation for their senior thesis. Methods courses can include any of the following three courses:

- EDUC 65 Qualitative Methods for Educational Change
- SOCI 16B Research Methods in Social Science
- EDUC 21 Educational Psychology

The culminating exercise for the major is normally a 1-2 credit senior thesis, completed in the senior year.

Prerequisites for entry into the major include EDUC 014, Pedagogy and Power: Introduction to Education and one additional course in the department. EDUC 092: Practice Teaching and EDUC 093: Curriculum and Methods Seminar are not counted as part of the major.

All majors must take a methods course. The culminating exercise for a major is normally a 1-2 credit thesis.

Course Special Major

In special majors involving Educational Studies, the student combines work in Educational Studies with work in another academic department or interdisciplinary program. Pre-established programs have been created with the following disciplines: biology, chemistry, computer science, English literature, French, German, history, Latin American and Latino studies, linguistics, mathematics/statistics, music, peace and conflict studies, physics, political science, psychology, Russian, sociology/anthropology, and Spanish. Special majors with other disciplines can be
Educational Studies

pursued with the approval of both the Educational Studies Department and the second department or program. In the case of all special majors involving Educational Studies, both departments collaborate in advising the student.

The special major usually requires 10 to 12 credits, at least 5 of which must be in Educational Studies. All special majors are required to complete a thesis or a comprehensive examination integrating work in their two fields of study. Special majors are encouraged to take EDUC 065 Educational Research for Social Change in the spring of their sophomore or junior year. This course, which can be taken for 0.5 or 1 credit, prepares students to write a special major thesis in their senior year. Each partnering department or program provides specific course requirements for the completion of a special major and for thesis/comprehensive exam, details of which may be found on the departmental website.

If special majors pursue teaching certification, EDUC 092: Curriculum and Methods Seminar and EDUC 093: Practice Teaching are not counted as part of the special major requirements. The prerequisite for acceptance to the special major program is successful completion of EDUC 014: Pedagogy and Power: Introduction to Education and one other course in the department.

Course Minor

The Educational Studies minor provides students with the opportunity to choose from a variety of Educational Studies courses and prompts students to reflect on the overarching theme of their experience in the department. The Educational Studies minor requires at least 5 credits in Educational Studies. Students identify a focus when they apply for the minor and then explain how their coursework supports this focus. Possible foci include but are not limited to Teaching and Practice, Educational Policy, Educational Psychology, School and Society, Special Education, Urban Education, Environmental Education, and Literacy. The prerequisite for acceptance to the Educational Studies minor program is EDUC 014. Minors may also pursue teacher certification.

Honors Program

The department supports the Honors Program for majors, special majors, and minors.

Honors Major

Students may complete an Honors major in Educational Studies. The Honors major requires at least 9 credits in the department, including 3 honors preparations and one methods class from the courses listed in the course major. One preparation must be a 2-credit honors thesis, normally completed over both semesters of the senior year. The other two preparations will normally consist of 2-credit seminars, although a course and attachment may be possible as an alternative.

Prerequisites for admissions to the Honors major include EDUC 014, Pedagogy and Power: Introduction to Education, one additional course in the department, and an average of B+ in their courses in the department. EDUC 092: Practice Teaching and EDUC 093: Curriculum and Methods Seminar are not counted as part of the major.

Honors Special Majors

Students may opt to pursue an Honors Special major in Educational Studies and another department or interdisciplinary program. Pre-established special majors have been created with the following disciplines: English, linguistics, political science, psychology, and sociology/anthropology. Honors special majors with other disciplines can be pursued with the approval of both Educational Studies and the partnering department or program. The Honors special major, like the Course special major, requires a total of 10 to 12 credits, at least 5 of which must be in Educational Studies. However, Honors special majors must also include 4 Honors preparations in their program. These must be distributed as follows:

- 3 (2-credit) Honors preparations, at least 1 or 2 of which must be in Educational Studies and 1 or 2 in the other discipline.

Most honors preparations in Educational Studies consist of a 2-credit honors seminar. It is possible to complete a 1-credit Educational Studies course with a 1-credit attachment as an honors preparation. Availability of this option is limited and designed with a supervising faculty member from the Educational Studies Department.

- 1 Honors preparation through the completion of a double-credit thesis. This thesis normally serves to integrate the fields of the special major and is supervised by faculty members in both departments of the special major. Honors special majors are encouraged to take EDUC 065 Qualitative Research Methods: Educational Research for Social Change in the spring of their sophomore or junior year. This course, which can be taken for 0.5 or 1 credit, prepares students to write the special major thesis in their senior year.

Each partnering department or program also provides specific requirements for the completion of an Honors special major, which may be found on the departmental website. Students are expected to have a B+ average in their Educational Studies courses to complete an Honors special major. Additionally, students must complete external examinations upon completion of the program. The prerequisite for acceptance to the Honors Educational Studies Major Program is EDUC 014,
2 additional Educational Studies courses of the student’s choice, and an average grade of B+ in all Educational Studies courses at the time of application. Honors majors may also pursue teacher certification.

Honors Minors
Students may opt to pursue an Honors minor in educational studies. The Honors minor requires five credits in educational studies, including EDUC 014 (1 credit), one Honors seminar (2 credits), and two additional credits of the student’s choice. Students are expected to have a B+ average in their educational studies courses and to complete the external Honors examination. The prerequisite for acceptance to the Honors educational studies minor program is EDUC 014. Honors minors may also pursue teacher certification.

Additional Honors Program Details

External Examinations
As part of the Honors Program, students complete an examination for each completed preparation. Thesis preparation for Honors major and special major students involves a 45-60-minute individual oral exam on their work with an outside examiner. Examination for Honors preparations other than thesis includes a written and an oral component. An external examiner sets the written portion of the exam. Exam questions are based on the seminar syllabus. The exam may include a problem set, a case, and/or additional readings relevant to the work students have undertaken in that preparation. These materials may be sent to the student in advance of the written exam. All Educational Studies Honors exams are written in the Educational Materials Center. A maximum of 5 hours is allowed for completion of each exam.

Intellectual Autobiography
All Honors students (majors, special majors, and minors) in Educational Studies write a short intellectual autobiography that is sent to the Honors examiner. Students may also choose to send to the examiner a paper from an Honors seminar. The autobiography and the paper are not formally evaluated by the examiner; they are intended to familiarize the examiner with the student’s experience and background in Educational Studies, since each student in each seminar brings different disciplinary content to his/her understanding of the material. The autobiography is written in the spring of the senior year under the supervision of the department chair in Educational Studies.

Research Opportunities and Experiences
Engaging in research is integral to students’ work in Educational Studies. Participation in research supports students to understand the importance of research to theory, policy-making, and practice. In each course and seminar in the department, students are introduced to qualitative and/or quantitative methods of research, which they use to work directly with questions addressed in coursework. Students not only read original research, but they also collect and analyze data using appropriate methods in each course.

Students are strongly encouraged to take EDUC 065: Qualitative Research Methods: Educational Research for Social Change in the spring of their sophomore or junior year. This course, which can be taken for 0.5 or 1 credit, prepares students to write a thesis in their senior year. It can be used as the required methods course for special majors with Sociology and Anthropology, and as the required methods course for Educational Studies majors.

As a culminating activity in the department, all majors and most special majors write a thesis. Students select the focus of their thesis work; theses typically build on students’ course work and methods training in Educational Studies and the other department comprising their special major.

Some students conduct independent research or serve as research assistants on faculty members’ projects. Students may begin working as research assistants as early as the summer following their first year. Many such collaborations have led to student-faculty co-authored conference presentations, articles, and chapters.

Fieldwork and Service-Learning Opportunities
Bridging research and practice is a goal for courses and seminars in the department. Many courses and seminars have a distinctive fieldwork component. Course descriptions indicate if a course involves a field placement.

Depending on transportation options, students can request fieldwork placements in urban, suburban, or rural communities and choose from public, charter, or private school settings. Students are encouraged to use the field placements as an opportunity to explore a range of school and population types. A list of school sites may be found on the department’s website.

Study Abroad
Students requesting credit in Educational Studies for course or fieldwork done abroad (or at another institution in the U.S.) must take EDUC 014: Pedagogy and Power: Introduction to Education. This course may be taken before or after the study abroad credit is completed, but the credit will only be accepted after EDUC 014 has been completed.

The Cloud Forest School Program, Costa Rica
Through this program, students complete a school-based internship (3 educational studies credits) and receive an intercultural credit for Spanish language
learning. For more information see http://www.swarthmore.edu/academics/educationa1-studies/academic-program/off-campus-study/cloud-forest-program.xml.

Transfer Credit
Transfer credit is accepted once a student has completed EDUC 014. To request transfer credit, the student must present a syllabus and all course work for the department to review. Some additional work may be required.

Pathways to Teaching
Swarthmore students come to an interest in teaching at many points during their own educational careers - some before they enter college, others during their four undergraduate years, and some as they investigate possible careers after Swarthmore. Students are encouraged to explore the many opportunities available to them in the field of education. Pathways to Teaching, on the department’s website, offers students more information on the options available to them:

- Mentoring and tutoring opportunities offered through Swarthmore.
- Summer opportunities to work in classrooms or enrichment programs or complete an education-related internship.
- Teacher certification at Swarthmore.
- Graduate study in education, including teaching programs and other programs in educational studies.

Teacher Certification
Swarthmore offers a state-accredited teacher preparation program for both special majors and minors (Honors or Course). Certification for elementary, middle, and/or high school teaching is transferable to all 50 states; after PA certification, some states may require additional exams or content. A guide to certification reciprocity is available through Certification Map at http://certificationmap.com/states/reciprocity-disclaimer/.

Swarthmore’s programs for secondary certification are designed with guidance from faculty members in the discipline in which the student is being certified as well as members of the Educational Studies Department. Students preparing for elementary certification design their course of study with advising from the Swarthmore Educational Studies Department and Eastern University.

Formal admission to the teacher certification program occurs at the start of EDUC 092: Curriculum and Methods and EDUC 093: Practice Teaching after students have successfully completed their core Educational Studies and discipline major requirements. Students must have completed 12 Swarthmore College credits (48 credit hours) to enroll in the program.

State Requirements for Certification
In order to be certified, students must attain either an overall grade point average of 3.0 or an overall grade point average of 2.8 GPA and a qualifying score on the appropriate PRAXIS exams. More information about the exams required for certification can be found on the Educational Studies Department website under "Teacher Certification > Student Teaching > Exam Information."

Students seeking certification must meet 1) all Swarthmore’s general requirements for graduation with a Bachelor’s degree, 2) Educational Studies requirements for certification, and 3) state teaching certification distribution requirements in mathematics, English literature, and English composition. The following outline presents the ways in which students might meet these state distribution requirements:

**Mathematics: 6 credit hours.** This may be fulfilled by any sufficient combination of the following options:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Credit Hour Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Swarthmore 1-credit Math/Statistics or Natural Science course</td>
<td>4</td>
</tr>
<tr>
<td>Score of 4 or 5 on AP Calculus AB</td>
<td>4</td>
</tr>
<tr>
<td>Score of 4 or 5 on AP Calculus AB/BC</td>
<td>4</td>
</tr>
<tr>
<td>Score of 4 or 5 on AP Statistics</td>
<td>4</td>
</tr>
<tr>
<td>Score of 6 or 7 on the Higher Level IB Exam</td>
<td>4</td>
</tr>
<tr>
<td>Scores of 560 or higher on the SAT level 1 or II math level IC or IIC</td>
<td>3</td>
</tr>
<tr>
<td>CLEP math test (<a href="http://clep.collegeboard.org/exam">http://clep.collegeboard.org/exam</a>)</td>
<td>4</td>
</tr>
</tbody>
</table>
Combination should total 6

English Literature: 3 credit hours. This may be fulfilled by any of the following options:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Credit Hour Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Swarthmore 1-credit English Department course</td>
<td>4</td>
</tr>
<tr>
<td>Score of 4 or 5 on AP English Literature</td>
<td>4</td>
</tr>
<tr>
<td>Score of 6 or 7 on the Higher Level IB Exam</td>
<td>4</td>
</tr>
<tr>
<td>CLEP literature test (<a href="http://clep.collegeboard.org/exam">http://clep.collegeboard.org/exam</a>)</td>
<td>4</td>
</tr>
</tbody>
</table>

Combination should total 3

English Composition: 3 credit hours, met by the College’s general distribution requirement of Writing courses.

Certification Options

**Elementary Certification (Grades PreK-4)**
Certification in elementary education is granted to Swarthmore students through Eastern University. Students complete the majority of their coursework at Swarthmore, including student teaching, but must also complete 2 Eastern University summer courses (offered at Swarthmore) in order to receive elementary certification. Eastern University will award the Pennsylvania PreK-4 certification; students who want to complete the 4-8 elementary/middle school certification may add this certification through testing. The department recommends that students complete both PreK-4 and 4-8 certifications.

Students must fulfill all of the state general distribution requirements listed above. Additionally, required Swarthmore coursework includes:
- EDUC 014: Pedagogy and Power: Introduction to Education
- EDUC/PSYC 021: Educational Psychology
- EDUC/PSYC 026: Special Education
- EDUC 042: Teaching Diverse Young Learners
- EDUC 053: Educating Emergent Bilinguals

Recommended EDUC 023: Adolescence

The Eastern University summer school program consists of two elementary methods courses in Language Arts and Reading. The hybrid online and face-to-face course work begins in mid-May and ends in early June for a total cost of approximately $4,466 (cost as of spring 2019; students on financial aid can apply for support). Students can receive 1 Swarthmore College credit for these courses.

Students must consult with the chair of Swarthmore’s Educational Studies Department regarding their program of study to ensure that it includes a representative distribution of English, social studies, math, and science coursework required for 4-8 certification.

Elementary Certification candidates complete one semester of student teaching through Swarthmore, which consists of EDUC 092: Curriculum and Methods (2 credits) and EDUC 093: Practice Teaching (2 credits).

**Secondary Certification (Grades 7-12)**
The department offers secondary (7-12) teacher certification in biology, chemistry, citizenship, English, mathematics, physics, and social studies. The department also offers K-12 certification in French, German, Russian, or Spanish. Students must complete a major or special major in their area of certification. Majors/special majors in history, economics, or political science receive secondary certification in either citizenship or social studies, and majors/special majors in psychology or sociology/anthropology receive secondary certification in social studies.

In order to be certified, students should fulfill all of the state general distribution requirements. Additionally, students must complete a major or a special major in their area of certification and take a total of five and a half core courses in Educational Studies:
- EDUC 014: Pedagogy and Power: Introduction to Education
- EDUC/PSYC 021. Educational Psychology
- EDUC/PSYC 023. Adolescence
- EDUC 023A. Adolescents and Special Education (0.5 credit)
- EDUC/PSYC 026. Special Education
- EDUC 053: Educating Emergent Bilinguals

Students must complete subject-specific requirements that may or may not differ from the special major or major requirements already established. For the special major discipline’s course obligations with teacher certification, students should refer to the subject-specific requirement charts on the Educational Studies Department website.
Students must complete one semester of student teaching, which consists of EDUC 092: Curriculum and Methods (2 credits) and EDUC 093: Practice Teaching (2 credits).

World Language Teaching Certification (Grades K through 12)

Students who wish to teach a world language (Spanish, French, German, or Russian) will receive K-12 teaching certification in their specific language area upon completion of the program. This will allow them to teach elementary, middle, and high school. All students seeking world language certification should follow the pathway for secondary teacher certification to attain the K-12 certification. Refer to the Secondary Certification section for details.

Student Teaching

EDUC 092: Curriculum and Methods (2 credits) and EDUC 093: Practice Teaching (2 credits) are completed during the first semester of the senior year or in a ninth semester after graduation. Placement for practice teaching is available in a range of public and private schools.

Ninth Semester

Students who have completed all of the requirements for certification (in their discipline and in Educational Studies) except for student teaching may return following graduation to complete the teacher certification program during a ninth semester. During this semester, students can only take EDUC 092: Curriculum and Methods (2 credits) and EDUC 093: Practice Teaching (2 credits). Students in the ninth semester program have full access to computing and other campus facilities but are not eligible for campus housing. Students obtaining education certification in the Ninth Semester program will be charged the unit charge for 1 course. Some tuition reimbursement will be available for ninth semester students.

Educational Studies Courses

EDUC 001C. The Writing Process: Pedagogy and Practice
(Cross-listed as ENGL 001C)
Open only to those selected as WAs. Meets distribution requirements but does not count toward the major.
Graded CR/NC.
Social sciences.
Writing.

EDUC 014. Pedagogy and Power: An Introduction to Education
Schools are complex institutions, central to any society. Schools are sites of teaching and learning, places where inequalities are maintained or challenged, and institutions within which children and their teachers live out the daily realities of national political agendas. This course explores major questions in educational policy, theory, and practice. Students read original source materials from multiple disciplines, write, discuss, and complete fieldwork in area schools as an introduction to the interdisciplinary and expansive field of educational studies. EDUC 014 or the first-year seminar EDUC 014F, is required for students pursuing teacher certification.
Social sciences.
Writing course.
1 credit.
Eligible for CBL

Fall 2020. Staff.
Spring 2021. Staff.

EDUC 018. Critical Perspectives
In this course, students will simultaneously reflect upon and strengthen their critical reading, writing and thinking skills as they examine a specific topic in the field. Students will explore theme of activism in education. What role does activism play in creating more equitable and liberatory schools? How do educational and societal conditions spark revolution? How do student voices work to drive change? We will grapple with these questions and others, troubling our thinking around activism in education. Utilizing historical, socio-political, and post-modern frameworks, we examine student-led movements, parent protests, and teacher uprisings, exploring the promise and challenges of people, groups, unions, and collectives who agitate for educational change. This course supports the development of critical analysis, so we will spend our class time in a
workshop format, reading, writing, and thinking together. To accomplish this, weekly class sessions will be longer than usual, while the workload outside of class will be significantly lower.

Prerequisite: EDUC 014: Pedagogy and Power, or permission from the instructor.

1 credit.

Spring 2021. Staff.

EDUC 021. Educational Psychology
(Cross-listed as PSYC 021)
This course focuses on issues in learning and development that have particular relevance to understanding student thinking. Research on student learning and motivation provides the core readings for the course, which is run in a discussion-based, workshop like format. As part of the course, students collaborate with teachers of public school students in integrated classrooms on research questions. This experience also provides an introduction to the use of qualitative and quantitative methods, their data reduction, and interpretation. This course is required for students pursuing special majors in psychology and educational studies, and for all students pursuing teacher certification.

Social sciences.
1 credit.
Eligible for CBL
Fall 2019. Renninger.
Fall 2020. Renninger.

EDUC 023. Adolescence
(Cross-listed as PSYC 023)
In this course, students examine adolescent development from psychological, sociological, and life-span perspectives, reading both traditional theory and challenges to that theory that consider issues of race, class, gender, ethnicity, and sexual orientation. During the first part of the term, students explore various aspects of individual development (e.g., cognitive, affective, physiological, etc.). The second part focuses on the adolescent’s experience in a range of social contexts (e.g., family, peer group, school, etc.). Required for students pursuing secondary teacher certification. Not recommended for first-year students.

Prerequisite: EDUC 014 or permission of the instructor.

Social sciences.
1 credit.
Eligible for CBL
Spring 2020. Staff.
Spring 2021. Staff.

EDUC 023A. Special Education: Adolescents with Special Needs
In this half credit attachment to EDUC 023, Adolescence, students will focus on meeting the needs of diverse adolescent learners. In particular, students will examine the unique psycho-social interactions between adolescents receiving special education services, their parents and the educators who work with them. Students will also explore strategies for addressing specific cognitive and academic needs of these adolescents in literacy, content area learning, and transitions out of school. Course includes a field placement. Required for students pursuing secondary teacher certification.

Prerequisite: (or concurrently) EDUC 026/PSYC 026 or permission of the instructor.

Corequisite: EDUC 023 can be taken concurrently 0.5 credit.

Spring 2020. Staff.
Spring 2021. Staff.

EDUC 026. Special Education: Issues and Practice
(Cross-listed as PSYC 026)
This course is designed to provide students with a critical overview of special education, including its history, the classification and description of exceptionalities, and its legal regulation. Major issues related to identification, assessment, educational and therapeutic interventions, psychosocial aspects, and inclusion are examined.

Course includes a field placement. Required for students pursuing teacher certification.

Social sciences.
1 credit.
Eligible for CBL
Spring 2020. Staff.
Spring 2021. Staff.

EDUC 033. Black Education
This course examines the lives of Black children and youth in American education from a socio-historical perspective. A particular focus is placed on the Black struggle for educational access and equality, and educational policies and programs designed to advance the education of Black students. The goal is to reconsider how schools and classrooms can realize the promise and potential of Blacks in the United States.

Prerequisite: Either EDUC 014 or BLST 015.

1 credit.

EDUC 041. A Site of Struggle: Educational Policy
This course examines preK-Higher Education policy as a site of struggle. Students will develop a working knowledge of the policy landscape on the federal, state, and local levels and use this knowledge to examine the relationship between policy, power, and practice. The course will examine a range of current policy topics, potentially including school finance, issues of adequacy and equity, based reform, assessment and accountability, bilingual education, school choice, early childhood education, special education, desegregation, and teacher quality and compensation. Drawing primarily from a critical policy studies framework, students will examine education policies and develop strategies and projects that would support, critique and
transform extant policies. There will be an 8 hour field requirement for the course. 
Prerequisite: EDUC 014 or permission of the instructor.
Social sciences.
1 credit.

EDUC 042. Teaching Diverse Young Learners
Why do children play? What is the role of culture in child development? What does it mean to learn? This course explores the ways in which children play, develop, and construct meaning in their personal, communal, and academic lives. Students will survey learning theories and optimal learning environments for diverse young learners, including: English Language Learners; racially, ethnically and socioeconomically diverse populations; culturally non-mainstream students; gender expansive students; students with learning differences and disabilities; and students with socioemotional classifications. Students in this course engage in weekly hands-on fieldwork, supporting and leading lessons in preschool, primary, and middle grade classrooms. This course is required for elementary certification.
Social sciences.
Writing course.
1 credit.
Fall 2020. Staff.

EDUC 043. Teacher Narratives, Policy and Power
This course is an exploration of the lives of teachers: how they are framed within popular culture and policy, and how they frame themselves within the politics of the classroom, schools and broader society. Students will work with various critical social theories and analytical tools to think through teacher narratives, historical and sociological texts, film, policy debates, guest presentations, and other sources. Assignments will include conducting interviews with educators and producing mixed media projects that reframe educator identities.
Social sciences.
1 credit.

EDUC 045. Literacies and Social Identities
This course explores the intersections of literacy practices and identities of gender, race, class, religion, ethnicity, and sexual orientation within communities of practice. It includes but is not limited to school settings. Students will work with diverse theory and analytical tools that draw on educational, anthropological, historical, sociological, linguistic, fictional, visual, popular readings and "scenes of literacy" from everyday practice. Fieldwork includes a Learning for Life partnership, tutoring, or community service in a literacy program.
Social sciences.
Writing course.
1 credit.
Eligible for GSST.
Fall 2020. Staff.

EDUC 046. Race, Nation, Empire and Education
(Cross-listed as SOAN 040M)
Drawing on anthropology, history, and cultural studies, this course develops frameworks for understanding the historical and contemporary role of education in race-making, nation-building, and empire-building projects. We focus on how educational processes shape the material, cultural, psychological, socioeconomic, and political aspects of people’s lives, and how these contend within a changing global landscape. Topics include: education’s dual role in settler colonialism and its potential for decolonization; scientific racism as it relates to discourses about intelligence; institutions of higher education and their entanglements with slavery and imperialism; education in colonial and post-colonial settings; legislating bodies and intimacies among young women of color; and education as a site for producing hegemonic notions of the ideal citizen-subject. This course includes films, guest speakers, and field trips to enhance the learning process.
Social sciences.
1 credit.
Eligible for BLST.

EDUC 048. From the Undercommons: Ethnic Studies and Education
What is ethnic studies? How can ethnic studies be part of efforts to transform educational and social conditions today from the position of the undercommons? This course is an examination of the origins, theories, pedagogies, politics, and policies that have come to define ethnic studies in US education. What key historical events and struggles in U.S. society and education have contributed to ethnic studies as an "undiscipline," and as curriculum? Colonialism, race, ethnicity, nationalism, diversity, inclusion, segregation, community control, resistance and survivance, are among the potential topics to be examined in relation to ethnic studies pedagogies, policies and social movements in formal (N-Higher Ed) and informal (afterschools, CBOs, museums, social movements, etc) settings. Coupled to this inquiry will be a weekly field assignment where students will be collaborating with educators (N-Higher Ed) in crafting or further developing curricular projects that apply an ethnic studies lens.
Social science.
1 credit.
Eligible for LALS, BLST.
Spring 2020. Staff.

EDUC 053. Educating Emergent Bilinguals
(Cross-listed as LING 053)
Emergent bilingual youth-- those students who speak another language at home and are in the process of learning English at school-- are one of the fastest growing and most underserved
populations in U.S. schools today. This course examines their experiences through multiple lenses, exploring the impact of immigration policy on schools, linguistic discrimination and English-only ideologies, theories of bilingualism and language development, policies and practices for teaching multilingual students, and asset-based approaches to curriculum, instruction, and parent engagement. Students in the course complete weekly fieldwork in area classrooms serving emergent bilinguals and a small-group study of the neighborhood and school context. Required for students pursuing teacher certification and an essential first course for the ESL Program Specialist certificate.
Prerequisite: EDUC 014 or permission of the instructor.
Social sciences.
1 credit.
Eligible for LALS, CBL
Fall 2019. Allard.
Fall 2020. Allard.

EDUC 054. Oral and Written Language
(Cross-listed as LING 054)
Social sciences.
1 credit.
Fall 2019. Napoli.

EDUC 056. TESOL Methods: Theory in Practice
This hands-on course in Teaching English to Speakers of Other Languages (TESOL) provides students with experience designing and delivering content, and theme-based instruction for emergent bilinguals. Through readings in applied linguistics and language pedagogy, collaborative group work, and weekly apprenticeship in an ESOL classroom, students explore current issues and approaches to ESOL curriculum development, pedagogy, and assessment while developing the skills they need to support emergent bilinguals in ESOL and content classrooms, K-12. Required for the ESL Program Specialist Certificate.
Prerequisite: EDUC 053
Social sciences.
1 credit.
Spring 2020. Staff.

EDUC 061. Gender and Education
This course examines how gender relations shape everyday life in schools. The course begins with the history and theory of gender and education in the United States, and then explores popular discourse and key debates in the field, with a focus on the core themes of access and equity in urban schools; the intersections of race, class, and sexuality; and the implications of gender issues for school policy and classroom practice. The goal is a reconsideration of what constitutes effective schooling for all students
Prerequisite: EDUC 014 or permission of the instructor.
Social sciences.
1 credit.
Eligible for GSST.
Fall 2020. Staff.

EDUC 062. Sociology of Education
(Cross-listed as SOCI 062B)
This course will examine urban schools and classrooms in the United States from a sociological perspective. Students are introduced to theory and method of the sociological study of education, and the core issues taken up in the field, such as social stratification and mobility, and educational equity and opportunity. Emphasis will be placed on the influence of local, state, and federal policies on the social organization of schools, relationships among social actors within these institutions, and patterns of inequality in what students learn. Variation among these issues will be primarily explored through race and ethnicity, citizenship status and native language, gender and sexual orientation, and disability/ability. The course will conclude with applying knowledge in the field to policy and practice at the PreK-12 and postsecondary level.
Social sciences.
Writing course.
1 credit.

EDUC 064. Comparative Education
This course examines key issues and themes in education as they play out in local and global contexts around the world. We use case studies to explore the roles of local, national, and international actors and organizations in the construction of educational policy and practice. Topics will include immigration and schooling, equity, curriculum goals and constructs, and education in areas of conflict.
Prerequisite: EDUC 014 or permission of the instructor.
Social sciences.
Writing course.
1 credit.
Eligible for GLBL- Core
Fall 2019. Smulyan.

How can educational research change policy and practice? In this course, students engage with this question as they learn the basics of qualitative research methodology, including choosing a topic, reviewing literature, collecting and analyzing data, and communicating findings for various audiences. Students taking the course for a full credit work as members of a research team, conduct research in and around schools (projects vary each semester). Class participants visit educational research organizations and meet with researchers working on some of the most pressing issues in education today. This course is essential for students planning to write 1 or 2 credit theses in Educational Studies.
Prerequisite: EDUC 014 and an intermediate level educational studies course.
Social sciences.
1 credit.
Eligible for CBL.
Spring 2020. Staff.
Spring 2021. Staff.

EDUC 066. College for All? Critical Issues in Higher Education
In this course, students will examine institutions of higher education as spaces within which individuals and social structures are both reproduced and recreated. Questions to be explored include: How has the history of US postsecondary education shaped the present? What are the goals of the many different forms of postsecondary institutions? Who has access - and who controls that access? How do institutional structures and cultures impact student learning, student identity, and student experience? The course will focus explicitly on how institutions and student experiences are shaped by the intersections of race, class, gender, sexual orientation.
Prerequisite: EDUC 014.
Social sciences.
1 credit.
Spring 2021. Smulyan.

EDUC 067. Fight for #PhlEd: Urban Educational and Environmental Justice
This course examines urbanism and environmental justice as seen through the lens of urban education politics. Course readings, discussions and related field experiences will focus on key issues and debates confronting urban education as it relates to urban development and environmental sustainability and justice. We will draw on theories and approaches from critical geography and critical theories of race and political economy to examine research, policy, pedagogy and social movements as vehicles for addressing the challenges that shape the conditions of teaching, learning and community development. We will focus on - and try to build alongside - the city of Philadelphia, its racially and ethnically diverse communities, and its public schools. Taught in Philadelphia as part of the Tri-Co Philly Program.
Prerequisite: Admission to the Tri-Co Philly Program, or permission of instructor.
Social sciences.
1 credit.
Fall 2019. Mayorga.

EDUC 068. Urban Education (Cross-listed as SOAN 020B)
Drawing on anthropology, sociology, history, urban studies, and cultural studies, this course challenges popular notions of "urban education" rooted in deficit thinking. We consider "urban" as a lens for conducting a spatial analysis of inequalities, and "education" as an expansive concept that indexes the formal institution of schools, as well as informal youth culture. We also consider education’s dual role in exacerbating inequalities, and its potential as sites of resistance, refusal, and liberation. Course topics include: market-based school reform, pedagogies of resistance, youth culture and the semiotics of language and fashion, school to prison pipeline, and segregation and integration. This course focuses on Philadelphia as a case study, and includes fieldwork, films, guest speakers, and field trips to enhance the learning process.
Social sciences.
1 credit.
Eligible for BLST, LALS, CBL.
Fall 2020. Staff.
Spring 2021. Staff.

EDUC 069. Savage Inaccuracies: The Facts and Economics of Education in America (Cross-listed as ECON 005)
EDUC 014 is required to receive Educational Studies Department credit for this course.
Social sciences.
1 credit.

EDUC 070. Outreach Practicum
This course is offered in conjunction with the Lang Center for Civic and Social Responsibility. It is designed to support students involved in educational and community-based outreach in urban settings. Students’ volunteer experiences will provide text and case material for course work. Historical grounding in the construction of cities in general, and Chester, PA, in particular, will be provided. Criteria for effective practices will be identified for the range of volunteer roles in community service projects.
0.5 or 1 credit.
Eligible for CBL.

EDUC 072. Humanitarianism: Educ & Conflict
Cross-listed as PEAC 072.
This course will introduce students to theory and practice of humanitarianism and, specifically, the provision of education as a humanitarian intervention-what practitioners call "education in emergencies." The course will delve into the foundations and history of humanitarianism and track how humanitarian intervention evolved over the course of the 20th century, broadening and deepening in scope. It will explore continuing debates over the appropriateness of education as a humanitarian intervention and examine what types of educational interventions are prioritized by humanitarian agencies, as well as the goals that those interventions are trying to achieve. For example, what is the relationship between education and conflict and how do education in emergencies providers intervene to alter that relationship? Students will have the opportunity to study specific examples of education in emergencies programming in countries such as Afghanistan, Colombia, Nepal, Sierra Leone, and
Syria, and to hear from guest speakers working in the field of education in emergencies. The course will encourage students to apply what they have learned to policy-oriented exercises.

Social sciences.
1 credit.
Eligible for PEAC.
Fall 2019. Kapit.
Fall 2020. Kapit.

EDUC 073. Creative Writing Outreach Course
(Cross-listed as ENGL 070L)
Where do arts, education and activism meet? In this course students will explore artistic affinities through creative writing activities and consider arts education and advocacy through diverse texts. Students will cultivate skills necessary to becoming Teaching Artists in imaginative writing at the elementary level through coursework as well as through volunteer placement in local schools. Topics covered include: creative curriculum development and presentation, educational climate for grades K-5 and teaching pedagogy.
Graded CR/NC.
Humanities.
1 credit.
Eligible for CBL.

EDUC 075. Introduction to Science Pedagogy: Theory and Practice
(Cross-listed as PHYS 095)
This course is designed for students who are interested in learning about issues surrounding science education, particularly at the high school and college level. How do students most effectively learn science? How can we facilitate this learning process as instructors and educators? How do we best assess whether such learning is happening? Since the course will integrate educational theory with concrete, practical strategies for becoming better teachers, it will be particularly relevant for students currently serving as Science Associates (or those who are interested in being Science Associates.) We will touch on issues related to students’ conceptual development and conceptual change, collaborative learning, as well as practical issues encountered when engaging in responsive, interactive teaching. This is a seminar course where students are responsible for weekly readings (1-2 papers per week from the education research literature), in class discussions, and brief written reflections. Students will be encouraged to bring to the discussion their own unique experiences as both science students and science teachers.
Instructor approval required for enrollment.
0.5 credit.

EDUC 076. Pre Student Teaching Practicum
In this field-based practicum for students pursuing teacher certification, students will progress from observing, to working with individuals and small groups, to planning and teaching a full class lesson. Students will be placed in a classroom for 4-5 hours/week at the same grade level and/or subject level at which they will student teach.
Supervision will be provided. Open to sophomores and juniors (and seniors pursuing the 9th semester) who plan to student teach.
Graded CR/NC.
0.5 - 1 credit.
Fall 2019. Staff.
Fall 2020. Staff.

EDUC 078SR. Schooling to Education: How Restorative Practices Can Transform Public Schools
This course will examine the ways Restorative and Transformative Justice approaches are, or could be, applied within under-resourced American public schools. Students will engage with both philosophical and practical considerations around justice and punishment within the context of public education. Through a combination of theoretical readings, case studies, and field placement within a public school, students will deepen their understanding of how practices underlying Restorative and Transformative Justice could work within the context of public education.
Social sciences.
1 credit.
Fall 2019. Staff.

EDUC 091A. Special Topics
With permission of the instructor, qualified students may choose to pursue a topic of special interest in education through a field project involving classroom or school practice.
Graded CR/NC.
0.5 - 1 credit.

EDUC 091B. Special Topics
With permission of the instructor, students may choose to pursue a topic of special interest by designing an independent reading or project that usually requires a comprehensive literature review, laboratory work, and/or field-based research.
0.5 - 1 credit.

EDUC 092. Curriculum and Methods
This seminar is taken concurrently with EDUC 093 by students pursuing teacher certification. The goal of this course is to explore praxis: the application of educational research and theory to the classroom practices of student teachers. Course content covers: lesson planning; classroom management; inquiry-oriented teaching strategies; questioning and discussion methods; literacy; the integration of technology and media; classroom-based and standardized assessments; instruction of special needs populations; multicultural, nonracist, and nonsexist education; and the legal rights of students and teachers. As part of the seminar, students take a series of special methods workshops, tailored to their content area. Required
EDUC 093. Practice Teaching
This course involves supervised full-time teaching in either secondary or elementary schools for students pursuing teacher certification. Students pursuing certification must take EDUC 092 concurrently. (Single-credit practice teaching may be arranged for individuals not seeking certification.)
Social sciences.
2 credits.
Fall 2019. Staff.

Social sciences.
1 - 2 credits.

Seminars
Honors seminars are open to all students. Priority is given to Honors majors and minors.

EDUC 121. Motivation and Learning
This seminar focuses on general developmental principles specific to understanding motivation and its relation to learning. Seminar foci include: (1) use of the literatures in cognitive, developmental, educational, and social psychology, the learning sciences, and neuroscience to identify key indicators of motivation and learning; (2) preparation of literature reviews on a topic of each student’s choice; and (3) collaborative work on an evaluation research project addressing a "live" issue or problem identified by a local teacher, school, or community organization. Honors candidates must take the seminar for two credits, course students may opt to take it as a 2- or a 1-credit seminar.
Honors candidates must take the seminar for two credits, course students may opt to take it as a 2- or a 1-credit seminar.
Prerequisite: EDUC 021 (EDUC/PSYC 021), or permission of the instructor.
Social sciences.
Writing course.
2 credits.

EDUC 131. Social and Cultural Perspectives on Education
In this seminar, students examine schools as institutions that both reflect and challenge existing social and cultural patterns of thought, behavior, and knowledge production. Seminar participants study and use qualitative methods of research and examine topics including the aims of schooling, parent/school/community interaction, schooling and identity development, and classroom and school restructuring.
Prerequisite: EDUC 014 and an additional course in the 060s.
Social sciences.
Writing course.
2 credits.
Fall 2020. Staff.

EDUC 133. Black Childhoods and Education
(Cross-listed as BLST 133)
This seminar examines the lives of Black children in U.S. schools. A sociohistorical and political perspective is taken to explore how Black childhoods, or the ‘impossibility’ thereof, has been conceived, resisted, and (re)imagined in public discourse, community organizations, social service agencies, and PreK-5 schools and classrooms. Intersectionality theory will be a prominent lens through which students interrogate the myriad ways race, class, and gender have served to marginalize Black children, particularly Black boys. The goal is to consider how schools can realize the promise and potential of a Black childhood.
Social sciences.
2 credits.
Eligible for BLST
Spring 2021. Staff.

EDUC 151. Literacies Research
This seminar explores theories and methods in the design and implementation of qualitative studies of literacy, evaluation of literacy programs and pedagogy, and study of literacy policies. Students review relevant literature and participate in a field-based collaborative research project or program evaluation.
Prerequisite: EDUC 014 and an additional course in the 040-060s. Either EDUC 042 or EDUC 045 is highly recommended.
Social sciences.
Writing course.
2 credits.
Eligible for CBL
EDUC 152. Immigration and Education
In this research seminar, students will study intersections between immigration and education policy and practice in the United States. Through readings on historical and contemporary immigration and schooling, students will consider the shifting goals and approaches to educating immigrant youth in the U.S. and the ways in which immigration policies impact the everyday experiences and future prospects of immigrant youth at different ages and educational stages. Students will conduct a literature review on an immigrant population of their choice and will develop qualitative research skills through a group research project on current immigration and education policy. Students’ research will culminate in a short film, piece of public scholarship, or journal article, depending on students’ interests and strengths.
Prerequisite: 2 Courses in Educational Studies or permission of the instructor. Eligible for LALS credit.
1 or 2 credits.

EDUC 153. Latinos and Education
Amidst talk of a border wall and "bad hombres", ramped up deportations, and rising unease about immigration and educational policy shifts to come, what can schools and teachers do to support Latino students and families? This Honors research seminar will explore the schooling experiences of Latinos in the U.S. with a special focus on confronting the challenges undocumented students face in the current era. Participants will examine questions around educational quality and access, language and culture, immigration and demographic change, curriculum and pedagogy, and community activism in relation to Latino education.
Prerequisite: EDUC 014 and one additional course in Educational Studies or Latin American and Latino Studies.
Social sciences.
1 or 2 credits.
Eligible for LALS

EDUC 161. Politics, Policy and Education
Policy, Politics & Education is an honors seminar that explores the intersections of social policy, urban politics, and urban schooling. Drawing on a racial-economic analytic framework we will study the geo-political formation of U.S. cities (Philadelphia serves as our primary case study), policy and social movement. We will also look at urban education policy and pedagogical practices. With this literature as a foundation, students will receive training in theories and methods of critical, participatory action research (CPAR). Over the course of the semester students work in small groups with a Philadelphia school or an education-focused based organization (CBO). In consultation with their partnering organization, student groups will develop and implement a CPAR project.
Prerequisite: EDUC 014 and an additional course in the 060s
Recommended: EDUC 068 and EDUC 041
2 credits.

EDUC 167. Education, Race, and the Law
This course explores the struggle for racial equality in education through examining federal and state lawsuits. We will look at changing ideologies about race and inequality, moving from the notion of "separate but equal" in Plessy v. Ferguson, to "separate as inherently unequal" in Brown v. Board of Education, to today’s school funding lawsuits which strategically sidestep the use of race as a legal argument. Students will develop theoretical frameworks, drawn from the fields of legal anthropology and critical race theory. Since this is a community-based learning (CBL) course, fieldwork and research is a major component of the course. In addition to readings, assignments, and class time, students will conduct interviews with lawyers and judges from past school funding lawsuits. Students will also partner with local groups that are active in the campaign for school funding to learn about and contribute to advancing racial equality in education.
Prerequisite: EDUC 014 and one other educational studies course.
Social sciences.
2 credits.
Eligible for CBL, BLST
Fall 2019. Liu.

EDUC 180. Honors Thesis
A 2-credit thesis is required for students completing special honors majors including educational studies. Thesis may be counted for 2 credits in educational studies or for 1 credit in educational studies and 1 credit in the other discipline in the student’s Honors Program.
Writing course.
2 credits.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.
The professional practice of engineering requires creativity and confidence in applying scientific knowledge and mathematical methods to solve technical problems of ever-growing complexity. The pervasiveness of advanced technology within our economic and social infrastructures demands that engineers more fully recognize and take into account the potential economic and social consequences that may occur when significant and analytically well-defined technical issues are resolved. A responsibly educated engineer must not only be in confident command of current analytic and design techniques but also have a thorough understanding of social and economic influences and an abiding appreciation for cultural and humanistic traditions. Our program supports these needs by offering each engineering student the opportunity to acquire a broad yet individualized technical and liberal education.

The Academic Program

As stated in the introduction of this catalog, Swarthmore seeks to help its students realize their full intellectual and personal potential, combined with a deep sense of ethical and social concern. Within this context, the Engineering Department seeks to graduate students with a broad, rigorous education, emphasizing strong analysis and synthesis skills. Our graduates will be well rounded and understand the broader impacts of engineering. They will have the skills to adapt to new technical challenges, communicate effectively, and collaborate well with others. The Engineering Department and its students provide to the College community a unique perspective that integrates technical and nontechnical factors in the design of solutions to multifaceted problems.

Objectives

Graduates of our program will be able to demonstrate the ability to:

- Be flexible and resourceful, able to learn and apply new knowledge, and to adapt successfully to novel circumstances and challenges.
- Communicate and work effectively with people with a broad variety of backgrounds at both a technical and nontechnical level.
- Apply engineering principles and methodology to the design and analysis of systems and to the solution of a wide variety of problems.
- Consider scientific, technologic, ethical, societal, economic, political and/or environmental issues in a local or global context, as appropriate.

Course Major

Engineering majors must complete requirements from two categories: (1) 12 engineering credits and (2) 8 credits in math and science, at least 3 in math and 3 in science. No courses taken at Swarthmore and intended to satisfy these departmental requirements may be taken credit/no credit, except those taken fall semester in the first year. The requirements are detailed below, with math and science discussed separately.

Math and Science Requirement

To fulfill the math and science requirement for the engineering major, students must receive at least eight credits in math and science (for this purpose science is defined as biological, chemical, and physical sciences). All of the courses used to fulfill the requirement must be acceptable for the minimal major in the offering department. The science courses must include two credits of college level physics, and one credit of either biology or chemistry. All but one of the science courses must include a substantial laboratory component. Students must have either placement or credit for: Elementary Single Variable Calculus (MATH 015); Further Topics in Single Variable Calculus (MATH 025 [025S]); Several-Variable Calculus
Engineering

(MATH 033, MATH 034, or MATH 035); and Differential Equations (MATH 043 or MATH 044). The minimal requirement is three credits in Mathematics. Students are recommended to take Linear Algebra (MATH 027 or MATH 028), which can count as a fifth math credit of the eight required math and science credits.

Engineering Requirement
Students majoring in engineering are required to take seven credits from the engineering core courses: Mechanics (ENGR 006), Electric Circuit Analysis (ENGR 011), Linear Physical Systems Analysis (ENGR 012), Experimentation for Engineering Design (ENGR 014), Fundamentals of Digital and Embedded Systems (ENGR 015) or Numerical Methods for Engineering Applications (ENGR 019), Thermofluid Mechanics (ENGR 041) and Engineering Design (ENGR 090). ENGR 019 may count as an engineering elective if taken after ENGR 015 (and vice versa).

In their first semester students typically will take 1.0 credit of engineering, choosing between ENGR 011 and ENGR 015 in accordance with their interests and high school preparation. A student with a very full schedule in the first semester can also opt to take no engineering courses until the spring without falling behind in degree requirements. Mechanics (ENGR 006) is usually taken in the spring of the first year. In the fall of the sophomore year students typically will finish the ENGR 011 and ENGR 015 sequence. Linear Physical Systems Analysis (ENGR 012) and Experimentation for Engineering Design (ENGR 014) are usually taken in the spring of the sophomore year. Numerical Methods for Engineering Applications (ENGR 019) can be taken in the spring of the sophomore, junior or senior year. Thermofluid Mechanics (ENGR 041) can be taken in the fall of the junior or senior year. Engineering Design (ENGR 090) is the culminating experience for engineering majors and must be taken by all majors in spring of senior year. Submission and oral presentation of the final project report in Engineering Design constitutes the comprehensive examination for engineering majors.

Elective Program for Course Majors
Each student devises a program of advanced work in the department in consultation with his or her advisor. The choice of electives is submitted for departmental approval as part of the formal application for a major in engineering during the spring semester of the sophomore year.

A student’s elective program may or may not conform to some traditional or conventional area of engineering specialization (e.g., computer, electrical, mechanical, or civil). The department therefore requires each plan of advanced work to have a coherent, well-justified program that meets the student’s stated educational objectives.

At most one Swarthmore course taught by a faculty member outside the Engineering Department can count as one of the 12 engineering credits required for the major.

Normally a maximum of 2.5 transfer credits that are preapproved by the Engineering Department will be accepted as partial fulfillment of the 12 engineering credits required for the major. Exceptions to this rule include students who transfer to Swarthmore and others with special circumstances; the amount of credit accepted in their cases will be determined on a case-by-case basis by the department chair.

Students should be aware that most lecture courses at other institutions carry only 0.75 Swarthmore credits, unless they include a full lab sequence. Students who wish to receive credit for courses taken at other institutions, including those taken abroad, as partial fulfillment of the requirements for the major should consult their academic advisors and the chair of the Engineering Department as early as possible to ensure that all requirements are met.

The courses available for traditional elective programs include the following:

- **Electrical engineering group.** Electronic Circuit Analysis, Physical Electronics, Electromagnetism, Communication Systems, Digital Signal Processing, and Control Theory and Design. Students having an interest in digital systems might replace one or more of these courses with Embedded Systems, Principles of Computer Architecture, Mobile Robotics or Computer Vision.

- **Civil and environmental engineering group.** Mechanics of Solids, Structural Analysis, Geotechnical Engineering: Theory and Design, and Water Quality and Pollution Control. Additional courses include Operations Research and Environmental Systems for those interested in the environment or urban planning; or Structural Design for those interested in architecture and construction. Other recommended courses include Solar Energy Systems and Fluid Mechanics.
Course Minor

Academic Advising
Students interested in pursuing a minor must have a faculty member within the Engineering Department to advise them. If possible, this faculty member should have interests that overlap the area of the minor. Students who encounter difficulties in identifying an advisor should seek the assistance of the chair of the Engineering Department. Students who plan to minor in engineering should regularly consult their engineering advisors. The sophomore papers of engineering minors should indicate the plan to minor and the courses chosen to fulfill the minor.

Requirements
A minimum of 5 credits in engineering is required, of which at least 2 but not more than 3 must be core courses (ENGR 006, ENGR 011, ENGR 012, ENGR 014, ENGR 015, ENGR 019 or ENGR 041, but not ENGR 090). The remainder will be selected from elective course offerings within the department. Only those electives that count toward an engineering major can be counted toward a minor. No courses taken at Swarthmore and intended to satisfy these departmental requirements, except those taken fall semester in the first year, may be taken credit/no credit.

At most one Swarthmore course taught by a faculty member outside the Engineering Department can count as one of the 5 engineering credits required for the minor.

Supporting work in mathematics, physics, chemistry, and computer science is necessary only when designated as a prerequisite to an individual engineering course.

No directed readings may be used as one of the 5 credits for the minor.

A maximum of 1 transfer credit that is preapproved by the Engineering Department will be accepted as partial fulfillment of the minor requirements. Transfer credits will not count for any of the three courses used to fulfill the core course requirement of the minor. No culminating experience will be required. Only students pursuing the major in engineering may enroll in ENGR 090.

Areas of Study
Although packaged selections of courses will be suggested as options for those interested in an engineering minor, students may tailor their programs to meet individual needs and interests in consultation with their advisers.

Honors Major
Students with a B+ average among courses in the Division of Natural Sciences and Engineering may apply for an honors major in engineering. This B+ average must be maintained through the end of the junior year to remain in the Honors Program. A listing of preparations supported by existing engineering courses is appended. Credits from approved attachments or special topics courses may substitute for not more than 1 credit within any preparation.

Honors majors must complete the same requirements as course majors in engineering.

The honors major in engineering is a four-examination program that includes three preparations in engineering (the major) and one minor preparation. Each area comprises 2 credits of work. The preparations may include ENGR 090 and/or one other core course.

The minor preparation must comprise at least 2 credits of work approved by any department or program outside engineering.

Each major candidate must accumulate 12 credits in engineering, including ENGR 090, and the same number of science and math credits as required of course majors.

If one of the major preparations includes ENGR 090, it must be paired with an appropriately related upper-level engineering elective or a 1-credit honors thesis to be completed in the fall semester of senior year. Honors thesis credit may not substitute for any of the 12 engineering credits required for the bachelor of science. Candidates who choose an honors thesis will complete at least 13 credits in engineering and 33 across the College. The two additional major preparations must each comprise two related, upper-level engineering electives. A précis of not more than 12 pages (including tables and figures) of each candidate’s ENGR 090 project must be submitted by the end of the 10th week of the spring semester for mailing to the relevant honors examiner. The final ENGR 090 report will not be mailed to any examiner but may be brought to the oral examinations.

Senior honors study by engineering majors is not required.

Honors Minor
Senior honors study is required for all engineering honors minors, except those who are also engineering course majors. For those not majoring in engineering, the senior honors study is the culminating experience. Course majors will not take senior honors study because ENGR 090 serves as the culminating experience.

Every engineering honors minor preparation must include two related upper-level engineering electives for which all prerequisites must be satisfied. If the student is not also an engineering course major, then senior honors study is also required. Credits from official attachments or special topics courses in engineering may substitute for not more than one of the two upper-level courses within an engineering minor preparation.
Prerequisites to upper-level engineering electives may be waived by the department, depending on the student’s documentation of equivalent work in another department at the time of application.

Prospective engineering majors and minors receive more specific information about Course and Honors Programs from the department each December. Additional information is also available on the Engineering Department website.

Application Process Notes for the Major or the Minor

A form to aid in planning a proposed program of study is available on the department website. This form must be completed and submitted as part of the Sophomore Plan. All engineering courses are to be listed on this form in the appropriate semesters. Check prerequisites carefully when completing the program planning form. Courses, prerequisites and their availability are listed in the College Catalog. Note that many courses are offered yearly, others in alternate years, and some only when demand and staffing permit. An updated prospective two-year schedule is also available on the website.

Courses Readily Available to Students Not Majoring or Minoring in Engineering

Problems in Technology (ENGR 003), Art and Engineering of Structures (ENGR 007) and Fundamentals of Food Engineering (ENGR 010) are designed for students contemplating only an introduction to engineering. Mechanics (ENGR 006) is primarily for prospective majors, but other interested students, particularly those preparing for careers in architecture or biomechanics, are encouraged to enroll. Environmental Protection (ENGR 004A), Operations Research (ENGR 057), Solar Energy Systems (ENGR 035), Water Quality and Pollution Control (ENGR 063) and Environmental Systems (ENGR 066) appeal to many students majoring in other departments, particularly those pursuing an environmental studies major or minor. Students interested in computers, including computer science majors or minors, may wish to consider Fundamentals of Digital and Embedded Systems (ENGR 015), Principles of Computer Architecture (ENGR 025), Computer Vision (ENGR 027), and Mobile Robotics (ENGR 028) and Computational Optics (ENGR 030). Students majoring in the physical sciences or mathematics may enroll routinely in advanced engineering courses.

Note that Problems in Technology, Environmental Protection, Art and Engineering of Structures, and Fundamentals of Food Engineering are not admissible as technical electives within an engineering major or minor but may be taken as free electives subject to the 20-course rule.

Off-Campus Study

Engineering majors or minors considering off-campus study should consult their academic advisors as early as possible to ensure that all requirements are met.

Students should obtain advance approval from the department before taking any course off-campus (including courses at the University of Pennsylvania) intended to count towards the major or minor. The faculty member in the department whose teaching/research area overlaps most closely with the course will review the course syllabus and other available information in consultation with the department chair.

Most Engineering courses at other institutions carry only 0.75 Swarthmore credits unless they include a full lab sequence.

Swarthmore’s Central European Program in Krakow Poland

A program of study is available, normally in the spring of the junior year, at the Technical University of Krakow, Poland, for students interested in an engineering study abroad experience in a non-English-speaking country. Students take courses taught in English consisting of two engineering electives and a survey course Environmental Science and Policy in Central and Eastern Europe, plus an intensive orientation course on Polish language and culture provided by the Jagiellonian University. Coordinator: Professor McGarity.

Engineering Courses

ENGR 003. Problems in Technology
(Cross-listed as ENVS 073)

For students not majoring in science or engineering, this course will concentrate on the automobile and its impact on society. Class time will cover the principles of operation of vehicles and student led discussions on related technical, political, social, and economic issues. Possible laboratory topics include evaluating alternative power systems (e.g., solar, hydrogen, and electric); investigating alternative fuels; and understanding existing automotive components. Enrollment is limited. Usually offered in alternate years. Natural sciences and engineering practicum. Writing course.

1 credit.

Eligible for ENVS

Fall 2019. Macken.

ENGR 004A. Environmental Protection

This course covers fundamentals of analysis for environmental problems in the areas of water pollution, air pollution, solid and hazardous wastes, water and energy supply, and resource depletion, with an emphasis on technological solutions. Topics include scientific concepts necessary to understand local and global pollution problems, pollution control and renewable energy
Engineering

Technologies, public policy developments related to regulation of pollutants, and methods of computer-based systems analysis for developing economically effective environmental protection policies.

Natural sciences and engineering.

1 credit.

ENGR 006. Mechanics
This course covers fundamental areas of statics and dynamics. Elementary concepts of deformable bodies are explored, including stress-strain relations, flexure, torsion, and internal pressure. Laboratory work includes a MATLAB workshop, experiments on deformable bodies, and a truss-bridge team design competition.

Prerequisite: MATH 015 and PHYS 003 strongly recommended.

Natural sciences and engineering practicum.

Lab required.

1 credit.

ENGR 007. Art and Engineering of Structures
This introduction to the basic principles of structural analysis and design includes an emphasis on the historical development of modern structural engineering. It is suitable for students planning to study architecture or architectural history, or who have an interest in structures. This course includes a laboratory and is designed for students not majoring in engineering. Usually offered in alternate years.

Natural sciences and engineering.

1 credit.

Fall 2020. Siddiqui.

ENGR 009. Engineering and Scientific Applications of Calculus
This half-credit course will focus on mathematical applications of single variable calculus, mainly from engineering and physics; it may also include some examples from other sciences if there is student interest. In addition, ENGR 009 will include a review of relevant pre-calculus topics. It is designed to give capable and hard-working students the best chance to excel in calculus, and is recommended for students who are interested in real-world contexts where calculus is used, including (but not limited to) potential science and engineering majors.

The course will meet twice weekly for a total of 2.5 hours, and have little outside work associated with it. Most of the time in class will be spent solving problems and doing group work. ENGR 009 may not be used to fulfill the requirements for the engineering major or minor, and is available only to students taking MATH 015 concurrently.

0.5 credit.

ENGR 010. Fundamentals of Food Engineering
In this course, we will study the scientific principles that will enable students to understand why a variety of ingredients, recipes, and cooking processes function the way they do, and why they sometimes don’t work as well as expected. The course will include lectures, demonstrations, and laboratory exercises. There are no prerequisites for this course, and it is open to all students, but it cannot be used to fulfill the requirements for a major or a minor in engineering.

Natural sciences and engineering practicum.

Lab required.

1 credit.

ENGR 011. Electrical Circuit Analysis
The analysis of electrical circuits is introduced, including resistors, capacitors, inductors, op-amps, and diodes. The student will learn to develop linear differential equations to model electrical circuits, and to solve them for voltages and currents. Solutions will be formulated both in the time domain and in the frequency domain.

Prerequisite:

Corequisite: MATH 025 or its equivalent, or permission of the instructor.

Natural sciences and engineering practicum.

This course includes a laboratory.

1 credit.

Fall 2019. Molter.

Fall 2020. Molter, Piovoso.

ENGR 012. Linear Physical Systems Analysis
Engineering phenomena that may be represented by linear, lumped-parameter models are studied. This course builds on the mathematical techniques learned in ENGR 011 and applies them to a broad range of linear systems, such as those in the mechanical, thermal, fluid, and electromechanical domains. Techniques used include Laplace Transforms, Fourier analysis, and Eigenvalue/Eigenvector methods. Both transfer function and state-space representations of systems are studied.

Prerequisite: ENGR 011 or the equivalent or permission of the instructor.

Natural sciences and engineering practicum.

Lab required.

1 credit.

ENGR 014. Experimentation for Engineering Design
Students are introduced to measurement systems, instruments, probability, statistical analysis, measurement errors, and their use in experimental design, planning, execution, data reduction, and analysis. Techniques of hypothesis testing, confidence intervals, and single and multivariable linear regression are covered.
ENGR 015. Fundamentals of Digital and Embedded Systems
This course will introduce students to the fundamentals of digital and embedded systems. Digital topics covered will include Boolean algebra, binary arithmetic, digital representation of data, gates, and truth tables. Students will also learn basic programming skills, and apply those skills to build embedded systems. Embedded topics include the link between hardware and software, analog to digital and digital to analog systems, and an introduction to actuators (LED’s, speakers, servo motors, etc.) and sensors (buttons, accelerometers, microphones, etc.). In the laboratory students will implement a variety of systems with physical inputs and outputs. The course concludes with a self-chosen project.
Natural sciences and engineering practicum.
This course includes a laboratory.
1.0
Eligible for DGHU
Fall 2019. Delano, Cheever.
Fall 2020. Delano, Cheever.

ENGR 019. Numerical Methods for Engineering Applications
(Cross-listed as MATH 024)
This course is geared towards students who want to know how to transform a set of equations on a page into a working computer program. Potential topics include root finding, discrete and continuous optimization, gradient descent, solution of linear systems, finite element methods, and machine learning. We will also discuss how real numbers are represented by computers, especially insofar as they affect precision and accuracy of calculations. Techniques will be applied in a series of projects focused on engineering applications. Prerequisite: MATH 025 or its equivalent, or permission of the instructor.
Natural sciences and engineering practicum.
1 credit.
Fall 2020. Zucker, Moser.

ENGR 022. Operating Systems
(Cross-listed as CPSC 045)
Natural sciences and engineering practicum.
Lab required.

ENGR 023. Compilers
(Cross-listed as CPSC 075)
Natural sciences and engineering practicum.

ENGR 025. Principles of Computer Architecture
(Cross-listed as CPSC 052)
This course covers the physical and logical design of a computer. Topics include current microprocessors, CPU design, RISC and CISC, pipelining, superscalar processing, caching, virtual memory, assembly and machine language, and multiprocessors. Labs cover performance analysis via simulation and microprocessor design using CAD tools.
Prerequisite: ENGR 015, CPSC 031, or CPSC 035
Natural sciences and engineering practicum.
1 credit.

ENGR 026. Computer Graphics
(Cross-listed as CPSC 040)
Natural sciences and engineering practicum.
Lab required.
1 credit.

ENGR 027. Computer Vision
(Cross-listed as CPSC 072)
Computer vision studies how computers can analyze and perceive the world using input from imaging devices. Topics include line and region extraction, stereo vision, motion analysis, color and reflection models, and object representation and recognition. The course will focus on object recognition and detection, introducing the tools of computer vision in support of building an automatic object recognition and classification system. Labs will involve implementing both offline and real-time object recognition and classification systems.
Prerequisite: ENGR 019 or CPSC 035. MATH 027 or MATH 028 is strongly recommended.
Natural sciences and engineering practicum.
1 credit.
Eligible for COGS.

ENGR 028. Mobile Robotics
(Cross-listed as CPSC 082)
This course addresses the problems of controlling and motivating robots to act intelligently in dynamic, unpredictable environments. Major topics will include mechanical design, robot perception, kinematics and inverse kinematics, navigation and control, optimization and learning, and robot simulation techniques. To demonstrate these concepts, we will be looking at mobile robots, robot arms and positioning devices, and virtual agents. Labs will focus on programming robots to execute tasks and to explore and interact with their environment.
Prerequisite: ENGR 019 or CPSC 035. Recommended: MATH 027 or MATH 028
Natural sciences and engineering practicum.
Lab required.
1 credit.
Eligible for COGS
ENGR 029. Embedded Systems
Connected systems that used embedded microcontrollers are becoming more and more pervasive, with applications in the car, home, and body. This course will explore how to design embedded systems using a reconfigurable microcontroller system. Topics will include biomedical signal acquisition and processing, numerical computation, and audio/video signal processing. This course includes a laboratory. Prerequisite: ENGR 015 or permission of the instructor.

ENGR 030. Computational Optics
This course provides an introduction to computational optics and imaging, where camera hardware is co-designed with processing algorithms. Topics may include: geometrical and wave optics, PSF engineering, light field imaging, compressed sensing, time-of-flight imaging, Fourier optics, super-resolution, medical imaging, and virtual and augmented reality. Prerequisite: ENGR 019 highly recommended. Natural Science and engineering practicum. Lab included. 1 credit.

ENGR 035. Solar Energy Systems
(Cross-listed as ENVS 077) Fundamental physical concepts and system design techniques of solar energy systems are covered. Topics include solar geometry, components of solar radiation, analysis of thermal and photovoltaic solar collectors, energy storage, computer simulation of system performance, computer-aided design optimization, and economic feasibility assessment. This course includes a laboratory. Offered in the fall semester of alternate years. Prerequisite: PHYS 004, MATH 015, or the equivalent or the permission of the instructor. Natural sciences and engineering practicum. 1 credit.

ENGR 041. Thermofluid Mechanics
This course introduces macroscopic thermodynamics: first and second laws, properties of pure substances, and applications using system and control volume formulation. Also introduced is fluid mechanics: development of conservation theorems, hydrostatics, and the dynamics of one-dimensional fluid motion with and without friction. Prerequisite: ENGR 006, ENGR 011, ENGR 012 and ENGR 014, or the equivalent. Natural sciences and engineering practicum.

ENGR 052. Algorithmic Design of Structures
Topics include computer-aided manufacturing (CAM) and digital fabrication technologies such as computer numerical controlled (CNC) machining and laser cutting. The course will provide a grounding in basic computational geometry relevant to CAM and CNC, focusing on the connections between tool paths, cutting tool types, and the shapes of the parts to be fabricated. Other areas of study include the effects of tool shape (e.g. rake angle), number of cutting surfaces, and feeds & speeds on machining quality and surface finish. Students will write programs implementing generative design techniques to directly emit sculptures and models in industry-standard file formats such as SVG, STL, and G-code that can be fabricated on equipment at Swarthmore. Prerequisite: Either ENGR 015A and ENGR 015B, or ENGR 019, or permission of the instructor. MATH 027 or MATH 028 is recommended. Natural sciences and engineering practicum. Lab required. 1 credit.

ENGR 053. Inclusive Engineering Design
Technology created by humans reflects our biases and priorities. Engineering a better world requires an interrogation of how we design. This course will combine critical works in technology studies with hands-on, student directed design projects. The course will be divided into three modules that will investigate the relationship between design and bodies, identities, and society. Readings will draw from fields such as disability studies and science and technology studies. Students will apply design methods such as universal design, human centered design, and critical design. This course is open to both Engineering students and non-majors with some previous design experience, such as Computer Science or Art majors. Prerequisite: Any course involving design of physical objects or software, for example: ENGR 015B, ENGR 006, CPSC 071, ARTT 050, THEA 004A, THEA 004B, THEA 004C, or permission of the instructor. Natural Sciences and engineering practicum. 1.0 credit.

ENGR 055. Statistical Signal Processing
A first-course on theory and applications of statistical signal processing. Topic will benefit students interested in the design and analysis of signal processing systems, i.e., to extract information from noisy signals - radar engineer,
sonar engineer, geophysicist, oceanographer, biomedical engineer, communications engineer, economist, statistician, physicist, etc. The course provides numerous examples, which illustrate both theory and applications for problems such as high-resolution spectral analysis, system identification, digital filter design, adaptive beamforming and noise cancellation, and tracking and localization. Prerequisite: ENGR 014 and MATH 027

Natural science and engineering.

ENGR 056. Modeling and Optimization for Engineering
What is the optimal way to direct light into the body to destroy a tumor? What is the lightest bridge we can construct without the beams breaking? To answer such questions, students will learn how to generate a computer-based model of the physics, and then use optimization to make design decisions. The majority of the course will focus on optimization, and topics may include: convex optimization, data-driven optimization, algorithms, and deep learning.

Prerequisite: One of MATH 033, MATH 034, or MATH 035 is required. Either ENGR 019 or MATH 056 is recommended. Students should be familiar with basic programming.

Natural sciences and engineering.

ENGR 057. Operations Research
(Cross-listed as ECON 032)
This course introduces students to mathematical modeling and optimization to solve complex, multivariable problems such as those relating to efficient business and government operations, environmental pollution control, urban planning, and water, energy, and food resources.

Introduction to the AMPL computer modeling language is included. A case study project is required for students taking the course as a natural sciences and engineering practicum (ENGR 057).

The project is optional for students taking the course as ECON 032.

Prerequisite: familiarity with matrix methods, especially solution of simultaneous linear equations, i.e., elementary linear algebra; but a full course in linear algebra is not required.

Natural sciences and engineering practicum only if taken as ENGR 057

Fall 2019. Ganapati.

ENGR 058. Control Theory and Design
This introduction to the control of engineering systems includes analysis and design of linear control systems using root locus, frequency response, and state space techniques. It also provides an introduction to digital control techniques, including analysis of A/D and D/A converters, digital controllers, and numerical control algorithms.

Prerequisite: ENGR 012 or permission of the instructor.

Natural sciences and engineering practicum.

Lab included.

1 credit.

Fall 2020. Siddiqui.

ENGR 059. Mechanics of Solids
Internal stresses and changes of form that occur when forces act on solid bodies or when internal temperature varies are covered as well as state of stress and strain, strength theories, stability, deflections, photo elasticity, and elastic and plastic theories.

Students are required to attend at the most four full labs the first half of the semester and the second half of the semester is self-scheduled.

Prerequisite: ENGR 006 or the equivalent.

Natural sciences and engineering practicum.

Lab included.

1 credit.

Fall 2019. Siddiqui.

ENGR 060. Structural Analysis
This course covers fundamental principles of structural mechanics including statically determinate and intermediate analysis of frames and trusses, approximate analysis of indeterminate structures, virtual work principles, and elements of matrix methods of analysis and digital computer applications.

Offered in the fall semester of alternate years.

Prerequisite: ENGR 006, or permission of the instructor.

Natural sciences and engineering practicum.

Lab included.

1 credit.

Fall 2019. Siddiqui.

ENGR 061. Geotechnical Engineering: Theory and Design
Soil and rock mechanics are explored, including soil and rock formation, soil mineralogy, soil types, compaction, soil hydraulics, consolidation, stresses in soil masses, slope stability, and bearing capacity as well as their application to engineering design problems.

Offered in the fall semester of alternate years.

Prerequisite: Grade of B or better in ENGR 006 or permission of the instructor.

Natural sciences and engineering practicum.

Lab included.

1 credit.

ENGR 062. Structural Design
This course covers the behavior and design of steel and concrete structural members. Topics will include a discussion of the applicable design codes and their applications to structural design.

Normally offered in the spring semester of alternate years.
Prerequisite: ENGR 006 or permission of the instructor. Natural sciences and engineering practicum. Lab included. 1 credit.

**ENGR 063. Water Quality and Pollution Control**
Students will study elements of water quality management and treatment of wastewaters through laboratory and field measurements of water quality indicators, analysis of wastewater treatment processes, sewage treatment plant design, computer modeling of the effects of waste discharge, storm water, and nonpoint pollution on natural waters, and environmental impact assessment. Offered in the fall semester of alternate years. Prerequisite: CHEM 010, MATH 025, or the equivalent or permission of the instructor. Natural sciences and engineering practicum. 1 credit.

**ENGR 066. Environmental Systems**
Students will explore mathematical modeling and systems analysis of problems in the fields of water resources, water quality, air pollution, urban planning, and public health. Techniques of optimization including linear and integer programming are used as frameworks for modeling such problems. Dynamic systems simulation methods and a laboratory are included. Offered in the spring semester of alternate years. Prerequisite: Recommended: ENGR 057 or the equivalent, or the permission of the instructor. Natural sciences and engineering practicum. 1 credit.

**ENGR 071. Digital Signal Processing**
Students will be introduced to difference equations and discrete-time transform theory, the Z-transform and Fourier representation of sequences, and fast Fourier transform algorithms. Discrete time transfer functions and filter design techniques are also introduced. This course introduces the architecture and programming of digital signal processors. Prerequisite: ENGR 012 or permission of the instructor. Natural sciences and engineering practicum. 1 credit.

**ENGR 072. Electronic Circuit Applications**
The student will design electronic circuits that sense the surroundings (light, temperature, sound..), process the signal, and respond via an actuator (motor, light..) or communication to a computer. Students will design and debug circuits, lay out printed circuit boards using CAD software, and solder the components onto the board. Electronic designs include those with diodes, op-amps for amplification and filtering of electronic signals, and power MOSFET transistors used as switching devices for actuators. Students will program microcontrollers, including on-chip peripherals, and write code to process interrupts. Mixed signal devices (A/D and D/A converters) are introduced and used throughout the course. Prerequisite: ENGR 012 or permission of the instructor. Natural sciences and engineering practicum. Lab required. 1 credit.
Fall 2019. Cheever.

**ENGR 073. Physical Electronics**
Topics include the physical properties of semiconductor materials and semiconductor devices; the physics of electron/hole dynamics; band and transport theory; and electrical, mechanical, and optical properties of semiconductor crystals. Devices examined include diodes, transistors, FETs, LEDs, lasers, and pin photo-detectors. Modeling and fabrication processes are covered. Offered in the spring semester of alternate years. Prerequisite: ENGR 011 or PHYS 008 or permission of the instructor. Natural sciences and engineering practicum. Lab included. 1 credit.

**ENGR 074. Semiconductor Devices and Circuits**
This course explores the operation and application of semiconductor devices, including diodes, transistors (bipolar and field effect) and other devices. This includes terminal characteristics of semiconductor devices and circuits, including small signal models of single and multi-transistor amplifiers, and transistor-level modeling of operational amplifiers. The course also examines the speed and input-output characteristics of logic devices, the design of power circuits and problems of stability and oscillation in electronic circuits. Prerequisite: ENGR 011 or permission of the instructor. 1 credit.

**ENGR 075. Electromagnetic Theory I**
The static and dynamic treatment of engineering applications of Maxwell’s equations will be explored. Topics include macroscopic field treatment of interactions with dielectric, conducting, and magnetic materials; analysis of forces and energy storage as the basis of circuit theory; electromagnetic waves in free space and guidance within media; plane waves and modal propagation; and polarization, reflection, refraction, diffraction, and interference. The lab
Engineering

will include optical applications using lasers, fiber and integrated optical devices, modulators, nonlinear materials, and solid-state detectors. Offered in the fall semester of alternate years. Prerequisite: ENGR 012, or PHYS 008, or permission of the instructor.

Natural sciences and engineering practicum. 1 credit. Fall 2020. Molter.

ENGR 076. Electromagnetic Theory II
Advanced topics in optics and microwaves, such as laser operation, resonators, Gaussian beams, interferometry, anisotropy, nonlinear optics, modulation and detection. Laboratories for both courses will be oriented toward optical applications using lasers, fiber and integrated optical devices, modulators, nonlinear materials, and solid-state detectors. The lab will include optical applications using lasers, fiber and integrated optical devices, modulators, nonlinear materials, and solid-state detectors. Offered as demand and staffing permits. Prerequisite: ENGR 075 or a physics equivalent. Natural sciences and engineering practicum. Lab included. 1 credit. Fall 2020. Molter.

ENGR 078. Communication Systems
Theory and design principles of analog and digital communication systems are explored. Topics include frequency domain analysis of signals; signal transmission and filtering; random signals and noise; AM, PM, and FM signals; sampling and pulse modulation; digital signal transmission; PCM; coding; and information theory. Applications to practical systems such as television and data communications are covered. Offered in the spring semester of alternate years. Prerequisite: ENGR 012 or permission of the instructor. Natural sciences and engineering practicum. Lab included. 1 credit. Spring 2020. Macken.

ENGR 081. Thermal Energy Conversion
This course covers the development and application of the principles of thermal energy analysis to energy conversion systems. The concepts of availability, ideal and real mixtures, and chemical and nuclear reactions are explored. Offered in the spring semester of alternate years. Prerequisite: ENGR 041 or permission of the instructor. Natural sciences and engineering practicum. Lab included. 1 credit. Spring 2021. Macken.

ENGR 083. Fluid Mechanics
Fluid mechanics is treated as a special case of continuum mechanics in the analysis of fluid flow systems. Conservation of mass, momentum, and energy are covered along with applications to the study of inviscid and viscous, incompressible, and compressible fluids. Offered in the spring semester of alternate years. Prerequisite: ENGR 041 or permission of the instructor. Natural sciences and engineering practicum. Lab included. 1 credit. Spring 2020. Macken.

ENGR 084. Heat Transfer
Students are introduced to the physical phenomena involved in heat transfer. Analytical techniques are presented together with empirical results to develop tools for solving problems in heat transfer by conduction, forced and free convection, and radiation. Numerical techniques are discussed for the solution of conduction problems. Offered in the fall semester of alternate years. Prerequisite: ENGR 041 or permission of the instructor. Natural sciences and engineering practicum. Lab included. 1 credit. Fall 2020. Macken.

ENGR 086. Dynamics of Mechanical Systems
Rigid-body kinematics and kinetics in plane and three-dimensional motion; dynamics using energy, momentum, and variational methods of analysis. Application to electrodynamic systems and transducers. Matlab is used as a modeling tool for describing the linear and nonlinear behavior of the systems considered. Prerequisite: ENGR 006, ENGR 011 and ENGR 012; MATH 034/MATH 035 and MATH 043/MATH 044; or permission of the instructor. Natural sciences and engineering practicum. Lab included. 1 credit. Spring 2020. Everbach.

ENGR 090. Engineering Design
Students work on a design project that is the culminating exercise for all senior engineering majors. Students investigate a problem of their choice in an area of interest to them under the guidance of a faculty member. A comprehensive written report and an oral presentation are required. This class is available only to engineering majors. Natural sciences and engineering practicum. Writing course Spring only. 1 credit. Fall 2019. Staff. Spring 2020. Staff. Spring 2021. Staff.

ENGR 091. Biomedical Signals
This course explores methods for the analysis of biomedical signals. The types of signals discussed in this course include those that emanate from electrical activity in the body, such as
electrocardiograms (ECG), electroencephalograms (EEG), and electromyograms (EMG). In addition, this course will examine signals generated from external sources such as image data from x-rays, computed tomography (CT), magnetic resonance images (MRI), and ultrasound. Methods of analysis for biomedical signals and images studied in this course include standard digital signal processing techniques as well as newer time-frequency domain methods such as the wavelet transform. Applications of these methods include filtering, denoising, spectral estimation, and classification. Topics such as the Radon transform, used in tomographic reconstruction of image data, will also be covered.  
Prerequisite: ENGR 012 or permission of the instructor.  
Natural sciences and engineering practicum.  
Lab and Project included.  
1 credit.  

**ENGR 093. Directed Reading or Project**  
Qualified students may do special work with theoretical, experimental, or design emphasis in an area not covered by regular courses with the permission of a willing faculty supervisor in the department.  
The student and faculty member will agree on a plan and scope of work at the beginning of the term. The student will typically meet weekly with the advisor and will produce written documentation of their work. Directed readings that count for the major are normally expected to include a lab, substantial project, or the equivalent.  
1 credit.  

**ENGR 096. Honors Thesis**  
In addition to ENGR 090, an honors major may undertake an honors thesis in the fall semester of the senior year with approval of the department and a faculty advisor. A prospectus of thesis problem must be submitted and approved not later than the end of junior year.  
Offered only with departmental approval and faculty supervision.  
1 credit.  

**ENGR 199. Senior Honors Study**  
Senior honors study is available only for engineering minors and must include at least 0.5 credit as an attachment to one of the courses in the engineering preparation. Offered only with departmental approval and faculty supervision.  
This course may be taken only in the spring of the senior year.  
0.5 or 1 credit.  

*Courses numbered ENGR 004A-004Z  
These courses serve all students interested in environmental science, technology, and policy. Some may meet requirements for a major or minor in environmental studies and special majors, and all carry NSE distribution credit (though not necessarily NSEP). Similar courses are available through the College’s off-campus study programs in Central Europe and Cape Town, South Africa. These courses may not be used to satisfy requirements for the major or minor in engineering.  

**Preparation for Honors Examinations**  
The department will arrange honors examinations in the following areas to be prepared for by the combinations of courses indicated. Other preparations are possible by mutual agreement.  
**Communications and Electromagnetic Fields**  
Communication Systems, Electromagnetic Theory  
**Communications and Signal Processing**  
Communication Systems, Digital Signal Processing  
**Computer Architecture**  
**Electromagnetic Theory**  
Electromagnetic Theory I, Electromagnetic Theory II  
**Electronics**  
Electronic Circuit Applications, Physical Electronics  
**Environmental Systems**  
Operations Research, Environmental Systems  
**Heat Transfer and Fluid Mechanics**  
Heat Transfer, Fluid Mechanics  
**Integrated Electronics**  
Electronic Circuit Applications, Embedded Systems  
**Mobile Robotics and Machine Vision**  
Computer Vision, Mobile Robotics  
**Signals and Systems**  
Control Theory and Design, Digital Signal Processing or Statistical Signal Processing  
**Solar Thermal Systems**  
Solar Energy Systems, Thermal Energy Conversion or Heat Transfer  
**Structural Analysis and Design**  
Structural Analysis, Structural Design  
**Structural Mechanics**  
Mechanics of Solids, Structural Analysis  
**Structures and Soil**  
Structural Analysis, Geotechnical Engineering: Theory and Design  
**Thermal Energy Conversion and Heat Transfer**  
Thermal Energy Conversion, Heat Transfer  
**Visual Information Systems**  
Computer Graphics
Engineering

Computer Vision
Computational Optics
**Water Quality and Fluid Mechanics**
Water Quality and Pollution Control
Fluid Mechanics
**Water Quality and Supply Systems**
Water Quality and Pollution Control
Environmental Systems
In the Department of English Literature, we study how literature shapes experience. Students learn how to read closely, think inventively, and write creatively and analytically. We offer classes on a wide range of topics, from novels to new media, from critical theory to popular culture, from poetry to digital humanities. In these classes, students explore how the form of a text illuminates its meaning; how literature both reflects and challenges structures of race, gender, sexuality, and class; how historical circumstances enable imaginative expression and how imaginative expression changes history. Our curriculum emphasizes writing in English from the US, the UK, South Asia, the Caribbean, Ireland, and South Africa, and educates students in methods including critical race and ethnic studies, feminist studies, environmental studies, and queer studies. We teach students how to analyze a world of texts and to use their voices in it.

Students are eligible for paid internships during the summer to produce original creative writing projects and pursue guided research in literary study. In collaboration with faculty, students also work on a variety of digital humanities projects based at Swarthmore and at archives and universities nationwide. Along with a vibrant public culture of lectures and events featuring prominent novelists, poets, and cultural theorists, the department creates opportunities for students to present their research to peers and faculty on campus, as well as at regional and national academic conferences. Majors and minors in English Literature succeed in careers as diverse as law, education, medicine, finance, journalism, publishing, academia, and community organizing.

First course recommendations
We recommend that students begin their study of English Literature at Swarthmore by taking a First-Year Seminar or a course labeled "Gateway". Unless noted, other courses in our department assume some familiarity with the discipline without requiring a formal prerequisite. Courses at the 100 level and some creative writing courses require departmental permission for enrollment.

Applying for the Major or the Minor
The minimum requirement for consideration for the major or minor is the completion of at least two graded courses in English Literature at Swarthmore, other than Composition, Journalism, or Creative Writing credits. Decisions regarding applications will be deferred until two graded literature courses are completed. Applications are considered in the spring of the sophomore year. Each student will, under the guidance of a faculty advisor, present a reasoned plan of study for the last two years. This plan will be submitted to the department and will be the basis of the departmental discussion of the student’s application. The plan will include a list of proposed courses and seminars that will satisfy the requirements for either the Course or Honors Program and a rationale for the program of study. Applications for the major or minor are normally considered at a meeting of all department members. Each student is discussed individually. The department has never established a minimum grade point average, nor are certain courses weighted in this discussion more heavily than others. A record of less than satisfactory work in
English Literature

English would certainly give us pause, however, unless it were attributable to circumstances other than academic ability. Students who want to include the English major as part of a double major must have a record of strong work in both majors as well as in other courses.

Course Major
All English Literature majors must complete a minimum of 9 credits in the department, including

- at least one credit in each of the following historical periods:
  - Medieval and Renaissance literature (Med/Ren)
  - 18th and 19th century literature (18th/19th c.)
  - 20th and 21st century literature (20th/21st c.)
- English 096 Methods
  From 2019 on, this requirement will be fulfilled by ENGL 080, Introduction to Literary Theory.
- English 099 Senior Course Majors’ Colloquium
  As a culmination of the course major, all seniors take English 099, which offers a structured and supportive environment for students writing their senior essays. The course features a mix of literature, criticism, theory, and methodology, plus guest visits and opportunities for students to discuss central issues in the field of literary and cultural history in preparation for their research and writing. Successful completion of ENGL 096 or ENGL 080 is a prerequisite to this course.

Under special circumstances, a course major may elect to write a longer research thesis. For more information, see the description for ENGL 098.

Based on their own interests and goals, all course majors are expected to identify a concentration of at least three English literature credits within the major. Students define this concentration, but are encouraged to discuss their course choices with a faculty member in the department. Sample concentration topics: one of the three historical periods; American, African-American, or Asian-American literature; theory; digital humanities; creative writing; or a particular genre, such as fiction or poetry. Students define their potential concentration within the major as part of their sophomore plan, but may modify their plan as needed during junior or senior year.

Honors Major
English Literature majors who seek a degree with Honors will, in the spring of their sophomore year, propose for external examination a program consisting of four preparations: three in English and one in a minor. Honors majors must complete all general requirements for the English course major, a total of 9 credits in English Literature, with the exception of ENGL 099, the Senior Course Majors’ Colloquium.

Students interested in pursuing honors within a faculty-approved interdisciplinary major, program, or concentration that draws on advanced English courses or seminars should consult with the department chair for early help in planning their program.

The three Honors preparations in the English Literature major (constituting six credit units) must include preparations from at least two of the following historical periods:

- Medieval and Renaissance literature (Med/Ren)
- 18th and 19th century literature (18th/19th c.)
- 20th and 21st century literature (20th/21st c.)

The three preparations will normally be done through seminars, though if approved by the Department, one preparation may be a thesis or creative writing project. Students who wish either to write a thesis or pursue a creative writing project under faculty supervision as part of the Honors Program must submit proposals to the department; the number of these ventures the department can sponsor each year is limited.

Students who propose creative writing projects will normally be expected to have completed at least one writing workshop as part of, or as a prelude to, the project; the Honors preparation presented for examination will thus normally consist of a 1-credit workshop plus a 1-credit directed creative writing project. For further information, consult with the department chair or the Director of the Program in Creative Writing, Professor Nathalie Anderson.

As for course majors, Honors majors are expected to identify a concentration of at least three English literature credits within the major based on their own interests and goals. Students define this concentration, but are encouraged to discuss their course choices with a member of the department. Sample concentration topics: one of the three historical periods; American, African-American, or Asian-American literature; theory; digital humanities; creative writing; or a particular genre, such as fiction or poetry. Students define their potential concentration within the major as part of their sophomore plan, but may modify their plan as needed during junior or senior year.

Course Minor
All English Literature minors must complete a minimum of 5 credits in the department, including at least one credit in two of the following historical periods:

- Medieval and Renaissance literature (Med/Ren)
- 18th and 19th century literature (18th/19th c.)
- 20th and 21st century literature (20th/21st c.)

Honors Minor
Students seeking an English Literature Honors minor must do a single, two-credit preparation in the department, normally by means of a seminar
English Literature

(or under special circumstances, a creative writing project); thesis option is available only to majors. Honors minors must complete all general requirements for the English course minor, a total of 5 credits in English Literature.

Important things to know regarding credits toward an English Literature major or minor

- **First Year Seminars** (English 008 and 009A - 009Z) and Creative Writing courses count toward the major or minor but do not fulfill historical requirements.
- **Creative Writing workshops** are graded CR/NC; many students take a number of creative writing workshops toward the major.
- **Academic Writing courses** (ENGL 1F, G, etc. or C, Writing Pedagogy) and Journalism classes do not count toward the major or minor.
- If awarded, AP/IB credit can be used toward the major or minor, but it does not satisfy a historical requirement.

### Honors Examinations and Senior Honors Study (SHS)

English Honors preparations consisting of seminars or course combinations will be assessed by a 3-hour written examination set by an external examiner. Written examinations will be followed by oral examinations of 30-45 minutes. Honors preparations fulfilled through seminars or courses also require an SHS submission to be reviewed by the Honors examiner.

A 2-credit thesis or a creative writing portfolio will be examined in a 45-60 minute oral examination. A thesis or creative writing project does not require an additional SHS submission or a written exam.

For the SHS requirement, Honors Majors and Minors will revise one paper per seminar for their portfolio and submit that portfolio to their external examiners. In the case of course combinations used as Honors preparations, students can either present two shorter revised essays (one from each class) or synthesize materials from earlier essays to create a new essay bridging the two classes. In either case, SHS submissions can be a maximum of 4,000 words.

### Double Majors

Students may, with the department’s permission, pursue a double major either as part of the Course or Honors Program. Double majors must fulfill all the major requirements in both departments.

For a double major in honors, one of the majors is used as the honors major and the other is often used as the honors minor. See the department chair for further details.

### Special Major

Designed by the student in consultation with faculty advisors. If English is the central department, students must fulfill most of the regular requirements and have a minimum of 5 English Department credits as part of the special major. Students must take at least one course each in two of the three historical periods listed above. Students must consult with the various departments or programs involved in the special major and have all approve the plan of study. Only one integrative comprehensive exercise is required. Students may also do a special honors major with four related preparations in different departments.

### Major with a Creative Writing Emphasis

With the range of writing courses open to them, it is possible for students at Swarthmore to pursue a Major in English Literature with an Emphasis in Creative Writing, by completing three units of creative writing in addition to the usual departmental requirements. One workshop taken outside our English Department may be counted towards the Emphasis.

Student writers may also pursue a Directed Creative Writing Project (070K), completing a portfolio of independent work under the guidance of a faculty member. Some students have used the Directed Creative Writing Project as an opportunity to extend and polish a project begun in workshops - a novel, a linked collection of short stories, a sequence of poems responding to photographs, for example - while others have worked intensively and rigorously to master the sonnet form, or explored through their own work the implications of a theoretical premise - the blurred distinction between dramatic monologue and poetic confession, for example. Because our writing faculty is small, the Department sponsors only a limited number of writing projects each year. Students interested in pursuing independent work in creative writing normally declare their intention in the sophomore plan, and submit a prospectus to the Department in the semester before they hope to begin their project, after consulting with the chair of the Department and with members of the writing faculty.

Students in the Honors Program may present work in creative writing as a field for either a Major or a Minor in English Literature. Normally the two-credit field is defined as a one-credit workshop (most typically 070A, 070B, 070C, or 070H) paired with a one-credit Directed Creative Writing Project (070K), but it is also possible in unusual circumstances for a student to develop a portfolio through writing done entirely within workshops.

For additional information about the Creative Writing program, including more details about the courses mentioned here, visit the English Literature department web site. Printed information about the program is also available in the department office.
Teacher Certification
English majors may complete the requirements for English certification through a program approved by the State of Pennsylvania. For further information about the relevant set of English and Educational Studies requirements, please refer to the Educational Studies section of the Bulletin.

Advanced Placement/International Baccalaureate Credit
A maximum of 2 credits may be awarded for combined AP and IB work.

Students matriculating in 2019 who receive a 5 on the AP test for English Literature and Composition or a Higher IB 6 or 7 will be eligible for one Swarthmore credit, awarded after completion of one course in the English Department. This AP/IB credit can be used toward the English major but it does not fulfill any of the required courses of the major.

Off-Campus Study and Transfer Credit
Students who plan to study away from Swarthmore should consult with the department far enough in advance of such study to effect proper planning of a major or minor. Honors majors in particular should discuss the impact of study abroad on their honors program with the chair and departmental honors advisor.

In determining which courses of study will meet department criteria for requirements or credit toward a major or minor, the department will rely both on its experience in evaluating the work of students returning from these programs and on careful examination of course descriptions, syllabi, and schedules. In general, to earn one Swarthmore College credit, we expect a course elsewhere to provide 30 contact hours and to require roughly 20 pages of writing, as well as a reading list roughly comparable to a Swarthmore English course’s reading list.

Course credits for literature in English should be approved before you leave, but no course credits are finally awarded until you present your completed work upon your return to Swarthmore. Beginning with the Fall 2019 semester, you will need to take one English course at Swarthmore to gain credit for an English course taken during study abroad.

Students planning study abroad from Swarthmore should contact the Off-Campus Study Office for additional information and resources, including important information about the credit pre-estimation and approval processes.

Students seeking credit for domestic (USA) off-campus study will need to work with the registrar, the English course credit consultant, and possibly the deans. To find out who the current course credit consultant is for English Literature, contact the department chair or administrative assistant.

Life After Swarthmore
After graduation, our majors find jobs in the ever-expanding range of industries that prize reading, writing, interpretive skills, teamwork, and creative thinking. We count among our English alums poets and novelists, social workers and scholars, news writers, teachers, broadcast journalists, filmmakers, entrepreneurs, financial analysts, grant writers, publishers and editors, natural or social science writers, doctors, and lawyers. About a third of our graduates head to premiere graduate schools, including Harvard, Oxford, Berkeley, Yale, the University of Pennsylvania, and NYU. Swarthmore English literature majors are represented in any field in which analysis, communication, and empathy are integral. Grounded in the mission of Swarthmore, our students leave as well-rounded citizens of the world.

English Literature Courses
First-Year Seminars and Writing Courses
First-Year Seminars are limited to 12 first-year students only. No student may take more than one within the department. Writing courses are limited to 15, but are open to all first-year students without prerequisite. All count as Writing courses.

ENGL 009A. First-Year Seminar: Literature and Law
In this course we will explore the forms law and literature take as they work through similar concerns, determining how social systems should function and puzzling over the moments when they don’t. When does fiction appropriate the law’s penchant for articulating rights and defining relationships? And when does the legal imagination draw from literature? We will read works of tragedy, detection, confession and evasion as we sort through these questions, supplementing our conversation with critical legal theory, trauma studies, and case law.

Humanities. Writing course.
1 credit.
Fall 2019. Patnaik.
Fall 2020. Patnaik.

ENGL 009C. First-Year Seminar: Why College? The Past and Future of Liberal Arts
(Cross-listed as HIST 001C)
Look past the brochures and the info sessions and ask: what is college in the early 21st Century, how did it get that way? Why do people go to college? Should they? Students in this course will examine the history of higher education, and study controversies over the economics, mission, and values of colleges and universities as they appear in curricula, admissions and financial aid policies, student life, and more. Students will develop an understanding of the behind-the-scenes operations
English Literature

of higher education institutions like Swarthmore through reading, seminar discussion, visits from experts, and independent research.

Humanities
Writing course.
1 credit.

ENGL 009D. First-Year Seminar: Nation and Migration
Drawing on novels, short stories and film produced by immigrant writers from South Asia, Africa, and the Caribbean, this course explores the ways in which identity and community is shaped in the modern world. How does the migrant/diasporic writer rewrite the English language to reflect questions of race and power, nationhood and citizenship, and histories of the past and present? Authors include Salman Rushdie, Edwidge Danticat, Chimamanda Adichie, and Mohsin Hamid.

Humanities.
Writing course.
1 credit.
Spring 2021. Mani.

ENGL 009E. First-Year Seminar: Narcissus and the History of Reflection
Narcissism seems at once reprehensible and an unavoidable part of personhood. This course investigates how, over the course of many centuries, the story of Narcissus has been reworked as a way to think about process of creative reflection and how we see ourselves in relation to others. At stake are questions of desire, gender, racial identities, and language. Authors include Ovid, Milton, Wilde, Freud, and Fanon; also visual art and film.

Humanities.
Writing course.
1 credit.
Fall 2020. Song.

ENGL 009F. First Year Seminar: Introduction to Latinx Literature and Culture
(Cross-listed as SPAN 015, LITR 015S, LALS 015)
This course is an introduction to the writings of Latino/as in the U.S. with emphasis on the distinctions and similarities that have shaped the experiences and the cultural imagination among different Latino/a communities. We will focus particularly in works produced by the three major groups of U.S. Latino/as (Mexican Americans or Chicanos, Puerto Ricans or Nuyorican, and Cuban Americans). By analyzing works from a range of genres including poetry, fiction, film, and performance, along with literary and cultural theory, the course will explore some of the major themes in the cultural production of these groups. Topics to be discussed include identity formation in terms of language, race, gender, sexuality, and class; diaspora and emigration; the marketing of the Latino/a identity; and activism through art.

Fall 2020. Diaz.

ENGL 009H. First-Year Seminar: Portraits of the Artist
We will study a variety of works portraying artists in different cultures and contexts and media, seeking a critical understanding of the different ways in which artists in different cultures have interacted with their societies. Here are some of the materials being considered for the Fall 2018 syllabus: Plato (Parable of the Cave); Scheherazade as story-teller (Arabian Nights selections, in a fine new translation); Shakespeare (selected sonnets); Mozart (the movie Amadeus); Tony Kushner’s play Angels in America; one of the more brilliant, experimental, and moving novels published in recent years, Ruth Ozeki’s A Tale for the Time Being (2013); a documentary on Maya Lin, who conceived the design for the Vietnam Memorial while she was still a student at Yale; and a short story/portrait of the artist as a young woman by Sandra Cisneros. We’ll end with a short play or two by Steve Martin. Also to be assigned are selected background and critical materials, including the Haitian-American writer Edwidge Danticat’s essay "Create Dangerously: The Immigrant Artist at Work." Considerable time will also be devoted to improving each student’s analytical writing and discussion skills. The class typically includes a wide variety of students, with potential natural science and social science majors well represented, as well as those considering a major in the humanities.

Eligible for PEAC
Fall 2020. Schmidt.

ENGL 009J. First-Year Seminar: Revolution and Revolt
What makes a revolution? This course investigates the literature of rebellion from the late 18th century’s "Age of Revolution" to the Black Lives Matter movement. We will read the works of not only famous revolutionary leaders, but also infamous and obscure ones, including radical abolitionists, communists, anarchists, feminists, student activists, and more, asking how their writing interprets the memory of previous revolutions and imagines possibilities beyond them.

Humanities.
Writing course.
1 credit.
Eligible for PEAC
This course will untether the term "America" from its all-too-easy connotation with the continental United States and set it adrift among the island formations comprising the western hemisphere and beyond. By accounting for the ocean as a crucial shaping force of human culture and survival, much in the same way that land has been understood, we will craft an archipelagic approach to our study of the Americas and, indeed, the globe. We will examine how colonial discourses and expansionist policies have attempted to construct islands as spaces to be governed, instrumentalized, and appropriated while at the same time immersing ourselves in literature and other forms of cultural production that imagine islands as portals towards more liberatory ways of belonging in this globe. By thinking with a variety of American Archipelagoes, students will come out of this course with a more nuanced grasp of the multi-racial, multi-lingual, and trans-Imperial American oceanscape, as well as how the United States has drawn from it to take on its various, shifting forms. The course will commence with an in-depth study of Shakespeare’s The Tempest and end with an exploration of contemporary literature by authors that may include Raquel Salas Rivera, Haunani-Kay Trask, Craig Santos Perez, and Tiphanie Yanique. Humanities. Writing course. 1 credit.

This course will be a study of several traditional literary texts and of modern reshapings of these old stories into new artistic forms. Pairings of old and new will include various versions of Cinderella/Ashputtle, Little Red Riding Hood, Beowulf and Gardner’s Grendel, and Shakespeare’s Hamlet and Stoppard’s Rosencrantz and Guildenstern Are Dead. There will be both critical and creative writing assignments in the class.

The course will commence with an in-depth study of Shakespeare’s The Tempest and end with an exploration of contemporary literature by authors that may include Raquel Salas Rivera, Haunani-Kay Trask, Craig Santos Perez, and Tiphanie Yanique. Humanities. Writing course. 1 credit.

This course will be a study of several traditional literary texts and of modern reshapings of these old stories into new artistic forms. Pairings of old and new will include various versions of Cinderella/Ashputtle, Little Red Riding Hood, Beowulf and Gardner’s Grendel, and Shakespeare’s Hamlet and Stoppard’s Rosencrantz and Guildenstern Are Dead. There will be both critical and creative writing assignments in the class.

John Gardner rewrote the ancient epic Beowulf in modern idiom from the monster’s viewpoint. Tom Stoppard showed us what Rosencrantz and Guildenstern were up to offstage in Shakespeare’s Hamlet. Angela Carter’s Red Riding Hood was fascinated by the company of wolves. Students will study old texts and their modern revisions and then write both critical papers about them and also, using the re-telling models as starting points, reshape their own beautiful or beastly visions in creative writing forms. Here are some retelling slants: What is the story of the rat in Cinderella who is turned into a coachman? What is Ophelia dreaming in Hamlet as she slides into the netherworld of drowning and death? What is the mute lullaby which Grendel’s mother uses to sing him (or herself) to sleep in her underwater cave each night? What might the wolf in LRRH and Grendel have to say to one another over a cappuccino in Kohlberg? This First-year Seminar counts as both a Writing Class (W) and an English Dept. Creative Writing workshop. Humanities. Writing course. Fall 2019. Williamson. Fall 2020. Williamson.

How have African American writers told stories of freedom, and how have they tried to tell them freely? How has the question of freedom shaped the development of, and debates over, an African American literary tradition? Drawing upon fiction, poetry, personal narratives, and critical essays, we will examine freedom as an ongoing problem of form, content, and context in black literature from antebellum slavery to the Harlem Renaissance. Humanities. Writing course. 1 credit. Eligible for BLST

Urban life is a definitive feature of modernity. As people moved from rural areas and from other countries into increasingly large cities, ways of life modernized: how people earned a living, what kinds of communities they formed, the gendered and sexual identities that became newly possible and legible, the spaces people inhabited and how they moved through them. These and other aspects of urban life shaped the literary imagination—and vice versa. This course will draw upon short stories, critical essays, novels, poetry, and film to examine artistic representations of metropolitan experience, both modern and contemporary. Units will include: moving through the metropolis, city poetry, migrations, and visibility and (dis)connection. We will read Virginia Woolf, Teju Cole, T. S. Eliot, Langston Hughes, Nella Larsen, Willa Cather, Mohsin Hamid, China Miéville, and others. As a first-year seminar, we will dedicate considerable attention to forming analytical arguments, practicing revision, and entering into scholarly conversations both with our readings and with one another. Humanities. Writing course. 1 credit.

What is close reading? How do we do it? What is its unexpectedly complex history? What might it mean for us to reject it? We will study
English Literature

close readings of all kinds of text (from John Donne poems and Jane Austen novels to car advertisements and Tweets), practice traditional and experimental forms of close and distant reading, and write in several genres.

Humanities.
Writing course.
1 credit.

ENGL 011. Comedy
The course covers a range of comic dramas and comic performances. It will introduce key theories about comedy as a genre and comic performance as a cultural practice. We will also work intensively on expository writing and revision. Likely texts include plays by Plautus, Shakespeare, Wilde, and Churchill, Hollywood romantic comedies, television comedy, and materials on minstrelsy, genre theory and performance studies.
A version of this course has been offered in the past as a First-Year Seminar, English 009G, but this new version is open to any student, without any prerequisite. If you have taken English 009G, you are not able to enroll in English 011.
GATEWAY English Literature.

Fall 2019. Williamson.

ENGL 020. Shakespeare
Topics in this survey of Shakespeare’s plays, include kingship, comedy and tragedy, family, sexuality, race, performance, language, and the rewriting of history. We will frequently return to the question of theater’s place in early modern England, while also examining the place Shakespeare holds in the cultures we inhabit. The list of plays may include Taming of the Shrew, Henry V, Midsummer Night’s Dream, Twelfth Night, Measure for Measure, Hamlet, Othello, Lear, and The Tempest.
Med/Ren
Humanities.
1 credit.
Fall 2019. Johnson.

ENGL 022. Literature of the English Renaissance
This course will begin with More’s Utopia and end with selections from Paradise Lost, paying particular attention to literature’s political contexts, gender, genre, and the relation of women’s writing to the male canon. Among the other writers included will be Wyatt, Surrey, Philip Sidney, Mary Herbert, Mary Wroth, Spenser, Elizabeth Cary, Jonson, Bacon, Donne, Herrick, George Herbert, and Marvell.
Med/Ren.
Humanities.
1 credit.

ENGL 023. Renaissance Sexualities
The study of sexuality allows us to pose some of the richest historical questions we can ask about subjectivity, the natural, the public, and the private. This course will explore such questions in early modern England, examining several sexual categories (the homoerotic, chastity and friendship, marriage, adultery, and incest) in a
range of literary and secondary texts.
Med/Ren
Humanities.
1 credit.
Eligible for GSST

**ENGL 024. The Revolutionary Seventeenth Century!**
This course traces how English writers anticipated, participated in, and made sense of the civil wars that led to the execution of Charles I (1649) and a failed attempt at non-monarchical government (1649-1660). Authors include William Shakespeare, Ben Jonson, John Milton, and Aphra Behn, as well as less familiar but important writers of both imaginative texts and polemics.
Med/Ren
Humanities.
1 credit.

**ENGL 025. Christopher Marlowe: Works, Life, and Afterlives**
Marlowe’s writing career was brief (cut short by his murder at the age of twenty nine) but made a lasting impression on English poetry and drama. This course offers a comprehensive overview of Marlowe’s literary output and samples some contemporaneous writings influenced by his work. This semester-long study will be enhanced by attention to Marlowe’s mysterious biography, which has generated questions about his religious belief (or putative atheism), political allegiances (and activity as a spy), and sexuality.
Humanities.

**ENGL 026. Allegory and Allegoresis in the English Renaissance**
Allegory designates a mode of writing and of interpreting narratives. The decline of allegory marks a shift from medieval to modern culture, eventually giving way to realism. Yet allegory has never left us, as we continue to read allegorically to some degree. This course turns to the English Renaissance as a literary turning point. Readings from The Faerie Queene, Paradise Lost, and Pilgrim’s Progress; theoretical work by Walter Benjamin, Paul de Man, and others.
Med/Ren
Humanities.
1 credit.

**ENGL 027. Performing Justice on the Renaissance Stage**
Courtroom spectacles-tragic injustices or the satisfying punishment of villains-have become familiar sources of entertainment. This course will examine how Shakespeare, Jonson, and their contemporaries turn repeatedly to the law for dramatic energy. Their plays compel a number of questions: what does it mean to take pleasure in injustice? What is the relationship between human and divine justice? These questions often demand historical answers, and our class will examine how dramatic works think through specific developments in legal thinking and practice.
Med/Ren
Humanities.
1 credit.

**ENGL 028. Milton**
Intensive study of one of the most influential writers in English literary history. Units on: Milton’s early poetry; political writings during the Civil Wars and the experiment in non-monarchical government; and major later works, with special emphasis on the epic Paradise Lost. Overarching topics include the relationship between Christian belief and classical mythology, contested gender norms, and liberty as a religious and political concept.
Med/Ren
Humanities.
1 credit.

**ENGL 046. Tolkien and Pullman and Their Literary Roots**
A study of Tolkien’s Lord of the Rings and Pullman’s His Dark Materials in the context of their early English sources. For Tolkien, this will include Beowulf, Old English riddles and elegies, and Sir Gawain and the Green Knight. For Pullman, this will include Biblical stories of the Creation and Fall, Milton’s Paradise Lost, and selected Blake poems. Some film versions will be included.
Med/Ren or 20th/21st.

**ENGL 071B. The Lyric Poem in English**
English 071B is a survey of the lyric poetry in English from the Middle Ages up to the present, along with a few works read in translation. Students will learn the basics in understanding and enjoying the music of poetry, including scansion and prosody (beats and sounds). They will also learn to appreciate the basic forms of lyric poetry, including ballads and sonnets and many other forms, as well as "free" verse; they will also receive instruction on how to appreciate metaphors, irony, and the many other figures of speech and rhetorical techniques poems employ. They will also gain appreciation of poetic history and the many ways in which poets and their work have historically interacted with their eras, while also creating work that can powerfully speak to us in our present moment.
We’ll use The Making of a Poem: A Norton Anthology of Poetic Forms (Ed. Mark Strand and Eavon Boland) and Camille Paglia’s Break, Blow, Burn, a collection of essays on some of the most famous poems in English. Other course materials
English Literature

will be posted as needed on the English 71B Moodle site.
This course is focused on great poems from the past (from the medieval era to the twentieth century), but both Making of a Poem and Paglia treat us to some very contemporary poems and poets as well.
For majors and minors, this course can count either as a Med/Ren, 18th/19th, or 20th/21st century course, depending on the topics of the majority of the student’s written work. Discuss your options with the professor.

18th and 19th Century Courses

ENGL 035. The Rise of the Novel
Why do we read novels? How has the history of novel-reading shaped the way we think about ourselves, about other people, and about the world?
In answering these questions, we will study the long history of the novel in English considered as an aesthetic and material form, as a record of social life, and as a way of imagining other possible worlds. We will begin in the eighteenth century, travelling through the novel’s Victorian and Modernist incarnations and its post-colonial and post-modernist reconfigurations to end in the present.
Includes close attention to major canonical novels and authors, a survey of the main critical and theoretical approaches to the novel, strategies for close reading and interpretation, introductory text-mining techniques, and investigation of how novels were printed and circulated. Recommended for anyone interested in reading, writing, or reviewing novels.
For majors and minors, this course can count either as an 18th/19th or 20th/21st century course.

Fall 2019. Buurma.

ENGL 036. Jane Austen
Mingling stylistic precision with an uncanny eye for social foibles, Austen’s novels off a useful entry point into the study of literature and the ways literature reflects and refracts social conditions.
We’ll read Austen’s major novels along with the 18th-century fiction, politics, and philosophy to which she was responding; we’ll also consider recent critical views on Austen and the ways films of the1990s through the present engaged Austen’s style and social critique. At the same time, students will engage the genre of the academic essay by writing and revising several kinds of literary essays: close readings; analysis of a novel’s use of source material or a film’s use of addressing one or more of the novels in a broader historical or stylistic context.

ENGL 050D. Literature and Art on the US-Mexico Border
This course will examine the shifting expressions of the U.S.-Mexico Border in the US-American literary and cultural imagination from 1848 to the present. We will begin by considering Chicana/x theorist Mary Pat Brady’s suggestion that “the border might be understood more fully as a state-sponsored aesthetic project” (Extinct Lands, Temporal Geographies 52). If the border is to be understood as an aesthetic project, what are its formal elements, and how have they shifted over time? Which narratives of belonging has this
national project made hyper-visible and which has it occluded? How have treaties, maps, novels, pamphlets, poems, and films figured into the production of the border as a dividing line and a contact zone, a site of violence and of solidarity, a material place and a metaphor?

In order to answer these questions and to generate more along the way, we will consider a range of legal, literary, and cultural texts. These may include The Treaty of Guadalupe Hidalgo (1848), The Life and Adventures of Joaquín Murieta (1854), George Washington Gomez (c. 1930s), science-fiction, migrant testimonies, contemporary films, as well as recent interventions by digital artists and activists in the border zone.

Limited to 30 students. For English Literature majors and minors, this course will count towards the historical distribution requirements as either an 18th/19th century course or as a 20th/21st century course, based upon the student’s final project and the recommendation of the professor.

GATEWAY English Literature; no prerequisites, suitable for any student.

Eligible for LALS

ENGL 050R. 19th Century Radicalisms

What can the radical thinking and practice of the past teach us about the political possibilities of today? This course explores the explosion of anti-slavery, anti-racist, socialist, free love, anarchist, and anti-imperialist writing in and around the nineteenth-century US. It looks to these past radicalisms not only as forerunners of present ones, but also for models of revolutionary world-making that may appear strange, irrational, or incomprehensible from the point of view of the present. We will read primary texts across a range of genres, placing a particular emphasis on the early Black radical tradition, as well as a selection of secondary texts to help us theorize and historicize this work.

Students should have completed strong work in prior classes in cultural studies, U.S. literature, history, and/or theory (including colonial/postcolonial studies), preferably including both at least one mid-level English literature course and an advanced course in other humanities or social sciences departments or interdisciplinary programs.

Limited to 15 students. For English Literature majors and minors, this course will count as an 18th/19th century course towards the historical distribution requirements.

Humanities.

1 credit.

ENGL 059. 19th Century American Novels

When we think of 19th century American literature, we tend to think of novels: Herman Melville’s Moby-Dick; or, The Whale (1851) is a genre-defying work that pulls epic, romantic, dramatic, scientific, and historiographic forms into its literary vortex. The cosmic scope and metaphysical complexity of this text have enthralled, and sometimes left stranded, many an intrepid reader. Members of this course will embark on a semester-long study of a text that has become a key touchstone for writers, artists, philosophers, and political thinkers alike. Guided by their own close-readings of Moby-Dick and selected contemporaneous texts drawn from their own archival research, students will engage with the historical and cultural contexts in which the novel was written, including the proliferation of new forms of print media, the rise of industrial capitalism, continuing processes of enslavement and indigenous dispossession, and U.S. expansionist efforts across the hemisphere and the globe.

At once a rigorous and irreverent meditation on literary form and knowledge-production, Moby-Dick will serve as a crucial point of departure for students’ own critical explorations in and beyond the major.

Students should have completed strong work in prior classes in cultural studies, U.S. literature, history, and/or theory (including colonial/postcolonial studies), preferably including both at least one mid-level English literature course and an advanced course in other humanities or social sciences departments or interdisciplinary programs.

Limited to 15 students. For English Literature majors and minors, this course will count as an 18th/19th century course towards the historical distribution requirements.

Humanities.

1 credit.
ENGL 060. Early Black Print Cultures
This course introduces students to the wide variety of early Black print culture in the US, including newspapers, broadside poetry, political pamphlets, and novels. We will attend closely to the materiality of these texts, reading not only for the work of authors but also that of illustrators, editors, publishers, typesetters, and readers. What racial identities, aesthetic forms, and political possibilities did print afford? Our investigations will be informed by readings in recent theory and criticism on Black Studies, print culture, and archives. In their final projects, students will have the chance to pursue their own original research using the rich resources of Philadelphia-area libraries.

1 credit.
Eligible for BLST

ENGL 071A. The Short Story en las Américas
(Cross-listed as SPAN 071, LITR 071S, LALS 015)
This team-taught course will offer a wide-ranging overview of the short story in the Americas from a comparative perspective, emphasizing continuities and also identifying areas of innovation and transformation.
The course will begin in the early 19th century with masters whose daring work in this "minor" form gave the short story new prominence in literary history: Poe, Hawthorne, and Chesnutt. Later, the class will focus on Quiroga and Borges whose innovations redefined the genre, and moved Latin American fiction into the forefront of world literature.
By focusing on close reading and class discussions, we will seek to discover the distinctive characteristics of the short story, and outline its development and transformation across the continents. Does the short-story bind together the diverse literatures of the United States and Latin America? How should we identify and understand parallels between the works in English and those in Spanish? How should we explain contrasts? Of particular interest will be dialogues and influences crossing languages and literary traditions: Poe and Horacio Quiroga; Hemingway and Borges; Borges/Cortázar inspiring Barth; Rulfo’s and García Márquez’s (and others’) influences on US-based Latinx writers.
Readings, assignments, and class discussions will be in English. No prior knowledge of Spanish or Portuguese is necessary. This class is open to all students, without prerequisites.
For English Literature majors and minors, this course can count either as an 18th/19th or 20th/21st century course.
1 credit.

ENGL 071B. The Lyric Poem in English
English 071B is a survey of the lyric poetry in English from the Middle Ages up to the present, along with a few works read in translation. Students will learn the basics in understanding and enjoying the music of poetry, including scansion and prosody (beats and sounds). They will also learn to appreciate the basic forms of lyric poetry, including ballads and sonnets and many other forms, as well as "free" verse; they will also receive instruction on how to appreciate metaphors, irony, and the many other figures of speech and rhetorical techniques poems employ. They will also gain appreciation of poetic history and the many ways in which poets and their work have historically interacted with their eras, while also creating work that can powerfully speak to us in our present moment.
We’ll use The Making of a Poem: A Norton Anthology of Poetic Forms (Ed. Mark Strand and Eavon Boland) and Camille Paglia’s Break, Blow, Burn, a collection of essays on some of the most famous poems in English. Other course materials will be posted as needed on the English 71B Moodle site.
This course is focused on great poems from the past (from the medieval era to the twentieth century), but both Making of a Poem and Paglia treat us to some very contemporary poems and
English Literature

poets as well. For majors and minors, this course can count either as a Med/Ren, 18th/19th, or 20th/21st century course, depending on the topics of the majority of the student’s written work. Discuss your options with the professor.

ENGL 071D. The Short Story in the U.S. Reading assignments will primarily be short stories, but will also include selected other relevant materials. The course will begin in the early 19th century with masters whose daring and innovative work gave the short story new prominence in literary history: Poe, Irving, Hawthorne, and Melville. The syllabus will include significant late 19th- and early 20th-century authors who built on this legacy (such as James, Chopin, Hemingway, Fitzgerald, Hurston, and Faulkner, among others). After vacation break we’ll turn to later authors such as Eudora Welty, Ray Bradbury, Toni Cade Bambara, Thomas Pynchon, George Saunders, Sandra Cisneros, Jennifer Egan, Edwidge Danticat, and many others. Our syllabus will also feature published work by recent Swarthmore graduates who have gone on to become published fiction writers. This is a Gateway English Literature course, suitable for anyone’s first or second English literature course. Majors and minors are also welcome. For majors and minors, this course can count either as an 18th/19th or as a 20th/21st century course, depending on the topic of the final research paper. GATEWAY English Literature.

ENGL 090A. Minor Characters and Ordinary People: New Methods in History and Literature (Cross-listed as HIST 090N) Novels, social media, close friends, and parents help us feel like main characters in our own lives, but most of us will remain minor, relatively unimportant characters in any larger context. This course will explore the problem of the minor character and the ordinary person from the conflicting and complementary perspectives of the historians and the literary critic, using both traditional and computational methods. Are there formal analytic strategies for interpreting and examining minor characters and ordinary individuals that do not insist on moving them from the margins to the center? Or are all minor characters simply understudy protagonists and consequential people waiting for their time in the spotlight? We will trace this problem through major works of history and literature and through their transformation and interpretation using qualitative and quantitative methods. Students will create an original essay, art project or other work on a minor character or about the idea of minor character as part of the course’s final publication project. For majors and minors, this course can count either as an 18th/19th or 20th/21st century course. Humanities. 1 credit. Fall 2019. Buurma. Burke.

ENGL 093. Early American Media Cultures This course borrows some of the methods of new media studies to look anew at the multimedia culture of the 18th- and 19th-century United States. We will study newspapers, maps, wampum, photographs, songbooks, advertisements, and counterfeit money, alongside literary texts that thematize this rich media culture. 18th/19th c. Humanities. 1 credit. Fall 2020. Cohen.

20th and 21st Century Courses

ENGL 012. Writing and Sustenance Food embodies culture and its paradoxes: it delineates ‘taste,’ it offers us delight and decadence and comfort, it defines both home and the ‘unheimlich’-the ritually forbidden-which is the antithesis of home. Major novelists of the past decade have engaged deeply with food production and consumption as a lens on contemporary culture more generally. What do contemporary novels and memoirs have to teach us about food politics and and human resilience? Authors include Kingsolver, Franzen, Ozeki, Desai, Yoshimoto, Kimball. The course will also include some practical experiences (labs, field trips) engaging writing and sustenance. GATEWAY English Literature. Humanities. 1 credit. Eligible for ENVS

ENGL 035. The Rise of the Novel Why do we read novels? How has the history of novel-reading shaped the way we think about ourselves, about other people, and about the world? In answering these questions, we will study the long history of the novel in English considered as an aesthetic and material form, as a record of social life, and as a way of imagining other possible worlds. We will begin in the eighteenth century, travelling through the novel’s Victorian and Modernist incarnations and its post-colonial and post-modernist reconfigurations to end in the present. Includes close attention to major canonical novels and authors, a survey of the main critical and theoretical approaches to the novel, strategies for close reading and interpretation, introductory text-mining techniques, and investigation of how novels were printed and circulated. Recommended for anyone interested in reading, writing, or reviewing novels. For majors and minors, this course can count
ENGL 045. Modern British Poetry
Steven Spender called Modern poets "recognizers," creating a complex, fractured art out of circumstances they experienced as extraordinary, unprecedented. This course examines the responses of British male and female poets (and some American expatriates) to the wars, shifting beliefs, complicated gender roles, and other dislocations of early 20th century life.
20th/21st c.

ENGL 052A. U.S. Fiction, 1900-1950
This course focuses on well-known and newly recognized novelists important for this period: Baum, London, Wharton, Cather, Hemingway, Hurston, Loos, Hammett, McCullers, and Steinbeck. There will be attention to innovations in the novel as a literary form and to the ways in which writers engage with their historical context, particularly regarding issues of immigration, race, community, and redefinitions of gender roles and the meaning of "American."
20th/21st c.
1 credit.
Fall 2020. Schmidt.

ENGL 052B. U.S. Fiction, 1945 to the Present
We’ll look at major authors and emerging figures, with attention to innovations in the novel as a literary form and the ways in which writers engage with their historical context, both within the U.S. and globally. Highsmith, Baldwin, Hemingway, and McCarthy, in different ways, introduce themes of gender roles, sexuality, and politics that will be taken up by a host of later works, including Marshall, Diaz, and Belleza. Both McCarthy’s and Wolitzer’s novels follow a group of young adult friends (Vassar students from the 1930s and summer arts camp friends from the 1970s) into their older adult lives-personal stories of friendship and betrayal, but also stories of the nation’s changes. Near the end of the semester, the YA [young adult genre] author Rhoda Belleza and her editor, Swarthmore grad Tiffany Liao, will
visit Swarthmore to discuss Belleza’s new novel *Empress of a 1000 Skies*, which we’ll read. (If you liked the most recent Star Wars reinventions, you should really enjoy this work.)

20th/21st c.

Humanities.

1 credit.

Spring 2021. Schmidt.

**ENGL 052C. Contemporary US Fiction, 1990 to the Present**

This course will focus on contemporary U.S. fiction published since 1990 or so. The reading list will feature global perspectives on the U.S. as well as new understandings of the U.S.’s past and present by U.S.-born authors. We’ll explore the novels’ formal inventiveness as well as their engagement with history, race, gender, and a variety of other social issues, including multi-racial single and family identities (and, by implication, how this may help the U.S. national narrative evolve away from white suprematism). Three of the readings will use the genre of "historical fiction" to reinterpret U.S. history, but all the texts rewrite the possibilities of personal, family, and national/transnational narratives.

A special feature of the course will be the celebration of Swarthmore alum Patricia Park, who will visit Swarthmore to read from and discuss her first novel. Entitled Re Jane, its heroine Jane Re is a mixed-race orphan on a quest to learn more about her family history. The novel is set in Queens, Brooklyn, and Korea, and is both a fun romantic comedy and a clever reimagining of the Jane Eyre plot.

GATEWAY English Literature.

Humanities.

1 credit.

**ENGL 052D. Twenty-First Century Narrative**

In this class, we will examine some of the major texts, media, and themes of U.S. literature of the twenty-first century. What can we say about the history we are ourselves living through? What fears and anxieties distinguish our moment? What perspective (or lack thereof) do we have on our own time? In order to organize these disparate and difficult questions, we will organize our readings around an industry that quietly shapes where and how we live. It also organizes themes of belonging, segregation, migration, the weight of the past, and the uncertainty of the future that are characteristic of U.S. life in this century: real estate. Texts may include Angela Flournoy’s *The Turner House*, Alison Bechdel’s *Fun Home*, Colson Whitehead’s *Zone One*, and Kim Stanley Robinson’s *New York 2140*.

GATEWAY English Literature.

Eligible for BLST

ENGL 065. Asian American Literature
How does Asian American literature function as the site of key debates about ethnic and national identity? This course explores Asian American cultural production over the past 50 years, beginning with Flower Drum Song (1961), the first Hollywood film starring an all-Asian American cast, and ending with the Pulitzer Prize winning author Jhumpa Lahiri’s short stories. Authors include Maxine Kingston, Chang-Rae Lee, David Henry Hwang, and Theresa Hak-Kyung Cha.
20th/21st c. Humanities. 1 credit. Eligible for ASIA

ENGL 066. In/Visible: Asian American Cultural Critique
Popular representations of Asian Americans frame this immigrant group as either invisible (unseen and unheard) or hypervisible (as "yellow peril" or "terrorist"). By contrast, the writers, scholars, and artists that we will examine in this class challenge such linear narratives, and create new futures of Asian America. This class will highlight critical theories of race and ethnicity in relation to a wide range of textual forms: literature, performance, visual culture. Students will also collaborate, when possible, with Asian American arts organizations in the Philadelphia area.
Prerequisite: ENGL 065, 19th/20th Century English course
INTP, GSST, FMST classes will also be considered.
Eligible for ASIA, GSST
Fall 2020. Mani.

ENGL 067. Soul Power
Examining the impact of black cultural nationalism on African American poetry, drama, fiction, and autobiography of the 1960s, this course will plumb the iconography, ideology, and aesthetics of Soul.
Eligible for BLST

ENGL 068. Black Culture in a "Post-Soul" Era
Since the 1970s, younger generations of African American writers, artists, and intellectuals have struggled over the meaning of Blackness in the wake of the Civil Rights and Black Power movements that preceded them. Supported by a handful of historical and critical studies, we will examine how black novelists, playwrights, and poets in the "post-soul" era have dealt with a complex of shifting and interconnected concerns, including the imperatives of racial representation in a society increasingly driven by mass consumption and global media, the contentious discourses of sexual politics, and the polarization of classes within Black America.
20th/21st c. Humanities. 1 credit. Eligible for BLST

ENGL 069. Reconstructing US Culture 1866 to 1900
This course will introduce students to the U.S. literature of the Reconstruction era. We will interpret the historical period and political project of "Reconstruction" broadly to include texts produced during and, in some cases, after the formal period of direct federal intervention in the south after the Civil War. If, as many scholars have suggested, Reconstruction was ultimately a contest over meaning—the meaning of the Civil War, of freedom, of race, of the nation, and of citizenship—then it did not end in 1877. Indeed, as the historian Eric Foner has suggested, Reconstruction is still not over. In addition to introducing students to the culture of the Reconstruction period, this course will also broadly consider the place of war, national citizenship, freedom, and race in post-bellum American literature. Authors to include Pauline Hopkins, Mark Twain, Charles Chesnutt, Albion W. Tourgée, WEB Du Bois, Ida B. Wells, and Kate Chopin.
GATEWAY English Literature. Humanities. 1 credit.

ENGL 071A. The Short Story en las Américas
(Cross-listed as SPAN 071, LITR 071S, LALS 015)
This team-taught course will offer a wide-ranging overview of the short story in the Americas from a comparative perspective, emphasizing continuities and also identifying areas of innovation and transformation.
The course will begin in the early 19th century with masters whose daring work in this "minor" form gave the short story new prominence in literary history: Poe, Hawthorne, and Chesnutt. Later, the class will focus on Quiroga and Borges whose innovations redefined the genre, and moved Latin American fiction into the forefront of world literature.
By focusing on close reading and class discussions, we will seek to discover the distinctive characteristics of the short story, and outline its development and transformation across the continents. Does the short-story bind together the diverse literatures of the United States and Latin America? How should we identify and understand parallels between the works in English and those in Spanish? How should we explain contrasts? Of particular interest will be dialogues and influences crossing languages and literary
traditions: Poe and Horacio Quiroga; Hemingway and Borges; Borges/Cortázar inspiring Barth; Rufó’s and García Márquez’s (and others’) influences on US-based Latinx writers.

Readings, assignments, and class discussions will be in English. No prior knowledge of Spanish or Portuguese is necessary. This class is open to all students, without prerequisites.

For English Literature majors and minors, this course can count either as an 18th/19th or 20th/21st century course. Humanities.

1 credit.

**ENGL 071B. The Lyric Poem in English**

English 071B is a survey of the lyric poetry in English from the Middle Ages up to the present, along with a few works read in translation. Students will learn the basics in understanding and enjoying the music of poetry, including scansion and prosody (beats and sounds). They will also learn to appreciate the basic forms of lyric poetry, including ballads and sonnets and many other forms, as well as "free" verse; they will also receive instruction on how to appreciate metaphors, irony, and the many other figures of speech and rhetorical techniques poems employ. They will also gain appreciation of poetic history and the many ways in which poets and their work have historically interacted with their eras, while also creating work that can powerfully speak to us in our present moment.

We’ll use *The Making of a Poem: A Norton Anthology of Poetic Forms* (Ed. Mark Strand and Eavan Boland) and Camille Paglia’s *Break, Blow, Burn*, a collection of essays on some of the most famous poems in English. Other course materials will be posted as needed on the English 71B Moodle site.

This course is focused on great poems from the past (from the medieval era to the twentieth century), but both *Making of a Poem* and Paglia treat us to some very contemporary poems and poets as well.

For majors and minors, this course can count either as a Med/Ren, 18th/19th, or 20th/21st century course, depending on the topics of the majority of the student’s written work. Discuss your options with the professor.

GATEWAY English Literature.

Humanities.

1 credit.

Fall 2019. Schmidt.

**ENGL 071D. The Short Story in the U.S.**

Reading assignments will primarily be short stories, but will also include selected other relevant materials. The course will begin in the early 19th century with masters whose daring and innovative work gave the short story new prominence in literary history: Poe, Irving, Hawthorne, and Melville. The syllabus will include significant late 19th- and early 20th-century authors who built on this legacy (such as James, Chopin, Hemingway, Fitzgerald, Hurston, and Faulkner, among others). After vacation break we’ll turn to later authors such as Eudora Welty, Ray Bradbury, Toni Cade Bambara, Thomas Pynchon, George Saunders, Sandra Cisneros, Jennifer Egan, Edwidge Danticat, and many others. Our syllabus will also feature published work by recent Swarthmore graduates who have gone on to become published fiction writers.

This is a Gateway English Literature course, suitable for anyone’s first or second English literature course. Majors and minors are also welcome. For majors and minors, this course can count either as an 18th/19th or as a 20th/21st century course, depending on the topic of the final research paper.

GATEWAY English Literature.

**ENGL 071K. Lesbian Novels Since World War II**

This course will examine a wide range of novels by and about lesbians since World War II. Of particular concern will be the representation of recent lesbian history. How, for instance, do current developments in cultural studies influence our understanding of the lesbian cultures of the ‘50s, ‘60s, and ‘70s? What is at stake in the description of the recent lesbian past?

20th/21st c.

Humanities.

1 credit.

Eligible for GSSP

**ENGL 071S. Contemporary Life Writing: Form and Theory**

In this course, we will explore contemporary forms of life writing. The term “writing” will be used flexibly to encompass self-representation in visual forms (including graphic memoir, photography, and video). Our topics will include the intersections among autobiography, biography, and fiction; self-narration as a public and political form; and how life writing has become intertwined with theoretical explorations of gender, sexuality, race, and biopolitics. Authors include Gloria Anzaldúa, Alison Bechdel, Theresa Hak Kyung Cha, Jamaica Kincaid, Maggie Nelson, and Paul B. Preciado. Assignments will include a creative life-writing project as well as academic essays with close textual analysis and scholarly argument.

Humanities.

1 credit.

Eligible for INTP

**ENGL 072. Global Modernisms**

In this course, we will survey global fiction from the twentieth- and twenty-first centuries, tracing an arc of modernist literary practices that extends beyond the largely American and European coterie of high modernists. We will put pressure on the geopolitics of literary modernism(s), exploring
how historical currents and theoretical frameworks breed new critical lenses for modernist form. And we will ask: what does it mean to be modernist?

ENGL 076. The World, the Text, and the Critic
This core course introduces students to critical approaches in contemporary global literatures. We will explore how literature represents the relationship between "the West and the Rest," and examine our own relation to colonial and postcolonial histories. Novels include White Teeth, The God of Small Things, and Heart of Redness.

ENGL 077. South Asians in America
This class surveys a century of migration from the Indian subcontinent to the United States. Two questions will guide our readings and discussion: First, what does it mean to identify as South Asian? Second, how do new ethnic identities expand our understanding of what it means to be American? In this interdisciplinary class, we'll read Pulitzer Prize winning authors Jhumpa Lahiri and Ayad Akhtar; discuss what it means to identify as "brown" or "Muslim" after 9/11; and explore the lives of South Asian teenagers in Silicon Valley; political activists in New York City; and workers and artists nationwide. Throughout our readings, we will explore how ethnicity is shaped by differences of gender, religion, sexuality and class.

ENGL 078. Modernism
This course introduces students to high modernism, a period of literary experimentation that spanned the first half of the twentieth century. We will be interested in innovative forms, failed experiments, inner lives, social movements, and the looming shadow of history. Expect to encounter authors such as Conrad, Forster, Woolf, Joyce, Barnes, and Faulkner.

ENGL 078P. Make it New: Modernism and International Experimentation
Ezra Pound's appeal to his contemporaries to "make it new" became the most famous dictum of literary modernism. While the phrase emphasized newness, it was, in fact, appropriated from a Chinese source. How might our understanding of literary modernism change when viewed in an international context? And how might an increasingly global world have contributed to the types of literary experimentation taking place across the globe in the first half of the 20th century? This course examines the explosion of literary and aesthetic experimentation that took place during the modernist period (ca. 1890-1945), with a particular focus on the ways in which formal invention was facilitated by global exploration. While we will primarily read American and British authors, this course will engage with how their writings explored, challenged, or were directly influenced by global texts, contexts, and encounters. Students will explore such topics as Zurich and Berlin Dadaism, French Cubism and Surrealism, Italian and Russian Futurism; and read such authors as T.S. Eliot, Zora Neale Hurston, James Joyce, Ezra Pound, Gertrude Stein, Jean Toomer, Virginia Woolf, and Louis Zukofsky. This course is open to first year students.

ENGL 079. What is Cultural Studies?
What in the world is cultural studies? Focusing on film, art, fashion and music, we'll explore how to read and write about culture and power. Literary close reading will go hand in hand with ethnography, historiography, cinema studies, and aesthetic theory. Highlighting how race, class, sexuality and gender intersect in the production and consumption of cultural texts, the class emphasizes how what we read is part of the world in which we live.

ENGL 080. Introduction to Literary Theory
This course introduces you to a range of theoretical methods for literary interpretation, including feminism, queer theory, Black studies, postcolonialism, Marxism, (new) historicism, ethnic studies, psychoanalysis, Native studies, ecocriticism, disability studies, and book history. We will read a selection of particularly fruitful approaches to understanding literature, including classic texts and exciting recent work; apply these methods to a variety of primary texts; and experiment with how we might extend and remake them in our own critical practices.
ENGL 081. Transgender Life Writing
This course engages the work of writers who identify as transgender, asking about the relationship between intersectional transgender experience and life narrative. How has the closet typically structured narrative and subjectivity? How does transgender writing redefine ideas of character and continuity? How do narrative and intersectional gender theory form and inform one another? How do various writers configure transgendered bodies?
Humanities.
1 credit.
Fall 2020. Johnson.

ENGL 082. Transnational Feminist Theory
This class introduces perspectives from domestic United States and global contexts in order to ask: How do the contributions of women of color in the United States and of feminist movements in the "Third World" radically reshape the form and content of feminist and queer politics? Through critical inquiry into major texts in transnational feminist and queer studies, the course dynamically reconceptualizes the relationship between women and nation; between gender, sexuality and globalization; and between feminist/queer theory and practice.
Humanities.
1 credit.
Eligible for PEAC

ENGL 083. On Violence
A dark lexicon emerged out of the 20th century: total war, genocide, and collateral damage were new terms invented to describe "new" versions of atrocity. But does our ability to name violence mean that we understand it any better? This course explores the aesthetic and narrative structures of violence in modern fiction, film, critical theory, and law. Even as we recognize texts as pertaining to distinct modes (modernism, postmodernism, contemporary literature) we will explore how histories of colonialism and racism condition formal innovation.
20th/21st c.
Humanities.
1 credit.

ENGL 084. Human Rights and Literature: Borderzones of the Human
This course examines how twentieth- and twenty-first-century narratives imagine "the human." Shortly after the signing of the Universal Declaration of Human Rights in 1948, Hannah Arendt argued that the "right to have rights" is not, in fact, universal: in practice, rights are secured by the state. But if human rights operate within the framework of the nation-state, the problems of the contemporary moment do not. How, then, do we begin to imagine the rights-bearing human in an age of mass migrations, privatized militaries, global flows of capital, climate crises, and the world wide web? The first section of this class will be devoted to studying the ways human rights advocacy and practice has traditionally depended upon narrative structures (testimony, witnessing, reportage) and the sympathetic imagination in order to raise awareness of atrocity. The second half of the class will explore how such attempts to narrate the human face new obstacles in the twenty-first century. Course readings will include a wide array of narrative forms, from novels, memoirs, photography and film to ad campaigns, NGO reports, and Freedom Information Act requests. Primary texts will be supplemented by secondary readings (Jacques Derrida, Hannah Arendt, Giorgio Agamben, Joseph Slaughter, Deborati Sanyal, and Eyal Wizeman) and by research labs that will introduce students to local and regional human rights work.
Humanities.
1 credit.

ENGL 087. American Narrative Cinema
(Cross-listed as FMST 021)
This course surveys U.S. narrative film history with an emphasis on the Hollywood studio era. We consider how genres such as the western, the melodrama, and film noir express aspirations and anxieties about race, gender, class and ethnicity in the United States. Film is understood as narrative form, audiovisual medium, industrial product, and social practice. Classical Hollywood is approached as a national cinema, illuminated by attention to independent narrative traditions ("race movies," New Queer Cinema).
20th/21st c.
Humanities
1 credit.
Eligible for FMST

ENGL 089. Race, Gender, Class and Environment
(Cross-listed as SOAN 020M, ENVS 043)
This course explores how ideologies and structures of race, gender, sexuality, and class are embedded in and help shape our perceptions of and actions in the "environment." Drawing on key social and cultural theories of environmental studies from anthropology, sociology, feminist analysis, and science and technology studies, we will examine some of the ways that differences in culture, power, and knowledge construct the conceptual frameworks and social policies undertaken in relation to the environment. The course draws on contemporary scholarship and social movement activism (including memoir and autobiography) from diverse national and international contexts. Topics addressed include, for example, ideas/theories of "nature," toxic exposure and public health, environmental perception and social difference, poverty and natural resource depletion, justice and sustainability, Indigenous environmentalisms, eco-imperialism, and disparate
impacts of global climate change. The course offers opportunities for community-based learning working in partnership with local organizations.

Humanities.
1 credit.
Eligible for BLST, GSST

**ENGL 089B. Environmentally Engaged Literature: Pollutants, Fossil Fuels, and Atomic Bombs**
(Cross-listed as ENVS 044)
Pollutants. Fossil Fuels. Atomic Bombs. In many ways, pesticides, oil, and plutonium structure our lives; they impact our health, our politics, and may even threaten the existence of life itself. Ironically, because these materials permeate nearly every aspect of our existence, the human mind can struggle to comprehend them. In this course, we will read literature that engages with our environment to help us bring humans’ relationship to these materials into focus. Scientific, historical, and economic studies of these materials tend to focus on their scale and widespread impact. Reading poetry, plays, short stories, and novels will allow us to imagine these materials more intimately-through individual, cultural, and aesthetic perspectives. In this course, students will ask: How can literature help us to understand—and perhaps change—our material, economic, and social environments? How has our relationship to materials changed over time? How do environmental and material realities impact cultural production and imagination? Texts under discussion will likely include: Rachel Carson’s *Silent Spring* (1962); Terry Tempest Williams’ *Refuge* (1991); Mark Nowak’s *Coal Mountain Elementary* (2009); Lesley Battler’s *Endangered Hydrocarbons* (2015); Andrew Bovell’s *When the Rain Stops Falling* (2012); Adam Dickinson’s *The Polymers* (2013); and two films: *Hiroshima mon Amour* (dir. Alain Resnais, 1959) and *There Will Be Blood* (dir. Paul Anderson, 2007). Course requirements include active participation; a close-reading paper; an engaged assignment; and a final research paper. All students are welcome.

**GATEWAY English Literature.**

Humanities.
1 credit.
Eligible for ENVS
Fall 2019. Price.

ENGL 089E. Ecofeminism(s)
(Cross-listed as ENVS 042)
An introduction to the central themes and histories of ecofeminist theories and praxis. We will study ecological feminisms/feminist environmentalisms from global perspectives, and examine how these transdisciplinary discourses and movements develop social and cultural critiques of systems of domination, and construct alternative visions for more just and sustainable human-earth relationships. Topics include ecofeminist approaches to: human rights, environmental and climate justice, food and agriculture, animal politics, health and bodies, queer ecologies, economies of "care," militarism and imperialism, and sustainable development. Readings and course materials draw on the works of Vandana Shiva, Donna Haraway, Laura Pulido, Octavia Butler, Joni Seager, Rachel Carson, Winona LaDuke, Julie Sze, Rose Braidotti, Jael Silliman, Starhawk, Eli Clare, Audre Lorde, Silvia Federici, Wendy Harcourt, Betsy Hartmann, Wangari Maathai. First year students need instructor’s approval.

Humanities.
1 credit.
Eligible for ENVS, INTP, GSST, CBL
Fall 2019. DiChiro.

**ENGL 090. Queer Media**
(Cross-listed as FMST 046)
The history of avant-garde and experimental media has been intertwined with that of gender non-conformity and sexual dissidence, and even the most mainstream media forms have been queered by subcultural reception. Challenging Hollywood’s heterosexual presumption and mass media appropriations of LGBT culture, we will examine LGBT aesthetic strategies and modes of address in contexts such as the American and European avant-gardes, AIDS activism, and transnational and diasporan film through the lens of queer theory.

20th/21st c. Humanities.
1 credit.
Eligible for GSST, INTP, DGHU

**ENGL 090A. Minor Characters and Ordinary People: New Methods in History and Literature**
(Cross-listed as HIST 090N)
Novels, social media, close friends, and parents help us feel like main characters in our own lives, but most of us will remain minor, relatively unimportant characters in any larger context. This course will explore the problem of the minor character and the ordinary person from the conflicting and complementary perspectives of the historians and the literary critic, using both traditional and computational methods. Are there formal analytic strategies for interpreting and examining minor characters and ordinary individuals that do not insist on moving them from the margins to the center? Or are all minor characters simply understudy protagonists and consequential people waiting for their time in the spotlight? We will trace this problem through major works of history and literature and through their transformation and interpretation using qualitative and quantitative methods. Students will create an original essay, art project or other work on a minor character or about the idea of minor character as part of the course’s final publication project.
For majors and minors, this course can count
either as an 18th/19th or 20th/21st century course. Humanities.
1 credit.

ENGL 092. Marxist Literary and Cultural Studies
How has Marxist thought informed the study of literature and culture, and how does Marxism speak to us today? This class provides a grounding in the work of Marx and Engels and then investigates how a range of more recent writers have built upon their ideas, particularly in relation to questions about race, gender, sexuality, and late capitalism. We will try out these interpretive approaches on a selection of primary texts, including poetry, pop music, advertisements, radical newspapers, fiction, and film—some assigned and some generated by the class. 20th/21st c. Humanities.
1 credit.

ENGL 094. Aydelotte Seminar on Liberal Arts Education
(Cross-listed as HIST 090L)
The research-intensive, partly project-based Aydelotte Seminar surveys the past and present of liberal arts education, and speculates wildly on its possible futures. Drawing on research, writing, and in-person expertise from inside and outside the academy and from across a wide range of disciplines and methods, the seminar examines how access and financial aid, curricular decisions, diversity, inequality, governance, and knowledge production play out in the context of the liberal arts institution.
Humanities.
1 credit.

ENGL 086. Theory Capstone: Thinking in Crisis
(Cross-listed as HIST 090J, INT 091)
This course explores important works of theory, history, and fiction that were produced during (and in response to) moments of profound social, economic, and political crisis. 20th/21st c.
Humanities.
1 credit.

Creative Writing Workshops
The department offers two types of creative writing courses. One course style focuses primarily on creative work: Poetry Workshop (070A), Fiction Workshop (070B), Advanced Poetry Workshop (070C), and Advanced Fiction Workshop (070H). These workshops are limited to 12 participants, graded CR/NC. Registration for introductory workshops is open but may be decided by course lottery; registration for advanced workshops requires completion of an introductory workshop or permission of the instructor.

Other creative writing courses incorporate more substantial reading and written analytical responses: for example, the First-Year Seminar Grendel’s Workshop (009R), Fantastic Genres (70F), and The Poetry Project (070J). These courses are limited to 12 or 15 participants; some are graded and some are CR/NC; refer to the department web site for the latest information.

ENGL 009R. First-Year Seminar: Grendel’s Workshop
This course will be a study of several traditional literary texts and of modern reshapings of these old stories into new artistic forms. Pairings of old and new will include various versions of Cinderella/Ashputtle, Little Red Riding Hood, Beowulf and Gardner’s Grendel, and Shakespeare’s Hamlet and Stoppard’s Rosencrantz and Guildenstern Are Dead. There will be both critical and creative writing assignments in the class.
John Gardner rewrote the ancient epic Beowulf in modern idiom from the monster’s viewpoint. Tom Stoppard showed us what Rosencrantz and Guildenstern were up to offstage in Shakespeare’s Hamlet. Angela Carter’s Red Riding Hood was fascinated by the company of wolves. Students will study old texts and their modern revisions and then write both critical papers about them and also, using the re-telling models as starting points, reshape their own beautiful or beastly visions in creative writing forms. Here are some retelling slants: What is the story of the rat in Cinderella who is turned into a coachman? What is Ophelia dreaming in Hamlet as she slides into the netherworld of drowning and death? What is the mute lullaby which Grendel’s mother uses to sing him (or herself) to sleep in her underwater cave each night? What might the wolf in LRRH and Grendel have to say to one another over cappuccino in Kohlberg?
This First-year Seminar counts as both a Writing Class (W) and an English Dept. Creative Writing workshop.
Humanities
Writing course.
Fall 2019. Williamson.
Fall 2020. Williamson.

ENGL 070A. Poetry Workshop
This workshop emphasizes each individual’s distinctive voice within the context of contemporary poetics as students work through formal exercises and thematic experiments, reading and commenting on each other’s writing. Attendance at readings required. Limited to 12 students.
Graded CR/NC.
Humanities.
1 credit.
ENGL 070B. Fiction Workshop
This workshop emphasizes development of character, voice, and narrative structure. Students will read and comment on each other’s writing as they work to hone their own styles. Readings from published authors will suggest strategies and points of departure. Attendance at readings is required. Limited to 12 students.
Graded CR/NC.
Humanities.
1 credit.

ENGL 070C. Advanced Poetry Workshop
Poetry books often represent their authors’ conscious statements, made through selection, organization, and graphic presentation. In this workshop, students design and complete their own volumes. Attendance at readings required. Limited to 12 students.
Graded CR/NC.
Prerequisite: ENGL 070A, 070D, 070G, or 070J, or similar workshop elsewhere. Admission and credit determined by instructor.
Humanities.
1 credit.
Fall 2020. Pastan.

ENGL 070F. Fantastic Genres Workshop
This course will both explore readings in the genres of fantasy, science fiction, and horror, and offer participants the opportunity to write in this territory. Selected readings in the course will, it’s hoped, broadly represent the vastly multifaceted body of literatures that collectively make up literature of the fantastic, including "extragenre" or slipstream fictions. No brief collective of novels can hope to represent the breadth of the genres; so we’ll work with a few landmark books supplemented with a lot of short fiction to give participants examples of what they might do with the fiction they compose in the latter half of the semester.
Graded CR/NC. Limited to 15.
Humanities
1 credit.
Fall 2020. Anderson.

ENGL 070G. Writing Nature: Digital Storytelling
(Cross-listed as ENVS 045A)
This course uses the Crum woods as a laboratory setting for the production of multimedia poems and brief memoirs. Digital stories combine spoken words with images, sound, and sometimes video to create powerful short movies. We’ll spend time grappling with some of the stories inherent in the Crum woods ecosystem as well as the multifaceted story of our relationship to the woods. The class will conclude with a public screening of work produced.
Limited to 15.
Humanities
1 credit.
Eligible for ENVS

ENGL 070H. Advanced Fiction Workshop
This class, which will focus on short story writing, is for students who are already fairly comfortable making narratives and developing characters. Through reading, workshop critique, and significant revision, students will experiment with ways to deepen and transform their fiction.
Attendance at readings required. Limited to 12 students.
Graded CR/NC. Admission and credit determined by instructor.
Prerequisite: ENGL 070B or similar fiction workshop, or permission of instructor.
Humanities.
1 credit.
Fall 2019. Pastan.

ENGL 070J. The Poetry Project: Research and Development
Behind the poem’s eloquence, there’s often a structure (scientific, historical, philosophical, literary) supported by focused research. This course examines poetry based on research, and students explore archival resources to write poems suggested by their own researches. Attendance at readings required. Limited to 12 students.
Graded CR/NC. Open to first-year students.
Humanities.
1 credit.
Fall 2019. Anderson.

ENGL 070K. Directed Creative Writing Projects
Supervised individual work in fiction or poetry for course or Honors students. Candidates submit proposals the semester before the project is undertaken. A limited number of proposals can be accepted. Students must consult with creative writing faculty before applying. See the department’s creative writing page for more information.
Graded CR/NC.
Humanities.
1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

ENGL 070L. Creative Writing Outreach
(Cross-listed as EDUC 073)
Where do arts, education and activism meet? In this course students will explore artistic affinities through creative writing activities and consider arts education and advocacy through diverse texts. Students will cultivate skills necessary to becoming Teaching Artists in imaginative writing
at the elementary level through coursework as well as through volunteer placement in local schools. Topics covered include: creative curriculum development and presentation, educational climate for grades K-5 and teaching pedagogy. Limited to 15.

Humanities.
1 credit.
Eligible for CBL

**ENGL 070N. Novel Writing: An Introduction**
Sometimes a short story can be drafted in a great surge of inspiration, but a novel is a different kind of literary beast. How do we prepare ourselves to keep a story going over several hundred pages? What do we need to know in advance, and what might we hope to discover along the way? This workshop is for students who want to write expansively and are interested in the discipline of exploring, deepening, and shaping one fictional idea over a long period of time. Exercises will be assigned and a variety of models will be examined, but reading and commenting on each other’s work will form the core of our work together. Attendance at readings is required. Limited to 12 students.
Graded CR/NC.
Humanities
1 credit.

**ENGL 070R. River Stories**
(Cross-listed as ENVS 045B)
The Delaware River is the longest free-flowing river east of the Mississippi: it is also a repository of American history, from Washington’s midnight crossing during the Revolutionary War through Indian massacres through the era of pollution and the effects of the Clean Water Act. Twelve upper-class students will have the opportunity to spend time on the river before the start of the semester: we’ll take 7-10 days to canoe and/or kayak, camp, explore ecosystems and natural history, visit water treatment centers, write, and gather media (photos, video, sound files). In addition to a traditional English paper and a research essay on environmental issues affecting the Delaware River, students will keep field journals and write poetry, short fiction, and non-fiction prose. One or more of these creative pieces will be turned into a digital story; several will be added to a communal memory map of the Delaware. Graded CR/NC. Limited to 12.
Eligible for ENVS
Fall 2019. Bolton.

**ENGL 070X. Experiments in Nonfiction**
What are the personal and political stakes of writing from life? This workshop is for students interested in exploring non-fiction beyond conventional memoir. From lyric essays to critical life-writing, from hybrid journalism to conceptual writing, students will read and experiment with new forms as well as discuss each other’s work. Students will focus on contemporary writers like Anne Carson, John D’Agata, Claudia Rankine, and Maggie Nelson, while also hearing from other voices gleaned from antiquity to the present. Graded CR/NC. Limited to 15.
Humanities.
1 credit.
Fall 2020. Kashyap.

**Independent Study, Method, and Culminating Exercises**

**ENGL 097. Independent Study and Directed Reading**
Students who plan an independent study or a directed reading must consult with the appropriate instructor and submit a prospectus before the semester in question. Normally limited to juniors and seniors and available only if a professor is free to supervise the project. 0.5 - 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

**ENGL 098. Senior Thesis**
Course majors may pursue a thesis for 1 (40-50 pages) or 2 (80-100 pages) credits. A proposal for the project must be submitted in April of the junior year. Before submitting this proposal, course majors must consult with a prospective faculty supervisor. This work does not replace ENGL 099, required of every course major. Available only if a professor is available to supervise the project. 1 - 2 credits.

**ENGL 099. Senior Course Majors Colloquium**
This colloquium is open to senior course majors in English Literature. Focusing on the senior essay required to complete the major, this class features guest lectures by faculty and critical readings on literary theory and methodology. Short writing assignments in this class will build towards the senior essay, as students work in peer-centered environments as well as individually with the instructor. Students will complete their senior essays by the end of the fall semester. See professor to establish credit category. Prerequisite: ENGL 096 or ENGL 080 Humanities.
1 credit.
Spring 2021. Song.

**Honors Seminars**
Honors seminars are open to juniors and seniors only and require approval of the department chair. Priority is given to honors majors and minors.
English Literature

Medieval and Renaissance Honors Seminars

ENGL 101. Shakespeare
Study of Shakespeare as a dramatist. The emphasis is on the major plays, with a more rapid reading of much of the remainder of the canon. Students are advised to read widely among the plays before entering the seminar.
Med/Ren Humanities.
2 credits.
Fall 2019. Johnson.
Fall 2020. Johnson.

ENGL 102. Chaucer and Medieval Literature
A study of medieval English literature with an emphasis on Chaucer. Texts will include Beowulf, Old English poems, Sir Gawain and the Green Knight, Chaucer’s Canterbury Tales and Troilus and Criseyde, Margery Kempe’s autobiography, selected mystery plays and Everyman, and Arthurian materials. Some works will be in Middle English; others, in translation.
Med/Ren Humanities.
2 credits.

18th and 19th Honors Seminars

ENGL 111. Victorian Literature and Culture
This research-intensive seminar on the Victorian novel as a genre and a material object asks how literature can be both product and producer of its historical moment. Readings include novels by authors like George Eliot, Anthony Trollope, Elizabeth Gaskell, Wilkie Collins, George Meredith, Thomas Hardy, Bram Stoker, and Margaret Oliphant.
18th/19th c.

2 credits.
Eligible for INTP

ENGL 114. Early American Media Cultures
This course borrows some of the methods of new media studies to look anew at the multimedia culture of the 18th- and 19th-century United States. We will study newspapers, maps, wampum, photographs, songbooks, advertisements, and counterfeit money, alongside literary texts that thematize this rich media culture.
18th/19th c.
Humanities.
2 credits.

20th and 21st Honors Seminars

ENGL 116. Redefining US Southern Literature
(Cross-listed as BLST 116)
Our focus this year will be on the long, grand, and problematic tradition of U.S. Southern literature especially fiction in both comic and tragic modes as it developed after the Civil War to the present.
20th/21st c.
Humanities.
2 credits.
Spring 2021. Schmidt.

ENGL 117. Theories and Literatures of Globalization
This seminar examines the literary and cultural dimensions of globalization. Pairing novels and short stories by major global writers with ethnographic and historical texts, we will examine the relationship between colonialism and postcolonialism; modernity and globalization; racial formation and the nation-state. By developing a critical engagement with theories of identity and difference, we will explore the ways in which global literatures engender new politics of nationalism, race, and sexuality.
20th/21st c.
Humanities.
2 credits.

ENGL 118. Modern Poetry
A study of the poetry and critical prose of Yeats, Eliot, Stevens, and H.D., in an effort to define their differences within the practice of "modernism" and to assess their significance for contemporary poetic practice.
20th/21st c.
Humanities.
2 credits.

ENGL 119. Black Cultural Studies
How have black writers both represented and theorized a series of tensions characterizing African American culture since the end of slavery—between past and present, roots and routes, folk and modern, sound and vision, city and country, nation and diaspora, culture and capital, people and power? Motivated by such concerns, this seminar will examine approaches to African American literature that are historical, cultural, and theoretical. Prior work in African American literature and/or Black Studies is recommended.
20th/21st c.
Humanities.
2 credits.
Eligible for BLST

ENGL 121. Modernism and Forgetting
This course is an advanced research seminar on the literatures, cultures, and theories of modernism. Central questions include: How do aspects of psychic life, such as mourning and trauma, exert pressure on literary form? Why do memory’s material traces (the archive, the photograph) enthral the modernist imagination? What ethical or political values attend literary projects of remembering? Of forgetting? We will situate modernist literary practice alongside
psychoanalytic, postcolonial, queer, and feminist critique.
20th/21st c.
Humanities.
2 credits.
Eligible for INTRO

Honors Thesis and Independent Study

ENGL 180. Thesis
A major in the Honors Program may, with department permission, elect to write a thesis as a substitute for one seminar. The student must select a topic and submit a plan for department approval no later than the end of the junior year. Normally, the student writes thesis of 80 to 100 pages, under the direction of a member of the department. The 2-credit thesis project may take place over 1 or 2 semesters.
1 - 2 credits.

ENGL 183. Independent Study
Students may prepare for an honors examination in a field or major figure comparable in literary significance to those offered in the regular seminars. Independent study projects must be approved by the department and supervised by a department member. Deadlines for the receipt of written applications are the second Monday in November and the first Monday in April.
2 credits.

Academic Writing Courses

ENGL 001C. Writing Pedagogy
(Cross-listed as EDUC 001C)
This seminar serves as the gateway into the Writing Associates Fellowship Program. Students are introduced to theory and pedagogy of composition studies and the concept of reflective practice. The seminar asks students to connect theory with practical experience when assessing how best to engage with different student writers and different forms of academic prose. Open only to those selected as WAs. Meets distribution requirements but does not count toward the major.
Graded CR/NC.
Humanities.
Writing course.
1 credit.
Fall 2019. Gladstein
Fall 2020. Gladstein

ENGL 001D. Writing Tutorial
Students enrolled in ENGL 001F or 001H, in consultation with the professor of these courses, may enroll in the tutorial. Students will set up an individual program to work with the professor on writing for the course or other courses. Students take the tutorial in conjunction with ENGL 001F or ENGL 001H, or they may take it in a subsequent semester.
Humanities.
0.5 credit.

ENGL 001F. First-Year Seminar: Transitions to College Writing
This class introduces students to the different genres of writing required at the College. Through assignments and class readings students learn what they might need to transition from writing in high school to writing at Swarthmore. Meets distribution requirements but does not count toward the major. Students may take ENGL 001F and an English Literature first-year seminar (ENGL 008 A-Z and 009A-Z).
Humanities.
Writing course.
1 credit.
Fall 2019. Newmann Holmes. Mera Ford.

ENGL 001J. First-Year Seminar: Persuasion
This course will ask students to interrogate the tools of oral and written persuasion across different academic and public discourse communities. We will look at such topics as activism, marketing, and political campaigns. Students will engage with such questions as: How do we listen and empathize with others in order to argue from one’s own position? How do we use lived experience to support or advance a narrative and what responsibilities do we, as author, have to authenticate the experience? How do we use images to speak to different audiences? Students will be able to critically examine how persuasion works in their own communications and the communications of others in real contexts.
Humanities.
Writing Course.
1 credit.

ENGL 002M. Medical Writing and Rhetoric
This course introduces students to the field of medical humanities and to typical genres of writing within medicine. By analyzing texts and narratives by physicians and other health practitioners, we will identify and assess rhetorical strategies used to communicate with specialist and non-specialist audiences. By composing their own patient or witness narratives, students will further develop effective rhetorical techniques to engage both a scholarly and civic audience. We will also explore representations of medical (mal)practice from popular culture to interrogate dominant myths-perpetuated through visual, digital, and written media—that inform the social and rhetorical contexts of medical discourse.
Humanities.
Writing.
ENGL 002V. Visual Rhetorics and Multimodal Writing: Making arguments with image, text, and sound

We live in visually-mediated times. The rhetorical power of images - to inform, persuade, and manipulate - is especially worthy of our attention as 21st-century writers. Increasingly, whether in the sciences, humanities, or in popular discourse, we are asked to create multimodal texts - that is, texts which combine visual, aural and alphabetic modes. In English 2V students will gain hands-on experience producing maps, video essays, and argument-driven essays for online audiences and analyzing multimodal arguments made by others. Students will revise projects in response to feedback from classmates, the professor, and other readers/audience members, and class time will be given to developing both traditional and multimodal writing processes.

Humanities. Writing Course. 1 credit. Spring 2020. Newmann Holmes

ENGL 002W. Words Matter: Crafting and Critiquing Rhetorically Effective Styles

What does it mean to write an awkward or a clear sentence? Who determines what counts as appropriate or "good" writing, and how are such notions of standardized English currently being challenged? Can a scholarly voice be an authentic, personal voice, too? In this course, we will examine the grammatical building blocks of written style while scrutinizing larger cultural concerns about the effectiveness of distinct styles. We will explore the social and political implications of norms for academic, civic, and professional discourse and seek to equip students to make rhetorically savvy stylistic choices in their own writing for a variety of purposes and audiences.

Humanities. Writing Course. 1 credit. Spring 2020. Mera Ford

ENGL 003A. Independent Study and Directed Reading in Writing Studies

Students who plan an independent study or a directed reading must consult with the appropriate instructor and submit a prospectus for such work before the beginning of the semester during which the study is actually done. The course is available only if a professor is free to supervise the project.

Humanities. 0.5 or 1 credit.

ENGL 005. Journalism Workshop

An introduction to news gathering, news writing, and journalism ethics. Students learn the values, skills, and standards crucial to high-quality journalism. They write conventional news stories, narratives, profiles, non-deadline features, trend stories, and point-of-view articles on a beat of their choosing. Guest speakers include award-winning reporters and editors. This course counts as a general humanities credit and as a writing course, but does not count as a credit toward a major or minor in English literature. This course is open to first year students.

Why Environmental Studies? Why now?
Profound anthropogenic changes are occurring in the land, water, and air around us, with the result that human societies face greater changes and environmental challenges than we have ever known. Global population is expected to exceed nine billion by 2040; global energy consumption is rising sharply while even present-day carbon emissions intensify global warming. Along with global warming, trends such as deforestation, mass extinctions, and eutrophication threaten the finely-balanced marine and terrestrial ecosystems on which we rely for food, water, shelter, and more. Sea-water rise along with increasing heat and drought will create climate refugees and resource conflicts on unprecedented scales. Responding to these crises requires all the creativity and rigor and compassion we can gather—including the cultivation of intellectual skills that until recently were housed in discrete and disparate disciplines. Environmental studies brings together the natural sciences and engineering, the humanities, and the social sciences to tackle environmental issues of great complexity and socio-political importance. In relation to climate change, for instance, natural scientists provide data to understand the scope of the problem and the processes that result in global warming, social scientists help to understand and craft policies around human behaviors that cause climate change, and humanists provide the moral and historical framework to understand our obligation to action and the tools to communicate environmental values. Only an integrated, interdisciplinary approach can address the extremity and complexity of the challenges we face: students must learn to think across and through disciplines in order to become the kinds of problem-solvers our societies so urgently need.

First Course Recommendations
While Intro to Environmental Studies (ENVS 001) is taught in the spring semester and we encourage all interested students to take it as soon as possible, there are also Environmental Studies courses offered each fall that are open to first-year students. Students interested in possibly majoring or minoring in ENVS should look at the fall ENVS course offerings and consider taking one of those courses if possible.

The Academic Program

Course Major
Students majoring in Environmental Studies will complete ten credits in the program, including Introduction to Environmental Studies; two Environmental Science and Technology credits, including at least one lab course; two Environmental Social Science credits; two Environmental Arts and Humanities credits; a four-credit topical or disciplinary focus designed by the student in conversation with the faculty coordinator; and the Environmental Studies Capstone or a thesis. Two of the credits can count both toward the four-credit focus and toward the distribution requirements in the three divisions. While students may opt to take ENVS credit/no-credit while they are exploring possible majors, once a student declares a major or minor in ENVS, courses used to meet the major or minor requirements may not be taken CR/NC. Environmental Studies courses at Bryn Mawr and Haverford can also be applied to the major or minor.

Course Minor
Students minoring in Environmental Studies take at least six credits in the program, consisting of the Introduction to Environmental Studies; two Environmental Science courses; two Environmental Social Science or Humanities courses; and the Environmental Studies capstone or another upper-level Environmental Studies course.
Environmental Studies

While students may opt to take ENVS credit/no-credit while they are exploring possible majors, once a student declares a major or minor in ENVS, courses used to meet the major or minor requirements may not be taken CR/NC.

Honors Major
Honors majors will complete all of the requirements for the course major, and will also designate three two-credit preparations on which they will be examined. These preparations may either be two-credit seminars that count toward ENVS (e.g. ECON 176, Environmental Economics, BIOL 137, Biodiversity and Ecosystem Functioning) or combinations of two one-credit courses that have been approved by the ENVS program as suitable combinations for honors preparations. Students writing their sophomore plans should consult with the Faculty Coordinator and their advisor for the current list of approved preparations.

Honors Minor
Honors minors in Environmental Studies must complete all of the requirements for the course minor while also proposing one honors preparation as outlined above.

Overview of the Curriculum
a) ENVS 001: Introduction to Environmental Studies. This is a team-taught, interdisciplinary introduction to the field of Environmental Studies. Faculty instructors are drawn from the natural sciences and engineering on the one hand and from social sciences and humanities on the other in order to ensure cross-disciplinary perspectives and connections. Students interested in majoring or minoring in Environmental Studies should take this course as early as possible; we anticipate that most students declaring a major or minor will have taken it by the sophomore year.

b) Two Environmental Social Science courses. We expect our students to grasp the fundamentals of economic policies, environmental histories, and socio-cultural formations; we also want them to be able to design, conduct, and analyze empirical research.

c) Two Environmental Arts and Humanities courses. We want our students to be able to analyze rhetorical strategies of individual texts and broader discourse communities (e.g. climate justice movements as well as climate denial). We want them to question the assumptions underlying existing cultural structures and explore alternatives. When possible, we want them to develop creative skills to help them inspire and motivate others.

d) Two Environmental Science and Technology courses, including at least one lab course. We expect our students to be able to conduct inquiry-based science, working with raw data as well as understanding data produced by others.

e) A four-course topical or disciplinary focus, including elements of methodological development and practical engagement (praxis). This focus offers our students the opportunity to develop their own areas of expertise while also developing greater depth and breadth in interdisciplinary problem-solving. Sample thematic and disciplinary foci are listed below. Two of the credits that count toward the distribution requirements in b-d above can also count toward the four-course focus. Prospective majors should specify the details of their four-course focus (both the overall theme and the courses they plan to use) in their Sophomore Plan of Study.

f) Environmental Studies Capstone. The capstone brings graduating seniors back together to work on collaboration and to share their diverse talents and backgrounds in tackling a shared topic or challenge. The capstone meets the requirement for the senior comprehensive experience.

Sample thematic foci:

- **Food**: ENVS/Biol 009 Our Food; ENGR 010 Fundamentals of Food Engineering; ENVS 052/CHIN 086 Chinese Food, Culture and Farming; PHYS 024 Earth’s Climate and Global Warming.
- **Disasters**: ENVS 006 Visions of the End; ENVS 026 Environmental History of the Soviet Union; ENVS 031/PEAC 055/SOCI 055C Climate Disruption; ENVS 051/JPNS 035 Narratives of Disaster and Rebuilding in Japan.
- **Sustainability**: ENVS 085 Urban Environmental Community Action; ENVS 089 Sustainability Research Methods [2 credits]; ENVS 092A Directed Reading: UNFCCC COP.; Independent Study Project.
- **Asia** (courses developed through Luce Initiative on Asian Studies and the Environment): CHIN 089 Tea Culture; CHIN 087/POLS 087 Water Policies, Water Issues: China & US; POLS 088 Environmental Governance in China; ENVS 052/CHIN 086 Food, Culture, and Farming in China.

Sample disciplinary foci:

- **Environmental Biology**: BIOL 036 Ecology; BIOL 037 Conservation Biology; BIOL 137 Biodiversity and Ecosystem Function [2 cr]
- **Environmental Economics**: ECON 055 Behavioral Economics; ECON 081 Economic Development; ECON 176 Environmental Economics [2 cr]
- **Environmental Engineering**: ENVS 075/ENGR 063 Water Quality and Pollution Control; ENVS 076/ENGR 066 Environmental Systems; ENVS 077/ENGR 035 Solar Energy Systems; ENVS 078/ENGR 057 Operations Research
Environmental Studies

Environmental Literature: ENVS 042/ENGL 089E Ecofeminism(s); ENVS 043/ENGL 089/SOAN 20M Race, Gender, Class, and Environment; ENVS 044/ENGL 089B Materials that Matter; ENVS 045B River Stories or ENVS 040/RELG 022 Religion and Ecology.

Off-Campus Study

In addition to the two Swarthmore-specific ENVS study abroad programs outlined below, there are many programs that offer environmental opportunities in their coursework. ENVS majors who study abroad often use courses from that experience as an integral part of their four-course focus.

Swarthmore's Central European Programs in Brno, Czech Republic and Krakow, Poland

Swarthmore operates closely related environmental study abroad programs in Central Europe hosted by Masaryk University in Brno, Czech Republic and by the Jagiellonian University and Politechnika Krakowska in Krakow, Poland. Students usually take three environmentally related courses, taught in English, as well as a required language and culture course that includes intensive language instruction in either Czech or Polish. The Brno program, based in Masaryk University’s Department of Environmental Studies, focuses primarily on environmental social sciences and humanities. An internship at one of two environmental NGO’s, supervised by faculty for academic credit, is available at either Hnuti Duha (Czech branch of Friends of the Earth) or the Veronica Sustainability Center. The Krakow program, based in Politechnika Krakowska’s Department of Environmental Engineering, focuses primarily on environmental science and technology. For more information, see the website: https://www.swarthmore.edu/ceurope/.

Cape Town South Africa Program on Globalization, Environment, and Society

Swarthmore is a member of a consortium with Macalester and Pomona Colleges that sponsors a junior year environmental study abroad program in collaboration with the University of Cape Town, South Africa. Students from the three consortium schools, as well as those schools under consortium agreements with the three schools, may apply. For more information, see the website: https://www.swarthmore.edu/environmental-studies/globalization-environment-society-study-abroad-south-africa

Environmental Studies Courses

ENVS 001-019 Introductory Courses

ENVS 001. Introduction to Environmental Studies
Built around four case studies, this course provides a broad introduction to the inherently interdisciplinary work of environmental studies by providing historical background and examining options for action using tools from a variety of perspectives, chiefly from the sciences and social sciences. Course themes include tragedy of the commons issues, and rights and environmental justice; sustainable development, including increasing urbanization of humanity, population growth, and Kuznets curve; global climate change science and debate; feedback loops and tipping points; and community adaptation and resilience. Non-division.
1 credit.
Spring 2021. Staff.

ENVS 009. Our Food
(Cross-listed as BIOL 009)
The scale and efficiency of our food system is one of the marvels of the modern world. Yet in many ways this system is broken. This course will address the current state of our agricultural food system from a scientific perspective, focusing on the U.S. Each student will grow and maintain a micro-garden plot as part of the class, as well as develop educational signage for the public that conveys information about agriculture or their crop. Three hours of lecture/discussion/lab and one floating hour of fieldwork per week. One field trip.
1 credit.
Eligible for ENVS.

ENVS 010. Earth’s Climate and Global Warming
(Cross-listed as PHYS 001C)
A study of the complex interplay of factors influencing conditions on the surface of the Earth. Basic concepts from geology, oceanography, and atmospheric science lead to an examination of how the Earth’s climate has varied in the past, what changes are occurring now, and what the future may hold. Besides environmental effects, the economic, political, and ethical implications of global warming are explored, including possible ways to reduce climate change.
Natural sciences and engineering.
1 credit.
Eligible for ENVS, GLBL-Core
Fall 2019. Jensen.

ENVS 020-039 Social Sciences

ENVS 022. Environmental Policy and Politics
(Cross-listed as POLS 043)
Topics in environmental politics, policy, and law. In the United States, we focus on national regulation and proposals for more flexible responses to achieve environmental goals;
environmental movements and environmental justice; the role of science in democratic policy-making; courts and the impact of federalism, the commerce clause, and rights on regulation. The course also considers the role and efficacy of supranational institutions and NGOs and controversies between more and less developed nations. Topics include most of the following: air and water pollution, common-pool resource problems, toxic and radioactive waste, sustainable development, food, natural resource management, wilderness, environmental racism, effects of climate change.
1 credit.
Eligible for ENVS, CBL
Fall 2020. Nackenoff.

ENVS 023. Politics of Population
(Cross-listed as POLS 048)
The role of population and demographic trends in local, national, and global politics will be examined. Topics include the relationship between population and development, causes of fertility decline, the impact and ethics of global and national family planning programs, and contemporary issues such as population aging and the AIDS pandemic.
1 credit.
Eligible for ENVS
Fall 2019. White.
Fall 2020. White.

ENVS 031. Climate Disruption, Conflict, and Peacemaking
(Cross-listed as PEAC 055)
The course will examine several ways in which climate change is a driving force of violent and nonviolent conflict and creates opportunities for peacemaking and social justice. Already, climate change has been identified by the U.S. military as a threat to national security, offering a new rationale for expanding the military industrial complex. Demands on scarce resources generate and exacerbate regional conflicts and drive mass movements of refugees. Behind these dramatic manifestations of climate stress lie extensive corporate and national interests and hegemonic silences that emerging conflicts often reveal. Conflict also brings new opportunities for peacebuilding, cooperation, and conflict resolution. Climate crises have renewed and expanded local and global movements for environmental justice and protection, many of which have historical connections with the peace movement. In support of the college’s carbon charge initiative, we will dedicate part of the course to understanding what constitutes the social cost of carbon and how it is represented in carbon pricing, particularly with respect to increasing frequencies of armed conflict and extension of the military industrial complex.
Social Science.
1 credit.
Eligible for ENVS, PEAC
Fall 2019. Smithey.

ENVS 035. Environmental Justice: Theory and Action
(Cross-listed as POLS 043B) Examines historical, political, and activist roots of the field of environmental justice. Using interdisciplinary approaches from political ecology, environmental science, history, geography, cultural studies, and social movement theory, we analyze diverse environmental justice struggles and community activism in contemporary environmental issues such as: air quality and health, toxic contamination and reproductive issues, sustainable agriculture and food security, fossil energy-coal, oil, hydro-fracking and livelihoods, climate change and climate justice. Course incorporates a community-based learning component.
1 credit.
Eligible for CBL, ENVS, PEAC
Fall 2019. Di Chiro. Taught in Philadelphia as part of the Tri-Co Philly Program.

ENVS 040. Religion and Ecology
(Cross-listed as RELG 022) This course focuses on how different religious traditions have shaped human beings’ fundamental outlook on the environment in ancient and modern times. In turn, it examines how various religious worldviews can aid the development of an earth-centered philosophy of life. Thesis of this course is that the environment crisis, at its core, is a spiritual crisis because it is human beings’ deep ecocidal dispositions toward nature that are the cause of the earth’s continued degradation. Course topics include ecological thought in Western philosophy, theology, and biblical studies; the role of Asian religious thought in forging an ecological worldview; the value of American nature writings and a community-based learning component.
1 credit.
Eligible for PEAC
Fall 2019. Wallace.

ENVS 042. Ecofeminism(s)
(Cross-listed as ENGL 089E) An introduction to the central themes and histories of ecofeminist theories and praxis. We will study ecological feminisms/feminist environmentalisms from global perspectives, and examine how these transdisciplinary discourses and movements develop social and cultural critiques of systems of domination, and construct alternative visions for more just and sustainable human-earth

ENVS 043. Race, Gender, Class, and the Environment
(Cross-listed as ENGL 089, SOAN 020M)
This course explores how ideologies and structures of race, gender, sexuality, and class are embedded in and help shape our perceptions of and actions in the "environment." Drawing on key social and cultural theories of environmental studies from anthropology, sociology, feminist analysis, and science and technology studies, we will examine some of the ways that differences in culture, power, and knowledge construct the conceptual frameworks and social policies undertaken in relation to the environment. The course draws on contemporary scholarship and social movement activism (including memoir and autobiography) from diverse national and international contexts. Topics addressed include, for example, ideas/theories of "nature," toxic exposure and public health, environmental perception and social difference, poverty and natural resource depletion, justice and sustainability, Indigenous environmentalisms, eco-imperialism, and disparate impacts of global climate change. The course offers students opportunities for community-based learning working in partnership with local organizations. 1 credit. Eligible for BLST, ENVS, GSST Spring 2020. Di Chiro.

ENVS 045B. River Stories
(Cross-listed as ENGL 070R)
The Delaware River is the longest free-flowing river east of the Mississippi: it is also a repository of American history, from Washington’s midnight crossing during the Revolutionary War through Indian massacres through the era of pollution and the effects of the Clean Water Act. Twelve upper-class students will have the opportunity to spend time on the river before the start of the semester: we’ll take 7-10 days to canoe and/or kayak, camp, explore ecosystems and natural history, visit water treatment centers, write, and gather media (photos, video, sound files). In addition to a traditional English paper and a research essay on environmental issues affecting the Delaware River, students will keep field journals and write poetry, short fiction, and non-fiction prose. One or more of these creative pieces will be turned into a digital story; several will be added to a communal memory map of the Delaware. Graded CR/NC. Limited to 12. 1 credit. Eligible for ENVS Fall 2019. Bolton.

ENVS 080-089 Project-based Learning
ENVS 089A. Sustainability Research and Action
This course helps students develop skills in a wide range of research-related skills, ranging from theories of change and content-specific research strategies, through self-management, project management, communication, engagement, and presentation skills. Guest presenters will help students understand the growing field of sustainability from a variety of different perspectives. This course supports the President’s Sustainability Research Fellowship. This course is only open to PSRF students, who have to apply for the program and be accepted in the preceding spring. Students enrolled in ENVS 089A will automatically be enrolled in ENVS 089B in the spring semester. 1 credit. Eligible for CBL, ENVS Fall 2019. Everbach, Winslade. Fall 2020. Staff.

ENVS 089B. President’s Sustainability Research Fellowship
This course helps students develop skills in a wide range of research-related skills, ranging from theories of change and content-specific research strategies, through self-management, project management, communication, engagement, and presentation skills. Guest presenters will help students understand the growing field of sustainability from a variety of different perspectives. This course supports the President’s Sustainability Research Fellowship. This course is only open to PSRF students, who have to apply for the program and be accepted in the preceding spring. Students enrolled in ENVS 089A in the fall semester will automatically be enrolled in ENVS 089B in the spring semester. 1 credit. Eligible for CBL, ENVS Spring 2020. Staff.

ENVS 090-099 Directed Reading, Independent Project, Capstone
ENVS 091. Capstone Seminar
The culminating experience of the environmental studies major or minor is the capstone seminar course. Under the direction of a faculty member, students with a variety of backgrounds concentrate
Environmental Studies

on a single, environmental topic. Recent examples include: "Oceans in Peril," "Environmental Justice," and "The Green Campus: Swarthmore and Sustainability." The class members collectively work on a major initiative as part of the course. These projects have led to a sustainability action plan for the College, a map illustrating environmental justice in Delaware County, Pa., and a conference about watershed restoration.

1 credit.

Spring 2020. Staff.
Spring 2021. Staff.

ENVS 092A. UNFCCC COP
Swarthmore student delegates to the annual Conference of the Parties to the United Nations Framework Convention on Climate Change join faculty delegates in preparing for the conference by reading materials generated by the Intergovernmental Panel on Climate Change, academic analyses of the conference structure (strengths and limitations), and analyses of current issues under discussion. As a part of this course, student delegates will maintain a UNFCCC blog and also engage the campus community in the work of the UNFCCC through presentations, workshops, and/or other events.

0.5 credit.

ENVS 110. The Nature of Romanticism
ECON 176. Environmental Economics
This seminar examines the microeconomics of environmental issues with applications to the design of environmental policy. The seminar will cover the concepts and methods used in the valuation of environmental goods as well as the design of policy instruments and regulations to improve environmental quality. Specific topics include pollution and environmental degradation, the use of renewable and non-renewable resources, and climate change.

Prerequisite: ECON 011 and ECON 031 (or its equivalent), and single-variable calculus (MATH 025 or higher). Social sciences.
2 credits.
Eligible for ENVS
Fall 2019. Peck.

SUNKA SIMON, Professor
RODNEY EVANS, Visiting Assistant Professor

Affiliated Faculty: Timothy Burke (History)
William Gardner (Modern Languages and Literatures, Japanese)
Haili Kong (Modern Languages and Literatures, Chinese)
Maya Nadkarni (Sociology and Anthropology)
Carina Yervasi (Modern Languages and Literatures, French)

1 Absent on leave, fall 2019.

Film and media are crucial and pervasive dimensions of contemporary culture. The development of formal understanding, historical knowledge, and critical literacy about media texts, technologies, and practices is central to a liberal arts education in the twenty-first century. The Department of Film and Media Studies offers classes that explore the history, theory, aesthetics, and social and cultural aspects of media forms including cinema, television, online video, digital games, and media art. The program teaches research and analytical methods as well as digital production skills and approaches and encourages cross-cultural comparisons as well as attention to audiences and institutions. Our hybrid curriculum blends critical studies with critical making, often within the same course.

The Academic Program
The Film and Media Studies Department offers a range of courses in critical studies and production and awards credit for majors and minors taking approved offerings from other departments, programs, and institutions, including Bryn Mawr, Haverford, and the University of Pennsylvania. Students may major or minor in film and media studies, including in the Honors Program. FMST 001 is the prerequisite for advanced work in the major or minor and is recommended preparation for any course in the department except first-year seminars. In addition to class meetings, most courses require weekly evening screenings. Production courses are limited to 10 students and may not be taken pass/fail.

First Course Recommendations
FMST 001. Introduction to Film & Media Studies presents forms and histories of film and other moving-image media, as well as key concepts, theories, and methods in the discipline of film and media studies. We begin with analysis of the elements of film form; explore narrative, documentary, experimental and genre formats; and conclude with perspectives on authorship, national cinema, and other topics in film and media theory. Emphasis is on developing critical viewing, writing, research, and multimedia authoring skills. Required weekly evening screenings of works from diverse periods, countries, and traditions. FMST 001 is the prerequisite for most other FMST classes.

Course Major
Requirements
Majors must take a minimum of 10 credits, among which the following are required:
FMST 001 Introduction to Film and Media Studies
FMST 020 Critical Theories of Film and Media
FMST 090 Senior Capstone
1 course that offers historical depth in a national or transnational cinema tradition (generally: any class numbered 50-60, FMST 21, FMST 22, or approved abroad courses).
1 production course. The department strongly suggests FMST 002: Digital Production Fundamentals. Students may also take FMST 011: Advanced Digital Production; FMST 015: Screenwriting; a hybrid critical studies/production class numbered 30-39; or an approved course taken at another institution or in another department).
1 course that offers historical depth in a national or transnational cinema tradition (generally: any class numbered 50-60, FMST 21, FMST 22, or approved abroad courses).
Remainng courses and seminars should be selected to achieve breadth and depth in the discipline and balance between critical studies and production courses. Courses in a major may include no more than four approved credits drawn from film and media offerings at Bryn Mawr, Haverford, or the University of Pennsylvania; courses in the discipline taken abroad or at other U.S. institutions; or approved offerings from other Swarthmore departments and programs.

Acceptance Criteria
To be accepted as a major, students must have completed FMST 001 and have completed or be currently enrolled in at least one additional FMST course. Haverford students may apply for the Swarthmore major after consulting with advisors at both colleges.
Bryn Mawr students cannot major or minor in FMST at Swarthmore and should consult with
their advisors about options available to them at Bryn Mawr College.

Course Minor

Students may add a minor in Film and Media Studies to any major.

Requirements

All minors must take a minimum of 5 credits, which may be selected from the courses and seminars listed or from approved courses taken abroad, at Bryn Mawr, Haverford, or University of Pennsylvania. The 5 credits must include FMST 001: Introduction to Film and Media Studies and FMST 090: Capstone, normally taken in the senior year. No more than two credits taken outside FMST can be counted toward the minor.

Acceptance Criteria

To be admitted to the minor, students must have satisfactorily completed one film and media studies course. Haverford students may apply for the minor after consulting with advisors at both colleges and supplying a rationale explaining why their intended plan of study can only be completed in FMST.

Honors Major

Students in the Honors Program may major in Film and Media Studies by meeting the requirements for the major and by preparing for and taking three external exams. The exam preparations should include FMST seminars numbered 100 and higher, if offered, and FMST 090 plus a 1-credit honors attachment. Other 2-credit honors preparations may incorporate a 1- or 2-credit thesis or creative project or other course or seminar work with the approval of the film and media studies chair. Senior honors study (SHS) consists of a revised essay and/or short film submitted for a course or seminar in the preparation. No SHS is required for a thesis or creative project.

Honors Minor

Requirements

Students in the Honors Program may minor in film and media studies by meeting the requirements for the minor and by preparing for and taking one external exam. The exam preparation usually consists either of a 2-credit FMST seminar or FMST 090 plus a 1-credit honors attachment; however, the 2-credit honors preparation may incorporate a 1- or 2-credit thesis or project or other course or seminar work with the approval of the film and media studies chair. Senior honors study (SHS) consists of a revised essay or short film submitted for a course or seminar in the preparation. No SHS is required for a thesis or creative project.

Acceptance Criteria

Students wishing to complete the honors minor must have received a grade of B+ or better in all film and media studies courses.

Thesis / Culminating Exercise

FMST 090: Capstone is considered the culminating exercise for majors and minors. Occasionally senior majors may be permitted to write a 1- or 2-credit thesis or to make a thesis film in addition to their work in the capstone; applications must be submitted and approved in the semester before the project is to be undertaken.

Advanced Placement/International Baccalaureate Credit

Consult with the department chair to determine eligibility of AP or IB work.

Transfer Credit

Students may apply two approved transfer credits to their FMST major.

Off-Campus Study

Students in any major may apply to receive film and media studies credit for courses in critical media studies or production taken abroad or on other campuses. Please consult with your advisor as you plan your study abroad for recommended programs. Two approved credits may be applied to the FMST major or minor.

Film and Media Studies Courses

FMST 001. Introduction to Film and Media Studies

In this course students are presented with forms and histories of film and other moving-image media, as well as key concepts, theories, and methods in the discipline of film and media studies. We begin with analysis of the elements of film form; explore narrative, documentary, experimental and genre formats; and conclude with perspectives on authorship, national cinema, and other topics in film and media theory. Emphasis is on developing critical viewing, writing, research, and multimedia authoring skills. Required weekly evening screenings of works from diverse periods, countries, and traditions. FMST 001 is the prerequisite for most other FMST classes.

Humanities.
1 credit.
Eligible for FMST, DGHU
Fall 2019. Rehak.
Fall 2020. Simon

FMST 002. Digital Production Fundamentals

This course introduces students to the expressive possibilities and rigors of the film medium while
Film and Media Studies

offering a sound technical foundation in digital production and post-production. We will explore documentary, experimental, and narrative approaches and also consider the opportunities and limitations-conceptual, practical and aesthetic-of exhibiting work through different venues and platforms. Emphasis will be on using the formal and conceptual palette introduced in the course to develop one’s own artistic vision. Coursework includes short assignments, discussions, screenings, and a final project.

Prerequisite: FMST 001 or Instructor Permission.

Humanities.
1 credit.

Eligible for FMST, DGHU

FMST 005. First-Year Seminar: Special Effects and Film Spectacle

Focusing on the history and theory of spectacular media culture with an emphasis on visual effects and other forms of behind-the-scenes industrial knowledge, this class introduces students to the basics of studying and writing about spectacle in film, television, and digital entertainment, exploring questions such as the relationship between style and technology; formal and narrative principles of "showstoppers" such as musical numbers and fight scenes; and issues of realism and illusion, visual pleasure, sensory immersion, capitalism, cultural worth, and ideology.

Humanities.
Writing course.
1 credit.

Eligible for FMST

FMST 009. First-Year Seminar: Women and Popular Culture

This course looks at a range of genres associated with female audiences in the US since the late 19th century across print, film, television, and new media. These include sentimental novels, gothic romances, magazines, "women’s pictures," soaps, chick flics, fanfic and Tumblr. What is the relation between mass culture aimed at women, cultural production by women, and feminist politics and critique? How do race, class, gender identity, and sexuality intersect with gendered genre conventions, discourses of authorship and critical evaluation, and the paradoxes of popular cultural pleasures?

Humanities.
Writing course.
1 credit.

Eligible for FMST, DGHU, GSST
Fall 2020. White.

FMST 011. Advanced Digital Production

This course is an advanced filmmaking workshop for students with prior production experience. Through practical workshops in pre-production, sound production, cinematography, and editing, students advance their technical, aesthetic, and storytelling skills beyond the fundamentals. Through reading, discussion, and exposure to a variety of creative practices within film and video, the course promotes a critical understanding of these media. Production coursework includes collaborative exercises and the completion of a short film-documentary, narrative, or experimental culminating in a final project screening. This course is designed to help students develop their voice as filmmakers through the creation of high-quality works and is strongly recommended for students interested in producing a senior film project.

Prerequisite: FMST 001, and FMST 002 or equivalent production experience with instructor’s approval.

Humanities.
1 credit.

Eligible for FMST
Fall 2020. Evans.

FMST 015. Screenwriting

This course introduces students to the fundamentals of screenwriting while enabling them to explore their unique sensibility as writers. We consider how screenplays differ from other dramatic forms and understand what makes good cinematic storytelling. By looking at short and feature-length scripts and films, we examine issues of structure, character development, effective use of dramatic tension and dialogue, tone, and theme. Through in-class exercises and discussions, students flesh out their ideas and grapple with their writing in a supportive workshop atmosphere.

Coursework includes screenings, short assignments, and the completion of several drafts of a short screenplay. No previous writing experience required.

Prerequisite: Instructor’s approval.

Humanities.
1 credit.

Eligible for FMST

FMST 016. The Director/Actor Collaboration

This course focuses on the importance of the relationship between the director and the actor and the use of improvisation in rehearsal and production to create more powerful performances for film and television. Texts and films examined in the first half of the course will include THE IMPROVISED PLAY: THE WORK OF MIKE LEIGH by Paul Clements, DIRECTING ACTORS by Judith Weston, THE COOL WORLD by Shirley Clarke, VERA DRAKE by Mike Leigh and OLD CATS by Sebastian Silva. The second half of the semester will include in-class exercises, open rehearsals with professional actors and individual student films that put some of the
examined techniques into practice. The course will also include special workshops and Q&A’s with guest filmmakers.

FMST 2 or an equivalent introductory film/video production course in the TriCo with a working knowledge of the Premiere Pro Editing software is required for this course.

Prerequisite: FMST 001 or FMST 002

Humanities
1 credit.
Eligible for FMST
Fall 2019. Evans.

**FMST 020. Critical Theories of Film and Media**

Film critic André Bazin’s famous question, “What is cinema?,” gained new relevance with the advent of digital media. This course introduces classical film theory (theories of modernity and perception, montage, realism), contemporary film theory (theories of film language, ideology, the cinematic apparatus, and spectatorship), approaches that cut across media (authorship, genre, stardom, semiotics, narratology, feminism, production and reception studies, cognitivism), and theorizations of new media. Through readings and weekly screenings, we explore the significance of film and other media in shaping and expressing our identities and cultural experiences. Strongly recommended for FMST majors and minors.

Prerequisite: FMST 001.

Humanities.
1 credit.
Eligible for INTP, FMST, DGHU

**FMST 021. American Narrative Cinema**

(Cross-listed as ENGL 087)

This course surveys U.S. narrative film history with an emphasis on the Hollywood studio era. We consider how genres such as the western, the melodrama, and film noir express aspirations and anxieties about race, gender, class and ethnicity in the United States. Film is understood as narrative form, audiovisual medium, industrial product, and social practice. Classical Hollywood is approached as a national cinema, illuminated by attention to independent narrative traditions ("race movies," New Queer Cinema).

Humanities.
1 credit.
Eligible for FMST, ENGL

**FMST 022. Cinema and Modernity, 1894-1934**

This course explores the first decades of film history in the context of global modernity and artistic modernism. In form and content, silent-era cinema functioned as both a vector and a reflection of the transformative subjective and social experiences of modernity. Urbanization, immigration, consumerism, and women’s participation in the labor force were refracted in silent movie genres and stars. We will pay special attention to cinema’s internationalism before the introduction of synchronized sound, looking at film culture and national film stars in Asia as well as the U.S. and Europe. Field trips and guests will address key topics of film historiography including archives and preservation and film music.

Humanities.
1 credit.
Eligible for FMST

**FMST 023. Documentary: The Art of the Real**

Contextualizing a range of documentary practices within the history of nonfiction film and television and in the landscape of contemporary media culture, this course explores the aesthetic and rhetorical strategies of documentary form. Topics include: activist media; the essay film; critical and sensory ethnographic film; reenactment; television documentary; and witnessing.

Humanities.
Eligible for FMST

**FMST 024. Contemporary Cinema**

Cinema’s status as the world’s leading form of mass entertainment has been challenged by successive waves of technological and corresponding social change, including television, video games, the internet, mobile platforms, and virtual reality. Yet the movies endure as art, industry, and public culture. This course examines the response to these existential threats through key texts, figures, institutions, and issues in cinema of the past three decades. Balancing the economic dominance of global Hollywood against the cultural capital of international art cinema and American independent auteurs, we will examine such topics as the film festival circuit; the growth of Bollywood, Nollywood, and the Korean and Chinese industries; European coproductions and arthouse auteurs; transmedia franchises and exhibition cultures; stardom; scandal; and diversity and inclusion initiatives.

Humanities.
1 credit.

**FMST 025. Television and New Media**

This course introduces students to major trends in critical thought regarding electronic media, including the rise of broadcast television, recent developments in narrowcast or niche programming and distribution, and the relationship among media industries, advertisers, and audiences. Special attention will be given to probing and historicizing the formal concepts of broadcast and digital TV, examining our ongoing cultural adaptation to emerging screen technologies and their attendant narrative and audiovisual forms. Coursework includes weekly blogging, one analytical paper, presentations, and the production of a creative TV-
related project.  
Prerequisite: FMST 001  
Humanities.  
1 credit.  
Eligible for FMST, DGHU  

FMST 026. Popular Music and Media  
(Cross-listed as MUSI 005E/LITR 026/GMST 026)  
Is Bohemian Rhapsody (2018) the Stop Making Sense (1984) of this generation? How does YouTube compare to Indie records? What’s similar and what’s different? What is the relationship between social media and commercial means of distribution, and what is its effect on fandom? This team-taught course investigates the histories, structures and cultural connections between popular music and other media. How do musical expressions and genres interact with medium specificity? How can we understand changing exhibition formats (stadium vs. lounge vs. club) and distribution venues (record store vs. Spotify)? How does celebrity culture then and now impact what is popular and how does it affect the music industry and vice versa? What lies at the intersection of national, socio-political and fan cultures?  
Providing a grounding in music and media history and theory, we will research and analyze mainstream and independent case studies in radio, film, theater, television and social media in order to better understand and engage with the complex webs that characterize contemporary media, its production, and its consumption.  
Humanities.  

FMST 034. Transmedia Worldbuilding and Storytelling  
The invention and exploration of elaborate fictional worlds span millennia of human cultural practice, from the islands of Homer’s Odyssey to the Middle Earth of Tolkien’s Lord of the Rings and the blockbuster universes of Star Wars, Marvel and DC. This class explores the mechanical and aesthetic principles of crafting detailed imaginary worlds and using them to tell stories that interconnect across diverse media, ranging from film, television, theater, and comics to digital and tabletop gaming, LARPs, virtual reality, and other emerging platforms. In a workshop environment devoted to developing our own world concepts, we will engage forms of paratextual production such as costume and set design; model building and prop fabrication; the drafting of maps, blueprints, encyclopedias, and other reference materials; and the coining of conlangs (constructed languages). Through our creative work we will explore the history of and critical theory surrounding subcreation, transmedia storytelling, and convergence culture, touching on key works in literary and adaptation theory, global/locative studies, fandom studies, production culture, genre theory, narratology, performance, gaming, animation, and spectacle/special effects.  
Prerequisite: Any FMST course. FMST 001, FMST 025, FMST 036, FMST 041, or any production course strongly recommended.  
Humanities.  

FMST 036. Theory and History of Videogames  
This course investigates the video game medium from its earliest incarnation in hackers’ prankish exploits to the latest in AAA and indie publishing, drawing on a variety of texts and perspectives as well as on play, analysis, and creation of video games themselves to build a portrait not just of games, gamers, and gaming, but of a unique moment in the evolution of contemporary digital media. After establishing a basic conceptual vocabulary for thinking, speaking, and writing about video games, we will shift our attention to the broader contexts and cultural functions of video gaming - as commercial and transmedia entities; as spaces for the forging of identity and sociality; and as objects of fandom and instruments of ideology. As this is a hybrid course that emphasizes making as learning, our final project will involve creating games that make critical arguments. Required weekly out-of-class gaming and viewing assignments.  
Humanities.  
1 credit.  
Eligible for FMST, DGHU  
Fall 2019. Rehak.

FMST 037. Gender and Genre on Television  
This course will explore genre in American television from the 1950s to today through the lens of gender and sexuality. Students will learn about genre theory and media specific historical, aesthetic, economic conventions of television genres. We will discuss how macro and micro genres intersect with gender in target and niche audience composition and viewing habits and practices. How ideas and social rituals of leisure and labor figure into generic representations of gender and sexuality and vice versa. How race, class and gender form intersectionalities explored, exploited and expanded differently by televisual flow than in our current convergence era of streamed content. Each week students are responsible for screening at least two assigned episodes and blogging on one episode of a classic TV show they commit to for the semester. One analytical paper. Every student has to give one presentation analyzing selected clips in the context of critical scholarly articles. Midterm and Final exams.  
Prerequisite: FMST 001 or instructor permission.  
Humanities.
FMST 038. Reality TV
This advanced Television Studies course explores the history and practices of the television medium in its connections to concepts and theories of realism. We will be considering reality modes in early anthropological films and documentary/fiction hybrids (People on Sunday, Nanook of the North), and the 1930s TV coverage of the German Olympics alongside the works of Andre Bazin, Siegfried Kracauer, Sergei Eisenstein and others. We will discuss the impact of neo-realist schools of filmmaking (Italian, French and German) on the first "reality" series on U.S. television - An American Family (PBS, 1973) and vice versa. We will investigate the live-studio audience aspect of talk and game shows, the rise of The Real World, the longevity of Survivor and Big Brother, think about global television formats and how reality shows interact with social media and socio-political practice (American Idol). How and why is realism semiotically and socio-politically connected to the televisual medium? How does this relationship change over the years and through the different cycles of technological, digital and programmatic innovation?
Prerequisite: FMST 001, FMST 025 or FMST 054 Humanities.
1 credit.
Eligible for FMST
Fall 2020. Rehak.

FMST 041. Fan Culture
Explores the history, philosophy, and impact of fandom in film, television, and new media. Drawing on methodologies including reception and audience studies, feminism, performance, cultural studies, ethnography, and convergence theory, we will consider topics such as the evolution of celebrity and "cult" status; the creation and sharing of fan fiction and vids; gendered, queer, and cis identities in fan culture; relationships between fandom and industry; and fans’ use of digital social media. Screenings include serial and episodic TV, camp and "trash" cinema, narrative and documentary films, and fan-generated content.
Eligible for GSST credit if all papers and projects are focused on GSST topics.
Humanities.
1 credit.
Eligible for FMST, GSST
Fall 2020. Rehak.

FMST 042. Animation and Cinema
This course examines the forms, technologies, and history of animation in film and other media. Screenings include short- and feature-length animated films, narrative and experimental animation from the U.S. and other countries, and animation in television and digital media. Emphasis is on framing animation in relation to an array of cultural and economic forces and theoretical perspectives, including performance, gender, the body, media evolution, taste, symbolism and realism, and the avant-garde.
Humanities.
1 credit.
Eligible for FMST

FMST 043. Conspiracy Media
Investigates conspiracy and the paranoid imagination both within film and television narratives (through stories built around plots, hidden agendas, and betrayal) and as a mode of skepticism and mistrust toward media themselves (the role played by media in coverups, hoaxes, and "fake news"). Focusing on a period from the Cold War to present day politics, the course constructs an archeology of screen, print, and interactive media to explore the shifting meanings of conspiracy in response to technological and social change. Topics include the structural affinities among conspiracy, narration, and seriality; recurring thematics such as biological contagion, corporate and patriarchal menace, and supernatural forces; and the role of digital media in both spreading and debunking conspiracies. Required weekly viewing.
Eligible for FMST, INTP

FMST 045. Feminist Film and Media Studies
(Cross-listed as GSST 020)
This course explores theories and methods at the intersection of film and media and gender and sexuality studies, including representation and self-representation, historiography and canon formation, intersectionality and transnational politics, gender performativity and sexual dissidence, cultural production and critique. Required weekly screenings feature films and programs from a range of historical periods, national production contexts, and styles: mainstream and independent, narrative, documentary, video art, and experimental. Readings in feminist film theory will address questions of authorship and aesthetics, spectatorship and reception, image and gaze, and current media politics.
Humanities.
1 credit.
Eligible for FMST, GSST, INTP

FMST 046. Queer Media
(Cross-listed as ENGL 090, GSST 020)
The history of avant-garde and experimental media has been intertwined with that of gender non-conformity and sexual dissidence. Queer theory has developed in relation to queer film texts and cultures. How do lesbian/gay/bisexual/transgender (lgbt) filmmakers queer sexual norms and standard media forms? Challenging classic Hollywood’s heterosexual presumption and mass media appropriations of
Film and Media Studies

lgbt culture, we will examine lgbt aesthetic strategies and modes of address in contexts such as the American and European avant-gardes, AIDS activism, and transnational and diasporan film. Humanities.
1 credit.
Eligible for FMST, GSST, INTP, DGHU
Fall 2020. White.

FMST 047. Race and Media Theory
This course interrogates the foundational role of race in the development of modern technologies and media theory. Moving across different periods and media formations, we will address how race as a social category and cultural fantasy has been materialized through specific film technologies, representational norms, and institutional networks. At the same time, we will also look at a range of films and television shows that challenge protocols for constituting race as an object of knowledge and control. Topics will include the racial bias built into visual technologies, digital surveillance, race and digital cinematography, and the role of social media in resistance movements. Humanities.
1 credit.

FMST 048. Performance and the Global Body
This course explores technologically-mediated performance across a range of contemporary media such as art cinema, animation, tv, and virtual interactive platforms. From a transnational perspective, students will be introduced to the notion of performance through theories of film acting, cultural self-presentation, and embodiment. By paying close attention to how specific technologies mediate affect and sensation, we will trace how different performative practices challenge bodily norms linked to questions of citizenship, gender, and desire under globalization. Humanities.
1 credit.

FMST 050. What on Earth Is World Cinema?
Is there such a thing as world cinema, or is the concept a naïve or imperialist one? What is the relationship between "world cinema" and national cinemas? What is "national" about national cinemas? This course introduces students to theoretical debates about the categorization and global circulation of films, film style, authorship, and audiences through case studies drawn from Iranian, Indian, East Asian (Korea, Taiwan), Latin American, European, and U.S. independent cinemas. Special attention to how film festivals, journalism, and cinephile culture confer value. Humanities.
1 credit.
Eligible for FMST, GLBL-Core
Fall 2019. White.

FMST 051. European Cinema
(Cross-listed as LITR 051G)
Setting out from the cornerstones of aesthetics, history and memory, this course introduces you to post-war directors from Italian Neo-Realism, British and French New Waves, Eastern European Cinema, Post-New Wave Italian auteurs, Spanish cinema after Franco, New German Cinema, Swedish and Danish cinema. The course addresses key issues and concepts in European cinema such as realism, authorship, art cinema, and political modernism, with reference to significant films and filmmakers and in the context of historical, social, and cultural issues. Humanities.
1 credit.
Eligible for FMST, GMST

FMST 052. Postwar France: French New Wave
(Cross-listed as LITR 073F)
This course is an in-depth exploration of the development and evolution of the French New Wave in postwar France. We will concentrate on the history of the New Wave in France from the 1950s through the late 1960s by the close study of the styles of individual filmmakers, the "film movement" as perceived by critics, and the New Wave’s contribution to modernizing France. The primary emphasis will be on the stylistic, socio-political, and cultural dimensions of the New Wave, and the filmmakers and critics most closely associated with the movement. Directors, who were once all film critics for the magazine Cahiers du Cinéma, will be studied along side other important filmmakers of the era.
Fulfills national cinema requirement for FMST. Humanities.
1 credit.
Eligible for FMST

FMST 053. Course in Translation: French Detective Fiction and Film
(Cross-listed as LITR 079F)
Detective fiction has a long history in the urban literary and cinematic imagination of France and other French-speaking countries. This course focuses on several points of convergence: the history of urban detectives in various Francophone contexts; theories of genre; and stylized representations of the city, its architecture and populations. Taught in English; and there is a 0.5 credit French Attachment for students reading in French (FREN 079A). Humanities.
1 credit.

FMST 054. German Cinema
This writing intensive course is an introduction to German Cinema from its inception in the 1890s until the present. It includes an examination of early exhibition forms, expressionist and avantgarde films from the classic German cinema
of the Weimar era, fascist cinema, postwar rubble films, DEFA films from East Germany, New German Cinema from the 1970s, and post 1989 heritage films. Students in the class analyzes a cross-match of popular and avantgarde films while discussing mass culture, education, propaganda, and entertainment as identity- and nation-building practices. Taught in English.

Prerequisite: FMST 001 Humanities.

Writing course.

1 credit.

Eligible for FMST, LITR, GMST

FMST 055. Contemporary Chinese Cinema
(Cross-listed as CHIN 055)
Cinema has become a special form of cultural mirror representing social dynamics and drastic changes in mainland China, Hong Kong, and Taiwan since the mid-1980s. The course will develop a better understanding of changing Chinese culture by analyzing cinematic texts and the new wave in the era of globalization.

Humanities.

1 credit.

Eligible for ASIA, CHIN, FMST

FMST 057. Japanese Film and Animation
(Cross-listed as LITR 024J, JPNS 024)
This course offers a historical and thematic introduction to Japanese cinema, one of the world’s great film traditions. Our discussions will center on the historical context of Japanese film, including how films address issues of modernity, gender, and national identity. Through our readings, discussion, and writing, we will explore various approaches to film analysis, with the goal of developing a deeper understanding of formal and thematic issues. A separate unit will consider the postwar development of Japanese animation (anime) and its special characteristics. Screenings will include films by Ozu, Mizoguchi, Kurosawa, Imamura, Kitano, and Miyazaki.

Humanities.

1 credit.

Eligible for ASIA, FMST

FMST 059. Re-Envisioning Diasporas
(Cross-listed as LITR 059FG)
This course is co-taught in an interdisciplinary collaboration with international, digitally facilitated segments. It addresses the historical, cultural, representational, and theoretical specificities of diasporas through examining how visual and literary productions deal with questions of race and ethnicity, gender and sexuality, nationality and globalization from a perpetual state of "elsewhere." How does this experience mark the conceptualization, aesthetics, and politics of the artistic process and textual? What role do language, body memories, and visualization/projection play in the works we will discuss? How do virtual and real-life diasporic communities interact with their imagination and reception? Students are encouraged to do work in their first and secondary languages. Commitment to cross-cultural dialogue and collaboration a must. Film studies background helpful but not required. Seminar-style class taught in English.

Humanities.

1 credit.

Eligible for FMST, GSST

FMST 082. Studies in Genre: Horror
Considering horror entertainment across different eras and media platforms, this course introduces students to the study of genre through a survey of the many forms taken by fear, disgust, and the uncanny as narrative and spectacle in twentieth- and twenty-first-century moving-image culture. We will draw on approaches ranging from psychoanalysis and gender studies to affect, abjection, and political allegory to explore subtopics such as monstrosity, perversion, and the grotesque; representations of the supernatural and paranormal; body horror and "torture porn"; and the alien as other and self. Required weekly screenings and in-class viewing include movies, television, and video games. Warning: course content may be disturbing and upsetting.

Prerequisite: FMST 001 or instructor’s permission.

Humanities.

1 credit.

FMST 090. Film and Media Studies Capstone
This course begins by exploring a major paradigm or debate in the field and reviewing research methodology and production techniques. Students then undertake an individual or collaborative research or creative project (in some cases building upon work started in another class or independent study), meeting to workshop ideas and present works-in-progress. Research projects will incorporate multimedia presentation, and creative projects will be accompanied by written materials. The semester culminates in a panel/film exhibition.

Required for FMST senior majors and minors.

Eligible for FMST

**FMST 102. Convergence**
This honors seminar explores the cultures and content of the contemporary mediascape through formal, technological, and political lenses, reading emergent paradigms such as virality, paratextuality, and collective intelligence against equivalent historical moments of media evolution. Particular attention will be paid to the concepts of "the digital"; rhetorics of revolution and continuity; and the intersection of information, entertainment, and capitalism within a dominant episteme of new media. Course majors and other students with relevant background can apply for instructor’s approval to take the seminar.
Humanities.
2 credits.
Eligible for FMST, DGHU
The Gender and Sexuality Studies Program (GSST) facilitates the interdisciplinary study of social relations of power in a variety of texts, practices, and cultural, historical and national contexts. The program emphasizes the interrelationships among gender and sexuality, race, class, nation, and ability and connects such inquiry to local and global politics. Gender and sexuality studies brings feminist and queer theory in conversation with research in the humanities, social sciences, and natural sciences through courses offered across the three academic divisions of the College.

Students may design a special major in gender and sexuality studies in consultation with the program’s coordinator and by following the guidelines below. Students in any major, whether as course majors or in the Honors Program, may elect a minor in gender and sexuality studies by fulfilling the requirements below. Students who intend to pursue gender and sexuality studies should consult with the coordinator as they prepare their sophomore applications. All proposals to minor or major in gender and sexuality studies must be approved by the GSST Committee.

The Jean Brosius Walton ’35 Fund and the Wendy S. Cheek Memorial Fund generously contribute toward activities sponsored by Gender and Sexuality Studies. The Jean Brosius Walton ’35 Fund and the Wendy S. Cheek Memorial Fund generously contribute toward activities sponsored by Gender and Sexuality Studies.

The Academic Program

Course Minor

1. Course minors must take 5 courses and/or seminars, which must be selected from at least two different divisions. Two-credit seminars count as one course toward program requirements.
2. GSST minors are required to complete GSST 001: Introduction to Gender and Sexuality Studies, and to take GSST 091: Seminar in Gender and Sexuality Studies in their senior year.
3. With the approval of the GSST Coordinator, students may include courses offered by the Gender and Sexuality Studies program at Bryn Mawr and Haverford Colleges, and by the Gender, Sexuality, and Women’s Studies program at UPenn in their program.
4. Only one relevant course taken abroad may count toward fulfillment of the minor.
5. Only one course counted for GSST may overlap with the student’s major or other minor.
6. With advance approval of the GSST Coordinator, students may elect to write a 1-credit thesis (GSST 092) or pursue an independent study as a substitute for regular coursework. Thesis cannot be used to fulfill the requirements of the student’s major or other minor. Students must have adequate disciplinary background in gender and sexuality studies to carry out independent study and/or write a thesis.

Honors Minor

1. All requirements and options for the GSST minor apply to students wishing to complete the Honors minor.
2. Students must have a B average in GSST coursework at the College in order to be accepted into Honors.
3. Honors minors must consult with the GSST Coordinator in spring of their junior year regarding their Honors preparations and submit an application for Honors with their sophomore plan by the spring of their junior year. The Honors examination preparation usually consists of GSST 091 and a 1-credit Honors attachment. Students may propose an alternative preparation of at least two credits, such as an Honors seminar eligible for GSST, a thesis, or a combination of two
Gender and Sexuality Studies

GSST courses. In consultation with the instructor of the preparation, honors minors will assemble a senior honors study portfolio, which may include materials such as independent essays, seminar papers, additional reading lists, or research projects.

4. Honors minors may apply one GSST-related study abroad credit toward their minor.

5. Honors minors must complete the written and oral external examinations for their preparation at the end of their senior year.

Special Major

Students have the option of completing a Gender and Sexuality Studies special major.

1. Special majors must successfully complete the program requirements - GSST 001 and GSST cross-listed courses from at least two different divisions.

2. Majors are required to complete GSST 001: Introduction to Gender and Sexuality Studies and to take GSST 091: Seminar in Gender and Sexuality Studies in their senior year.

3. Majors should consult with the Coordinator to identify and include courses in their program that place significant emphasis on theories and methods specific to Gender and Sexuality Studies as an academic inquiry.

4. The senior culminating exercise in the major is the GSST capstone (GSST 91).

5. With the approval of the GSST Coordinator, students may include courses offered by the Gender and Sexuality Studies program at Bryn Mawr and Haverford Colleges, and by the Gender, Sexuality, and Women’s Studies program at U. Penn in their program.

6. Up to two courses taken abroad may count toward fulfillment of the special major. In order to receive credit, the GSST Coordinator must pre-approve the course. If the institution offering the course has a Women’s or Gender and Sexuality Studies Program, or a similar program, the course in question must be part of that program in order to be approved as a gender and sexuality studies course at Swarthmore.

7. Only one credit may overlap with the student’s minor. Two credits may overlap with a second major.

8. With approval of the GSST Coordinator, special majors may elect to write a one-credit thesis (GSST 092), or pursue an independent study as a substitute for regular coursework. Thesis cannot be used to fulfill the requirements of the student’s other major or minor. Students must have adequate GSST disciplinary background to carry out independent study or write a thesis.

Special Honors Major

In exceptional cases, students can pursue a special major in GSST in the Honors Program. Interested students should consult with the GSST Program coordinator.

Application Process Notes

Students interested in pursuing a special major or minor in GSST are required to complete the applicable GSST application form and submit it to the Programs Office, Trotter 107, in conjunction with their online sophomore application.

Transfer Credit

To receive academic credit for women’s studies or gender and sexuality studies courses taken at other colleges and universities in the U.S., students must have the courses preapproved by the GSST Coordinator. If the institution that offers the course has a Women’s or Gender and Sexuality Studies Program, or a similar program, the course in question must be part of that program in order to be approved as a gender and sexuality studies course at Swarthmore.

Off-Campus Study

The Gender and Sexuality Studies Program grants academic credit for course work relevant to the academic program taken while studying abroad. Minors may apply for no more than one credit of work done abroad to meet their GSST requirements. GSST special majors may apply up to two GSST-related study abroad credits to their program.

In order to receive credit toward their program, the GSST Coordinator must preapprove the course(s). When the student returns to campus, the GSST Coordinator will evaluate the work (syllabus, exams, papers, and class notes) and assign the appropriate amount of credit.

Summer Funding Opportunities

GSST students are eligible to apply through the appropriate divisions (Humanities, Social Sciences, Natural Sciences and Engineering) for a summer stipend of $4,500 in order to allow them to devote a substantial period of time and effort to the pursuit of a creative scholarly project, internship, work or research leading to thesis, honors, or major project preparation, or immersion in the creative arts during the summer months. The work is intended to substantially expand the research engagement or professional exposure of students. Deadline is in early February.

The Lang Center for Civic & Social Responsibility offers funding opportunities for internships,
projects, and engaged scholarship. The Richard Sager Internship, administered through the Lang Center, supports one student interested in working with a non-profit organizational host whose mission focuses on LGBTQ issues. Students applying as a result of their academic involvement in the GSST program may also be funded through a Nason grant, which funds students who are proposing to do work which relates to their academic studies. All students will be required to apply through the Lang Center Common Application. Students do not have to select the Sager Internship in the application process, but will be notified on receipt of the grant if they do receive the named award. Summer funding deadline in early February. Students should contact Hana Lehmann (hlehman1), to schedule a required advising appointment.

Gender and Sexuality Studies Courses

The program offers the following courses and seminars:

**GSST 001. Introduction to Gender and Sexuality Studies**
This interdisciplinary core course provides an introduction to key concepts, questions, and analytical tools developed by scholars of gender and sexuality studies. Through this course, you will become familiar with key contemporary debates in the field, as well as the historical formation of these debates. Substantial attention will be paid to the development and application of queer theory within the history of the field, including discussion of social construction of gender identities and expressions, as well as LGBTQ identities, texts, theories, and issues. Course materials will include "classic" and contemporary gender and sexuality studies scholarship from a variety of disciplines. We will explore gender and sexuality in relation to topics such as media representation, embodiment, economics, health and reproduction, technology, activism, social movements, and violence. Required course for GSST minors and special majors.
Non-distribution.
1 credit.
Eligible for GSST
Fall 2019. Meirosu.

**GSST 035. Against the Norm: (Im)Perfect Bodies and (Dis)Ability Studies**
This course draws attention to shifting constructions of body normativity and disability from an interdisciplinary perspective and is informed by fields such as philosophy, ethnology, psychology, anthropology, political science, and literature. Students will explore ways in which the field of disability studies both draws from, as well as informs and expands, the fields of gender and sexuality studies and queer studies. Theoretical framework of the course focuses on the mechanisms that allow definitions, social constructions, and stigmas associated with disability to contribute to a larger system of power that oppresses individuals who fall short of the norm. We will orient ourselves by asking the following questions: How is disability socially constructed? How does disability intersect with other identities? How do various definitions of disability shape and affect advocacy agendas? What are some institutional and social challenges faced by those with non-conforming bodies? Texts include disability studies theory, critical and theoretical essays, articles by disability rights scholars and activists, first-person accounts, films, art, and newspaper articles.
Non-distribution.
1 credit.
Eligible for GSST

**GSST 091. Seminar in Gender and Sexuality Studies: Explorations in Theory and Method**
This course is a history of four ideas - biopower, jouissance, post-transexual, and intersectionality. We will explore these ideas from multiple perspectives: the conditions (both historical and intellectual) under which they were articulated, the self-questioning which they inspired, the forms of critique which they enabled, and the urgency which surrounds them still. Throughout the course, we will question the distinction between theory and practice, scholarly work and real-life problems. How much work can one idea do? And what appears when we compare the life-work of these four ideas through and beyond the pages of scholarly journals?
Required for GSST Special Major.
Prerequisite: GSST 001. Juniors with permission of instructor.
Non-distribution.
1 credit.
Eligible for GSST

**GSST 092. Thesis**
1 credit.

**GSST 093. Directed Reading**
1 credit.

**GSST 180. Senior Honors Thesis**
For students completing a special major in honors, one credit must be taken each semester of the senior year.
1 credit.

Courses Eligible for Gender and Sexuality Studies Credit

For up-to-date course offerings, please visit [http://www.swarthmore.edu/gender-sexuality-studies/courses](http://www.swarthmore.edu/gender-sexuality-studies/courses). The following courses have been approved for credit toward the Gender and Sexuality Studies Program:
Gender and Sexuality Studies

**Anthropology**
ANTH 002D. First-Year Seminar: Culture and Gender
ANTH 002F. Anthropology of Childhood and the Family
ANTH 020J. Dance and Diaspora
ANTH 049B. Comparative Perspectives on the Body
ANTH 072C. Memory, History, Nation*

**Biology**
BIOL 024. Developmental Biology*

**Chinese**
CHIN 036. Women’s Literature in Premodern China

**Dance**
DANC 024. Choreographing Disability
DANC 025A. Dance and Diaspora
DANC 038. Performing Ecstasy Dancing the Sacred
DANC 079. Dancing Desire in Bollywood Films
DANC 079A. Screening Bollywood Film

**Economics**
ECON 073. Race, Ethnicity, and Gender in Economics
ECON 074. Economics of the Family

**Education**
EDUC 045. Literacies and Social Identities*
EDUC 061. Gender and Education

**English Literature**
ENGL 023. Renaissance Sexualities
ENGL 035. The Rise of the Novel
ENGL 036. Jane Austen
ENGL 066. In/Visible: Asian American Cultural Critique
ENGL 071K. Lesbian Novels Since World War II
ENGL 077. South Asians in America
ENGL 079. What is Cultural Studies?
ENGL 082. Transnational Feminist Theory
ENGL 089. Race, Gender, Class and Environment
ENGL 089E. Ecofeminism(s)
ENGL 090. Queer Media

**Environmental Studies**
ENVS 042. Ecofeminism(s)

**Film and Media Studies**
FMST 009. First-Year Seminar: Women and Popular Culture
FMST 037. Gender and Genre on Television
FMST 041. Fan Culture*
FMST 045. Feminist Film and Media Studies
FMST 046. Queer Media
FMST 048. Performance and the Global Body
FMST 059. Re-Envisioning Diasporas

**French**

RELG 033. Queering the Bible
RELG 037. Sex, Gender, and the Bible
RELG 040. Rape, Slavery, and Genocide in Bible and Culture
RELG 053. Gender, Sexuality, and the Body in Islamic Discourses
RELG 114. Love and Religion

**Russian**
RUSS 015. First-Year Seminar: East European Prose in Translation*
RUSS 017. First-Year Seminar: Love and Sex in Russian Literature
RUSS 111. Tsvetaeva & Mayakovsky

**Sociology**
SOCI 007C. Sociology Through African American Women’s Writing
SOCI 010J. War, Sport, and the Construction of Masculine Identity
SOAN 020M. Race, Gender, Class and Environment

**Spanish**
SPAN 066. Escritoras españolas: una voz propia
SPAN 074. Queer Issues in Latin American Literature & Cinema
SPAN 076. Narrativas latinoamericanas: identidad y conflicto cultural
SPAN 104. La voz de la mujer a través de los siglos

Note:
*All papers and projects must focus on gender and sexuality studies.
The Global Studies Program brings together courses across the curriculum that focus on, or provide means to, understanding and analyzing: global processes, systems, and phenomena, the relationship between the local and the global, and trans-border connections among people and events.

Global Studies, with its emphasis, on the one hand, on processes and phenomena common across borders and, on the other, with a particular attention to differences in the global-local connection, offers students an opportunity to more strongly command an understanding of their place in the world and an awareness and appreciation of differences through cross-cultural competence as well as a greater ability to mediate these differences. The Global Studies program complements and strengthens Swarthmore’s efforts to shape engaged citizens not just with a local or a national conscience, but also with a global one.

The minor in Global Studies requires a total of 5 credits plus Foreign Language study to create a cohesive pathway to an interdisciplinary understanding of the global. One of these 5 credits has to come from the Introduction to Global Studies course. The remaining four credits need to come from the list of eligible courses, which include core courses and paired courses. While core courses offer a global view of a particular subject, paired courses predominantly study one part of the world or an issue area, topic, or theme through a part of the world. In this respect, paired courses provide a global view through comparative analysis. One GLBL-eligible paired course needs to be combined with another GLBL-eligible paired course for the student to receive credit for each paired course. The rationale for the pairing should be outlined in the student’s Sophomore Pathway. Further, Graduating seniors complete a Senior Reflection Exercise.

Those interested in a special major in Global Studies can work with the program coordinators to develop a plan. A special major will include the requirements of the minor plus additional credits.

The Academic Program

Course Minor
Requirements:

1. Introduction to Global Studies (GLBL 015.)
2. A minimum of four credits in core and paired courses:
   - These four credits should come from at least two different divisions.
   - More than one course in the same Department/Program is not permitted to count toward the four credit requirement.
   - Two of these four credits must come from the core courses
   - A maximum of one of these credits may be taken off-campus at Bryn Mawr, Haverford, or on an approved study abroad program, upon petition to and approval by the coordinators.
3. Foreign language study

Introduction to Global Studies - GLBL 015:
All minors are required to successfully complete the one-credit Introduction to Global Studies (GLBL 015) offered every fall, preferably by their sophomore year. It is team-taught by two faculty members from different departments. First-years are permitted in the course. Seniors may enroll upon approval of the instructors.

A minimum of four credits in core and paired courses:

Core courses - Minimum of 2
Core courses are the backbone of the Global Studies program because they have a high level of content central to the analyses of global events, systems, or processes. The core courses may be focusing on processes of interdependence (such as migrations or the economy of arts), the impact of an event or a process across multiple regions of the world (such as urbanization in different places or the effects of capitalism), or a comparative analysis of an idea or phenomenon in different parts of the world (such as how Buddhism is understood and practiced in different parts of the world). These courses provide explicit tools, concepts, and analysis that are commonly used in, or connect closely with, themes in Global Studies and are noted in the catalog entry notes as "Eligible for GLBL - Core."

Paired Courses
Students can also pair courses to achieve a comparative, cross-regional emphasis. To elaborate, if students choose to take paired courses
that are eligible for GLBL, they must combine at least two paired courses in order to receive credit for each course for the minor. Courses listed in this category are predominantly courses that study a part of the world or an issue area, topic, or theme through a part of the world. These courses may present global concepts, systems or phenomena, but are limited by focus on a specific part of the world. These courses are noted in the catalog entry notes as "Eligible for GLBL - Paired." An additional core course can count as a paired course with another GLBL-paired course.

**Foreign Language Study**

Studying a foreign language engages an essential tool of cross-cultural communication as it embodies a different way to learn about others’ cultures while reflecting on one’s own. Choice of language should be integral to the student’s Global Studies minor. The language study requirement comprises two choices:

1. **New Language:** Students choosing a new language will be required to complete the first three semesters of a new language offered at Swarthmore (Trico or UPenn for languages not housed at Swarthmore) or reach the equivalent of intermediate level in a study abroad language option upon approval of program coordinators.
2. **Continuing Language:** Students choosing to continue a language begun elsewhere and taught at Swarthmore will adhere to the following guidelines:
   - Students placed at the 1st - 3rd semester-level must complete through the 3rd semester of that language.
   - Students placed at the 4th semester-level must complete that level.
   - Students placed above the 4th semester-level must complete one advanced course in that language.
   - Students who wish to declare English as their foreign language must meet with the program coordinators.

In essence, some students may continue a language they studied in high school, while others may prefer to begin a new language. We would strongly advise the student to see the language choice as integral to their choice of elective courses. For languages not housed at Swarthmore, Global Studies will encourage students to explore two options: (1) local language study in the Trico or at UPenn or (2) study abroad opportunities that offer intensive language programs on their own or as part of a study abroad program. In such cases where students want to study languages elsewhere, Global Studies’ students will work in consultation with the program coordinators to develop a language study program.

**Global Studies Courses**

Currently offered courses relevant to the program include the following:

Note: The student is responsible for knowing and meeting any of the prerequisites associated with the following courses. In all cases, the student’s acceptance into these courses is up to the Instructor and not the Global Studies Program coordinators.

**GLBL 015. Introduction to Global Studies**

This course provides an interdisciplinary approach to globally shared issues, processes, interactions and systems that affect people, communities, regions, nations, and our planet. Some topics the course examines are: the effects of a globalized world economy, global inequality and poverty, migration and refugees, identity in a global age, world cities, media in the global age, colonization and decolonization, global ethics, global social movements. The course takes seriously the interaction between the local and the global. It offers students an opportunity to more strongly command an understanding of their place in the world and an awareness and appreciation of differences through cross-cultural competence as well as a greater ability to mediate these differences. The interdisciplinary nature of the course demands multiple points of entry to communicate and analyze these issues beyond reading and writing, such as films, podcasts, lectures. Each fall Global Studies faculty selects several topics for an in-depth look at the past, present, and future global landscape.

Note: GLBL 015 is required for Minors, but open to all and will be offered every fall.

**Sophomore Pathway**

Equivalent to the sophomore plan, in the Sophomore Pathway the students will outline their rationale of their chosen GLBL courses and language study, including how they think these courses will help them pursue their area of interest or permit the exploration of a theme from different vantage points.

A minimum "B" average within the GLBL minor is required for all minors by their junior year.

**ANC 031. The Greeks and the Persian Empire Paired**

**ANC 032. The Roman Republic Paired**

**ANCH 056. Pagans and Christians in the Roman Empire Paired**

NB. Some of the courses that would satisfy the Global Studies core and paired courses requirement are language courses, so they would meet both the course requirements as well as the language requirements.

Swarthmore’s History Department gives students the intellectual and analytical skills to think critically about the past and the contemporary world. It is part of a journey of self-discovery and crucial to the kind of liberal arts education offered at Swarthmore, because it asks students to question critically the assumptions, values, and principles that guide them in their daily lives. History encourages us to have respect for other cultures and peoples.

What is History?
The study of history is not limited to learning events, dates, and names. History is a method of analysis that focuses on the contexts in which people have lived, worked, and died. Historians seek to go beyond their descriptive abilities and to wrestle with the essential questions of "how" and "why" change occurs over time. They interpret the past and are in constant dialogue with what other historians have written about it. For example, although there may be agreement that Adolf Hitler became chancellor of Germany in 1933, historians have and will continue to debate the origins of Nazism, the rise of Hitler to power, and the causes of World War II and the Holocaust. Historical scholarship enables us to not only know what occurred in the past but also to understand the thoughts and actions of people living in other times and places, allowing us to uncover the continuities and disruptions of patterns that characterized life before our time.

Overview of Curriculum
Swarthmore’s history curriculum introduces students to historical methods and the fundamentals of historical thinking, research, and writing. Faculty members expose students to the contested nature of the discipline, cultivating the skills historians employ to understand and interpret the past. Students learn to assess critically the evidence of the past through first-hand exposure to primary sources. They also develop the ability to evaluate the respective arguments of historians. In all courses and seminars, the department strives to involve students in the process of historical discovery and interpretation, emphasizing that all historians are engaged in the constant sifting of old and new evidence.

Each faculty member in the History Department has a regional focus as well as expertise in a particular kind of historical inquiry. Some study social, cultural, and political movements; others examine the impact of religion or explore the history of ideas, sexuality, and gender. They all share a commitment to a global and comparative approach to the study of history and a common pedagogical concern for promoting a critical understanding of the past.

Students are encouraged to hone their skills as historians by using the rich collections of the Swarthmore College Peace Collection and Friends Historical Library, both located in McCabe Library. The Peace Collection is unparalleled as a depository of antirwar and disarmament materials, housing the papers of many leading social activists. The Friends Library possesses one of the richest collections of manuscripts and printed source material on Quaker history. The holdings of other institutions in the greater Philadelphia area, such as the Historical Society of Pennsylvania, the Hagley Museum and Library (Wilmington, Del.), the Library Company of Philadelphia, and the American Philosophical Society, are also accessible to the student-researcher. Students are also encouraged to broaden their cultural and intellectual horizons through foreign study. Students are eligible to apply for grants that will enable them to spend a summer conducting research on a historical topic of their choosing. In the past, students have used these grants to immerse themselves in materials found in libraries and archives around the United States, Europe, and Latin America, collecting materials that formed the basis of their senior research papers. Topics of recent senior theses include he culture and politics of anti-tobacco campaigns in 21st Century Argentina; cross-dressing in early 20th Century San Francisco; the deep cultural history of the 20th Century civil rights movement in the United States; the interplay of baseball, masculinity, and American popular culture during the Reagan
years; the memorialization of a catastrophic fire on board the USS Constellation in 1960; and the diplomatic and cultural reaction to the "Winter War" between the Soviet Union and Finland.

Courses and seminars offered by the History Department are integral to most interdisciplinary programs, such as Black Studies, Gender and Sexuality Studies, Interpretation Theory, Islamic Studies, and Latin American and Latino Studies, as well as to the majors in Asian Studies, German Studies, Global Studies, Medieval Studies, and Peace and Conflict Studies. Students interested in these programs should consult the appropriate statements of requirements and course offerings. In addition, we encourage students who wish to obtain teacher certification to major in history.

The Academic Program

First-Year Seminars
First-year seminars (HIST 001A-001Z; 1 credit) explore specific historical issues or periods in depth in a seminar setting; they are open to only first-year students and are limited to 12 students. Students who are not admitted to first-year seminars in the fall will receive priority for seminars in the spring.

Survey Courses
Survey courses provide broad chronological coverage of a particular field of history. Survey courses (002-010; 1 credit) are open to all students without prerequisites and are designed to offer a general education in the field as well as provide preparation for a range of upper-level courses. Although these entry-level courses vary somewhat in approach, they normally focus on major issues of interpretation, the analysis of primary sources, and historical methodology.

Upper-Division Courses
Upper-division courses (HIST 011-099; 1 credit) are specifically thematic and topical in nature and do not attempt to provide the broad coverage that surveys do. They are generally open to students who have fulfilled one of the following: (1) successfully completed one of the courses numbered 001-010; (2) received an Advanced Placement score of 4 or 5 (or a 6 or 7 IB score) in any area of history; (3) successfully completed an Ancient History course; or (4) received the permission of the instructor. Exceptions are courses designated "not open to first-year students" or where specific prerequisites are stated.

Double-Credit Seminars
Double-credit seminars are small classes in which students are expected to take substantial responsibility for the development of the discussion and learning. These seminars focus on the literature of a given field. Critical thinking about secondary sources and historiographical writing constitute their principle objectives. Seminars are limited to 10 students. Admission to these seminars is selective and based on the department’s evaluation of the student’s potential to do independent work and to contribute to seminar discussions. A minimum grade of B+ in at least two history courses taken at Swarthmore and a record of active and informed participation in class discussions are normally required of all students entering seminars. In addition, recommendations from department faculty members who have taught the student are solicited.

Language Attachment
Certain designated courses offer the option of a foreign language attachment, normally for 0.5 credit. Arrangements for this option should be made with the instructor at the time of registration.

Course Major Requirements
All majors in history must take at least 9 credits in history that fulfill the following requirements:

1. They complete at least 6 of their 9 credits at Swarthmore. Only one credit from AP/IB will count toward the 9 credits required for the major.

2. They take at least one course or seminar at Swarthmore from each of the following categories: (a) before 1800 (including Ancient History courses) and (b) outside Europe and the United States, specifically Africa, Asia, Latin America, and the Near East. This distribution requirement encourages students to explore various fields of history and engage in comparative historical analysis. Students must use different courses or seminars to fulfill this requirement.

Senior Research Seminar
All majors must complete the Senior Research Seminar (HIST 091) in which students write a research paper based on primary sources. This course (which counts as one of the required nine credits) satisfies the College’s requirement that all majors have a culminating exercise and is only offered during the fall semester. The department encourages students to consult faculty members about their topics by the end of their junior year and select their topic prior to taking the Senior Research Seminar. Juniors are also strongly encouraged to apply for summer research fellowships through the Division of Social Sciences.

Acceptance Criteria
Admission to the department as a course major normally requires a B average in at least two history courses taken at Swarthmore and a satisfactory standard of work in all courses. Courses in Ancient History offered by the Classics Department count toward the two history courses
prerequisite. The department reserves the right to withhold evaluation of applications submitted after the deadline. If after applying a student is deferred, the department will review their application at the end of each semester until the student is either accepted into the major or withdraws their application.

**Honors Major Requirements**

Honors history majors must complete the same credit and distribution requirements as described above. Seminars are the normal mode of preparation for students studying history in the Honors Program. Honors majors will complete three double-credit seminars. Students may substitute an Honors Thesis (HIST 180) for one of their seminars. Students wishing to write an Honors Thesis (HIST 180) should declare their intention to the Department and secure an advisor by May 1 of their junior year. They will develop their proposal in the summer with the help of their advisor and submit it upon returning to school in September. Honors majors will also be required to complete the Senior Research Seminar (HIST 091). Honors students may, if their Honors Program requires it, receive approval from the department chair to complete the Senior Research Seminar in the fall of their junior year.

**Seminars**

Seminars are a collective, collaborative, and cooperative venture among students and faculty members designed to promote self-directed learning. Because the seminar depends on the active participation of all its members, the department expects students to live up to the standards of honors. These standards include attendance at every seminar session, submission of seminar papers according to the deadline set by the instructor, reading of seminar papers before coming to the seminar, completion of all reading assignments before the seminar, respect of the needs of other students who share the reserve readings, and eagerness to engage in a scholarly discussion of the issues raised by the readings and seminar papers. Students earn double-credit for seminars and should be prepared to work at least twice as hard as they do for single-credit courses. The department reminds students that the responsibility for earning honors rests squarely on the students’ shoulders and will review on a regular basis their performance in the program. Failure to live up to the standards outlined previously may disqualify students from continuing in the Honors Program. Students in seminars take a 3-hour written examination at the end of each seminar and receive a grade from the seminar instructor based on the quality of seminar papers and comments during seminar discussions, in addition to the written examination. Seminar instructors will not normally assign grades during the course of the seminar, but they will meet periodically with students on an individual basis during the course of the semester to discuss their progress.

**External Examiner Evaluations**

Honors students will revise one paper per seminar for their portfolio submitted to external examiners. Revised papers will not be graded but will be included in the portfolio to provide examiners a context for the evaluation of the written examination taken in the spring of the senior year. Thesis and revised seminar papers are due by the end of classes or April 30 in the spring semester of the students’ senior year, whichever comes first. Revised seminar papers are written in two stages. During the first stage, students confer with their seminar instructor about what paper to prepare for honors and what revisions to plan for these papers. Seminar instructors will offer advice on how to improve the papers with additional readings, structural changes and further development of arguments. The second stage occurs when the student revises the papers independently. Faculty members are not expected to read the revised papers at any stage of the revision process. Each revised paper must be from 2,500 to 4,000 words and include a brief bibliography. Students will submit them to the department office by the end of classes in the spring semester of the students’ senior year. Students who fail to submit their revised papers by the deadline might adversely affect their honorific. Examiners will be notified about late papers.

**Study Groups**

The department encourages students to form their own study groups to prepare for the external examinations. Although faculty members may, at their convenience, attend an occasional study session, students are generally expected to form and lead the study groups, in keeping with the department’s belief that honors is a collaborative, self-learning exercise that relies on the commitment of students.

**Acceptance Criteria**

Admission to honors is selective and based on an evaluation of the student’s potential to do independent work and to contribute to seminar discussions. A minimum grade of B+ in at least two history courses taken at Swarthmore and a record of active and informed participation in class discussions are required of all students entering seminars. In addition, recommendations from department faculty members who have taught the student are solicited. Sophomores hoping to take history seminars in their junior and senior years should give special thought to the seminars that they list in their Sophomore Plans. Seminar enrollments are normally limited to 10. If you are placed in a seminar at the end of your sophomore year, you will be one of 10 students guaranteed a space and
you are, in effect, taking the space of another student who might also like to be in the seminar. Consequently, you should not list any seminar in your Sophomore Plan without being quite certain that you intend to take it if you are admitted.

Honors students are expected to maintain a B+ average to continue attending honors seminars and being an honors student.

**Honors and Course Minor Requirements**

To graduate with a minor in history, a student must complete five history credits at Swarthmore College (AP, transfer credit, and foreign study courses do not count). Two of the five credits must be from courses above the introductory level (course numbers 011 and higher; honors minors will meet this requirement with their honors seminar), and one credit may be in a history course offered by the Classics Department (ANCH 016, 023, 030, 031, 032, 034, 035, 042, 044, 056, or 066). Honors minors will complete one double-credit seminar as part of their academic program.

Admission to honors is selective and based on an evaluation of the student’s potential to do independent work and to contribute to seminar discussions. A minimum grade of B+ in at least two history courses taken at Swarthmore and a record of active and informed participation in class discussions are required of all students entering seminars. In addition, recommendations from department faculty members who have taught the student are solicited.

**Special Major in History and Educational Studies**

**Requirements**

Students designing a special major in history and educational studies must take six courses in history, including one course in a field other than the United States or Europe. To graduate with a major in History and Educational Studies, a student must also complete our culminating exercise, HIST 091: Senior Research Seminar. With permission, students can complete a two-semester, two-credit thesis (but one credit of this thesis must be HIST 091). Special majors in history and educational studies will work with both an educational studies faculty member and the HIST 091 instructor(s) to complete their one-credit senior research paper or two-credit thesis.

**Acceptance Criteria**

Admission to the department as a special major follows similar requirements as course majors. Advisors in each department should be consulted when designing a plan.

**External Credit**

**Advanced Placement/International Baccalaureate**

The History Department will automatically grant one credit to students who have achieved a score of 4 or 5 in the U.S., European, or World History Advanced Placement examinations (or a score of 6 or 7 in the International Baccalaureate examinations) once they have completed any history course number HIST 001 to HIST 010 and earned a grade of C or higher. Students who want credit for a second Advanced Placement/International Baccalaureate examination (in a different area of history) must take a second history course at Swarthmore (any course number, including ANCH 016, 023, 030, 031, 032, 034, 035, 042, 044, 056, or 066) and earn a grade of C or higher. The History Department will grant up to two credits for Advanced Placement/International Baccalaureate work. Only one credit from AP/IB will count toward the 9 credits required for the history major.

A score of 4 or 5 for Advanced Placement (or a score of 6 or 7 for International Baccalaureate) allows students to take some upper-division courses in the History Department. Advanced Placement/International Baccalaureate credit may be counted toward the number of courses required for graduation and may be used to help fulfill the College’s distribution requirements.

**Off-Campus Study**

The History Department encourages students to pursue the study of history abroad and grants credit for such study as appropriate. We believe that history majors should master a foreign language as well as immerse themselves in a foreign culture and society. To receive Swarthmore credit for history courses taken during off-campus study, a student must have departmental preapproval and have taken at least one history course at Swarthmore (normally before going abroad). Students who want to receive credit for a second course taken abroad must take a second history course at Swarthmore. Students must receive a grade of C or higher to receive history credit at Swarthmore. We will only grant an exception for domestic off-campus study experiences validated by our Off-Campus Study or Registrar’s Offices and at our discretion.

**Transfer Credit**

The History Department does not grant credit for any history courses taken at other U.S. colleges and universities except courses at Bryn Mawr, Haverford, and the University of Pennsylvania while a registered Swarthmore student.
History

Teacher Certification
History majors can complete the requirements for teacher certification through a program approved by the state of Pennsylvania. For further information about the relevant set of requirements, please refer to the Educational Studies section of the Bulletin.

Life After Swarthmore

Graduate School
Students who intend to continue the study of history after graduation should bear in mind that a reading knowledge of one or two foreign languages is generally assumed for admission to graduate school.

Career Opportunities
With strong analytical, writing, and research skills, history majors are prepared for a wide range of occupations and professions. Swarthmore College history majors can be found pursuing a broad range of career paths, ranging from government service to the world of medicine, from elementary and high schools to trade unions and public interest foundations, from journalism and publishing to consulting, and from the private to the public sector. Many find that studying history is excellent preparation for law school and business. And others have gone onto graduate school in history and now teach at universities and colleges in the United States and overseas.

History Courses

HIST 001A. First-Year Seminar: The Barbarian North
The seminar will explore how Germanic and Celtic societies emerged and solidified their identities as they came into contact with Roman institutions and Latin Christendom from ca. 100 to 1050 A.D. Students will choose to specialize in a current methodology, ranging from archaeology to gender. Writings of the period concerning saints, scholars, kings, and warlords will be stressed.

Social sciences.
Writing course.
1 credit.
Eligible for MDST

HIST 001B. First Year Seminar: Human Rights as History: From Haiti to Nuremberg
This course takes the subject of human rights and sets it into historical motion, starting with the French Revolution and ending with the 21st century.

Social sciences.
Writing course.
1 credit.
Eligible for PEAC

HIST 001C. First-Year Seminar: Why College? The Past and Future of Liberal Arts
(Cross-listed as ENGL 009C)
Look past the brochures and the info sessions and ask: what is college in the early 21st Century, how did it get that way? Why do people go to college? Should they? This class examines the histories and meanings of higher education.

Social sciences.
Writing course.
1 credit.

HIST 001D. First-Year Seminar: China and the World: A History of Collecting
This seminar traces the movement of "things" into and out of China through the framework of collecting, a creative and multifaceted process that was tied to the production of knowledge about people and culture both within and outside of China.

Social sciences.
1 credit.
Eligible for ASIA

HIST 001E. First-Year Seminar: Global History of Science
This seminar explores the formation of modern science as a global phenomenon. We will trace the practices and discourses that helped to define both science (as form of knowledge-making) and the sciences (as distinct disciplines) from the 18th-20th century.

Social sciences.
1 credit.
Fall 2020. Chen.

HIST 001F. First-Year Seminar: The Golden Age of Piracy
This course explores the profound intertwinings of myth and reality in the golden age of piracy, a period that is centered in the early 18th century.

Social sciences.
1 credit.

HIST 001G. First-Year Seminar: Deviant Histories
This course is at once a study of historical actors deemed as "deviant" by legal authorities and an exploration of microhistory, a field of study that evolved around these legal archives.

Social sciences.
1 credit.

HIST 001J. First-Year Seminar: A New History of the Cold War Era
This seminar focuses on Cold War debates.

Social sciences.
Writing course.
1 credit.
HIST 001K. First-Year Seminar: Engendering Culture
A seminar focused on the way in which American culture is infused with gender; how culture is constructed and reconstructed to replicate gender roles.
Social sciences.
Writing course.
1 credit.
Eligible for GSST, INTP

HIST 001M. First-Year Seminar: History of Food in North America
This seminar introduces first year students to the origins of American food culture beginning in the era of the Columbian exchange. International trade, slavery and colonial invasion changed the lives of populations on three continents. Diverse grains, livestock and new culinary techniques transformed the foodways of the known world and laid the foundation for the American diet in the centuries before the American Civil War.
Social sciences.
1 credit.
Fall 2019. A. Dorsey.

HIST 001P. First Year Seminar: History through the Lens: Latin America, Latinos, Photography, and the Present
This course uses photographs to explore key processes in the making of modern Latin America, such as urbanization, industrialization, migration, labor, race, ethnicity, gender, disease, sports, leisure, music, food, politics, religion, and the environment.
Social sciences.
Writing course.
1 credit.
Eligible for LALS

HIST 001R. First-Year Seminar: Remembering History
Explores the relationship between the creation of personal and collective memory and the production of history. The seminar will examine the tensions between memory and history in U.S. history.
Social sciences.
Writing course.
1 credit.

HIST 001T. First-Year Seminar: Cross and Crescent: Muslim-Christian Relations in Historical Perspective
The seminar will selectively explore the interaction of Muslim and Christian communities from the emergence of Islam to contemporary Bosnia.
Social sciences.
Writing course.
1 credit.
Eligible for ISLM, MDST

HIST 001U. First-Year Seminar: Defining an "Us": Nationalism, Culture and Identity in Modern Europe
This course examines how populations have come to see themselves as part of a single community: the nation. We tackle the emergence of cultural and national identities in Europe through thematic investigations of four of the ways such identities might be forged or invented: land, language, symbols, and blood. We also critically analyze notions of belonging, question logics of community identity, and make connections between notions of nation, citizenship, and political culture.
Social sciences.
Writing course.
1 credit.

HIST 001V. First-Year Seminar: History in the Making: Autocrats, Activists, and Artists in a Changing Middle East
This course will explore recent political, social, and cultural transformations in the Middle East and the historical developments that have led to them. We will use contemporary events in the region as a window into the past, exploring how history has shaped our world today. In doing so, we will investigate questions about power, identity, and political authority in the Middle East through the lens of history.
Social sciences.
Writing course.
1 credit.
Eligible for PEAC
Fall 2019. Shokr.

HIST 001W. First-Year Seminar: Promised Lands: European Settler Colonies 1830-1962
This course explores the history of European settler colonialism in Africa (particularly French North Africa), Asia, and to a lesser degree, North America. Students will expand their knowledge of European imperialism while analyzing questions of intimate relationships; notions of self and identity; and economic, political, and physical domination.
Social sciences.
1 credit.
Eligible for BLST, ISLM

HIST 001Y. First-Year Seminar: The History of the Future
In this seminar, we will trace the history of the idea of "the future," concentrating on 19th- and 20th-century experience.
Social sciences.
1 credit.

HIST 002A. Medieval Europe
The course will explore the emergence of Europe from the slow decline of the Roman world and the emergence of new Germanic and Celtic peoples.
History

(3rd to the 15th century). Topics will include the rise of Christianity, the emergence of Western government, the articulation of vernacular culture, and the invention of romance.
Social sciences.
1 credit.
Eligible for MDST

HIST 002B. Early Modern Europe: Imperial Origins: Britain, Spain, and France, 1492-1791
Using primary sources, art, recent scholarship, and film, this course explores the origins of the modern world in Europe and its colonies between the 15th and 18th centuries.
Social sciences.
1 credit.

HIST 002F. Rethinking the Scientific Revolution
The course is an overview of the Scientific Revolution in Europe and an exploration of a scholarly debate which grows every year in its contemporary relevance.
Social sciences.
1 credit.
Fall 2020. Azfar.

HIST 003A. Modern Europe, 1789 to 1918: Revolutionaries, Citizens, and Subjects in Europe’s Long 19th Century
This course surveys European history from the French Revolution to the aftermath of World War I. We will explore the European revolutionary tradition, the extension of citizenship, the emergence of nationalism, and the territorial expansion of Europe. The course will hone your skills in the analysis of primary sources.
Recommended for teacher certification.
Social sciences.
1 credit.

HIST 003B. Modern Europe, 1918 to the Present: Hot Wars, Cold Wars, Culture Wars
This course surveys major developments in Europe from the end of the 19th century to the end of the 20th century.
Recommended for teacher certification.
Social sciences.
1 credit.
Eligible for GMST

HIST 004. Latin American History
An examination of Latin America from Pre-Columbian times to the present. Emphasis on exploring changes and continuities over five centuries, revolutionary, reformist, and conservative agendas of change as well as gender, class, racial, and religious issues.
Social sciences.
1 credit.

Eligible for LALS

HIST 005A. Early American History
In this thematic survey of American culture and society from the colonial era through the American Civil War and Reconstruction, student interpretation of primary-source documents will be emphasized.
Recommended for teacher certification.
Social sciences.
1 credit.
Fall 2019. B. Dorsey.

HIST 005B. Modern American History
American society, culture, and politics from Reconstruction to the recent past.
Recommended for teacher certification.
Social sciences.
1 credit.

HIST 006B. The Modern Middle East
This survey class will introduce students to the broad contours of Middle Eastern history since the eighteenth century. The goal is to build a basic knowledge of the major political, social, and cultural developments in the history of the region, as well as to think about how Middle Eastern societies and cultures have been represented over the last two centuries.
Social sciences.
1 credit.
Eligible for ISLM

HIST 007A. African American History, 1619 to 1865
The social, political, and economic history of African Americans from the 1600s to the Civil War focuses on slavery and resistance, the development of racism, the slave family, and cultural contributions of enslaved peoples.
Recommended for teacher certification.
Social sciences.
1 credit.
Eligible for BLST
Fall 2020. A. Dorsey.

HIST 007B. African American History, 1865 to Present
Students in History 07B investigate the history of African Americans from Reconstruction through the 21st century. Historical monographs, autobiography, film, and literature reveal the story of emancipation, political activism, industrialization, and transformations in cultural identity from Jim Crow to the election of nation’s first Black president.
Recommended for teacher certification.
Social sciences.
1 credit.
Eligible for BLST
Fall 2019. A. Dorsey.
HIST 008A. West Africa in the Era of the Slave Trade, 1500 to 1850
This survey course focuses on the origins and impact of the slave trade on West African societies and on processes of state formation and social change within the region during this era. This course will use an experimental format in which students and the professor will work together in-class to refine and answer the questions, "Why did West and Central African societies become involved in the Atlantic slave trade? What were the consequences of their involvement?"
Social sciences.
1 credit.
Eligible for BLST

HIST 008B. Mfecane, Mines, and Mandela: Southern Africa from 1650 to the Present
This course surveys southern African history from the establishment of Dutch rule at the Cape of Good Hope to the present day, focusing on the 19th and 20th centuries.
Social sciences.
1 credit.
Eligible for BLST

HIST 009A. Premodern China
This course surveys the history of premodern China. Thematic focus and content will vary.
Social sciences.
1 credit.
Eligible for ASIA

HIST 009B. Modern China: Reformers, Revolutionaries, and Rebels
This course is an introduction to the intellectual, social, and economic forces that shaped the history of modern China. We will rely heavily on primary sources as we try to reconstruct the plural, contradictory, and fluid ways in which Chinese intellectual and political leaders viewed themselves as "modern."
Social sciences.
1 credit.
Eligible for ASIA

HIST 014. Friars, Heretics, and Female Mystics: Religious Turmoil in the Middle Ages
An exploration of radical movements of Christian perfection, evangelical poverty, heresy, and female mystics that emerged in Europe from the 11th to the 15th century.
Social sciences.
1 credit.
Eligible for GSST, MDST

HIST 015. From Classical Rome to Renaissance Florence: The Making of Urban Europe
The course will explore the emergence of Western towns from the decline of the ancient city to the burgeoning of Western urban forms.
Social sciences.
1 credit.
Eligible for MDST

HIST 021. London Beyond Control
This course will explore the cultural history of London. Special focus will be paid to sex, crime, empire, and politics in the age of Enlightenment.
Social sciences.
Writing course.
1 credit.
Eligible for GSST

HIST 022. Reparations and the Laws of Slavery
This course will explore the legal scholarship on reparations and the legal history of the Atlantic World, exploring the debates that define these fields and the questions that emerge between them. Final projects will consider how these two bodies of scholarship can enrich each other both empirically and conceptually.
Social sciences.
1 credit.
Eligible for BLST

HIST 023. Queer Enlightenment
What was so queer about the Enlightenment? In this course, we will answer this question by looking more closely at Enlightenment desire, studying its sites, texts, and practices through the paradigms of queer history and theory.
Social sciences.
1 credit.

HIST 025. Colonialism and Nationalism in the Middle East
This upper-level course will explore the vast and ever-growing scholarly literatures on colonialism and nationalism in the Middle East. It will cover both key theoretical works that have helped to shape this body of historical writing as well as important monographs that exemplify particular approaches to the topic.
Social sciences.
1 credit.
Eligible for INTP, ISLM

HIST 026. Histories of Capitalism in the Middle East
This course will approach capitalism in the Middle East as an uneven set of historical processes in which geographic, social, and cultural difference is a produced feature of capitalist environments. We will read older traditions of social scientific inquiry and newer scholarship advancing a renewed interest in the study of political economy.
HIST 027. Living with Total War: Europe, 1914-1919
This research seminar examines the experience of Europeans in the trenches, under military occupation, and at home in the turbulent years during and immediately following the First World War. Readings focus on the social and cultural impact of the war. Students will write a paper that draws upon primary and secondary sources. Optional language attachments: German, French, and Russian.

HIST 028. Aux Armes! History and Historiography of the French Revolution
We examine the sites of the Revolution and its afterlives, using everything from primary source documents to household objects. We will explore a range of ways of practicing history. This will lead to discussions of nationalism, identity, rights regimes based on gender or race, and inequalities stemming from material or legal conditions.

HIST 030. Glory Days? Western Europe’s Postwar 1945-1975
Out of the ashes of World War II, Europe pulled itself up in thirty glorious years. But just how glorious were they? This class interrogates the three tumultuous decades from the Marshall Plan to the oil shock. Students will examine phenomena like European integration and decolonization, whose histories help illuminate Brexit and current migration debates. This course takes an in-depth look at a short time span, pushing beyond traditional mythologies about contemporary Western Europe.

HIST 031. France in Algeria, France and Algerians, 1830-present
The histories of France and Algeria are intertwined, not least because of the colonial project on which France embarked in 1830. Through student-led discussions, critical examinations of secondary texts, and primary source analysis, students will interrogate that linked history, from the period of conquest through to the identity politics making headlines today.

HIST 032. Holidays in the Empire
In the 19th and 20th centuries, Europeans "experienced" empire through travel, including safaris, sex tourism, and mission work. As they analyze these travels, students will collaboratively build a Web site challenging celebratory narratives about empire. They will also interrogate how local populations reacted to these sometimes unwelcome visitors. Prerequisite: First-year students must receive permission of instructor.

HIST 033. Environmental History of the Soviet Union
This course focuses on the impact of ideology and politics on the environment in twentieth-century Russia. Readings include short stories, novels, monographs, articles, and documents.

HIST 035. The Modern Jewish Experience
This course focuses on the history of European Jewry from the beginning of emancipation in the late 18th century to the Holocaust.

HIST 036. Fascinating Fascism
This course explores the various manifestations of fascism as an ideological, cultural, and political movement in Europe from 1919 to 1945. Special attention will be paid to Spain, Italy, Germany, Romania, and England.

HIST 037. The Holocaust: History, Representation, and Culture
Seventy-five years after the Holocaust, and despite an enormous amount of research and testimony, the genocide of European Jewry continues to generate compelling interpretive questions. This course is a multidisciplinary exploration of the Holocaust with special attention paid to forms of memory, commemoration, and artistic representations through the study of fiction, poetry, film, memoirs, and historical scholarship.

HIST 038. Russia in the 20th Century
This course explores the Bolshevik seizure of power, the consolidation of communist rule, the rise of Stalin, de-Stalinization, and the collapse of
History

the Soviet Union.
Social sciences.
1 credit.

HIST 039. Picking up the Pieces: Rebuilding Russia after the Collapse of Communism
This course explores the legacy of communism in Russia after the dissolution of the Soviet Union in 1991.
Social sciences.
1 credit.

HIST 042. The American Revolution
Revolutionary developments in British North America between 1760 and 1800.
Social sciences.
1 credit.

HIST 043. Antislavery in America
A research seminar in which students explore the history of antislavery, abolitionist, and emancipationist movements in North America.
Social sciences.
Writing course.
1 credit.
Eligible for BLST

HIST 044. American Popular Culture
The history of entertainment and cultural expression in the United States from the nineteenth century to the present. This course challenges students to ask: What is "culture" and cultural history? What is the relationship between cultural creators and audiences? Topics may include: theater, minstrelsy, side shows, dime novels, amusement parks, Wild West shows, vaudeville, movies, radio, TV, sports, zoot suits, popular music (Blues, Jazz, Rock-and-roll, Punk, and Hip Hop), and digital entertainments.
Social sciences.
1 credit.

HIST 045. The United States Since 1945
This course is a survey of social, political, and cultural history of the United States since 1945.
Social sciences.
1 credit.

HIST 046. The American Civil War
The social, cultural, and political history of the event often called "the Second American Revolution."
Social sciences.
1 credit.

HIST 050. The Making of the American Working Class
Work, community, race, and gender are examined in the context of class relations in the United States from early America to the present.
Social sciences.
1 credit.

HIST 051. Black Reconstruction
This course recounts the struggle for freedom and national citizenship rights in the post-Civil War era. Black courage and determination secured hard won successes despite "splendid failures." History, fiction, and film treatments will help students gain insights into "America’s second Revolution."
Social sciences.
1 credit.
Eligible for BLST

HIST 052. History of Manhood in America
Meanings of manhood and various constructions of masculine identity in America since the 18th century.
Social sciences.
1 credit.
Eligible for GSST

HIST 053. Black Women in the Civil Rights Movement
This study of black women in the modern civil rights movement (1945-1975) explores black women’s experiences in the struggle for equal rights in mid-20th century.
Social sciences.
1 credit.
Eligible for BLST, GSST

HIST 055. Social Movements in the 20th Century
Students will examine large-scale grassroots movements for social change in the United States since the 1890s.
Social sciences.
1 credit.
Eligible for BLST, GSST, PEAC

HIST 057. History v. Hollywood
A history course focused on analyzing the narrative of American History as imagined and created by cinematographers. Students will view both Hollywood classics as well as work by black filmmakers. Assigned readings will address themes of nationality, race, labor, gender, and political activism.
This course is not open to first year students.
Social sciences.
1 credit.

Americans prefer to "learn" history from film rather than scholarly works or primary source documents. What do Americans learn about the black past when feature films and Hollywood created fictional narratives are the source material?
Students will study work by black filmmakers whose art focuses on African American history.
Prerequisite: A HIST or BLST course at Swarthmore.
Social sciences.
1 credit.
Eligible for BLST
HIST 058B. An Extended Stay in Gullah/Geechee Low Country
This course invites students to study the history and culture of the Gullah/Geechee through the lens of memoir and novels. The readings provide a vivid and varied portrait of the individuals, communities, and cultures of the Georgia sea coast over a two-century span, while addressing themes including slavery, Jim Crow, black faith and folk art traditions, and the struggle for economic and political autonomy.
Social sciences.
1 credit.

HIST 060. The East India Company, 1600-1857
The course explores the history of the East India Company, paying special attention to the 18th century and attending to how the history of the East India Company engages questions of capitalism, empire, race, justice, and modernity. Prerequisite: A history course at Swarthmore.
Social sciences.
1 credit.
Eligible for ASIA
Fall 2020. Azfar.

HIST 061. The Histories of Water
This course explores the cultural, social, and political history of water with a focus upon formative events and cultural processes. Throughout, we will examine the different ways in which the history of water can be plotted into the histories of states, cultures, institutional practices, and social ideologies.
Social sciences.
1 credit.
Eligible for ASIA, ENVS

HIST 063. Voices of the Past: Between Oral History and Memory
An examination of the possibilities and limitations of oral history in the reconstruction of the past. After an in-depth discussion of key works in the field and an initial exposure to specific methodologies, each student will develop his/her oral history research project.
Social sciences.
1 credit.
Eligible for LALS

HIST 065. Cities of (Im)migrants: Buenos Aires, Lima, Philadelphia, and New York
Social sciences.
Writing course.
1 credit.
Eligible for LALS

Discussing Latin American, European, African, Asian, and North American cases, this course examines public health strategies in colonial and neocolonial contexts; disease metaphors in media, cinema, and literature; ideas about hygiene, segregation and contagion; outbreaks and the politics of blame; the medicalization of society; and alternative healing cultures.
Social sciences.
1 credit.
Eligible for INTP, LALS

HIST 067. Digging Through the National Security Archive: South American "Dirty Wars" and the United States' Involvement
After a critical examination of the scholarship on the so-called 1970s "Dirty Wars" and state terrorist regimes, this course focuses on the relations between the Chilean and Argentine dictatorships and the United States through a rigorous research exercise using the National Security Archive and other primary sources.
Social sciences.
Writing course.
1 credit.
Eligible for LALS, PEAC
Fall 2020. Armus.

HIST 068. The Self-image of Modern Latin America
Latin America as it was discussed by Latin American intellectuals and political actors vis a vis agendas for social, national, and regional change.
Social sciences.
1 credit.
Eligible for LALS

HIST 070D. The History and Politics of Punishment
(Cross-listed as POLS 070D)
A survey of the politics and history of incarceration in the United States, this course will focus on the conditions that created the prison system and perpetuated racial inequities. We will also cover the industrial system and its role in the making of the incarcerated state.
Social sciences.
1 credit.

HIST 073. Perils & Phobias: The Case of Yellow
This course surveys the vast literature of American and European accounts of China and Japan, ranging from early travel accounts to contemporary non-fiction works. Our goal is to reconstruct a European/American-centered genealogy of knowledge about the "East" - defined as a geopolitical unit, a culture, and an identity - through close readings of textual and visual
History

representations.
1 credit.
Eligible for ASIA

HIST 075. Craft and Technology in China
This course explores the history of craft and technology in China. Through an examination of different industries, including ceramics, weaving and dyeing, printing, and paper-making, we will engage with broader questions about the role of expertise, skill, and the production of technical knowledge in Chinese history.
Social sciences.
1 credit.
Eligible for ASIA
Fall 2019. Chen.

HIST 077. Fashion: Theory and History
This course traces the historical development of fashion systems and fashion theory, with a special focus on East Asia. Using textual, visual, and material sources, we will explore historical representations of dress, the politics of dress, fashion and the body, and consumption and modernity.
Prerequisite: A history course or permission of the instructor.
Social sciences.
1 credit.
Eligible for ASIA

HIST 078. China, Capitalism, and Their Critics
This course examines the creation of a discourse centered on the relationship between China, a nation with distinct cultural characteristics, and capitalism, conceived of as an economic system specific to European social formation.
Prerequisite: A history course or permission of the instructor.
Social sciences.
1 credit.
Eligible for ASIA
Fall 2020. Chen.

HIST 080. History of the Body
Bodies make history and bodies are subject to history’s movements. The history of the body, a relatively recent field of inquiry, encompasses the histories of science, gender, sexuality, race, and empire. This course will explore different chapters of that history, with a focus on Europe and the Atlantic World.
Prerequisite: This course is not open to first year students.
Social sciences.
1 credit.
Eligible for GSST, INTP

HIST 081B. Creating ourselves: Black Women’s history through food and literature
Black Women have long written themselves into existence and into the narrative of race and gender in American history. History 81B will interrogate foodways and discover the meaning of culinary traditions through the literature of Black Women writers: Morrison, Angelou, Shange among others.
Social sciences.
1 credit.

HIST 083. What Ifs and Might-Have-Beens: Counterfactual Histories
The course will focus on debates about and within the writing of counterfactual histories.
Social sciences.
1 credit.
Eligible for INTP

HIST 084. Modern Addiction: Cigarette Smoking in the 20th Century
This course examines the worldwide transformation of the habit of smoking into a medicalized and regulated practice. Emphasis on research projects based on primary sources.
Social sciences.
1 credit.
Eligible for LALS

HIST 085. Chemistry of Color
This course explores the history of color as a scientific object, focusing specifically on how dyers, chemists, and a new group of experts, known as colorists, launched a color revolution in the 18th century.
Prerequisite: No prerequisites.
Social sciences.
1 credit.

HIST 089. The Environmental History of Africa
This course examines African history from an ecological and environmental perspective.
Social sciences.
1 credit.
Eligible for BLST, ENVS

HIST 090B. Irish History
Settlement from Ancient Ireland to the Celts, the rise of the McNeill Kingship, the arrival of St. Patrick, the Norman invasion, and the Flight of the Earls. We examine the darkest hours of Irish History: Cromwell, the Potato Famine, the Easter Uprising, Irish Independence, up to Bloody Sunday in Derry, 1972.
Social sciences.
1 credit.
HIST 090C. Women in Late Imperial and Republican China
This is a thematic course exploring the multiplicity of female experiences in late imperial and Republican China. The course aims to situate the changes in the social status and daily lives of Chinese women in their broader sociopolitical contexts and to depict the multifarious character of Chinese women’s lives. With this purpose, the students will learn about women from different social classes and ethnic backgrounds, emphasizing their contribution to social and political life.
Social sciences.
1 credit.

HIST 090D. A Global History of Chinese Labor
This course is a survey of Chinese labor history, analyzing how Chinese workers have influenced the course of history on a global scale by mass migrations and participation in social and political movements since the nineteenth century. Some of the topics include Chinese labor migrations to European plantations, the role of workers in China’s anti-colonial struggle, Mao Zedong’s theory of class struggle, and gender-labor relations in the post-1978 Reform period.
Social sciences.
1 credit.

HIST 090E. On the Other Side of the Tracks: Black Urban Community
The study of the black community in the United States, from the end of the American Revolution to the end of the 20th century.
Social sciences.
1 credit.
Eligible for BLST

HIST 090J. INTP Capstone: Thinking in Crisis
(Cross-listed ENGL 086, INTP 091)
This course explores important works of theory, history, and fiction that were produced during (and in response to) moments of profound social, economic, and political crisis.
Social sciences.
1 credit.
Eligible for INTP

HIST 090M. Black Art: Quilting as History and Culture
This one-time, special projects course will teach students how to quilt while learning the history of African American quilt making. Designed in collaboration with the exhibit Piece Together: The Quilts of Mary Lee Bendolph, featured in the Swarthmore College List Gallery September 6-October 28, 2018. Artist-in-Residence Alicia Nock will teach students the skills and artistry necessary to design and construct quilts. Each student will have the opportunity to make their own quilt as well as work in collaboration with classmates to create a larger quilt. Quilts created in the course will join the display of quilts made by regional quilt makers and quilts made by three generations of Gee’s Bend quilt makers hanging in the Atrium of McCabe Library.
Students will also study the history of African American quilting, a centuries old tradition with West African roots. Readings will focus on journal articles, an anthology on black fabric art, and a novel. Students will submit a short reflective essay and will attend the unveiling of the quilts in fall 2018.
0.5 credit
Eligible for BLST

HIST 090N. Minor Characters and Ordinary People: New Methods in History and Literature
(Cross-listed as ENGL 090A)
Novels, social media, close friends, and parents help us feel like main characters in our own lives, but most of us will remain minor, relatively unimportant characters in any larger context. This course will explore the problem of the minor character and the ordinary person from the conflicting and complementary perspectives of the historians and the literary critic, using both traditional and computational methods.
Social sciences.
1 credit.
Fall 2019. Burke, Buurma.

HIST 090P. Creatively Adapting the Past
This course is a workshop focused on the creative uses of historical themes, subjects, and evidence. We will examine how to identify promising topics and stories for adaptation, how to conduct historical research with adaptation in mind, and what the ethical and practical considerations governing such adaptations are or ought to be.
Students in this course will workshop plans for possible creative work and develop supporting materials and a research portfolio to support those plans. Students do not have to have prior experience in performing arts, studio art or creative writing, but they should feel comfortable envisioning a creative project of some kind.
Social sciences.
1 credit.

HIST 090Q. Queer Theory for Historians
This course is centered around three questions. What is queer theory? What has it meant for the study of history? And what can queer theory learn from history, particularly from historical scholarship that interrogates the role of desire in the structure of archives and historical narratives?
Social sciences.
1 credit.
History

HIST 090X. Divided America: History of the Culture Wars
This course examines the origins of the divisive cultural politics in America since the 1970s. Social sciences. 1 credit.

HIST 090Y. From the Frontier to Freedom: Topics in the Study of the South African Past
This class will introduce students to major themes in South African history through an intersectional approach to topics including slavery, colonialism, industrialization and labor, segregation, Apartheid, political struggle and post-Apartheid society and politics. Students will engage with key debates in an established literature as well as with important new questions raised by recent scholarly interventions. Prerequisite: No prerequisites. Social sciences. 1 credit. Eligible for BLST

HIST 090Z. Engendering Difference: Sex, Gender, Race, and the Making of Modern South Africa
This class will explore the historical connections between sex, gender and race in 19th and 20th century South Africa. It will contextualize these connections by placing them within institutions and processes of labor, the formation of families and households, culture, politics, colonialism and religion, providing insight into how these common processes of world history take on particular historical characteristics in modern South Africa. Prerequisite: No prerequisites. Social sciences. 1 credit. Eligible for BLST

HIST 091. Senior Research Seminar

HIST 092. Thesis
A single-credit thesis, available to all majors in their senior year after completion of HIST 091, on a topic approved by the Department. Thesis should be 10,000 to 15,000 words in length (50-75 pages), and a brief oral examination will be conducted upon completion of thesis. May not be taken pass/fail. 1 credit.

HIST 093. Directed Reading
Individual or group study in fields of special interest to the student not dealt with in the regular course offerings requires the consent of the department chair and of the instructor. HIST 093 may be taken for 0.5 credit as HIST 093A. 0.5 credit.

Seminars

HIST 116. European Intellectual History
This honors seminar will explore European intellectual history from the Renaissance to the post-moderns, with the Enlightenment as the central historical problem. Where did the Enlightenment come from, and what did it result in? We will examine scholarship that has engaged this question in different ways, exploring intersections between the history of European ideas and cultural history, the history of revolutions, the history of sexuality, and the history of Empire. Social sciences. 2 credits.

HIST 126. Supranational Institutions and Modern Europe
This honors seminar will analyze experiments and schemes for organizing the world, ranging from realized projects like the League of Nations and the European Economic Community to unrealized projects like the European Defense Community. Other versions of integration, such as unification (Germany; Yugoslavia) and "pan" movements (Pan-Slavism, Pan-Arabism) will also be analyzed. Emphasis will be placed on the planning and execution of these institutions, their impact on the rights of individuals, and on historiographical debates on territory and sovereignty. Social sciences. 2 credits. Spring 2020. Brown.

HIST 128. Russia in the 19th and 20th Centuries
This course focuses on the social, economic, political, and intellectual forces leading to the collapse of the autocracy and the rise of Stalin. Particular attention is devoted to the dilemmas of change and reform, and the problematic relationship between state and society. Social sciences. Writing course. 2 credits. Fall 2019. Weinberg. Spring 2021. Weinberg.

HIST 130. Early America in the Atlantic World
The "new world" of European and Indian encounter in the Americas, along with the African slave trade, British North American colonies, and the American Revolution. Social sciences. 2 credits.
HIST 131. Gender and Sexuality in America
A social and cultural history of gender and sexuality in the United States from the early republic to the present.
Social sciences.
2 credits.
Eligible for GSST

HIST 135. Labor and Urban History
A seminar that focuses on history from the bottom up, on working-class people as they build America and struggle to obtain political, social, and economic justice. Topics include urbanization and suburbanization, republicanism and democracy, racism and the wages of Whiteness, gender and work, class and community, popular culture, the politics of consumption, industrialism and the managerial revolution, and jobs and gender.
Social sciences.
2 credits.

HIST 137. Slavery, 1550 to 1865
This seminar focuses on slavery in the United States between 1550 and the end of the Civil War, emphasizing the link between black enslavement and the development of democracy, law, and economics. Topics addressed include the Atlantic slave trade, the development of the Southern colonies, black cultural traditions, and community formation.
Social sciences.
2 credits.
Eligible for BLST
Fall 2020. A. Dorsey.

HIST 140. The Colonial Encounter in Africa
Students focus on the social, economic, and cultural dimensions of the colonial era in modern Africa.
Social sciences.
2 credits.
Eligible for BLST, DGHU, INTP

HIST 143. Political Economy of the Middle East
This honors seminar will survey existing literature on the political economy of the Middle East. We will read work from various sub-fields in Middle East history, including labor history, social history, agrarian history, histories of women and gender, histories of colonialism and decolonization, environmental history, and histories of economic thought. In doing so, we will engage both older traditions of historical and social scientific inquiry and more recent, theoretically innovative scholarship that is advancing a renewed interest in the study of political economy and assess the contributions and/or merits of different approaches.
Social sciences.
2 credits.

HIST 145. Women and Gender in Chinese History
This seminar explores theoretical frameworks and multiple methodologies that have been applied to the study and interpretation of women and gender in late imperial and modern China (1700-1980s). Our primary aim is to understand the relationship between the construction of gender (in particular, the formation of "woman" and "man" as fixed and normative subjects) and the writing of Chinese history.
Social sciences.
2 credits.
Eligible for ASIA, GSST

HIST 148. Issues and Debates in Modern Latin America
Explores major problems and challenges Latin American nations have been confronting since the last third of the 19th century onward. Topics include the neocolonial condition of the region, nation and state building processes, urbanization, industrialization, popular and elite cultures, modernities in the periphery, and race, class, and gender conflicts.
Social sciences.
2 credits.
Eligible for LALS

HIST 149. Reform and Revolutions in Modern Latin America
The historical problem of change - political, economic, social, and cultural - in peripheral Latin America. It emphasizes on nation-building capitalist ideas, populist experiences that produced deep reformist transformations, and revolutionary processes that started very radical and over time became moderate.
Social sciences.
2 credits.
Eligible for LALS
Fall 2020. Armus.

HIST 180. Honors Thesis
2 credits.
Spring 2020. STAFF.
The Interpretation Theory Program provides students and faculty with an interdisciplinary forum for exploring the nature, ethics, and politics of representation. Reaching widely across the disciplines, work done in the minor reflects a long-standing drive to cultivate self-consciousness in the use of a significant range of interpretive methods. Students use this course of study to develop a flexible, comparative, critical, historicized grasp of theories of the production of meaning in and through cultural life. They also sharpen their skills in critical reading and intellectual analysis.

Students who minor take a total of six courses that build on a combination of classic and current hermeneutic methods. Each year, graduating seniors enroll in a capstone seminar that proposes a structured investigation into an inherently interdisciplinary problem. Faculty team-teach the course as a way of drawing out multi-disciplinary concerns in both theory and practice.

The Academic Program

Course Minor

Students who minor in Interpretation Theory take a total of 6 courses that build on a combination of classic and current hermeneutic methods. Three general rules guide the selection:

1. All minors are required to successfully complete the one-credit capstone seminar, team-taught by two faculty members from different departments, in spring of their senior year. Juniors may enroll upon approval of the instructors, but the seminar must be taken in the spring of senior year in order to receive capstone credit. First-years are not permitted in the seminar.

2. The three remaining courses are elective but must draw upon at least three different departments. At least 4 of the 6 interpretation theory credits must be outside the major.

3. A minimum "B" average is required for all minors by their junior and senior years. Other courses may be considered upon petition to the Interpretation Studies Committee. These may include relevant courses offered at Bryn Mawr College, Haverford College, and the University of Pennsylvania.

Honors Minor

All students participating in the Honors Program are invited to define a Honors minor in interpretation theory. Students must complete one preparation for external examination. This 2-credit preparation can be:
- a 2-credit Honors seminar;
- the INTP Capstone seminar plus a reading attachment or a thesis;
- a combination of two eligible courses in different departments;
- a 2-credit thesis;
- or a combination of a thesis plus a related course.

Any thesis must be multidisciplinary. The proposed preparation must be approved by the Interpretation Theory Committee. Honors minors must meet all other requirements of the interdisciplinary minor.

Capstone Seminars

All minors are required to successfully complete the one-credit capstone seminar, team-taught by two faculty members from different departments, in the spring of their senior year. Each year, graduating seniors enroll in a capstone seminar that proposes a structured investigation into an inherently interdisciplinary problematic. The capstone seminar embodies both theoretical and interdisciplinary qualities that make interpretation theory distinctive and compelling.
Interpretation Theory

Students majoring in a variety of disciplines come together with faculty members from 2 different areas to explore theories of knowledge and questions of interpretation and representation. For example, past capstone seminars have brought together professors from French literature and biology, political science and religion, anthropology and English, philosophy and art, classics and linguistics, and other interdisciplinary combinations.

Current and past capstone titles include: Cultural Dimensions of Scientific Thought; Corporality in Storytelling; Rituals and Spectacles of Violence; Hero Time Travel; Mind, Body, Machine; Interpretation and the Visual Arts; Beyond Reason: Nietzsche, Levinas and the Kabbalah; Mapping the Modern; and Visionaries of Spirit, and Masters of Suspicion.

Life After Swarthmore

Respondents to an Interpretation Theory Program alumni survey in 2013 indicated that approximately 54% went on to graduate school and of those, approximately 67% pursued a Ph.D. or other doctorate.

Occupations of interpretation theory graduates are diverse and include: physicians, professors, editors, grant writers, and civil rights activists.

Interpretation Theory Courses

Currently offered courses relevant to the program include the following:

**INTP 090. Directed Reading**
1 credit.

**INTP 091. Capstone: Thinking in Crisis**
ENGL 086, HIST 090J
Spring 2020: INTP 091 "Thinking in Crisis" will be cross-listed with ENGL 086, HIST 090J
This course explores important works of theory, history, and fiction that were produced during (and in response to) moments of profound social, economic, and political crisis.
Spring 2021: INTP 091 "Interpreting Narrative through Creation with Clay and Language" will be cross-listed with Linguistics 091 and Studio Arts
This is a course using creative arts to bring into focus questions about the fundamental nature of narrative, about the analogies between different types of creative arts, and even about what a creative art is. Students will create narratives and realize them through the media of clay and language. Students will learn the basics of constructing with clay to create representations in shape and form in relation to their own linguistic narrations.
Open to INTP seniors and juniors, and other juniors and seniors by approval of instructors. Non-distribution.
1 credit.

Eligible for INTP
Spring 2020. Patnaik, Shokr

**INTP 092. Thesis**
2 credits.

The following courses may be counted for credit in the Interpretation Theory Program. Descriptions of the courses can be found in each department’s course listings in this catalog.

**Anthropology**
ANTH 032D. Mass Media and Anthropology
ANTH 049B. Comparative Perspectives on the Body
ANTH 116. Anthropology of Capitalism

**Art History**
ARTH 164. Modernism in Paris and New York

**Classics**
CLST 020. Plato and His Modern Readers
CLST 036. Classical Mythology

**Comparative Literatures**
LITR 047R. Russian Fairy Tales
LITR 070R. Translation Workshop
LITR 074F. A History of the Five Senses
LITR 075S. Borges: Aesthetics & Theory

**Dance**
DANC 023. Contemporary Performance

**English**
ENGL 035. The Rise of the Novel
ENGL 071S. Contemporary Life Writing: Form and Theory
ENGL 079. What is Cultural Studies?
ENGL 080. Introduction to Literary Theory
ENGL 089E. Ecofeminism(s)
ENGL 090. Queer Media
ENGL 092. Marxist Literary and Cultural Studies
ENGL 111. Victorian Literature and Culture
ENGL 121. Modernism and Forgetting

**Environmental Studies**
ENVS 042. Ecofeminism(s)

**Film and Media Studies**
FMST 020. Critical Theories of Film and Media
FMST 043. Conspiracy Media
FMST 045. Feminist Film and Media Studies
FMST 046. Queer Media

**French**
FREN 116. La Pensée géographique

**History**
HIST 001K. First-Year Seminar: Engendering Culture
Interpretation Theory

HIST 025. Colonialism and Nationalism in the Middle East
HIST 080. History of the Body
HIST 083. What Ifs and Might-Have-Beens: Counterfactual Histories
HIST 090Q. Queer Theory for Historians
HIST 140. The Colonial Encounter in Africa

Linguistics
LING 002. First-Year Seminar: The Linguistic Innovation of Taboo Terms and Slang
LING 063. Supporting Literacy Among Deaf Children

Peace and Conflict Studies
PEAC 043. Gender, Sexuality, and Social Change

Philosophy
PHIL 016. Philosophy of Religion
PHIL 020. Plato and His Modern Readers
PHIL 039. Existentialism
PHIL 049. Marx, Nietzsche, and Freud
PHIL 069. Phenomenology-Then and Now
PHIL 079. Poststructuralism
PHIL 114. Nineteenth-Century Philosophy
PHIL 139. Phenomenology, Existentialism, and Poststructuralism

Physics
PHYS 021. Capstone: Cultural Dimensions of Scientific Thought

Political Science
POLS 011. Ancient Political Thought
POLS 012. Modern Political Thought
POLS 100. Ancient Political Thought

RELG 037. Sex, Gender, and the Bible
RELG 112. Postmodern Religious Thought

Russian
RUSS 037. Crime or Punishment: Russian Narratives of Captivity and Incarceration
RUSS 047. Russian Fairy Tales
RUSS 070. Translation Workshop

Sociology
SOCI 004B. First-Year Seminar: From Modernity to Postmodernity and Beyond: An Introduction to Social Theory
SOCI 024C. Latin American Society Through Its Novel

Spanish
SPAN 075. Borges: Aesthetics & Theory
SPAN 078. Laberintos borgeanos
SPAN 108. Jorge Luis Borges

Note:
For the most up-to-date, semester-by-semester list of courses, please consult the program website at www.swarthmore.edu/intp.
Any courses attached to the program, at the time taken, will be counted toward requirements for the minor in interpretation theory.
Other courses may be considered on petition to the Interpretation Theory Committee. These may include relevant courses offered at Bryn Mawr and Haverford colleges and the University of Pennsylvania.
Islamic Studies

Coordinator: TARIQ al-JAMIL (Religion), Coordinator
Anita Pace (Administrative Assistant)

Committee: Khaled Al-Masri (Modern Languages and Literatures, Arabic)
Farha Ghannam (Sociology and Anthropology)
Alexandra Gueydan-Turek (Modern Languages and Literatures, French)
Steven Hopkins (Religion)

Swarthmore’s Islamic Studies Program focuses on the diverse experiences and textual traditions of Muslims in global contexts. As one of the world’s great religions and cultures, Islam has shaped human experience—both past and present—in every area of the world. The academic program explores the expressions of Islam as a religious tradition, the role of Muslims in shaping local cultures, Islamic civilization as a force in global history, and the significance of Islamic discourses in the contemporary world. The program offers an undergraduate minor, drawing from the academic disciplines of art history, dance, film and media studies, gender and sexuality studies, history, modern languages and literatures, political science, religion, and sociology and anthropology. The Islamic Studies Program challenges students to consider a wide range of social, cultural, literary, and religious phenomena in both the Arabic and non-Arabic speaking parts of the world. These include aspects of life in countries with Muslim majorities such as Egypt, Syria, Indonesia, Pakistan, Afghanistan, Iran, and Turkey as well as those countries with vital minority communities such as France, Germany, and the United States. A sample of coursework includes The Qur’an and its Interpreters; Islamic Law and Society; Gender, Sexuality, and the Body in Islamic Discourses; Cultures of the Middle East; Culture, Power, Islam; Cultural History of the Modern Middle East; Cities of the Middle East; and Kathak Dance Performance.

The Academic Program

Course Minor

All students must take a minimum of 5 Islamic Studies Program credits. Students must follow the guidelines below regarding the required 5 courses.

Requirements

1. The 5 required courses must cross at least 3 different academic departments.
2. Only 1 of the total 5 credits required by the Islamic studies minor may overlap with the student’s major.
3. Students must successfully complete Arabic 004 (and its prerequisites) or the equivalent. This requirement is waived for native speakers of Arabic and for students who demonstrate sufficient competence by passing an equivalency exam. Alternate fulfillment of the language requirement may also be approved by the Islamic Studies Committee if a student demonstrates competence in another language that is relevant to the study of a Muslim society and is directly related to the student’s academic program. Only Arabic courses beginning at the level of Arabic 004 or its equivalent will count toward the total 5 credits in Islamic studies required for the minor.

To supplement classes offered at Swarthmore, students are encouraged to explore and take classes at other nearby colleges, especially Bryn Mawr, Haverford, and the University of Pennsylvania. Students are also strongly encouraged to spend a minimum of one semester abroad in a program approved by both Islamic studies and Swarthmore’s Off-Campus Study Office. In addition to furthering the student’s knowledge of Islam and Muslim societies, studying abroad is a unique opportunity for personal and intellectual growth.

Acceptance Criteria

Students interested in Islamic studies are invited to consult with members of the Islamic Studies Committee before developing a proposal for a minor. The proposal should outline and establish how a minor in Islamic studies relates to the student’s overall program of undergraduate study and should provide a list of the courses to be taken. The minor is open to students of all divisions.

Students will be admitted to the minor after having completed at least two Islamic studies courses at Swarthmore in different departments with grades of B or better. Applications to the program must be submitted by March 1st of the sophomore year, and all programs must be approved by the Islamic Studies Committee. Deferred students will be re-evaluated at the end of each semester until they are either accepted or they withdraw their application.

Honors Minor

To complete an honors minor in Islamic Studies, a student must have completed all the course requirements for the interdisciplinary minor listed above. Students are encouraged to take a 2-credit honors seminar in an Islamic studies topic in either their junior or senior year. Honors students are required to complete a 2-credit thesis under program supervision that will count toward the minimum of 5 credits required for the interdisciplinary minor or take a 2-credit Islamic Studies honors seminar. Students normally enroll for thesis (ISLM 180) in the fall semester and in the spring semester of the senior year. The honors examination will address themes explored in the 2-
credit thesis or the 2-credit Islamic Studies honors seminar.

Special Major
Students are invited to consider a special major in Islamic studies in consultation with members of the Islamic Studies Committee. The proposal should include the above requirements and should provide a list of the courses.

Islamic Studies Courses

ISLM 180. Honors Thesis
1 credit each semester.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

The following courses may be applied to an academic program in Islamic studies. See individual departments to determine specific offerings in 2019 - 2022.

Anthropology
ANTH 009C. Cultures of the Middle East
ANTH 123. Culture, Power, Islam

Dance
DANC 046. Dance Technique: Kathak
DANC 049F. Dance Performance Repertory: Kathak

History
HIST 001T. First-Year Seminar: Cross and Crescent: Muslim-Christian Relations in Historical Perspective
HIST 001W. First-Year Seminar: Promised Lands: European Settler Colonies 1830-1962
HIST 006B. The Modern Middle East
HIST 025. Colonialism and Nationalism in the Middle East
HIST 031. France in Algeria, France and Algerians, 1830-present

Modern Languages and Literatures, Arabic
ARAB 004. Intermediate Modern Standard Arabic II

Peace and Conflict Studies
PEAC 003. Crisis Resolution in the Middle East
PEAC 053. Israeli-Palestinian Conflict

Religion
RELG 008B. The Qur’an and Its Interpreters
RELG 011B. The Religion of Islam: The Islamic Humanities
RELG 013. The History, Religion, and Culture of India II: Muslim, Hindu, Sikh, and Dalit in North India
RELG 029. Is God a White Supremacist?
RELG 053. Gender, Sexuality, and the Body in Islamic Discourses
RELG 054. Power and Authority in Modern Islam
RELG 100. Holy War, Martyrdom, and Suicide in Christianity, Judaism and Islam
RELG 119. Islamic Law and Society
RELG 127. Secrecy and Heresy
Swarthmore’s Latin American and Latino Studies Program introduces students to the shared history and the rich diversity of Latin American societies, cultures and nation-states, as well as with the transnational dynamics that shape Latino, Latina and Latinx experiences in the United States. Students in the program draw on a variety of disciplines for a fuller understanding of how to conceptualize "Latin America" and "latinidad" in all their complexity. Spoken language, literature and visual culture; pre-colonial, colonial, and modern history; indigenous, immigrant, and diasporic experiences; political and economic systems and social movements; religion, spirituality and other forms of devotion; and socioeconomic conditions and cultural identities all figure into this far-ranging and broadly inclusive course of study. Courses in anthropology, educational studies, history, modern languages and literatures, religion, and political science contribute to this exciting interdisciplinary program.

Students may pursue a minor or a special major in Latin American and Latino Studies. Studying beyond the traditional classroom walls provides students with invaluable opportunities for enriching intellectual experiences and personal growth. Most students pursuing a minor or a special major spend at least one semester abroad in Latin America. For students who are unable to study abroad for whatever reason, faculty-guided off-campus involvement in a local immigrant or Latinx community offers another way to pursue comparable opportunities.

The Academic Program

Students interested in the Latin American and Latino Studies Program are invited to consult with the program coordinator and members of the LALS Committee before developing a proposal. The proposal should establish how Latin American and Latino Studies relates to the overall program of undergraduate study and to the departmental major. The minor is open to students of all divisions.

Course Minor

Latin American and Latino Studies minors must complete the following requirements:

Language:  
LALS requires the successful completion of SPAN 004 Intensive Advanced Spanish or its equivalent. This requirement is waived for native and heritage speakers of Spanish, and for students who demonstrate sufficient competence in this or another Latin American language (including Portuguese and relevant indigenous languages), as determined by the Latin American and Latino Studies Committee. Note: LALS credit is not offered for language courses.

Courses:  
Students must complete a minimum of 5 Latin American and Latino Studies-eligible courses and/or seminars.

- These 5 courses must span both the Humanities and Social Sciences Divisions.
- In order to develop a basic introduction to Latin America as a social, political and cultural region, students must complete one of the following courses, preferably by the end of their sophomore year: ANTH 031C: Hispanics, Mestizos, Latinxs; HIST 004: Introduction to Latin American History; POLS 057: Latin American Politics; or SPAN 012: Imágenes y contextos hispánicos.
- Only 1 of the total 5 courses required for the Latin American and Latino Studies minor may overlap with a student’s major or other minor.
- To graduate with a minor or a special major in Latin American and Latino Studies, a student must maintain a minimum grade of
"B" in the program, and a "C" average in any other course work.

**Study Abroad or Other Immersive Learning Experience**

- Students are required to spend one or more semesters engaging in an immersive experience off campus. By extending learning beyond the traditional classroom, students have distinctive opportunities for enriching intellectual experiences and unique opportunities for personal growth. The immersive experience may take one of two forms: either studying abroad in a program approved by both the Latin American and Latino Studies Committee and the Off-Campus Study Office, or completing a semester-long internship or community service project in Latin America or in a Latinx community in the U.S., overseen by a faculty member affiliated with the program and approved by the Latin American and Latino Studies Committee.
- Students may apply two courses from work taken abroad in Latin America to their Latin American and Latino Studies academic program.
- Courses taken abroad must have a clear Latin American focus and must be preapproved by the appropriate department in order to count for the LALS minor.
- Study abroad must be pursued in Spanish or Portuguese. Students must complete Spanish 004, or its equivalent, before going abroad.
- Language courses are not eligible for study abroad credit.
- Students are strongly encouraged to complete the introductory course requirement (see above) prior to their immersive off-campus learning experience.

**Honors Minor**

To complete an honors minor in Latin American and Latino Studies, students must have completed all requirements for the interdisciplinary minor. From within these offerings, they may select for outside examination a seminar taken to fulfill the interdisciplinary minor’s requirements. However, the seminar chosen may not be an offering within their major department.

**Special Major**

Students may plan a Latin American and Latino Studies special major that includes closely related work in one or more departments. Students must have completed at least two LALS-related courses with grades of B or better to be accepted into the major. Students also have the possibility of designing an individualized special major in coordination with other departments. Special majors consist of at least 10 courses and no more than 12 courses.

Latin American and Latino Studies special majors and individualized special majors must complete the major comprehensive requirement of a 1-credit thesis or other written research project designed to integrate the work across departmental boundaries, or a comprehensive examination. Any student interested in pursuing an individualized special major must meet with the LALS Program Coordinator to establish a concrete plan for meeting these requirements.

**Life After Swarthmore**

Swarthmore graduates who have taken part in the Latin American and Latino Studies Program find that their rich understanding of the cultures and people of Latin America and Latinos in the U.S. is attractive to employers. Graduates most frequently pursue careers in public service, law, government, education, humanities, social sciences, and the media.

**Latin American and Latino Studies Courses**

The following courses are eligible for credit toward a minor or special major in Latin American and Latino Studies:

*All papers and projects for affiliated courses must focus on topics related to Latin American and Latino Studies*

- **LALS 015. First Year Seminar: Introduction to Latinx Literature and Culture**
  Cross-listed with SPAN 015
  (W)
  Fall 2019. Diaz.

- **LALS 052. Afro-Caribbean Literature and Visual Culture**
  Cross-listed with SPAN 052

- **LALS 055. Race and Religion across Latin America and the Caribbean**
  Non-distribution.
  1 credit.
  Eligible for LALS, BLST

- **LALS 057. Performing Latinidad: Latinx Film, Theater & Performance Art**
  Cross-listed with SPAN 057 and THEA 007.

- **LALS 062. The Politics of Latinx Art and Activism**
  Cross-listed with SPAN 062

- **LALS 090. Thesis**
  1 credit.
  Eligible for LALS
The following courses may be counted for credit in the Latin American and Latino Studies Program. Descriptions of the courses can be found in each department’s course listings in this catalog.

**Anthropology**  
ANTH 031C. Hispanics, Mestizos, Latinxs (M)  
ANTH 051B. Drugs and Governmentality

**Education**  
EDUC 045. Literacies and Social Identities  
EDUC 053. Educating Emergent Bilinguals

**English Literature**  
ENGL 050D. Literature and Art on the US-Mexico Border

**History**  
HIST 001P. First Year Seminar: History through the Lens: Latin America, Latinos, Photography, and the Present  
HIST 004. Latin American History  
HIST 065. Cities of (Im)migrants: Buenos Aires, Lima, Philadelphia, and New York  
HIST 067. Digging Through the National Security Archive: South American "Dirty Wars" and the United States’ Involvement  
HIST 149. Reform and Revolutions in Modern Latin America

**Linguistics**  
LING 053. Educating Emergent Bilinguals

**Peace and Conflict Studies**  
PEAC 038. Civil Wars & Neoliberal Peace in Central America

**Political Science**  
POLS 051. The Left in the Americas and Europe  
POLS 057. Latin American Politics  
POLS 086. The United States and Latin America  
POLS 109. Comparative Politics: Latin America

**Religion**  
RELG 007B. When the Saints Go Marching In! Festivals and Parades of Latin America  
RELG 043B. Decolonizing Afro/Latin American Religion

**Spanish**  
SPAN 012. Imágenes y contextos hispánicos  
SPAN 015. First Year Seminar: Introduction to Latinx Literature and Culture  
SPAN 023. Introducción a la literatura latinoamericana  
SPAN 050. Afrocaribe: literatura y cultura visual  
SPAN 052. Afro-Caribbean Literature and Visual Culture  
SPAN 055. Puerto Rico y su discurso literario  
SPAN 057. Performing Latinidad: Latinx Film, Theater & Performance Art  
SPAN 061. El "otro": voces y miradas múltiples  
SPAN 062. The Politics of Latinx Art and Activism  
SPAN 076. Narrativas latinoamericanas: identidad y conflicto cultural  
SPAN 079. García Márquez y su huella  
SPAN 080. Los hijos de la Malinche: Representaciones culturales de la Revolución Mexicana  
SPAN 082. México lindo y maldito: representaciones culturales de la Ciudad de México  
SPAN 084. México, 1968: La violencia de ayer y hoy  
SPAN 087. Cruzando fronteras: migración y transnacionalismo en el cine mexicano  
SPAN 103. Horacio Castellanos Moya: Centroamérica en las venas  
SPAN 108. Jorge Luis Borges
**What is Linguistics?**

There are 7,000 languages in the world.
Linguistics is the scientific study of language—we develop techniques to explore patterns that all human languages have in common and investigate the ways in which each is unique. Our explorations yield insights not only about languages, but also about the nature of the human mind.

The relevance of linguistics to the fields of anthropology, cognitive science, language study, philosophy, psychology, and sociology has been recognized for a long time. Linguistics cross list courses from ten departments, reflecting the diversity of fields with strong relevance to our field. The interdisciplinary nature of the field, and our program, further encourages students to broaden their horizons and interact with a wide variety of students, scholars, and ideas.

**What we hope students will get from studying Linguistics**

Because the very nature of modern linguistic inquiry is to build arguments for particular analysis, the study of linguistics gives the student finely honed argumentation skills, which stand in good stead in careers in law, business, and any other profession where such skills are crucial.

**Linguistics at Swarthmore, Bryn Mawr College, and Haverford College**
The Linguistics Department is a constituent in the Tri-College Linguistics Department, which includes courses at Bryn Mawr College and Haverford College. Linguistics courses at Swarthmore College regularly include students from all three schools.

**The Academic Program**
The Linguistics Department offers a course major, a course minor, an honors major, and an honors minor. In addition, a special course major and a special honors major are offered in linguistics and languages.

---

**Course Major: Linguistics**
The course major in linguistics consists of at least eight credits in linguistics, including all of the following:

1. A course in sounds from the following: LING 045, 052.
3. A course in meanings from the following: LING 026, 040.
5. LING 100, in which students complete and defend a one or two-credit (honors only) senior thesis. This course constitutes the comprehensive requirement for the major.
6. Two electives in linguistics. LING 001 (Introduction to Language and Linguistics) may be included in the major at the student’s option.

**Special Course Major: Linguistics and Languages**
The special course major in linguistics and languages consists of at least twelve credits: six credits in linguistics and three credits in each of two languages. The languages can be ancient or modern. Students must complete each of the following:

1. A course in sounds from the following list: LING 045, 052.
3. A course in meanings from the following list: LING 026, 040.
5. LING 100, in which students complete and defend a one or two-credit (honors only)
senior thesis. This course constitutes the comprehensive requirement for the major. Contact the Modern Languages Department and the Classics Department to get the necessary courses to complete the language part of this special major. Some work in each foreign language included in the major must be done in the student’s junior or senior year. If one or both of the foreign languages is modern, the student must study abroad for at least one semester in an area appropriate for one of the foreign languages.

Course Minor
Four minors are offered, each totaling 5 credits (courses below plus any other two credits in linguistics):

- Theory: LING 040, LING 045, LING 050
- Phonology/Morphology: LING 045, LING 043, and LING 052 or LING 025
- Syntax/Semantics: LING 040, LING 050, LING 043
- Individualized: Student may choose five courses in linguistics and provide justification why the courses form a coherent minor.

Honors Major
The honors major in linguistics consists of at least eight credits in linguistics, and includes all of the following:

1. A course in sounds from the following list: LING 045, 052.
3. A course in meanings from the following list: LING 026, 040.
5. LING 195, in which students complete and defend a two-credit senior thesis. This course constitutes the comprehensive requirement for the major.
6. Two electives in linguistics.
7. Complete and defend an honors major portfolio as explained below.

Honors Major Portfolio requirements:

Thesis: Students are required to write a two-credit thesis in LING 195 (Senior Honors Thesis) in the fall of their senior year. Thesis may be on any topic in linguistics. It need not be related to course work. Work may be collaborative with one other student at the discretion of the faculty. The oral examination will consist of a discussion of up to one hour with the external reader.

Research Papers: Students are required to write two research papers. The student will prepare for these research papers by taking at least four credits of course work (two credits in each of the research paper areas). The areas will be selected from any combination of the following, possibly in combination with other course work:

- phonetics
- phonology
- morphology
- syntax
- semantics
- historical and comparative
- sociolinguistics

Students will take LING 199 (Senior Honors Study) for one credit in the spring of their senior year. The two research papers will be on topics selected by the external readers and must be directly related to course work the student has taken.

Students will work independently on their research papers. The oral examination will consist of a forty-five minute discussion with the external reader for each paper. The discussion will cover the papers and any other material pertinent to the two credits of course work offered in preparation for the paper.

Honors Special Major Linguistics and Languages
The special honors major in linguistics and languages consists of at least twelve credits: six credits in linguistics and three credits in each of two languages. The languages can be ancient or modern. Students must complete each of the following:

1. A course in sounds from the following list: LING 045, 052.
3. A course in meanings from the following list: LING 026, 040.
5. LING 195, in which students complete and defend a two-credit senior thesis. This course constitutes the comprehensive requirement for the major.
6. Complete and defend an honors major portfolio as explained below.

Honors Special Major Linguistics and Languages portfolio requirements:

Thesis: Students are required to write a two-credit thesis in LING 195 (Senior Honors Thesis) in the fall of their senior year. Thesis may be on any topic in linguistics. It need not be related to course work. Work may be collaborative with one other
student at the discretion of the faculty. The oral examination will consist of a discussion of up to one hour with the external reader.

**Research Papers:** Students are required to write two research papers in linguistics and complete one honors examination that is administered by the relevant language department. The student will prepare for the linguistics research papers by taking at least four credits of course work (two credits in each of the research paper areas). The areas will be selected from any combination of the following, possibly in combination with other course work:

- phonetics
- phonology
- morphology
- syntax
- semantics
- historical and comparative
- sociolinguistics

The third research paper is administered by the relevant language department.

Students will take LING 199 (Senior Honors Study) for one credit in the spring of their senior year. The three research papers will be on topics selected by the external readers and must be directly related to course work the student has taken.

Students will work independently on their research papers. The oral examination will consist of a forty-five minute discussion with the external reader for each paper. The discussion will cover the papers and any other material pertinent to the two credits of course work offered in preparation for the paper.

**Honors Minor**

If a student is a course major in Linguistics as well as an honors minor in Linguistics, thesis required for the course major constitutes the portfolio for the honors minor.

Honors minors who are not course majors in linguistics will satisfy the course minor and complete and defend their honors minor portfolio as explained below.

**Honors Minor portfolio requirements:**

A single research paper will constitute the portfolio for honors. The areas will be selected from any combination of the following:

- phonetics
- phonology
- morphology
- syntax
- semantics
- historical and comparative
- sociolinguistics

The program requires a one-half credit in LING 199 (Senior Honors Study) in the spring of the senior year. The oral examination will consist of a discussion of up to one hour with the external reader.

**Thesis / Culminating Exercise**

Every senior linguistics major or linguistics and language major must write a thesis during the fall semester of their senior year.

**Application Process Notes for the Major or the Minor**

Please follow the process described by the Dean’s Office and the Registrar’s Office about how to apply for a major.

**Advanced Placement/International Baccalaureate Credit**

Linguistics does not accept AP/IB credit.

**Transfer Credit**

Linguistics does accept transfer credit. Please contact the department for more information.

**Off-Campus Study**

Students who special major in linguistics and languages and who focus on two modern languages must spend at least one semester abroad in an area appropriate for one of the foreign languages.

Students planning on a semester abroad must consult with their advisor and the Linguistics Department. Upon return from study abroad, students must present all written work to the department in order to have the course work considered for credit here, including class notes, syllabi, examinations, and papers.

**Sample Paths through Linguistics**

There are many acceptable paths through the major. We urge students to talk with their advisors to find the one that is best suited to their interests, bearing the following considerations in mind.

The end of the path is satisfaction of the requirements for the major. The most intricate of these is successful completion of the senior thesis. While students are permitted to complete one or more of the core requirements (courses in sounds, forms, and meanings) during their senior year, doing so will preclude writing a senior thesis in one of these areas. We strongly recommend completing these requirements by the end of the junior year. Because students frequently develop thesis topics during their courses in the Structure of a Non-Indo-European Language, we also recommend satisfying this requirement by the end of the junior year. Syntax (LING 050) and Phonetics and Phonology (LING 045) are prerequisites for the Structure of a Non-Indo-
European Language (061, 067, 68 and at Haverford College: LINGH282, and LING215.), the faculty urge students to take these courses by the end of the fall semester of the junior year.

**Linguistics Courses**

**LING 001. Introduction to Language and Linguistics**
Introduction to the study and analysis of human language, including sound systems, lexical systems, the formation of phrases and sentences, and meaning, both in modern and ancient languages and with respect to how languages change over time. Other topics that may be covered include first-language acquisition, sign languages, poetic metrics, the relation between language and the brain, and sociological effects on language.
Social sciences.
Writing course.
1 credit.
Fall 2019. Weinberg.
Fall 2020. Staff.
Spring 2021. Staff.

**LING 002. First-Year Seminar: The Linguistic Innovation of Taboo Terms and Slang**
Taboo terms vary in topic across language communities: religion, sex, disease and death, and bodily effluents are common, but other topics can appear, often depending on nonlinguistic factors (community size, demographics, and cultural beliefs). Taboo terms also vary in how they are used: exclamations, name-calling, and maledictions are common, but other uses can appear, such as modifiers and predicates. Over time less common uses tend to semantically bleach, so that historical taboo terms can be used without hint of vulgarity or rudeness. These less common uses can fall together with slang in exhibiting linguistic behavior unique within that language, at the word level and the phrase and sentence level, behavior that is telling with respect to linguistic theory. Each student will choose a language other than English to investigate.
Social sciences.
Writing course.
1 credit.
Eligible for INTP
Fall 2019. Napoli.

**LING 002A. First-Year Seminar: Language, Gender and Sexuality**
From vocal fry to who gossips more, we love talking about the way women and men talk. But do men and women really use language differently? How does the way we talk contribute to making us "women", "men", "genderqueer", or "transgender"? In what ways do our linguistic practices interact with and subvert or perpetuate ideologies of gender, sex, class, and ethnicity? In exploring these questions, this course will cover a variety of subfields of linguistics, including morphology, lexical semantics, and sociolinguistics. We will also explore insights from gender theory, performance theory, and the ethnography of speaking, as well as experimental research on topics such as implicit bias and language perception. We will put all of these tools together to explore the gendered practices we see in the media and in our everyday lives.
1 credit.

**LING 004. First-Year-Seminar: Indigenous Languages of the Americas**
At least 300 languages were spoken in North America before the first contact occurred with Europeans. Most of the surviving languages are on the verge of extinction. Students will learn about language patterns and characteristics of language families, including grammatical classification systems, animacy effects on sentence structure, verbs that incorporate other words, and evidentials. Topics include how languages in contact affect each other, issues of sociolinguistic identity, language endangerment and revitalization efforts, and matters of secrecy and cultural theft.
Social sciences.
1 credit.

**LING 008A. Russian Phonetics**
(Cross-listed as RUSS 008A)
0.5 credit.

**LING 009. First Year Seminar: Languages of Fear, Racism and Zombies**
Both racism and fascinations with the living dead are expressions of fear. Using films including Night of the Living Dead, and texts such as The Zombie Survival Guide, this seminar will consider the apocalyptic turn in contemporary media. Together, we will examine the origins of multiple
linguistics

zombie myths to explore societal notions of difference and change, language and power, masculinity, alienation, and the colonial foundations of modern linguistics across the African continent, in particular. Finally, we will interact with local survival horror fan communities to understand the role of language in the growing popularity and significance of this widespread media phenomenon.

social sciences.

1 credit.

LING 011. American Sign Language I
Introduction to learning and understanding American Sign Language (ASL), and the cultural values and rules of behavior of the American Deaf community. Includes receptive and expressive readiness activities; sign vocabulary; grammatical structure; facial expressions (emotional & grammatical), body/spatial movement, gestures; receptive and expressive fingerspelling; and deaf culture do’s and don’ts. Specific concepts/topics include the number/letter/color/shape basics, identifying people, activities, transportation, cities, places, and family.

Social sciences.

1 credit.

LING 012. American Sign Language II
Learning and understanding American Sign Language (ASL), and the cultural values and rules of behavior of the American Deaf community. Includes receptive and expressive readiness activities; sign vocabulary; grammatical structure; facial expressions (emotional & grammatical), body/spatial movement, gestures; receptive and expressive fingerspelling; and deaf culture do’s and don’ts. Specific concepts/topics include the number/letter basics, identifying people, activities, places, and family.

Prerequisite: LING 011

Social sciences.

1 credit.

LING 020. Natural Language Processing
(Cross-listed as CPSC 065)
Prerequisite: CPSC 035 or the equivalent.

Social sciences.

1 credit.

Eligible for COGS

LING 021. Anthropological Linguistics
(Cross-listed as ANTH 020N)
Communication and culture mutually define one another across communities worldwide. Human linguistic diversity, language contact and language change, and face to face communication continue to be key areas of inquiry for both linguistics and anthropology. Colonialism, globalization, mobility, and new technologies are changing the way we transmit and conceive of cultural knowledge, community, and our selves and the natural environment. In this course we draw attention to codeswitching, creoles, language endangerment, and constructed languages as reflections of our changing societies. We also address the ethics of fieldwork as a means of investigating these important social phenomena at the interfaces of language/ecology, language/identity, Global North/South.

Prerequisite: Any Linguistics or Anthropology course or permission of instructor.

Social sciences.

1 credit.

LING 022. Introduction to Japanese Linguistics
(Cross-listed as JPNS 022)
This course counts for distribution in humanities under the japanese rubric and in social sciences under the linguistics rubric.

1 credit.

(Cross-listed as JPNS 023)
This course counts for distribution in humanities under the chinese rubric and in social sciences under the linguistics rubric.

Social sciences.

1 credit

Eligible for ASIA

LING 025. Sociolinguistics: Language, Culture, and Society
(Cross-listed as SOAN 040B)
This course is an introduction to the connection between language and social and identity as it is studied from a variety of methodologies and perspectives, including ethnography, variationist sociolinguistics, and experimental sociolinguistics in the lab. Topics to be examined include the following: How do we create our intersecting identities when we use language? How do social factors such as age, gender, ethnicity, and socioeconomic class influence the way people use language? How do individual speakers use language differently in different situations? How do social and regional dialects differ from each other, and why? How does language change spread within and between communities? Students will collect and analyze data from real-life speech to explore the social correlates of linguistic behavior, using both qualitative and quantitative
methods to analyze their data.
Social sciences.
1 credit.
Fall 2019. Weinberg.
Fall 2020. Staff.

LING 028. Philosophy of Language
(Cross-listed as PHIL 028)
This course counts for distribution in humanities under the philosophy rubric and in social sciences under the linguistics rubric.
Social sciences.
1 credit.
Eligible for COGS

LING 029. Teaching English as a Second Language: Theory & Practice
Social Sciences.
1 credit.

LING 030. Language and Identity in the African Experience: From Kenya to Mexico
How does language help us to map the movement of peoples over time and space? How are African languages defined and created? How is Africanness and Blackness encoded in the Spanish and English languages? This course in sociolinguistics invites a critical evaluation of intersections in language and identity in the African continent and the Diaspora. Focusing on eastern Africa and its connection with the Americas, we draw upon overlapping histories of local peoples, outsiders, missionaries, linguists, and others to understand the power of language in defining and creating experience. We will specifically trace the proto-Bantu origin of Swahili, and succeeding historical and contemporary movements of Swahili from Kenya to Mexico. Reflecting on our own lives, we also look to the formation of new communities and frontiers in language use including migration, language policy, social media, videogames.
Social sciences.
1 credit.
Eligible for BLST, LALS

LING 031. Modality in Language: Mandarin and ASL as Examples
We look at five issues where modality effects might be expected to be evidenced, comparing the data on Mandarin and ASL and discussing possible ramifications for linguistic theory. The five issues range across the grammar. Thie course is being taught at Haverford College.
Prerequisite: One prior or concurrent course in linguistics. No knowledge of Mandarin or ASL will be assumed.
Social sciences.
1 credit.
Eligible for ASIA

LING 033. Introduction to Classical Chinese
(Cross-listed as CHIN 033)
This course counts for distribution in humanities under the chinese rubric and in social sciences under the linguistics rubric.
Social sciences.
1 credit.
Eligible for ASIA, MDST
Spring 2020. Staff.

LING 034. Psychology of Language
(Cross-listed as PSYC 034)
Social sciences.
1 credit.

LING 035. Indigenous Languages of the Americas
At least 300 languages were spoken in North America before the first contact occurred with Europeans. Most of the surviving languages are on the verge of extinction. Students will learn about language patterns and characteristics of language families, including grammatical classification systems, animacy effects on sentence structure, verbs that incorporate other words, and evidentials. Topics include how languages in contact affect each other, issues of sociolinguistic identity, language endangerment and revitalization efforts, and matters of secrecy and cultural theft.
Social Sciences.
1 credit.
Fall 2019. Fernald.

LING 039. Language Learning
How are languages learned? What cognitive and social factors contribute to development in first, second, and additional languages? How can immersion and study abroad be used most effectively by students? This course is an introduction to theories and methods in investigating the process and achievement of using new language. We will explore common myths about second language acquisition and how improvisational skills are gained in new systems of culture, vocabulary, and grammar. We will also examine how age, race, ethnicity, gender, sexuality, and other social factors mediate language development. Students will learn how to examine their own experiences through methods in participant observation and autoethnography, and gain an understanding of how researchers contribute to textbook development and instructional approaches such as communicative language teaching.
Social sciences.
1 credit.

LING 040. Semantics
(Cross-listed as PHIL 040)
In this course, we look at a variety of ways in which linguists, philosophers, and psychologists have approached meaning in language. We address truth-functional semantics, lexical semantics,
speech act theory, pragmatics, and discourse structure. What this adds up to is an examination of the meaning of words, phrases, and sentences in isolation and in context. This course counts for distribution in humanities under the philosophy rubric and in social sciences under the linguistics rubric.
Social sciences.
Writing course.
1 credit.
Eligible for COGS
LING 041. Dialects of American English
This course provides an introduction to dialect diversity in American English. Why are some dialect differences stigmatized, while others are barely noticed? In addition to learning about the origin and current status of regional, social, and ethnic dialects of American English, students will explore how dialects are expressed and represented in literature, poetry, and the popular media. This course will appeal to students with interests in language ideology, the history of the English language, and the surprising role that dialect diversity plays in American politics and culture.
Social sciences.
1 credit.
LING 043. Morphology and the Lexicon
This course looks at word formation and the meaningful ways in which different words in the lexicon are related to one another in the world’s languages.
Prerequisite: LING 001 or LING 045.
Social sciences.
1 credit.
Eligible for COGS
LING 045. Phonetics and Phonology
Phonetics explores the full range of sounds produced by humans for use in language and the gestural, acoustic, and auditory properties that characterize those sounds. Phonology investigates the abstract cognitive system humans use for representing, organizing, and combining the sounds of language as well as processes by which sounds can change into other sounds. This course covers a wide spectrum of data from languages around the world and focuses on developing analyses to account for the data. Argumentation skills are also developed to help determine the underlying cognitive mechanisms that are needed to support proposed analyses.
Social sciences.
1 credit.
Eligible for COGS
LING 046. Linguistic Diversity
In this course we will explore issues of linguistic diversity, experiences of difference, and power structures as they relate to the perception and use of language, and struggles for justice in linguistic context. We will draw on a range of linguistic subfields including linguistic typology and sociolinguistics to ask questions such as: What is the range of human linguistic diversity? When are linguistic differences meaningful, and how do they become tied to actual social inequality? How is linguistic diversity changing now, and how is the internet part of that? (Why) does linguistic diversity matter? We will consider diversity not only across the world’s languages but also within languages. Students will investigate linguistic diversity on campus or in surrounding communities.
Social sciences.
1 credit.
LING 050. Syntax
We study the principles that govern how words make phrases and sentences in natural language. Much time is spent on learning argumentation skills. The linguistic skills gained in this course are applicable to the study of any modern or ancient natural language. The argumentation skills gained in this course are applicable to law and business as well as academic fields.
Social sciences.
Writing course.
1 credit.
Eligible for COGS
LING 052. Historical and Comparative Linguistics
This course is an introduction to the study of linguistic change. Various models of language change are explored to seek to understand how and why languages change. This will be done by drawing from a wide range of languages to explore changes at all levels of the grammar (phonology, morphology, syntax, semantics, etc.) and the various factors that can contribute to linguistic change. We will learn how it is possible to reconstruct linguistic systems that we have no direct record of, and will consider what it means for languages to diverge and converge. Major themes of the course will be the comparative method and the relationship between sociolinguistics and historical linguistics. The topics of language shift, language endangerment and death, language birth, and language planning will also be addressed, and assigned work and projects will develop the skills to conduct historical linguistics.
research through exploitation of electronic and library resources.
Prerequisite: LING 001 or LING 045 or permission of the instructor.
Social sciences.
1 credit.
Fall 2019. Dockum.

LING 053. Educating Emergent Bilinguals
(Cross-listed as EDUC 053)
Social sciences.
1 credit.
Eligible for CBL, LALS
Fall 2019. Allard.

LING 054. Oral and Written Language
(Cross-listed as EDUC 054)
This course examines children’s dialogue and its rendering in children’s literature. Each student will pick an age group to study. There will be regular fiction-writing assignments as well as primary research assignments. This course is for linguists and writers of children’s fiction and anyone else who is strongly interested in child development or reading skills. It is a course in which we learn through doing. All students are welcome to do a community-service credit in LING 096.
Social sciences.
Writing course.
1 credit.
Fall 2019. Napoli.

LING 055. Say what? Syntactic variation in dialects of English
This course is an introduction to the analysis of syntactic and semantic variation across dialects of English. The course will consider both big picture questions about how to model syntactic variation in language, and it will review key concepts in syntactic analysis. We will apply these concepts to data from varieties of English such as African American English, Appalachian English, Canadian English, Belfast English, and Indian English. In addition to reading primary literature on syntactic and semantic variation, students will be encouraged to bring new data to class for discussion and analysis.
Prerequisite: LING 001, LING 050, or permission of the instructor.
Social sciences.
1 credit.

LING 059. Hebrew for Text Study II
Cross-listed as CLST 059
This course counts for distribution in humanities under the Classics rubric and in Social Sciences under the Linguistics rubric.
1 credit.
Fall 2019. Plotkin.

LING 061. Structure of Navajo
Navajo is an Athabaskan language spoken more commonly than any other Native American language in the United States. This course is an examination of the major phonological, morphological, syntactic, and semantic structures of Navajo. The morphology of this language is legendary. This course also considers the history of the language and its cultural context.
Prerequisite: LING 050 and LING 045 or LING 052 or permission of the instructor.
Social sciences.
1 credit.
Eligible for COGS

LING 063. Supporting Literacy Among Deaf Children
In this course, we will develop ebooks for young deaf children. Adults can "read" these books with the children regardless of their knowledge of American Sign Language (or lack thereof). Working from beloved picture books, we will add video clips of actors signing the stories as well as voice-overs and questions about sign language that the interested reader can click on to find information.
Students must have a rudimentary knowledge of American Sign Language or concurrently take an attachment in ASL language. A background in linguistics, theater, film, early childhood development, or education would be helpful.
Students from Gallaudet University will join Swarthmore College students in this jointly taught course. We will travel to Gallaudet University three times and students from Gallaudet University will travel to Swarthmore College three times over the semester.
Social sciences.
1 credit.
Eligible for INTP

LING 067. Structure of Wamesa
Wamesa is a member of the under-studied South Halmahera-West New Guinea subgroup of the Austronesian language family, with roughly 5000 speakers in West Papua, Indonesia. It has a number of typologically rare morphological and syntactic features, such as infixation and Noun-Adj-Det-Num word order. This course will investigate the major phonological, morphological, and syntactic structures of the language using both primary data and published sources. We will also look at the history of the language and its cultural/political context.
Prerequisite: LING 050 and LING 045 or permission of the instructor.
Social sciences.
1 credit.

LING 068. Structure of Kyrgyz
Kyrgyz is a Turkic language which is spoken throughout the Tien-Shann mountains and surrounding areas of Central Asia and has been influenced by Mongolian, Persian, Arabic, and Russian. The grammar of Kyrgyz includes many intriguing phenomena, such as pervasive vowel
Linguistics

harmony, productive sonority effects across syllable edges, a range of morphological and syntactic strategies for using one part of speech as another, and an intricate system for marking tense, aspect, mood, voice, and evidentiality on verbs. In this course, students will examine all aspects of Kyrgyz grammar, with a focus on the major phonological, morphological, and syntactic structures of the language. Hands-on research using primary and secondary printed and digital materials will guide this course. The historical and modern social and cultural contexts will also be considered.

Prerequisite: LING 045 and either LING 050 or LING 052, or permission of the instructor.

Social sciences.
1 credit.

LING 070. Translation Workshop R
(Cross-listed as LITR 070R, RUSS 070)
This course counts for distribution in humanities under the literature and Russian rubric and in social sciences under the linguistics rubric.
Social sciences.
1 credit.
Eligible for INTP

LING 073. Computational Linguistics
(Cross-listed as CPSC 013)
This course explores the possibilities for creating computational resources for languages for which vast collections of text don’t exist. Students will choose a language lacking in computational resources and develop tools for it. The focus will be on creating nuanced symbolic representations of the language that can be employed by computers, to the benefit of both language researchers who wish to test grammatical models, and language communities which lack the social capital to benefit from corporately developed resources. Topics covered include input methods and spell-checking, morphological analysis and disambiguation, syntactic parsing, building corpora, and rule-based machine translation, with an emphasis on open source technologies.
Prerequisite: LING 001 (or equivalent) or CPSC 021 (or equivalent), or permission of the instructor.
Social Sciences.
1 credit.
Eligible for ASIA, COGS

LING 075. Field Methods
This course affords a close encounter with a language, direct from the mouths of native speakers. Students develop inference techniques for eliciting, understanding, analyzing, and presenting complex linguistic data. They also gain practical experience using state-of-the-art digital video, annotation, and archiving for scientific purposes. A different (typically non-Indo-European) language will be investigated each time the course is taught.
Prerequisite: Any two of: LING 001, LING 025, LING 040, LING 043, LING 045, LING 050, or permission of the instructor.
Social sciences.
1 credit.
Eligible for ASIA, COGS

LING 080. Syntax II
This course builds on the concepts and tools of syntactic analysis from Ling 050 by closely examining a single topic in the primary literature in syntactic theory. This semester we explore the notion of subjecthood in syntactic theory. As we read classic and recent papers on how subjecthood has been defined, we will ask questions such as: How do we know when a constituent is the subject of a sentence? Why do only some languages seem to have restrictions on subjects? Are restrictions on subjecthood relevant to syntax, semantics, or to discourse? Is it possible for a sentence to have no subject? If a constituent has some properties of subjecthood but not others, is it appropriate to call this constituent a "subject"? This course will deepen critical reading and writing skills and as well as students’ familiarity with syntactic phenomena in languages other than English.
Prerequisite: LING 050
Social Sciences.
1 credit.

LING 081. Semantics II
This course begins with the formal foundations of semantics and then switches to a seminar style of instruction for an examination of classical and recent articles in the field.
Prerequisite: LING 040
Social Sciences
1 credit

LING 082. Sociolinguistics II.
This course builds upon foundational concepts in sociolinguistic theory to examine discourses of news and entertainment media, across science fiction and politics. Drawing upon contributions in applied linguistics, media studies, cultural studies, and animal studies, we ask which realities are mirrored in our everyday language and in the fictional and sensationalized worlds we engage in through the media we consume. What role does science fiction play in our explorations of social difference, deviance, control, disability, sexuality, and normativity? Can science fiction assist the goals of social justice and democracy? How does language surface in the biopolitics of human and non-humans? Together, we will explore key film and television, and select novels by authors Max Brooks, Octavia Butler, Philip K. Dick, and George Orwell. Students will learn advanced methods and theories in multimodal critical discourse analysis, ethnography of
communication, and digital humanities.
Prerequisite: One course addressing foundational concepts of language in society, including LING 025, SOAN 040B, LING 021, ANTH 020N, LING 009, LING 030, or permission of instructor.
Social sciences.
1 credit.

LING 085. Phonology II
This course is a sequel to LING 045--Phonetics and Phonology. It is designed to provide further training in formal phonology, in terms of both data analysis and the fundamentals of phonological theory. Students will look deeply at both classic and later derivational versions of Optimality Theory, as well as some alternatives to OT, such as Articulatory Phonology. Once a common theoretical foundation has been established we will explore these topics through critical reading of major articles form the linguistic literature, as a way of exploring the details of theories discussed, their strengths and weaknesses, and the rich cross-linguistic data that underlie them.
Prerequisite: LING 045
Social sciences.
1 credit.

LING 090. Advanced Research Methods in Linguistics
This course covers the history, methodology, and notable debates in linguistics. Course readings include important primary works on topics throughout the history of linguistics, from early philology, to generative linguistics, to experimental and cognitive approaches. This course is intended for juniors and other advanced linguistics majors in preparation for conducting significant linguistics research, such as a senior thesis.
Prerequisite: any two of LING 001, LING 025, LING 040, LING 045, and LING 050, or permission of the instructor.
Social sciences.
1 credit.

LING 100. Senior Thesis Seminar
All course majors in linguistics and linguistics/language must write their senior thesis in this seminar. Only seniors are admitted.
1 credit.
Fall 2019. Gasser, Dockum.

LING 115. Linguistic Typology and Constructed Languages
Humans have long been driven to duplicate and manipulate the properties of natural language to create new languages for the purposes of enhancing works of fiction, for aiding human communication, or even for pure intellectual curiosity. In this course, students will explore this drive through development of their own constructed languages, guided by rigorous study of the typology of patterns observed in real human languages. Topics to be covered include phoneme inventories, phonological rules, morphological classification, syntactic structure, language change over time, dialectal variation, and writing systems. Students will also apply their knowledge of linguistic typology to critically assess the design of existing constructed languages such as Esperanto and Klingon.
Prerequisite: LING 001 or LING 045 or permission of instructor.
Social sciences.
1 credit.

LING 116. Language and Meaning
(Cross-listed as PHIL 116)
This seminar counts for distribution in HU under the philosophy rubric and in SS under the LING rubric.
Social sciences.
2 credits.
Eligible for COGS

LING 120. Anthropological Linguistics: Endangered Languages
(Cross-listed as ANTH 080B)
In this seminar, we address some traditional issues of concern to both linguistics and anthropology, framed in the context of the ongoing, precipitous decline in human linguistic diversity. With the disappearance of languages, cultural knowledge (including entire technologies such as ethnopharmacology) is often lost, leading to a decrease in humans’ ability to manage the natural environment. Language endangerment thus proves relevant to questions of the language/ecology interface, ethnoecology, and cultural survival. The seminar also addresses the ethics of fieldwork and dissemination of traditional knowledge in the Internet age.
Prerequisite: One course in linguistics or anthropology or permission of the instructor.
Social sciences.
1 credit.
Eligible for ENVS
Spring 2021. Staff.

LING 134. Psycholinguistics Seminar
(Cross-listed as PSYC 134)
Social sciences.
1 credit.

LING 139. Sem: Language Concept Acquisition
(Cross-listed as PSYC 139)
Social sciences.
1 credit.
Eligible for COGS

(Cross-listed as PSYC 139)
Social sciences.
1 credit.
Eligible for COGS
Overview of Curriculum

Mathematics and statistics are among the great achievements of human intellect and at the same time powerful tools. As Galileo said, the book of the universe "is written in the language of mathematics." The goal of the department is to enable students to appreciate these achievements and use their power. To that end, majors and minors in the department receive a firm foundation in pure mathematics and the opportunity to apply it to a variety of disciplines, including statistics, physical science, biological science, computer science, social science, operations research, education, and finance.

Students typically enter our department with strong skills, but there is always room for improvement and new knowledge. Majors and minors grow in:

- Reasoning skills: logical argument and abstraction;
- Formulation skills: developing mathematical models;
- Communication skills: expressing mathematical ideas and information clearly and precisely on paper, orally, and electronically;
- Comprehension skills: absorbing mathematical ideas and information presented on paper, orally, and electronically;
- Computation skills: mental, by hand, and by machine, as appropriate.

Through core courses, students learn fundamental concepts, results, and methods. Through elective courses, they pursue special interests. In the process, students develop a further appreciation for the scope and beauty of our discipline.

Graduates of the department follow many career paths. These paths lead to graduate school in mathematics, statistics, and other fields; to professional schools; and to the workplace.

Introductory Courses

Many first-year students entering Swarthmore have had calculus while in high school and place out of at least one semester of Swarthmore’s calculus courses, whether they continue with calculus or decide, as is often best, to try other sorts of mathematics. See the discussion of placement later. However, some entering students have not had the opportunity to take calculus or need to begin again. Therefore, Swarthmore offers a beginning calculus course (MATH 015) and several courses that do not require calculus or other sophisticated mathematics experiences. These courses are STAT 001 (Statistical Thinking, Fall semester), MATH 003 (Introduction to Mathematical Thinking, Spring semester), and STAT 011 (Statistical Methods I, both semesters). MATH 003 is a writing course. MATH 029 (Discrete Mathematics, both semesters) also does not require any calculus but is a more sophisticated course; thus, some calculus is a useful background for it in an indirect way. Once one has had or placed out of two semesters of calculus, many other courses are available, especially in linear algebra and several-variable calculus.
To gain entrance to mathematics or statistics courses at any time during one’s Swarthmore years, students are expected to take at least one of the following exams: the Advanced Placement (AP) or International Baccalaureate (IB) exams, Swarthmore’s Calculus Placement Exam, or Swarthmore’s Math/Stat Readiness Exam. Students who do take AP or IB exams may be required to take the departmental exams as well, or parts thereof. In particular, students intending to take MATH 15 must take Swarthmore’s Calculus Readiness Exam and those intending to take MATH 28 must take Swarthmore’s Calculus Placement Exam. Versions of the Calculus Placement Exam and the Readiness Exam are available to entering first-year students over the summer, along with detailed information about the rules for placement and credit.

**Advanced Placement/International Baccalaureate Credit**

Placement and credit mean different things. Placement allows students to skip material they have learned well already by starting at Swarthmore in more advanced courses. Credit confers placement as well but also is recorded on the student’s Swarthmore transcript and counts toward the 32 credits needed for graduation. The Swarthmore Calculus Placement Exam is used for placement only, not credit. The credit awarded on the basis of the AP and IB exams was updated during the 2018-2019 year and resulted in the following rules for students who matriculate in or after 2019:

- 1 credit (for STAT 011) for a score of 4 or 5 on the Statistics AP Test of the College Board.
- 1 credit (for MATH 015) for a score of 4 or 5 on the AB Calculus AP Test of the College Board (or for an AB subscore of 4 or 5 on the BC Test) or for a score of 6 or 7 on the Higher Level Mathematics Test of the IB.
- 2 credits (for MATH 015 and 025) for a main score of 4 or 5 on the BC Calculus AP Test.

For students who matriculate in or before 2018, credit is awarded as follows:

- 1 credit (for STAT 011) for a score of 4 or 5 on the Statistics AP Test of the College Board.
- 1 credit (for MATH 015) for a score of 4 on the AB or BC Calculus AP Test of the College Board (or for an AB subscore of 4 on the BC Test) or for a score of 5 on the Higher Level Mathematics Test of the IB.
- 1.5 credits (for MATH 015 and the first half of MATH 025) for a score of 5 on the AB Calculus AP Test (or for an AB subscore of 5 on the BC Test) or a score of 6 or 7 on the higher-level IB. Students who receive this credit and want to continue calculus take MATH 026.
- 2 credits (for MATH 015 and 025) for a main score of 5 on the BC Calculus AP Test.

Students who receive placement but not credit for a course occasionally make use of 8.1 of the course catalog to arrange to take a course without regular attendance. See 8.1 for details. Students who are eligible on entrance for credit for a course, but who take the course anyway, will lose the entrance credit.

First-year students seeking advanced placement and/or credit for calculus taken at another college or university must normally validate their work by taking the appropriate external or Swarthmore placement examination, as described earlier. The department does not grant credit directly for college courses taken while a student is in high school. For work beyond calculus completed before entering Swarthmore, students should consult the departmental placement coordinator to determine the Swarthmore courses into which they may be placed and additional materials they may need to present for this placement. The department will not normally award credit for work above the first-year calculus level completed before entering Swarthmore.

**The Academic Program**

**Major and Minor Application Process**

Students apply for a major in the middle of the second semester of the sophomore year. Upon indication of intent to major (or minor) in the department, students will be assigned a departmental sophomore plan advisor who will help them decide on a reasoned plan of study for their last two years. This plan is then submitted to the department via their electronic Sophomore Plan. After the Sophomore Plan process is over, students may apply to add or change a major (or minor) at any time, but applications will normally be held until the next time that sophomore applications are considered (around March 1).

**Course Major**

**Acceptance into the Major**

The normal preparation for a major in mathematics is to have obtained credit for, or placement out of, at least four of the following five course groups by the end of the sophomore year: Calculus I (MATH 015), Calculus II (MATH 025 or 026), Discrete Mathematics (MATH 029), Linear Algebra (MATH 027 or 028), and Several Variable Calculus (MATH 033, 034, or 035). In any event, all majors must complete the Linear Algebra and Several Variable Calculus requirement by the end of the first semester of the junior year.

To be accepted as a major or a minor, a candidate normally should have a grade point average of at
Students should be aware that upper-level courses in mathematics are typically more demanding and more theoretical than the first-and second-year courses. This is an important factor in considering borderline cases. In some cases, applicants may be deferred pending successful work in courses to be designated by the department.

Requirements for the Course Major
By graduation, a mathematics major must have at least 10 credits in mathematics and statistics courses. At least 5 of the credits counted in the 10 must be for courses numbered over 040. (Courses numbered under 10 do not count toward the major in any event.) Furthermore, every major is required to obtain credit for, or place out of, each of the following course groups: MATH 015; MATH 025 or 026; MATH 027 or 028; MATH 033, 034, or 035; and MATH 097. Math 097 is given in the fall only, and meets Tuesdays, 2:40–3:55. Normally, at least 3 of the 5 credits for courses numbered over 040 must be taken at Swarthmore, including MATH 097 and at least one upper level math writing course. Further requirements are listed below.

Additional Requirements for a Course Major in Mathematics:
All course majors in mathematics must obtain credit for, or place out of, MATH 063 (Introduction to Real Analysis) and MATH 067 (Introduction to Modern Algebra). Math 063 is offered each fall; Math 067 is offered each spring. Ideally, majors will have taken both by the end of their junior year. Of the 5 credits numbered over 040, at most one may be taken CR/NC.

Additional Requirements for a Course Major in Mathematics with an Emphasis in Statistics:
All course majors in mathematics wishing to have a special emphasis in statistics must obtain credit for, or place out of, each of the following: Stat 021 (Statistical Methods II); Stat 051 (Probability); Math 063 (Introduction to Real Analysis); Stat 061 (Mathematical Statistics I); and Stat 111 (Mathematical Statistics II). Students also need placement or credit for CS 021. For majors with an emphasis in statistics, Stat 021 counts as a course numbered over 040. Students are advised to take CS 021 as early as possible, as it can be difficult to add this course in the junior or senior year. At least one of Stat 051 or Stat 061 must be taken at Swarthmore, and at most one of the 5 required courses listed above may be taken CR/NC.

Additional Requirements for a Course Major in Mathematics with an Emphasis in Applied Math:
All course majors in mathematics wishing to have a special emphasis in applied math must obtain credit for, or place out of, each of the following: MATH 043 or 044 (Differential Equations); Math 063 (Introduction to Real Analysis); Math 066 (Stochastic and Numerical Methods); one of Math 054 (Partial Differential Equations) or Math 056 (Modeling); and one additional course chosen from Stat 051 (Probability), Math 054 (Partial Differential Equations), Math 056 (Modeling), or Math 103 (Complex Analysis). Students also need placement or credit for CS 021. Math 066 must be taken at Swarthmore, and at most one of the 5 required courses listed above may be taken CR/NC.

Note that placement counts for satisfying the requirements but not for the 10-credit rule. Those students who are placed out of courses without credit must take other courses to obtain 10 credits. If you believe you are eligible for credit for courses taken before Swarthmore (because of AP or IB scores) but these credits are not showing on your transcript, please see the registrar. Mathematics majors are encouraged to study in some depth an additional discipline that makes use of mathematics. We also recommend that they acquire some facility with coding.

Credit/No Credit Policy
At most one upper level course counted towards the major can be taken credit/no credit. This does not include courses which are only offered credit/no credit, but does include courses for which the grade is uncovered after completion of the course. In any case, no seminars can be taken credit/no credit.

Course Minor
Acceptance into the minors
The requirements for acceptance into any course minor, such as prerequisite courses and grade average, are the same as for acceptance into the major. Students may not have more than one minor in the department.

Requirements for the Course Minor
By graduation, a student with any type of course minor in the department must have at least 6 credits in mathematics and statistics courses. They must also have credit or placement for each of the following course groups: MATH 015; MATH 025 or 026; MATH 027 or 028; and MATH 033, 034, or 035. Courses numbered under 010 do not count towards the minor. Further requirements are listed below.

Course Minor in Mathematics:
All course minors in mathematics must have at least 3 credits in mathematics and statistics courses numbered 044 or higher, one of which must be either Math 063 (Introduction to Real Analysis) or Math 067 (Introduction to Modern Algebra). At least 2 of these 3 credits must be taken at Swarthmore and at most of one these 3 credits may be taken CR/NC.
Course Minor in Statistics:
All course minors in statistics must have credit or placement for each of the following: Stat 021 (Statistical Methods II); Stat 051 (Probability); and Stat 061 (Mathematical Statistics I). At most one of these 3 courses may be taken CR/NC and at least one of Stat 051 or Stat 061 must be taken at Swarthmore. Students must also have credit or placement for CS 021.

Course Minor in Applied Math:
All course minors in applied math must have credit or placement for each of the following: Math 043 or Math 044 (Differential Equations); Math 066 (Stochastic and Numerical Methods); one of Math 054 (Partial Differential Equations) or Math 056 (Modeling); and one additional course chosen from Stat 051 (Probability), Math 054 (Partial Differential Equations), Math 056 (Modeling), Math 063 (Introduction to Real Analysis), or Math 103 (Complex Analysis). At most one of these 4 courses may be taken CR/NC and Math 066 must be taken at Swarthmore. Students must also have credit or placement for CS 021.

Credit/No Credit Policy
For the math minor, at most one of the required upper level courses counted towards the minor can be taken credit/no credit. For the statistics minor, only one of Stat 21, Stat 51, and Stat 61 may be taken credit/no credit. For the applied math minor, at most one of the 4 required courses listed previously may be taken credit/no credit. This does not include courses which are only offered credit/no credit, but does include courses for which the grade is uncovered after completion of the course. In any case, no seminar may be taken credit/no credit.

Honors Major
All current sophomores who wish to apply for Honors should indicate this in their Sophomore Plan and should work out a tentative Honors Program with their departmental advisor.

Basic requirements
To be accepted as an Honors major in mathematics, a student should have a grade point average of at least B+ in courses taken to date, including courses taken in the fall term of the first year, for which the department has shadow grades.

An Honors math major program consists of three preparations of two credits each, for a total of six distinct credits. One preparation must be in algebra and one in analysis (real or complex). The student must also satisfy all requirements of the mathematics major with the exception of the comprehensive requirement (MATH 097, Senior Conference). Note that to be an Honors math major, a student is required to also have an Honors minor in another subject.

Of the six credits used for a student’s honor preparation, at most one may be taken credit/no credit (whether or not the grade is uncovered after the course is completed). In any case, no seminar may be taken credit/no credit.

Preparations
The department offers preparations in the fields listed below. Each preparation is subject to External Examination, including a 3-hour written examination and a 45-minute oral examination. Each preparation consists of a specified pair of credits. The specified credits are listed after each field.

Algebra (067 and 102)
Real Analysis (063 and 101)
Complex Analysis (063 and 103)
Geometry (either 065 and 106)
Statistics (061 and 111)
Topology (104, a 2-credit seminar)

No course is allowed to count in two honors preparations, so it is not possible for a student to do honors preparations in both Real Analysis and Complex Analysis.

The external examination component of the program is meant to prompt students to learn their core subjects really well and to show the examiners that they have done so—that is, show that they deserve Honors. However, no three fields cover everything a strong student would ideally learn as an undergraduate. Honors majors should consider including in their studies a number of advanced courses and seminars beyond what they present for Honors.

Senior Honors Study/Portfolio
None is required or offered.

Honors Minor
To be accepted as an Honors minor in mathematics, a student should have a grade point average of at least B in courses taken in the department to date, including courses in the fall term of the first year, for which the department has shadow grades.

An Honors math minor consists of one preparation of two credits, chosen from those in the previous section. As mentioned before, no seminar may be taken credit/no credit. Note that to be an Honors math minor, a student is required to also have an Honors major in another subject.

Transfer Credit
Courses taken elsewhere may count for the major. However, the number of upper-level transfer credits for the major is limited. Normally, at least 3 of the 5 upper-level courses used to fulfill the major must be taken at Swarthmore, including at least one of the core courses MATH 063 and MATH 067. Exceptions should be proposed and approved during the Sophomore Plan process, not after the fact. Also, the usual College rules for
transfer credit apply: students must see the professor in charge of transfer twice: in advance to obtain authorization, and afterwards to get final approval and a determination of credit. In particular, for MATH 063 and 067, students are responsible for the syllabus we use. If a course taken elsewhere turns out not to cover it all, the student will not get full credit (even though the transfer course was authorized beforehand) and the student will not complete the major until he or she has demonstrated knowledge of the missing topics. Similarly, for honors preparations students are responsible for the syllabi we use; we will not offer special honors exams based on work done at other institutions.

Off-Campus Study
Students planning to study abroad should obtain information well in advance about the courses available at the institution they plan to attend and check with the department about selecting appropriate courses. It may be difficult to find courses abroad equivalent to our core upper-level courses, or to our honors preparations, since curricula in other countries are often organized differently.

Teacher Certification
Swarthmore offers teacher certification in mathematics through a program approved by the state of Pennsylvania and administered by the College’s Educational Studies Department. For further information about the relevant set of requirements, please refer to the Educational Studies section of the Bulletin. One can obtain certification either through a mathematics major or through a Special Major in Mathematics and Education, in either case if taken with appropriate electives.

Mathematics and Statistics Courses

Note 1: For courses numbered under 100, the ones digit indicates the subject matter, and the other digit indicates the level. In most cases, a ones digit of 1 or 2 means statistics, 3 to 6 means continuous mathematics, and 7 to 9 means noncontinuous mathematics (algebra, number theory, and discrete math). Courses below 10 do not count for the major, from 10 to 39 are first- and second-year courses, from 40 to 59 are intermediate, in the 60s are core upper-level courses; from 70 to 89 are courses that have one or more core courses as prerequisites, and in the 90s are independent reading courses.

Note 2: There are several sets of courses below where a student may not take more than one of them for credit. For instance, see the descriptions of MATH 033, 034 and 035. In such cases, if a student does take more than one of them, each group is treated for the purpose of college regulations as if they have the same course number. See the Repeated Course Rule in section 8.2.4.

MATH 003. Introduction to Mathematical Thinking
Students will explore ideas and fundamental results from mathematics while we emphasize the thinking and problem-solving skills these ideas stimulate. Class meetings will involve presentation of new material; group work on problems and puzzles; and lively, maybe even passionate discussions about mathematics. This course is intended for students with little background in mathematics or those who may have struggled with math in the past. It is not open to students who already have received credit on their Swarthmore transcripts for mathematics, Advanced Placement credit included, or who concurrently are taking another mathematics course, or who have placed out of any Swarthmore mathematics course. (See "Placement Procedure" earlier.) Students planning to go on to calculus should consult with the instructor. This course does not count toward a major in mathematics. Natural sciences and engineering.
Writing course.
1 credit.
Spring 2021. Staff.

MATH 015. Single-Variable Calculus 1
A first-semester calculus course with emphasis on an intuitive understanding of the concepts, methods, and applications. Graphical and symbolic methods will be used. The course will mostly cover differential calculus, with an introduction to integral calculus at the end, including the fundamental theorem of calculus.
Prerequisite: Four years of traditional high school mathematics (precalculus) and placement into this course through Swarthmore’s Math/Stat Readiness Examination. Students with prior calculus experience must also take Swarthmore’s Calculus Placement Examination (see "Placement Procedure" section earlier).
Natural sciences and engineering.
1 credit.
Fall 2020. Staff.

MATH 015SP. Calculus STEM Scholars Program
MATH 015SP will provide an enriched experience designed for MATH 015 students who plan to take at least four other STEM courses during their time at Swarthmore. During class, students work in small groups on challenging problems designed to promote deep understanding and mastery of the material.
Graded CR/NC.
Prerequisite: Students must apply for admission to this attachment. Admission will be determined by a commitment to both hard work and excellence,
rather than by high school GPA, math SAT scores, or past performance in math classes. Students must be concurrently enrolled in an appropriate section of MATH 015.
Natural sciences and engineering.
0.5 credit.
Fall 2019. Grood.
Fall 2020. Staff.

MATH 024. Numerical Methods-Engineering Applications
(Cross-listed as ENGR 019)
Natural sciences and engineering.
1 credit.

MATH 025. Single-Variable Calculus 2
The continuation of MATH 015, this course covers techniques and applications of integration, convergence properties of infinite sequences and series, the approximation of functions by Taylor polynomials, and an introduction to differential equations.
Prerequisite: A grade of C or better in MATH 015 or placement by examination (see "Advanced Placement and Credit Policy" section).
Natural sciences and engineering.
1 credit.
Fall 2020. Staff.
Spring 2021. Staff.

MATH 027. Linear Algebra
This course covers systems of linear equations, matrices, vector spaces, linear transformations, determinants, and eigenvalues. Applications to other disciplines are presented. This course is a step up from calculus: it includes more abstract reasoning, proofs, and structures. Students may take only one of MATH 027 and MATH 028 for credit.
Prerequisite: A grade of C or better in some math course numbered 025 or higher or placement by examination (see "Advanced Placement and Credit Policy" section).
Natural sciences and engineering.
1 credit.
Fall 2020. Staff.
Spring 2021. Staff.

MATH 028. Linear Algebra with Theory
This course includes the topics in MATH 027 but covered with more depth and with a more theoretical, abstract, and rigorous approach. MATH 028 is intended for students with exceptionally strong mathematical skills, especially if they are thinking of a mathematics major. Students may take only one of MATH 027 and MATH 028 for credit.
Prerequisite: A grade of B or better in some math course numbered 025 or higher, or placement by examination, including both placement out of calculus and placement into this course via Part IV of Swarthmore’s Calculus Placement Exam (see "Placement Procedure" section).
Natural sciences and engineering.
1 credit.
Fall 2019. Whitehead.
Fall 2020. Staff.

MATH 029. Discrete Mathematics
An introduction to noncontinuous mathematics. Topics will include mathematical induction and other methods of proof, basic set theory, bijections, counting, and graph theory. Additional topics may include algorithms, recurrence relations, probability, voting methods, and other topics at the discretion of the instructor. While it does not use any calculus, MATH 029 is a more sophisticated course than MATH 015 or MATH 025; thus success in a calculus course demonstrates the mathematical maturity needed for MATH 029.
Prerequisite: A grade of B or better in Math 15, placement into or credit for Math 25, or permission of the instructor.
Natural sciences and engineering.
1 credit.
Eligible for COGS
Fall 2019. Bergstrand.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

MATH 033. Basic Several-Variable Calculus
This course considers differentiation and integration of functions of several variables with special emphasis on two and three dimensions. Topics include partial differentiation, extreme value problems, Lagrange multipliers, multiple integrals, line and surface integrals, Green’s, Stokes’, and Gauss’ theorems. The department strongly recommends that students take MATH 034 instead, which is offered every semester and provides a richer understanding of this material by requiring linear algebra (MATH 027 or MATH 028) as a prerequisite and applying linear algebra concepts in the course. Students may take only one of MATH 033, MATH 034, and MATH 035 for credit.
Prerequisite: A grade of C or better in MATH 025 or MATH 026 or placement by examination (see "Advanced Placement and Credit Policy" section).
Natural sciences and engineering.
1 credit.
Fall 2019. Bergstrand.
Fall 2020. Staff.

MATH 034. Several-Variable Calculus
Same topics as MATH 033 except in more depth using the concepts of linear algebra. The department strongly recommends that students
Mathematics and Statistics

take linear algebra first so that they are eligible for this course. Students may take only one of MATH 033, MATH 034, and MATH 035 for credit. Prerequisite: A grade of C or better in MATH 025 or MATH 026 and also MATH 027 or MATH 028.
Natural sciences and engineering.
1 credit.
Eligible for COGS
Fall 2019. Gomez.
Fall 2020. Staff.
Spring 2021. Staff.

MATH 035. Several-Variable Calculus with Theory
This course includes the topics found in MATH 034 but covered in a more theoretical, abstract, and rigorous manner. It is intended for students with exceptionally strong mathematical skills. Students may take only one of MATH 033, MATH 034, and MATH 035 for credit. Prerequisite: A grade of C or better in MATH 028 or MATH 028S, or permission of the instructor. Natural sciences and engineering. 1 credit. Spring 2020. Gomez.
Spring 2021. Staff.

MATH 043. Basic Differential Equations
This course emphasizes the standard techniques used to solve differential equations, covering the basic theory of the field with an eye toward practical applications. Topics may include first-order equations, linear differential equations, series solutions, first-order systems of equations, Laplace transforms, approximation methods, and some partial differential equations. Compare with MATH 044. Students may not take both MATH 043 and MATH 044 for credit. The department prefers majors to take MATH 044. Prerequisite: A grade of C or better in MATH 033, MATH 034 or MATH 035; or currently enrolled in one of MATH 034 or MATH 035; or permission of the instructor. Natural sciences and engineering. 1 credit. Spring 2020. Goldwyn.
Spring 2021. Staff.

MATH 044. Differential Equations
An introduction to differential equations that has a more theoretical and rigorous flavor than MATH 043 and is intended for students who enjoy delving into the mathematics behind the techniques. It introduces the key ideas of ordinary differential equations in a more conceptual, dynamical as well as computational framework. Topics include well-posedness of the problem such as existence and non-existence, uniqueness and continuous dependence of solutions on data; qualitative behavior of solutions such as asymptotic behavior and stability as well as boundary value problems and bifurcation. Numerical and computational methods will be used throughout as appropriate. Linear and nonlinear system will be considered. Additional topics depends on the interests of the instructor and students. The department recommends that majors take MATH 044. Prerequisite: A grade of C or better in MATH 027 or MATH 028 and also in one of MATH 033, MATH 034, or MATH 035; or permission of the instructor. Natural sciences and engineering. 1 credit. Eligible for COGS
Spring 2021. Staff.

MATH 046. Theory of Computation
(Cross-listed as CPSC 046)
Natural sciences and engineering.
1 credit.
Eligible for COGS

MATH 053. Topics in Analysis
Course content varies from year to year depending on student and faculty interest. Recent topics have included dynamical systems, stochastic processes, financial mathematics, and Fourier analysis. See also MATH 073. Alternate years. Prerequisite: MATH 027 or MATH 028 and also MATH 033, MATH 034, or MATH 035; or permission of the instructor. Natural sciences and engineering. 1 credit. Eligible for COGS

MATH 054. Partial Differential Equations
An introduction to linear partial differential equations. Topics include first-order linear equations and second-order equations of elliptic, parabolic, and hyperbolic type via the Laplace equation, the heat equation, and the wave equation. Solutions to these equation are studied from analytical, qualitative, and numerical viewpoints. Additional topics depend on the interests of the students and instructor. Alternate years. Prerequisite: A grade of C or better in MATH 027 or MATH 028; MATH 033, MATH 034, or MATH 035; and also in one of MATH 043, MATH 044, or PHYS 017; or permission of the instructor. Natural sciences and engineering. 1 credit. Eligible for COGS

MATH 065. Introduction to Geometry
The course content varies from year to year but is often either the differential geometry of curves and surfaces or the algebraic geometry of conics and cubics. See also MATH 075. Alternate years.
Mathematics and Statistics

Prerequisite: A grade of C or better in MATH 027 or MATH 028 and also in one of MATH 033, MATH 034, or MATH 035; or permission of the instructor.
Natural sciences and engineering.
1 credit.
Eligible for COGS
Fall 2020. Staff.

MATH 056. Modeling
An introduction to the formulation and analysis of mathematical models. This course will present a general framework for the development of discrete and continuous models of diverse phenomena. Principles of modeling will be drawn from multiple areas, such as kinetics, population dynamics, disease spread, traffic flow, particle mechanics, and network science. Mathematical techniques and theory useful for understanding models will be emphasized, such as dimensional analysis, phase plane diagrams, stability analysis, bifurcation theory, conservation laws, random walks, constitutive relations, chaos theory, and computer simulation. A primary goal of this course is to give insights into the connections between mathematics and real-world problems, allowing students to apply the course concepts to applications that excite them.

Prerequisite: A grade of C or better in MATH 027 or MATH 028; in one of MATH 034 or MATH 035; and in MATH 043 or MATH 044; or permission of the instructor.
Natural sciences and engineering.
1 credit.
Eligible for COGS
Fall 2019. Barranca.

MATH 057. Topics in Algebra
Course content varies each year, depending on student and faculty interest. Recent offerings have included coding theory, groups and representations, finite reflection groups, and advanced matrix theory. See also MATH 077.
Prerequisite: A grade of C or better in MATH 027 or MATH 028.
Natural sciences and engineering.
1 credit.
Eligible for COGS
Fall 2019. Staff.

MATH 058. Number Theory
This course covers the fundamentals of elementary number theory, including divisibility, congruences, and prime numbers. Topics may include Gaussian integers, sums of squares representations, and quadratic reciprocity.
Alternate years.
Prerequisite: A grade of C or better in MATH 027 or MATH 028 and also in one of MATH 033, MATH 034, or MATH 035; or permission of the instructor.
Natural sciences and engineering.
1 credit.
Eligible for COGS
Fall 2019. Whitehead.

MATH 063. Introduction to Real Analysis
This course concentrates on the careful study of the principles underlying the calculus of real valued functions of real variables. Topics include continuity, compactness, connectedness, uniform convergence, differentiation, and integration. There is a strong emphasis on good mathematical writing, especially on mathematical proofs. This course includes a required additional weekly problem session.

Prerequisite: A grade of C or better in MATH 027 or MATH 028 and also in one of MATH 033, MATH 034, or MATH 035; or permission of the instructor.
Natural sciences and engineering.
Writing course.
1 credit.
Eligible for COGS
Fall 2019. Davis.
Spring 2020. Staff.
Fall 2020. Staff.

MATH 066. Stochastic and Numerical Methods
In mathematical problems that arise from real-world applications, exact solutions often cannot be obtained due to complicating characteristics, such as nonlinearity, uncertainty, and randomness. This course will introduce theory and techniques to numerically approximate solutions to these type of mathematical problems. This course will also survey the mathematical theory of stochastic processes. Additional topics may be included, depending on the instructor.
Prerequisite: A grade of C or better in MATH 027 or MATH 028; MATH 034 or MATH 035; and in MATH 043, MATH 044; or permission of the instructor.
Natural sciences and engineering.
1 credit.
Eligible for COGS
Fall 2019. Goldwyn.
Fall 2020. Staff.

MATH 067. Introduction to Modern Algebra
This course is an introduction to abstract algebra and will survey basic algebraic systems-groups, rings, and fields. Although these concepts will be illustrated by concrete examples, the emphasis will be on abstract theorems, proofs, and rigorous mathematical reasoning. There is a strong emphasis on good mathematical writing, especially on mathematical proofs. This course includes a required additional weekly problem session.
Prerequisite: A grade of C or better in MATH 027 or MATH 028; or permission of the instructor.
Natural sciences and engineering.
Writing course.
1 credit.
Fall 2019. Black.
Mathematics and Statistics

MATH 069. Combinatorics
This course continues the study of material begun in MATH 029. The primary topics are enumeration and graph theory. The first area includes, among other things, a study of generating functions and Polya counting. The second area is concerned with relations between certain graphical invariants. Additional topics may include one or more of the following topics: design theory, extremal graph theory, Ramsey theory, matroids, matchings, codes, and Latin squares.
Prerequisite: Grades of C or better in MATH 029 and at least one other course in mathematics numbered 27 or higher, or permission of the instructor. Students who have taken two or more mathematics courses numbered 50 or higher have taken this course without Math 29: please discuss with the instructor.
Natural sciences and engineering.
1 credit.
Eligible for COGS

MATH 073. Advanced Topics in Analysis
An advanced version of MATH 053, sometimes offered instead, and requiring the core course in analysis.
Prerequisite: A grade of C or better in MATH 027 or MATH 028 and also in MATH 063.
Natural sciences and engineering.
1 credit.
Eligible for COGS

MATH 075. Advanced Topics in Geometry
Course content varies from year to year depending on student and faculty interest. Topics in recent years have included differential topology and computational geometry and topology.
Prerequisite: A grade of C or better in at least one of MATH 063, MATH 065, MATH 067, or MATH 069.
Natural sciences and engineering.
1 credit.
Eligible for COGS

MATH 077. Advanced Topics in Algebra
An advanced version of MATH 057, sometimes given instead, and requiring the core course in algebra.
Prerequisite: A grade of C or better in MATH 027 or MATH 028 and also in MATH 067.
Natural sciences and engineering.
1 credit.

MATH 093. Directed Reading
Graded CR/NC.
Natural sciences and engineering.
1 credit.

MATH 097. Senior Conference
This course is required of all senior mathematics majors in the Course Program and must be taken at Swarthmore. It provides an opportunity to delve more deeply into a particular topic agreed on by the student and the instructor. This focus is accomplished through a written paper and either an oral presentation or participation in a poster session.
0.5 credit.

STAT 001. Statistical Thinking
Statistics provides methods for collecting and analyzing data and generalizing from their results. Statistics is used in a wide variety of fields, and this course provides an understanding of the role of statistics in these fields and in everyday life. It is intended for students who want an appreciation of statistics, including the ability to interpret and evaluate statistical claims critically but who do not imagine they will ever need to carry out statistical analyses themselves. (Those who may need to carry out statistical analyses should take STAT 011.) This course cannot be counted toward a major in mathematics, is not a prerequisite for any other course, and cannot be taken for credit after or simultaneously with any other statistics course, including AP Statistics and ECON 031.
Prerequisite: Four years of traditional high school mathematics (precalculus).
Natural science and engineering.
1 credit.

STAT 011. Statistical Methods I
STAT 011 prepares students to carry out basic statistical analyses using computer software. Topics include summary statistics and graphics, design of surveys and experiments, one and two-sample t-tests and tests of proportions, and an introduction to simple linear regression. The course is intended for students who want a practical introduction to statistical methods. Students may not receive credit for both Stat 011 and AP Statistics.
Note that the material of STAT 011 overlaps with ECON 031, but these courses have different emphasis.
Prerequisite: Four years of traditional high school mathematics (precalculus) and placement into this course through Swarthmore’s Math/Stat Readiness Examination.
Natural science and engineering.
1 credit.

STAT 021. Statistical Methods II
STAT 021 is a second course in applied statistics that extends methods taught in STAT 011. Topics include multiple linear regression, analysis of variance, and logistic regression.
Prerequisite: Credit for AP Statistics; a grade of C or better in STAT 011 or ECON 031; or a grade of B or better in STAT 001 with permission of the instructor.
Natural science and engineering.
1 credit.
Eligible for COGS
Fall 2019. Thornton.
Fall 2020. Staff.
Spring 2021. Staff.

STAT 041. Topics in Statistics
Course content varies from year to year depending on student and faculty interest. In the fall of 2019, the topic will be quantitative paleontology and the course will explore current research in paleobiology and macroevolution. For instance, does evolutionary change generally occur gradually or in short bursts? What factors make species more likely to go extinct? The course will focus on statistical methods used to answer such questions, rather than theory or proofs. Class meetings will include lectures, discussion of journal articles, and conversations with paleontologists via skype. It will also cover aspects of scientific careers such as grants, journals, and reviewing.
Prerequisite: STAT 011 or equivalent, or BIOL 002
Natural science and engineering.
Writing course.
1 credit.
Eligible for GLBL-Core

STAT 051. Probability
Introduction to the mathematical theory of probability. Topics include sample spaces and events, conditional probability and Bayes’ theorem, univariate probability and density functions, expectation and variance, moment generating functions, Binomial, Negative Binomial, Poisson, Normal, t, Gamma and Beta distributions, joint, marginal and conditional distributions, independence, transformations, the multivariate Normal distribution, the law of large numbers and the central limit theorem.
Prerequisite: A grade of C or better in MATH 033, MATH 034, or MATH 035; or permission of the instructor.
Natural Science and Engineering
1 credit.
Eligible for COGS
Fall 2019. Everson.
Spring 2020. Staff.
Spring 2021. Staff.

STAT 061. Mathematical Statistics I
Introduction to the mathematical theory of frequentist and Bayesian statistical inference. Topics include parameter estimation, confidence intervals and hypothesis testing, linear regression methods and Bayesian inference. Students needing to learn applied statistics and data analysis should consider Stat 021 in addition to or instead of this course.
Prerequisite: A grade of C or better in both MATH 027 or MATH 028 and STAT 051, or permission of the instructor. STAT 011 or the equivalent and some experience with computing are strongly recommended.
Natural Science and Engineering
1 credit.
Eligible for COGS
Fall 2020. Staff.

STAT 093. Directed Reading
Graded CR/NC.

Seminars

MATH 101. Real Analysis II
This seminar is a continuation of Introduction to Real Analysis (MATH 063). Topics include the inverse and implicit function theorems, differential forms, calculus on manifolds, measurability, and Lebesgue integration.
Prerequisite: A grade of B or better in MATH 063 or permission of the instructor.
Natural sciences and engineering.
1 credit.
Spring 2020. Staff.
Spring 2021. Staff.

MATH 102. Modern Algebra II
This seminar is a continuation of Introduction to Modern Algebra (MATH 067). Topics covered include field theory, Galois theory (including the insolvability of the quintic), and the Sylow theorems. Other topics are usually chosen from the structure theorem for modules over principal ideal domains, a theoretical development of linear algebra, or an introduction to representation theory. Additional topics may be studied depending on the interests of students and instructor.
Prerequisite: A grade of B or better in MATH 067 or permission of the instructor.
Natural sciences and engineering.
1 credit.
Fall 2020. Staff.

MATH 103. Complex Analysis
A brief study of the geometry of complex numbers is followed by a detailed treatment of the Cauchy theory of analytic functions of a complex variable: integration and Cauchy’s theorem, power series, residue calculus, conformal mapping, and harmonic functions. Various applications are given, and other topics such as elliptic functions, analytic continuation, and theory of Weierstrass may be discussed.
Prerequisite: A grade of B or better in MATH 063 or permission of the instructor.
Natural sciences and engineering.
1 credit.
Fall 2019. Hunter.

MATH 104. Topology
An introduction to point-set, combinatorial, and algebraic topology: topological spaces, classification of surfaces, the fundamental group, covering spaces, simplicial complexes, and homology (including related algebra). Alternate years.
Prerequisite: A grade of B or better in both MATH 063 and MATH 067, or permission of the instructor.
Natural sciences and engineering.
2 credits.
Spring 2020. Staff.

MATH 106. Geometry II
The course content varies from year to year among differential geometry, differential topology, and algebraic geometry. In 2019, the topic was advanced differential geometry. Alternate years.
Prerequisite: A grade of B or better in both MATH 065 and MATH 063, or permission of the instructor, when the course content will be differential geometry or differential topology; a grade of B or better in MATH 065 and MATH 067, or permission of the instructor, when the course content will be algebraic geometry.
Natural sciences and engineering.
1 credit.
Spring 2021. Staff.

STAT 111. Mathematical Statistics II
This seminar is a continuation of STAT 051 and STAT 061. It deals mainly with statistical models for the relationships among variables. Theory of linear regression models is examined in detail. Other topics may include theory for generalized linear models (including logistic regression), Bayesian inference, and nonparametric statistics.
Prerequisite: A grade of C or better in MATH 027 or MATH 028 and a grade of B- or better in STAT 061; credit or placement out of CPSC 021.
Natural science and engineering.
1 credit.
Eligible for COGS
Spring 2020. Staff.
Spring 2021. Staff.
Medieval Studies

Coordinator: CRAIG WILLIAMSON (English Literature)
Catherine Roeder, Administrative Assistant
Committee: Tariq al-Jamil (Religion)
James Blasina (Music)
Steven Hopkins (Religion)
Rosaria V. Munson (Classics)
Benjamin Ridgway (Modern Languages & Literatures: Chinese)
Ellen M. Ross (Religion)²
William Turpin (Classics)

² Absent on leave, spring 2020.

Swarthmore’s Medieval Studies Program offers students the opportunity to study in an interdisciplinary and cross-cultural fashion a variety of often interrelated medieval civilizations—European, Mediterranean, Middle Eastern, Islamic, South and West Asian—from the 4th to the 15th centuries. The program draws upon a variety of critical and cross-disciplinary approaches to explore medieval cultures, their distinctive qualities and historical connections, their material and spiritual productions, their artistic creations, and their relation to earlier and later cultures. The heart of the Medieval Studies Program is its interdisciplinary approach. The faculty and students in this program believe that the medieval period, its history, languages and literatures, art and architecture, religion and philosophy, music and meaning, are best studied from a variety of critical perspectives in which discipline and dialogue go hand in hand, where each person’s knowledge is tested and expanded by another’s approach, and where we come together in the words of Chaucer’s Clerk to “gladly lerne and gladly teche.”

The Academic Program

Students may major or minor in medieval studies in either the Course or Honors Program. Students must take work in a variety of medieval subjects to be drawn from art history, history, literature, music, religion, and philosophy. Majors often do research abroad on college-sponsored fellowships during the summer of their junior year and then write a thesis, which they present as seniors to an interdisciplinary Medieval Studies Committee or a panel of honors examiners.

Requirements

All students who major or minor in medieval studies, either in honors or course, must fulfill the program’s distribution requirements by taking medieval courses from the following distribution areas: 1. art history 2. history 3. literature (English, classics, etc.) 4. music 5. religion or philosophy. The list of Swarthmore medieval studies courses as well as medieval courses at Bryn Mawr and Haverford is regularly updated on the program website.

Course Major

Course majors must take at least 8 credits in medieval subjects, including at least one medieval course in three of the five distribution areas, and pass a senior comprehensive which includes a written and oral exam given by the student’s instructors in her or his medieval courses. These examinations are intended to be a culminating exercise to facilitate the review and integration of the various subjects and methods involved in the interdisciplinary field of medieval studies.

Honors Major

Honors majors must take at least one medieval course in three of the five distribution areas. The Honors Program itself will include four double-credit preparations in medieval subjects which reflect the interdisciplinary nature of the major and must include work in at least three of the distribution areas. The preparations may be constituted by some combination of the following: seminars, preapproved two-course combinations, courses with attachments, or a thesis. Senior Honors Study for honors majors in medieval studies will follow the policies of the individual departmental preparations used in the program. Honors majors will have a 90- to 120-minute oral panel examination with all four examiners present. These examinations are intended to be a culminating exercise to facilitate the review and integration of the various subjects and methods involved in the interdisciplinary field of medieval studies. Honors major normally do not have a separate minor as part of their Medieval Studies Honors Program, but they may apply one of their four honors preparations toward an honors minor. In such a case, a student must fulfill all the requirements set by the relevant department or program of that honors minor.

Course Minor

Course minors must take 5 credits in medieval subjects in at least two distribution areas. Only one of these credits can also be in the department of the student’s major.
Honors Minor

Honors minors must take 5 credits in medieval subjects in at least two distribution areas. The honors preparation in a medieval subject should reflect the interdisciplinary nature of the minor and may be satisfied by one of the following: a seminar, a preapproved two-course combination, a course with an attachment, or in special cases a thesis. The minor preparation must be in a department distinct from the student’s major. Senior Honors Study and written and oral honors exams will follow the pattern of the department in which the preparation is offered.

Courses and seminars in the various departments which are counted as medieval studies courses are listed in the College Catalog and online. Students may also take medieval courses at Bryn Mawr or Haverford as part of their program.

Medieval Studies Courses

The following medieval studies courses are currently offered at Swarthmore. Other courses may be considered on petition to the Medieval Studies committee. Courses marked with an asterisk may count as a Medieval Studies course if the student chooses to focus on medieval materials; see the instructor for details. Majors and minors are also allowed to include medieval courses from Bryn Mawr, Haverford, and the University of Pennsylvania in their curriculum.

MDST 096. Thesis
1 credit.
Eligible for MDST

MDST 180. Senior Honors Thesis
1 - 2 credits.
Eligible for MDST

The following courses may be counted for credit in the Medieval Studies Program. Descriptions of the courses can be found in each department’s course listings in this catalog.

ARTH 002. The Western Tradition*
ARTH 003. Asian Art: Past and Present
ARTH 052. Global Renaissance
ARTH 072. Global History of Architecture: Prehistory-1750
CHIN 027. The Story in Dynastic China*
CHIN 033. Introduction to Classical Chinese
CHIN 037. Text and Image: Classical Chinese Poetry and Painting
ENGL 010. Monsters, Marvels, and Mysteries: Beowulf to Paradise Lost*
ENGL 014. Old English/History of the Language
ENGL 016. Chaucer
ENGL 046. Tolkien and Pullman and Their Literary Roots*
HIST 001A. First-Year Seminar: The Barbarian North
HIST 001T. First-Year Seminar: Cross and Crescent: Muslim-Christian Relations in Historical Perspective
HIST 002A. Medieval Europe
HIST 014. Friars, Heretics, and Female Mystics: Religious Turmoil in the Middle Ages
HIST 015. From Classical Rome to Renaissance Florence: The Making of Urban Europe
LATN 014. Medieval Latin
LING 033. Introduction to Classical Chinese
LITR 037CH. Text and Image: Classical Chinese Poetry and Painting
MUSI 020. Medieval and Renaissance Music
MUSI 028. Sound, Sinners, and Saints in Medieval England
MUSI 106. Winds of Pleasure: The Music and Writing of Hildegard of Bingen in Context and Revival
RELG 008B. The Qur’an and Its Interpreters
RELG 011B. The Religion of Islam: The Islamic Humanities
RELG 014. Race, Gender, and Sex in the Bible
RELG 020. Christian Mysticism
RELG 030. The Power of Images: Icons and Iconoclasts
RELG 031. Healing Praxis and Social Justice
RELG 037. Sex, Gender, and the Bible
RELG 053. Gender, Sexuality, and the Body in Islamic Discourses
RUSS 047. Russian Fairy Tales*

Seminars

ENGL 102. Chaucer and Medieval Literature
MDST 180. Senior Honors Thesis
1 - 2 credits.
Eligible for MDST

RELG 100. Holy War, Martyrdom, and Suicide in Christianity, Judaism and Islam
RELG 101. Jesus in History, Literature, and Theology*
RELG 108. Poets, Saints, and Storytellers: The Poetry and Poetics of Devotion in South Asian Religions
RELG 114. Love and Religion
RELG 119. Islamic Law and Society
RELG 127. Secrecy and Heresy
Modern Languages and Literatures (MLL)

HANSJAKOB WERLEN, Professor of German Studies
SUZANNE MCCARTHY, Administrative Assistant
BETHANNE SEUFERT, Administrative Assistant
MICHAEL JONES, Director of Language and Media Centers
JOHN WORD, Language Center Technologist

ATSUKO SUDA, Lecturer

Russian
SIBLEAN FORRESTER, Professor and Section Head
JOSÉ VERGARA, Visiting Assistant Professor
TSVETELINA YORDANOVA, Lecturer

1 Absent on leave, fall 2019

The Academic Program
Our courses balance traditional objects of study with emerging interdisciplinary projects on topics such as urban modernity, gender and sexuality, and media representations and manipulations of cultural values. Our curriculum engages the classics of world literature while also adapting to reflect the latest redefinitions and debates occurring within the Humanities. The linguistic knowledge students acquire in our courses enables them to speak and write confidently about texts and contexts, to go abroad and encounter the world and its residents in very different, more informed and meaningful ways.

Along with demonstrated competence in the language, a foreign literature major will normally complete a minimum of 8 credits in courses in advanced language, literature, or culture, and a culminating exercise such as a thesis, an oral or written comprehensive examination, or honors examinations. Depending on the program, one or more courses for the major may be taken in English. The department encourages interdisciplinary approaches and pertinent special majors. Students interested in more than one literature are encouraged to consider a major in comparative literature. Students with strong interest in learning languages and their mechanics should also take note of the related major in Linguistics and Languages. The department collaborates with Educational Studies to help students who wish to get teacher certification.

The Language Requirement
To receive the degree of Bachelor of Arts or Bachelor of Science, candidates must fulfill a foreign language requirement. The foreign language requirement can be fulfilled by:

a. Successfully studying 3 years or the "block" equivalent of a single foreign language in grades 9 through 12 (work done before
b. grade 9 cannot be counted, regardless of the course level);
c. Achieving a score of 600 or better on a standard achievement test of a foreign language;
d. Passing either the final term of a college-level, yearlong, introductory foreign language course or a semester-long intermediate foreign language course; or
e. Learning English as a foreign language while remaining demonstrably proficient in another.

If you have fulfilled your language requirement, the department encourages you to use your time at Swarthmore to become truly proficient in that language, or to discover a new one.

Students whose placement recommendation is above the language sequence should consider taking introductory and/or advanced courses, many of which fulfill the College’s writing requirement.

Placement Tests
The Modern Languages and Literatures Department offers placement tests so as to appropriately position students in language classes when they arrive on campus. New students who have previously studied or have fluency in a language offered at Swarthmore should plan to take a placement test either online (French and German), during orientation week/the start of classes (Arabic, Chinese, and Japanese), or to meet with the section head (Russian). Students who have French/German AP/IB are also required to take the online placement test. Upperclass students interested in taking placement test should contact Michael Jones in the Language Resource Center for information and instructions (mjones1, 610-328-8036).

For French only, first-year students with a 531 or higher on their online French placement test are required to take the written literature/culture essay placement test during orientation week to be correctly placed in a French class.

Note: Placement Tests are not a substitute for an official standard achievement test of a foreign language (such as the College Board exam or the International Baccalaureate). Therefore, they do not serve as proof of achievement for the purpose of fulfilling the language requirement. These tests are only intended to assist instructors in placing students in the appropriate Swarthmore course. For additional information on placement visit each program’s website.

Explanatory Note on First-and Second-Year Language Courses
Courses numbered 001-002, 003, and, in some languages also 004, carry 1.5 credits per semester. Four semesters in this sequence are equivalent to two or sometimes more years of work at the college level.

These courses encourage development of communicative proficiency through an interactive task-based approach and provide students with an active and rewarding learning experience as they strengthen their language skills and develop their cultural competency. These courses meet alternately as sections for grammar presentation and small groups for oral practice and may also require work in regular scheduled tutorials or in the Language Resource Center.

Students who start in the 001-002 sequence must complete 002 to receive credit for 001. However, students placing directly in 002 can receive 1.5 semester credits for that course. Please note that students must register for both parts of the course in the 001-004 sequence, which meet five days per week.

We offer teacher certification in modern languages (French, German, Russian, and Spanish) through a program approved by the state of Pennsylvania. For further information about the relevant requirements, please refer to the Educational Studies section of the College Bulletin or see the Educational Studies Department website: www.swarthmore.edu/educationalstudies.xml.

Advancement Placement and International Baccalaureate Credit
The department will grant 1 credit for incoming students who achieved a score of 4 or 5 on Advanced Placement Chinese, French, German, Japanese or Russian examinations once they have successfully completed a one-credit course in that language at the College. The department will grant 1 credit for incoming students who have achieved a score of 6 or 7 in a foreign language on the International Baccalaureate once they have successfully completed a one-credit course in that language at the College.

Students who took an AP or IB exam should consult the department for more information.

Note: Students with French/German AP-IB scores are nonetheless required to take the online placement test.

Teacher Certification
We offer teacher certification in modern languages (French, German, and Russian) through a program approved by the state of Pennsylvania. For further information about the relevant requirements, please refer to the Educational Studies section of the College Bulletin or see the Educational Studies Department website: www.swarthmore.edu/educationalstudies.xml.

Off-Campus Study
Students on financial aid may apply that aid to designated programs of study abroad. Study
abroad is particularly encouraged for students of Arabic; academic credit (full or partial) is generally approved for participation in programs of varying duration in different Arab countries that are recommended by the Arabic section. These include, but are not limited to, universities and programs in Jordan, Morocco, and Oman.

Study abroad is particularly encouraged for students of Chinese; academic credit (full or partial) is generally approved for participation in several programs of varying duration in the People’s Republic of China and in Taiwan, recommended by the Chinese section. In the People’s Republic these include, but are not limited to, the Inter-University Program (IUP) Program at Tsing-hua University, the Associated Colleges in China (ACC) Program, the CET Program in Harbin and the Middlebury program in Kunming. In Taiwan, these include the International Chinese Language Program (ICLP) and the Mandarin Training Center in Taipei; and the Chinese Language Center, National Cheng Kung University in Tainan.

All French/Francophone studies majors are required to complete a preapproved, semester-long study abroad program in a French-speaking country. Minors are strongly encouraged to attend such semester-long programs and should at least attend a preapproved six-week summer program in a francophone country.

Students of German studies are strongly encouraged to spend at least a semester in a German-speaking country. There are several excellent opportunities to participate in an approved program, such as the Columbia Consortium Program in Berlin, the Macalester College German Study Program in Berlin/Vienna, or the Dickinson college program in Bremen. Students should consider going abroad in the spring semester. This will enable them to participate fully in the semester schedule of German and Austrian Universities.

Students of Japanese are strongly encouraged to participate in study abroad programs. Swarthmore College participates in a regular exchange program with Tokyo University, and the Japanese Section has prepared a carefully selected list of other recommended programs in Kyoto, Nagoya, and elsewhere. Students interested in study abroad should consult with the head of the Japanese Section for more information.

Students in Russian are strongly encouraged to spend at least one semester in the ACTR, CIEE, or Middlebury programs or at the Smolny Institute through Bard College, among others in Russia.

**Literatures in Translation**

Students who are already proficient in a particular foreign language are urged to select an appropriate literature/culture course taught in the original language. LITR courses provide students with the opportunity to study cultural material that they cannot read in the original and often to study literature in a comparative context.

In some language programs, these courses cannot be substituted for the introductory course sequence between 010 and 020 to satisfy departmental prerequisites for a major or minor in the original languages, but many of these courses can satisfy the 8 credit requirement of a foreign literature/studies major as each section specifies.

**LITR 017FC. First Year Seminar: North African Postcolonial Literature**
(Cross-listed as FREN 017C)
Humanities.
1 credit.
Eligible for ISLM

**Literatures in Translation Courses**

**LITR 007. Berlin and Beyond: Cultural Trends and Current Affairs**
(Cross-listed as GMST 007)
This half-credit course invites students to explore the urban culture of Berlin, a European hotspot for politics, the arts, media, high-tech start-ups, and clubbing. Venturing beyond the capital, students then examine facets of Germany’s contemporary cultural, social, and political landscape. Students will help select specific topics for readings, discussions, and presentations, and participants interested in developing their German language skills will have the opportunity to engage with relevant texts and media in German. Taught in English.
.5 credit.
Eligible for GMST
Fall 2019. Schnader.

**LITR 013R. The Meaning of Life and the Russian Novel**
(Cross-listed as RUSS 013)
Fall 2019
A NEW Inside-Out Prison Exchange Program course
Wednesday 12-5 p.m. (includes travel time to Chester and processing time at the prison)

This course surveys the nineteenth-century Russian novel and some of its main themes: life, death, family, love, the individual and society, generational conflicts, crime and punishment. Our main approach will be 1.) to read and closely analyze a series of texts that became the foundation for the Russian novelistic tradition within their own contexts and 2.) to explore how these texts speak to contemporary issues, our lives, and eternal questions that all of humanity faces. Authors include Dostoevsky, Tolstoy, Turgenev, and Pushkin. Taught in translation. No knowledge of Russian language or culture required. Limited to 10 Swarthmore students.
Prerequisite: Open to juniors and seniors.
Enrollment only by permission of the instructor. Humanities.
1.5 credits.
Eligible for RUSS
Fall 2019. Vergara.

**LITR 014R. The Russian Novel: Revolution, Terror and Resistance**  
(Cross-listed as RUSS 014)  
What does a culture look like after it undergoes a series of revolutions-sexual, linguistic, political-in short succession? To answer this question, this course surveys the Russian novel from the years leading up to the Bolshevik Revolution, through the Soviet period, and into the post-Cold War era. We will consider literary, social, and historical contexts and will address such issues as revolution, repression, emigration, trauma, forms of resistance, and the artist’s role in society. Works include Zamiatin’s We, Olesha’s Envy, Nabokov’s The Gift, Bulgakov’s Master & Margarita, Tertz’s The Trial Begins, Sokolov’s Between Dog & Wolf, Petrushevskaya’s Time: Night, and Shishkin’s Maidenhair. Taught in translation. No previous knowledge of Russian language or culture required. Humanities.

Writing course.
1 credit.

**LITR 015. Transgender Worlds**  
(Cross-listed as GSST 015)  
1 credit.
Eligible for GSST, LITR

**LITR 015R. First Year Seminar: East European Prose in Translation**  
(Cross-listed as RUSS 015)  
Novels and stories by the most prominent 20th-century writers of this multifaceted and turbulent region. Analysis of individual works and writers with the purpose of appreciating the religious, linguistic, and historical diversity of Eastern Europe in an era of war, revolution, political dissent, and outstanding cultural and intellectual achievement. Readings, lectures, writing and discussion in English; qualified students may do some readings in the original language(s). Humanities.

Writing course.
1 credit.

**LITR 017CH. History of Chinese Theater**  
(Cross-listed as CHIN 017)  
1 credit.
Eligible for ASIA

**LITR 017FA. First Year Seminar: Literature and Medicine**  
(Cross-listed as FREN 017A)  
Portrayals of doctors provide a great opportunity to discover some classic works of French Literature, including Molière’s The Imaginary Invalid, Flaubert’s Madame Bovary, Proust’s Swann’s Way, and Albert Camus’ The Plague. Other authors studied are Montaigne and Diderot. Students focus their discussions on the relationship with patients when these are seen as both humans beings and objects of science. Another topic of interest is how literature can be viewed as therapeutic. Throughout the seminar, we try to understand what had made these works original in their times and a source of admiration up to our days. Texts and discussions in English. Humanities.

1 credit.
Eligible for INTP

**LITR 017FB. First-Year Seminar: Forms of Exile in the Francophone World**  
(Cross-listed as FREN 017B)  
Exile can be a multi faceted transnational, cultural, political, social journey, which often affect the vision of the here and there of individuals and populations seeking a better life, some type of asylum, a change of landscape, etc. Through readings of (poems, prose, plays, songs, etc.) French writers and artists from the Hexagon and beyond, we will examine issues such as freedom, resistance, social identity, dreams, hopes, differences, transfer of roles, displacement, abandonment, borders, memory, creation, etc., as expressed by Apollinaire, Baudelaire, DuBellay, Césaire, Hugo, Kacimi, Lahens, Levi-Strauss, Ollivier, Saint-John-Perse, Schwarz-Bart, Tadjo, Verlaine, among others. Humanities.

1 credit.
Eligible for INTP, BLST

**LITR 017FC. First Year Seminar: North African Postcolonial Literature**  
(Cross-listed as FREN 017C)  
1 credit.
Eligible for ISLM

**LITR 017FD. First Year Seminar: Justice and Redemption in the Cinema**  
(Cross-listed as FREN 017D)  
1 credit.
Eligible for BLST

**LITR 017G. First Year Seminar: Testimonial Literature**  
(Cross-listed as GMST 017)  
This course explores the notion of testimony as an important aspect of a literature of resistance. We investigate how testimony intertwines with questions of writing and truth, and creates a response to cultural violence. Students read theories and literature of resistance and testimony in a wide-ranging selection of time periods and cultures, from the formation of a philosophical and
religious idea of testimony in antiquity (Greek and Judeo-Christian traditions) to its later development in theories of Emmanuel Levinas. We will also study the emergence of the literary notion of testimony by analyzing works of poetry, narrative, and film, with a particular focus on Jewish responses to the Shoah, and Latin American and Latino responses to political and social repression. Humanities.

1 credit.

Eligible for PEAC

LITR 017R. First-Year Seminar: Love and Sex in Russian Literature
(Cross-listed as RUSS 017)
Best known for political priorities and philosophical depth, Russian literature has also devoted many works to the eternal concern of love and sex. We will read significant and provocative works from traditional folk tales through the 21st century to discuss their construction of these most "natural" impulses—and how they imagine the relationship of human attraction to art, politics and philosophy.

Humanities.
Writing course.
1 credit.
Eligible for GSST
Fall 2019. Forrester.

LITR 018FJ. Manga, Bande Dessinée, and the Graphic Novel: A Transnational Study of Graphic Fictions
(Cross-listed as JPNS 018, FREN 018)
This course provides an introduction to the study of three of the most important contemporary graphic literary forms - manga, bande dessinées, and the graphic novel - and the national and transnational traditions with which they have become associated. Through a careful study of major artists and key works from Japan and the Francophone world, we explore the particular histories, aesthetic evolutions, and social impact of these sequential art forms, both in their specific places of origin and across the globe. We consider how these graphic fictions have managed to mirror and refract major issues of historical trauma, technology and violence, as well as how they question representations of gender, class, race and ethnicity, even as they wield a form of "soft power." The transnational impact that some works have played will also be explored through a comparative analysis of local and global dissemination, transnational fan communities, non-Japanese-language manga, and transindustrial exchanges. Texts and discussions in English. Students with knowledge of French and/or Japanese may read the works in the original. There is a 0.5 credit French Attachment for students reading in French (FREN 018A).

Humanities.
1 credit.

Eligible for ASIA

LITR 021R. Dostoevsky (in Translation)
(Cross-listed as RUSS 021)
Writer, gambler, publicist, and visionary Fedor Dostoevsky is one of the great writers of the modern age. His work inspired Nietzsche, Freud, Woolf, and others and continues to exert a profound influence on thought in our own society to the present. Dostoevsky confronts the "accursed questions" of truth, justice, and free will set against the darkest examples of human suffering: murder, suicide, poverty, addiction, and obsession. Students will consider artistic, philosophical, and social questions through texts from throughout Dostoevsky’s career. Students with knowledge of Russian may read some or all of the works in the original.

Humanities.
1 credit.

Eligible for PEAC

LITR 023CH. Modern Chinese Literature: A New Novelistic Discourse (1918-1948)
(Cross-listed as CHIN 023)
Modern Chinese literary texts created between 1918 and 1948, presenting a series of political, social, cultural, and ideological dilemmas underlying 20th-century Chinese history. The class will discuss fundamental issues of modernity and new literary developments under the impact of the May Fourth Movement. No previous preparation in Chinese required. All texts are in English translation, and the class is conducted in English.

Humanities.
1 credit.

Eligible for ASIA

LITR 023J. Japanese Language and Multilingual Society in the 21st Century
(Cross-listed as JPNS 023)
This course introduces social and cultural factors that influence the usage of the Japanese language and language users within everyday conversation, mass media, and popular culture. The course topics include dialects, honorifics, gender, intercultural communication, various identities of Japanese language users, media discourse, and role languages. The course provides students with an opportunity to critically examine their beliefs and assumptions about Japanese language, and cultivates social and cultural awareness for their own language and language use in local and global contexts. Course instruction, discussion, and required readings will be in English. Previous coursework in Japanese language is recommended but not required.

Humanities.
1 credit.
Eligible for ASIA

LITR 023R. The Muslim in Russia
(Cross-listed as RUSS 023)
The long and strong relationship of Russia and Islam has been neglected in scholarship until recently. This course will examine texts (and
films) spanning more than a thousand years, to introduce actual interactions of Russians and Muslims, images of Muslims in Russian literature (and a few Muslim images of Russia), the place of Muslim writers in Soviet literature, and the current position of Muslims in Russia and in Russian discourse.

Humanities.
1 credit.
Eligible for ISLM

**LITR 024CH. History of Chinese Literature: Fiction and Drama**
(Cross-listed as CHIN 024)
This course surveys major narrative and genres, forms and works from the Yuan dynasty (1271-1368) through the early twentieth century with an emphasis on fiction and drama. Readings consist of both primary texts in English translation and secondary critical works. Issues to be emphasized include print history and format (including illustration), performance context, the relationship between oral and written, vernacular and classical storytelling, the invention of Chinese literary history as a discipline in the Republican period.

Humanities.
1 credit.

**LITR 025A. War in Arab Literature and Cinema**
(Cross-listed as ARAB 025)
This course will explore literary and cinematic representations of war in the Arab world, focusing on the Arab-Israeli Conflict, the Lebanese Civil War, and the Iraq wars. We will look at poetry, fiction, memoir, prison narratives, film, and experimental texts. Through the examination of a variety of experiences, genres, and perspectives, we will ask questions like: How do narratives of war contribute to the formation of national, local, and Arab identities? How has the experience of war impacted understandings of religion, masculinity, gender, and domestic violence? We will identify common themes and images, and also investigate how these patterns change and develop in different spatial and temporal contexts.

Humanities.
1 credit.

**LITR 026. Popular Music and Media**
(Cross-listed as GMST 026, FMST 026, MUSI 005E)
Is Bohemian Rhapsody (2018) the Stop Making Sense (1984) of this generation? How does YouTube compare to Indie records? What’s similar and what’s different? What is the relationship between social media and commercial means of distribution, and what is its effect on fandom? This team-taught course investigates the histories, structures and cultural connections between popular music and other media. How do musical expressions and genres interact with medium specificity? How can we understand changing exhibition formats (stadium vs. lounge vs. club) and distribution venues (record store vs. Spotify)? How does celebrity culture then and now impact what is popular and how does it affect the music industry and vice versa? What lies at the intersection of national, socio-political and fan cultures?

Providing a grounding in music and media history and theory, we will research and analyze mainstream and independent case studies in radio, film, theater, television and social media in order to better understand and engage with the complex webs that characterize contemporary media, its production, and its consumption.

Humanities.
1 credit.

**LITR 026R. Russian and East European Science Fiction**
(Cross-listed as RUSS 026)
Science fiction enjoyed surprisingly high status in Russia and Eastern Europe, attracting such prominent mainstream writers as Karel Čapek, Mikhail Bulgakov, and Evgenii Zamiatin. In the post-Stalinist years of stagnation, science fiction provided a refuge from stultifying official Socialist Realism for authors like Stanislaw Lem and the Strugatsky brothers. This course will concentrate on 20th-century science fiction (translated from Czech, Polish, Russian and Serbian) with a glance at earlier influences and attention to more recent works, as well as to Western parallels and contrasts.

Humanities.
1 credit.

**LITR 027CH. The Story in Dynastic China**
(Cross-listed as CHIN 027)
In this class we will read in translation and discuss a fair sampling of imperial China’s most renowned stories. In exploring the most celebrated and influential examples of narrative literature from early times into the Qing dynasty, we will look at these stories, some short, others quite elaborate, in terms of overt structure and content, as well as backgrounded literary and cultural material, and we will address their production and consumption in literati and popular contexts. We also will consider these writings in terms of the formulation of enduring cultural contours of character, allegory, and lyricism; individual and society; aesthetics and emotion; imagination and realism; heroism and valor. All readings will be in English, mostly translations of original texts, with some supplementary writings about traditional Chinese fiction.

Humanities.
1 credit.
Eligible for ASIA
LITR 029A. Arabs Write the West
(Cross-listed as ARAB 029)
Drawing on historical, fictional, and autobiographical narratives, this course investigates Arab representations of the Occident. These texts explore cultural encounters, both at home and abroad, border crossings, hybridity, experiences of colonialism and neocolonialism, the psychology of Orientalism and Occidentalism, processes of assimilation and resistance, and the question of contact zones. Differences in geography, period, context, and positionality will provide a variety of perspectives on theme. Works by Abd Al-Rahman Al-Jabarti, Rifa‘a Al-Tahtawi, Yahya Haqqi, Sulaiman Fayyad, Tayyib Salih, Leila Ahmed, and Fadia Faqir will be discussed. This course is taught in English.
Humanities.

LITR 033J. Tokyo Central: The Metropolis in Modern Japanese Literature and Film
(Cross-listed as JPNS 033)
This course aims to equip students to recognize and contextualize changing concepts of self and individual identity, family, community, and labor as represented in literature and film narratives depicting the urban center of modern Japan: Tokyo. Brief lectures on literary historical and historical contexts will precede guided discussions of literary texts and films. Students will be asked to consider, compare, and contrast representations of Tokyo and its inhabitants over time, using close reading, historicization, and visual critical strategies from film studies. In discussions we will also treat Tokyo’s relationship to the nation of Japan, other Japanese regions, East Asia, and the world. We will further assess how the course texts represent shifting views and experiences of the urban populace regarding family roles, romance, marriage, gender roles, socio-economic class and social status, social responsibility, consumerism, and leisure over the course of Japan’s modern history, from the late 19th century through to the present.
Humanities.
1 credit.
Eligible for ASIA, ENVS

LITR 035J. Narratives of Disaster and Rebuilding in Japan
(Cross-listed as JPNS 035)
This course will explore documentary and fictional representations of the modern Japanese landscape and cityscape in crisis, with special attention to the role of the March 2011 earthquake, tsunami, and nuclear disaster as a catalyst for change in contemporary Japan. Documentaries and fictionalizations of the 2011 "triple disaster" reignited debates over cultural trauma and the ethics of representing disaster. Through the study of literature, film, and critical discourse, we will examine the historical and cultural implications of such famous 20th-century disaster narratives as Godzilla and Japan Sinks, as well as the latest writing and films from Japan, in the context of public debates about safety, sustainability, and social change after the March 2011 tsunami and nuclear disaster. Readings and discussion will be in English.
Humanities.
1 credit.
Eligible for ASIA, ENVS

LITR 036CH. Women’s Literature in Premodern China
(Cross-listed as CHIN 036)
Contrary to our stereotypes about the silent, invisible woman of premodern China, women actually wrote and published their work in unprecedented numbers from the late 16th century to the early 20th century. This course will explore the literary and historical significance of this output, which mainly took the form of poetry and prefaces to poetry collections, letters, some drama, and novels in verse, and which was produced primarily by gentry women (e.g. women from elite families), courties, and nuns. A central theme will be the place and problem of women’s poetry in a male-dominated literary tradition and society. Topics to be addressed include the social function of poetry and women’s literary networks, women’s relationship to the publishing market as writers, editors, and readers, the forces driving male interest in women’s writing at certain historical moments, and the changing ideas about what kinds of styles of past poets should be offered to boudoir poets as a repertoire of available choices to read and imitate.

Eligible for PEAC

LITR 037R. Crime or Punishment: Russian Narratives of Captivity and Incarceration
(Cross-listed as RUSS 037)
The degree of civilization in a society can be judged by entering its prisons." - Dostoevsky.
While the Gulag remains the most infamous aspect of the Soviet justice system, Russia has a long history of inhumane punishment on a terrifying scale. This course explores narratives of incarceration, punishment, and captivity from the 17th century to the present day. In discussing (non-)fiction, history, and theory, we will consider such topics as justice, violence and its artistic representations, totalitarianism, witness-bearing, and the possibility of transcendence in suffering. Readings include works by Dostoevsky, Tolstoy, Chekhov, Akhmatova, Nabokov, Solzhenitsyn, Pussy Riot, Foucault, Arendt, and Sontag, among many others. For more information or the syllabus, please contact the instructor (jvergar1). Taught in translation; no knowledge of Russian required. Humanities. 1 credit.

**LITR 047R. Russian Fairy Tales**
(Cross-listed as RUSS 047)
Folk beliefs are a colorful and enduring part of Russian culture. This course introduces a wide selection of Russian fairy tales in their esthetic, historical, social, and psychological context. We will trace the continuing influence of fairy tales and folk beliefs in literature, music, visual arts, and film. The course also provides a general introduction to study and interpretation of folklore and fairy tales, approaching Russian tales against the background of the Western fairy-tale tradition (the Grimms, Perrault, Disney, etc.). No fluency in Russian is required, although students with adequate language preparation may do some reading, or a course attachment, in the original. Humanities. 1 credit. Eligible for INTP

**LITR 051G. European Cinema**
(Cross-listed as FMST 051)
Setting out from the cornerstones of aesthetics, history and memory, this course introduces you to post-war directors from Italian Neo-Realism, British and French New Waves, Eastern European Cinema, Post-New Wave Italian auteurs, Spanish cinema after Franco, New German Cinema, Swedish and Danish cinema. The course addresses key issues and concepts in European cinema such as realism, authorship, art cinema, and political modernism, with reference to significant films and filmmakers and in the context of historical, social, and cultural issues. Humanities. 1 credit. Eligible for GMST

**LITR 051J. Japanese Poetry and Poetics**
(Cross-listed as JPNS 051)
Japanese poetic forms such as haiku, renga, and tanka have had a great impact on modern poetry across the world, and have played a central role in the development of Japanese literature and aesthetics. This course will examine Japanese poetry from its roots in ancient oral tradition through the internet age. Topics include the role of poetry in courtship, communication, religion, and ritual; orality and the graphic tradition; the influence of poetic models from China and the West; social networks and game aesthetics in renga linked poetry; and haiku as a worldwide poetic form. Course projects will include translation and composition in addition to analytical writing. Readings will be in English, and there are no language requirements or other prerequisites; however, the course will include a close examination of Japanese poetic sound, syntax, meter, and diction, or how the poems

**LITR 045A. Contemporary Thought in the Arab World**
(Cross-listed as ARAB 045)
This survey course will trace some of the main themes, problems and issues that have been debated among Arab thinkers and intellectuals since the latter part of the 19th century. The course will start with the 19th century but emphasize discussions following the military defeat of 1967 and the ensuing cultural and political crisis. Discussions related to "turath" (heritage), the different strategies of its reading and interpretation, and the possibilities of using these readings to confront the contemporary challenges of a globalized world will be the center of attention of the course.
Readings for the course will comprise three types of texts: historical and social background, translations of texts by the different thinkers under discussion, and articles and essays that interpret and critique these thinkers.

**LITR 041J. Fantastic Spaces in Modern Japanese Literature**
(Cross-listed as JPNS 041)
As Japanese society has transferred rapidly in the 20th century and beyond, a number of authors have turned to the fantastic to explore the pathways of cultural memory, the vicissitudes of interpersonal relationships, the limits of mind and body, and the nature of storytelling itself. In this course, we will consider the use of anti-realistic writing genres in Japanese literature from 1900 to the present, combining readings of novels and short stories with related critical and theoretical texts. Fictional works examined will include novels, supernatural tales, science fiction, and cyber-fiction by authors such as Tanizaki Junichirō, Abe Kōbō, Kurahasi Yumiko, and Murakami Haruki. Humanities.

**LITR 053R. The End of History: Contemporary Russian Culture**
(Cross-listed as RUSS 053)
Hailed as the "end of history" and "the greatest geopolitical tragedy of the 20th century," the fall of the Soviet Union forced Russia to reconcile a past that had long been suppressed with a present reality full of possibility. We’ll discuss works that address contemporary issues (Putinism, protests, refugees, corruption) and resurrect historical traumas (the Civil War, the Stalin years, the Leningrad Siege, Chernobyl) to understand Russia today. This course features a wide range of texts: fiction, non-fiction, oral histories, poetry, art, performance, and film. We will also have the opportunity to speak with some of the figures whose work we’ll examine. No knowledge of Russian required.

Humanities.

**LITR 057S. Performing Latinidad: Latinx Theater, Film and Performance Art**
(Cross-listed as THEA 007, SPAN 057 and LALS 057)
This course will introduce students to Latinx performance in the U.S., from the mid-20th century to today. Students will study different modes of performances such as theater, film, the work of performance artists and everyday performances (such as political events) through various Latinx lenses. Following a critical performative pedagogy, the class will combine seminar-style discussions with performance workshops. Topics covered will include the representation and embodiment of gender and race, acts of decolonization, memory construction and diasporic experiences, citizenship and community building, and the politics of Latinidad. By analyzing these and other relevant issues through discussions and performance exercises, we will be able to survey the state of contemporary Latinx performance in the U.S. while gaining a better understanding of the connection between performance theory and practice, and the relevance of performance in everyday aesthetics and life.

This course is taught in English.
Prerequisite: No prerequisites required.

Humanities.
1 credit.
Eligible for LALS

**LITR 059FG. Re-Envisioning Diasporas**
(Cross-listed as FMST 059)
This course is co-taught in an interdisciplinary collaboration with international, digitally facilitated segments. It addresses the historical, cultural, representational, and theoretical specificities of diasporas through examining how visual and literary productions deal with questions of race and ethnicity, gender and sexuality, nationality and globalization from a perpetual state of "elsewhere." How does this experience mark the conceptualization, aesthetics, and politics of the artistic process and textuality? What role do language, body memories, and visualization/projection play in the works we will discuss? How do virtual and real-life diasporic communities interact with their imagination and reception?

Students are encouraged to do work in their first and secondary languages. Commitment to cross-cultural dialogue and collaboration a must. Film Studies background helpful but not required.

Seminar-style class taught in English.

Humanities.
1 credit.
Eligible for BLST, FMST, FREN, GSST

**LITR 065CH. Peking Opera and Globalization**
(Cross-listed as CHIN 065)
By using cultural globalization as an explanatory framework built on the foundation of historical studies, this course enables students to conduct critical and interdisciplinary analysis of Peking opera, a living theatrical tradition commonly considered to be the "national theater" of China. The central question we ask is: How have the cultural dimensions of globalization-transnational flows of technology, media, and popular culture-intensified Peking opera’s connection to urban culture, archival digitalization, visual arts, politics of style, Chinese nationalist ideology and intercultural influences in America? Students not only engage with scholarly literature that cuts across different disciplines and genres (including theater anthropology, cultural history, cinema,
music, literature, and art history), but also are introduced to a rich body of sources, ranging from photographs to opera films and documentaries. They have the opportunity to learn some basics of singing and movement and conduct field trips to study with Peking opera troupes in the Chinese community in Philadelphia. Humanities. 1 credit. Spring 2020. Staff.

**LITR 070R. Translation Workshop**  
(Cross-listed as LING 070, RUSS 070)  
This workshop in literary translation concentrates on translation theory and practice, working in poetry, prose, and drama as well as editing. Students will participate in an associated series of bilingual readings and will produce a substantial portfolio of translations. Excellent knowledge of a language other than English (equivalent to a 004 course at Swarthmore or higher) is highly recommended or, failing that, access to at least one very patient speaker of a foreign language. Humanities. 1 credit. Eligible for INTP, RUSS Fall 2020. Forrester.

**LITR 071F. Beyond Tintin: Contemporary French Graphic novels**  
This course examines how contemporary graphic novels in French and their aesthetic innovations have helped translate and magnify serious and pressing questions that continue to shape political and social life in France and the world at large. Our readings will address themes ranging from the haunting colonial legacy and the wars in the Middle East to the quest for visibility by immigrants and LGBTQ individuals. Finally, we will analyze how visual adaptations—whether cinematic adaptations of graphic novels or graphic adaptations of movies and novels—reshape their original sources and adapt them to a new purpose. Taught in English. 0.5 credit attachment for students reading in French. Humanities. 1 credit. Eligible for INTP, GLBL-Core

**LITR 072F. The French Novel in Translation: Balzac, Flaubert, Proust**  
This course is designed to provide students with a broad knowledge of French literature, from before the Revolution to the present. Among the authors included on the syllabus are: Molière, Voltaire, Balzac, Baudelaire, Proust, Camus and Sartre. Students will read works in their entirety, discuss their significance in class, and listen to short lectures to situate the readings in a historical and cultural context. Taught in English; and there is a 0.5 credit French Attachment for students reading in French (FREN 072A).

**LITR 073F. Postwar France: French New Wave**  
(Cross-listed as FMST 052)  
This course is an in-depth exploration of the development and evolution of the French New Wave in postwar France. We will concentrate on the history of the New Wave in France from the 1950s through the late 1960s by the close study of the styles of individual filmmakers, the "film movement" as perceived by critics, and the New Wave’s contribution to modernizing France. The primary emphasis will be on the stylistic, socio-political, and cultural dimensions of the New Wave, and the filmmakers and critics most closely associated with the movement. Directors who were once all film critics for the magazine *Cahiers du Cinéma* will be studied along side other important filmmakers of the era. Taught in English. 0.5 credit attachment for students reading in French. Humanities. 1 credit. Eligible for FMST

**LITR 074F. A History of the Five Senses**  
This interdisciplinary course examines concepts of the sensory experience in a historical perspective. We ask if sight, touch, smell, hearing and taste are defined by cultural context. What are the implications of this contingency? Two crucial moments need attention: the Print Revolution and the Digital Revolution. What kind of new embodied beings are we becoming? Taught in English; and there is a 0.5 credit French Attachment for students reading in French (FREN 074A). Humanities. 1 credit. Eligible for INTP, GLBL-Core

**LITR 074J. Japanese Popular Culture and Contemporary Media**  
(Cross-listed as JPNS 074)  
Japanese popular culture products such as manga (comics), anime (animation), television, film, and popular music are an increasingly vital element of 21st-century global culture, attracting ardent fans around the world. In this course, we will critically examine the postwar development of Japanese popular culture, together with the proliferation of new media that have accelerated the global diffusion of popular cultural forms. Engaging with theoretical ideas and debates regarding popular culture and media, we will discuss the significance of fan cultures, including the "otaku" phenomenon in Japan and the United States, and consider how national identity and ethnicity impact the production and consumption of popular cultural products. We will also explore representations of
technology in creative works, and consider the global and the local aspects of technological innovations, including the internet, mobile phones, and other portable technology. Readings and discussion will be in English. The course will be conducted in a seminar format with student research and presentations comprising an important element of the class. Previous coursework in Japanese studies or media studies is recommended but not required.

Humanities.
1 credit.
Eligible for ASIA, FMST, JPNS

**LITR 075J. Japanese Modernism**
(Cross-listed as JPNS 075)
A lively and cosmopolitan modernist literature and art scene thrived in early 20th Century Japan, as cities such as Tokyo and Osaka grew rapidly, and writers and artists established connections with their counterparts across the globe. During the same decades, stylish "modern girls" and "modern boys" in Japanese cities were hailed in the press as avatars of newly liberated lifestyles and fashions, or derided by conservatives as the dupes of corrupt Western influences. This course will explore Japanese modernist literature, its global connections, and its social context, using a seminar format. Topics include: Japanese avant-garde literature, film, and art; gender, sexuality, and modernism; the politics and aesthetics of "modern" life and lifestyles; socialist and anarchist literature; "ero-guro-nonsense" as subversive literature; wartime censorship and propaganda; and Japanese influences on global modernisms. Readings and discussion will be in English; students with advanced Japanese reading ability are encouraged to read the texts in the original.

Humanities.
1 credit.
Eligible for ASIA

**LITR 077F. Reading While Crossing Three Continents**
(Cross-listed as FREN 077)
You are invited to a cross-cultural exploration of various populations of the Francophone world, through the study or different media and topics, relevant to contemporary societies in France, West Africa and Central America. Taught in English; and there is a 0.5 credit French Attachment for students reading in French (FREN 077A).

Humanities.
1 credit.
Eligible for BLST

**LITR 078F. Francophone Cinema**
Humanities.

**LITR 079F. Course in Translation: French Detective Fiction and Film**
(Cross-listed as FREN 079, FMST 053)
Detective fiction has a long history in the urban literary and cinematic imagination of France and other French-speaking countries. This course focuses on several points of convergence: the history of urban detectives in various Francophone contexts; theories of genre; and stylized representations of the city, its architecture and populations. Taught in English; and there is a 0.5 credit French Attachment for students reading in French (FREN 079A).

Humanities
1 credit.

**LITR 083J. War and Postwar in Japanese Culture**
(Cross-listed as JPNS 083)
What was the Japanese experience of the World War II and the Allied Occupation? We will examine literary works, films, and graphic materials (photographs, prints, advertisements, etc.), together with oral histories and historical studies, to seek a better understanding of the prevailing ideologies and intellectual struggles of wartime and postwar Japan as well as the experiences of individuals living through the cataclysmic events of midcentury. Issues to be investigated include Japanese nationalism and imperialism, women’s experiences of the war and home front; changing representations and ideologies of the body, war writing and censorship, the atomic bombings of Hiroshima and Nagasaki, Japanese responses to the occupation, and the war in postwar memory.

Humanities.
1 credit.

**LITR 086CG. Chinese Food Culture and Farming: Traditions and Transitions**
(Cross-listed as CHIN 086, ENVS 052)
While the challenging problem of feeding one fifth of the world’s population with only seven percent of the world’s arable land remains a priority in Chinese agricultural policy, extensive environmental degradation and innumerable food scandals have shifted the primary concern of food supply to issues of food safety, from quantity to quality. The class will focus on the challenges and successes of such a turn to a more ecologically friendly agricultural production and food processing industry. In addition, rapid changes in food preferences displace more traditional diets and redirect agricultural production, especially towards production of meat, bringing in foreign private equity firms like KKR and US food conglomerates like Tyson Foods. These changes also affect traditional regional food cultures. This interdisciplinary class (Environmental Studies, Economics, Sociology, Biology, humanities and Chinese Studies) will explore the following key topics: From food security to food safety - the ecological turn in China’s agriculture, Organic farming in China - challenges and successes of state and private organic farm initiatives, Ministry plans and China’s new farmers, Regional food...

LITR 091CH. Special Topics in English: Text and Image: Classical Chinese Painting and Poetry from Early Times to the Middle Period
(Cross-listed as CHIN 091)
Combining some of the greatest works of Chinese poetry with approaches and visual materials from the history of Chinese landscape painting, in this course we will examine the changing use of landscape as a medium to express different philosophical and social meanings by competing social groups across historical periods from early times to the 13th century. In the first half of this course, we will see how natural landscape in poetry became a medium for conveying a range of different ideals and problems: official service and reclusion in the countryside, Daoist liberation and Buddhist enlightenment, the sorrows of war on the frontier or travel into exile. In the second half of this course, we then apply our knowledge of Chinese poetry to interpreting a series of paintings from the Song dynasty (960-1279). This period is the golden age of Chinese landscape painting. It saw the emergence of literati-painters who, much like the great painters of the Renaissance, argued that painting possessed the same expressive power as poetry. We will explore the ways they employed painting to comment on an unprecedented range of issues, including government affairs, the role of women in society, the relation of private to public life, as well as the experience of dynastic collapse and war.
All primary texts will be read in the finest English translations available and we will make use of high-resolution on-line images. No Chinese language background is required.
Humanities.
1 credit.

LITR 096. Thesis
LITR 180. Honors Thesis

Arabic

The Arabic program at Swarthmore College offers a minor or special major, as well as an honors minor or honors special major. Arabic coursework can also be used toward the interdisciplinary program in Islamic Studies and programs in anthropology, comparative literature, history, linguistics, religion, sociology, peace and conflict studies, and other fields. Study of Arabic language through the third year and study abroad are particularly recommended for students who want to develop proficiency for research or fieldwork. Interested students are urged to begin studying the language early in their academic careers, to have time to develop a useful level of language proficiency and be prepared to study in an immersive program abroad.
First-, second-, and third-year Arabic are offered every year; first-year Arabic has no prerequisites and is open to everyone except native speakers. Native or heritage speakers of Arabic should consult with the Arabic faculty for placement. Courses in literature in translation, culture, and film, when available, are also open to all students. Students of Arabic language are urged to take these courses and others related to the Arab world in Islamic Studies, sociology and anthropology, history, political science, peace and conflict studies, and religion to gain perspective on classical and contemporary Arab culture.

The Academic Program
The Arabic Program offers a regular minor and an honors minor in Arabic Studies. Coursework in Arabic can also be part of a special major or a special honors major.
Arabic is a central component of Swarthmore’s Islamic Studies program, an interdisciplinary program that focuses on the diverse range of lived experiences and textual traditions of Muslims as they are articulated in various countries and regions throughout the world.
Arabic is also a valuable addition to programs in Humanities and the Social Sciences and can be part of the major in Linguistics and Languages, through the Linguistics Department.

Courses in Arabic Language, Literature, and Culture
As a Tri-College language program, Arabic is offered at the first- and second-year levels at Swarthmore, Bryn Mawr, and Haverford Colleges. Third-year Arabic language, other advanced language courses, and introductory courses in Arabic literature and culture are offered at Swarthmore. Other courses are available at the University of Pennsylvania and elsewhere in the Philadelphia area.

Minor in Arabic Studies
Students must complete a minimum of 5 credits in courses numbered 004 or above. Of the 5 minimum credits, at least 4 should be achieved in
courses taught in Arabic rather than in translation. Students may take one Arabic literature course (1 credit) in translation, or a relevant course from another department, with the approval of the section. Only one course may overlap with a major or a second minor. A minimum of 3 credits should be taken at Swarthmore. Students are strongly encouraged to study abroad in a section-approved program; two credits of pre-approved study abroad transfer credit may be counted toward the minor. Students who wish to do an honors minor in Arabic Studies are encouraged to discuss the requirements with the Arabic section head.

Special Major
Students may arrange to do a special major or an honors special major in Arabic Studies after consultation with Associate Professor Khaled Al-Masri and the department chair. Work abroad will be incorporated when appropriate.

Special Major in Linguistics and Languages
1. Complete three credits numbered above 003
2. Courses in translation will not count towards fulfillment of the three-credit requirement

Application Process for the Major
Applicants for a Special Major in Arabic Studies must consult with the Arabic section head and be approved by the relevant faculty members and the department of Modern Languages and Literatures.

International Baccalaureate Credit
Students presenting IB credit in Arabic language or literature should consult with the faculty in Arabic.

Transfer Credit
The Arabic faculty will assist students in estimating credit for study of Arabic language and related topics abroad. Transfer credit (from study abroad or from courses taken at other institutions in North America) will be evaluated after students return to campus. Students should consult with the faculty in Arabic to estimate credit before studying abroad.

Off-Campus Study
Study abroad is crucial to gaining proficiency in Arabic because it allows immersion and significant cultural exposure. Studying Arabic in an environment where it is widely spoken exposes the student to natural language use outside the classroom. Modern Standard Arabic is the official or co-official language of Algeria, Bahrain, Chad, Djibouti, Egypt, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, the West Bank and Gaza, Qatar, Somalia, Sudan, Syria, Tunisia, Mauritania, the United Arab Emirates, and Yemen. Large numbers of Arabic speakers also live in Iran, France, and Turkey. Students are urged to consult closely with the faculty in Arabic as well as the Off-Campus Study Office in planning study abroad.

Research and Service-Learning Opportunities

Academic Year Opportunities
Some study abroad programs can arrange internships or other kinds of special opportunities for students.

Summer Opportunities
Like other programs in the Humanities, Arabic welcomes student proposals for guided summer research and will advise students applying for a Humanities Research Fellowship at the College.

Life After Swarthmore
Career possibilities that utilize foreign language skills parallel the opportunities of liberal arts graduates in general, with a strong focus on international or multicultural aspects. Obvious career paths for Arabic Studies Special Majors are the professions in which foreign language is a primary skill, such as language teaching, academia, translation and interpretation, or working with non-governmental organizations (NGOs). But as communication, travel, and business endeavors have expanded in the global marketplace, now even relatively small organizations may need to communicate with partners, clients, or customers in other languages, in the U.S. as well as in other countries.

Arabic Courses

ARAB 001. Intensive Elementary Modern Standard Arabic
Students who start in the ARAB 001-002 sequence must complete 002 to receive credit for 001. The purpose of this course is to develop students’ proficiency and communication in modern standard Arabic in the four basic language skills: listening, speaking, reading (both oral and for comprehension), and writing. Cultural aspects are built into the course. These courses, as well as subsequent Arabic-language courses, help students to advance rapidly in the language and prepare them for more advanced work in literary Arabic, as well for employment, travel, or study abroad. By the end of this sequence, the majority of students are expected to reach a level of intermediate low, according to the ACTFL proficiency rating.

Humanities.
1.5 credits.
Fall 2019. Smith, Hanna.
Fall 2020. Smith, Hanna.
ARAB 002. Intensive Elementary Modern Standard Arabic
Students who start in the ARAB 001-002 sequence must complete 002 to receive credit for 001.
The purpose of this course is to develop students’ proficiency and communication in modern standard Arabic in the four basic language skills: listening, speaking, reading (both oral and for comprehension), and writing. Cultural aspects are built into the course. These courses, as well as subsequent Arabic-language courses, help students to advance rapidly in the language and prepare them for more advanced work in literary Arabic, as well for employment, travel, or study abroad. By the end of this sequence, the majority of students are expected to reach a level of intermediate low, according to the ACTFL proficiency rating.
Humanities.
1.5 credits.
Spring 2021. Smith, Hanna.

ARAB 003. Intermediate Modern Standard Arabic I
This course builds on skills in comprehension, listening, reading, writing, and speaking developed at earlier levels. Students will gain increased vocabulary and understanding of more complex grammatical structures. They will begin to approach prose, fiction, and non-fiction written in the language. Students will also increase their proficiency in the Arabic script and sound system, and widen their cultural and historic knowledge of the Arab World and the modern Middle East.
Humanities.
1.5 credits.
Fall 2020. Al-Masri, Hanna.

ARAB 004. Intermediate Modern Standard Arabic II
This course is a continuation of ARAB 003. Because the material covered in this course relies heavily on the previous course, students are expected to review and be familiar with the previous work in ARAB 001, ARAB 002 and ARAB 003.
Prerequisite: ARAB 003 or equivalent or permission of the department.
Humanities.
1.5 credits.
Eligible for ISLM
Spring 2021. Smith, Hanna.

ARAB 011. Advanced Arabic I
This course will: (1) conduct a quick review of the basic structures, grammar, and vocabulary learned in earlier courses, (2) introduce new vocabulary in a variety of contexts with strong cultural content, (3) drill students in the more advanced grammatical structures of MSA, and (4) train students to comprehend a variety of MSA authentic reading passages of various genres from Intermediate to Intermediate High on the ACTFL scale.
Prerequisite: Successful completion of ARAB 004 and permission of the instructor.
Humanities.
1 credit.
Eligible for ISLM
Fall 2019. Al-Masri
Fall 2020. Al-Masri.

ARAB 011A. Arabic Conversation
A conversation course concentrating on the development of intermediate skills in speaking and listening through the use of texts and multimedia materials in Modern Standard Arabic. The aim of this course is for the student to acquire well-rounded communication skills and socio-cultural competence. The selected materials seek to stimulate students’ curiosity with the goal of awakening a strong desire to express themselves in the language. Students are required to read chosen texts (including Internet materials) and prepare assignments for discussion in class. Moreover, students will write out skits or reports for oral presentation in Arabic before they present them in class. This class is conducted entirely in Arabic.
Prerequisite: ARAB 011 (may be taken concurrently) or the equivalent 0.5 credit.
Eligible for ISLM
Fall 2019. Hanna.
Fall 2020. Hanna.

ARAB 012. Advanced Arabic II
This course is a continuation of ARAB 011 and all previous course in the sequence. This course will begin with a quick review of advanced grammatical structures and vocabulary. Students will continue to encounter a wide range of authentic texts and audiovisual materials to enhance their competency in reading, writing, listening, and speaking, with a special emphasis on vocabulary building.
Prerequisite: Successful completion of ARAB 011 and permission of the instructor.
Humanities.
1 credit.
Eligible for ISLM

ARAB 012A. Advanced Arabic Conversation
A conversation course concentrating on the development of intermediate skills in speaking and listening through the use of texts and multimedia materials in Modern Standard Arabic. The aim of this course is for the student to acquire well-rounded communication skills and socio-cultural competence. The selected materials seek to stimulate students’ curiosity with the goal of awakening a strong desire to express themselves in
the language. Students are required to read chosen texts (including Internet materials) and prepare assignments for discussion in class. This class is conducted entirely in Arabic.
Prerequisite: ARAB 012 (may be taken concurrently) or the equivalent
0.5 credit.
Eligible for ISLM

ARAB 021. Topics in Modern Arab Literature
This course surveys the major writers, trends, themes, and experiences in Arabic literature from the 19th century to the present. Beginning with the nahda (the Arab renaissance), we will explore the impact of intellectual debates and developments on the emergence of modern Arabic literature. Through the study of a variety of different texts and authors, from a range of geographies and periods, we will investigate diverse literary and cultural narratives. Common themes, such as the negotiation of modernity and tradition, social and political transformation, and the changing role of women, will provide a structure for comparison. This course is taught in Arabic.
Humanities.
1 credit.
Eligible for ISLM, GLBL-Paired
Fall 2019. Al-Masri.
Fall 2020. Al-Masri.

ARAB 022. Discourses of Oppression in Contemporary Arabic Fiction
Designed to meet the needs of students who have completed ARAB 021: Introduction to Modern Arabic Literature, this course provides an in-depth look at major fictional representations of the institutionalized and non-institutionalized sites and structures of oppression explored by Arab writers. Subtle and overt forms of political oppression are investigated, as well as experiences of hegemony related to gender, sexuality, class, religion, and ethnicity. This course also examines the ways in which oppression is rethought, restructured, and challenged in Arabic fiction, leading to new understandings and possibilities in reality. This course is conducted entirely in Arabic.
Humanities.
1 credit.
Eligible for ISLM

ARAB 023. Identity and Culture in Arab Cinema
This course offers an in-depth study of the cultural politics and poetics of Arab Cinema. Students will analyze and critique films produced in the 20th and 21st centuries from a variety of different periods, styles, and genres. Through these films, the course will explore topics such as colonialism; ethnic, religious, and national identities; civil conflicts; oppression and censorship; gender and sexuality; poverty; and the rural and the urban. Students will read critical essays and book chapters on the screened films and related themes. This course is conducted entirely in Arabic. Advanced knowledge of Arabic is required to successfully complete this course.
Prerequisite: Three years of Arabic or the equivalent.
Humanities.
1 credit.
Eligible for ISLM

ARAB 093. Directed Reading
1 credit.

Courses Not Currently Being Offered
ARAB 025. War in Arab Literature and Cinema
ARAB 029. Arabs Write the West
ARAB 045. Contemporary Thought in the Arab World

Chinese
The Academic Program
Students may major or minor in Chinese in both the Course and Honors Programs. The Chinese major contains components of language, literature and culture. Study abroad is strongly encouraged and supported, and contributes directly to a major or minor in Chinese. Students of Chinese also may choose a special major in interdisciplinary Chinese studies (see below), or a major in Asian studies (see under Asian Studies), where Chinese language courses above the first-year level as well as Chinese literature and culture courses and credit for study abroad normally may be counted toward the major.
Students interested in majoring or minoring in Chinese should consult with the section head of Chinese as soon as possible.
First- through fourth-year Chinese language courses are offered each year, as is an introductory course on reading Classical Chinese. First-year Chinese and the Introduction to Classical Chinese have no prerequisites and are open to the entire student community. Literature, culture, and film courses in translation also are offered each year and are open to all students. Students of Chinese are particularly urged to take these classes as a means of gaining perspective on traditional and modern Chinese literature and culture over more than two millennia, from early times into the contemporary. Seminars welcome students not majoring or minoring in Chinese, with permission of the instructor.
Introductory and intermediate Chinese language courses are intensive and carry 1.5 credits per semester. Students should plan to take these courses as early as possible so that studying in China can be incorporated into their curriculum.
**Course Major in Chinese**

1. A minimum of nine credits in courses numbered 003 and above.
2. Mandatory completion of the following courses: 020, 021, 033 or equivalent; at least one course or seminar on modern Chinese literature/film in translation, and at least one course or seminar on pre-modern literature/culture in translation.
3. Study abroad in a program approved by the section is strongly recommended; transferred credits normally may be counted toward the major.
4. A minimum of six credits of work must be completed at Swarthmore.
5. A culminating exercise, honors seminar, or thesis.
6. Senior Colloquium.

**Honors Minor in Chinese**

It is possible to prepare for an honors minor in Chinese in either Chinese language or in Chinese literature in translation. Requirements for the honors minor in Chinese essentially are the same as those for the course minor. The honors preparation will consist of a 2-credit seminar, or a designated pair of courses (or a 1-credit attachment to a designated 1-credit course). Senior honors study is mandatory and normally is done in the spring semester of the senior year; work is arranged on an individual basis, and candidates will have the option of receiving 0.5 credit for completion of the work. The Honors examination normally will consist of one 3-hour written examination and a 30-minute oral examination.

Students of Chinese may also consider an honors minor in Asian studies (see under Asian Studies).

**Special Major in Interdisciplinary Chinese Studies**

1. A minimum of 10 credits in courses numbered 003 and higher.
2. Must complete the following courses: 012 or higher; at least three additional courses on language/literature/culture/film, at least one of these concerning the modern period and at least one concerning the pre-modern period.
3. Study abroad in a program approved by the section is strongly recommended; transferred credits normally may be counted toward the major.
4. A minimum of six credits of work must be completed at Swarthmore.
5. At least one and up to three credits can be earned from other departments on China-related subjects with the approval of the Chinese section.
6. A culminating exercise, honors seminar or thesis.
7. Senior Colloquium.

**Course Minor in Chinese**

1. A minimum of five credits of work in courses numbered 004 and above.
2. At least two credits in Chinese language courses numbered 004 and above.
3. At least two credits in classical or modern literature/culture/film.
4. A minimum of three credits of work must be completed at Swarthmore.
5. Study abroad in a program approved by the section is strongly recommended; transferred credits normally may be counted toward the minor.
6. Senior Colloquium.

**Honors Major in Chinese**

Requirements for the honors major in Chinese essentially are the same as those for the course major, excepting the culminating exercise. An honors major in Chinese will consist of examinations in Chinese language, literature and culture. Work done abroad may be incorporated, where appropriate. Honors preparations in Chinese consist of 2-credit seminar; designated pairs of courses (or 1-credit attachment to designated 1-credit course); or a 2-credit thesis. Senior honors study is mandatory and normally is done in the spring semester of the senior year. Work is arranged on an individual basis, and candidates may receive up to one credit for completion of the work. Honors examinations normally will consist of three 3-hour written examinations and a 30-minute oral for each examination.

Honors students of Chinese may also consider a special major in interdisciplinary Chinese studies that is coordinated by the section head of Chinese, or an honors major in Asian studies (see under Asian Studies).

**Honors Minor in Chinese**

It is possible to prepare for an honors minor in Chinese in either Chinese language or in Chinese literature in translation. Requirements for the honors minor in Chinese essentially are the same as those for the course minor. The honors preparation will consist of a 2-credit seminar, or a designated pair of courses (or a 1-credit attachment to a designated 1-credit course). Senior honors study is mandatory and normally is done in the spring semester of the senior year; work is arranged on an individual basis, and candidates will have the option of receiving 0.5 credit for completion of the work. The Honors examination normally will consist of one 3-hour written examination and a 30-minute oral examination.

Students of Chinese may also consider an honors minor in Asian studies (see under Asian Studies).

**Special Major in Interdisciplinary Chinese Studies**

1. A minimum of 10 credits in courses numbered 003 and higher.
2. Must complete the following courses: 012 or higher; at least three additional courses on language/literature/culture/film, at least one of these concerning the modern period and at least one concerning the pre-modern period.
3. Study abroad in a program approved by the section is strongly recommended; transferred credits normally may be counted toward the major.
4. A minimum of six credits of work must be completed at Swarthmore.
5. At least one and up to three credits can be earned from other departments on China-related subjects with the approval of the Chinese section.
6. A culminating exercise, honors seminar or thesis.
7. Senior Colloquium.

**Special Major in Linguistics and Languages**

1. Complete three credits numbered above 004
2. One of the three credits must be Chinese 033 (classical Chinese)

**Off-Campus Study**

Study abroad is particularly encouraged for students of Chinese; academic credit (full or partial) is generally approved for participation in several recommended programs of varying duration in the People’s Republic of China and in Taiwan. In the People’s Republic, these include, but are not limited to, the Inter-University Program (IUP) Program at Tsing-hua University, the Princeton in Beijing Program (PIB), the Associated Colleges in China (ACC) Program, the CET Program in Harbin, and the Middlebury program in Kunming. In Taiwan, these include the
International Chinese Language Program (ICLP) and the Mandarin Training Center in Taipei; and the Chinese Language Center, National Cheng Kung University in Tainan.

Chinese Courses

CHIN 001. Introduction to Mandarin Chinese
Students who start in the CHIN 001-002 sequence must complete 002 to receive credit for 001. An intensive introduction to spoken and written Mandarin Chinese, with emphasis on oral Chinese practice. Designed to impart an active command of basic grammar. Introduces 350 to 400 characters and develops the ability to read and write in simple modern Chinese.
Humanities.
1.5 credits.
Fall 2020. Staff. Staff.

CHIN 002. Introduction to Mandarin Chinese
Students who start in the CHIN 001-002 sequence must complete 002 to receive credit for 001. An intensive introduction to spoken and written Mandarin Chinese, with emphasis on oral Chinese practice. Designed to impart an active command of basic grammar. Introduces 350 to 400 characters and develops the ability to read and write in simple modern Chinese.
Humanities.
1.5 credits.
Spring 2020. Staff. Staff.
Spring 2021. Staff. Staff.

CHIN 003. Second-Year Mandarin Chinese
Designed for students who have mastered basic grammar and 350 to 400 characters. Combines intensive oral practice with writing and reading in the modern language. Emphasis is on rapid expansion of vocabulary, idiomatic expressions, and thorough understanding of grammatical patterns. Prepares students for advanced study at the College and in China.
Humanities.
1.5 credits.
Eligible for ASIA
Fall 2020. Staff. Staff.

CHIN 004. Second-Year Mandarin Chinese
Designed for students who have mastered basic grammar and 350 to 400 characters. Combines intensive oral practice with writing and reading in the modern language. Emphasis is on rapid expansion of vocabulary, idiomatic expressions, and thorough understanding of grammatical patterns. Prepares students for advanced study at the College and in China.
Humanities.
1.5 credits.
Eligible for ASIA
Spring 2020. Staff. Staff.
Spring 2021. Staff. Staff.

CHIN 005. Chinese for Advanced Beginners I
Designed for students of Chinese heritage who are able to communicate in Chinese on simple daily life topics and perhaps read Chinese with a limited vocabulary (about 100 characters). An intensive introduction to spoken and written Mandarin Chinese, with emphasis on the development of reading and writing ability. Prepares students for advanced studies at the College and in China.
Prerequisite: Permission of the instructor.
Humanities.
1 credit.
Eligible for ASIA
Fall 2020. Staff.

CHIN 006. Chinese for Advanced Beginners II
Designed for students of Chinese heritage who are able to communicate in Chinese with a command of basic grammar and a vocabulary (about 800 characters). An intensive introduction at the intermediate level to Mandarin Chinese, with emphasis on the development of reading and writing ability. Prepares students for advanced studies at the College and in China.
Prerequisite: CHIN 005 or CHIN 002 or equivalent language skills.
Humanities.
1 credit.
Spring 2020. Staff.
Spring 2021. Staff.

CHIN 007. Chinese/Japanese Calligraphy
(Cross-listed as JPNS 007)
Calligraphy is the art of beautiful handwriting. This course will introduce students to the importance of calligraphy in East Asian Culture. In addition to being a valuable cultural skill, calligraphy is also a process of self-cultivation and self-expression, which reflects the mind-set of the writer. Thus, students will have the opportunity to learn Chinese/Japanese characters not only as linguistic symbols but also as cultural emblems and as an art form. Course objectives include learning to appreciate the beauty of Chinese/Japanese calligraphy, experiencing calligraphy by writing with a brush and ink, and studying various philosophies of calligraphy. In addition to learning several different calligraphic scripts, students will be introduced to the origin, evolution, and aesthetic principles of the Chinese and Japanese writing systems, as well as calligraphy’s close connections with painting and poetry. Persistent hands-on practice will be required of all students; course work will include in-class practice, individual/group instruction, reading assignments, and take-home assignments. This class is open to all students and has no language requirement. Due to the course’s
CHIN 008. First-Year Seminar: Literary and Cinematic Presentation of Modern China (Cross-listed as LITR 008CH) Humanities. 1 credit.

CHIN 011. Third-Year Chinese
Concentrates on strengthening and further developing skills in reading, speaking, and writing modern Chinese, through a diversity of materials and media.
Classes are conducted in Chinese, with precise translation also a component.
Prerequisite: CHIN 004 or equivalent language skills.
Humanities. 1 credit.

Eligible for ASIA
Fall 2019. Xu.
Fall 2020. Staff.

CHIN 011A. Third-Year Chinese Conversation
This course meets once a week for 75 minutes and concentrates on the further development of skills in speaking and listening through multimedia materials (including selected movies and clips). Students are required to read chosen texts (including Internet materials and short stories) and prepare assignments for the purpose of generating discussion in class. Moreover, students will write out skits or reports for oral presentation in Chinese before they present them in class. The class is conducted entirely in Chinese.
Prerequisite: CHIN 011 and/or CHIN 011A or equivalent language skills.
0.5 credit.
Eligible for ASIA
Spring 2020. Staff.
Spring 2021. Staff.

CHIN 012. Advanced Chinese
A multimedia course concentrating on greatly expanding skills in understanding and using modern Chinese in a broad variety of cultural and literary contexts, through a diversity of authentic materials in various media, including the Internet.
Prerequisite: CHIN 011 or equivalent language skills.
Humanities. 1 credit.
Eligible for ASIA
Spring 2020. Staff.
Spring 2021. Staff.

CHIN 012A. Advanced Chinese Conversation
This 0.5-credit course meets once a week for 75 minutes and concentrates on the further development of skills in speaking and listening through multimedia materials (including movies and clips). Students are required to read chosen texts (including Internet materials and short stories) and prepare assignments for the purpose of generating discussion in class. Moreover, students will write out skits or reports for oral presentation in Chinese before they present them in class. The class is conducted entirely in Chinese.
Prerequisite: CHIN 011 and/or CHIN 011A or equivalent language skills.
0.5 credit.
Eligible for ASIA
Spring 2020. Staff.
Spring 2021. Staff.

CHIN 015. Intro to East Asian Humanities (Cross-listed as ASIA 015, LITR 015CH)
This course is a survey of East Asian literatures and cultural histories from antiquity to around 1800. The primary purpose is to provide students with a basic literacy in East Asian cultures and literatures with substantive emphasis on topics common across East Asia, such as the classical traditions and cosmology, the Chinese script, Buddhism, the civil service examination, folklore, theater, literature, and medicine. This course is a colloquium designed to meet the needs of students just beginning their study of China, Japan and Korea, who would like to explore the region broadly; and those who have already done substantial study of China or Japan and welcome the chance to situate it within the larger context of traditional East Asia. This course will provide students with information and approaches to analyze primary sources in translation through assigned postings and short writing assignments.
Humanities. 1 credit.

Eligible for ASIA
Fall 2019. Kong.
Fall 2020. Staff.

CHIN 020. Readings in Modern Chinese
This course aims to perfect the student’s Mandarin Chinese skills and at the same time to introduce a few major topics concerning Chinese literature and other types of writing since the May Fourth Movement. All readings, writing, and discussion are in Chinese.
Prerequisite: Three years of Chinese or the equivalent.
Humanities. 1 credit.
Eligible for ASIA
Fall 2019. Kong.
Fall 2020. Staff.
CHIN 020A. Chinese Business Conversation
Humanities.
.5 credit.
Eligible for ASIA
Fall 2019. Wen.

CHIN 021. Reading and Writing in Modern Chinese
Reading and examination of individual authors, selected themes, genres, and periods, for students with strong Chinese-language proficiency. All readings, writings, and discussions are in Chinese. Prerequisite: CHIN 020 or its equivalent.

Humanities.
Writing course.
1 credit.
Eligible for ASIA
Spring 2020. Staff.
Spring 2021. Staff.

CHIN 021A. Business Conversation in Chinese
This course is aimed to enhance students’ language skills in a business context and to promote their understanding about business environment and culture in contemporary China. The text is developed from real business cases from real multinational companies that have successfully embarked on the Chinese market. Class will be conducted in Chinese. In addition to the course textbook, students will learn to read business news in Chinese selected from various sources including Wall Street Journal. Prerequisite: CHIN 012

CHIN 022A
Equivalent language skills.
Humanities.
.5 credit.
Spring 2020. Staff.
Spring 2021. Staff.

CHIN 023. Modern Chinese Literature: A New Novelistic Discourse (1918-1948)
(Cross-listed as LITR 023CH)
Modern Chinese literary texts created between 1918 and 1948, presenting a series of political, social, cultural, and ideological dilemmas underlying 20th-century Chinese history. The class will discuss fundamental issues of modernity and new literary developments under the impact of the May Fourth Movement. All texts are in English translation, and the class is conducted in English. Humanities.
1 credit.
Eligible for ASIA
Spring 2020. Staff.

CHIN 024. History of Chinese Literature: Fiction and Drama
(Cross-listed as LITR 024CH)
This course surveys major narrative and genres, forms and works from the Yuan dynasty (1271-1368) through the early twentieth century with an emphasis on fiction and drama. Readings consist of both primary texts in English translation and secondary critical works. Issues to be emphasized include print history and format (including illustration), performance context, the relationship between oral and written, vernacular and classical storytelling, the invention of Chinese literary history as a discipline in the Republican period. Humanities.
1 credit.
Eligible for ASIA

CHIN 027. The Story in Dynastic China
(Cross-listed as LITR 027CH)
In this class we will read in translation and discuss a fair sampling of imperial China’s most renowned stories. In exploring the most celebrated and influential examples of narrative literature from early times into the Qing dynasty, we will look at these stories, some short, others quite elaborate, in terms of overt structure and content, as well as backgrounded literary and cultural material, and we will address their production and consumption in literati and popular contexts. We also will consider these writings in terms of the formulation of enduring cultural contours of character, allegory, and lyricism; individual and society; aesthetics and emotion; imagination and realism; heroism and valor. All readings will be in English, mostly translations of original texts, with some supplementary writings about traditional Chinese fiction.

Humanities.
1 credit.
Eligible for MDST, ASIA

CHIN 033. Introduction to Classical Chinese
(Cross-listed as LING 033)
This is an introductory course on reading one of the world’s great classical languages. Classical Chinese includes both the language of China’s classical literature as well as the literary language used for writing in China for well over 2 millennia until earlier this century. Complemented with readings in English about Chinese characters and classical Chinese, this course imparts the principal structures of the classical language through an analytical presentation of the rudiments of the language and close reading of original texts. It is not a lecture course and requires active, regular participation on the part of the student, with precise translation into English an integral component. The course is conducted in English. The course is open to all interested students and has no prerequisites; no previous preparation in Chinese is required.

Humanities.
1 credit.
Eligible for ASIA, MDST
Contrary to our stereotypes about the silent, invisible woman of premodern China, women actually wrote and published their work in unprecedented numbers from the late 16th century to the early 20th century. This course will explore the literary and historical significance of this output, which mainly took the form of poetry and prefaces to poetry collections, letters, some drama, and novels in verse, and which was produced primarily by gentry women (e.g. women from elite families), courtesans, and nuns. A central theme will be the place and problem of women’s poetry in a male-dominated literary tradition and society. Topics to be addressed include the social function of poetry and women’s literary networks, women’s relationship to the publishing market as writers, editors, and readers, the forces driving male interest in women’s writing at certain historical moments, and the changing ideas about what kinds of styles of past poets should be offered to boudoir poets as a repertoire of available choices to read and imitate.

Humanities.
1 credit.
Eligible for ASIA, GSST
Fall 2019. Xu.

CHIN 037. Text and Image: Classical Chinese Poetry and Painting
(Cross-listed as LITR 037CH)
Combining some of the greatest works of Chinese poetry with approaches and visual materials from the history of Chinese landscape painting, in this course we will examine the changing use of landscape as a medium to express different philosophical and social meanings by competing social groups across historical periods from early times to the 13th century. In the first half of this course, we will see how natural landscape in poetry became a medium for conveying a range different ideals and problems: official service and reclusion in the countryside, Daoist liberation and Buddhist enlightenment, the sorrows of war on the frontier or travel into exile. In the second half of this course, we then apply our knowledge of Chinese poetry to interpreting a series of paintings from the Song dynasty (960-1279). This period is the golden age of Chinese landscape painting. It saw the emergence of literati-painters who, much like the great painters of the Renaissance, argued that painting possessed the same expressive power as poetry. We will explore the ways they employed painting to comment on an unprecedented range of issues, including government affairs, the role of women in society, the relation of private to public life, as well as the experience of dynastic collapse and war.

Humanities.
1 credit.
Eligible for ASIA

CHIN 065. Peking Opera and Globalization
(Cross-listed as LITR 065CH)
By using cultural globalization as an explanatory framework built on the foundation of historical studies, this course enables students to conduct critical and interdisciplinary analysis of Peking opera, a living theatrical tradition commonly considered to be the "national theater" of China. The central question we ask is: How have the cultural dimensions of globalization-transnational flows of technology, media, and popular culture-intensified Peking opera’s connection to urban culture, archival digitalization, visual arts, politics of style, Chinese nationalist ideology and intercultural influences in America? Students not only engage with scholarly literature that cuts across different disciplines and genres (including theater anthropology, cultural history, cinema, music, literature, and art history), but also are introduced to a rich body of sources, ranging from photographs to opera films and documentaries. They have the opportunity to learn some basics of singing and movement and conduct field trips to study with Peking opera troupes in the Chinese community in Philadelphia. No previous knowledge of Chinese literature or culture is required. All texts are provided in English translation.

Humanities.
1 credit.
Eligible for ASIA

CHIN 086. Chinese Food Culture and Farming: Traditions and Transitions
(Cross-listed as LITR 086CG, ENVS 052)
While the challenging problem of feeding one fifth of the world’s population with only seven percent...
of the world’s arable land remains a priority in Chinese agricultural policy, extensive environmental degradation and innumerable food scandals have shifted the primary concern of food supply to issues of food safety, from quantity to quality. The class will focus on the challenges and successes of such a turn to a more ecologically friendly agricultural production and food processing industry. In addition, rapid changes in food preferences displace more traditional diets and redirect agricultural production, especially towards production of meat, bringing in foreign private equity firms like KKR and US food conglomerates like Tyson Foods. These changes also affect traditional regional food cultures. This interdisciplinary class (Environmental Studies, Economics, Sociology, Biology, humanities and Chinese Studies) will explore the following key topics:

• From food security to food safety - the ecological turn in China’s agriculture
• Organic farming in China - challenges and successes of state and private organic farm initiatives
• Ministry plans and China’s new farmers
• Regional food traditions
• The role of restaurants in Chinese culture

Recommended: some knowledge of Chinese culture or language
Prerequisite: The course has no prerequisite; some knowledge of Chinese culture or language is preferred but not required.

CHIN 086A. Attachment: Chinese Food Culture and Farming: Traditions and Transitions
Attachment course for students reading in Chinese enrolled in CHIN 086. Humanities
0.5 credit.

CHIN 087. Water Policies, Water Issues: China/Taiwan and the U.S.
(Cross-listed as POLS 087)
Access to fresh water is an acute issue for the 21st century, and yet civilizations have designed a wide range of inventive projects for accessing and controlling water supplies over the centuries. Fresh water resource allocation generates issues between upstream and downstream users, between a country and its neighbors, between urban and rural residents, and between states and regions. This course examines a range of fresh water issues, comparing China and the U.S. Topics include dams and large-scale water projects (e.g., rerouting rivers); water pollution; groundwater depletion; industrial water use (e.g., for hydrofracking); impact of agricultural practices; urban storm water management; wetlands conservation; desertification; desalination. What role do governments, transnational organizations, corporations, NGOs and grassroots citizens’ movements play in these water decisions? Guest lectures will emphasize science and engineering perspectives on water management. Chinese language ability desirable but not required. Humanities.
1 credit.

CHIN 087A. Attachment: Policies and Issues of Fresh Water Resources in China/Taiwan
This is an attachment to CHIN 087. Students who complete the course have the option of adding a 0.5 credit field work component. Field work will be conducted in China under the supervision of Professor Nackenoff and another faculty member, and will include specific Chinese language training in vocabulary used in the field of environmental studies. Humanities.
0.5 credit.

CHIN 088. Governance and Environmental Issues in China
(Cross-listed as POLS 088A)
This course examines China’s environmental challenges and the range of governmental policies and institutions that have an impact on those challenges. Topics include air pollution, food supply, energy consumption, urbanization, and environmental activism. Special attention will be given to the transformation of Beijing and other major cities, to China’s policy-making process, and the role of environmental NGOs and global institutions in shaping domestic policy outcomes. Literary works (Chinese novels and short stories) and feature films/documentary films reflecting environmental issues will be combined with readings from social science and environmental science to provide an interdisciplinary perspective. All required readings/screenings are in English or English translation/subtitled. Chinese language ability is preferred, but not required. Humanities.
1 credit.

CHIN 088A. Attachment: Governance and Environmental Issues in China
(Cross-listed as POLS 088A)
This is an attachment to CHIN 088. Students who complete the course have the option of adding a 0.5 credit field work component. Field work will be conducted in China under the supervision of Professors Kong and White, and will include specific Chinese language training in vocabulary used in the field of environmental studies. Humanities.
0.5 credit.
CHIN 089. Tea in China: Cultural and Environmental Perspectives.  
Tea is a longstanding and vital constituent of Chinese culture, and also has had a marked and pervasive presence in other parts of the world. This course will focus on "Tea in China" through three major aspects: the cultural, social, and historical; tea cultivation and the natural environment; and the economies of tea. Literary writings and films will be combined with other relevant readings and audio-visual materials for the class. Tea experts and professionals will offer guest lectures to enhance our understanding of tea from bio-ecological and botanical perspectives. As a component of this interdisciplinary cultural course, students will have the chance to participate in "sipping culture," and will taste major kinds of tea from Mainland China and Taiwan during the semester.  

All required readings/screenings are in English or English translation/subtitled. Chinese language ability will be an asset, but it is not required. Humanities.  
1 credit.  
Eligible for ENVS  

CHIN 089A. Attachment: Tea in China: Cultural and Environmental Perspectives  
This is an attachment to CHIN 089. Students who complete the course have the option of adding a 0.5 credit field work component. Field work will be conducted in China under the supervision of Professors Kong and Berkowitz, and will include specific Chinese language training in vocabulary used in the field of environmental studies. Humanities.  
0.5 credit.  

CHIN 090. Practicum in Bridging Swarthmore and Local Chinese Communities  
This is a service-learning course. Students are required to provide community service to our neighboring immigrant community-Philadelphia’s Chinatown-through an internship with a NPO in order to gain a deeper understanding of the Asian American diaspora and their social issues in the context of contemporary global migration. Besides the mandatory community-based service (a minimum of 3 hours per week, excluding transportation time), students will also read academic literature, keep an internship journal and write reflection papers to integrate their learning experience both inside and outside the classroom. The outcome project for this course is to build a digital archive to document the community, individual immigrants and residents, social activities and changes around Philadelphia’s Chinatown. The working language in the local NPO office is English, but knowledge of Mandarin or regional dialects is a plus for working with the Chinese American community.  
Graded CR/NC.  

CHIN 091. Special Topics in English: Text and Image: Classical Chinese Painting and Poetry From Early Times to the Middle Period  
(Cross-listed as LITR 091CH)  
Combining some of the greatest works of Chinese poetry with approaches and visual materials from the history of Chinese landscape painting, in this course we will examine the changing use of landscape as a medium to express different philosophical and social meanings by competing social groups across historical periods from early times to the 13th century. In the first half of this course, we will see how natural landscape in poetry became a medium for conveying a range of different ideals and problems: official service and reclusion in the countryside, Daoist liberation and Buddhist enlightenment, the sorrows of war on the frontier or travel into exile. In the second half of this course, we then apply our knowledge of Chinese poetry to interpreting a series of paintings from the Song dynasty (960-1279). This period is the golden age of Chinese landscape painting. It saw the emergence of literati-painters who, much like the great painters of the Renaissance, argued that painting possessed the same expressive power as poetry. We will explore the ways they employed painting to comment on an unprecedented range of issues, including government affairs, the role of women in society, the relation of private to public life, as well as the experience of dynastic collapse and war. All primary texts will be read in the finest English translations available and we will make use of high-resolution on-line images. No Chinese language background is required. Humanities.  
1 credit.  
Eligible for ASIA  

CHIN 092. Special Topics: Appreciation of Tang-Song Poetry in Chinese  
This course will lead students to learn how to read, comprehend, and analyze classical Chinese poetry from the Tang (618-907) and Song (960-1279) dynasties in its original language. Our goals will be to discuss and write about some of the landmark works of classical Chinese literature in modern Chinese and to become familiar with English language scholarship on major themes in middle-period literary history. We will explore two key genres of poetry (shi poetry and ci or song lyrics) and the major writers who have had an enduring impact on the Chinese cultural tradition. Students will learn how to read closely and intensively and how to analyze each work in terms of its formal conventions, its cultural and historical context, and its relation to other forms or to other
individual pieces. Regular assignments include short papers and presentations in modern Mandarin about classical Chinese poetry, translations of classical Chinese into English, and a final presentation/paper that synthesizes knowledge of a classical Chinese genre, poet, or theme with the English/Chinese language scholarship on that topic.

Prerequisite: Four years of Chinese or the equivalent.

Seminars

CHIN 103. Lu Xun and His Legacy in 20th-Century China
This seminar is focused on topics concerning modernity, political/social change, gender, and morality through close examination of intellectuals’ responses to the chaotic era reflected in their literature writings in 20th-century China. Literary forms, styles, and changing aesthetic principles are also included for discussion. Literary texts, chosen from Lu Xun to Gao Xingjian, will be analyzed in a social and historical context. All texts are in English translation, and the seminar is conducted in English.

Humanities.

2 credits.

Eligible for ASIA

CHIN 105. Chinese Theater Seminar
This seminar introduces history of Chinese theater from its emergence as a full-fledged art form in the 10th-11th centuries (the Northern Song) up through its incorporation into modern urban life and nationalist discourse in the first decades of the 20th century (the Republican period). In addition to reading selections from masterpieces of Chinese dramatic literature, we will pay particular attention to the different types of venues, occasions, and performance practices at different moments in time. A central theme will be the cultural meaning associated with acting. All texts to be read in English translation, but students with reading knowledge of Chinese are encouraged to read items in the original. (*At least one special workshop training students in traditional performing art will be arranged.)

Humanities.

2 credits.

CHIN 108. The Remaking of Cinematic China: Zhang Yimou, Wong Kar-wai, and Ang Lee
The seminar focuses on three leading filmmakers, Zhang Yimou, Wong Kar-wai, and Ang Lee, and their cinematic products, which have not only won international praises but also fundamentally reconstructed the national/regional cinemas and tremendously challenged the international film industry. Through Zhang’s magic lens, Wong’s avant-garde imagination, and Lee’s transnational vision, their bold cinematic reconfigurations have been speeding up the transformation of Chinese cinema, and at the same time China itself has been represented in a new light on the world stage. The seminar will explore their impact on the formation of the new wave of Chinese-language films after the mid-1980s and its recent new developments. More importantly, we will cultivate our critical thinking skills and research abilities; and train our eyes to able to read cinematic messages and decode cinematographic patterns.

All discussions will be conducted in English, and all films have English subtitles and readings are in English. Knowledge of China and basic film theory are preferred, but not required.

French and Francophone Studies

In French and Francophone Studies, you will learn French and acquire global competence in the Francophone world. You are introduced to modern France and a variety of French-speaking countries such as Algeria, Belgium, Haiti, and Senegal. You can develop an in-depth critical and comparative understanding of the textual, filmic, and cultural productions of each of these regions. Our courses also pay careful attention to the major historical, social, and political developments that have shaped France, and its former colonies, thus providing an opportunity to understand the forces underlying these various cultures, literatures, and films. You will also expand your knowledge of the diversity of French-speaking countries. In our program, you can explore interests as diverse as critical theory, film studies, gender studies, postcolonial studies, or the Islamic world, and work directly with primary sources in their original language.

The Academic Program

French and Francophone Studies is offered as a major or minor in the Course Program and as a major or minor in Honors. The prerequisite to take upper-level courses (numbered 20 and higher) for both course and honors students is FREN 014 or FREN 015, the equivalent, or evidence of special competence.

All French and Francophone Studies majors and minors, including students preparing a secondary school certificate, should complete a study abroad program in a French-speaking country. Majors and minors in the Course and Honors Programs are expected to be proficient in spoken and written French, and to do the larger part of their work in French, i.e., discussions and papers in courses and seminars and all oral and written examinations, including oral defense of the senior paper and Honors examinations.

Learning Goals

The French and Francophone Studies Program seamlessly articulates the acquisition of French linguistic skills with cultural and literary knowledge and sensitivity throughout our 4-year curriculum. We provide students with global competence in the Francophone world through an innovative curriculum that combines national and transnational Francophone literatures, cultures and histories, with an emphasis on modern and contemporary periods. Students build a cross-cultural understanding with the goal of participating in an increasingly interconnected world.

Starting with our French language courses (Fr 1 through 14), students are introduced to modern France and a variety of French-speaking countries such as Algeria, Belgium, Haiti and Senegal. In our advanced courses (Fr 40 and above), students develop an in-depth, critical and comparative understanding of the textual, filmic, and cultural productions of each of these regions. We aim to:

A. Make students proficient in the four fundamental language competencies (listening, reading, speaking and writing), as well as develop a fifth, cultural competency, through explorations of culture and society in France and the Francophone World. This is a substantial element in achieving global competence as described above.

Fr 1 through Fr 14: In the intensive French language sequence (Fr 1 through 14), students develop an advanced proficiency in the five competencies delineated above. For further details on the language sequence, how it relates to internationally recognized standards, and proficiency as it relates to study abroad, contact the French section head.

Fr 15 W and Fr 16: These written and aural/oral competencies are further refined. Students develop a sensibility to literary, filmic, cultural, and socio-political questions in modern French and Francophone societies. They learn to produce coherent, logical and persuasive arguments from a variety of texts and films, and learn to adopt different formats for that purpose (explication de texte, rédaction, research paper, and opEd).

Fr 40 and above: Students demonstrate an extensive and intentional grappling with the topic of the course. They are further introduced to comparative methodologies and scholarly criticism, and learn to consistently articulate their reflection in persuasive ways and support their opinions through evidence.

Seminars Fr 100 and above: Students master critical thinking and demonstrate in-depth knowledge of the course topic through student-led discussions and research papers.

Capstone Fr 91 W: Majors and minors demonstrate an appropriate knowledge of the mechanics of scholarly research (develop a valid research question and a rigorous and coherent argument, craft an abstract, investigate secondary sources, develop a bibliographical apparatus). The goal of this competency includes the writing in French of an original, independent research paper of 20/30 pages on a topic chosen in discussion with the senior colloquium professor.

B. Expand student’s knowledge of the diversity of French-speaking cultures by:

1. Developing an appreciation of literary value and filmic expression.
2. Developing an appreciation of how French and Francophone writers and artists continue a rich tradition, which has brought the world some of its most influential literary, philosophical, critical, and cinematographic works.

C. Sharpen knowledge and understanding of the major historical, social, and political developments that have shaped France and other Francophone countries, thus providing an opportunity to understand the forces underlying these various cultures, literatures, and films.

Course Major

Requirements
Complete eight advanced courses or seminars numbered 014 or above for a minimum of 8 credits. Note that AP and IB credits will not count toward the major. FREN 016 can only count once to fulfill the major’s requirement. French and Francophone Studies also offers courses in French literature in translation, but no more than one such course may count to satisfy the requirements in the major.

1. Off-campus study is required for all majors. Students who participate in preapproved programs may only count 3 credits toward their major. See the "Off-Campus Study" section for rules on transfer of credit.

2. Take Senior Colloquium (FREN 091) in the senior year. This includes the writing of an original, independent research paper of 30 pages on a topic chosen in discussion with the senior colloquium professor and advisor or one other professor in the program. The defense of the paper with the entire French and Francophone faculty takes place at the end of the spring semester.

To graduate with a major in French and Francophone Studies, students must have a grade average of C or better within the discipline, have studied in a French-speaking country, and have completed FREN 091 Senior Colloquium.

Acceptance Criteria
To be accepted as a course major, students must have taken French 014 or the equivalent, earning grades no less than a C.

Course Minor

Requirements
1. Complete 5 credits in courses or seminars numbered 014 or above. Three of these credits must be completed on the Swarthmore campus (See #2 below). Note that AP and IB credits will not count toward the minor. FREN 016 can only count once to fulfill the minor’s requirement. French and Francophone Studies also offers courses in French literature in translation, but no more than one such course may count to satisfy the requirements in the minor.

2. Minors are strongly encouraged to complete at least a six-week summer program of study in a French-speaking country. Students who participate in preapproved programs may only count two credits toward their minor. See the "off-campus study" section for rules on transfer of credit.

3. Complete Senior Colloquium (FREN 091) in the senior year, which includes the writing of an original, independent research paper of 20 pages on a topic chosen in discussion with the senior colloquium professor.

To graduate with a minor in French and Francophone studies, you must have a grade average of C or better within the discipline, studied in French-speaking country, and have completed FREN 091 Senior Colloquium.

Acceptance Criteria
To be accepted as a course minor, you must have taken French 014 or the equivalent, earning grades no less than a C.

Honors Major

Requirements
Majors in the Honors Program are expected to complete the requirements of majors in course, including taking Senior Colloquium (FREN 091) in the senior year.

1. Complete eight advanced courses or seminars numbered 014 or above for a minimum of 8 credits. Note that AP and IB credits will not count toward the honors major. FREN 016 can only count once to fulfill the Honors major’s requirement.

2. Off-campus study in a francophone country, for one semester is required for all honors majors. See the "off-campus study" section for rules on transfer of credit.

3. Complete one advanced course with a Francophone component.

4. Complete Senior Colloquium (FREN 091) in the senior year. This includes the writing of an original, independent research paper of 30 pages on a topic chosen in discussion with the senior colloquium professor and advisor or one other professor in the program. The defense of the paper with the entire French and Francophone faculty takes place at the end of the spring semester.

Complete at least one advanced course (above FREN 015) before taking a seminar.
Work on three preparations, two of which must be
done through seminars while the third may be a
seminar, a two-credit thesis, or an approved paired
course preparation.

French and Francophone Studies also offers
courses in French literature in translation but no
more than one such course may count to satisfy the
requirements in the honors major.

The Honors Exam for Majors and
Preparations
Majors in the Honors Program must do three
preparations (consisting of six units of credit). Two of the preparations should be done through
seminars chosen from the list below. The third
preparation may be a seminar, a two-credit thesis,
or an approved paired course preparation.

Mode of Examination:
A three-hour written examination, and a one-half
hour oral examination, both in French, will be
required for each preparation.

Acceptance Criteria
Candidates are expected to have a "B" average in
course work both in the department and at the
College, have taken FREN 014 or the equivalent,
and have demonstrated interest in and aptitude for
the study of literature or culture in the original
language.

Honors Minor
Requirements
Minors in the Honors Program are expected to
complete the requirements of minors in course,
including taking Senior Colloquium (FREN 091)
in the senior year.

1. Complete 5 credits in courses or seminars
   numbered 014 or above. Three of these
   credits must be completed on the
   Swarthmore campus. Note that AP and IB
credits will not count toward the Honors
   minor. FREN 016 can only count once to
   fulfill the Honors minor’s requirement.
   French and Francophone Studies also offers
courses in French literature in translation but no
more than one such course may count to satisfy the
requirements in the honors minor.

2. Complete at least a six-week program of
   study in a French-speaking country. It is
   strongly recommended that honors minors
   spend at least one semester abroad. See the
   "off-campus study" section for rules on
   transfer of credit.

3. Complete Senior Colloquium (FREN 091)
in the senior year, which includes the
   writing of an original, independent research
   paper of 20 pages on a topic chosen in
discussion with the senior colloquium
   professor.

4. Complete at least one advanced course
   (above FREN 015) before taking a seminar.

5. Work on one two-credit seminar
   preparation or an approved paired course
   preparation.

The Honors Exam for Minors and
Preparations
Minors must complete a single, two-credit seminar
preparation (consisting of two units of credit) or an
approved paired course preparation.

Mode of Examination
A three-hour written examination, and a one-half
hour oral examination, both in French, will be
required for the preparation.

Acceptance Criteria
Candidates are expected to have a "B" average in
course work both in the department and at the
College, have taken FREN 014 or the equivalent,
and have demonstrated interest in and aptitude for
the study of literature or culture in the original
language.

Special Major in Linguistics and
Languages
1. Complete three credits numbered 014 or
   above

2. Two of the three credits must be completed
   on the Swarthmore Campus. Note that AP
   and IB credits will not count toward the
   credit requirement and FREN 016 can only
   be counted once.

Thesis / Culminating Exercise
The culminating exercise in French and
Francophone studies consists of completing FREN
091 Senior Colloquium in which you will write an
independent research thesis of 20-30 pages and
defend it in front of a panel of faculty members.

Application Process Notes for the
Major or the Minor
1. To apply for a major or minor in French and
   Francophone Studies, speak with the chair
   or one of your professors in French and
   Francophone Studies to discuss your
   options and then follow the process
   described by the Dean’s and Registrar’s
   Offices for your Sophomore Plan.

2. If after applying you are deferred, you may
   apply again in the spring by addressing the
   reasons for your deferral.

Off-Campus Study
Study abroad programs are vital to the French and
Francophone program. Majors may count up to 3
credits toward their French major. Minors may
count 2 of these credits toward their French minor.
Any student who wishes to receive more than one
credit from study abroad must take a 1- or 2-credit advanced course in French and Francophone Studies numbered 40 or higher in the semester in which they return to campus. Students should contact a French faculty member to obtain the current list of preapproved programs. Students wishing to seek credit from other disciplines must consult the rules in the appropriate credit-granting department. There are also other options to study abroad available to students who have completed course work above the equivalent of fourth semester.

Any student attending a preapproved program in a non-francophone country, and planning to enroll in a French course there, may petition for one credit upon their return to campus. To earn this credit, students must take a one-credit French course in the semester immediately following their return to campus.

Preapproved Summer Programs
Any student may study in a preapproved summer program that is at least 6 weeks long and earn 1 credit in MLL (French). Only Minors in French and Francophone studies may have this credit count towards the completion of their course requirements.

Research and Service-Learning Opportunities
Both independent research and service-learning student-teaching are important ways to continue using your language and critical analysis skills.

Summer Opportunities
Students are encouraged to use the summer to travel to Francophone countries and explore research for their senior thesis papers. Please speak with French and Francophone studies faculty to find out about options for doing this summer work.

Teacher Certification
Students may choose to use French and Francophone studies as a specialization in a teacher certification program or for a special major in educational studies. Although students may develop their own course of study, they must complete FREN 015, or the equivalent, and study abroad for at least one semester in a French-speaking country.

Life After Swarthmore
Opportunities for a major/minor in French and Francophone studies after graduation are varied. Our curriculum provides students with valuable skills in cultural analysis, communication in another language, and the ability to understand and adapt to cross-cultural situations. Many majors and minors in French and Francophone studies continue their research with Fulbright awards, go to graduate school, law school, medical school, and follow diverse career paths in teaching, journalism, business, and NGOs. Recent French and Francophone alumni who are Fulbright recipients are continuing their studies in France, Africa, and the Middle East; those who have gone to graduate school are studying French, library science, comparative literature, ethnomusicology, history, educational policy, public policy, and public health. Many alumni are in the arts, education, journalism, medicine, law, business, and international affairs, among other fields.

French and Francophone Studies Courses
The following courses are taught in French. For courses on French and Francophone content taught in English, see the section on Modern Languages and Literatures: Literatures in Translation.

FREN 001. Intensive First Year French Language
Students who start in the FREN 001-002 sequence must complete FREN 002 to receive credit for FREN 001. This course sequence is intended for students who begin French in college. Designed to impart an active command of the language, this course is taught in French and combines the study of grammar with intensive oral practice, listening, writing, and reading. Introduction to literary and expository prose, films, and other authentic cultural media are used to enhance students’ language acquisition skills as well as to develop an understanding of the French-speaking world. FREN 001 is offered in the fall semester only. FREN 002 is offered in the spring semester only. Humanities.
1.5 credits.
Fall 2019. Rice-Maximin, Cherel, Courgey.
Fall 2020. Rice-Maximin, Staff.

FREN 002. Intensive First Year French Language
Students who start in the FREN 001-002 sequence must complete 002 to receive credit for 001. This course sequence is intended for students who begin French in college. Designed to impart an active command of the language, this course is taught in French and combines the study of grammar with intensive oral practice, listening, writing, and reading. Introduction to literary and expository prose, films, and other authentic cultural media are used to enhance students’ language acquisition skills as well as to develop an understanding of the French-speaking world. FREN 001 is offered in the fall semester only. FREN 002 is offered in the spring semester only. Humanities.
1.5 credits.
Spring 2021. Rice-Maximin, Staff.
FREN 003. Intensive Intermediate French
An intensive third semester course designed to build on the structures learned in elementary French. It is taught in French. It combines grammar with intensive oral practice, listening, writing, and reading toward the goal of proficiency. Literature, articles, film, music, and other authentic cultural media produced in French are used to hone language skills and improve communication as well as to provide contexts for understanding the French-speaking world. FREN 003 is offered in the fall semester only. Humanities.
1.5 credits.
Fall 2019. Cherel, Courgey.
Fall 2020. Staff.

FREN 013. L’Atelier: French Oral Production Workshop
"L’Atelier" is a mandatory recorded speaking practice workshop attachment to all elementary French-language courses (French 13.001, 13.002, 13.003) that takes place once every two weeks. Several 60-minute sessions - all held in Kohlberg’s Language & Media Center - will be offered to maximize student participation. It is designed with a dual purpose of reinforcing grammatical structures and thematic vocabulary being studied in the main course and with a view to long-term benefits in terms of enhanced fluency, pronunciation and intonation practice, phonetic accuracy, and general speaking skills. These include increased confidence and autonomy in spoken communication, both in the form of one-way speaking and two-way interaction since many activities simulate real-life dialogues. After being provided with a different online worksheet each time, students will record themselves when ready and submit their recordings electronically. Each student’s audio file will then be graded, and feedback will be provided for content, grammar, and phonetic review.
0 credit.
Fall 2019. Courgey.
Fall 2020. Staff.
Spring 2021. Staff.

FREN 014. Advanced French: Bravo! L’Étranger et Meursault, contre-enquête
This course gives students the opportunity to develop French language skills through explorations of culture and society in France and the Francophone World. Particular attention will be paid to oral communication, grammar review, and analytical skills in written French. FREN 003 or placement required. Humanities.
1 credit.
Fall 2019. Yervasi.
Fall 2020. Staff.
Spring 2021. Staff.

FREN 015. Advanced French II: La France et le monde francophone contemporain (W course)
This course gives students the opportunity to further develop French language skills through the study of articles, essays, and images. Engage in reading, discussing, and writing about cultural and visual texts selected from ads, newspapers, literature, television shows, comic strips, videos, and film from France and the Francophone World. Controverses (textbook) will be used for learning in-depth the art of writing in French. Particular attention will be paid to oral and written communication and cultural analysis. FREN 014 or placement required. Humanities.
Writing Course.
1 credit.
Eligible for GLBL-Paired
Fall 2019. Gueydan-Turek.
Fall 2020. Gueydan-Turek.

FREN 016. French Conversation: Special Topics
A 0.5-credit conversation course concentrating on the development of the students’ ability to speak French. May be repeated once for credit with a different instructor, but can only count once to fulfill major/minor credit requirement. Prerequisite: For students previously enrolled in FREN 014 or above.
0.5 credit.
Fall 2019. Gueydan-Turek.
Fall 2020. Staff.
Spring 2021. Staff.

FREN 017A. First-Year Seminar: Literature and Medicine
(Cross-listed as LITR 017FA) Portrayals of doctors provide a great opportunity to discover some classic works of French Literature, including Molière’s The Imaginary Invalid, Flaubert’s Madame Bovary, Proust’s Swann’s Way, and Albert Camus’ The Plague. Other authors studied are Montaigne and Diderot. Students focus their discussions on the relationship with patients when these are seen as both human beings and objects of science. Another topic of interest is how literature can be viewed as therapeutic. Throughout the seminar, we try to understand what had made these works original in their times and a source of admiration up to our days. Texts and discussions in English. Humanities.
1 credit.
Eligible for INTP.
FREN 017B. First Year Seminar: Forms of Exile in the Francophone World
(Cross-listed as LITR 017FB)
Exile can be a multi faceted transnational, cultural, political, social journey, which often affect the vision of the here and there of individuals and populations seeking a better life, some type of asylum, a change of landscape, etc. Through readings of (poems, prose, plays, songs, etc.) French writers and artists from the Hexagon and beyond, we will examine issues such as freedom, resistance, social identity, dreams, hopes, differences, transfer of roles, displacement, abandonment, borders, memory, creation, etc., as expressed by Apollinaire, Baudelaire, DuBellay, Césaire, Hugo, Kacimi, Lahens, Levi-Strauss, Ollivier, Saint-John-Perse, Schwarz-Bart, Tadjo, Verlaine, among others.

Humanities.
1 credit.
Eligible for BLST

FREN 017C. First Year Seminar: North African Postcolonial Literature
(Cross-listed as LITR 017FC)
Humanities.
1 credit.
Eligible for ISLM

FREN 017D. First Year Seminar: Justice and Redemption in the Cinema
(Cross-listed as LITR 017FD)
Humanities.
1 credit.
Eligible for BLST

(Cross-listed as LITR 018FJ, JPNS 018)
This course provides an introduction to the study of three of the most important contemporary graphic literary forms - manga, bandes dessinées, and the graphic novel - and the national and transnational traditions with which they have become associated. Through a careful study of major artists and key works from Japan and the Francophone world, we explore the particular histories, aesthetic evolutions, and social impact of these sequential art forms, both in their specific places of origin and across the globe. We consider how these graphic fictions have managed to mirror and refract major issues of historical trauma, technology and violence, as well as how they question representations of gender, class, race and ethnicity, even as they wield a form of "soft power." The transnational impact that some works have played will also be explored through a comparative analysis of local and global dissemination, transnational fan communities, non-Japanese-language manga, and transindustrial exchanges. Texts and discussions in English.

Students with knowledge of French and/or Japanese may read the works in the original. There is a 0.5 credit French Attachment for students reading in French (FREN 018A).

Humanities
1 credit.

FREN 018A. Attachment: Manga, Bande Dessinée, and the Graphic Novel: A Transnational Study of Graphic Fictions
(Cross-listed as FREN 018 and LITR 018FJ)
This course provides an introduction to the study of three of the most important contemporary graphic literary forms - manga, bandes dessinées, and the graphic novel - and the national and transnational traditions with which they have become associated. Through a careful study of major artists and key works from Japan and the Francophone world, we explore the particular histories, aesthetic evolutions, and social impact of these sequential art forms, both in their specific places of origin and across the globe. We consider how these graphic fictions have managed to mirror and refract major issues of historical trauma, technology and violence, as well as how they question representations of gender, class, race and ethnicity, even as they wield a form of "soft power." The transnational impact that some works have played will also be explored through a comparative analysis of local and global dissemination, transnational fan communities, non-Japanese-language manga, and transindustrial exchanges. Texts and discussions in English.

Students with knowledge of French and/or Japanese may read the works in the original. There is a 0.5 credit French Attachment for students reading in French.

Humanities.
0.5 credit.

FREN 044. Tyrans et Révolutionnaires
Humanities.
Eligible for INTP

FREN 045A. Le Monde Francophone: Paroles de femmes
As a physical and imaginary space, the city is a privileged stage for political and social upheaval. Within cities, cultural and racial divisions are constantly questioned and remade; the local is unavoidably confronted with the global. Francophone cities, in particular, mediate past and on-going conflicts between France and its ex-colonies, and manifest the tensions between local/global cultures and the French colonial legacy. This interdisciplinary course examines the complexity of the Francophone experience in Francophone metropolises as portrayed in literature, films, artwork and journalistic articles. Themes examined will include: the aesthetics of the city, the city vs. the nation, racial relations in the urban space, the global village, pop culture and slang in the city.
This course has a Francophone component.
FREN 045B. Le Monde Francophone: La France et le Maghreb
This course examines the relationship between France and the Maghreb, two cultural spaces that are simultaneously united and divided by their common violent colonial history. Through the study of novels, films, art work and theoretical texts, we will trace the evolution of this conflicted relationship from the 1950’s to present times. We will focus, in particular, on the following topics: (post) colonialism and nationalism, diglossia and Francophonie, gendered representation, immigration and exile, transculturation and globalization.
Humanities.
1 credit.
Eligible for ISLM

FREN 045C. Etonnante Haïti: littérature et cultures.
Studying the literary and cultural traditions of Haiti is the point of departure to examine the historical place of the first independent black Republic and its successful slave revolt, with particular attention to its impact on the French Antilles and the world. Parallel readings of works by CLR James, Césaire, Fanon, Glissant among others. Has a Francophone component.
Humanities.
1 credit.
Eligible for BLST, FMST

FREN 045D. Le Monde Francophone: Cinémas africains
This course is an introduction to the filmmakers and history of Francophone West African cinemas, including film, video, and new media. Students will study the history and culture of this region, be introduced to key film concepts, and develop their ability to do in-depth film analysis. Students must attend weekly screenings. Humanities.
1 credit.
Eligible for BLST, FMST, GLBL-paired

FREN 054. Jeunesse et Résistance
This course explores the way youth cultures are represented in French and Francophone cinema and literature and the dynamic relationship that these youth have to the forces they resist. In this class, you will work on developing ways to speak and write critically about youth cultures across the Francophonie.
Humanities.
1 credit.

FREN 055. Le Roman français
One often forgets that the period following the great revolution of 1789 was marked by many other uprisings. The goal of this course is to understand literary movements in the contexts of historical upheaval from 1789 to the Commune of Paris in 1871. Works from Balzac, Flaubert, Zola, Proust.
Humanities.
1 credit.
Fall 2019. Staff.

FREN 071A. Attachment: Beyond Tintin; Contemporary French Graphic novels
Attachment course for students reading in French enrolled in LITR 071F
0.5 credit.

FREN 074. A History of the Five Senses
(Cross-listed as LITR 074F)
This interdisciplinary course examines concepts of the sensory experience in a historical perspective. We ask if sight, touch, smell, hearing and taste are defined by cultural context. What are the implications of this contingency? Two crucial moments need attention: the Print Revolution and the Digital Revolution. What kind of new embodied beings are we becoming? There is a 0.5 credit French Attachment for students reading in French (FREN 074A).
Humanities.
1 credit.
Eligible for INTP

FREN 074A. Attachment: A History of the Five Senses
This interdisciplinary course examines concepts of the sensory experience in a historical perspective. We ask if sight, touch, smell, hearing and taste are defined by cultural context. What are the implications of this contingency? Two crucial moments need attention: the Print Revolution and the Digital Revolution. What kind of new embodied beings are we becoming? This is a 0.5 credit French Attachment for students reading in French who are taking LITR 074F.
0.5 credit.
Eligible for INTP

FREN 077. Reading While Crossing Three Continents
(Cross-listed as LITR 077F)
You are invited to a cross-cultural exploration of various populations of the Francophone world, through the study or different media and topics, relevant to contemporary societies in France, West Africa and Central America. Taught in English; and there is a 0.5 credit French Attachment for students reading in French (FREN 077A).
Humanities.
1 credit.
Eligible for BLST
FREN 077A. Attachment: Reading While Crossing Three Continents
(Cross-listed as FREN 077 and LITR 077F)
You are invited to a cross-cultural exploration of various populations of the Francophone world, through the study of different media and topics, relevant to contemporary societies in France, West Africa and Central America.
0.5 credit.
Eligible for BLST

FREN 079. Course in Translation: French Detective Fiction and Film
(Cross-listed as LITR 079F, FMST 053)
Detective fiction has a long history in the urban literary and cinematic imagination of France and other French-speaking countries. This course focuses on several points of convergence: the history of urban detectives in various Francophone contexts; theories of genre; and stylized representations of the city, its architecture and populations. There is a 0.5 credit French Attachment for students reading in French (FREN 079A).
Humanities.
1 credit.

FREN 079A. Attachment: Course in Translation: French Detective Fiction and Film
Detective fiction has a long history in the urban literary and cinematic imagination of France and other French-speaking countries. This course focuses on several points of convergence: the history of urban detectives in various Francophone contexts; theories of genre; and stylized representations of the city, its architecture and populations.
0.5 credit.

FREN 091. Senior Capstone (W course)
This course will be dedicated to discussions of the various topics chosen by majors and minors for their senior thesis. Although this course is required of French/Francophone majors and minors, it is open to other advanced students.
Humanities.
Writing course.
1 credit.
Spring 2021. Staff.

FREN 093. Directed Reading

FREN 096. Thesis

Seminars
FREN 106. La Modernité
In this course, we will examine poetry of modernity and the city. We will examine how the city’s complexities--its development, cultures, revolutions, and inhabitants--contribute to a poetic vision that is reflected in the texts of 19th- and 20th-century major and minor writers of the French-speaking world. Poets include Baudelaire, Rimbaud, Apollinaire, and the Surrealists, among others.
This course can be taken for 1 credit.
Humanities.
2 credits.

FREN 111. Désir (post)colonial
This course addresses how the colonial encounter has shaped modern perceptions of race, ethnicity, gender, and sexuality through the production, circulation and consumption of deformed images of its colonial subjects. From noble savages and whimpering slaves to hideous monsters and seductive harem girls, we will examine the dynamics of representation embedded in colonial narratives and visual constructions of the “Other,” focusing on conceptualizations of power as they relate to race, sexual politics and the gendering of the colonial subject. Primary texts include literature of the slave trade, orientalist fictions and photographs, colonial films, museum exhibitions and world’s fairs, and contemporary works of fiction that deal with the legacy and sometimes continue the colonial desire.
Has a Francophone component. May be taken for 1 credit with permission from the instructor.
Humanities.
2 credits.
Eligible for BLST, ISLM, GSST
Fall 2019. Gueydan-Turek.

FREN 116. La Pensée géographique
Cartography, psychogeography, rhizomes, and so much more! How and why do philosophical and critical thinkers rely on spatial and geographical metaphors to work through some of their more complex ideas? How might some of these metaphors become models for understanding and analyzing texts? In this course, we will explore some of the central ideas behind this spatial turn in theory and criticism in conjunction with the study of French and Francophone texts: from medieval explorers and maps of early France and French empire to Situationism, poststructuralism, and postcolonialism.
May be taken for 1 credit with permission of the instructor.
Humanities.
2 credits.
Eligible for INTP
Fall 2020. Yervasi.

FREN 180. Honors Thesis

FREN 199. Senior Honors Study

French Courses and Seminars Not Currently Offered
FREN 040. Panorama de la Littérature française
This course is designed to provide students with a broad knowledge of French literature, from the Renaissance to the present. Among the authors included on the syllabus are: Corneille, Graffigny, Balzac, Proust and Genet. Students will read works in their entirety, discuss their significance in class, and listen to short lectures to situate the readings in a historical and cultural context.
Humanities.
1 credit.

FREN 041. Guerre et paix dans la littérature française
Through a study of the representations of war and peace in French literature from the 19th and 20th centuries, this course examines the evolving attitudes that intellectuals have held towards pacifist ideologies and violent conflicts, as well as the ethical and aesthetic influences that mass violence has had on their writings. The class will approach this topic from a variety of critical perspectives, including (1) studies of the emotional consequences of trauma, mourning, and shame, (2) a study of the interconnection of societal constructions of gender with representations of conflict and peace, and (3) a discussion of the rise of intellectuals in the face of injustice. Works covered will include testimonies, memoirs, fictional literature and popular culture, bringing together authors such as Balzac, Zola, Camus, Sartre, Duras, and Tardi. Course led in French.
Humanities.
1 credit.

FREN 043. Ecrire le Moi/Writing the Self
Reading the texts by authors of various parts of the Francophone world who, through their confessions, memoirs, autobiographies, autofictions, journals, etc., narrate different moments of their life. We will explore the role of history, social class, language, education, race, colonial past, in the construction of their subjectivity and identity, and will also read their texts as keys to the understanding of the cultures and societies they inhabit. Parallel reading of studies on the various forms of the autobiographical genre will inform us on the writings of authors such as Rousseau, Sartre, Ferraraoun, Bouraoui, Nothomb, Genet, Lefevre, Zoble, Condé, Pineau, Maximin, Lahens, Sarraute, Duras. In French.
Humanities.
1 credit.

FREN 046. Poésies d’écritures françaises
Has a Francophone component.

FREN 056. Ces femmes qui écrivent/Reading French Women
Humanities.
Eligible for GSST

FREN 057. Bande dessinée, nouvelle Manga et romans graphiques
The bande dessinée, the Francophone analog to comics, has evolved alongside contemporary youth culture to become a locus for expressions of sociocultural and aesthetic changes, as well as antiestablishment discourses. In the context of issues such as social class, cultural diversity, and femininity/masculinity, this course will connect canonical comics (such as Asterix and Tintin) with more current cutting-edge forms including la nouvelle Manga and graphic novels from Rwanda, Algeria, Lebanon and Iran.
Humanities.
1 credit.
Eligible for FMST, GSST

FREN 058. The Representation of Alterity in French Literature and Cinema
Has a Francophone component.
Humanities.

FREN 072. The French Novel in Translation: Balzac, Flaubert, Proust
(Cross-listed as LITR 072F)
This course is designed to provide students with a broad knowledge of French literature, from before the Revolution to the present. Among the authors included on the syllabus are: Molière, Voltaire, Balzac, Baudelaire, Proust, Camus and Sartre. Students will read works in their entirety, discuss their significance in class, and listen to short lectures to situate the readings in a historical and cultural context. There is a 0.5 credit French Attachment for students reading in French (FREN 072A).
Humanities.
1 credit.

FREN 072A. Attachment: The French Novel in Translation: Balzac, Flaubert, Proust
This course is designed to provide students with a broad knowledge of French literature, from before the Revolution to the present. Among the authors included on the syllabus are: Molière, Voltaire, Balzac, Baudelaire, Proust, Camus and Sartre. Students will read works in their entirety, discuss their significance in class, and listen to short lectures to situate the readings in a historical and cultural context. 0.5 credit.

FREN 073A. Attachment: Postwar France: French New Wave
Attachment course for students reading in French enrolled in LITR 073F.
0.5 credit.
FREN 104. Le Roman du XIXe siècle
Humanities.

FREN 108. Littérature et cinéma moderne et contemporain: La question de représentation
Humanities.

FREN 109. Queering North African Subjectivities
This seminar will explore the ways in which literary, visual and cultural representations of sexual difference and gender roles disrupt the cultural imagination of everyday life in North Africa and its Diasporas in France. Special attention will be given to representations of Arab women and queer subjectivities as sites of resistance against dominant masculinity. We will analyze the ways in which representations of gender have allowed for a redeployment of power, a reconfiguration of politics of resistance, and the redrawing of longstanding images of Islam in France. Finally, we will question how creations in French that straddle competing cultural traditions, memories, and material conditions can queer citizenship.
Humanities.
2 credits.
Eligible for ISLM, GSST

FREN 110. Histoires d’îles
Has a Francophone component.
Humanities.

FREN 112. Le Monde comique de Molière
This seminar is designed to acquaint students with the major works of Molière and 17th-century culture. We will investigate: Molière’s political relationship with Louis XIV at Versailles, the discourse of early modern feminism of the précieuses and the femmes savantes; the critique of religious hypocrisy, and the influence of early modern notions of anthropology, notably medicine, on Molière’s notions of selfhood. These aspects will be brought forward through close attention to the poetics of comedy and the art of the comedian.
Humanities.
2 credits.

FREN 113. Re-Contons l’histoire: Post-colonialité et fiction d’écritures françaises
In this seminar, we will examine Caribbean, French and African narratives whose authors re-write/right the histories and History of their societies. By telling and re-telling the many revolts, the resistance (too often obscured by the colonial power) and the importance of some cultural practices, they shed light on the present-day postcolonial situation. Included are fictional texts by A. and I. Césaire, E. Glissant, O. de Gouges, M. Condé, S. Schwartz-Bart, E. Trouillot, D. Maximin, M. Kacimi, V. Tadjio, as well as theoretical texts by C.L.R. James, Fanon, Memmi, Glissant, Césaire, and others.
Humanities.
1 credit.

LITR 072F. The French Novel in Translation: Balzac, Flaubert, Proust
This course is designed to provide students with a broad knowledge of French literature, from before the Revolution to the present. Among the authors included on the syllabus are: Molière, Voltaire, Balzac, Baudelaire, Proust, Camus and Sartre. Students will read works in their entirety, discuss their significance in class, and listen to short lectures to situate the readings in a historical and cultural context. Taught in English; and there is a 0.5 credit French Attachment for students reading in French (FREN 072A).
Humanities.
1 credit.
Eligible for FREN

LITR 078F. Francophone Cinema
Humanities.

German Studies
The German Studies Program offers students a wide variety of courses in language, literature, film and culture taught in German, as well as classes in anthropology and sociology, art, history, music, philosophy, and political science. Stressing the interrelatedness of linguistic competency and broad cultural literacy, German studies classes cover a wide range of literary periods, intellectual history, and film and visual culture. The diverse approaches to German culture(s) prepare students for graduate work in several academic disciplines, as well as for a variety of international careers. German studies can be pursued as course major or minor or as a major and minor in the Honors Program.

Students are expected to be sufficiently proficient in the German language to use it for written and oral work. To this end, we strongly advise students to spend an academic semester-preferably spring semester-in a German-speaking country before their senior year.

Students wishing to major or minor or do honors in German Studies should plan their program in consultation with the program coordinator.

The Academic Program
Not all advanced courses or seminars are offered every year. Students wishing to major or minor in German studies should plan their program in consultation with the program coordinator. All German courses numbered 50 and above are open to students after GMST 008 or 020. Seminars in German are taught in fall semesters only and are open to students with advanced skills in reading and writing German. For seminar enrollment in our affiliated departments, please consult the guidelines and German studies advisor of those
departments (art, history, music, philosophy, political science, religion, sociology and anthropology).

**Course Majors Requirements**

Majors must complete a minimum of 8 credits in courses numbered 003 and above.

- Majors in course are required to take Topics I and II in German Studies (GMST 020, GMST 091) in progression and, for Topics III, enroll in a class above 100. Up to 3 credits may be taken in English from among the courses #50s and #60s relevant to German studies listed in the catalog under literature in translation (e.g., LITR 054G or LITR 066G) or from courses listed as eligible for German studies (see list below).
- Comprehensive requirement: seniors in course are required to submit a bibliography of 20 works to form the basis of a discussion and an extended, integrative paper (approximately 15 double-spaced pages in length) on a topic agreed to by the program coordinator. This paper, due by May 1, is complemented by a discussion of the paper with members of the program, in German, in mid May.
- Students are strongly encouraged to spend a semester in Germany or at least participate in a summer program in a German-speaking country. Of the classes taken abroad, a maximum of 2 credits will normally count toward the major. In cases of double majors, this number can be increased in consultation with the German Studies coordinator. After studying abroad, majors must take at least one additional German studies class.

**Typical Course of Study:**

*denotes options at either end:

- GMST 003 (Fall Year 1 or 2)
- GMST 008 (Spring Year 1 or 2)
- GMST 020 Topics in German Studies I (Fall Year 2 or 3)
- GMST cross-listed course #40s-60s (in English) (Fall Year 2 or 3)
- GMST 091 Topics in German Studies II (Spring Year 3 or 4)
- GMST cross-listed course #40s-60s (in English) (Spring Year 3 or 4)
- GMST 108 Topics in German Studies III* (Fall Year 4)

**Course Minors Requirements**

- Students must complete a minimum of 5 credits in courses and seminars, at least 3 of which are taught in German and number GMST 003 or above. Of these courses, Topics in German Studies I GMST 020 and IGMST 091 are required.
- Up to two credits can come from courses eligible for German studies, usually numbered in the #40s-60s.
- Students are strongly encouraged to spend a semester in Germany or at least participate in a summer program in a German-speaking country. Of the classes taken abroad, a maximum of 2 credits will normally count toward the minor. In case of double majors, this number can be increased in consultation with the German Studies coordinator.

**Typical Course of Study:**

*denotes options at either end

- FYS First Year Seminar*
- GMST 003 (Fall Year 1 or 2)
- GMST 008 (Spring Year 1 or 2)
- GMST 020 Topics in German Studies I (Fall Year 1 or 2)
- GMST cross-listed course #50-60 (in English) (Year 1 or 2)
- GMST 091 Topics in German Studies II (Spring Year 2 or 3)
- GMST cross-listed course #50-60 (in English)* (Year 2 or 3)
- GMST 108 Topics in German Studies III* (Fall Year 4)

**Honors Major and Minor in German Studies**

Majors and minors in the Honors Program are expected to fulfill the minimum requirements for course majors above and be sufficiently proficient in spoken and written German to complete all their work in the language. All majors and minors in honors are strongly advised to spend at least one semester of study in a German-speaking country. Candidates are expected to have a B average in coursework both in the department and at the College.

**Preparations**

**Honors Major Preparations**

While requirements for Honors Majors are generally identical to the course major requirements (minimum of 8 credits above GMST 003), a set of special requirements applies to Honors:

- All honors majors must include GMST 020, GMST 091: Topics in German Studies II and III in their course of study.
- In coordination with the German Studies coordinator, Honors majors in German
studies need to combine three upper level GMST courses (e.g. Special Topics in German Studies I, II and III) and three taught in English from affiliated programs numbered in the #40s-60s (e.g. FMST 51 or 54). Alternatively, eligible independent studies or thesis courses can be combined with regular upper level GMST courses for honors preparations. Honors majors can further petition GMST faculty members for an honors attachment to any upper level GMST course.

- Honors students participate in the external examination process required of all Swarthmore honors students and the Senior Honors Study (SHS) process explained below.

Honors Minor Preparations
Honors Minors prepare for their examination in German studies by following the course minor requirements (minimum of 5 credits above GMST 003). A set of special requirements applies to Honors Minors:

- All honors majors must include GMST 020, GMST 091: Topics in German Studies II and III in their course of study.
- All honors minors must complete Senior Honors Study (described below)

Senior Honors Study (SHS) and Mode of Examination
For SHS, students are required to present an annotated bibliography of criticism - articles or books - concerning at least five of the texts in each advanced course or seminar used as honors preparations for external examination. Students are required to meet with the respective instructor(s) of the advanced courses or seminars being examined by Feb. 15 to discuss their planned bibliography and to meet with the instructors for a second time when the approved bibliography is handed in by May 1. The annotated bibliography, which carries no credit, will be added to course syllabi in the honors portfolio. The honors examination will take the form of a 3-hour written examination based on each seminar and its SHS preparation as well as a 1-hour oral panel examination based on the three written examinations for majors or a 30- to 45-minute oral examination for minors.

Special Major in Linguistics and Languages
1. Complete three credits numbered 008 or above
2. Complete GMST 008, 020, 091
3. In place of GMST 091, a seminar may be taken

Off-Campus Study
Students of German are strongly encouraged to spend at least a semester in a German-speaking country. There are several excellent opportunities to participate in an approved program, such as the Columbia Consortium Program in Berlin, Duke University in Berlin, the Macalester College German Study Program in Berlin/Vienna, or the Dickinson College Program in Bremen. Students should consider going abroad in the spring semester. This will enable them to participate fully in the semester schedule of German and Austrian Universities.

Eligible Courses in German Studies
See individual departments to determine specific offerings in 2018 - 2020.

GMST 020. Topics in German Studies I
This fifth semester course explores the uneasy relationship of humans with technology, including the most prominent forms of artificial intelligence present throughout centuries of cultural production in German-speaking territories: golems, alrauns, homunculi, automata, clones, cyborgs, artificial humans. Students will learn that many of the current challenges posed by technological developments, and particularly by artificial intelligence, are not unique to the twentieth and twenty-first centuries. Class discussions, as well as short class presentations, will support students’ efforts to learn and correctly use the necessary vocabulary. Weekly language games will help students retain vocabulary, review grammar, and learn new structures. Students will learn how to write an essay by producing several drafts and improving them. Students will engage literature, music, visual art and media, as well as current newspaper articles. This course serves as the introduction to the interdisciplinary field of German Studies.

Fall 2019 Topic: Homunculi, Golems, Robots, Clones: Artificial Humans in German Culture
Prerequisite: GMST 008 or equivalent placement score.

Humanities.
1 credit.
Eligible for GLBL-Paired
Fall 2019. Meirosu.
Fall 2020. Staff.

GMST 054. German Cinema
(Cross-listed as LITR 054G, FMST 054)
This course is an introduction to German cinema from its inception in the 1890s until the present. It includes an examination of early exhibition forms, expressionist and avant-garde films from the classic German cinema of the Weimar era, fascist cinema, postwar rubble films, DEFA films from East Germany, New German Cinema from the 1970s, and post 1989 heritage films. We will
analyze a cross-match of popular and avant-garde films while discussing mass culture, education, propaganda, and entertainment as identity- and nation-building practices. Fulfills national cinema requirement for FMST. Humanities. Writing course. 1 credit. Eligible for GMST, FMST

**GMST 091. Topics in German Studies II**
In this sixth semester course, we will read a variety of prose texts representing the latest work of contemporary novelists from Germany, Austria and Switzerland. The selected novels are meant as buoys in the vast sea of recent literary publications, marking current thematic and stylistic preoccupations in German literature. Topic for 2020: Gegenwartsliteratur Prerequisite: GMST 008 or GMST 020. Humanities. 1 credit. Spring 2021. Staff.

**GMST 100. German Studies Research Seminar**
This senior seminar focuses on interdisciplinary research done within German Studies and between German Studies and its adjacent disciplines (e.g. Art, Gender and Sexuality Studies, Film and Media Studies, History, Music, Philosophy, Political Science and Sociology). For the first two weeks of the semester, the seminar will trace the development of German Studies methodologies and discuss the histories and theories that inform them. After developing a clear research trajectory with a research statement, guiding questions and a working bibliography, from October to November students will work on their own research topic with weekly guidance from the faculty member and team-based discussion meetings. This seminar will provide seniors (and juniors upon approval) with an opportunity to connect their (inter)disciplinary major to their minor through thorough analytical work that will prepare them not only for honors at Swarthmore, but also for post-graduate careers and continuing education. Drafts of the projects (minimum of 25 pages) will be workshopped with seminar participants in November, and presentations will be held colloquium-style with GMST and affiliated faculty and students at the end of the semester. The final drafts will be submitted to undergraduate and graduate publications in the field. Humanities. 2 credits.

**GMST 104. Age of Goethe**
This seminar familiarizes students with arguably the greatest German writer whose literary works revolutionized German poetry, drama, and the novel. Often regarded as the founder of German classicism, Goethe’s literary writings, spanning over six decades, defy easy categorization. Texts read in the seminar include the early drama Götz von Berlichingen and the influential epistolary novel The Sorrows of Young Werther, the classical drama Iphigenie auf Tauris, the novels Wilhelm Meisters Lehrjahre and Die Wahlverwandtschaften, early essays on Shakespeare and Gothic architecture, poetry from all periods of his life, and, of course, Faust. We will also look at Goethe’s scientific ideas (morphology of plants and theory of optics) and his philosophical and economic worldview. Humanities. 2 credits.

**GMST 108. Topics in German Studies III**
In this advanced seminar-style class, students read novellas and stories by some of the most important figures of the German literary canon. Together with close textual analysis, the course examines relevant socio-historical developments that help account for the aesthetic and thematic choices of the writers. Authors include (among others) Heinrich von Kleist, E.T.A. Hoffmann, Josef von Eichendorff, Johann Peter Hebel, Annette von Droste-Hülshoff, Gottfried Keller, Thomas Mann, Franz Kafka, Stefan Zweig, Ingeborg Bachmann, Ilse Aichinger. Topic for 2019: German Short Prose May be taken for 1 credit. Humanities. 2 credits. Eligible for GSST Fall 2019. Werlen.

**GMST 111. Genres**
Topic for Fall 2018: German Television This seminar will delve into German media history from the development of television in the 1930s to the broadcast era ranging from the 1950s to early 1980s and culminate in a look at the television landscape during the periods of privatization and convergence. Throughout the course, we will focus on the way television as a socio-political, artistic and economic medium responds to and co-constructs German, European and hybrid cultural, national, and regional identities. Readings in German and English. Weekly screenings of canonical German television genres and episodes followed by blog posts. Two short in-class presentations. One 10-page analytical paper. A final creative or analytical team project. Prerequisite: GMST 004 or GMST 020 or permission from the instructor. Humanities. 2 credits.

**ARTH 005. Modern Art in Europe and the United States**

**ARTH 019. Contemporary Art**

**FMST 059. Re-Envisioning Diasporas**

**HIST 028. Aux Armes! History and Historiography of the French Revolution**
Courses
Not all advanced courses or seminars are offered every year. Students wishing to major or minor in German should plan their program in consultation with the section. All courses numbered 050 and above are open to students after GMST 020. (See note on enrolling in seminars.)

GMST 001. Intensive Elementary German
Students who start in the GMST 001-GMST 002 sequence must complete GMST 002 to receive credit for 001.
For students who begin German in college, this course is designed to develop active use of the language. The class combines intensive practice in listening, speaking, writing and reading with the study of grammar. Authentic materials (texts, videos, music) familiarize students with the culture of German-speaking countries.
This 1 credit class is team-taught and meets on Mondays, Tuesdays and Thursdays, with an optional individual tutorial on Wednesdays. Students are also expected to attend the weekly German language table each Friday.
Humanities.
1 credit.
Fall 2019. Werlen, Schnader.
Fall 2020. Staff, Staff.

GMST 002. Intensive Elementary German
This class is the continuation of GMST 001 and also for students who placed into the second semester.
Second semester German continues to develop core language skills (listening, speaking, reading, and writing). Regular engagement with authentic texts, videos, and music from Germany, Switzerland, and Austria further enhances cultural competency.
This 1 credit class is team-taught and meets on Mondays, Tuesdays and Thursdays, with an optional individual tutorial on Wednesdays. Students are also expected to attend the weekly German language table each Friday.
Humanities.
1 credit.
Spring 2020. Staff, Staff.

GMST 003. Intensive Intermediate German
This class is for students who completed the GMST 001-GMST 002 sequence and those who place into the third semester.
Expanding and reviewing core language skills, the course integrates intermediate-level reading, listening, and viewing materials with more advanced writing practice.
This 1 credit class is team-taught and meets on Mondays, Tuesdays and Thursdays, with an additional optional individual tutorial on Wednesdays. Students are also expected to attend the weekly German language table each Friday.
Humanities.
1 credit.
Fall 2020. Staff, Staff.

GMST 005. German Conversation
Through discussion of German films and presentations on student-selected topics, this course develops students’ speaking skills. Content changes every semester and students can enroll in this class multiple times.
Prerequisite: GMST 003 in a current or a previous semester or the equivalent placement score.
0.5 credit.
Fall 2019. Schnader.
Fall 2020. Schnader.

GMST 006. German Conversation
Through discussion of German films and presentations on student-selected topics, this class develops students’ speaking skills. Content changes every semester and students can enroll in this class multiple times.
Prerequisite: GMST 003 in a current or a previous semester or the equivalent placement score.
0.5 credit.

GMST 007. Berlin and Beyond: Cultural Trends and Current Affairs
(Cross-listed as LITR 007)
This half-credit course invites students to explore the urban culture of Berlin, a European hotspot for politics, the arts, media, high-tech start-ups, and clubbing. Venturing beyond the capital, students then examine facets of Germany’s contemporary cultural, social, and political landscape.
Students will help select specific topics for readings, discussions, and presentations, and participants interested in developing their German language skills will have the opportunity to engage with relevant texts and media in German. Taught in English.
.5 credit.
Eligible for LITR
Fall 2019. Schnader.

GMST 008. Texts in Context: Topics in German Culture and Society from the Reformation until Today
This fourth-semester course is designed to advance linguistic skills through engagement with a
specific topic. Studying literary, artistic, journalistic, and historical sources, students enhance their analytical, writing, and communication skills. This course is the gateway to all upper level courses in the German Studies curriculum. Topics alternate every year.

Prerequisite: GMST 003 or equivalent placement score.
Humanities.
1 credit.
Eligible for GSST
Spring 2021. Staff.

GMST 017. First Year Seminar: Testimonial Literature
(Cross-listed as LITR 017G)
This course explores the notion of testimony as an important aspect of a literature of resistance. We investigate how testimony intertwines with questions of writing and truth, and creates a response to cultural violence. Students read theories and literature of resistance and testimony in a wide-ranging selection of time periods and cultures, from the formation of a philosophical and religious idea of testimony in antiquity (Greek and Judeo-Christian traditions) to its later development in theories of Emmanuel Levinas. We will also study the emergence of the literary notion of testimony by analyzing works of poetry, narrative, and film, with a particular focus on Jewish responses to the Shoah, and Latin American and Latino responses to political and social repression. Humanities.
1 credit.
Eligible for PEAC

GMST 020. Topics in German Studies I
This fifth semester course explores the uneasy relationship of humans with technology, including the most prominent forms of artificial intelligence present throughout centuries of cultural production in German-speaking territories: golems, alrauns, homunculi, automata, clones, cyborgs, artificial humans. Students will learn that many of the current challenges posed by technological developments, and particularly by artificial intelligence, are not unique to the twentieth and twenty-first centuries. Class discussions, as well as short class presentations, will support students’ efforts to learn and correctly use the necessary vocabulary. Weekly language games will help students retain vocabulary, review grammar, and learn new structures. Students will learn how to write an essay by producing several drafts and improving them. Students will engage literature, music, visual art and media, as well as current newspaper articles. This course serves as the introduction to the interdisciplinary field of German Studies.

Fall 2019 Topic: Homunculi, Golems, Robots, Clones: Artificial Humans in German Culture
Prerequisite: GMST 008 or equivalent placement score.
Humanities.
1 credit.
Eligible for GLBL-Paired
Fall 2019. Meirosu.
Fall 2020. Staff.

GMST 026. Popular Music and Media
(Cross-listed as FMST 026, LITR 026, MUSI 005E)
Is Bohemian Rhapsody (2018) the Stop Making Sense (1984) of this generation? How does YouTube compare to Indie records? What’s similar and what’s different? What is the relationship between social media and commercial means of distribution, and what is its effect on fandom? This team-taught course investigates the histories, structures and cultural connections between popular music and other media. How do musical expressions and genres interact with medium specificity? How can we understand changing exhibition formats (stadium vs. lounge vs. club) and distribution venues (record store vs. Spotify)? How does celebrity culture then and now impact what is popular and how does it affect the music industry and vice versa? What lies at the intersection of national, socio-political and fan cultures?
Providing a grounding in music and media history and theory, we will research and analyze mainstream and independent case studies in radio, film, theater, television and social media in order to better understand and engage with the complex webs that characterize contemporary media, its production, and its consumption.
Humanities.
1 credit.

GMST 029. Theater of Intervention: After Shakespeare and Müller
(Cross-listed as THEA 011C)
In this course students will read selected texts by William Shakespeare and Heiner Müller, identify relevant contemporary themes and then create their own performances. The goal of the class is for the student to create work without distinctions between writing, acting and directing-the director as performer, the actor as the author of their own expression. This work also seeks to remove any separation between the artist and the citizen, political thinker, and activist. How can theater function as a performative political statement? How can a theater artist intervene in making social change? Readings will include Titus Andronicus, Macbeth, and Hamlet, both Shakespeare’s original versions and Müller’s contemporary adaptations. Open to all students without prerequisite. Taught by Cornell Visiting Professor Barbara Wysocka. Humanities.
1 credit.  

**GMST 037. The Holocaust: History, Representation, and Culture**  
(Cross-listed as HIST 037 and LITR 037G)  
Seventy-five years after the Holocaust, and despite an enormous amount of research and testimony, the genocide of European Jewry continues to generate compelling interpretive questions. This course is a multidisciplinary exploration of the Holocaust with special attention paid to forms of memory, commemoration, and artistic representations through the study of fiction, poetry, film, memoirs, and historical scholarship in Humanities.  
1 credit.  
Eligible for PEAC  

**FMST 051. European Cinema**  
(Cross-listed as LITR 051G)  
Setting out from the cornerstones of aesthetics, history and memory, this course introduces you to post-war directors from Italian Neo-Realism, British and French New Waves, Eastern European Cinema, Post-New Wave Italian auteurs, Spanish cinema after Franco, New German Cinema, Swedish and Danish cinema. The course addresses key issues and concepts in European cinema such as realism, authorship, art cinema, and political modernism, with reference to significant films and filmmakers and in the context of historical, social, and cultural issues.  
Humanities.  
1 credit.  
Eligible for FMST, GMST

**LITR 051G. European Cinema**  
(Cross-listed as FMST 051)  
Setting out from the cornerstones of aesthetics, history and memory, this course introduces you to post-war directors from Italian Neo-Realism, British and French New Waves, Eastern European Cinema, Post-New Wave Italian auteurs, Spanish cinema after Franco, New German Cinema, Swedish and Danish cinema. The course addresses key issues and concepts in European cinema such as realism, authorship, art cinema, and political modernism, with reference to significant films and filmmakers and in the context of historical, social, and cultural issues.  
Humanities.  
1 credit.  
Eligible for GMST

**GMST 054. German Cinema**  
(Cross-listed as LITR 054G, FMST 054)  
This course is an introduction to German cinema from its inception in the 1890s until the present. It includes an examination of early exhibition forms, expressionist and avant-garde films from the classic German cinema of the Weimar era, fascist cinema, postwar rubble films, DEFA films from East Germany, New German Cinema from the 1970s, and post 1989 heritage films. We will analyze a cross-match of popular and avant-garde films while discussing mass culture, education, propaganda, and entertainment as identity- and nation-building practices.  
Fulfills national cinema requirement for FMST. Humanities.  
Writing course.  
1 credit.  
Eligible for GMST, FMST

**GMST 091. Topics in German Studies II**  
In this sixth semester course, we will read a variety of prose texts representing the latest work of contemporary novelists from Germany, Austria and Switzerland. The selected novels are meant as buoys in the vast sea of recent literary publications, marking current thematic and stylistic preoccupations in German literature.  
Topic for 2020: Gegenwartsliteratur  
Prerequisite: GMST 008 or GMST 020. Humanities.  
1 credit.  
Spring 2021. Staff.

**GMST 093. Directed Reading**  
1 credit.

**Seminars**  
Five German seminars are normally scheduled on a rotating basis. Preparation of topics for honors may be done by particular courses plus attachments only when seminars are not available.  
Note. Students enrolling in a seminar are expected to have done the equivalent of at least one course beyond the GMST 020 level.

**GMST 100. German Studies Research Seminar**  
This senior seminar focuses on interdisciplinary research done within German Studies and between German Studies and its adjacent disciplines (e.g. Art, Gender and Sexuality Studies, Film and Media Studies, History, Music, Philosophy, Political Science and Sociology). For the first two weeks of the semester, the seminar will trace the development of German Studies methodologies and discuss the histories and theories that inform them. After developing a clear research trajectory with a research statement, guiding questions and a working bibliography, from October to November students will work on their own research topic with weekly guidance from the faculty member and team-based discussion meetings. This seminar will provide seniors (and juniors upon approval) with an opportunity to connect their (inter)disciplinary major to their minor through thorough analytical work that will prepare them not only for honors at Swarthmore, but also for post-graduate careers and continuing education.  
Drafts of the projects (minimum of 25 pages) will be workshopped with seminar participants in
November, and presentations will be held and students at the end of the semester. The final drafts will be submitted to undergraduate and graduate publications in the field. Humanities.
2 credits.

**GMST 104. Age of Goethe**
This seminar familiarizes students with arguably the greatest German writer whose literary works revolutionized German poetry, drama, and the novel. Often regarded as the founder of German classicism, Goethe’s literary writings, spanning over six decades, defy easy categorization. Texts read in the seminar include the early drama Götz von Berlichingen and the influential epistolary novel The Sorrows of Young Werther, the classical drama Iphigenie auf Tauris, the novels Wilhelm Meisters Lehrjahre and Die Wahlverwandtschaften, early essays on Shakespeare and Gothic architecture, poetry from all periods of his life, and, of course, Faust. We will also look at Goethe’s scientific ideas (morphology of plants and theory of optics) and his philosophical and economic worldview. Humanities.
2 credits.

**GMST 105. Die deutsche Romantik**
Romanticism as the dominant movement in German literature, thought, and the arts from the 1790s through the first third of the 19th century. Focus on Romantic aesthetics and poetics, including the influence of German Idealism. Humanities.
2 credits.

**GMST 108. Topics in German Studies III**
In this advanced seminar-style class, students read novellas and stories by some of the most important figures of the German literary canon. Together with close textual analysis, the course examines relevant socio-historical developments that help account for the aesthetic and thematic choices of the writers. Authors include (among others) Heinrich von Kleist, E.T.A. Hoffmann, Josef von Eichendorff, Johann Peter Hebel, Annette von Droste-Hülshoff, Gottfried Keller, Thomas Mann, Franz Kafka, Stefan Zweig, Ingeborg Bachmann, Ilse Aichinger.
Topic for 2019: German Short Prose
May be taken for 1 credit.
Humanities.
2 credits.
Eligible for GSST
Fall 2019. Werlen.

**GMST 111. Genres**
Topic for Fall 2018: German Television
This seminar will delve into German media history from the development of television in the 1930s to the broadcast era ranging from the 1950s to early 1980s and culminate in a look at the television landscape during the periods of privatization and colloquium-style with GMST and affiliated faculty convergence. Throughout the course, we will focus on the way television as a socio-political, artistic and economic medium responds to and co-constructs German, European and hybrid cultural, national, and regional identities. Readings in German and English. Weekly screenings of canonical German television genres and episodes followed by blog posts. Two short in-class presentations. One 10-page analytical paper. A final creative or analytical team project.
Prerequisite: GMST 004 or GMST 020 or permission from the instructor.
Humanities.
2 credits.

**GMST 112. Uncomfortable Classics - from Goethe to Grass**
Humanities.
2 credits.
Fall 2020. Werlen.

**GMST 199. Senior Honors Study**

### Japanese

**The Academic Program**
Courses in Japanese language, literature, and culture may be combined with courses taken at Haverford, Bryn Mawr and with study abroad toward a special major or a minor in Japanese or may be counted toward a major or minor in Asian studies (see Asian Studies). Interested students should consult with the section head of Japanese or with the chair of Asian studies.

**First Course Recommendations**
**JPNS 001. First-Year Japanese.** JPNS 001 is the beginning of our language sequence and open to all students; no previous experience is necessary and students are encouraged to begin JPNS 001 in their Freshman year. A placement exam is not required to register for JPNS 001.
**JPNS 018. Manga, Bande Dessinée, and the Graphic Novel: A Transnational Study of Graphic Fiction** is a good entry point for students interested in Japanese cultural studies and wishing to gain experience in narrative and visual analysis. No background in Japanese language is required.
**JPNS 022. Japanese Film and Animation** introduces the fundamentals of film analysis and explores both the history of Japanese film and animation and their broader historical and cultural context. Students will gain experience in both written film analysis and in-class presentations. No background in Japanese language is required.
**JPNS 024. Japanese Film and Animation** introduces the fundamentals of film analysis and explores both the history of Japanese film and animation and their broader historical and cultural context. Students will gain experience in both written film analysis and in-class presentations. No background in Japanese language is required.
MLL: Japanese

Special Majoring and Minoring in Japanese

Students may construct a special major in Japanese, featuring intensive study in Japanese language, literature, and culture. Japanese special majors will complete their coursework through a combination of study at Swarthmore, courses at Haverford or Bryn Mawr, and study abroad. Students interested in a Japanese special major or minor should consult with the section head of Japanese as soon as possible. Students seeking a broader exposure to East Asian society and culture may consider a Japanese concentration within the Asian studies major. Students who wish to concentrate on linguistics rather than Japanese literature and culture may construct a special major in Japanese Language and Linguistics, or use Japanese as one of the two languages counting towards the Special Major in Linguistics and Languages as described below. Students wishing to pursue this possibility should consult with the Japanese section head.

Special Major in Japanese Language, Literature and Culture

At least 10 total credits starting with 001, including at least one credit outside the department, are required for a special major in Japanese. Special majors should complete the following sequence of language courses: JPNS 001, 002, 003, 004, 012, 012A, 013, 019, 020 or their equivalent. Japanese special majors are strongly encouraged to study abroad in a program approved by the section; transfer credits normally may be counted toward the special major. Special majors should complete at least two courses on Japanese literature and culture of level 015 and higher (in addition to JPNS 019 and 020), and at least two additional courses of level 30 and higher, or their equivalent in coursework outside the department. Students are encouraged to combine their study of Japanese literature and culture with coursework in Japanese linguistics, history, anthropology and sociology, religion, art, music, economics, political science, education, comparative literature, and other related fields within the tri-college consortium. At least two courses on Japanese literature and culture should normally be taken within the department, including courses on Japanese linguistics offered within the department. All special majors will complete a culminating project.

Special Major in Linguistics and Languages

1. Complete the Linguistics course requirements outlined by the Linguistics Department.

2. For students using Japanese as one of their two languages for this special major, complete one course numbered 004 or above and two courses numbered 011 or above. No 0.5 credit courses may be counted towards this requirement. The language of instruction for courses filling this requirement should be Japanese.

Minor in Japanese

A minimum of 5 credits numbered 004 and above is required for the course minor. At least one credit must be taken in Japanese literature, linguistics, film or culture in translation, either in coursework offered by the Japanese section or its equivalent in coursework outside of Swarthmore, with the approval of the section. A minimum of 3 credits should be taken at Swarthmore. The section strongly encourages study abroad in a section-approved program; transferred credits normally may be counted toward the minor. One credit may be earned from another department on a Japan-related subject with the approval of the section.

Honors Special Majors and Minors in Japanese

Honors study for qualified students may be substituted for the culminating project in the major. Students are encouraged to consult with the Japanese section head to discuss Honors special majors and honors minors.

Japanese Courses

JPNS 001. First-Year Japanese

Students who start in the JPNS 001-002 sequence must complete 002 to receive credit for 001. This intensive introduction to Japanese develops the four language skills of speaking, writing, listening, and reading. The spoken component will cover both formal and casual forms of speech; the written component will introduce the hiragana and katakana syllabaries; and about 200 kanji characters. Humanities. 1.5 credits.

Fall 2020. Staff, Staff.

JPNS 002. First-Year Japanese

Students who start in the JPNS 001-002 sequence must complete 002 to receive credit for 001. This intensive introduction to Japanese develops the four language skills of speaking, writing, listening, and reading. The spoken component will cover both formal and casual forms of speech; the written component will introduce the hiragana and katakana syllabaries; and about 200 kanji characters. Humanities. 1.5 credits.
JPNS 003. Second-Year Japanese
Combines intensive oral practice with writing and reading in the modern language. The course attempts to increase students’ expressive ability through the introduction of more advanced grammatical patterns and idiomatic expressions. The course will introduce approximately 300 new kanji characters in addition to the 200 covered in JPNS 001-JPNS 002.
Humanities.
1.5 credits.
Eligible for ASIA
Fall 2019. Jo.
Fall 2020. Staff, Staff.

JPNS 004. Second-Year Japanese
Combines intensive oral practice with writing and reading in the modern language. The course attempts to increase students’ expressive ability through the introduction of more advanced grammatical patterns and idiomatic expressions. The course will introduce approximately 300 new kanji characters in addition to the 200 covered in JPNS 001-JPNS 002.
Humanities.
1.5 credits.
Eligible for ASIA
Spring 2020. Staff, Staff.
Spring 2021. Staff, Staff.

JPNS 007. Chinese/Japanese Calligraphy
(Cross-listed as CHIN 007)
Calligraphy is the art of beautiful handwriting. This course will introduce students to the importance of calligraphy in East Asian Culture. In addition to being a valuable cultural skill, calligraphy is also a process of self-cultivation and self-expression, which reflects the mind-set of the writer. Thus, students will have the opportunity to learn Chinese/Japanese characters not only as linguistic symbols but also as cultural emblems and as an art form. Course objectives include learning to appreciate the beauty of Chinese/Japanese calligraphy, experiencing calligraphy by writing with a brush and ink, and studying various philosophies of calligraphy. In addition to learning several different calligraphic scripts, students will be introduced to the origin, evolution, and aesthetic principles of the Chinese and Japanese writing systems, as well as calligraphy’s close connections with painting and poetry. Persistent hands-on practice will be required of all students; course work will include in-class practice, individual/group instruction, reading assignments, and take-home assignments. This class is open to all students and has no language requirement. Due to the course’s practicum component, enrollment will be limited by lottery to 10 students. Students who are also enrolled in ARTH 034 (Colloquium: East Asian Calligraphy) will receive priority in the lottery. Can be repeated for credit.
0.5 credit.
Eligible for ASIA
Fall 2020. Staff.

JPNS 008. Extensive Reading in Japanese
This course will offer students an opportunity to develop their Japanese readings skills through free readings of Japanese materials (stories, non-fiction, manga, etc.) gathered at McCabe Library. The course will follow the Extensive Reading or Graded Reading methodology, which encourages students to build their reading ability through exposure to a broad variety of texts with minimal use of dictionaries, with the assistance and supervision of the Japanese instructor. The course is open to all students of Introduction to Japanese (JPNS 002) level and above.
0.5 credit.
Eligible for ASIA
Spring 2020. Staff.
Spring 2021. Staff.

JPNS 012. Third-Year Japanese
These courses aim to lead Japanese students into the intermediate-advanced level, deepening students’ exposure to Japanese culture through the study of authentic materials and the application of language skills in diverse linguistic contexts. They will combine oral practice with reading, viewing, and discussion of authentic materials including newspaper articles, video clips, and literary selections. Students will continue to develop their expressive ability through use of more advanced grammatical patterns and idiomatic expressions, and will gain practice in composition and letter writing. These courses will introduce approximately 300 new kanji characters in addition to approximately 500 covered in first- and second-year Japanese.
Prerequisite: JPNS 004 or demonstration of equivalent language skills.
Recommended: Concurrently with JPNS 012A; provides additional opportunities for application and extension of newly acquired skills.
Humanities.
1 credit.
Eligible for ASIA
Fall 2019. Suda.
Fall 2020. Staff.

JPNS 012A. Japanese Conversation
This course aims to improve students’ command of spoken Japanese at the intermediate level. Can be repeated for credit.
Prerequisite: Completion of JPNS 004 or permission of the instructor.
0.5 credit.
Eligible for ASIA
Fall 2019. Suda.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.
MLL: Japanese

JPNS 013. Third-Year Japanese
These courses aim to lead Japanese students into the intermediate-advanced level, deepening students’ exposure to Japanese culture through the study of authentic materials and the application of language skills in diverse linguistic contexts. They will combine oral practice with reading, viewing, and discussion of authentic materials including newspaper articles, video clips, and literary selections. Students will continue to develop their expressive ability through use of more advanced grammatical patterns and idiomatic expressions, and will gain practice in composition and letter writing. These courses will introduce approximately 300 new kanji characters in addition to approximately 500 covered in first- and second-year Japanese.

Prerequisite: JPNS 004 or demonstration of equivalent language skills.
Recommended: Concurrently with JPNS 013A; provides additional opportunities for application and extension of newly acquired skills.
Humanities.
1 credit.
Eligible for ASIA
Spring 2020. Staff.

Spring 2021. Staff.

JPNS 019. Fourth-Year Japanese
This fourth-year level course aims to develop students’ advanced language proficiency in reading, writing, listening, and speaking, through examination and discussion of a variety of authentic materials on selected topics such as literature, language, history, education and society.
Readings and discussion will be in Japanese.
Prerequisite: JPNS 013 or equivalent.
Humanities.
1 credit.
Eligible for ASIA
Fall 2019. Jo.
Fall 2020. Staff.

JPNS 020. Fourth-Year Japanese
This fourth-year level course aims to develop students’ advanced language proficiency in reading, writing, listening, and speaking, through examination and discussion of a variety of authentic materials on selected topics such as literature, language, history, education and society.
Readings and discussion will be in Japanese.
Prerequisite: JPNS 013 or equivalent.

1 credit.
Eligible for ASIA
Spring 2020. Staff.
Spring 2021. Staff.

JPNS 024. Japanese Film and Animation
(Cross-listed as LITR 024J, FMST 057)
This course offers a historical and thematic introduction to Japanese cinema, one of the world’s great film traditions. Our discussions will center on the historical context of Japanese film, including how films address issues of modernity, gender, and national identity. Through our readings, discussion, and writing, we will explore various approaches to film analysis, with the goal of developing a deeper understanding of formal and thematic issues. A separate unit will consider the postwar development of Japanese animation (anime) and its special characteristics. Screenings will include films by Ozu, Mizoguchi, Kurosawa, Imamura, Kitano, and Miyazaki.
Humanities.
1 credit.
Eligible for ASIA
Spring 2020. Staff.

JPNS 036. Environment, Cultural Memory,
and Social Change in Japan
This course will explore the history, contemporary situation, and future possibilities regarding the interlinked realms of the environment, historical trauma, and social movements in Japan. Topics will include the Hiroshima and Nagasaki atomic bombings and the subsequent peace and anti-nuclear movements, the environmental movement in Japan, and the "triple disaster" earthquake, tsunami, and nuclear power plant disaster in Fukushima and Northeastern Japan. We will also discuss how environmental issues intersect with other current social issues such as rural depopulation, an aging population, and gender and economic inequality, and study a variety of contemporary approaches to addressing these issues. In addition, under the guidance of Lang Professor for Social Change Denise Crossan, we will study theory and practice of social entrepreneurship as a vehicle for social change and explore possible applications of this model in Japan. Pending administrative approval, we will offer a 0.5 Experiential Learning practicum following the end of the spring class term, in which we will travel to the Tokyo and Hiroshima areas to engage in discussions and exchanges with on-site partners in environmental studies, peace studies, and social entrepreneurship.
1 credit with optional 0.5 credit practicum. The 0.5 credit practicum is not available for Seniors.
Humanities.
1 credit.
Eligible for ASIA

JPNS 042. Language Policy and Planning in Japan
Language policy and planning is a fundamental aspect of society: it has the potential to enrich the quality of human lives or impose great conflicts and struggles in our everyday lives. Despite its image of homogeneity, Japanese society has a much linguistic diversity and a great number of linguistic minorities, including indigenous groups and immigrants; however, it is questionable if the society has provided a systematic support to
maintain this diversity. Japan is also constantly facing the need to improve its language education, although, arguably, the attempts so far have been rather unsuccessful. This course aims to understand the current state of Japanese society in light of these political issues relevant to Japanese language. While learning the basic notions and theoretical approaches in language policy, the course will cover topics including historical aspects of language policy in Japan, linguistic minorities in Japan, legal issues of languages in Japan, and issues regarding Japanese language education as well as foreign/second/heritage language education. Throughout the course, students are encouraged to critically consider the politics of using their own language as well as Japanese.

Readings and discussion will be in English. Some knowledge of Japanese is recommended but not required for this course.

Humanities.
1 credit.

JPNS 051. Japanese Poetry and Poetics
JPNS 074. Japanese Popular Culture and Contemporary Media
JPNS 075. Japanese Modernism
JPNS 083. War and Postwar in Japanese Culture

Russian

The Academic Program

The major in Russian language and literature covers the rise and development of Russian literature and culture up to the present. Students will encounter critical theory and develop skill in critical analysis, approaching Soviet and Russian literature and culture in relationship to historical and social forces. Our courses emphasize culture as well as literature: indeed, understanding Russian literature and other arts is impossible without some background in the history and civilization. Because Russian is a small program, we are very responsive to student demand and can develop courses almost to order, if there is sufficient interest. Students interested in a combined Russian language and linguistics major may develop a program with advanced courses and seminars in the language offered at Bryn Mawr or the University of Pennsylvania and the Linguistics Department at Swarthmore College.

Russian in Combination with Other Programs

In the Course Program, Russian contributes to majors in comparative literature, film and media studies, and linguistics and to the concentrations in interpretation theory and gender and sexuality studies. Thematic courses in Russian culture can support majors or minors in history, music, philosophy, and political science and concentrations in Asian studies, Environmental studies, Global studies, Islamic studies and Peace and Conflict studies. A Russian honors minor fits well with an honors major in the humanities or social sciences, and nicely rounds out majors in engineering or the natural sciences. In the Honors Program, Russian contributes to the major or minor in comparative literature or linguistics and languages. By including advanced coursework at Bryn Mawr College, Russian can be part of a special major in educational studies for teacher certification.

There is no distinction between qualification for the Russian Course Program and for the Honors Program. We recommend a minimum of one semester or summer of study in Russia. Majors and minors are urged to build and maintain fluency by taking Russian Conversation (RUSS 006A), and to support their work in the field with courses in anthropology, art, cognitive science, film and media studies, history, music, philosophy, political science, religion, sociology, theater, and other literatures.

RUSS 091, the seminar attachment, may be added to any course numbered 020 or above to convert it to a seminar, for a total of two credits. The additional work is done in the original language and supported by regular meetings with the professor, readings, discussions, and significant writing assignments in Russian. We anticipate that most seminar work will be done in this format. If there is sufficient student demand, we can offer advanced seminars in any of the following areas:

First Course Recommendations

Although it is often possible to take intensive Russian courses over the summer, students interested in majoring or minoring in Russian, including Russian in a major in Comparative Literature or Linguistics and Languages, or using the language for research in other fields should begin study with RUSS 001 and RUSS 002 in their first year.
**Course Major**

**Requirements**
A minimum of eight credits, which must include:

1. RUSS 004 (unless placed higher)
2. RUSS 010 and/or RUSS 011, RUSS 012, RUSS 018, RUSS 019 (or equivalent course taken in Russia)
3. One survey course: RUSS 013 or RUSS 014
4. Four content credits: RUSS 013-RUSS 086. At least one full content credit may be earned through: two half-credit attachments to these in-translation courses; the attachments include RUSS 091 (Seminar Attachment), RUSS 093 (Directed Reading), or RUSS 094 (Independent Study). Credit from study abroad may be used toward 3 of these credits.
5. One two-credit seminar: RUSS 100 and above.

For students who choose not to emphasize literature, a Russian history course may be used to fulfill one content credit. Possible courses include HIST 001Q, HIST 038, and HIST 039. Students should consult Russian Section Faculty if they wish to arrange attachments to these courses.

**Acceptance Criteria**
To be accepted as a major or minor, you must have earned a minimum grade of "B" in Russian language and literature courses taken at Swarthmore and present linguistic ability and clear potential for sophisticated study in the original literature, criticism, and cultural history of imperial Russia, the Soviet Union, and post-Soviet Russia.

**Thesis / Culminating Exercise**
The culminating exercise for a course major in Russian is one three-hour written examination (answering two questions in Russian, one in English), scheduled after the end of regular exams in the spring semester of senior year.

**Honors Major**

**Prerequisites for Majors:**
A minimum of eight credits, which must include:

1. RUSS 004 (unless placed higher)
2. RUSS 010 and/or RUSS 011, RUSS 012, RUSS 018 or RUSS 019 (or equivalent course in Russia)
3. One survey course: RUSS 013 or RUSS 014
4. Four content credits: RUSS 013-RUSS 086. At least one full content credit must be earned through: RUSS 091 (Seminar Attachment); RUSS 093 (Directed Reading), RUSS 094 (Independent Study), and regular half or full credit course attachments may also count here. Credit from study abroad may be used toward 3 of these credits. For student who choose not to emphasize literature, one Russian history course may be used to fulfill one content credit. Possible courses include HIST 038 and HIST 039. Students should consult Russian Section Faculty regarding attachments to these courses.
5. At least one two-credit seminar: RUSS 100 and above.
6. The minimum grade for acceptance into the Honors Program is "B" level work in Russian language courses taken at Swarthmore and in RUSS 011 or its equivalent.
7. The selection of coursework for Honors Preparation will be decided in consultation with Russian Section Faculty.

At least one semester of study in Russia is strongly encouraged.

**Senior Honors Study**
Please see the information on seminars and seminar attachments, above.
At the beginning of the final semester, seniors will meet with the Russian section head.

1. Honors majors write three 3,000-3,500 word papers in Russian, one for each honors preparation, or else one 6,000-word paper which integrates the three honors preparations. These three papers (or one long paper) become part of the portfolio presented to the external examiners, along with the syllabi of the three (2-credit) honors preparations and any other relevant material.

(Credit from study abroad may be used toward all content credits.)
5. One two-credit seminar: RUSS 100 and above or the equivalent: a content course with the Seminar Attachment, RUSS 091.
2. Minors will be expected to write one 3,000-3,500-word paper in Russian. This paper will become part of the portfolio presented to the examiner along with the syllabus of the (2-credit) honors preparation and any other relevant material.

3. Majors will take three three-hour written examinations in Russian prepared by external examiners, plus one half-hour oral exam for each, based on the contents of the written examination and materials submitted in the portfolio. Minors will take one three-hour written examination prepared by an external examiner and one half-hour oral examination based on the written examination and materials submitted in the portfolio.

**Honors Minor**

**Prerequisites for Minors:**
A minimum of five credits, which must include:
1. RUSS 004 (unless placed higher)
2. RUSS 010 or RUSS 011, RUSS 012, RUSS 018, RUSS 019 (or equivalent course in Russia)
3. One survey course: RUSS 013 or RUSS 014
4. One content credit (RUSS 013-RUSS 086) plus an attachment (Credit from study abroad may be used toward all content credits)
5. One two-credit seminar: RUSS 100 and above.
6. Selection of coursework for the Honors preparation will be decided in consultation with Russian Section Faculty.

The minimum grade for acceptance into the Honors Program is "B" level work in language courses taken at Swarthmore and in RUSS 011 or its equivalent.

At least one semester of study in Russia is strongly encouraged. See item 2 above for Senior Honors Study Paper.

**Special Major**

Courses in Russian language, literature, and culture may be integrated into special majors of a variety of kinds, for example: Russian area studies, Russian cinema, or Russian and East European literature and/or culture.

**Special Major in Linguistics and Languages**
1. Complete three credits numbered above RUSS 004
2. One of the three credits must be RUSS 010 or RUSS 011, RUSS 012, RUSS 018, RUSS 019 (and both may be counted)

3. Students are especially encouraged to include a seminar at Swarthmore and/or advanced language course taught at Bryn Mawr College

**Off-Campus Study**

Study abroad is strongly encouraged for students of Russian. We recommend four programs (ACTR, CIEE, Middlebury, and the Smolny Institute) for semester and academic-year study in Russia. Credit may also be available for study through other programs, with appropriate documentation. Consult your professor for more information on programs and sources of funding support.

**Summer Opportunities**

Besides summer abroad study or internships, and the possibility of arranging for summer humanities research under the supervision of Russian program faculty, students interested in summer language study in Russia or in summer programs in the U.S. may apply for financial support from the Olga Lamkert Fund.

Russian is certified as a critical language by U.S. government agencies, meaning that for both summer study and study abroad there is funding available to support students of Russian, especially if they are working to reach a high level of proficiency. Ask us for information on this financial assistance, and for support in applying.

**Life After Swarthmore**

A major or minor in Russian can enhance a variety of career choices: strong language skills bolster any other program of work, research or study, while knowledge of literature and culture offers subtle or obvious advantages in business, politics, science and medicine. Like other less commonly taught languages, Russian on your college transcript suggests to potential employers or graduate school admissions committees that you are smart and adventurous, willing to try a challenging new subject of study and able to master it by completing a major or a minor.

**Graduate School and Other Study**

Recent Russian majors and minors have completed area studies M.A. degrees at Harvard University and elsewhere; others have entered the Flagship Program, which aims to bring students to the highest levels of language proficiency for subsequent work in politics, scholarship, or NGOs. Students with majors in Russian Literature have gone on to doctoral work in History and Political Science. Others have done graduate study in Linguistics, English Literature, Creative Writing and Comparative Literature. The systematic nature of Russian grammar makes it no surprise that some of our majors and minors go on to medical school or to graduate work in Physics and Astronomy. One graduate received a Fulbright...
fellowship to study Russian authors who covered the Spanish Civil War as journalists and how their writing influenced the later development of Soviet literature; another received a Fulbright to study plant genetics in southern Russia and Kazakhstan, and a third received a Fulbright to study the experience of Africans in Russia.

**Career Options/Opportunities**
As the paths of study above suggest, Russian can be combined with almost any field. Whether immediately after graduation or later, our alumni have found work as editors or English teachers in Russia. Some have gone into the State Department or have become medical doctors, data analysts or political activists. Graduate study may lead to careers as college and university professors or directors of university Title VI centers. Whatever your career choice, we can put you in touch with alumni of Swarthmore’s Russian program who will be able to offer you advice, support, and connections in the field.

**Russian Courses**
Not all advanced courses or seminars are offered every year. Students wishing to major or minor in Russian should plan their program in consultation with department faculty.

Seminars in Russian are only offered when there is sufficient demand, RUSS 010 likewise. Otherwise students who wish to use a literature course in translation for seminar credit must register for a Seminar Attachment (1 additional credit), adding an A to the course number: 21A, 33A, 41A, etc. Courses numbered under 20 cannot be taken as seminars.

**RUSS 001. Intensive Russian**
Students who start in the RUSS 001-002 sequence must complete and pass 002 in order to receive credit for 001.
For students who wish to begin Russian in college or who did not move beyond an introduction in high school. Designed to impart an active command of the language. Combines the study of grammar with intensive oral practice, work on phonetics, writing, web materials, and readings in literary and expository prose. Conducted primarily in Russian; normally followed by RUSS 004, RUSS 011 and ideally by RUSS 010, and RUSS 008A.

See the explanatory note on language courses in the first section of modern languages and literatures.
Humanities.
1.5 credits.
Spring 2020. Forrester, Yordanova.
Spring 2021. Forrester, Yordanova.

**RUSS 002. Intensive Russian**
For students who wish to begin Russian in college or who did not move beyond an introduction in high school. Designed to impart an active command of the language. Combines the study of grammar with intensive oral practice, work on phonetics, writing, web materials, and readings in literary and expository prose. Conducted primarily in Russian; normally followed by RUSS 004, RUSS 011 and ideally by RUSS 010, and RUSS 008A.

See the explanatory note on language courses in the first section of modern languages and literatures.
Humanities.
1.5 credits.
Spring 2020. Forrester, Yordanova.
Spring 2021. Forrester, Yordanova.

**RUSS 004. Intermediate Intensive Russian**
For majors and those interested in reaching advanced levels of proficiency in the language. Advanced conversation, composition, translation, and stylistics. Considerable attention to writing skills, phonetics, and spontaneous speaking. Readings include short stories, poetry, newspapers, and the Russian web.
Humanities.
1.5 credits.
Spring 2020. Vergara, Yordanova.
Spring 2021. Vergara, Yordanova.

**RUSS 006A. Russian Conversation**
This course meets once a week for 1.5 hours. Students will read newspapers, explore the Internet, and watch videos to prepare for conversation and discussion. Each student will design and complete an individual project based on his or her own interests and goals.
Can be repeated once for credit.
Prerequisite: RUSS 004 in the current or a previous semester or by permission of the instructor.
0.5 credit.
RUSS 008A. Russian Phonetics
(Cross-listed as LING 008A)
This course does not require any previous knowledge of Russian. It was originally conceptualized as an opportunity for students of Russian to develop their pronunciation; however, it will also allow linguists to put theory into practice with the pursuit of the acquisition of Russian phonetics. This is ultimately a practical course; therefore, attention will be focused on resetting the default positions of the tongue, jaw and lips (or, as the Russians have it, the "articulation foundation"). Work on the production of the individual phonemes will be followed by the study of phonetic rules, which govern the production of consecutive sounds in word and phrases, and by the study of intonational constructions.
0.5 credit.
Fall 2020. Yordanova.

RUSS 010. Advanced Russian
The course includes practice in speaking, understanding, reading and writing Russian through the use of authentic Russian language materials, including film. Students will consolidate previous knowledge of Russian grammar, and will significantly increase their vocabulary and improve their level of coherent language and writing. Students will acquire conscious knowledge of the meanings of the grammatical forms applied to discourse, i.e. to specific verbal situations, based not only on the underlying linguistic phenomena, but also on the content of lingua-cultural situations.
Humanities.
1 credit.
Fall 2019. Yordanova.

RUSS 011. Introduction to Russian Culture
This advanced intensive writing course will reinforce previous stages of work in Russian and will focus on composition rather than translation from English. Students will develop advanced skills in comprehension and active use of the written language through the use of authentic Russian language materials. The course will concentrate on contemporary Russian culture and also on changes in the Russian language-with a wide variety of materials from fiction, newspapers, journals and other media sources.
Conducted in Russian.
Prerequisite: RUSS 004 or permission from the instructor.
Humanities.
Writing course.
1 credit.

RUSS 012. Russian Culture through Film
The purpose of this course is to study the ways in which Russian filmmakers have used the medium of cinema to explore history, culture, politics, and social issues prevalent in the Russian society at different periods of its development. The course will follow the development of Soviet and Russian cinema from the Golden Age of silent films, through the periods of Socialist Realism, WWII, the Thaw, Stagnation, Perestroika, and finally - the Russian Federation up to the present day. In addition to exploring Russian history and culture, in this course special attention will be paid to the medium itself - cinema. As storytelling device, as historical document, as expression of imagination, as artistic object, there is no form more capable of capturing our interest and provoking the senses. Therefore, some of the main objectives in this course will be:
To understand the nature and process of film production
To learn how to "read" and analyze film
To explore the major aesthetic trends in the history of cinema and familiarize ourselves with the main theoretical and critical approaches to film theory.
The films and readings assigned for each class meeting are selected because of their relevance to theories for the week (often this relevance will be implicit rather than explicit) - for instance: The Photographic Image and Sound, The Cinematic Narrator, Reality and Film, The Film Spectator, Film Genre, etc. The goal of the course is not to focus on any single theory or group of theories, but rather to review a large selection of theories, and allow the students to practice applying these theories to film, so that by the end of the course each student will have the critical tools to provide an informed verbal and written film analysis, and be able to discuss how various aesthetic and ideological approaches to filmmaking influence cinema practice over time.
Humanities.
1 credit.

RUSS 013. The Meaning of Life and the Russian Novel
(Cross-listed as LITR 013R)
Fall 2019
A NEW Inside-Out Prison Exchange Program course
Wednesday 12-5 p.m. (includes travel time to Chester and processing time at the prison)
Held off campus at SCI Chester
This course surveys the nineteenth-century Russian novel and some of its main themes: life, death, family, love, the individual and society, generational conflicts, crime and punishment. Our main approach will be 1.) to read and closely analyze a series of texts that became the foundation for the Russian novelistic tradition within their own contexts and 2.) to explore how these texts speak to contemporary issues, our lives, and eternal questions that all of humanity faces.
Authors include Dostoevsky, Tolstoy, Turgenev, and Pushkin.
Limited to 10 Swarthmore students. Taught in translation. No knowledge of Russian language or
RUSS 017. First-Year Seminar: Love and Sex in Russian Literature  
(Cross-listed as LITR 017R)  
Best known for political priorities and philosophical depth, Russian literature has also devoted many works to the eternal concern of love and sex. We will read significant and provocative works from traditional folk tales through the 20th century to discuss their construction of these most "natural" impulses - and how they imagine the relationship of human attraction to art, politics and philosophy.  
Humanities.  
Writing course.  
1 credit.  
Eligible for GSST  
Fall 2019. Forrester.

RUSS 018. Reading the Russian Media  
The Russian media (средства массовой информации) offer a wide range of political positions, language styles, and thematic interests. In this course we will read and watch widely, following both current events and particular student interests. Projects will emphasize all areas of language proficiency (listening, speaking, reading and writing) and may contribute to your work in other courses.  
Prerequisite: RUSS 004 or permission of the instructor.  
0.5 credit.

RUSS 019. Russian Culture Through Music  
(Cross-listed as MUSI 004C)  
Music has always played a central role in Russian cultural life. By shaping and responding to various cultural, social, and political changes, it has served as a space for the construction and negotiation of individual and national identity. This course will begin with a brief historical survey, touching upon the folk tradition and the beginning of Russian classical music and opera - Glinka, Mussorgsky, Tchaikovsky, Shostakovich, etc. We will also examine the development of Russian music through different historical periods, concentrating on an area of common interest for the specific group of students enrolled in the course. Some of the questions this course will pose, and hopefully answer, at least partially, are: How does a piece of music reflect the ideological and political situation of its time? How does it reveal the aesthetic sensibilities and aspirations of the composers, their listeners, and society at large? How has music’s function as breeding ground for social and cultural values changed in post-Soviet times?  
Humanities.  
1 credit.  
Fall 2020. Yordanova.

RUSS 021. Dostoevsky (in Translation)  
(Cross-listed as LITR 021R)  
Writer, gambler, publicist, and visionary Fedor Dostoevsky is one of the great writers of the
modern age. His work influenced Nietzsche, Freud, Woolf, and others and continues to exert a profound influence on thought in our own society to the present. Dostoevsky confronts the "accursed questions" of truth, justice, and free will set against the darkest examples of human suffering: murder, suicide, poverty, addiction, and obsession. Students will consider artistic, philosophical, and social questions through texts from throughout Dostoevsky's career. Students with knowledge of Russian may read some or all of the works in the original.

Humanities.
1 credit.

RUSS 023. The Muslim in Russia
(Cross-listed as LITR 023R)
The long and strong relationship of Russia and Islam has been neglected in scholarship until recently. This course will examine texts (and films) spanning more than a thousand years, to introduce actual interactions of Russians and Muslims, images of Muslims in Russian literature (and a few Muslim images of Russia), the place of Muslim writers in Soviet literature, and the current position of Muslims in Russia and in Russian discourse.

Humanities.
1 credit.
Eligible for ISLM

RUSS 026. Russian and East European Science Fiction
(Cross-listed as LITR 026R)
Science fiction enjoyed surprisingly high status in Russia and Eastern Europe, attracting such prominent mainstream writers as Karel Čapek, Mikhail Bulgakov, and Evgenii Zamiatin. In the post-Stalinist years of stagnation, science fiction provided a refuge from stultifying official Socialist Realism for authors like Stanisław Lem and the Strugatsky brothers. This course will concentrate on 20th-century science fiction (translated from Czech, Polish, Russian and Serbian) with a glance at earlier influences and attention to more recent works, as well as to Western parallels and contrasts.

Humanities.
1 credit.

RUSS 037. Crime or Punishment: Russian Narratives of Captivity and Incarceration
(Cross-listed as LITR 037R)
The degree of civilization in a society can be judged by entering its prisons." - Dostoevsky. While the Gulag remains the most infamous aspect of the Soviet justice system, Russia has a long history of inhumane punishment on a terrifying scale. This course explores narratives of incarceration, punishment, and captivity from the 17th century to the present day. In discussing (non-)fiction, history, and theory, we will consider such topics as justice, violence and its artistic representations, totalitarianism, witness-bearing, and the possibility of transcendence in suffering. Readings include works by Dostoevsky, Tolstoy, Chekhov, Akhmatova, Nabokov, Solzhenitsyn, Pussy Riot, Foucault, Arendt, and Sontag, among many others. For more information or the syllabus, please contact the instructor (jvergar1). Taught in translation; no knowledge of Russian required.

Humanities.
1 credit.
Eligible for PEAC, INTP

RUSS 043. Chernobyl: Nuclear Narratives and the Environment
(Cross-listed as LITR 043R)
This course will introduce students to the Chernobyl disaster, its consequences, and its many representations across a wide range of media and cultures for an in-depth look at an event that has taken on immense symbolic value. We will consider representations of public disaster; ethics; health and disease; the body and its deconstruction; ecology, climate, and the environment; technology; appropriation of disaster narratives and disaster tourism; as well as faith and religion. Through this approach we will study the manifold effects of Chernobyl as both an environmental and cultural tragedy, tracing the labyrinth of its mythology. Texts will be drawn from fiction, poetry, film, video games, VR, oral histories, and other media, viewing Chernobyl though a comparative approach as a global phenomenon. The course also contributes to the Program in Environmental Studies.

Humanities.
1 credit.

RUSS 047. Russian Fairy Tales
(Cross-listed as LITR 047R)
Folk beliefs are a colorful and enduring part of Russian culture. This course introduces a wide selection of Russian fairy tales in their aesthetic, historical, social, and psychological context. We will trace the continuing influence of fairy tales and folk beliefs in literature, music, visual arts, and film. The course also provides a general introduction to study and interpretation of folklore and fairy tales, approaching Russian tales against the background of the Western fairy-tale tradition (the Grimms, Perrault, Disney, etc.). No fluency in Russian is required, though students with adequate language preparation may do some reading, or a course attachment, in the original.

Humanities.
1 credit.
Eligible for INTP, MDST

RUSS 053. The End of History: Contemporary Russian Culture
Hailed as the "end of history" and "the greatest geopolitical tragedy of the 20th century," the fall
of the Soviet Union forced Russia to reconcile a past that had long been suppressed with a present reality full of possibility. We’ll discuss works that address contemporary issues (Putinism, protests, refugees, corruption) and resurrect historical traumas (the Civil War, the Stalin years, the Leningrad Siege, Chernobyl) to understand Russia today. This course features a wide range of texts: fiction, non-fiction, oral histories, poetry, art, performance, and film. We will also have the opportunity to speak with some of the figures whose work we’ll examine. No knowledge of Russian required.

Humanities.
Writing course.
1 credit.

RUSS 070. Translation Workshop
(Cross-listed as LING 070, LITR 070R)
This workshop in literary translation will concentrate on both theory and practice, working in poetry, prose, and drama as well as editing. Students will participate in an associated series of bilingual readings and will produce a substantial portfolio of work. Students taking the course for linguistics credit will write a final paper supported by a smaller portfolio of translations. No prerequisites exist, but excellent knowledge of a language other than English (equivalent to a 004 course at Swarthmore or higher) is highly recommended or, failing that, access to at least one very patient speaker of a foreign language.

Humanities.
1 credit.
Eligible for INTP
Fall 2020. Forrester.

RUSS 091. Special Topics
For senior course majors. Study of individual authors, selected themes, or critical problems. Offered on demand.

Humanities.
1 credit.

RUSS 093. Directed Reading
0.5 - 1 credit.
Fall 2019. Staff.

RUSS 094. Independent Study
Humanities.
1 credit.
Fall 2019. Staff.

Seminars
Seminars in Russian are offered when there is sufficient demand. The Russian section webpage includes descriptions of possible seminar topics.

RUSS 101. Tolstoy
Novelist, Christian philosopher, pacifist, and educator, the monumental Lev Tolstoy’s thought inspired communities of "Tolstoyans" and influenced Gandhi and Martin Luther King, Jr. Tolstoy’s treatment of moral and historical issues in literature continues to move readers to our day. Students in this course will examine Tolstoy’s idea and art in the harmonious Russian style of the original.

Humanities.
2 credits.

RUSS 102. Russian Short Story
Counterpoint to the sprawling Russian novel, the short story in Russia possessed a long and distinguished pedigree. Russian writers have used the genre to create polished and brilliant gems demonstrating the possibilities of character development, voice, plot, and the right exposition of ideas in prose. This seminar will explore a selection of examples from the likes of Pushkin, Chekhov, Zoshchenko, Bulgakov, Nabokov, Tolstaya, and others.

Humanities.
2 credits.

RUSS 103. Pushkin and Lermontov
This course will acquaint students with two of the seminal figures of 19th-century Russian literature, Aleksandr Pushkin and Mikhail Lermontov, looking at their criticism, dramatic works, poetry and prose, as well as their cultural and literary context.

Humanities.
2 credits.

RUSS 104. Dostoevsky
Students will read the works of this compelling visionary in the original Russian. The course will survey key works from Dostoevsky’s œuvre, examining Dostoevsky’s use of language and his literary style. Dostoevsky’s art and ideas will be discussed in the context of major critical works by Mikhail Bakhtin and others.

Humanities.
2 credits.

RUSS 105. Literature of the Soviet Period
This course treats the literature associated with one of the most remarkable social experiments in human history. Students will examine the relation of literature to ideology and social reality based on a selection of works reflecting the avant-garde experimentation of the 1920s, the official doctrine of Socialist Realism, underground and emigré literature, and/or literature addressing the historical situation and the legacy of Stalinism.

Humanities.
2 credits.

RUSS 106. The Culture of Dissent in Russia
This Russian-language seminar will explore artistic and non-fictional expressions of dissent throughout the last 100 years. Texts will be considered in their cultural and historical contexts as we examine dissent not only as a political act, but also as a highly personal and existential one. Readings will be selected partly in consultation
RUSS 107. Russia and Its Others
As multinational states, the Russian Empire and the Soviet Union included populations of huge ethnic variety, as does Russia today. This class will survey a variety of non-Russian Russophone writers and ethnic Russians writing about the other populations of their state. As usual for Russian literature, this enterprise will reveal universal human truth as well as sharply depicted particulars.

Humanities. 2 credits.

RUSS 108. Russian Modernism
The period spanning roughly 1890-1925 is often referred to as the Silver Age of Russian literature. This course will survey the rich achievements of Russian culture in the fin-de-siècle, with opportunities to study particular topics in more depth according to students’ interests and preferences.

Humanities. 2 credits.

RUSS 109. Chekhov
Readings from Chekhov’s dramatic works and stories, with attention to the rich body of scholarship on the author in Russian and in English.

Humanities. 2 credits.

RUSS 110. Bulgakov
Doctor, dramatist and dissident, Mikhail Bulgakov is one of the most significant prose authors of the Soviet period. His writings embody scrupulous honesty, recognition of moral complexity, deeply thoughtful awareness of political, religious and philosophical traditions, and the life affirming force of humor. We will read from his short stories, feuilletons and dramatic works, ending the semester with his masterpiece, *Master i Margarita*, arguably the most fun novel of the 20th century.

Humanities. 2 credits.

RUSS 111. Tsvetaeva & Mayakovsky
Poetic, dramatic and prose works of the "hysterical poets," Marina Tsvetaeva and Vladimir Mayakovsky-two of the greatest Russian writers of the 20th century. Focus on their volcanic poetic development, interactions, and creative responses to gender, decadence, revolution, civil war, emigration and Soviet repression, as well as the inspirations and tragedies of their personal lives.

Humanities. 2 credits.

RUSS 112. Akhmatova and Mandelstam
Several great Russian 20th-century poets belonged to a group called "Acmeists" for their emphasis on verbal clarity, specificity of imagery, and attitude of "nostalgia for world culture." Osip Mandel'shtam spent years in "internal exile" for overly honest writing and died in a camp in 1938. Anna Akhmatova, the Russian poet perhaps most translated into English, witnessed all the horrors of Stalinism but survived to mentor a new generation of poets in the 1960s. The course will concentrate on these two poets, with attention to their literary and cultural context.

Humanities. 2 credits.

RUSS 113. Russian and Soviet Cinema
Examples from Soviet avant-garde, High Stalinist, Thaw Era, Perestroika and Post-Soviet Cinema, considering the role of film as both ideology and entertainment.

Humanities. 2 credits.

RUSS 114. Folklore in Russian Literature
Folklore is both an enormous field of human culture, and a rich source of literary plots, genres, ideas and materials for writers, scholars, and theorists of all directions. In this course we will read works of Russian literature in which folklore plays a significant role, as well as exploring several of the areas of Russian folklore that have most influenced literature.

Humanities. 2 credits.

RUSS 115. Dissidence in Russian Literature
This course will explore one of the most appealing components of Russian literature, reading controversial Russian literary and publicistic texts, written from the early 18th century through the beginning of the 21st century. The works carry hidden meanings that reward deep reading and multiple readings, and they convey a wealth of information and opinion about historical, moral, political, and existential questions. We will read the very best of these dissident writers, and each student will write a substantial research paper based on individual interests. The reading list will include Chaadaev, Bulgakov, Akhmatova, Solzhenitsyn, Aksenov, Brodsky, Shenderovich, Bykov, and others.

Humanities. 1 credit.

RUSS 116. The Petersburg Myth in Russian Literature
This course examines the importance of St. Petersburg in Russian history, society, and culture. These themes and developments have been crucial for understanding Russia as a whole over the course of the city’s vibrant, often turbulent, 300-
plus-year existence. Themes include the discourse of East versus West in defining Russian national identity; reform and modernization in Russian history; death and suffering in Russian history; and the relationship between center and periphery in the Russian and Soviet context.

Humanities.
2 credits.

RUSS 117. The Russian Literary Anecdote
This course explores the nature and evolution of the Russian anecdote that originated in ancient times. From Ivan the Terrible through Peter the Great, the anecdote, like other oral genres, persisted in spite of governmental censorship. The heyday of the Russian literary anecdote was the first half of the nineteenth century. We will read anecdotes and stories from chronicles and diaries of contemporaries of the Russian tsars, short stories of Gogol, Dostoevsky, Tolstoy that were based on real facts and transformed into anecdotes. We come full circle to the chronicles of Soviet and post-Soviet times by Dovlatov and Veller.

Humanities.
2 credits.

RUSS 118. Jews in Russia: Culture, Film, Literature
As the Russian Empire expanded over time, it absorbed territories with large Jewish populations. Jews have played crucial roles in Russian and Soviet history and culture, be it as political radicals and revolutionaries, moral thinkers and philosophers, or some of Russia’s best poets, artists, and film directors. Depending on student interest for its emphases, this course will read the likes of Lev Shestov, Liubov Gurevich, S. Ansky, Boris Pasternak, Osip Mandelstam, Isaac Babel, Evgeniia Ginzburg, Lev Grossman, Elena Shvarts, and perhaps translations of a few Russian-Jewish writers now working in American English.

Humanities.
2 credits.

RUSS 119. Russian Women Writers
Why devote a seminar specifically to Russian women writers? Because they are brilliant and neglected—though we will also read some who have not been neglected. From empresses and princesses to trans cavalry officers, poets and novelists, literary critics, singer-songwriters and yet more poets, we will read a wide variety of Russian women in their cultural and literary context.

Humanities.
2 credits.

RUSS 120. Russian Science Fiction & Fantasy
Science fiction enjoyed surprisingly high status in Russia and the Soviet Union, attracting such prominent mainstream writers as Evgenii Zamiatin and Mikhail Bulgakov. In the post-Stalinist years of stagnation, science fiction was a refuge from stultifying official Socialist Realism for authors like Arkady and Boris Strugatsky. Since the end of Soviet literary censorship, speculative fiction has continued its important role in public discourse, while fantasy (formerly banned from official publication) has emerged as an important genre in both young adult and mainstream literature.

Humanities.
2 credits.

Fall 2019. Forrester.

RUSS 121. Nabakov
As any reader of Vladimir Vladimirovich Nabokov knows, his Russian background is essential to understanding of his writing and career. This class will concentrate on his Russian novels, stories and a few examples of poetry, written before his second emigration from Europe to the US. That beautiful style, caressing the divine details, is just as beautiful in the original!

Humanities.
2 credits.

Music
The study of music as a liberal art requires an integrated approach to theory, history, and performance, experience in all three fields being essential to the understanding of music as an artistic and intellectual achievement. Theory courses train students to understand and hear how compositions are organized. History courses introduce students to methods of studying the development of musical styles and genres and the relationship of music to other arts and areas of thought. The department encourages students to develop performing skills through private study and through participation in the chorus, gamelan, jazz ensemble, orchestra, wind ensemble, and the Fetter Chamber Music Program, which it staffs and administers.

The Academic Program

Course Major
The music major curriculum normally includes the following components. Every student’s program is subject to approval by music faculty, taking into consideration the student’s background and goals. We welcome individualized proposals, which are evaluated and approved on the basis of consultations with the music faculty. We emphasize the importance of depth and mastery of musical skills and understanding, and we also recognize the value of studying the diversity of musical cultures.

A. Required. 4 courses in Music Theory plus musicianship sections (MUSI 040). MUSI 040 may be taken for 0.0 or 0.5 credit at the student’s option.

- MUSI 011 and 040A
- MUSI 012 and 040B
- MUSI 013 and 040C
- One additional upper level Music Theory course (MUSI 014, MUSI 115, or other advanced course in theory) and MUSI 040D
Music and Dance: Music

Majors are strongly advised to take 5 Music Theory courses if possible.

B. Required. 2 courses in Music History and Literature from among the following
- MUSI 020 (Medieval and Renaissance)
- MUSI 021 (Baroque and Classical)
- MUSI 022-W (19th-Century Europe)
- MUSI 023-W (20th Century)

C. Required. Ethnomusicology. 1 course from among the following
- MUSI 002C (Taiko and the Asian American Experience)
- MUSI 005A (Music and Dance Cultures of the World)
- MUSI 006C (Music and the Battle Between Good and Evil)
- MUSI 008A (Music & Mao: Music and Politics in Communist China)
- MUSI 008B (Music, Race and Class)

D. Required. 1 elective.
This may be an additional course --- at any level, introductory or advanced --- in Music History and Literature; in Ethnomusicology or World Traditions; or in Music Theory; Conducting and Orchestration; or Composition. Alternatively, with permission of the music faculty, it could be an academic course in Theater or Dance if relevant to the student’s interests.

E. Required. 1 course to fulfill the Senior Comprehensive requirement.
- MUSI 094: Senior Research Topics

During their senior year, majors in the Course Program will take the departmental comprehensive examination, which normally consists of the study of a single musical work or cultural style (selected in advance by the student, subject to the approval of the department) which demonstrates skills in the three areas of analysis, historical or socio-cultural research, and performance. Majors in course will enroll in MUSI 094 (Senior Research Topics in Music) in the spring semester of their senior year to prepare for their senior comprehensive examination.

F. Required. Additional Requirements for Course Majors:
- Keyboard Skills Exam
- Department ensemble for at least four semesters

The following is a description of these additional requirements:

Keyboard skills. This program is designed to develop keyboard proficiency to a point where a student can use the piano effectively as a tool for studying music. Students learn to perform repertoire and, in addition, play standard harmonic progressions in all keys. The department offers free private lessons to all majors and minors who need support in this area. No academic credit is given for these lessons. All music majors are expected to be able to perform a two-part Invention of J. S. Bach (or another work of similar difficulty) by their senior year.

Department ensemble. The department requires majors and minors to participate in any of the departmental ensembles (Orchestra, Chorus, Wind Ensemble, Jazz Ensemble, Chinese Music Ensemble, and Gamelan). We also recommend that students participate in other activities, such as playing in Chamber Music ensembles or seeking out service-learning experiences that incorporate music.

Course Minor

A. Required. At least two courses in Music Theory plus Musicianship sections (MUSI 040). MUSI 040 may be taken for 0.0 or 0.5 credit at the student’s option.
- MUSI 011 and 040A
- MUSI 012 and 040B

B. Required. At least two courses in Music History and Literature, and/or in Ethnomusicology, from among the following:
- MUSI 002C (Taiko and the Asian American Experience)
- MUSI 005A (Music and Dance Cultures of the World)
- MUSI 006C (Music and the Battle Between Good and Evil)
- MUSI 008A (Music & Mao: Music and Politics in Communist China)
- MUSI 008B (Music, Race and Class)
- MUSI 020 (Medieval and Renaissance)
- MUSI 021 (Baroque and Classical)
- MUSI 022-W (19th-Century Europe)
- MUSI 023-W (20th Century)
- Any other Music History course numbered above 023

C. Required. 1 elective.
This may be an additional course --- at any level, introductory or advanced --- in Music History and Literature; in Ethnomusicology or World Traditions; or in Music Theory. Alternatively, with permission of the music faculty, it could be an academic course in Theater or Dance if relevant to the student’s interests.

D. Additional Requirements
- Department ensemble for at least two semesters; and at least one of the following, subject to departmental approval of a written proposal:
  - Keyboard Skills Exam
  - Service-learning project in music
  - Senior recital
  - Special project in music
Music and Dance: Music

Honors Major

Summary: The music major in honors is identical to the music major in course in its prerequisites, required coursework, and requirements for keyboard skills, and Department Ensemble membership. In addition, honors majors do three honors preparations in music.

Three Honors Preparations:

1. Required Honors Preparation: Senior Research Project. This consists of MUSI 094 (Senior Research Topics) in combination with one course in Music History and Literature, in Music Theory, or in Ethnomusicology.

2., 3. Elective Honors Preparations, normally one of the following:

- **Music Theory.** A 2-credit honors preparation in Music Theory is normally based on MUSI 115 in combination with one lower-level Music Theory course.

- **Music History.** A 2-credit honors preparation in Music History may be based on any music seminar numbered 100 or higher or on any other Music History course when augmented by concurrent or subsequent additional research, directed reading, or tutorial, with faculty approval.

- **Composition.** At least two semesters of MUSI 019 (Composition)

- **Senior Honors Recital.** A Senior Honors Recital preparation is available only to students who have distinguished themselves as performers. It is normally limited to those who have won full scholarships through MUSI 048. Students who wish to pursue this option must follow all of the steps listed in the departmental guidelines for senior recitals (see department website) and obtain approval of their program from the music faculty during the semester preceding the proposed recital. They should register for MUSI 099: Senior Honors Recital. This full credit, together with at least another full credit of relevant coursework in music, will constitute the 2-credit honors preparation. One faculty member will act as head advisor on all aspects of the honors recital. As part of the honors recital, the student will write incisive program notes on all of the works to be performed. This work will be based on substantive research -- including analytical as well as historical work -- and will be overseen by one or more members of the music faculty.

- **Senior Thesis.**

Oral examinations are given for all honors preparations in music. Written examinations, in addition to oral examinations, are given for those preparations based on courses or seminars, not for theses, performances, and composition portfolios.

Honors Minor

A. Required. Two courses in Music Theory plus Musicianship sections (MUSI 040). MUSI 040 may be taken for 0.0 or 0.5 credit at the student’s option.

- MUSI 011 and 040A
- MUSI 012 and 040B

B. Required. At least two courses in Music History and Literature, and/or in Ethnomusicology, from among the following:

- MUSI 002C (Taiko and the Asian American Experience)
- MUSI 005A (Music and Dance Cultures of the World)
- MUSI 006C (Music and the Battle Between Good and Evil)
- MUSI 008A (Music & Mao: Music and Politics in Communist China)
- MUSI 008B (Music, Race and Class)
- MUSI 020 (Medieval and Renaissance)
- MUSI 021 (Baroque and Classical)
- MUSI 022-W (19th-Century Europe)
- MUSI 023-W (20th Century)
- Any other Music History course numbered above 023

C. Required. 1 elective.

This may be an additional course --- at any level, introductory or advanced --- in Music History and Literature; in Ethnomusicology or World Traditions; in Music Theory. Alternatively, with permission of the music faculty, it could be an academic course in Theater or Dance if relevant to the student’s interests.

D. One honors preparation.

- See Honors Major for descriptions of possible Honors Preparations.

E. Additional Requirements.

- Keyboard Skills Exam
- Department ensemble for at least two semesters

Special Major

The department welcomes proposals for special majors involving music and other disciplines. Recent examples include the following:

- Special Major in Music and Education
- Special Major in Ethnomusicology

Other special majors are possible. For more information, contact the department chair.
Music and Dance: Music

Off Campus Study/Language Study
Students are encouraged to seek possibilities for off campus study, in accordance with their particular interests, in consultation with the music faculty and the off-campus study advisor.

Students are advised that many graduate programs in music require a reading knowledge of at least two languages, with one most commonly being either German or French.

Application Process Notes for the Major or the Minor
We do not have a minimum grade point average (GPA) for admission as a major or minor. In its place is a consensus of music faculty that the student can do good work in the discipline. The situation is perhaps more complex in music than in other fields because we think that a major (or minor) should have basic musical as well as purely intellectual abilities, not all of which can be measured by a GPA. We do consider the likelihood of a student’s passing the Comprehensive Examination. Students applying for admission as majors in the Honors Program should have done exceptionally high-quality work in the department and should have shown strong self-motivation.

Prerequisites for acceptance into the program:
For acceptance as a music major: MUSI 011/040A and one Music History/Ethnomusicology course from the list below.

For acceptance as a music minor: MUSI 002B or MUSI 011/040A or one Music History/Ethnomusicology course from the list below.

If a student has not completed these prerequisites at the time of an application for a major/minor, but has done good work in one or more courses in the department, acceptance may be granted on a provisional basis.

Music History/Ethnomusicology courses that can be applied towards acceptance into the program:
MUSI 002C, MUSI 004A, MUSI 004B, MUSI 005A, MUSI 005B, MUSI 005C, MUSI 006A, MUSI 006B, MUSI 006C, MUSI 008A, MUSI 008B, MUSI 020, MUSI 021, MUSI 022, MUSI 023, MUSI 027, MUSI 028 MUSI 031, MUSI 035.

Additional Resources
Special scholarships and awards in music include the following (see 17 Distinctions, Awards, and Fellowships):
The Renee Gaddie Award
Music 048 Special Awards
The Boyd Barnard Prize
The Peter Gram Swing Prize
The Melvin B. Troy Prize in Music and Dance

Credit for Performance
Note: All performance courses are for half-course credit per semester. No retroactive credit is given for performance courses.

Individual Instruction (MUSI 048)
Academic credit and subsidies for private instruction in music are available to students at intermediate and advanced levels. For further details, consult the MUSI 048 guidelines on the Music Program website.

Orchestra, Chorus, Wind Ensemble, Chinese Music Ensemble, Gamelan, Chamber Music, Jazz Ensemble
Students may take Performance Chorus (MUSI 043), Performance Garnet Singers (MUSI 050, co-requisite MUSI 043 required), Performance Orchestra (MUSI 044), Performance Jazz Ensemble (MUSI 041), Performance Wind Ensemble (MUSI 046), Performance Chinese Music Ensemble (MUSI 042), Performance Chamber Music (MUSI 047), or Performance Gamelan (MUSI 049A) for credit with the permission of the department member who has the responsibility for that performance group. The amount of credit received will be a half-course in any one semester. Students applying for credit will fulfill requirements established for each activity (i.e., regular attendance at rehearsals and performances and participation in any supplementary rehearsals held in connection with the activity). Students are graded on a credit/no credit basis.

Students wishing to take Chamber Music (MUSI 047) for credit must submit to the chamber music coordinator at the beginning of the semester a proposal detailing the repertory of works to be rehearsed, coached, and performed during the semester. It should include the names of all student performers and the proposed performance dates, if different from the Elizabeth Pollard Fetter Chamber Music Program performance dates. One semester in a Department Ensemble is a prerequisite or co-requisite for each semester of MUSI 047. This applies to all students in each Fetter Chamber group. It is expected that Fetter students in Department Ensembles will play the same instrument/voice in both activities.

Students taking MUSI 047 for credit will rehearse with his or her group or groups at least 2 hours every week and will meet with a coach (provided by the department) at least every other week. All members of the group should be capable of working well both independently and under the guidance of a coach. It is not necessary for every person in the group to be taking MUSI 047 for credit, but the department expects that those taking the course for credit will adopt a leadership role in organizing rehearsals and performances. Note: MUSI 047 ensembles do not fulfill the ensemble requirement for lessons under MUSI 048.
Music and Dance: Music

Music Courses and Seminars

Introductory Courses without Prerequisite

MUSI 002B. Reading and Making Music: The Basics of Notation
An introduction to the elements of music notation, theory (clefs, pitch, and rhythmic notation, scales, keys, and chords), sight singing, and general musicianship. Recommended for students who need additional preparation for MUSI 011 or to join the College chorus.

Humanities.
1 credit.
Fall 2019. Hauze.
Fall 2020. Hauze.

MUSI 002C. Taiko and the Asian American Experience
In this course we will examine the origins of Taiko drumming in Japan and consider how the tradition has developed in North America over the past four decades. We will discuss the role of Taiko drumming in the Asian American Movement, explore different styles of contemporary Taiko in Asian America, and gain basic drumming competency. Through the integration of academic and performance study we will consider and experience Taiko drumming as a prominent and dynamic Asian American performing art. Open to all students without prerequisite. No prior performance or musical background is required.

Humanities.
1 credit.
Eligible for ASIA

MUSI 003. Jazz History
In-depth insights into Jazz history from its African roots and early forms to its recent developments. Focusing on exemplary recordings and musicians and including visiting Jazz musicians in class, the student will be able to get an overview as well as to make personal experiences and to develop listening and analyzing abilities.

Humanities.
1 credit.

MUSI 003A. Introduction to Music Technology
An exploration of introductory concepts in music technology including audio production, MIDI sequencing, sampling, synthesis, and other pertinent topics through creative projects using Logic Pro X software. Creative projects will include short "etudes" which focus on specific tasks meant to cultivate the above skills, along with more open-ended final and midterm projects, which will be inclusive of all musical styles and focus on each student’s individual compositional voice. Other activities will consist of group discussion, student presentations of their work in class, and the study of repertoire in many musical genres including but not limited to musique concrete, acousmatic music, drone, noise, electronic dance music, hip-hop, Plunderphonics, electroacoustic improvisation, and vaporwave.

This course is open to every student without prerequisite, regardless of their previous experience with music or technology.

Humanities.
1 credit.
. Collins.

MUSI 004A. Zombie Art: Why Opera Will Never Die
Do you sometimes enjoy insatiable lust, crazed debauchery, a bit of madness? How about the thrill of revenge, exquisite music, demented theater, and hunchbacks? Please read on...

This class explores the exhilarating musical, dramatic and cultural tightrope walk that is opera. Before there was Justin Timberlake there was Farinelli, and way before today’s trans movement there was normalized gender bending. We will examine key works from opera’s 400-year history and take a closer look at the unfolding of this deeply human, monumental art form and the forces that have tried, unsuccessfully, to kill it over the last century. This class is intended to demystify what is often seen as an elitist music, and requires no pretentiousness or previous operatic experience.

Humanities.
1 credit.

MUSI 004B. The Symphony
This course will examine the history of the symphony from its beginnings in music of the late Baroque period to the end of the 20th century. We will examine a number of important symphonic works by such composers as Haydn, Mozart, Beethoven, Berlioz, Brahms, Chaikovsky, Mahler, Shostakovich, and Gorecki in order to discuss issues of genre, form, and performance forces in the context of shifting historical and social trends.

Humanities.
1 credit.

MUSI 004C. Russian Culture through Music
(Cross-listed as RUSS 019)
Music has always played a central role in Russian cultural life. By shaping and responding to various cultural, social, and political changes, it has served as a space for the construction and negotiation of individual and national identity. This course will begin with a brief historical survey, touching upon the folk tradition and the beginning of Russian classical music and opera - Glinka, Musorgsky, Tchaikovsky, Shostakovich, etc. We will also examine the development of Russian music through different historical periods, concentrating on an area of common interest for the specific group of students enrolled in the course. Some of the questions this course will pose, and hopefully answer, at least partially, are: How does a piece of
music reflect the ideological and political situation of its time? How does it reveal the aesthetic sensibilities and aspirations of the composers, their listeners, and society at large? How has music's function as breeding ground for social and cultural values changed in post-Soviet times?

Humanities.

1 credit.

**MUSI 005. U.S. Pop Music History**
A survey of American popular music from the late 19th century to the present day based on discussions of individual case studies of music, musicians, and genres in the context of American history. Emphasis is on understanding musical developments with respect to American race and gender relations, structures of musical production, youth cultures, urban and rural musical cultures, immigration and emigration, war and violence, audiences and reception, and fan communities. Topics include blackface minstrelsy, tin pan alley, early blues, crooners, rock 'n' roll, girl groups, the "British Invasion", heavy metal, glam rock, divas, hip hop, file sharing and iTunes, social media, and live performances vs. studio recording.

Humanities.

1 credit.

**MUSI 005A. Music and Dance Cultures of the World**
(Cross-listed as DANC 005A, SOAN 020D)
In this course we take an ethnomusicological approach to examine music and dance cultures from around the world. We will consider music and dance both as culture with attention to social, political, and historical contexts. Topics will include identity, race, ethnicity, gender, class, religion, memory, migration, globalization, tourism, and social and political movements. The course will provide an opportunity to develop critical listening and analytical skills to discuss sound and movement.

1 credit.

**MUSI 005B. Popular Music and Masculinities from Rock 'n' Roll to Boy Bands**
This course examines the ways in which varying masculinities have been articulated, performed, and marketed in American popular music from the 1950s to the present day. Musical case studies include Rock 'n' roll, boy bands, and contemporary Hip Hop. It examines how popular music has facilitated a challenge to gender and sexual norms, or alternatively, how it has served to model or reinforce norms. Particular focus will be given to the intersections of gender, sexuality, race, ethnicity, class, and ability. This course includes musical analysis, music video analysis, scholarly articles in musicology, and theoretical readings in gender studies. It is therefore both a history of popular music and a history of gender and sexuality.

Humanities.

1 credit.

Eligible for GSST

**MUSI 005C. Traditional Musics of World Cultures**
Introduction to world music and ethnomusicology via a set of case studies on traditional music and music-making practices. This course stresses music as an integral to--constitutive of, rather than separate from--the culture in which it is rooted. Within this framework we will discuss how the concept of "tradition" does not necessarily imply historical fact, but can be more influenced by understandings of and nostalgic feelings about "the past" as commentary and critique of the present. The course's final project will consist of individual ethnomusicographic projects, in which students engage with a local community group or musicians involved in some form of traditional music practice.

Humanities.

1 credit.

**MUSI 005D. The Art of the American Musical**
(Cross-listed as ENGL 095A, THEA 005B)
The triumph of Hamilton: An American Musical, by Lin-Manuel Miranda, over Shuffle Along, or, the Making of the Musical Sensation of 1921 and All That Followed, by George C. Wolfe, at the 2016 Tony Awards is a metaphor for the racial amnesia concerning art by and about blacks who are not useful to neoliberal public policy. This course applies #blacklivesmatter to the American musical--between the all-black-cast revival, Beyoncé, biological versus social origins of race, black culture in a "post-soul" era, blackface versus black-on-black minstrelsy, the chitlin circuit, color-blind versus conceptual casting, genre, gospel, and reviews of Porgy and Bess, by George Gershwin, Ira Gershwin, and DuBose Heyward, in black daily newspapers and black monthly and weekly magazines--taking seriously Wolfe’s claim about intellectual history that "given the dynamics of this country, you may find yourself at a point where your story is no longer valuable, acute or attractive, and if it hasn’t been recorded, if you haven’t recorded it or if you haven’t put into motion people to record it, then it won’t be there." These topics require students to conduct research into the African-American experience in the musical as well as listen to sound recordings of Broadway, Off-Broadway, regional/tour, and West End stage works and watch film, television, video, and video clips on YouTube.

Humanities.

1 credit.

Eligible for BLST
MUSI 005E. Popular Music and Media
LITR 026 FMST 026
Is Bohemian Rhapsody (2018) the Stop Making Sense (1984) of this generation? How does YouTube compare to Indie records? What’s similar and what’s different? What is the relationship between social media and commercial means of distribution, and what is its effect on fandom? This team-taught course investigates the histories, structures and cultural connections between popular music and other media. How do musical expressions and genres interact with medium specificity? How can we understand changing exhibition formats (stadium vs. lounge vs. club) and distribution venues (record store vs. Spotify)? How does celebrity culture then and now impact what is popular and how does it affect the music industry and vice versa? What lies at the intersection of national, socio-political and fan cultures? Providing a grounding in music and media history and theory, we will research and analyze mainstream and independent case studies in radio, film, theater, television and social media in order to better understand and engage with the complex webs that characterize contemporary media, its production, and its consumption.
Humanities.
1 credit.

MUSI 006. Arts in Action
(Cross-listed as DANC 004)
This course aims to bring together students with an interest in investigating and investing in social change work through the arts. Our seminar community will engage in discussion of readings and video viewings, will host and visit local leaders from the arts and social change movement, and will engage in fieldwork opportunities as required parts of the course. Papers, journals, and hands-on projects will all be included. This course fulfills a Prerequisite requirement for dance major and minors.
Humanities.
1 credit.
Eligible for PEAC, CBL

MUSI 006B. Music and War
This course will explore the various contexts and motivations for music making during the Holocaust and World War II era. In the universe of the Nazi ghettos and concentration camps, music was a vehicle for transmitting political rumors, controversies, stories, and everyday events as well as a form of spiritual resistance. In the broader context of war, it was used for political and nationalist agendas. This course will draw on a wide range of music, from folk songs and popular hit tunes to art music intended for the concert stage.
Humanities.
1 credit.
Fall 2020. Milewski.

MUSI 006C. Music and the Battle Between Good and Evil
Who has the power to control music? How can music function in extreme states? Is it different than what it sounds like in periods of normalcy? This course will explore music within the context of totalitarian regimes of the 20th century. Beginning with Stalin and Socialist Realist aesthetics in the Soviet Union of the late 1920s, we’ll move westward to look at the rise of Hitler and the Nazis in 1930s Germany, and then east to Mao’s Chinese Cultural Revolution (1966-1976). We will consider how these leaders attempted to impose political ideology on the contours of musical expression in their countries, and how individuals forged personal meanings for these musics. We will turn to contemporary memories (examining first person accounts, memoirs, and survivor testimonies) in order to explore moments in which individuals succeeded in subverting control. We will consider sources ranging from mass songs to epic musical theatre, marches to model revolutionary ballet, as well as propagandistic films and poster art.
Humanities.
1 credit.

MUSI 007B. Beethoven and the Romantic Spirit
An introduction to Beethoven’s compositions in various genres. We will consider the artistic, political, and social context in which he lived and examine his legacy among composers later in the 19th century (Berlioz, Chopin, the Schumanns, Brahms, Wagner, and Mahler).
No prior knowledge of music is assumed.
Humanities.
Writing course.
1 credit.

MUSI 008. Music, Politics, and Society in the Modern Middle East: 1922-2016
Home to many of the world’s oldest civilizations and major religions, the Middle East remains a region of remarkable cultural diversity. From the fall of the Ottoman Empire in 1922 to the Arab Spring and the current refugee crisis, this vast territory has experienced extraordinary political and social change over the past nearly one hundred years. While often riven by conflict, the Middle East is also a site of ever-renewing intellectual, artistic, and political movements. The musical soundtrack to this constellation of dynamic forces is rich and complex, animated by shifting social environments and ongoing intercultural encounters. Arabs, Turks, Persians, Jews, Kurds, Greeks, Berbers, Armenians, Assyrians, and many other ethno-linguistic and religious identities all claim unique forms of musical expression, mirroring in many cases their environments-rural, urban, desert, coastal, seafaring, nomadic, antiquated, hypermodern, pious, and defiantly secular. In this course we will examine nearly a
century of music making in the Middle East focusing on Turkey, Iran, and the countries of the Eastern Mediterranean and North Africa. Readings, audio examples, films, and in-class music making will address the ways that music of the Middle East intersects with religious practices, nationalism, gender, sexuality, language, ethnicity, migration, and protest movements. Through an exploration of elite, popular, folk, and sacred music among others, we will attempt to make sense of the rich and varied soundscapes of the modern Middle East. 1 credit. Eligible for PEAC

MUSI 008A. Music & Mao: Music and Politics in Communist China
(Cross-listed as SOAN 020E)
In this course we will examine music in post-1949 China with particular emphasis on cultural and political trends of the 20th and 21st century. We will consider cultural policies of the Communist Party of China and influential interactions with other countries inside and outside of Asia. Though focusing primarily upon music, discussion will also include visual arts, dance, and theater. 1 credit. Eligible for ASIA

MUSI 008B. Music, Race and Class
(Cross-listed as BLST 008B)
What is the power of music? How can music empower individuals and groups in the fight for justice? In this course we will investigate contemporary case studies from around the world when groups have employed music to confront racism and classism in pursuit of social justice. Case studies include Apartheid South Africa, Buraku Taiko drummers in Japan, and the Kamehameha Schools Songs Contest in Hawai‘i. Students will complete an original community project to share their course experience with other students on campus. Open to all students without prerequisite. Humanities. 1 credit. Eligible for PEAC, BLST, GLBL-Core Fall 2019. Bryant.

MUSI 009A. Music and Mathematics
This course will explore the basic elements of musical language from a scientific and mathematical perspective. We will work collaboratively to uncover relationships and features that are fundamental to the way that music is constructed. Although intended for science, mathematics, engineering, and other mathematically minded students, the course will introduce all necessary mathematics; no specific background is required. Some knowledge of musical notation is helpful but not required. This course provides the necessary background to enable students to enroll in MUSI 011. Humanities. 1 credit. Fall 2019. Kochavi.

Theory and Composition
Students who anticipate taking further courses in the department or majoring in music are urged to take MUSI 011 and 012 as early as possible. Advanced placement is assigned on a case-by-case basis, after consultation with theory and musicianship faculty. Majors will normally take MUSI 011 to 015.

MUSI 011.01. Harmony, Counterpoint, and Form 1
This course will provide an introduction to tonal harmony and counterpoint, largely as practiced in 18th- and 19th-century Europe. Topics include simple counterpoint in 2 parts, harmonization of soprano and bass lines in four-part textures, systematic study of common diatonic harmonies, features of melody and phrase, and the Blues. All MUSI 011 students must register for an appropriate level of MUSI 040A for 0 or 0.5 credit. Keyboard skills lessons may also be required for some students. Prerequisite: Knowledge of traditional notation and major and minor scales; ability to play or sing at sight simple lines in treble and bass clef. Humanities. 1 credit. Fall 2019. Blasina. Fall 2020. Blasina.

MUSI 011.02. Harmony, Counterpoint, and Form 1
This seminar will provide an introduction to tonal harmony and counterpoint, largely as practiced in 18th- and 19th-century Europe. Topics include simple counterpoint in 2 parts, harmonization of soprano and bass lines in four-part textures, systematic study of common diatonic harmonies, features of melody and phrase, the Blues, and classical theme and variation techniques. Certain examples for analysis will be drawn from current repertoire of the College Orchestra, Chorus, and Jazz Ensemble. All MUSI 011 students must register for an appropriate level of MUSI 040A for 0 or 0.5 credit. Keyboard skills lessons may also be required for some students. Prerequisite: Knowledge of traditional notation and major and minor scales; ability to play or sing at sight simple lines in both treble and bass clef. Humanities. 1 credit. Fall 2019. Blasina. Fall 2020. Blasina.

MUSI 012. Harmony, Counterpoint, and Form 2
This course will provide continued work on tonal harmony and counterpoint, largely as practiced in 18th- and 19th-century Europe. Topics include two-voice counterpoint, harmonization of soprano
Music and Dance: Music

and bass lines in four-part textures, phrase
structure, small and large scale forms, modulation
and tonization, and analysis using prolongational
reductions. We will also study minuet form in
detail, culminating in a final composition project.
All MUSI 012 students must register for an
appropriate level of MUSI 040B for 0 or 0.5
credit. Keyboard skills lessons are required for all
students in MUSI 012.

Humanities.

1 credit.

Spring 2021. Staff.

MUSI 013. Harmony, Counterpoint, and
Form 3

Continues and extends the work of Music 12 to
encompass an expanded vocabulary of chromatic
tonal harmony, based on Western art music of the
18th and 19th centuries. The course includes
analysis of smaller and larger works by such
composers as Bach, Mozart, Beethoven, Schubert,
Chopin, Liszt, Brahms, and Wagner; in-depth
study of such large-scale topics as sonata form;
and written musical exercises ranging from
harmonizations of bass and melody lines to
original compositions in chorale style.
All MUSI 013 students must register for an
appropriate level of MUSI 040C for 0 or 0.5
credit. Keyboard skills lessons may also be
required for some students.

Humanities.

1 credit.

Fall 2019. Levinson.
Fall 2020. Levinson.

MUSI 014. Harmony, Counterpoint, and
Form 4

This course provides continued work in chromatic
harmony and 18th-century counterpoint, largely as
practiced in Europe. It will primarily take the form
of a literature survey. For the first half of the
semester, our focus will be on short pieces; during
the second of the semester we will study keyboard
fugues and other larger-scale works. This course
includes a service-learning project.
All MUSI 014 students must register for an
appropriate level of MUSI 040D for 0 or 0.5
credit. Keyboard skills lessons may also be
required for some students.

Humanities.

1 credit.

MUSI 018. Conducting and Orchestration

This course approaches the understanding of
orchestral scores from a variety of perspectives.
We will study techniques of orchestration and
instrumentation, both in analysis of selected
works, and in practice, through written exercises.
The history, and philosophy of conducting will be
examined, and we will work to develop practical
conducting technique. Score reading, both at the
piano and through other methods, will be practiced
throughout the semester.
Prerequisite: MUSI 012, or permission of the
instructor.

Humanities.

1 credit.

MUSI 040. Elements of Musicianship

Sight singing and rhythmic and melodic dictation.
Required for all MUSI 011 to MUSI 014 students,
with or without 0.5 credit. The instructor will
place students at appropriate levels.
0.0 or 0.5 credit.

MUSI 040A. Elements of Musicianship I

The Elements of Musicianship courses explore
music making from a variety of perspectives and
across many styles and genres of (mostly) Western
music. Among the skills developed are: sight-
singing melodies and arpeggiated harmonic
progressions; singing and playing the piano
simultaneously; part singing in choral works;
taking musical dictation; transcription of recorded
music; basic conducting; beginning keyboard
harmony; and transposition.
The first semester, Music 40A, provides an
introduction to scale degree solmization; singing
major and minor scales (all forms); fluency in all
keys and time signatures; rhythmic subdivision;
conducting patterns; intervals within the
major/minor scales and primary triads; passing and
neighboring tones; decontextualized perfect
intervals; and diatonic keyboard skills.
Required for all MUSI 011 students, with or
without 0.5 credit. The instructor will place
students at appropriate levels.
0.0 or 0.5 credit.

Fall 2019. Hauze.
Fall 2020. Hauze.

MUSI 040B. Elements of Musicianship II

The Elements of Musicianship courses explore
music making from a variety of perspectives and
across many styles and genres of (mostly) Western
music. Among the skills developed are: sight-
singing melodies and arpeggiated harmonic
progressions; singing and playing the piano
simultaneously; part singing in choral works;
taking musical dictation; transcription of recorded
music; basic conducting; beginning keyboard
harmony; and transposition.
The second semester, Music 40B, explores the use
of triads in inversion; tonizations of closely
related key areas; chromatic non-harmonic tones;
the dominant seventh chord; syncopation and
cross-rhythm; and complex subdivision.
Required for all MUSI 012 students, with or
without 0.5 credit. The instructor will place
students at appropriate levels.
0.0 or 0.5 credit.

MUSI 040C. Elements of Musicianship III
The Elements of Musicianship courses explore music making from a variety of perspectives and across many styles and genres of (mostly) Western music. Among the skills developed are: sight-singing melodies and arpeggiated harmonic progressions; singing and playing the piano simultaneously; part singing in choral works; taking musical dictation; transcription of recorded music; basic conducting; beginning keyboard harmony; and transposition. The third semester, Music 40C, introduces atonal melodies using seconds, thirds, fourths, and fifths and continues to explore closely related modulation and chromatic tonicization; sequences; advanced triplets and irregular meters; advanced transposition; the "church" modes; the whole tone scale; and the octatonic scale. Required for all MUSI 013 students, with or without 0.5 credit. The instructor will place students at appropriate levels. 0.0 or 0.5 credit. Fall 2019. Hauze. Fall 2020. Hauze.

MUSI 040D. Elements of Musicianship IV
The Elements of Musicianship courses explore music making from a variety of perspectives and across many styles and genres of (mostly) Western music. Among the skills developed are: sight-singing melodies and arpeggiated harmonic progressions; singing and playing the piano simultaneously; part singing in choral works; taking musical dictation; transcription of recorded music; basic conducting; beginning keyboard harmony; and transposition. The fourth and final semester, Music 40D, explores advanced atonal melodies; distant chromatic modulation; diminished seventh chords; Neapolitan and augmented sixth chords; and mixed meters. Required for all MUSI 014 students, with or without 0.5 credit. The instructor will place students at appropriate levels. 0.0 or 0.5 credit. Spring 2020. Hauze. Spring 2021. Hauze.

MUSI 061. Jazz Improvisation
A systematic approach that develops the ability to improvise coherently, emphasizing the Bebop and Hard Bop styles exemplified in the music of Charlie Parker and Clifford Brown. Prerequisite: Ability to read music and fluency on an instrument. Humanities. 1 credit.

History of Music

MUSI 020. Medieval and Renaissance Music
A survey of European art music from the late Middle Ages to the 16th century. Relevant extramusical contexts will be considered. Prerequisite: MUSI 011 or the equivalent. Humanities. 1 credit. Fall 2019. Blasina.

MUSI 021. Baroque and Classical Music
This course will survey European art music from the 16th-century Italian madrigal to Haydn’s Creation. Relevant extramusical contexts will be considered. Prerequisite: MUSI 011 or the equivalent. Humanities. 1 credit. Spring 2021. Blasina.

MUSI 022. 19th-Century European Music
This survey considers European art music against the background of 19th-century Romanticism and nationalism. Composers to be studied include Beethoven, Schubert, Chopin, Berlioz, Robert and Clara Schumann, Wagner, Verdi, Brahms, Dvorak, Musorgsky, and Chaikovsky. Prerequisite: MUSI 011 or the equivalent. Humanities. Writing course. 1 credit.

MUSI 023. 20th-Century Music
A study of the various stylistic directions in music of the 20th century. Representative works by composers from Debussy, Stravinsky, and Schoenberg through Copland, Messiaen, and postwar composers such as Boulez and Crumb, to the younger generation will be examined in detail. Prerequisite: MUSI 011 or the equivalent. Humanities. Writing course. 1 credit. Fall 2020. Milewski.

MUSI 024. Opera Production Workshop
(Cross-listed as THEA 005) Opera is a collaborative art form, involving composing, writing, performing, stage directing, choreography and design. In this workshop-based class, students will gain a basic understanding of opera as an art form and experience all aspects of the rehearsal and production process. The class culminates in the performance of an original opera written, directed, and performed by faculty and students. Open to students with permission of the instructors. Humanities. 1 credit. Fall 2019. Stevens.
MUSI 025. American Musical Theater
Musical theater has often been considered a quintessentially American genre. But how has it helped Americans to understand America. This survey will trace the genre’s musical and dramatic development and explore representations of race, ethnicity, gender, and sexuality.
Prerequisite: MUSI 011 or permission of the instructor.
Humanities.
1 credit.

MUSI 026. Dance in Europe and North America: 19th and 20th Centuries (Cross listed as DANC 022)
This survey covers theatrical dance in Europe and North America from the French Revolution through the late twentieth century, examining ballet and modern dance within the greater performance contexts. We will also consider ways in which race, gender, sexuality, and politics affect dance creation, performance, and dissemination.
Humanities.
Writing course.
1 credit.
Eligible for MDST.

MUSI 027. Divas
This course examines the musical performances and personae of 20th and 21st century musical "divas" through the lenses of race, class, gender, sexuality, and fandom. Special attention is on how popular divas have disrupted dominant discourses of gender, sex, race, religion, and embodiment, as well as articulated resistance to hegemonic cultural requirements. Discussions will address questions such as: Who is a diva, and what constitutes diva-ness? How have divas defined, expanded, and transgressed boundaries of acceptable female musicianship? How can subversion and resistance be read in mass-produced cultural forms? What has the effect of technology and mediation been on diva performance and reception? What is the role of camp and outrageousness in diva performance and imitation?
Prerequisite: MUSI 011.01 or permission of instructor.
Humanities.
1 credit.
Eligible for ASIA

MUSI 028. Sound, Sinners, and Saints in Medieval England
What did Medieval England sound like? What meanings did individuals attribute to sounds, heard and imagined? This course examines the production and perception of sound and music in England from c. 1000 - c. 1500, considering their relationship to each other, and their roles as vehicles for the transcultural exchange that contributed to formations of English national identity. Using the lenses of sound studies and musicology, this course considers how sound and music could be tools of war and conquest in early English imperialism, as well as the impacts of sound and music on English civic and religious life. In this vein topics include, but are not limited to, sound and criminality, executions, the regulation of sound and music, English sanctity, kingship and queenship, the Crusades, vernacular song and dance, musical innovation, and technologies of music recording. We will treat music on the same level as other kinds of sounds, including those represented in visual sources and those made by inanimate objects (e.g.bells) and animals.
Prerequisite: Ability to read music.
Humanities.
Eligible for MDST.

MUSI 030. Music of Asia
An introduction to selected musical traditions from the vast diversity of Asian cultures. Principal areas will include classical music of India, Indonesian gamelan from Bali and Java, ritual music of Tibet, ancient Japanese court music, Turkish classical music and others. These music will be studied in terms of their technical and theoretical aspects as well as their cultural/philosophical backgrounds. Western musical notation and terminology, including scale types and intervals, will be used.
This course fulfills the World Traditions component of the music major.
Humanities.
1 credit.
Eligible for ASIA, GLBL-Paired

MUSI 031. Music and Culture in East Asia
This course examines music and culture in East Asia with a focus on a selection of contemporary case studies. The course is divided into three units of China/Taiwan/Hong Kong, Japan, and Korea. Each unit will begin with an introduction to leading musical traditions of the area including main instruments, ensemble, and musical genres. We will then closely examine case studies from the 20th and 21st centuries with attention to music and significant social, political, and historical contexts. Students will develop critical reviews of scholarly articles and facilitate class discussions based on assigned reading and listening materials. Additional coursework includes performance workshops, reading, and listening.
Humanities.
1 credit.
Eligible for ASIA, GLBL-Paired

MUSI 033A. Caribbean/Latin America
This course will focus on the collective genius of the folk, traditional, and popular musics of Cuba and Brazil, such as Afro-Cuban and Afro-Brazilian religious music, changüi, son, danzón charanga, son montuno, timba, samba enredo, samba reggae, afoxé, bossa nova, capoeira, maracatu, mangle beat, pagode, and many others. Selected musical
Music and Dance: Music

genres will be studied for their sounds and formal characteristics, as well as their cultural origins and histories, and occasionally, comparisons will be drawn with musical styles from the U.S., and musics of the respective immigrant populations in the U.S. will be discussed. The class will feature some hands-on demonstrations by guest artists and the instructor. Materials and assignments will include audio recordings, videos, journal articles, textbook chapters, and other writings, mostly drawn from the field of ethnomusicology.

This course fulfills the world traditions component requirement for the music major.

Prerequisite: Knowledge of traditional music notation and major and minor scales.

Recommended, but not required: Knowledge of Spanish or Portuguese.

Humanities.

1 credit.

MUSI 035. Foundations of Ethnomusicology

This course provides an introduction to the history, methodologies, and theories of ethnomusicology. Through review and analysis of past case studies, we will discuss the development of the discipline, engaging with fundamental questions about the relationships among music, culture, scholarship, and advocacy. This course material and assessments will be designed in an interdisciplinary fashion, drawing primarily from music analysis and the social sciences. In addition to individual and collaborative assignments, students will produce ethnographic portfolios of a nearby group or community to be presented at the end of the semester.

Humanities.

1 credit.

MUSI 038. Color and Spirit: Music of Debussy, Stravinsky, and Messiaen

A focused survey of 20th-century music centering on the great renewal of musical expression, increasingly diverging from the Austro-German classic-Romantic tradition, found in the works of these three very individual French and Russian composers, as well as the resonance of their music in the work of their contemporaries and successors, including Ravel, Dukas, Prokofiev, Boulez, and others. The course begins by tracing the origins of this "alternative" conception of what music can do, and how it can work, well back into the 19th century, especially in the music of Liszt and the Russian "Mighty Handful", then considers its continuing and seminal contribution to musical modernism throughout the 20th century. Prof. Levinson is a former student and assistant to Olivier Messiaen.

Some of the principal works to be studied are Debussy's Prelude to the Afternoon of a Faun, La Mer, the opera Pelléas et Mélisande, and songs and piano works; Stravinsky's ballets Petrushka, The Rite of Spring, and others, Symphony of Psalms, Symphony in Three Movements, and the late serial works of the 1960s; Messiaen’s Quartet for the End of Time, Turangalîla Symphony, Oiseaux exotiques, The Transfiguration, the opera Saint Francis of Assissi, and songs, piano and organ works.

Prerequisite: MUSI 011 or permission of the instructor.

Humanities.

1 credit.

MUSI 075. Special Topics in Music Theater

Available to students participating in the study abroad programs coordinated through Swarthmore in France, Ghana, India, or Japan.

Prerequisite: Consent of the dance program director and the faculty advisor for off-campus study.

Humanities.

1 credit.

MUSI 097. Tutorial

Special work in composition, theory, or history.

Humanities.

1 or 2 credits.

MUSI 099. Senior Honors Recital
Honors music majors who wish to present a senior recital as one of their honors preparations must register for MUSI 099, after consultation with the music faculty. See Honors Program guidelines.

1 credit.

**Seminars**

**MUSI 100. Ethnomusicology Seminar**
(Cross-listed as SOAN 100)
Ethnomusicology is an academic discipline that examines music in and as culture. This course examines how the interdisciplinary field has developed over the 20th and 21st centuries through an investigation of its origins, approaches, methodologies, and contemporary theoretical questions. Course readings will address the relationships between music and a variety of conceptual themes including race, ethnicity, identity, nationalism, Diaspora, globalization, and gender. The music cultures we will examine in this course represent a wide range of cultures, geographic regions, musical genres, and historical periods. Students will complete introductory exercises in research, transcription, analysis, ethnographic fieldwork, & performance.

Humanities.

1 credit.

**MUSI 104. Chopin**
This course will provide an in-depth historical study of Chopin’s music. We will examine the full generic range of Chopin’s compositions, taking into account the various socio-cultural, biographical and historical-political issues that have attached to specific genres. Throughout the semester we will also consider such broader questions as: why did Chopin restrict himself almost entirely to piano composition? How might we locate Chopin’s work within the larger category of 19th-century musical romanticism? What does Chopin’s music mean to us today?

Prerequisite: MUSI 011.

Humanities.

1 credit.

**MUSI 106. Winds of Pleasure: The Music and Writing of Hildegard of Bingen in Context and Revival**
Celebrated for her prophetic powers, Hildegard of Bingen was a 12th century composer, abbess, writer of three natural science and medicinal texts, and a sought-after resource for contemporary political and religious leaders. This course examines the music, drama, sermons, letters, and medicinal works written by the visionary and polymath, contextualizing Hildegard’s compositional style within medieval genres.

Special attention will be given to liturgical drama, the recording and compilation of Hildegard’s work during the Middle Ages, compositional aspects of Hildegard’s music, representations of gender, the body, and sexuality in her music and writing. The Hildegard revival of the 19th and 20th centuries will provide case studies (ranging from Anonymous 4 to Swedish folk rock) to analyze contemporary performance practices.

Prerequisite: MUSI 011.01 or permission of the instructor.

1 credit.

**MUSI 115. Harmony, Counterpoint, and Form 5**
Exploration of a number of advanced concepts in music theory including: the study and analytical application of post-tonal theory (including set theory and neo-Riemannian theory), the structure of the diatonic system, applications of theoretical models to rhythm and meter, and geometric models of musical progression.

Prerequisite: MUSI 014.

Humanities.

1 credit.

**MUSI 118. Introduction to Composition**
Prerequisite: MUSI 011 and MUSI 012.

Humanities.

1 credit.

**MUSI 119. Composition**
Repeatable course.
Prerequisite: permission of the instructor.

Humanities.

1 credit.

**MUSI 041. Performance (Jazz Ensemble)**
0.0 or 0.5 credit.

Fall 2019. Neu.

Fall 2020. Neu.

**MUSI 042. Performance. (Chinese Music Ensemble)**
Performance of traditional and contemporary music from different regions of China and the Chinese Diaspora. Students perform on traditional Chinese instruments including the guzheng (zither), erhu (bowed fiddle), pipa (plucked lute), yangqin (hammered dulcimer), dizi (flute), and percussion. Students will choose 1-2 instruments to focus on for the semester based on instrument availability, interest, repertoire, and ensemble needs. Students with no prior musical experience (of any tradition) are welcome to attend the first rehearsal and discuss your interests with Professor Bryant. Instruments will be provided by the Department.
and the class will present a public performance at the end of the semester. Weekly rehearsals in Lang #415, plus an additional 30 minutes per week in smaller groups ("sectional").

Graded CR/NC.

**MUSI 049A. Performance (Balinese Gamelan)**
Performance of traditional and modern compositions for Balinese Gamelan (Indonesian percussion orchestra). Students will learn to play without musical notation. No prior experience in Western or non-Western music is required. The course is open to all students.
0.5 or 0.0 credit.
Eligible for ASIA

**Fall 2020. Whitman. Suadin.**

**MUSI 050. Performance (Garnet Singers)**
Formerly Performance (Chamber Choir)
Corequisite: Students enrolled in MUSI 050 must also be enrolled in MUSI 043 (Performance Chorus).
0.0 or 0.5 credit.
Fall 2019. Gregorio.
Fall 2020. Gregorio.

**MUSI 071. Salsa Dance/Drumming**
(Cross-listed as DANC 071)
0.5 credit.

**Dance**
At Swarthmore, dance is a global discourse. The dance and music programs share an integrated approach to composition, history, performance, and theory in lecture/discussion and studio practice courses. We believe this is central to the understanding of dance as an artistic, intellectual, and social inquiry within a liberal arts context.

**The Academic Program**
The mission of the program is to offer students dance experiences that privilege a merging of embodied practice and history/theory in relation to more than one situated perspective (those listed above). Some courses concentrate on one cultural context only (this is true generally in history, repertory, and technique). Others put a variety of perspectives in conversation (choreographic laboratories, improvisation, history, repertory, and theory). The role of dance as an agent of social change is also present in Swarthmore dance offerings. All dance studies courses engage students in an investigation of the relationship of dance to other arts and areas of thought.

Given the program’s emphasis on developing an awareness of the global nature of dance, study abroad opportunities are seen as a very useful aspect of a student’s undergraduate dance experience. Such study is especially encouraged for dance majors and minors. Study abroad dance programs developed by members of the dance faculty are available in France, Ghana, India, Japan, and United Kingdom. Dance components are also available in programs in Spain and Argentina. Social change engagement is available as an aspect of study abroad experiences in Ghana, India, and Northern Ireland. Additional information regarding study abroad experiences is listed below and can also be found on both the Dance Program and Off-Campus Study websites. In order to further enhance student engagement with the field at large, every year the program hosts diverse national and international dance artists and scholars.
Music and Dance: Dance

Course Major
The goal of the course major in Dance is to expose a student to the broad scope of the field. The distribution of required courses for the major provides students with an introduction to Dance Studies, Choreography, and Performance, and allows them to direct their final credit(s) in the major toward a specific focus: Choreography, Dance Studies or an Individually Created focus. Majors will be required to develop an extended paper or a significant dance performance piece as part of their focus. All dance majors and minors are strongly encouraged to participate in technique and repertory classes each term.

ALL MAJORS WILL DESIGN THEIR PROGRAMS IN CONSULTATION WITH A FACULTY ADVISOR.

Dance Studies
Prerequisites for the Major - Dance Studies focus:
1. One Dance Studies course
2. 1.5 credits which may be distributed among the following:
   a. DANC 011. Dance Lab I: Making Dance
   b. Dance Studies course
   c. Dance Technique or Repertory courses (for academic credit)
Prerequisite credits for Major - Dance Studies focus: 2.5
Requirements:
1. Four Dance Studies courses***
   One course DANC 021, or 022
   One course DANC 004 or 025
   Two Dance Studies elective courses
2. Two Dance Technique and/or Repertory/Ensemble courses**
   One western from DANC 049A, 049B, 049E, 044, 050, 051, 060, 061, or 07
   One non-western from DANC 049C, 049D, 049F, 046, 053, or 057
   3. DANC 095 or 096. Senior Thesis*
Total credits in focus: 6 - 7

Choreography
Prerequisites for the Major - Choreography focus:
These prerequisites are strongly recommended for first-year students and must be completed before the junior year. If a student has not completed all of these prerequisites at the time of an application for a major but has done good work in one or more courses in the program, the student may be accepted on a provisional basis.
1. One Dance Studies course
2. DANC 011. Dance Lab I: Making Dance
3. One Dance Technique class (from any tradition) for academic credit
Prerequisite credits for Major - Choreography focus: 2.5
Requirements:
1. DANC 012. Dance Lab II: Making Dance
2. DANC 045. Dance Technique: Yoga
3. Two Dance Studies courses***
   One course DANC 021, or 022
   One course DANC 004 or 025A
4. Two Dance Repertory/Ensemble courses**
   One western from, DANC 049A, 049B, or 049E
   One non-western from, DANC 049C, 049D, or 049F
5. Four Technique courses**
   Two western from, DANC 044, 050, 051, 060, 061, 070
   Two non-western from, DANC 046, 053, 057
6. *DANC 094. Senior Project
Total credits in focus: 6.5
Note: Majors with a focus in Choreography are also strongly encouraged to enroll in THEA 003 Fundamentals of Design for Theater Performance and THEA 004B. Lighting Design.

Individually created focus
Individually Created focus: see Special Major

Total prerequisites and credits required for Majors: 8.5 - 9.5
*The senior project/thesis is required of all Majors.
**Although Technique and Repertory courses can be repeated for credit, you can only apply the course once towards the Major requirements.
***Specific course number requirements apply to the Class of 2022 and beyond. Current majors and prospective majors in the Class of 2021 must complete the same number of dance studies courses and are encouraged but are not required to complete the specific courses listed.

The dance faculty encourages students to pursue a senior project/thesis that incorporates a comparison or integration of dance with some other creative or performing art (creative writing, music, theater, or visual art), with a community-based learning component, or with another academic discipline of the student’s interest.

Course Minor
The goal of the course minor in dance is to expose a student to the broad scope of the field. The distribution of required courses for the minor provides students with an introduction to Choreography, Dance Studies, and Performance, and allows them to direct their final credit(s) in the minor toward one of these three areas. Minors will be encouraged, but not required, to develop an extended paper or a significant dance performance piece as part of their program. All dance majors and minors are strongly encouraged to participate in technique and repertory classes each semester.

ALL MINORS WILL DESIGN THEIR PROGRAMS IN CONSULTATION WITH A FACULTY ADVISOR.

Prerequisites for the Minor including all areas of focus:
These prerequisites are strongly recommended for first-year students and must be completed before the junior year. If a student has not completed all of these prerequisites at the time of an application for a minor, but has done good work in one or more courses in the program, the student may be accepted on a provisional basis.
1. One Dance Studies course
2. One Technique or Repertory/ensemble course for academic credit

Prerequisite credits for Minor: 1.5

Course requirements for minor: Requirements for each focus are as follows:

**Choreography Focus**
1. DANC 011. Dance Lab I: Making Dance
2. One Dance Studies course from DANC 004, 021, 022, or 025A
3. One Repertory/Ensemble course (any tradition)
4. One Technique course (any tradition)
5. Additional courses (totaling 1 credit) proposed by the student and approved on an individual basis by the faculty from a combination of choreography, dance studies, repertory, and technique courses.

**Dance Studies Focus**
1. Two Dance Studies courses***
   One course DANC 021, or 022
   One course DANC 004 or 025A
2. Additional courses (totaling 2 credits) proposed by the student and approved on an individual basis by the faculty from a combination of choreography, dance studies, repertory, and technique courses.

*Performance
1. Two Technique Courses **
2. Two Repertory Courses **
3. Additional courses (totaling 2 credits) proposed by the student and approved on an individual basis by the faculty from a combination of choreography, dance studies, repertory, and technique courses.

Total credits in each focus: 4
Total prerequisites and credits required for Minor: 5.5

*The performance minor will be offered beginning with the Class of 2020. Within the performance minor, the requirements for multiple traditions begin with the Class of 2021 and beyond. Current minors in the Class of 2020 are encouraged but are not required to complete the specific courses listed.

**Although Technique and Repertory courses can be repeated for credit, you can only apply the course once towards the Major requirements.

***Specific course number requirements apply to the Class of 2022 and beyond. Current minors and prospective minors in the Class of 2021 must complete the same number of dance studies courses and are encouraged but are not required to complete the specific courses listed.

**Honors Major**

Majors in the Honors Program must have received a grade of B+ or better in all dance courses before admission. The choice of focus for a student’s major will be determined in consultation with an advisor from the dance faculty.

**The Dance Major in Honors is identical to the Dance Course Major in its prerequisites and focus requirements.**

Additional Requirements for the Dance Honors Major:

**Requirements for the Honors Major:**
All dance majors in the Honors Program must do three preparations of two credits each:
1. Dance Studies: two dance studies courses
2. Choreography: Dance Lab II (DANC 012) and one dance studies course
3. Either Senior Project or Senior Thesis:
   - Senior Project (Choreography):
     • DANC 092. Independent Study (Fall)
     • DANC 094. Senior Project (Spring)
   - Senior Thesis with a literature review (Dance Studies):
     • DANC 095. Senior Thesis (Fall)
     • DANC 096. Senior Thesis (Spring)

Students’ choice of which courses to include in their preparations is subject to faculty approval. Syllabi, papers, and videos of student choreography from these courses will be submitted to external examiners as part of students’ Honors Portfolio.

Students should be prepared to submit their final senior project or thesis proposal at the start of their junior year.

**Honors Minor**

**The Dance Minor in Honors is identical to the Dance Course Minor in its prerequisites and focus requirements.**

Students in the Honors Program who are presenting a major in another discipline and a minor in dance must do one two-credit preparation in dance, in either Choreography or Dance Studies. The Honors Minor is not available for students with a focus in Performance.

**Honors Minor Requirements**

Choreography:
- One dance studies course
- Dance Lab II (DANC 012) or Senior Project (DANC 094)
- Dance Studies:
  - One dance studies course
- Senior Thesis (DANC 095)

Students’ choice of which courses to include in their preparations is subject to faculty approval.
Syllabi, papers, and videos of student choreography from these courses will be submitted to external examiners as part of students’ Honors Portfolio.

Students should be prepared to submit their final senior project or thesis proposal at the start of their junior year.

**Special Major**

The program for a Special Major comprises a minimum of five credits in dance coursework. The two disciplines in this major may be philosophically linked or may represent separate areas of the student’s interest. The faculty encourages students to consider the philosophical links between the two disciplines. Examples of past special majors include: Dance and Anthropology, Dance and Art, Dance and Biology, Dance and Education, and Dance and Psychology. Special Majors are encouraged to take at least one dance class before applying.

All Special Majors will design their programs in consultation with a faculty advisor.

**Dance Studies Focus**

1. Four Dance Studies courses
   - One course DANC 021, or 022
   - One course DANC 004 or 025A
   - Two Dance Studies elective courses
2. DANC 095. Senior Thesis

**Choreography Focus**

1. One Dance Studies course from DANC 004, 021, 022, or 025A
2. DANC 011. Dance Lab: Making Dance I
3. DANC 012. Dance Lab: Making Dance II
4. DANC 045. Dance Technique: Yoga
5. DANC 092. Independent Study
6. DANC 094. Senior Project

**Additional Information Regarding the Dance Program**

**Dance Technique Courses**

In a typical semester, more than 30 hours of dance technique classes are offered on graded levels presenting a variety of movement styles. Technique courses, numbered 040 through 048, 050 to 053, and 060 or 061, may be taken for academic credit or may be taken to fulfill physical education requirements. Advanced dancers are encouraged to consult with instructors regarding placement in level III technique classes. A total of not more than 8 full credits (16 0.5-credit courses) in performance dance technique classes and in music performance classes may be counted toward the degrees of bachelor of arts and bachelor of science. No retroactive credit is given for performance classes.

**Dance Program Performance Opportunities**

All interested students are encouraged to enroll in repertory classes (DANC 049, 071 or 078) and/or to audition for student and faculty works. These auditions occur several times each semester; dates are announced in classes and in postings outside the dance studios. Formal concerts take place toward the end of each semester; informal studio concerts are scheduled throughout the year.

The Dance Program regularly sponsors guest artist teaching and performance residencies. In addition, the program regularly hosts guest choreographers who work with student ensembles in technique and repertory classes.

**Off-Campus Study**

Given the Dance Program’s emphasis on the cross-cultural study of dance, we strongly encourage students to pursue study abroad opportunities. The possibility to study dance in another country gives students the opportunity to hone their technique in a different cultural setting (in many cases in a different language!) as well as to explore dance studies and choreography from new perspectives and styles. In recent years, students from the Dance Program have studied in countries including England, France, Ghana, India, and Japan as well as pursuing intensive dance study through domestic off-campus study programs. Swarthmore has a special affiliation with the University of Ghana, where students have the opportunity to study traditional dances from a wide variety of ethnic groups and regions of Ghana as well as drumming and singing.

Majors and minors interested in off-campus study should contact their faculty advisor for assistance in identifying an appropriate program.

**Dance Courses**

**Introductory Courses**

**DANC 001A. Introduction to Dance Studies: Bodies, Power and Resistance**

In this course we will use themes of power and resistance as a lens to focus on the ways in which gender, race, class, sexuality, ethnicity, and politics affect dance creation, performance, and participation. Through critical analysis of sources such as written texts, videos, and live performances, students will learn to view dance critically and to write about dance in context. We will watch and read about different styles of theatrical and social dance in a wide range of historical periods ranging from hip hop to court ballet. Video examples of dance genres and particular dance works mentioned in assigned texts will be viewed in class.

* 1 credit.
* Spring 2020. Staff.
DANC 004. Arts in Action
(Cross-listed as MUSI 006)
What is art and what constitutes social change? The course will explore these questions in two ways: First, we will look at the interconnections between culture, art, and community through rigorous intellectual inquiry by orienting students to the history of the field through selected readings. Second, we will engage in situated experiential learning with local and international arts communities. This course aims to bring together students with an interest in investigating and investing in social change work through the arts. Class requirements include: Readings, video viewing and discussions, volunteering in community events, keeping a regular journal, and doing a final project based on the readings, interviews, and field experiences. This course is open to all students. This course fulfills a prerequisite requirement for dance majors and minors. Humanities.
1 credit.
Eligible for PEAC, CBL

DANC 005A. Music and Dance Cultures of the World
(Cross-listed as MUSI 005A, SOAN 020D)
In this course we take an ethnomusicological approach to examine music and dance cultures from around the world. We will consider music and dance both in and as culture with attention to social, political, and historical contexts. Topics will include identity, race, ethnicity, gender, class, religion, memory, migration, globalization, tourism, and social and political movements. The course will provide an opportunity to develop critical listening and analytical skills to discuss sound and movement. Humanities.
1 credit.

Dance Studies Courses

DANC 021. Performance in Early Modern Europe
As Enlightenment ideals gave way to Revolutionary impulses, dancers doubled as singers, circus performers shared their stages, and entertainments took place on the fairgrounds and in aristocratic palaces. Performances in these distinctive multi-genre traditions raise a number of questions that are equally relevant for us today: What is the artwork? How can we restate a history that was intended to be fleeting? What is the relationship between "text" and performance? This course explores the hybrid genres of dance, mime, music and drama from the past to analyze their present relevance as "art." This course fulfills a requirement for Music or Dance majors and minors. Open to all students. Humanities.
1 credit.
Fall 2020. Sabee.

DANC 022. Dance in Europe and North America: 19th and 20th Centuries
(Cross-listed as MUSI 026)
This survey examines the history of ballet and modern dance in Europe and North America from 1789 to the late twentieth century in context with concurrent social and political developments. Using sources including film, text, and performance, we will study the works of choreographers including George Balanchine, Katherine Dunham, Martha Graham, and Marius Petipa. Humanities.
Writing course.
1 credit.

DANC 023. Contemporary Performance
This course interrogates issues surrounding twenty-first-century movement-based performance including cultural hybridity and the relationship between movement and text. Using aesthetic theory and methodologies developed by performance studies and dance studies, we will ask what gets performed, where, and why. Humanities.
Eligible for INTP
Spring 2021. Sabee.

DANC 024. Choreographing Disability
What does the subject, 'dance and disability' encompass? How are the terms 'dancer' and 'disabled' defined in social discourse? In this seminar, we explore 'dance and disability' through the paradigm of choreography and consider the choreographic possibilities of disability in our shared contemporary political climate. Through readings, choreographic analysis, and discussion, we will discover, question, and analyze how 'choreography' and 'disability' are entwined political concepts that inform and instruct ways of being and moving. Assigned readings will draw from dance studies scholarship and emerging texts in the field of disability studies. We will study a range of choreographic sites created by, featuring, and/or about individuals who identify as disabled. These sites will include recorded and live performances. Formal dance training or experience is welcome, but not required. Humanities.
1 credit.
Eligible for GSST

DANC 025A. Dance and Diaspora
(Cross-listed as ANTH 020J)
Dance is an unconventional but powerful device for studying migration and social mobility. This course will explore the interrelated themes of performance, gender, personhood, and migration in the context of diasporic experiences. By focusing on specific dance forms from Asia,
Music and Dance: Dance

Africa and Latin America, we will examine the competing claims of placeness, globalization, and hybridization on cultural identity and difference. This is a reading and writing intensive course. Humanities. Writing course.

1 credit.

Eligible for ASIA, GSST, GLBL-Core

Fall 2019. Chakravorty.

Fall 2020. Chakravorty.

DANC 026. Dancing Blackness
This course explores intersections in African diaspora dance studies and black performance theory. Topics covered include: philosophies of blackness and identity; intersections of gender and sexuality with race and dancing bodies; the role of embodiment in historical black liberation struggles; global transmissions and transformations of dance practices; black articulations of social and concert dance; and questions about the relationship between agency and movement. Key theorists such as Brenda Dixon Gottschild, Stuart Hall, E. Patrick Johnson, Saidiya Hartman, and Thomas DeFrantz will be discussed. Students will gain familiarity with connections between practice and theoretical discourse through written exercises, oral presentations, lecture, video analysis, movement studies, and group discussion. The goal of this course is three-fold: (1) to explore the political implications of dancing blackness in performances of everyday life and onstage (2) to understand how diasporic dance practices are bodily enactments of specific historical, cultural and political developments and (3) to investigate different approaches to writing about their significance in order to develop critical perspectives as thinkers and potential dance makers. Formal dance training or experience is welcome, but not required.

HU

1 credit.

Fall 2019. Wells.

DANC 038. Performing Ecstasy Dancing the Sacred
(Cross-listed as RELG 042)
By locating the sacred in the experiences of ecstatic dance and music, the course will specifically examine the evolution of Bhakti (Hindu) and Sufi religious practices from ritual to performance art. By exploring the sacred in relation to social processes of culture and their transformations, it will connect the sacred not only to history, tradition, ritual, spirituality and subjectivity but also to national identity, commodity and tourism in contemporary culture. This is a reading and writing intensive course. Humanities.

1 credit.

Eligible for ASIA, GSST

DANC 077B. Anthropology of Performance
(Cross-listed as ANTH 077B)
This course will introduce various approaches to the study of visual anthropology as it relates to movement, body, culture, and power. It will examine theoretical approaches ranging from semiotics of the body, communication theory, and phenomenology to the more recent approaches drawing on performance, postcolonial, post-structural, and feminist theories. It will also examine how anthropological issues in dance or performance are closely tied to issues of modernity, regional and national identity, gender, and politics. Various ethnographies and literature from dance studies, media and film studies, and feminist studies will be included in the course material. It will also require students to view videos to engage in visual analysis. Humanities.

Writing course.

1 credit.

Eligible for ASIA, FMST, GSST

DANC 079A. Screening Bollywood Film
A half semester course. This course will explore Bollywood song and dance sequences through video-viewing and studio work. The material-including videos and text-will focus on a selection of traditional Bombay films and more recent Bollywood films to understand some of the changes in dance choreography. A Bollywood choreographer will be invited to work with the students.

Graded CR/NC

0.5 Credit.

Eligible for ASIA, GSST

Choreography and Design Courses

DANC 011. Dance Lab I: Making Dance
How does a dance get made? Dance Lab I provides introductory context to approaches, methods, and strategies a dancer-choreographer of any background might use to choreograph dance performance. Through in-class workshops and weekly assignments, Dance Lab I engages and develops our skilled employment of the choreographic
Music and Dance: Dance

elements of Time, Force, and Space - with attention to structural organization and creative processes (the 'how' and 'why' of dance creation). Additional topics in Dance Lab I may include movement invention and motivation from the body (as spatial sculpture, rhythmic instrument, or as symbolically linked to text embedded with social, political, and psychological meaning including memoir and narrative), collaboration within design contexts (such as light, sound, music, and props), dance film, and site specificity. Assignments center upon the creation and in-class showing of weekly short dance studies as solos, duets, and possibly group work.

Related assignments include reading, video, and live concert viewing, as well as two short papers. A special professional guest choreographer may also teach some classes and give assignments. Prerequisite: Any dance course, dance or movement training, or permission of the instructor. (If interested in the course but unsure, please consult with the instructor).

Corequisite: A course in dance technique must be taken concurrently.

Dance Lab II: Making Dance

Dance Lab II continues the study of principles of choreography and dance creation from Dance Lab I. Through weekly choreographic assignments, in-class showings, and group discussions we will examine notions of movement invention, employment, ideational development, and appropriation. Choreographic elements at play may include uses of time, space, energy qualities, improvisational structures, audience perspective, site-specificity, and use of technology.

Explorations aim at honing each student’s particular interests around the "what"s and "how"s of creation - and the 'why' of choreographic decision-making. Kun-Yang Lin (Artistic Director, Kun-Yang Lin and Dancers) will be guest instructor for several classes.

Dance Lab II emphasizes independent, intensive work, including a final performance project for the end of the semester (the venue for which will be determined by the student in consultation with the instructor).

The class welcomes all genres of movement. Short dance study creation and showing, reading, video and live concert viewing, 1~2 short writing assignments, and a final performance for the public are required.

Students with whom the choreographer works and who commit to 3 hours weekly, may receive PE credit under DANC 011A. Dance Production Practicum.

Prerequisite: DANC 011
Corequisite: A course in dance technique must be taken concurrently.

Dance Technique and Repertory/Ensemble Courses

Note: Technique courses (040-048, 050-053, 060, and 061) and Repertory courses (049 [all sections], 071 and 078) may be taken for 0.5 academic credit or may be taken for physical education credit. All dance technique courses numbered 040 to 048 are open to all students without prerequisite. Courses numbered 050 to 058 and 060 to 061 have a prerequisite of either successful completion of the introductory course in that style or permission of the instructor.

DANC 040. Dance Technique: Contemporary Modern I

An introduction to the fundamentals of contemporary modern dance with a focus on anatomically correct alignment, dynamic weight shifts, and safely moving in and out of the floor. Emphasis will be placed on movement quality and musicality. If taken for academic credit, concert attendance and two short papers are required.

Graded CR/NC.

Spring 2020. Staff.
Spring 2021. Staff.

**DANC 045. Dance Technique: Yoga**
Vinyasa Flow/Power Yoga course with a focus on asanas (physical postures) and pranayama (breath control) and relaxation techniques. While this is a vigorous class, the practice is intended to be joyful and energizing with a goal of producing calm in mind and body, a practical knowledge of body alignment, injury prevention, and muscle and skeletal usage. The course will consist of a mix of styles incorporating elements of Ashtanga, Vinyasa Power Yoga, and Byron (AU) Yoga Centre Purna. If taken for academic credit, three short papers are required.

Students are required to supply their own yoga mats.
Graded CR/NC.
0.5 credit or P.E.
Fall 2019. Shiva Das.
Spring 2020. Staff.

**DANC 046. Dance Technique: Kathak**
This class introduces the hot rhythms (/talas/) and the cool emotions (/rasa/s) of the Indian classical dance art: Kathak. The dancing involves high energy, rapid turns, and fast footwork as well as movement of eyes, hands, neck, and fingers. This syncretic dance style from north India draws on Hindu and Muslim cultural traditions (Bhakti and Sufi) and forms the raw material for the global-pop Bollywood dance. Students who are enrolled for academic credit will be required to write papers and/or create performance texts or choreographies.
Open to all students. No prior dance experience is required.
Graded CR/NC.
0.5 credit or P.E.
Eligible for ISLM, ASIA
Fall 2019. Staff.
Fall 2020. Staff.

**DANC 048. Dance Technique: Special Topics in Technique**
Intensive study of special topics falling outside the regular dance technique offerings. Topics may include Alexander technique, contact improvisation, jazz, Pilates, and musical theater dance. If taken for academic credit, concert attendance and one or two short papers are required.
0.5 credit or P.E.

**DANC 049. Dance Performance: Repertory**
The various sections of this course offer opportunities for study of repertory and performance practice. Students are required to perform in at least one scheduled dance concert during the semester. Three hours per week. A course in dance technique should be taken concurrently.

**DANC 049B. Dance Performance Repertory: Tap**
Open to students with some tap experience, this class draws on the tradition of rhythm tap known as "hoofin". A new dance is made each semester, working with the varying levels of skill present in the student ensemble. Students will be expected to attend additional ensemble rehearsals.
Graded CR/NC.
0.5 credit or P.E.
Fall 2019. Davis.
Fall 2020. Staff.

**DANC 049D. Dance Performance Repertory: Swarthmore Taiko Ensemble**
Taiko is the neo-folk art of Japanese drumming, emphasizing the synthesis of embodied techniques and choreography with percussion-based music. Swarthmore Taiko Ensemble members learn and perform arrangements of contemporary and folk-
based taiko repertory from Japan and the global taiko community, including original works by the instructor. Through the practice and performance of ensemble-based taiko (kumidaiko, or wadaiko), members develop their artistic selves. Training across a range of taiko drumming styles (and sometimes related Japanese dance, song, flute, and other instruments), Swarthmore Taiko Ensemble members hone not only intense physicality and musicianship, but perseverance, spirit, mindful discipline and responsibility, creativity, and an awareness of and appreciation for Japanese and Asian American cultures.

Throughout the semester, additional performing opportunities may appear on and/or off campus for ensemble members. Drum and instrument handling and maintenance duties required. Video viewing, readings, and performance attendance may be assigned. Students enrolled in for academic credit are required to write one short paper. Required performance at end-of-semester Dance Concert.

If you’re looking to challenge and develop your body, mind, and spirit, please consider joining this ensemble!

Graded CR/NC.
Prerequisite: Admission into DANC 049D.
Swarthmore Taiko Ensemble is by audition at the first meeting of during add/drop period. The prerequisite to auditioning is a passing grade in at least one prior DANC 049D Swarthmore Taiko Ensemble, or with the permission from the instructor.

Concurrent enrollment in DANC 057. Dance Technique:Taiko I is highly recommended.
DANC 057. Dance Technique:Taiko I will be a prerequisite starting Spring 2020.

0.5 credit or P.E.
Eligible for BLST
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

DANC 055. Mat Pilates
A Pilates mat class based upon the classical teaching methods of Joseph Pilates. Students will build core strength and improve posture, flexibility, coordination, and balance. The class will accommodate all levels from beginner to advanced. By the end of the semester, students will understand and be able to demonstrate the order of a classical mat class, have a basic understanding of anatomy, and be familiar with the history of Joseph Pilates and his principles and philosophies. If taken for academic credit, three short papers are required. Graded CR/NC.
0.5 credit or P.E.

DANC 054. Dance Technique: HipHop
This course is an introduction to Hip Hop and street dance culture. There will be a strong focus on the movement technique, foundation and aesthetic of each style including: Hip Hop Social, House, and Locking. It’s origins and it’s contributions to the culture at large. Students will be encouraged to find their personal artistic voice within the technique to develop basic improvisational skills within each style. The goal of this course is to understand Hip Hop dance and culture more clearly as it relates to their body and individual journey. Graded CR/NC.
0.5 credit or P.E.
Fall 2019. Clark.

DANC 057. Dance Technique: Taiko I
Taiko I introduces students to the Taiko drumming, a neo-folk art primarily stemming out of Japanese culture and the postwar global diaspora. At both individual and collective levels, Taiko emphasizes the relationship between the act of drumming and choreography as concomitant and inseparable. In Taiko I, practitioners focus upon both physically energetic and choreographically intricate aspects of taiko. Content includes the fundamentals to stance, striking techniques, weight shifting, and upper/lower body mechanics; percussion drills and rhythmic games; and excerpts of original and neo-folk repertory. Portions of Japanese culture and language, such as terminology, etiquette, and
mindsets will be approached, along with the historical and sociopolitical contexts of taiko. Video viewing and required performance attendance may be assigned. Students enrolled for academic credit are required to write two short papers.
Graded CR/NC.

Recommendations: Students already enrolled in DANC 049D. Dance Repertory: Taiko are highly encouraged wherein possible to take this course concurrently, or, as a means of maintaining proficiency if intending to re-enroll in DANC 049D. Dance Repertory: Taiko in a later semester. 0.5 credit or P.E.

DANC 071. Salsa Dance/Drumming
(Cross-listed as MUSI 071)
This course provides an opportunity to learn both the dance and basis for drumming of Cuban salsa, Dominican merengue and Brazilian samba with an emphasis on salsa. Students will gain an understanding and practice of pulse, meter and the polyrhythmic structure underlying Afro/Caribbean music generally; hand techniques for conga; and improvisation and composition for both the dance and drumming. We will use a form of "street" notation in order to write/read/remember the various rhythms.
No experience in dance or music necessary.
Graded CR/NC.
0.5 credit or P.E.
Eligible for BLST

DANC 075. Special Topics in Dance
Available to students participating in the study abroad programs coordinated through Swarthmore. By arrangement.
Prerequisite: DANC 004, DANC 011, and consent of the Director of Dance.
1 credit.

DANC 080. Dance Ensemble
Dance Ensemble is an intensive study in performance devoted to providing students with a deep and thoughtful exploration of professional repertory and a meaningful connection with current working professionals. For fall 2019, students will learn a professional reconstructed work by Doug Varone and perform with Doug Varone and Dancers. Class meets twice a week for 3 hours each day. Students will also participate in one intensive weekend of study with a company member and attend all technical rehearsals and performances. Student auditions required.
Audition dates: Tuesday April 2, 2019 from 6:30pm - 8:30pm and Saturday April 6, 2019 from 4:00pm - 6:00pm both auditions will be held in the Lang Performing Arts Center’s Troy Dance Studio (LPAC 002).
This course is not open to first-year students.
Prerequisite: Permission of the Instructor.
1 credit.
Fall 2019. Liapis.

DANC 092. Independent Study
Available on an individual or group basis, this course offers students an opportunity to do special work with performance or compositional emphasis in areas not covered by the regular curriculum. Students will meet with supervising faculty on a weekly basis and present performances and/or written reports to the faculty supervisor, as appropriate. Permission must be obtained from the program director and from the supervising faculty. Students with whom the student choreographer works and who commit to 3 hours rehearsal time weekly, may receive PE credit under DANC 011A Dance Production Practicum. The project culminates in a public performance.
0.5 - 1 credit.

**DANC 094. Senior Project**  
Intended for seniors pursuing the special major or the major in course or honors, this project is designed by the student in consultation with a dance faculty advisor. The major part of the semester is spent conducting independent rehearsals in conjunction with weekly meetings under an advisor’s supervision. The project culminates in a public presentation and the student’s written documentation of the process and the result. An oral response to the performance and to the documentation follows in which the student, the advisor, and several other members of the faculty participate. In the case of honors majors, this also involves external examiners. Proposals for such projects must be submitted to the dance faculty for approval during the semester preceding enrollment.  
Students with whom the choreographer works and who commit to 3 hours weekly, may receive PE credit under DANC 011A. Dance Production Practicum.  
Prerequisite: Previous or concurrent enrollment in an advanced-level technique course or demonstration of advanced-level technique. 1 credit.  
Spring 2020. Staff.  
Spring 2021. Staff.

**DANC 095. Senior Thesis**  
Intended for senior majors or minors, thesis is designed by the student in consultation with a dance faculty advisor. The major part of the semester is spent conducting independent research in conjunction with weekly tutorial meetings under an advisor’s supervision. The final paper is read by a committee of faculty members or, in the case of honors majors, by external examiners who then meet with the student for evaluation of its contents. Proposals for a thesis must be submitted to the dance faculty for approval during the semester preceding enrollment. 1 credits.  
Spring 2020. Staff.

**DANC 096. Senior Thesis**  
Intended for senior majors or minors, thesis is designed by the student in consultation with a dance faculty advisor. The major part of the semester is spent conducting independent research in conjunction with weekly tutorial meetings under an advisor’s supervision. The final paper is read by a committee of faculty members or, in the case of honors majors, by external examiners who then meet with the student for evaluation of its contents. Proposals for a thesis must be submitted to the dance faculty for approval during the semester preceding enrollment. 1 credits.  
Spring 2020. Staff.
The Peace and Conflict Studies Program at Swarthmore College provides students with the opportunity to examine conflict in various forms and at levels stretching from the interpersonal to the global. The interdisciplinary curriculum explores the causes, practice, and consequences of collective violence as well as peaceful or nonviolent methods of conducting or dealing with conflict.

Students who major or minor in Peace and Conflict Studies at Swarthmore will:

- understand factors shaping human conflict (including psychological, social, cultural, political, economic, biological, religious, and historical factors);
- analyze specific cases of conflict, including interpersonal, inter-group, interstate, and international disputes;
- examine theories and models of peacebuilding and reconciliation, and evaluate attempts to conduct, manage, resolve, or transform conflict nonviolently;
- investigate intersectionality; forms of oppression and injustice; and conflict, locally, globally, in the United States, and abroad;
- explore topics relevant to peace and conflict through fieldwork, internships, or other experiences outside the classroom;
- demonstrate the following skills: critical thinking, analysis, research, writing, communication, and teamwork.

The Academic Program

Peace and Conflict Studies may be a major or a minor subject in either the Course or the Honors Program. Students who intend to major or minor in peace and conflict studies should consult with the program coordinator as they prepare to declare their intention during the spring of their sophomore year. All applications must be approved by the Peace and Conflict Studies Committee.

First Course Recommendations

PEAC 003. Crisis Resolution in the Middle East

This introductory course is designed for students without a background in Peace and Conflict Studies or Middle East Studies. Central questions include: How do we define crises in the contemporary Middle East/North Africa region? How does the nature of the crisis (political, economic, social, and environmental) impact communities differently? How are grassroots actors, civil society institutions, states, and international organizations responding to these challenges in their nation-states and across borders? What transnational networks of solidarity have linked the Middle East to other regions across the globe? For instance, this course will examine the consequences of environmental degradation and escalating food prices on conflict and instability across the region. We will trace the origins of autocratic regimes in the Middle East and social movements calling for rights and reforms on one hand and the rise of fundamentalism and terrorism (i.e. Al-Qaeda and ISIS). Furthermore, the course will explore crises such as contemporary Syria, and how local and international interventions aimed at reversing the marginalization of-and threats against-minority populations (ethnic, religious, gender, sexuality, ability) have come to constitute a realm of crisis management. By understanding crises through theoretical prism of human security frameworks, we will ascertain the prospects for democratization, development, pluralism, and peace in the region.

Social sciences.
1 credit.
Eligible for ISLM, PEAC, POLS
PEAC 015. Introduction to Peace and Conflict Studies
In Introduction to Peace and Conflict Studies, we learn that peace and conflict are not mutually exclusive. To paraphrase Conrad Brunk, the goal of peace and conflict studies is to better understand conflict in order to find nonviolent ways of turning unjust relationships into more just ones. We examine both the prevalence of coercive and non-peaceful means of conducting conflict as well as the development of nonviolent alternatives, locally and globally, through institutions and at the grassroots. The latter include nonviolent collective action, mediation, peacekeeping, and conflict transformation work. Several theoretical and philosophical lenses will be used to explore cultural and psychological dispositions, conflict in human relations, and conceptualizations of peace. The course will take an interdisciplinary approach with significant contributions from the social sciences. U.S.-based social justice movements, such as the struggle for racial equality, and global movements, such as nonviolent activism in Israel/Palestine, and the struggle for climate justice around the world, will serve as case studies. Social sciences. 1 credit. Eligible for PEAC Fall 2019. Atshan. Fall 2020. Smithey.

PEAC 023. First Year Seminar: Global Responses to Violence
This first-year seminar will examine responses to political violence on an international scale. The first half of the semester will be devoted to examining the role of religious institutions, representing a wide range of faith-based communities, in exacerbating or ameliorating violence. The second half of the semester will cover examining the role of global secular institutions, such as the United Nations, in addressing political violence. Students will be exposed to two subfields of peace and conflict studies - the study of religion and violence, as well as the study of international organizations in conflict and post-conflict settings. This first year seminar does not fulfill the Introduction to Peace and Conflict Studies requirement for PCS majors and minors. 1 credit. Eligible for PEAC

Course Major
A course major in Peace and Conflict Studies consists of eight credits. Introduction to Peace and Conflict Studies (PEAC 015) is required and should be taken in the first or second year, if at all possible. All majors must also complete the PEAC Senior Capstone Seminar (PEAC 091) in the spring semester of their senior year to fulfill the College’s comprehensive exercise requirement that integrates work in the major. No more than two credits eligible for the Peace and Conflict studies major may overlap with courses in a student’s other major or minors. All Peace and Conflict Studies majors complete at least two courses that are specifically designated as Swarthmore PEAC courses (worth no less than one credit each and in addition to Introduction to Peace and Conflict Studies, Senior Capstone Seminar, and any PEAC thesis. Off campus study courses are not eligible to meet this requirement.) We encourage students to take courses taught by different faculty members in order to broaden their exposure to the field. Honors majors alone have the option of writing a one- or two-credit thesis. Normally, the student who applies for a major in Peace and Conflict Studies will have completed (or be in the process of completing) the introductory course and one other eligible course in Peace and Conflict Studies.

Honors Major
Honors majors fulfill the same requirements as course majors but must establish three two-credit honors preparations for external examination at the end of the senior year. There are four primary opportunities for students to fulfill preparations required of honors majors:

- a 2-credit honors seminar
- the combination of two 1-credit courses
- the combination of a 1-credit course and a 1-credit thesis
- a 2-credit thesis

Honors majors alone have the option of writing a one- or two-credit thesis. Any thesis must be multidisciplinary.

All Honors preparations must be discussed with the Peace and Conflict Studies Coordinator and approved by the Peace and Conflict Studies Committee.

Course Minor
Students with any major, whether course or in the Honors Program, may add a course minor in Peace and Conflict Studies. Of the 5 credits required for a peace and conflict studies minor, 4 may not be double counted with the student’s major or other minor. Introduction to Peace and Conflict Studies (PEAC 015) is required and should be taken in the first or second year, if at all possible. All Peace and Conflict Studies minors will complete at least two courses (in addition to Introduction to Peace and Conflict Studies) that are specifically designated as Swarthmore PEAC courses. (Off campus study courses are not eligible to meet this requirement.) We encourage students to take courses taught by different faculty members in order to broaden their exposure to the field.
Normally, the student who applies for a minor in Peace and Conflict Studies will have completed (or be in the process of completing) the introductory course and one other eligible course in Peace and Conflict studies.

Honors Minor
Students with any major in the Honors Program may choose an Honors minor in Peace and Conflict Studies. Honors minors will fulfill the same requirements as course minors but must establish one two-credit honors preparation for external examination at the end of the senior year. A standard Honors minor preparation will consist of a seminar or a combination of two courses.

Application Process Notes for the Special Major or the Minor
See the Peace and Conflict Studies Program website for guidelines and forms for applying for a major or minor in Peace and Conflict Studies (http://www.swarthmore.edu/peacestudies). Students who intend to major or minor in Peace and Conflict Studies should consult with the Program Coordinator, and submit a copy of their Sophomore Plan during the spring of the sophomore year. The Sophomore Plan should present a plan of study that satisfies the requirements, specifies the courses to count toward the major or minor, shares the student’s interest in Peace and Conflict Studies, and identifies how the program complements the student’s academic goals. (The program will assign advisors.) All applications must be approved by the Peace and Conflict Studies Committee.

The Sophomore Plan for students proposing an Honors major or Honors minor in Peace and Conflict Studies should describe the proposed Honors preparation/s in terms of its/their suitability for examination and its/their contribution to the student’s interests in Peace and Conflict Studies. When possible, students should obtain advance approval from faculty members who teach the courses or seminars that are to be included in an Honors preparation. If an honors major student is proposing to write a senior thesis, the student should specify a general thesis topic and a preference regarding thesis advisor. All applications must be approved by the Peace and Conflict Studies Committee.

Juniors or seniors proposing a major or minor in Peace and Conflict Studies should consult with the Program Coordinator and submit a revised Sophomore Plan.

Off-Campus Study
The Peace and Conflict Studies Program faculty enthusiastically support study abroad for majors and minors. A number of study abroad programs that are approved by the Off-Campus Study Office offer appropriate coursework. Students who enroll in PEAC 053: Israeli-Palestinian Conflict may have the opportunity to participate in the course attachment that provides a study tour to Israel/Palestine during the winter break. Majors may count no more than three credits from off-campus, while minors may count no more than two credits.

Research and Service-Learning
Internships
Student programs can include an internship or fieldwork component. An internship is highly recommended. Fieldwork and internships normally do not receive credit. However, students can earn up to one credit for special projects that are developed with an instructor and approved in advance by the Peace and Conflict Studies Committee.

Summer Opportunities
Peace and Conflict Studies Program majors and minors are encouraged to apply for funding from the Lippincott Fund, Julia and Frank Lyman Student Summer Research Fellowship, the Joanna Rudge Long ’56 Award in Conflict Resolution, the Simon Preisler Student Research and Internship award, and/or the Howard G. Kurtz, Jr. and Harriet B. Kurtz Memorial Fund. Applications are due in February, and information can be obtained from the Program’s website. Additional information on funding, internships, training, and career opportunities is available on the Peace and Conflict Studies Program website at www.swarthmore.edu/peacestudies.

Life After Swarthmore
Peace and Conflict Studies alumni often develop or work in organizations that promote peace and justice locally and globally. Many pursue graduate work in fields directly or closely related to Peace and Conflict Studies. You may find a growing digest of student and alumni activities on the Program’s website at http://blogs.swarthmore.edu/pcsstudents/.

Peace and Conflict Studies Courses
The following courses may be applied toward a minor or major in Peace and Conflict Studies. Each of the courses designated as PEAC is open to all students unless otherwise specified. In the event of an oversubscribed course, preference in enrollment will be given to declared Peace and Conflict Studies majors and minors. Courses eligible to count toward a concentration, minor, or major in Peace, Justice, and Human Rights at Haverford College or Peace, Conflict, and Social Justice at Bryn Mawr College may also be applied toward a major or minor in Peace and Conflict
Peace and Conflict Studies

Studies at Swarthmore. Student programs may, subject to prior approval by the program’s Committee, also include courses offered at the University of Pennsylvania and courses taken abroad.

Please consult www.swarthmore.edu/peacestudies for updates, descriptions, and scheduling.

**PEAC 003. Crisis Resolution in the Middle East**

This introductory course is designed for students without a background in Peace and Conflict Studies or Middle East Studies. Central questions include: How do we define crises in the contemporary Middle East/North Africa region? How does the nature of the crisis (political, economic, social, and environmental) impact communities differently? How are grassroots actors, civil society institutions, states, and international organizations responding to these challenges in their nation-states and across borders? What transnational networks of solidarity have linked the Middle East to other regions across the globe? For instance, this course will examine the consequences of environmental degradation and escalating food prices on conflict and instability across the region. We will trace the origins of autocratic regimes in the Middle East and social movements calling for rights and reforms on one hand and the rise of fundamentalism and terrorism (i.e. Al-Qaeda and ISIS). Furthermore, the course will explore crises such as contemporary Syria, and how local and international interventions aimed at reversing the marginalization of-and threats against-minority populations (ethnic, religious, gender, sexuality, ability) have come to constitute a realm of crisis management. By understanding crises through theoretical prism of human security frameworks, we will ascertain the prospects for democratization, development, pluralism, and peace in the region.

Social sciences. 1 credit. Eligible for ISLM, PEAC, POLS

**PEAC 023. First Year Seminar: Global Responses to Violence**

This first-year seminar will examine responses to political violence on an international scale. The first half of the semester will be devoted to examining the role of religious institutions, representing a wide range of faith-based communities, in exacerbating or ameliorating violence. The second half of the semester will cover examining the role of global secular institutions, such as the United Nations, in addressing political violence. Students will be exposed to two subfields of peace and conflict studies - the study of religion and violence, as well as the study of international organizations in conflict and post-conflict settings. This first year seminar does not fulfill the Introduction to Peace and Conflict Studies requirement for PCS majors and minors. 1 credit. Eligible for PEAC

**PEAC 025B. Transforming Intractable Conflict**

(Cross-listed as SOCI 025B)

This course will examine the role of religious institutions, representing a wide range of faith-based communities, in exacerbating or ameliorating conflict and post-conflict settings. This first year seminar does not fulfill the Introduction to Peace and Conflict Studies requirement for PCS majors and minors.

Non-distribution. Eligible for PEAC

**PEAC 038. Civil Wars & Neoliberal Peace in Central America**

This course focuses on the sociopolitical turmoil that devastated Guatemala, Nicaragua, and El Salvador as a wave of revolutionary wars swept across the region from the 1960s to the early 1990s and sought to end decades of oppressive military dictatorships. After studying the civil wars and their causes, the course will then focus on the cultural and psychological dispositions, conflict in human relations, and conceptualizations of peace. The course will take an interdisciplinary approach with significant contributions from the social sciences. U.S.-based social justice movements, such as the struggle for racial equality, and global movements, such as nonviolent activism in Israel/Palestine, and the struggle for climate justice around the world, will serve as case studies.

Social sciences. 1 credit. Eligible for PEAC

Fall 2019. Atshan.

Fall 2020. Smithey.
peacebuilding efforts and the implementation of democracy within the neoliberal economic order. Of particular interest are the failures of the peacebuilding process, the current gang violence in the region, and the widespread political corruption supported by an economic system that has made of everyday life an exercise in survival. We will pay special attention to U.S. intervention in Central America, particularly the consequences of its involvement in the military dictatorships and armed conflicts in the region. We’ll focus on issues of social trauma and social disaffection, of historical memory and the genocide of the Mayas, of political resistance and the struggle for social justice, and of the limits of postwar reconstruction and reconciliation in the era of neoliberalism. This course will help us understand the current crisis of Central American immigration to the U.S.

PEAC 039. Social Entrepreneurship for Social Change

Social entrepreneurship is concerned with entrepreneurial responses to demanding and unmet social needs (not adequately served by market or by state). Through in-depth case analysis, we will consider the context of social entrepreneurial activity (such as the peace and reconciliation movement in Northern Ireland), the individuals who become engaged in impacting social need (locally, nationally and globally), along with organizing and undertaking activities and addressing needs effectively. Limited to 15 students.
Non-distribution.
1 credit.
Eligible for LALS, PEAC
Fall 2019. Buiza.
Fall 2020. Buiza.

PEAC 043. Gender, Sexuality, and Social Change

How has gender emerged as an analytical category? How has sexuality emerged as an analytical category? What role did discourses surrounding gender and sexuality play in the context of Western colonialism in the Global South historically as well as in the context of Western imperialism in the Global South today? How are gender and sexuality-based liberation understood differently around the world? What global social movements have surfaced to codify rights for women and LGBTQ populations? How has the global human rights apparatus shaped the experiences of women and queer communities? What is the relationship between gender and masculinity? What are the promises and limits of homonationalism and pinkwashing as theoretical frameworks in our understanding of LGBT rights discourses? When considering the relationship between faith and homosexuality, how are religious actors queering theology? How do we define social change with such attention to gender and sexuality?
Social sciences.
Writing course.
1 credit.
Eligible for PEAC, GSST, INTP

PEAC 049. Be the Change: Social Entrepreneurship in Principle and Practice

Amidst market implosions, human conflict, environmental crises, and on-going demise of the welfare state, the need for new, durable organizational forms, committed to social change, is clear. Social entrepreneurship offers a unique model for creative conflict transformation and community problem solving. Using business practices, social enterprises seek to redress social and environmental concerns while generating revenue. Students will learn about the manifestation of social entrepreneurship principles and practice in non-profit, for-profit, and hybrid organizations. Then students will draft plans for their own social enterprise, thereby garnering a deeper understanding of social enterprise as organizational forms, while also embarking on a journey to explore their own potential as social entrepreneurs.
Class limited to 15 students.
Non-distribution.
1 credit.
Eligible for PEAC

PEAC 052. Afghanistan: Where Central & South Asia Meet

This course examines conflict, politics, culture, and daily life in present day Afghanistan. Occupying a historic crossroads in Asia, Afghanistan is a place of regional, ethnic, and cultural diversity. Since the beginning of the twentieth century, internal and external actors, including the British Empire, Pashtun dynasties, the Soviet Union, the Taliban, the United States and its allies, and the Islamic State, have battled for control of Afghanistan. Today, as conflict continues, the international community exerts significant influence on Afghanistan’s politics, security, economy, and social institutions. This course will explore themes related to conflict, peacemaking, statebuilding, and international intervention, and their intersection with cultural and ethnic diversity, religion, gender norms, and the lived experiences of Afghan people. Students will read memoirs, literature, and scholarly work from various disciplines.
Eligible for PEAC, ASIA
Fall 2019. Kapit.
Fall 2020. Kapit.
PEAC 053. Israeli-Palestinian Conflict
This course will examine the historical underpinnings of the Israeli-Palestinian conflict and how they have shaped the contemporary context in Israel/Palestine. We will approach this from a demography and population-studies framework in order to understand the trajectories and heterogeneity of Israeli and Palestinian societies and politics. For instance, how has the relationship between race and period of migration to Israel impacted Ashkenazi and Mizrahi Israeli sub-populations differently? What explains divergent voting patterns between Palestinian Christians and Muslims over time? How can we measure inequality between Israeli settlers and Palestinian natives in the West Bank in the present? The course will also synthesize competing theoretical paradigms that account for the enduring nature of this conflict. This includes—but is not limited to—the scholarly contributions of realist political scientists, U.S. foreign policy experts, social movements theorists, security sector reformers, human rights advocates, international law experts, and negotiations and conflict resolution practitioners. Social Sciences. 1 credit. Eligible for PEAC, ISLM, POLS. Fall 2019. Atshan.

PEAC 055. Climate Disruption, Conflict, and Peacemaking
(Cross-listed as ENVS 031)
The course will examine several ways in which climate change is a driving force of violent and nonviolent conflict and creates opportunities for peacemaking and social justice. Already, climate change has been identified by the U.S. military as a threat to national security, offering a new rationale for expanding the military industrial complex. Demands on scarce resources generate and exacerbate regional conflicts and drive mass movements of refugees. Behind these dramatic manifestations of climate stress lie extensive corporate and national interests and hegemonic silences that emerging conflicts often reveal. Conflict also brings new opportunities for peacebuilding, cooperation, and conflict resolution. Climate crises have renewed and expanded local and global movements for environmental justice and protection, many of which have historical connections with the peace movement. In support of the college’s carbon charge initiative, we will dedicate part of the course to understanding what constitutes the social cost of carbon and how it is represented in carbon pricing, particularly with respect to increasing frequencies of armed conflict and extension of the military industrial complex. Social sciences. 1 credit. Eligible for PEAC, ENVS. Fall 2019. Smithey.

PEAC 070. Research Internship/Fieldwork
Credit hours to be arranged with the coordinator. Non-distribution.

PEAC 071B. Research Seminar: Global Nonviolent Action Database
(Cross-listed as POLS 081, SOCI 071B)
This research seminar involves working with The Global Nonviolent Action Database built at Swarthmore College. This website is accessed by activists and scholars worldwide. The database contains crucial information on campaigns including those for human rights, democracy, environmental sustainability, economic justice, national/ethnic identity, and peace. Students will investigate a series of research cases and write them up in two ways: within a template of fields (the database proper) and also as a narrative describing the unfolding struggle. Strategic implications will be drawn from theory and from what the group is learning from the documented cases of people’s struggles. Writing course. 1 credit. Eligible for PEAC. Spring 2021. Smithey.

PEAC 072. Humanitarianism: Education & Conflict
EDUC 072
This course will introduce students to theory and practice of humanitarianism and, specifically, the provision of education as a humanitarian intervention—what practitioners call "education in emergencies." The course will delve into the foundations and history of humanitarianism and track how humanitarian intervention evolved over the course of the 20th century, broadening and deepening in scope. It will explore continuing debates over the appropriateness of education as a humanitarian intervention and examine what types of educational interventions are prioritized by humanitarian agencies, as well as the goals that those interventions are trying to achieve. For example, what is the relationship between education and conflict and how do education in emergencies providers intervene to alter that relationship? Students will have the opportunity to study specific examples of education in emergencies programming in countries such as Afghanistan, Colombia, Nepal, Sierra Leone, and Syria, and to hear from guest speakers working in the field of education in emergencies. The course will encourage students to apply what they have learned to policy-oriented exercises. Eligible for PEAC. Fall 2019. Kapit. Fall 2020. Kapit.

PEAC 077. Gun Violence Prevention: Peace Studies and Action
The course aims to bridge gaps between peace research, theory, and implementation by encouraging students to move between each as we
Peace and Conflict Studies

examine the problem of gun violence, study effective interventions, consider nonviolent ways of conducting conflict, and assess the challenges of developing and sustaining effective peace work. As we develop our own analytical and research skills, we also aim to center the experience of peacemakers and victims by collaborating with a local gun violence prevention organization. Discussion over course readings will also be emphasized. This course will encourage collaboration and active participation in delivering the content of the course.

Social sciences.
1 credit.
Eligible for PEAC
Fall 2019. Smithey.

PEAC 090. Thesis
Credit hours to be arranged with the coordinator.
Writing course.

PEAC 091. Senior Capstone Seminar
The Senior Capstone Seminar serves as the comprehensive exercise for the major and provides an opportunity for Peace and Conflict Studies students to synthesize their plans of study in a shared learning environment. Advanced readings will be incorporated to extend engagement with the field of peace and conflict studies, and participants will present their thesis work or an extension of an advanced paper they wrote in another peace and conflict studies eligible course. We will also look ahead to professional and vocational opportunities after graduation.
Prerequisite: Peace and Conflict Studies majors only.
Non-distribution.
1 credit.
Eligible for PEAC

PEAC 093. Directed Reading
1 credit.

PEAC 094. Special Topics: Friends, Peace, and Sanctuary
In this half-credit engaged scholarship course, students will learn about historical and contemporary refugees through a variety of methods, including readings, archival research, and co-creation. As part of the course, students will participate with resettled Iraqis and Syrians and Swarthmore faculty and staff in a series of artist-led workshops in which participants will co-create a graphic novella. The course will include discussions and written reflections based on the readings and workshops. This course is tied to Friends, Peace, and Sanctuary, a two-year project funded by The Pew Center for Arts and Heritage that brings renowned book artists into conversation with Syrian and Iraqi individuals who have resettled to Philadelphia. Students will be working with and learning directly from project collaborators, and their work may be shared publicly on the Friends, Peace, and Sanctuary website and may also be published or exhibited in Graded CR/NC.
Limited to five students, by permission of instructors.
Non-distribution.
0.5 credit.
Eligible for PEAC

PEAC 103. Humanitarianism: Anthropological Approaches
(Cross-listed as ANTH 103)
This honors seminar will introduce students to the most salient theoretical debates among anthropologists on humanitarian intervention around the world. We will also examine a range of case studies, from the birth of Western Christian humanitarian missions in colonial contexts to humanitarian interventions (e.g. military, food-based assistance, natural disaster relief, post-conflict reconstruction) today. The geographic scope of this seminar will encompass North America, South America, the Caribbean, Europe, sub-Saharan Africa, the Middle East/North Africa, East Asia, and South Asia. We will consider, for instance, how anthropologists have examined relief efforts in the wake of Hurricane Katrina in New Orleans. What social science scholarship has been produced on mental health interventions after political and natural crises in Haiti? How are victims of torture at the hands of the Indian military supported by international organizations in Kashmir? What is the nature of global Islamic humanitarianism today? How are local national staff employed by international organizations shaping humanitarian approaches to gender-based violence in Colombia? These are among the many questions we will address over the course of the semester.
Honors seminar.
Social sciences.
2 credits.
Eligible for PEAC

PEAC 135. Social Movements and Nonviolent Power
(Cross-listed as SOCI 135)
In this two-credit Honors seminar, we will study the global proliferation of the strategic use of nonviolent tactics and methods and investigate the power in social relations upon which collective nonviolent action capitalizes. We will also address sociological literature on the emergence, maintenance, and impact of social movements. For examples of the kinds of case studies covered in this seminar, visit http://nvdatabase.swarthmore.edu
Non-distribution.
2 credits.
Eligible for PEAC

SPAN 084. México, 1968: La violencia de ayer y hoy
SPAN 088. Pasados desgarradores: trauma y afecto en la literatura centroamericana de posguerra
Philosophy analyzes and comments critically on concepts that are presupposed and used in other disciplines and in daily life: the natures of knowledge, meaning, reasoning, morality, the character of the world, God, freedom, human nature, justice and history. Philosophy is thus significant for everyone who wishes to live and act in a reflective and critical manner.

The Academic Program

The Philosophy Department offers several kinds of courses, all designed to engage students in philosophical practices.

A. There are courses and seminars to introduce students to the major systematic works of the history of Western philosophy: works by Plato and Aristotle (Ancient Philosophy); Descartes, Hume and Kant (Modern Philosophy); Hegel and Marx (19th-Century Philosophy); Kierkegaard, Nietzsche, Sartre, Heidegger, de Beauvoir (Existentialism); Russell and Wittgenstein (Contemporary Philosophy).

B. There are courses and seminars that consider arguments and conclusions in specific areas of Philosophy: Theory of Knowledge, Logic, Moral Philosophy, Metaphysics, Aesthetics, and Social and Political Philosophy.

C. There are courses and seminars concerned with the conceptual foundations of various other disciplines: Philosophy of Science, Philosophy of Language, Philosophy of Law, Philosophy of the Social Sciences, Philosophy of Psychology, and Philosophy of Religion.

D. There are courses and seminars on meaning, freedom, and value in various domains of contemporary life: Values and Ethics in Science and Technology, Feminist Theory, and Post-Modernism.

Members of the Philosophy Department emphasize the engagement of philosophy with other disciplines and recognize that philosophical inquiry is naturally related to concerns in other areas of study. They attempt to make these relations explicit, and so course and seminars are designed to be accessible to a broad range of students, not just those who intend to major in philosophy. Various courses and seminars in philosophy appear in concentrations in gender and sexuality studies, German studies, medieval studies, interpretation theory, and environmental studies.

Prerequisites
Satisfactory completion of either any section of PHIL 001 Introduction to Philosophy, or PHIL 012 Logic, or any First-Year Seminar (numbered 002-010) is a prerequisite for taking any further course in philosophy. Sections of Introduction to Philosophy and First-Year Seminars are intended to present introductions to philosophical problems and techniques of analysis. There are no prerequisites for these entry-level courses. Students may not take more than one introductory level course (First-Year Seminar or Introduction to Philosophy), with one exception: students may take Logic either before or after taking any other introductory course. Juniors and seniors may enter intermediate courses in philosophy without having taken an introductory level course in philosophy.

Course Major

One can major in philosophy in either the Course Program or the Honors Program. Internal distribution requirements are the same for both programs. Only students who will have satisfactorily completed two philosophy courses by the end of their sophomore year will be considered for acceptance as majors. Normally, applications to complete a major in philosophy will not be accepted after the add/drop period in the fall term of a student’s senior year. Philosophy students changing their program from course to honors (or honors to course) must do so by the end of the add/drop period of the fall term of senior year.

Acceptance Criteria
In addition to having completed two courses, majors must meet the general requirements for remaining in good standing at the College and have the ability to satisfy the department’s comprehensive requirements. They must further normally have at least a B- average in all
philosophy courses taken at Swarthmore. For double majors, the standard is somewhat higher, and the philosophy faculty determines whether the student has the ability to complete the comprehensive requirements of two departments satisfactorily.

Requirements
Students majoring in philosophy must earn a total of eight credits, exclusive of senior work and complete at least

A. One course or seminar in logic and
B. Two credits in history: of these 2 credits, at least 1 must be in either ancient or modern (17th and 18th century) philosophy and
C. Two credits in at least one course covering one or more of the following areas:
   Advanced Logic, Philosophy of Science, Epistemology, Metaphysics, Philosophy of Language, Philosophy of Mind and
D. Two credits in at least one course covering one or more of the following areas: Moral Philosophy, Social and Political Philosophy, Philosophy of Law, Feminism, Aesthetics.

Note: With the exception of Logic (PHIL 012) - introductory level courses and First Year Seminars (PHIL 001-010) do not count toward the distribution requirements.

In addition, students majoring in philosophy are urged to take courses and seminars in diverse fields of philosophy. Prospective majors should complete the logic requirements as early as possible. Course majors are encouraged to enroll in seminars. Mastery of at least one foreign language is recommended.

Senior Course Study work
A student will complete a course major in philosophy by registering for a single credit of Senior Course Study in the spring term of the senior year. Senior Course Study does not count toward fulfilling the eight credit requirement for the major. Under this heading, the student will produce two independent essays, each of no more than 4,000 words, based on problems or texts considered in seminars or courses that they have already completed, and in response to questions set by the department faculty. These two independent essays must fall in two different areas of philosophy from the following list:

A. History of Philosophy: Ancient Philosophy; Modern Philosophy; 19th-Century Philosophy; Existentialism and Phenomenology; and Contemporary Philosophy;
B. Value Theory: Moral Philosophy; Social and Political Philosophy; Aesthetics; Feminist Theory; Philosophy of Law
C. Logic, Metaphysics, and Epistemology: Logic, Theory of Knowledge, Philosophy of Science, Philosophy of Psychology, Philosophy of Language

Students should inform the chair about the general areas in which they wish to write their essays by the 10th week of the fall term. The faculty of the Philosophy Department will then set questions and specify additional readings (1-3 articles or book chapters) for each area. These questions will be available to students by the end of the fall term. It is expected that these essays will demonstrate initiative in engaging with problems and texts and that they will develop lines of argumentation beyond what is normally expected of course or seminar papers. Conversation among students who are preparing these essays is encouraged, but each student must produce an independent, original essay. After completing these essays, each course major will be examined orally on both essays by two members of the department.

Course Minor
Students may complete a minor in philosophy by earning any 5 credits in philosophy courses. There is no distribution requirement for the minor.

Honors Major
Acceptance Criteria
Students undertaking to pursue honors in philosophy should have B+ grades in philosophy courses and a B+ average overall. The opinions of the philosophy faculty concerning the philosophical ability of students weigh heavily in borderline cases.

Only students who have already completed two philosophy courses will be considered for admission to the Honors Program.

Philosophy students changing their program from honors to course (or course to honors) must do so by the end of the add/drop period of the fall term of senior year.

Preparations
Students will normally prepare for external examination in a given field in philosophy by completing a double-credit seminar at Swarthmore. With the approval of the department, it is possible to combine one-credit courses or attachments, taken either at Swarthmore or elsewhere, to form a preparation. With the approval of the department, a double-credit thesis may be counted as one preparation and submitted to an examiner.

Requirements
Honors majors will register for one-credit of Seniors Honors Study in philosophy during the spring term of their senior year. Senior Honors Study does not count toward fulfilling the eight credit requirement for the major. External examiners will set questions and specify additional readings (3-4 articles or book chapters) for each
preparation that is to be examined. These questions will be available to students by the end of the fall term. Honors majors will choose one question for each preparation.

Senior Honors Study
Honors majors will then produce for each preparation an independent essay of no more than 4,000 words in response to the question they have chosen.

It is expected that these essays will demonstrate initiative in engaging with problems and texts and that they will develop lines of argumentation beyond what is normally expected of papers produced for seminar discussion. The preparation of the essays will not be supervised by members of the faculty. Conversation among students who are preparing these essays is encouraged, but each student must produce an independent, original essay. The essays must be submitted to the department to be sent to the external examiners by the beginning of the written examination period. There will be no further written examination of preparations beyond these independent essays. An examiner will conduct a 60 minute oral examination for each preparation on both the independent essay and the materials considered in the preparation (typically all the materials listed on the syllabus for the related seminar).

Honors Minor
Requirements
Honors minors must complete six credits of work in philosophy. Minors in philosophy will register for 0.5 credit of Senior Honor Study in the spring term of their senior year. Senior Honors Study does not count toward satisfying the six credit requirement for the minor.

Senior Honors Study
Students will prepare one independent, original essay of no more than 4,000 words in response to a question set by an external examiner (as above with majors). An external examiner will conduct a 60 minute oral examination on both the independent essay and the materials considered in the preparation (typically all the materials listed on the syllabus for the related seminar).

Application Process Notes for the Major or the Minor
Follow the process described by the Dean’s Office and the Registrar’s Office for how to apply for a major. Submit application, with transcript, plan of study, and if applicable, honors application. Transfer students will be deferred until they have obtained at least 1 philosophy credit from Swarthmore.

Students who are deferred may apply again after addressing the reason(s) for being deferred.

Off-Campus Study
With prior approval from the Chair, a student may take philosophy courses abroad for a semester or year and have them count both toward a major and as part of an Honors Program. Courses abroad do not, however, always fit neatly into a philosophy major and are not always suitable for full course credit. Full consultation with the Chair about study abroad is essential for constructing a viable program.

Deadlines
Students wishing to add a major or minor in Philosophy must do so by the end of the add/drop period of the fall term of the senior year.

Philosophy students changing their program from course to honors (or honors to course) must do so by the end of the add/drop period of the fall term of the senior year.

Philosophy honors students must declare their honors preparations by the end of the add/drop period of the fall term of senior year.

Philosophy students wishing to drop an honors major or minor must do so by the end of the add/drop period of the fall term of senior year.

Philosophy students wishing to drop a course major or minor after the add/drop period of the fall term of the senior year should speak to the chair of the department.

Philosophy Courses
PHIL 001A. Introduction to Philosophy: Knowledge and Agency
What ought I to do? What are the demands of morality? What is their basis (if there is one)? Can values conflict and if yes, what can we do about that? What is freedom of the will and do we enjoy it? What can we know? Nothing? What is knowledge anyway? How can we understand consciousness? Can some machines think? Can the mind be outside the head? How can we or anything remain the same through change? Is there a self? Why is there something rather than nothing? Is death bad? Can life be meaningful or is it absurd? These are fundamental philosophical questions. We will deal with them by reading and discussing some classical but mostly contemporary philosophical texts.

Humanities.
Writing course.
1 credit.

PHIL 001B. Introduction to Philosophy: Criticism & Culture
On how some major philosophers (Plato, Descartes, Marx, with some attention to Hegel and Nietzsche) have criticized forms of social and personal life and argued against the grains of their cultures in favor of life otherwise. Their work will be continuously compared with creative work on
Problems of human life by some major filmmakers (Herzog, Capra, Hawks).

1 credit.

Fall 2019. Eldridge.

**PHIL 001C. Introduction to Philosophy: Truth and Desire**
How can or should we distinguish what is true about life from what we want from life? How can or should the pursuit of truth relate to our passions, our self-interests, the machinations of social power, and our highest aspirations as human beings? How do unquestioned assumptions inform what we perceive, believe, and desire, and how might investigating these assumptions shift or affirm our perspectives and instigate new approaches, or give fresh impetus to current approaches, to the problems we face? In this course we will take a chronological look at the distinct world-views of philosophers like Plato, Descartes, and Nietzsche, and then look at the perspectives of some contemporary theorists, in order to ask ourselves questions about when and how we know something to be true, what it is that we desire and why, and how revealing the assumptions we take for granted might affect our perceptions of both.

Humanities.

Writing course.
1 credit.

**PHIL 001D. Introduction to Philosophy: Knowledge and the World**
"Men fear thought as they fear nothing else on earth-more than ruin, more than even death."

Bertrand Russell believed that education’s primary goal should be to instill in students not only the ability to seek knowledge, but also the desire for it, the joy of it, and the appreciation of its power. For Russell, this was also an essential component of philosophy. In this course, we will investigate the quest for knowledge itself: what are we looking for and how should we be looking for it? We will read some of the canonical answers to these questions as well as some answers that are not so canonical. We will ask what knowledge is, what kinds of knowledge we can have, and what it is exactly that we can know.

Humanities.

Writing course.
1 credit.

Fall 2020. Thomason.

**PHIL 001F. Introduction to Philosophy: Classical and Contemporary Problems**
Introduction to the problems of philosophy through classical and current readings by, among others: Plato, Aristotle, Aquinas, Descartes, Kant, Mill, Nietzsche, Nagel, Korsgaard, Lewis ‘62. Topics include: God and Evil, Knowledge and Belief, Life and Thought, Morality and Interests, Taste and Aesthetic Judgment, Personal and Bodily Identity.

Classical and current readings by Plato, Aristotle, Aquinas, Descartes, Kant, Mill, Russell, Lewis ’62 introduce the traditions of Western Philosophy. Topics may include: God and Evil, Knowledge and Belief, Life and Mind, Morality and Interests, Taste and Aesthetic Judgment, Personal and Bodily Identity.

Humanities.

1 credit.

**PHIL 003. First-Year Seminar: The Meaning of Life**
What is the meaning of life? Isn’t this question too big for us? Do we even understand the question? This course will engage critically with several philosophical attempts to make sense of this fundamental question; we will discuss different answers to it. More specifically, we will deal with questions like the following: Can life have a meaning only if there is a God? Isn’t life just absurd? Is there anything that really matters? Is death a problem for the attempt to lead a meaningful life? (and wouldn’t immortality be a good alternative?) What is the role of purpose, purposes and plans in our lives? Is a meaningful life a happy life? What role do values and goals play in a meaningful life? And, finally: What is a good life?

Humanities.

Writing course.
1 credit.

Fall 2020. Baumann.

**PHIL 005. First-Year Seminar: Human Nature**
Who are we? Who are we becoming? Who could we become? Are we masters of the universe, coparticipants in a larger whole, or instigators of an out-of-control path to destruction? We will read classic conceptions of human nature drawn from philosophers like Plato, Descartes, Rousseau, Kant, and Nietzsche, as well as contemporary theorists, to consider the implications high-tech living and advances in scientific research might hold for how we reconceive ourselves and our future.

Humanities.

Writing course.
1 credit.

Fall 2019. Lorraine.
Fall 2020. Lorraine.

**PHIL 006. First-Year Seminar: Life, Mind, and Consciousness**
Classical philosophical approaches to the nature and value of life, the Modern philosophical mind-body problems that arise with 17th Century science, and Contemporary philosophical issues that center on consciousness introduce the literature of Western philosophy of mind in the format of a weekly seminar.

Fall 2019. Raff.
Fall 2020. Raff.

PHIL 011. Moral Philosophy
‘What should I do?’ This question is as old as philosophy itself. Just as it is one of the oldest and most complex philosophical puzzles, it also frequently occupies the minds of individuals in their day-to-day lives. In this course, we will focus on both ways of approaching this question. From the philosophical direction, we will discuss the ways in which philosophers have attempted to understand and describe our moral beliefs and commitments. From the practical direction, we will ask ourselves what it means to ascribe to these moral theories and how we might be able to actually live them.
PEAC eligible only when taught by PHIL instructor K. Thomason. Eligible with arranged assignment and by obtaining instructor and program coordinator written approval before drop/add period ends.
Prerequisite: First- and second-year students must complete one course in PHIL 001 -PHIL 010, or PHIL 012A, before enrolling in this course.
Humanities.
1 credit.
Fall 2019. Thomason.

PHIL 012A. Logic
An introduction to the principles of deductive logic with equal emphasis on the syntactic and semantic aspects of logical systems. The place of logic in different areas of philosophy, including metaphysics, epistemology, and ethics, will also be examined.
Recommended for students with a strong mathematics or computer science background, and for non-freshmen who have taken no prior philosophy courses.
Humanities.
1 credit.
Eligible for COGS

PHIL 012B. Logic
An introduction to the principles of deductive logic with equal emphasis on the syntactic and semantic aspects of logical systems. This course will cover the same amount of formal logic as PHIL 012A, but with less philosophical material, so that more time can be devoted to mastering the technical and formal apparatus.
Prerequisite: At least one introductory course in philosophy. Freshmen may take PHIL 012.02 without meeting this Prerequisite, and are encouraged to do so if they intend to major or minor in philosophy.
Required of all philosophy majors, unless they have taken PHIL 012 previously.
Humanities.
1 credit.
Eligible for COGS

PHIL 013. Modern Philosophy
Philosophical topical of metaphysics, epistemology, and moral theory selected from the masterpieces of 17th and 18th-century authors Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.
Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.
Humanities.
1 credit.

PHIL 016. Philosophy of Religion
(Cross-listed as RELG 015B)
Is there such thing as religion--definable and singular? If there is no agreement, how can we have a philosophy of it? Departing from this predicament, this course will first examine how "religion" has been construed over time and in a variety of contexts. After touching upon various Western medieval endeavors to "prove" God’s existence, we’ll attend to the nineteenth century and Friedrich Nietzsche’s On the Genealogy of Morals. We will consider the ways in which
Nietzsche employs Hegel’s master/slave dialectic to identify the psychological state of ressentiment as a key factor in the birth and character of Jewish/Christian morality. Also, William James’s Varieties of Religious Experience (1902) will be read as a groundbreaking study in the psychological states of religious consciousness. We will also draw Western notions of the "ineffability" of God especially as appearing in the Pseudo-Dionysian tradition of the via negativa into conversation with the second century (CE) Buddhist philosophy of Nagarjuna and his influences on the Zen/Ch’ an tradition. Finally, we’ll explore recent reimaginings of religion in light of postmodern themes such as nihilism and the death of God. Readings include: Anselm of Canterbury, Friedrich Nietzsche, William James, Teresa of Avila, Mircea Eliade, Rene Girard, Gianni Vattimo, Pseudo-Dionysius, Nagarjuna, and Shunyru Suzuki.

Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.

1 credit.

Humans.

Spring 2020. Staff.

PHIL 018. Philosophy of Science

See PHIL 119

Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.

PHIL 020. Plato and His Modern Readers

(Cross-listed as CLAS 020)

Plato’s dialogues are complex works that require literary as well as philosophical analysis. While our primary aim will be to develop interpretations of the dialogues themselves, we will also view Plato through the lens of various modern and postmodern interpreters (e.g., Nietzsche, Heidegger, Derrida, Jung, Foucault, Irigaray, Rorty, Lacan, Nussbaum, Vlastos)

Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.

1 credit.

Humans.

Writing course.

PHIL 021. Social and Political Philosophy

In this seminar, we will examine in-depth philosophical approaches to theory and practice of law. We begin with the classical theoretical questions. We cover the foundations of law as explained through legal positivism, natural law, and critical legal theory. We examine the roles of lawmakers, citizens, and judges. We then move to questions with a more practical dimension. We discuss the foundation for criminal law and punishment as well as issues of racism and sexism in law. Other topics include individual rights, paternalism, policing, privacy, and technology. The focus of this course is to explore the relationship between the individual and the state. We will examine three different conceptions of individuals and the three different theories of the state to which they give rise: political realism, political liberalism, and critical political theory. First we examine the historical foundations of these three theories. Then we will read contemporary work on particular issues in order to draw out the implications of the three frameworks. We will see how each framework deals with questions about censorship, personal liberty, civil disobedience, and national security.

PEAC eligible with the approval of the instructor.

Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.

Humans.

1 credit.

Fall 2020. Thomason.

PHIL 023. Metaphysics

See PHIL104

Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.

Humans.

1 credit.

PHIL 024. Theory of Knowledge

This course selects key texts in Western epistemology for focused discussion, by epistemologists such as Socrates, Plato, Sextus Empiricus, Moore, and Wittgenstein on topics that include that nature and extent of human knowledge, disagreement, faith, and self-knowledge, among others.

Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.

Humans.

Writing course.

1 credit.

Eligible for COGS

Fall 2019. Raff.

PHIL 031. Advanced Logic

A survey of various technical and philosophical issues arising from the study of deductive logical systems. Topics are likely to include extensions of classical logic (e.g., the logic of necessity and possibility [modal logic], the logic of time [tense logic], etc.); alternatives to classical logic (e.g., intuitionistic logic, paraconsistent logic); metatheory (e.g., soundness, compactness, Gödel’s incompleteness theorem); philosophical questions (e.g., What distinguishes logic from non-logic? Could logical principles ever be revised in the light of empirical evidence?).
Philosophy

Prerequisite: PHIL 012A or PHIL 012B
1 credit.
Eligible for COGS

PHIL 032. History of Analytic Philosophy
Twentieth and twenty-first century Anglo-American philosophy have been distinguished by a resistance to speculative system-building and a focus instead on common sense, problem solving, and the achievements of natural science. We will follow the development of this tradition from G. E. Moore’s rejection of idealism to the logical atomism of Russell and the early Wittgenstein and then to the ordinary language philosophy of J. L. Austin and Gilbert Ryle. We will conclude by considering Quine’s naturalism, the conceptual analysis tradition of Strawson, Davidson, and late Wittgenstein, and Kripke’s revival of essentialism.
Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.
1 credit.

PHIL 035. Environmental Ethics
Environmental ethics is normative moral and political philosophy as it pertains to environmental questions, concerns and issues. Here are some of the questions we’ll examine: Who counts in environmental ethics: animals, plants, ecosystems? E.g., culling deer in the Crum woods is bad for the deer killed but good for the flora and other fauna of the Crum; Does nature possess intrinsic value or only instrumental value?; Are values merely subjective e.g., expressions of personal preference or taste, or can they be, in some sense, objective?; Is there one sound environmental ethic or several?; Should we be more concerned with sustaining, restoring, or preserving the environment e.g., with respect to wilderness?; How do we resolve a conflict between feeding people and saving nature?; Can we integrate human rights with environmentalism? Democratic decision making? This course is open to all, though it would be desirable if students had at least one philosophy course.
Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.
1 credit.
Eligible for ENVS

PHIL 039. Existentialism
In this course, we will examine existentialist thinkers such as Nietzsche, Kierkegaard, Heidegger, Sartre, Beauvoir, and Camus to explore themes of contemporary European philosophy, including the self, responsibility and authenticity, and the relationships between body and mind, fantasy and reality, and literature and philosophy.
Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.
1 credit.

PHIL 040. Semantics
(Cross-listed as LING 040)
Note: This is not a writing course for PHIL.
Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.
1 credit.
Eligible for COGS
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

PHIL 042. Descartes in Contemporary Philosophy
See PHIL 103
Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.
1 credit.

PHIL 049. Marx, Nietzsche, and Freud
This course will examine the work of three 19th century "philosophers of suspicion" who instigated modern exploration into what conditions our reality, thus raising questions about how the embodied, human subject emerges out of and experiences a social reality that informs the subject in specific ways. Their investigations into one’s understanding of reality as impacted by class position (Marx), one’s understanding of truth as the effect of will-to-power (Nietzsche), and consciousness as the effect of unconscious forces (Freud) provide an important background to contemporary questions about he nature of reality, human identity, and social power.
Prerequisite: First- and second-year students must complete one introductory level PHIL course before enrolling in this course.
1 credit.
Eligible for INTP, GMST
Fall 2019. Lorraine.

PHIL 052. Bioethics
Advances in medicine and biological research have no doubt contributed both to the body of human knowledge and to the advances of modern life. But these great strides are accompanied by serious ethical questions and those questions are the topic of this course. We will approach issues in bioethics from two perspectives. First, we will
grapple with the ethical issues themselves, such as
the use of human subjects in experimentation,
physician-assisted suicide, and the rights of
reproduction (among many others). Second, we
will examine these issues at the level of policy:
what can doctors, patients, researchers, and
lawmakers actually do about any of these issues
and how do we go about making those hard
choices?
Prerequisite: First- and second-year students must
complete one introductory level PHIL course
before enrolling in this course.

PHIL 069. Phenomenology-Then and Now
In this course we will look at classic figures in
phenomenology like Husserl, Heidegger, and
Merleau-Ponty, along with contemporary theorists,
in order to investigate the kind of light
descriptions of the lived experience of specifically
human bodies in all their variations might shed on
questions we face in the 21st century about what it
means to be human, (as opposed to, say, non-
human life or artificial intelligence), embodied
cognition, interdependent living and
environmental change.
Prerequisite: First- and second-year students must
complete one introductory level PHIL course
before enrolling in this course.

PHIL 079. Poststructuralism
This course will examine poststructuralist thinkers
such as Foucault, Derrida, and Deleuze in light of
contemporary questions about identity,
embodiment, the relationship between self and
other, and ethics.
Prerequisite: First- and second-year students must
complete one introductory level PHIL course
before enrolling in this course.

PHIL 086. Philosophy of Mind
See PHIL 118
Prerequisite: First- and second-year students must
complete one introductory level PHIL course
before enrolling in this course.

PHIL 089. Philosophy and Science Fiction: Time and Consciousness
In a world where technology and our relations to
our surroundings are rapidly changing, time itself
can appear to be speeding up. In this course, we
will consider different conceptions of time and
their implications for how we experience our
world, the parameters of reality, and the future of
the human race. We will read and watch science
fiction classics as well as more recent work
alongside an exploration of philosophical texts on
time, reality, consciousness, and the human subject
in order to stretch our minds about what is and
what could be for humanity in a time of change.
Prerequisite: First- and second-year students must
complete one introductory level PHIL course
before enrolling in this course.

PHIL 093. Directed Reading
Requires approval of a department faculty member
sponsor.
Humanities.
1 credit.

PHIL 096. Senior Course Thesis
Requires approval of a department faculty member
sponsor and the department.

PHIL 099. Senior Course Study
Required for all philosophy course majors.

Seminars
PHIL 101. Moral Philosophy
This seminar focuses on one of the age-old
questions in philosophy: what is the right thing to
do? We start with an in-depth look at some of the
major historical figures in moral philosophy:
Aristotle, Kant, Hume, and Mill. We then
introduce critiques and alternatives to these major
theories (from feminist ethics) and critiques of
moral philosophy as a whole (from Nietzsche). We
then move into contemporary discussions of
responsibility, practical reason, moral emotions,
and moral skepticism.

PHIL 102. Ancient Philosophy
For the Greeks and Romans, philosophy was a
way of life and not merely an academic discipline.
With this perspective in mind, we will examine
topics in ethics, metaphysics, aesthetics,
epistemology, and theology through close readings
of Plato’s Republic and Aristotle’s Nichomachean
Ethics. We will also look more briefly at the thought of the Presocratics and the Stoics. Humanities. 2 credits. Eligible for CLST Fall 2019. Ledbetter.

PHIL 104. Topics in Metaphysics Traditional metaphysical issues about God, Freedom, and Immortality raise specific issues about, among others, causation, modality, and personal identity, as well as some more general, no less challenging problems of ontology and its categories. The metaphysicians include Parmenides and Heraclitus (change), Plato and Aristotle (reality), Anselm and Aquinas (God), Descartes and Locke (selves), and our contemporaries Kripke and Lewis'62 (possibility), Jon Shaffer and Karen Bennett (ontology). One or more central topics in contemporary metaphysics selected for sustained study: include: freedom, causation, universals, categories, necessity, identity of things and people, fiction, God. Humanities. 2 credits. Fall 2020. Raff.

PHIL 113. Topics in Epistemology What is knowledge? Can we have it? If not, why not? If yes, how? What does it mean to have evidence, justification or reasons for one's beliefs? How rational or irrational are we? Can we have a priori, "armchair" knowledge? Is cognition essentially social? We will discuss classic and contemporary answers to such questions. Humanities. 2 credits. Eligible for COGS Fall 2020. Baumann.

PHIL 118. Philosophy of Mind The course is divided into three principal sections, focusing on philosophy of mind, artificial intelligence, and cognitive science. Section 1 covers four core positions in the philosophy of mind "dualism, behaviorism, materialism, and functionalism," and it serves as an overview of traditional philosophy of mind. Section 2 explores how the philosophical ideas developed above connect to ongoing research in artificial intelligence. Section 3 concerns the philosophy of cognitive science, a field that investigates the biological and neurophysiological underpinnings of human mentality. Part of the aim is to clarify the goals and methods of cognitive science and to investigate ways in which advances in cognitive science may yield philosophical insights into the nature of mind. Humanities. 2 credits. Eligible for COGS Spring 2020. Baker.

PHIL 119. Philosophy of Science A study of philosophical problems arising out of the presuppositions, methods, and results of the natural sciences, focusing particularly on the effectiveness of science as a means for obtaining knowledge. Topics include the difference between science and pseudoscience; the idea that we can "prove" or "confirm" scientific theories; explanation and prediction; the status of scientific methodology as rational, objective, and value free; and the notion that science aims to give us (and succeeds in giving us) knowledge of the underlying unobservable structure of the world. Humanities. 2 credits. Spring 2021. Baker.

PHIL 139. Phenomenology, Existentialism, and Poststructuralism In this course, we will examine themes of reality, truth, alienation, authenticity, death, desire, and human subjectivity as they emerge in contemporary European philosophy. We will consider thinkers such as Nietzsche, Husserl, Heidegger, Derrida, Irigaray, and Deleuze to place contemporary themes of poststructuralist thought in the context of the phenomenological and existential tradition out of which they emerge. Humanities. 2 credits. Eligible for INTP, GMST Spring 2021. Lorraine.

PHIL 180. Senior Honors Thesis A thesis may be submitted by majors in the department in place of one honors paper, on application by the student and at the discretion of the department. 2 credits. Spring 2020. Staff. Spring 2021. Staff.
PHIL 199. Senior Honors Study
Required of all philosophy honors students.
1 credit majors; 0.5 credit minors.
Spring 2020. Staff.
Spring 2021. Staff.
The aim of the department is to contribute to the total education of all students through the medium of physical activity. We believe this contribution can best be achieved through encouraging participation in a broad program of individual and team sports, aquatics, physical fitness, and wellness. The program provides an opportunity for instruction and experience in a variety of activities on all levels. It is our hope that participation in this program will foster an understanding of movement and the pleasure of exercise and will enhance, by practice, qualities of good sportsmanship, leadership, and cooperation in team play. Students are also encouraged to develop skill and interest in a variety of activities that can be enjoyed after graduation.

The Intercollegiate Athletics Program is comprehensive, including varsity with teams in 22 different sports: 10 for men and 12 for women. Ample opportunities exist for large numbers of students to engage in intercollegiate competition, and those who qualify may be encouraged to participate in regional and national championship contests. Several club teams in various sports are also organized, and a program of intramural activities is sponsored.

Requirements and Recommendations

Students are encouraged to enjoy the instructional and recreational opportunities offered by the department throughout their college careers. As a requirement for graduation, all non-veteran students, not excused for medical reasons, are required to complete 4 units of physical education by the end of their sophomore year. In addition, all students must pass a survival swim test or complete one-quarter of aquatics instruction.

Students who enter Swarthmore as transfer students can either apply transfer PE units toward the 4-unit physical education requirement or opt for a reduction in the PE requirement based on the student’s transfer status, but transfer students cannot both transfer PE units and receive a reduction in the requirement. The optional reduction in PE units depends on the transfer class of the student. Transfer students who enter Swarthmore as sophomores can opt to complete 3 units of physical education and pass a survival swim test (a reduction of 1 PE unit). Transfer students who enter Swarthmore as juniors can opt to complete 2 units of physical education and pass a survival swim test (a reduction of 2 PE units). Courses offered by the department are listed subsequently. Credit toward completion of the physical education requirement will also be given for participation in intercollegiate athletics, as well as PE Dance Courses, which are semester-long courses. Credit will also be given for participation in approved club sports and student activity groups (max 2). The approved club sports are as follows: fencing, rugby, Ultimate Frisbee, and men’s badminton. The approved student activity groups are as follows: aerobics, aikido, capoeira, folk dance, swing dance, tango, squash, men’s soccer, coed volleyball, Wing Chun Self Defense.

Under ordinary circumstances, physical education credit will not be awarded for independent study.

Physical Education and Athletics Courses

Fall
Advanced Weight Lifting
Aerobic Fusion Fitness
Bowling
Physical Education

Cardio Tennis
Core Ball Training
Fitness Training
Swimming for Beginners
Swimming for Fitness
Swimming for Intermediates
Table Tennis
Tennis
Volleyball
Walk, Jog, Run
Wellness Seminar

Spring

Women’s Soccer
Women’s Volleyball

Winter
Badminton
Men’s Basketball
Women’s Basketball
Men’s Swimming
Women’s Swimming
Men’s Indoor Track
Women’s Indoor Track

Spring
Baseball
The Physics and Astronomy Department teaches the concepts and methods that lead to an understanding of the fundamental laws governing the physical universe.

Emphasis is placed on quantitative, analytical reasoning, as distinct from the mere acquisition of facts. Particular importance is also attached to laboratory work because physics and astronomy are primarily experimental and observational sciences.

With the awareness that involvement in research is a major component in the education of scientists, the department offers a number of opportunities for students to participate in original research projects, conducted by members of the faculty, on campus.

Several research laboratories are maintained by the department to support faculty interests in the areas of plasma physics, nanophysics, computer simulation, liquid crystals, materials physics, granular media, and observational, theoretical astrophysics and cosmology.

The department operates the Peter van de Kamp Observatory for student and faculty research, plus several small telescopes for instructional use. The observatory is equipped with a 61-cm reflecting telescope, a high-resolution spectrograph, and a CCD camera for imaging and photometry. A monthly visitors’ night at the observatory is announced on the department website.

Three calculus-based introductory sequences are offered. PHYS 003 and 004 cover both classical and modern physics and are an appropriate introductory physics sequence for those students majoring in engineering. A parallel sequence, PHYS 003L and 004L, has a focus on the life sciences and is an appropriate sequence for students interested in chemistry, and biology.

PHYS 007 and 008, on the other hand, which are normally preceded by PHYS 005, are at a higher level. They are aimed towards students planning to do further work in physics or astronomy and are also appropriate for engineering and chemistry majors. The sequence of courses from PHYS 005 to PHYS 018 is designed to provide a comprehensive introduction to the major topics and mathematical tools of physics.

Additional information is available at www.swarthmore.edu/physics.

The Academic Program

In order to receive a degree from Swarthmore as a physics, astrophysics, or astronomy major, a student must have taken and satisfactorily passed one of the programs described below. In the Physics and Astronomy Department, the seminar is the standard format for most junior and senior level work. All prospective majors and minors in the department should realize this when planning programs. The seminars are open to all students, both honors and course majors.

First Course Recommendations

PHYS 005. Spacetime and Quanta introduces and explores in some depth special relativity and quantum mechanics - two key theories of modern physics and astronomy. This course is intended as an entry point to the major track for both physics and astronomy, regardless of the degree of high school physics and math preparation a first-year student has had.

PHYS 003. General Physics I: Motion, Forces, and Energy is calculus based and has a weekly lab component and is the entry point for a two-course physics sequence required of engineering majors.
PHYS 003L. General Physics I: Motion, Forces, and Energy with Biological and Medical Applications is calculus based and has a weekly lab and is the entry point for a two-course physics sequence intended for biology, pre-med, and chemistry students. It covers the same basic physical ideas as Physics 003, but applies those ideas to systems of interest to those studying biology, medicine, or chemistry.

Note that in general, majors cannot "pass out" of Physics 005 or most other major requirements, but that students who need to take Physics 003 or Physics 003L can get Swarthmore credit for work done prior to college if they scored a 5 on the physics AP exam *and* they achieve a good score on the department’s placement test, which is given the week before classes start in the fall (but in certain cases may be taken at other times throughout the year).

Core Programs
In the spirit of a liberal arts education, we note that one need not be considering a career in physical science to find a physics, astrophysics, or astronomy major beneficial and stimulating. The physics core curriculum and the astronomy core curriculum listed below both provide excellent training in quantitative reasoning and independent problem solving, skills that are applicable in a wide variety of arenas (finance, law, medicine, science journalism, public policy). Since all of the fundamental areas are covered, the physics core curriculum is also excellent preparation for a career in a scientific field related to physics, such as engineering or teaching physics in high school. The astronomy curriculum is excellent preparation for teaching astronomy in high school, or working as a telescope operator or data analyst. These curricula are ideal for double majors.

While the physics core curriculum is adequate preparation for graduate study in physics, students considering graduate school are encouraged to take additional seminars, especially those listed below under "Enhanced Programs." Most graduate programs in astronomy expect somewhat more physics preparation than the minimum listed in the astronomy curriculum. Those considering graduate school in astronomy are encouraged to take as much additional physics as scheduling permits, and ideally, to choose the astrophysics major listed below under "Enhanced Programs."

* Note: The Mathematics and Statistics Department offers many sets of courses covering similar material at different levels of sophistication. In each case noted, the most elementary version from each set has been listed. Students should always take the most advanced version for which they qualify, e.g. MATH 034 or 035 rather than MATH 033, if possible.

Physics Core Curriculum
PHYS 005

PHYS 007, 008, 013, 015, 017, 018
PHYS 111, 112, 113, 114
PHYS 063, 081, 082†
MATH* 015, 025, 027, 033

Astronomy Core Curriculum
PHYS 005
PHYS 007, 008, 013, 015, ASTR 014 or 016, ASTR 061
Four Astronomy seminars (can include upper-level astronomy courses at Haverford); ASTR 014 or 016 may be substituted for one seminar
MATH* 015, 025, 027, 033

Note: Under some circumstances, PHYS 003, 004 can be substituted for PHYS 007, 008.

† Students who have taken ENGR 072 may substitute PHYS 083 instead of PHYS 081, 082.

Enhanced Programs
These programs provide strong preparation for graduate study in physics, astrophysics, or astronomy.

Physics Enhanced Curriculum
In addition to the physics core requirements listed above, any two advanced seminars

Astrophysics Curriculum
PHYS 005
PHYS 007, 008, 013, 015, 017, 018, ASTR 014 or 016
Two Astronomy Seminars
PHYS 111, 112, 113, 114
MATH* 015, 025, 027, 033

Other Requirements
Seniors not in the Honors Program must complete a comprehensive exercise, which is intended both to encourage review and synthesis and to allow students to demonstrate mastery of fundamentals studied during all four years. In addition, all students must satisfy the College distribution requirements and the 20-course rule (except for special majors such as astrophysics or chemical physics, for whom the 20-course rule is waived).

Course Major
A student applying to become either a physics major in the core program or an astronomy major should have completed or be completing PHYS 005 and either PHYS 004 or PHYS 008. Otherwise it will be impossible to fulfill all program requirements. To be accepted as a major, the applicant must have received grades of C+ or better in Physics, Astronomy, and Math courses.

A student applying to become a physics major in either the enhanced program in course or the Honors Program should have completed or be completing courses through PHYS 008, PHYS
Physics and Astronomy

013, PHYS 015, PHYS 017, PHYS 018. In addition, to be accepted into the course major, these courses must be completed with an average grade of C+ or better. To be accepted into the Honors Program with a physics major, the average grade should be a B or better. Grades in math courses should be at a similar level.

A student applying to become an astrophysics major in course or in honors should have completed or be completing PHYS 008, PHYS 013, PHYS 015, PHYS 017, PHYS 018, and ASTR 016 or ASTR 014. In addition, applicants for the Honors Program in either astrophysics or astronomy must normally have an average grade in physics and astronomy courses of B or better.

Since almost all advanced work in physics and astronomy at Swarthmore is taught in seminars where the student participants share the pedagogical responsibility, an additional consideration in accepting (retaining) majors is the presumed (demonstrated) ability of the students not only to benefit from this mode of instruction but also to contribute positively to the seminars. Grades in prior courses are the best criteria in admitting majors, since they tend to indicate reliably whether or not the student can handle advanced work at Swarthmore levels without being overwhelmed. However, constructive participation in classes and laboratories is also considered.

Program for the Last Two Years

The following one-credit physics seminars are offered on a regular basis (regardless of faculty leaves):

Prerequisites: PHYS 005, 007, 008, 013, 015, 017, and 018
PHYS 111. Analytical Dynamics
PHYS 112. Electrodynamics
PHYS 113. Quantum Theory
PHYS 114. Statistical Physics
ASTR 016. Astrophysics: Stars, ISM, and Galaxies
ASTR 121. Research Techniques in Observational Astronomy (offered in alternate years)
ASTR 123. Stellar Astrophysics (offered in alternate years)
ASTR 126. The Interstellar Medium (offered in alternate years)

In addition, one or two one-credit advanced physics seminars are offered each year. Typical topics are:
PHYS 130. General Relativity
PHYS 134. Introduction to Nuclear Physics
PHYS 135. Condensed Matter Physics
PHYS 137. Cosmological Physics
PHYS 138. Plasma Physics
PHYS 139. Biophysics

Course Minor

The Physics and Astronomy Department offers two types of course minor, one in physics and one in astronomy.

Physics Minor Curriculum
PHYS 005
PHYS 007
PHYS 008
PHYS 013
PHYS 015
PHYS 017
PHYS 018
PHYS 111 and 113†
MATH* 015, 025, 033

Under some circumstances, PHYS 003 and/or PHYS 004 may be substituted for PHYS 007 and/or PHYS 008.

†We prefer that minors have two advanced seminars, one in "classical" and one in "quantum" physics. PHYS 111 is a prerequisite for future seminars and fulfills the "classical" requirement. While we recommend PHYS 113 as the second advanced seminar, a different seminar may be substituted upon consultation with the Chair.

Astronomy Minor Curriculum
PHYS 005
PHYS 007 or PHYS 003
PHYS 008 or PHYS 004
ASTR 014 or 016

One Astronomy seminar numbered 100 or above
One semester of ASTR 061 (0.5 credits)
MATH* 015, 025, 033

* Note: The Mathematics and Statistics Department offers many sets of courses covering similar material at different levels of sophistication. In each case noted, the most elementary version from each set has been listed. Students should always take the most advanced version for which they qualify.

Honors Major

Honors majors must meet the requirements for the major as described above, and select three of the following preparations, plus their prerequisites.

Honors Major Programs
Physics: Electrodynamics (PHYS 112), Quantum Theory (PHYS 113), Statistical Physics (PHYS 114), Honors Thesis (PHYS/ASTR 180)
Astrophysics: Any of the seminars from the astronomy program, plus: Electrodynamics (PHYS 112), Quantum Theory (PHYS 113), Statistical Physics (PHYS 114), Honors Thesis (PHYS/ASTR 180)

Note: must include at least one seminar each from astronomy and physics.
Physics and Astronomy

Astronomy: Research Techniques in Observational Astronomy (ASTR 121), Stars and Stellar Structure (ASTR 123), The Interstellar Medium (ASTR 126), Honors Thesis (ASTR 180).

Note: In some cases, elective seminars may be used as honors preparations.

Note: External examination for honors major programs includes two or three 3-hour written examinations on the chosen preparations, plus two or three 30-45 minute oral examinations on the chosen preparations, plus one 45-60 minute oral examination on the honors thesis (for thesis writers).

Honors Minor

Physics: One of the following seminars PHYS 112, PHYS 113, PHYS 114
Astrophysics: One of the following seminars PHYS 112, PHYS 113, PHYS 114, ASTR 121, ASTR 123, ASTR 126
Astronomy: One of the following seminars (ASTR 121, ASTR 123, ASTR 126)

Note: External examination for honors minor programs includes one three-hour written examination on the chosen preparations, plus one 30-45 minute oral examination on the chosen preparations.

Research Opportunities

Advanced Laboratory Program

In the junior and senior years, all physics majors must take PHYS 081 and PHYS 082. Students enrolled in PHYS 081 and PHYS 082 must arrange their programs so that they can schedule an afternoon for the laboratory each week free of conflicts with other classes, typically Friday afternoon. Enrollment in each of these laboratories will appear on the student’s transcript with a letter grade for 0.5 credit for each semester. PHYS 081, 082 together count as a "writing course" for collegiate graduation requirements. Students with credit for ENGR 072 may replace PHYS 081, 082 with PHYS 083, which is an advanced lab experience without an electronics component.

Independent Work

Physics, astrophysics, and astronomy majors are encouraged to undertake independent research projects, especially in the senior year, either in conjunction with one of the senior seminars, or as a special project for separate credit (PHYS/ASTR 094). Members of the physics or astronomy faculty are willing to suggest possible projects and to supervise one of these if the student chooses to pursue it. Students completing work under PHYS/ASTR 094 are required to submit final written and oral reports of their work to the department. In preparation for independent experimental work, prospective physics majors are strongly urged to take the required 0.5 credit course PHYS 063, Procedures in Experimental Physics, during their fall semester of their sophomore year, which will qualify them to work in the departmental shops. There are usually many opportunities for students to receive financial support to work with faculty members on research projects during the summer.

Thesis

Students may do a theoretical or experimental research thesis representing the results of independent work done under the supervision of a faculty member. This thesis will usually cover work begun in the summer after the junior year and completed during the senior year. A thesis is optional for all students in the Honors Program.

Off-Campus Study

With proper planning, study away from Swarthmore for one or two semesters is possible while majoring in physics, astronomy, or astrophysics. However, the many prerequisites in the Physics and Astronomy Department make careful planning for study abroad a necessity. Spring of junior year is often the easiest time to make this work. The important point is to begin planning at an early stage. This allows students (1) to make sure courses not available abroad are taken at Swarthmore, and (2) to find out well in advance what physics and astronomy courses are available in the various study abroad programs. While it is completely feasible to complete a physics major without taking physics abroad (e.g. if one is studying in a non-English-speaking country), students should note when planning their programs that PHYS 111 must be taken before PHYS 113 or PHYS 114.

Teacher Certification

We offer teacher certification in physics through a program approved by the state of Pennsylvania. For further information about the relevant set of requirements, contact the Educational Studies Department chair, the Physics Department chair, or visit the Educational Studies Department website at www.swarthmore.edu/educationalstudies.xml.

Physics Courses

PHYS 001C. The Earth’s Climate and Global Warming
(Cross-Listed with ENVS 010)
A study of the complex interplay of factors influencing conditions on the surface of the Earth. Basic concepts from geology, oceanography, and atmospheric science lead to an examination of how the Earth’s climate has varied in the past, what changes are occurring now, and what the future may hold. Besides environmental effects, the economic, political, and ethical implications of global warming are explored, including possible
ways to reduce climate change.
Natural sciences and engineering.
1 credit.
Eligible for ENVS, GLBL-Core
Fall 2019. Jensen.

PHYS 002E. First-Year Seminar: Energy
This seminar will cover both the physics and policy of energy in all its forms. Topics include the physical basis for energy; thermodynamics and engines; energy sources (fossil fuels, solar, photovoltaics, nuclear); transportation; the electric grid; and climate change.
Prerequisite: High school algebra.
Natural sciences and engineering.
1 credit.
Eligible for ENVS

PHYS 003. General Physics I
Topics include vectors, kinematics, Newton’s laws and dynamics, conservation laws, work and energy, oscillatory motion, systems of particles, and rigid body rotation. Possible additional topics are special relativity and thermodynamics.
Prerequisite: (or Concurrently) MATH 015
Natural sciences and engineering practicum.
Lab required.
1 credit.
Fall 2019. Ko.
Fall 2020. Staff.

PHYS 003L. General Physics I: Motion, Forces, and Energy with Biological and Medical Applications
This course discusses the topics from the first semester of introductory physics with the greatest biological, biochemical, and medical relevance, namely motion, forces (both statics and dynamics), torques (primarily statics), work, conservation of energy and momentum, oscillations, fluid statics and dynamics, and thermal and statistical phenomena. A core goal is to develop connections between physics and the other sciences. The course addresses the appropriate medical school competencies in conjunction with PHYS 004L.
Prerequisite: MATH 015 (may be taken concurrently).
Lab required.
1 credit.
Fall 2019. Ko.
Fall 2020. Staff.

PHYS 004. General Physics II
Topics include wave phenomena, geometrical and physical optics, electricity and magnetism, and direct and alternating current circuits. Possible additional topics may be added.
Prerequisite: PHYS 003 or the permission of the instructor, MATH 025 (can be taken concurrently).
Lab required.
1 credit.

PHYS 004L. General Physics II: Electricity, Magnetism, and Optics with Biochemical and Biomedical Applications
PHYS 004L will cover the same topics as PHYS 004 but will emphasize biological, biochemical, and medical applications of those topics. The course will meet medical school requirements (in conjunction with PHYS 003) and will include a weekly laboratory. Students who wish to take PHYS 004L before PHYS 003 must have some high school physics background and obtain permission from the instructor.
Prerequisite: MATH 015 or a more advanced calculus course; PHYS 003 or permission of the instructor.

PHYS 005. Spacetime and Quanta
This course presents an introduction to the twin pillars of contemporary physics: relativity and quantum theory. Students will explore the counterintuitive consequences of special relativity for our understanding of space and time, and the nature of the subatomic quantum world, where our notions of absolute properties such as position or speed of a particle are replaced by probabilities. It is the usual entry point to majoring or minoring in astronomy, astrophysics, or physics, and is a pre or co-requisite for the sophomore-level physics major curriculum; it welcomes both non-majors and prospective majors who are interested in engaging rigorously and deeply with both the mathematical and conceptual descriptions of physics.
Not eligible for NSEP credit.
Natural sciences and engineering.
1 credit.
Spring 2021. Staff.

PHYS 007. Introductory Mechanics
An introduction to classical mechanics. This course is suitable for potential majors, as well as students in other sciences or engineering who would like a course with more mathematical rigor and depth than PHYS 003. Includes the study of kinematics and dynamics of point particles; conservation principles involving energy, momentum and angular momentum; rotational motion of rigid bodies, and oscillatory motion. Lab used for hands-on experimentation and occasionally for workshops that expand on lecture material.
Prerequisite: MATH 025 (can be taken concurrently), PHYS 005 or permission of the instructor.
Lab required.
1 credit.
PHYS 008. Electricity, Magnetism, and Waves
A sophisticated introductory treatment of wave and electric and magnetic phenomena, such as oscillatory motion, forced vibrations, coupled oscillators, Fourier analysis of progressive waves, boundary effects and interference, the electrostatic field and potential, electrical work and energy, D.C. and A.C. circuits, the relativistic basis of magnetism, Maxwell’s equations, and geometrical optics.
Prerequisite: PHYS 007 (or permission of instructor); MATH 033 (can be taken concurrently).
Natural sciences and engineering practicum. Includes one laboratory weekly.
1 credit.
Spring 2021. Staff.

PHYS 008S. Electricity, Magnetism, and Waves - Intensive
An alternate pathway through the material covered by Physics 008 (electricity, magnetism, and electromagnetic waves), but beginning with a more concrete, physical approach and moving to a more abstract approach after laying an initial foundation. Students will participate in the Physics 004 course meetings and laboratories during the first nine weeks of the semester, which are devoted to electricity and magnetism, supplemented by once-per-week hour-long meetings with the Physics 008S instructor to apply multivariable calculus to the material covered that week. During the last five weeks, Physics 008S students will receive their own instruction in the remaining topics covered in Physics 008, and will participate in the Physics 008 laboratories. Physics 008S will reach the same final point as Physics 008, thereby providing equivalent preparation for Physics 112 and other advanced physics and astrophysics courses.
Recommended for students concurrently enrolled in multivariable calculus, and/or for those who have had very little exposure to electricity and magnetism in previous (high school) physics classes.
Permission of the instructor is required to enroll.
Weekly out-of-class meetings will be scheduled after registration, taking all students’ schedules into account.
Prerequisite: PHYS 007 and permission of instructor
Natural sciences and engineering practicum. Lab required.
1 credit.
Spring 2021. Staff.

PHYS 013. Thermodynamics / Statistical Mechanics
A half-semester introductory course in thermal and statistical physics. Topics include energy, heat, work, entropy, temperature (the First, Second and "Third" Laws of Thermodynamics), heat capacity, ideal gases, paramagnetism, phase transitions, and the chemical potential. This course serves as a prerequisite for PHYS 114 and for PHYS 135.
Prerequisite: single-variable calculus (MATH 025 or MATH 026); may be taken as a corequisite with permission of the instructor.
This class has a weekly laboratory requirement.
0.5 credit.
Spring 2020. Smith, H.
Spring 2021. Staff.

PHYS 015. Optics
A half-semester introduction to geometric and wave optics, including ray diagrams, matrix optics, polarization, Jones matrices, interference, and diffraction.
Prerequisite: single-variable calculus (MATH 025 or MATH 026); may be taken as a corequisite with permission of the instructor.
Lab required.
0.5 credit.
Spring 2020. Smith, H.
Spring 2021. Staff.

PHYS 017. Mathematical Methods of Physics
A half-semester survey of mathematical techniques useful in physics. Topics include eigenvalue problems, Fourier analysis, solutions to ordinary and partial differential equations, special functions, theory of residues, and numerical methods.
Prerequisite: linear algebra (MATH 027, MATH 028, or MATH 028S); corequisite: multivariable calculus (MATH 033, MATH 034, or MATH 035).
Lab required.
0.5 credit.
Spring 2021. Staff.

PHYS 018. Quantum Mechanics
A half-semester introductory course in quantum mechanics. Topics include waves, photons, the Schroedinger equation, Dirac notation, one-dimensional potentials, quantized angular momentum, and central potentials. This course serves as a prerequisite for PHYS 113.
Prerequisite: PHYS 005, PHYS 017, and MATH 027
Corequisite: Multivariable calculus (MATH 033, MATH 034, or MATH 035)
Lab required.
0.5 credit.
Spring 2021. Staff.
PHYS 093. Directed Reading
This course provides an opportunity for an individual student to do special study, with either theoretical or experimental emphasis, in fields not covered by the regular courses and seminars. The student will present oral and written reports to the instructor.
0.5, 1, or 2 credits.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

PHYS 094. Research Project
Initiative for a research project may come from the student, or the work may involve collaboration with ongoing faculty research. The student will present a written and an oral report to the department.
0.5, 1, or 2 credits.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

PHYS 095. Introduction to Science Pedagogy: Theory and Practice
(Cross-listed as EDUC 075)
This course is designed for students who are interested in learning about issues surrounding science education, particularly at the high school and college level. How do students most effectively learn science? How can we facilitate this learning process as instructors and educators? How do we best assess whether such learning is happening? Since the course will integrate educational theory with concrete, practical strategies for becoming better teachers, it will be particularly relevant for students currently serving as Science Associates (or those who are interested in being Science Associates.) We will touch on issues related to students’ conceptual development and conceptual change, collaborative learning, as well as practical issues encountered when engaging in responsive, interactive teaching. This is a seminar course where students are responsible for weekly readings (1-2 papers per week from the education research literature), in class discussions, and brief written reflections. Students will be encouraged to bring to the discussion their own unique experiences as both science students and science teachers.
Prerequisite: Instructor approval for enrollment.
0.5 credit.

PHYS 062. Physics Journal Club
Reading and discussion of selected research papers from the physics literature. Techniques of journal reading, use of abstract services, Arxiv, and search engines to stay aware of the current literature. Graded CR/NC.
Prerequisite: PHYS 008 and PHYS 013
0.5 credit.
Fall 2019. Brown and Smith, H.

Physics Advanced Seminars

PHYS 111. Analytical Dynamics
Intermediate classical mechanics. Motion of a particle in one, two, and three dimensions; Kepler’s laws and planetary motion; phase space; oscillatory motion; Lagrange equations and variational principles; systems of particles; collisions and cross sections; motion of a rigid body; Euler’s equations; rotating frames of reference; small oscillations; normal modes; and wave phenomena.
Prerequisite: PHYS 005, PHYS 007, PHYS 008, and PHYS 017.
Natural sciences and engineering.
1 credit.
Fall 2019. Bester.
Fall 2020. Staff.

PHYS 112. Electrodynamics
Electricity and magnetism using vector calculus, electric and magnetic fields, dielectric and magnetic materials, electromagnetic induction, Maxwell’s field equations in differential form, displacement current, Poynting theorem and electromagnetic waves, boundary-value problems, radiation and four-vector formulation of relativistic electrodynamics.
Corequisite: PHYS 111.
Natural sciences and engineering.
1 credit.
Fall 2019. Smith, T.
Fall 2020. Staff.

PHYS 113. Quantum Theory
Postulates of quantum mechanics, operators, eigenfunctions, and eigenvalues, function spaces and hermitian operators; bra-ket notation, superposition and observables, fermions and bosons, time development, conservation theorems, and parity; angular momentum, three-dimensional systems, matrix mechanics and spin, coupled angular momenta, time-independent and time-dependent perturbation theory.
Prerequisite: PHYS 018, PHYS 111; PHYS 112 strongly recommended.
Natural sciences and engineering.
1 credit.
Spring 2020. Staff.
Spring 2021. Staff.

PHYS 114. Statistical Physics
The statistical behavior of classical and quantum systems; temperature and entropy; equations of state; engines and refrigerators; statistical basis of thermodynamics; microcanonical, canonical, and grand canonical distributions; phase transitions; statistics of bosons and fermions; black body radiation; electronic and thermal properties of quantum liquids and solids.
Prerequisite: PHYS 013, PHYS 111.
Natural sciences and engineering.
1 credit.
PHYS 130. General Relativity
Newton’s gravitational theory, special relativity, linear field theory, gravitational waves, measurement of space-time, Riemannian geometry, geometrodynamics and Einstein’s equations, the Schwarzschild solution, black holes and gravitational collapse, and cosmology. Prerequisite: PHYS 111 and PHYS 112. Natural sciences and engineering. 1 credit.

PHYS 134. Introduction to Nuclear Physics
A study of basic nuclear properties, models, stability, nuclear structure, decay modes, forces, nuclear reactions, techniques to detect and measure radiation, nuclear energy, nuclear astrophysics, basic experimental design, particle accelerators, and medical applications. We will look at fundamental questions in research and touch on aspects of history and public policy. Prerequisite: PHYS 018. Recommended: PHYS 113. Natural sciences and engineering.

PHYS 135. Condensed Matter Physics
Crystal structure and diffraction, the reciprocal lattice and Brillouin zones, lattice vibrations and normal modes, phonon dispersion, Einstein and Debye models for specific heat, free electrons and the Fermi surface, electrons in periodic structures, the Bloch Theorem, band structure, semiconductors, magnetic and optical properties of solids, and superconductivity. Prerequisite: PHYS 113 and PHYS 114. Natural sciences and engineering. 1 credit.

PHYS 137. Cosmological Physics
An introduction to cosmology which includes the study of the origin, evolution, and content of the universe: isotropy, homogeneity, and geometry of the universe; gravitational collapse and formation of proto-galactic structures; statistical mechanics and fluid dynamics in an expanding universe; observational tests of the standard cosmology model; extensions to the standard cosmological model including scalar field dark matter and modified theories of gravity. Prerequisite: PHYS 111. Natural sciences and engineering. 1 credit. Spring 2020. Smith, T.

PHYS 138. Plasma Physics
An introduction to the principles of plasma physics. Treatment will include the kinetic approach (orbits of charged particles in electric and magnetic fields, statistical mechanics of charged particles) and the fluid approach (single fluid magnetohydrodynamics, two fluid theory). Topics may include transport processes in plasmas (conductivity and diffusion), waves and oscillations, controlled nuclear fusion, and plasma astrophysics. Prerequisite: PHYS 112. Natural sciences and engineering. 1 credit.

PHYS 139. Biophysics
Cross-Listed with CHEM 114
This seminar will provide an introduction to the study of biological systems using the tools of the physical sciences. Topics will include the role of statistical phenomena in life; feedback and control processes in biological networks; biological electricity; fluid dynamics as they pertain to organisms (both unicellular and multicellular), and topics chosen from the literature by the members of the seminar. Prerequisite: PHYS 008, 013, 015, and 017; or PHYS 004 or 004L, CHEM 044, and CHEM 055; or permission of the instructor. Also BIOL 001 or CHEM 038, or permission of the instructor. Students who have not previously taken an honors seminar in the physics department should discuss class format and expectations with the instructor before registering. Natural sciences and engineering. 1 credit. Fall 2019. Crouch.

PHYS 180. Honors Thesis
Theoretical or experiment work culminating in a written honors thesis. Also includes an oral presentation to the department. This course must be completed by the end of, and is normally taken in, the fall semester of the student’s final year. 1 or 2 credits. Fall 2019. Staff. Spring 2020. Staff. Fall 2020. Staff. Spring 2021. Staff.

Physics Laboratory Program
PHYS 063. Procedures in Experimental Physics
Techniques, materials, and the design of experimental apparatus; shop practice; printed circuit design and construction. This is a 0.5-credit course open only to majors in physics, astrophysics, or astronomy. 0.5 credit. Fall 2019. Technical staff. Fall 2020. Technical staff.

PHYS 081. Advanced Laboratory I
This is the first of a two-semester sequence designed to fulfill the physics major advanced laboratory requirement. Students will perform projects in digital electronics. They will also perform experiments chosen from among the areas of thermal and statistical physics, solid state, atomic, plasma, nuclear, biophysics, condensed matter physics, and advanced optics.
Physics and Astronomy

Writing course.
0.5 credit.
Fall 2019. Smith, H.
Fall 2020. Staff.
Spring 2021. Staff.

PHYS 082. Advanced Laboratory II
This is the second of a two-semester sequence designed to fulfill the physics major advanced laboratory requirement. Students will perform projects in digital electronics. They will also perform experiments chosen from among the areas of thermal and statistical physics, solid state, atomic, plasma, nuclear, biophysics, condensed matter physics, and advanced optics. When both PHYS 081 and PHYS 082 are taken, students will receive credit for having completed a writing (W) course.
When both PHYS 081 and PHYS 082 are taken, students will receive credit for having completed a writing (W) course.

PHYS 083. Advanced Laboratory I and II
This course is designed to fulfill the physics major advanced laboratory requirement for students who have already had sufficient experience with digital electronics (ENGR 072 or the equivalent). Students will perform experiments chosen from among the areas of thermal and statistical physics, solid state, atomic, plasma, nuclear, biophysics, condensed matter physics, and advanced optics. When both PHYS 081 and PHYS 082 are taken, students will receive credit for having completed a writing (W) course.

Astronomy Courses

ASTR 001. Introductory Astronomy
The scientific investigation of the universe by observation and theory, including the basic notions of physics as needed in astronomical applications. Topics may include the appearance and motions of the sky; history of astronomy; astronomical instruments and radiation; the sun and planets; properties, structure, and evolution of stars; the galaxy and extragalactic systems; the origin and evolution of the universe; and prospects for life beyond Earth.
Natural sciences and engineering practicum.
Evening labs required.
1 credit.
Fall 2019. Schmidt.

ASTR 014. Astrophysics: Solar System and Cosmology
This course assumes no prior knowledge of astronomy, but knowledge of some basic physics as well as elementary calculus. It focuses on two major topics of current interest in astrophysics: (1) Solar System and planetary science and (2) cosmology, the large-scale study of the universe, its history and content.
Prerequisite: MATH 015 and (concurrently) MATH 025, or equivalent, and some prior work in calculus-based physics (which could include high school physics). Interested students who have not met these prerequisites should consult with the instructor. This course should be accessible to some students who have completed ASTR 001.
Natural sciences and engineering.
Evening labs and observing sessions required.
1 credit.
Spring 2021. Staff.

ASTR 016. Astrophysics: Stars, ISM, and Galaxies
This is a one-semester calculus- and physics-based introduction to astrophysics as applied to stars, the interstellar medium, and galaxies.
Prerequisite: MATH 015 and MATH 025, and some prior work in calculus-based physics (which could include high school physics). Recommended (but not required) pre- or co-requisites are PHYS 013; PHYS 015; and/or PHYS 007 or PHYS 003. Interested students who have not met these prerequisites should consult with the instructor.
Natural sciences and engineering.
Evening labs and observing sessions required.
1 credit.
Fall 2019. Cohen and Rivera.
Fall 2020. Staff.

ASTR 061. Current Problems in Astronomy and Astrophysics
Reading and discussion of selected research papers from the astronomical literature. Techniques of journal reading, use of abstract services, and other aids for the efficient maintenance of awareness in a technical field.
Graded CR/NC. May be repeated for credit.
Prerequisite: ASTR 016
0.5 credit.
Spring 2020. Staff.
Spring 2021. Staff.

ASTR 094. Research Project
(Cross-listed as PHYS 094)
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

Astronomy Seminars
Students interested in upper-level work in astronomy are encouraged to also consult Haverford’s course schedule, since the two
astronomy programs actively work to offer complementary topics.

**ASTR 121. Research Techniques in Observational Astronomy**
This course covers many of the research tools used by astronomers. These include instruments used to observe at wavelengths across the electromagnetic spectrum; techniques for photometry, spectroscopy, and interferometry; various methods by which images are processed and data are analyzed; and use of online resources including data archives and bibliographic databases. Students will perform observational and data analysis projects during the semester.
Prerequisite: PHYS 015; ASTR 016; ASTR 014 Natural sciences and engineering.
1 credit.

**ASTR 123. Stellar Astrophysics**
An overview of physics of the stars, both atmospheres and interiors. Topics may include hydrostatic and thermal equilibrium, radiative and convective transfer nuclear energy generation, degenerate matter, calculation of stellar models, interpretation of spectra, stellar evolution, white dwarfs and neutron stars, nucleosynthesis, supernovae, and star formation.
Prerequisite: PHYS 013, ASTR 016, ASTR 014 Recommended: PHYS 017 and PHYS 018 Natural sciences and engineering.
1 credit.
Fall 2020. Staff.

**ASTR 126. The Interstellar Medium**
Study of the material between the stars and radiative processes in space, including both observational and theoretical perspectives on heating and cooling mechanisms, physics of interstellar dust, chemistry of interstellar molecules, magnetic fields, emission nebulae, hydrodynamics and shock waves, supernova remnants, star-forming regions, the multiphase picture of the interstellar medium.
Prerequisite: PHYS 013, ASTR 014 or ASTR 016 Recommended: PHYS 017 and PHYS 018 Natural sciences and engineering.
1 credit.

**ASTR 180. Honors Thesis**
(Cross-listed as PHYS 180)
1 or 2 credits.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.
The Academic Program

Politics is about who governs. Whether by bullets or ballots, by violent struggle or peaceful competition for office, politics is about deciding who rules, for what purposes, and under what constraints. Politics influences the duties of rulers and ruled, the rights of citizens, and whether people live in fear or not.

In politics people acquire and use power, cooperatively or non-cooperatively, for creative or destructive purposes. They forge collective symbols and craft (and recraft) compelling narratives about mutual identities and social goals. They demand recognition and justice -- which means that they redefine what counts as political. They focus attention on collective problems -- or try to prevent such a focus. Finally they distribute or redistribute economic resources - which is one reason why politics can be terribly contentious.

The faculty members of the Swarthmore political science department reflect, in their intellectual and research interests, the exceptional pluralism of political science and seek to convey the discipline's richness and variety in their courses, in the speakers we bring to campus, and in discussions with students after class or during office hours. We arrange course offerings by the traditional subdivisions of the discipline as it is practiced in the United States: American politics, comparative politics, international relations, and political theory. Our offerings are particularly strong in the study of China, constitutional law, the study of Congress, environmental policy and politics, faith-based social policy, the presidency, the study of American parties and elections, U.S. civil rights, international trade and political economy, the cognitive and perceptual dimensions of international politics, Latin American politics, theories of prophetic political vision, ancient and modern political theory, democratic theory and civic engagement, Iranian politics, and American political development. Students currently have access to interdisciplinary and innovative pedagogies in GIS training, for understanding local democracy in and around Swarthmore and poverty in Chester, PA, and for understanding the nature of mass incarceration in the United States. We also offer many opportunities to explore linkages between theory and practice of politics. Some courses are earmarked for their emphasis on community-based learning.

First course recommendations
The following serve as both an introduction to the discipline of political science and as required introductory courses before acceptance as a major/minor in the department (please see specific acceptance guidelines for each major/minor): POLS 002 American Politics, POLS 003 Politics Across the World, and POLS 004 International Politics.

Distribution of courses within the department
Political science majors are required to take one course or seminar in each of the following areas: 1) American politics; 2) comparative or international politics; and 3) political theory. All distribution requirements must be met by courses taken at Swarthmore.

Courses in comparative and international politics include: Latin American Politics, China and the World, Defense Policy, American Foreign Policy, The Causes of War, Globalization, International Political Economy, and others.

Courses in political theory include: Ancient Political Thought, Modern Political Thought, Democratic Theory and Practice (POLS 019), and others. Only POLS 011, 012, 100 or 101 will
satisfy the distribution requirement for theory in the department. Majors and minors may take one directed reading within the department for credit with approval from the department chair. Other courses eligible for Political Science credit are PEAC 003 and PEAC 053. These courses count towards the major/minor but do not satisfy distribution requirements. Honors majors and minors, course majors, double majors, and special majors may take one course in the department credit/no credit after all distribution and department requirements have been fulfilled.

Political theory requirement
At least one course in ancient or modern political theory is required of all majors and minors. This requirement can be met by enrollment in either one course or one honors seminar, listed below. It is strongly recommended that all majors and minors complete this requirement no later than their junior year. Eligible courses are:
POLS 011. Ancient Political Thought
POLS 012. Modern Political Thought
POLS 100. Ancient Political Thought
POLS 101. Modern Political Theory
Only ancient or modern political theory, either the course or the seminar, count as fulfilling the political theory requirement. Courses taken abroad or outside of Swarthmore are not considered the equivalent of these courses. This requirement must be met at Swarthmore, in the Political Science Department.

Lotteries
Sometimes courses have to be lotteried. If a student is lotteried for a course one semester, their name will go on a list and they will not be lotteried for that same course the next semester that the course is offered.

Course Major
1. To graduate with a major in political science, a student must complete 8.5 credits in the department- at least eight courses in the department, plus the 0.5 credit requirement for completing the senior comprehensive exercise. At least five of these eight courses must be taken at Swarthmore, including all of the distribution requirements (see below), and two introductory level courses (POLS 002, 003, 004, 010) must be completed at Swarthmore before acceptance as a major. Introductory level courses will count as distribution requirements.
2. Course prerequisites. Students must have completed two introductory courses at Swarthmore (POLS 002, 003, 004, 010) by the end of their first semester of sophomore year. This is the prerequisite for further work in the department and acceptance into the major. Majors will be deferred from acceptance into the department until both intros are completed. Only one intro can be a first-year seminar.
3. Grade requirements. We consider student applications to join the department individually, taking into account each student’s background and college performance to date. Normally, the following expectations apply:
a. For acceptance as a course major, the department expects performance at the 2.33 level in all college courses and at the 2.67 level in courses in political science (including courses graded Credit/No Credit).
b. For acceptance as a double major, the department expects performance at the 3.0 level in all college courses and at the 3.33 level in courses in political science (including courses graded Credit/No Credit).
4. Prerequisites for individual courses. Students should note that certain courses and seminars have specific prerequisites.
5. The senior comprehensive requirement. To graduate from Swarthmore, all majors and special majors in the Course Program need to fulfill the senior comprehensive requirement in the Political Science Department. This can be done in one of two ways. The preferred option is POLS 092: the Senior Comprehensive Exam, which is a 0.5 credit graded exercise. Working with a faculty advisor, students will produce a short paper in the spring semester of their senior year, which tackles a major puzzle in political science. Students will then present their work at a department conference. Option two, POLS 095 is a one-credit graded written thesis, which may be chosen by students who meet the eligibility requirements and get the approval of a faculty advisor and the chair. All junior and senior course majors (unless abroad) are required to attend the department senior comprehensive exercise conference in March.
6. Recommended courses in other departments. Supporting courses strongly recommended for all majors are Statistical Thinking or Statistical Methods (STAT 001 or 011) and Introduction to Economics (ECON 001).
Honors Major

1. Political science honors majors must meet all current distributional requirements for majors, including the political theory requirement, preferably with the honors versions of ancient or modern political theory.
2. They must have a minimum of ten credits inside the Political Science Department.
3. Six of these credits will be met with three (3) two-unit honors preparations which will help prepare honors majors for outside examinations, both written and oral. These two-unit preparations will normally be either a two-credit honors seminar or a "course-plus" option.

Of these three (3) two-unit preparations, no more than two may be in the same field in the department, and no more than one may be a course-plus option.

The "course-plus" option will normally consist of two one-unit courses that have been designated to count as an honors preparation, or in some cases a one-unit course and a one-unit seminar that have been so designated. It is up to the student to arrange a course-plus option with a specific faculty member and to have this approved by the chair.

4. To fulfill the senior honors study requirement for honors majors, students will revise a paper written for one of their department seminars. This paper will be submitted to the appropriate external examiner as part of the honors evaluation process.
5. To be accepted into the Honors Program students should normally have at least an average of 3.67 inside and 3.5 outside the department, and should have given evidence to the departmental faculty of their ability to work independently and constructively in a seminar setting. Seminars will normally be limited to eight students and admission priority will go to honors majors, first seniors and then juniors, including special majors.
6. Honors majors are strongly encouraged to attend the department senior comprehensive exercise conference in March.

Admission to Seminars

Placement in seminars is normally limited to honors students. Occasionally, there is room in a seminar for highly qualified non-honors students, but this is rare and at the discretion of the teacher. Honors seminars in the Political Science Department are normally full. Students should request placement in scheduled honors seminars by including the seminar in the Sophomore Plan or by including it in the application for participation in the Honors Program. All honors students in the department must get the approval of the Chair of the department for their Honors Program by meeting with the chair. The department maintains priority lists for enrollment in every seminar we anticipate offering in the next two academic years. We add the names of qualified students to these lists in the order their requests for seminar placement are received, with honors majors always receiving priority over non-honors majors.

We make every effort to offer the seminars we announce. But inclusion on a priority list is not a guarantee that the seminar will be offered, or that a student will get in. Sometimes seminars are guaranteed that the seminar will be offered, or that a student will get in. Sometimes seminars are lotteried. It is best to discuss participation in a seminar with the faculty member who is teaching it.

Honors Minor

Honors minors in political science will be required to have at least five credits in political science. Among these credits there must be one introductory course (POLS 002, POLS 003 or POLS 004; a first-year seminar does not count), one course in political theory (POLS 011, POLS 012, POLS 100, or POLS 101), one other political science course and one (1) of the two-unit honors preparations offered by the department.

Honors Exams

The honors exams will normally consist of a three hour written exam in each of the student’s seminars, and an oral exam in each seminar, conducted by an external honors examiner.

Double Major

1. Course prerequisites: To be accepted as a double major in the department, students must have completed two introductory courses at Swarthmore (POLS 002, 003, 004, 010) by the end of their first semester of sophomore year. This is the prerequisite for further work in the department and acceptance as a double major. Majors will be deferred from acceptance into the department until both intros are completed. Only one intro can be a first-year seminar.
2. Grade requirements: We consider student applications to join the department individually, taking into account each student’s background and college performance to date. For acceptance as a double major, the department expects performance at the 3.0 level in all college courses and at the
3.33 level in courses in political science (including courses graded Credit/No Credit).

3. Prerequisites for individual courses. Students should note that certain courses and seminars have specific prerequisites.

4. To graduate with a double major in political science, a student must complete 6.5 credits in the department - at least six courses in the department, plus the 0.5 credit requirement for completing the senior comprehensive exercise. All distribution requirements within the department (please see Distribution of courses within the department for details) must be taken at Swarthmore.

5. The senior comprehensive requirement. To graduate from Swarthmore, all majors and special majors in the course program need to fulfill the senior comprehensive requirement in the Political Science Department. This can be done in one of two ways. The preferred option is POLS 092: the Senior Comprehensive Exam, which is a 0.5 credit graded exercise. Working with a faculty advisor, students will produce a short paper in the spring semester of their senior year, which connects work they have done in two different sub-fields of political science (political theory, American politics, comparative politics, and international relations). Students will then present their work at a department conference. Option two, POLS 095 is a one-credit graded written thesis, which may be chosen by students who meet the eligibility requirements and get the approval of a faculty advisor and the chair. All junior and senior course majors (unless abroad) are required to attend the department senior comprehensive exercise conference in March.

Special Major

All special majors must have a designated faculty advisor and consult with the chair to receive approval for the proposed program. Within that approved program, 5.5 credits must be taken in the department, including one introductory course (POLS 002, POLS 003, POLS 004; a first year seminar does not count), and the distribution requirements must be met by courses taken at Swarthmore including theory and two other subfields (see Distribution of Courses within the department section). The political theory requirement for special majors can only be met by completing one of the following: POLS 011, POLS 012, POLS 100 or POLS 101. At least one course in all three subfields (American, theory, and international/comparative) must be completed at Swarthmore.

Application for the Honors or Course Major

All applicants to the major are required to have completed two introductory courses before applying to the major or their application will be deferred.

Application for the Honors Minor

All applicants to the minor are required to have completed one introductory course before applying to the minor or their application will be deferred.

Advanced Placement/International Baccalaureate Credit

No more than one Advanced Placement credit will be accepted for credit.

Transfer Credit

Transfer credit is offered on the same basis as study abroad credit. Students taking classes elsewhere should consult the chair in advance on the amount of credit likely to be available. As with study abroad, students may be required to retain written assignments and present copies to the chair for assessment.

Off-Campus Study

The department supports student interest in study abroad. Students are reminded that no more than three of their eight credits (ten credits if in the Honors Program) may be taken outside the Swarthmore department and all of the distribution requirements must be met by classes taken at Swarthmore. Expectations about off-campus study should be incorporated in the Sophomore Plan. Students planning to study abroad should consult the chair and obtain approval prior to making final course selection. Any change in course selection must ultimately be approved as well. Upon return from a study abroad program, political science syllabi, papers, and other course materials may be required for credit evaluation. Pre-estimated credits do not guarantee any particular transfer of credit. The actual transfer of credit depends on the assessment of work done abroad by the department.

Special Honors Major

All special honors majors must have a designated faculty advisor and consult with the chair to receive approval for the proposed program. Within that approved program, 6 credits must be taken in the department, including one introductory course (POLS 002, POLS 003, POLS 004; a first year seminar does not count), and the distribution requirements must be met by courses taken at Swarthmore (see Distribution of Courses within the Department section) plus one honors seminar in the department. The political theory requirement for special honors majors can only be met by completing one of the following: POLS 011, POLS 012, POLS 100 or POLS 101. At least one course in all three subfields (American, theory, and international/comparative) must be completed at Swarthmore.
The Engaging Democracy Project
The Engaging Democracy Project comprises the Department’s connection to what the Lang Center for Civic and Social Responsibility calls "Engaged Scholarship." Ernest Boyer coined the term "Engaged Scholarship" to describe teaching and research that connect "the rich resources of the university to our most pressing social, civic, and ethical problems" (Boyer, 1996). The Department of Political Science employs Engaged Scholarship to incorporate academic theory and political practice to promote a richer understanding of democracy in America (and abroad). Program director Ben Berger (also Executive Director of the Lang Center) practices Engaged Scholarship techniques to involve students with local communities; works with student groups to bring a wide range of speakers and activists to the Swarthmore campus; and supports other faculty offering Engaged Scholarship courses, including fellow Political Science faculty Prof. Keith Reeves (Director of the Urban Inequality and Incarceration Program at the Lang Center), Prof. Ayse Kaya, and Prof. Emily Paddon Rhoads.

Political Science Courses
POLS 002. American Politics
How do American institutions and political processes work? To what extent do they produce democratic, egalitarian, or rational outcomes? The course examines the exercise and distribution of political power. Topics include presidential leadership and elections; legislative politics; the role of the Supreme Court; federalism; parties, interest groups, and movements; public policy; the politics of class, race, and gender; voting; mass media; and public discontent with government. Social sciences. Writing course, Nackenoff only. 1 credit. Fall 2019. Reeves, Valelly

POLS 003. Politics Across the World
This course teaches students how to analyze and compare the politics and societies of countries around the world. Topics vary by instructor but may include the origins of the contemporary system of nation-states, the consolidation and breakdown of democratic and authoritarian political regimes, the ways that the "rules of the game" in politics structure competition and favor certain groups over others, the politics of economic development and globalization, the nature and dynamics of social movements, revolutions and civil wars, and the role of identities, ideologies, and religious beliefs in shaping patterns of political development, and conflict, and inclusion/exclusion. The course also provides an introduction to some of the main theories, concepts, and methods used by political scientists who engage in the art of comparative politics. To explore these themes, we draw examples from a variety of countries and regions across the world. Social sciences. 1 credit. Eligible for GLBL-Core Fall 2019. Balkin. Handlin. Spring 2020. Balkan. White. Fall 2020. Balkan. Handlin. Spring 2021. Balkan. White.

POLS 004. International Politics
In this course, we will explore the fundamental concepts of the field of international relations. Students will learn the basic facts about international conflict, the international economy, international law, development, and the world environment, among other things. Furthermore, we will study the fundamental theoretical concepts and theories of international relations. Using these theories, students will be able to sort through arguments about various topics in international relations and make judgment calls for yourself. Finally, students will learn how these concepts have evolved over time and how we can use them to hypothesize what lies ahead for international relations. Social sciences. 1 credit. Eligible for GLBL-Core, PEAC Fall 2019. Tierney. Spring 2020. Staff. Fall 2020. Paddon Rhoads. Spring 2021. Kaya.

POLS 010F. First-Year Seminar: When Disaster Strikes
When a natural or man-made disaster strikes, what are the political repercussions? Using a variety of cases from a different historical periods, different regions of the world, different levels of politics (national, regional, and local), this course will examine both the causes and consequences of disaster. How does the trauma of disaster influence political processes, institutions, and leaders? Is the impact fleeting or enduring? A different case will be examined each week. In the final weeks of the semester, the class will choose several cases of interest to them that we will then investigate together. Social sciences. 1 credit. Eligible for ENVS

POLS 010L. First Year Seminar: The Politics of Protest
Why do people protest? What tactics do they use? When is protest successful and when is it not -- and why? This class uses both theoretical readings and case studies to explore the dynamics of political protest and mass mobilization in the U.S. and beyond. Strategies of interest include street protests, violent rebellion, civil disobedience,
boycotts, corporate campaigns, divestment campaigns, transnational mobilization, and online mobilization.
Social sciences.
1 credit.

**POLS 010M. First Year Seminar: Political Theory and the Future of Work**
Artificial intelligence seems likely to transform the way we live. Once self-driving cars arrive, for instance, those who currently drive trucks or taxis might well lose their jobs. Automation seems likely to have similar effects on many professions, from manufacturing to medicine. It is never easy to predict the future, but it does seem possible that we are entering an era of mass unemployment. How should societies respond to this threat? Should the state intervene to prevent automation, for example, or provide some kind of universal basic income? Such questions are currently being debated by think tanks and governments around the world, with various pilot schemes already underway. Rather than discussing specific policy proposals, this course will focus on the underlying philosophical issues. Topics will include the role of work in a good life; the relationship between the division of labor and social solidarity; and the nature of exploitation. Readings will range from the philosophical to the sociological and from the classic to the contemporary. As such, the course will provide a window into different styles of political theory.
Social Sciences.
1 credit.

**POLS 011. Ancient Political Thought**
Reason, force, and persuasion are central tools of politics. They are also considered and weighed by political philosophers as they write about the best (or best achievable) organization of political life to achieve some goal, and the best chance of making those arrangements endure. Use of each tool tends to reflect particular views about human nature, capacities, and differences. This course explores these and other key concepts of political thought, drawing on major works in the Western tradition, including Plato, Aristotle, Cicero, Augustine, Aquinas, and Machiavelli.
Social sciences.
1 credit.
Eligible for INTP
Fall 2019. Thakkar.

**POLS 012. Modern Political Thought**
This course introduces some of the major concepts and themes of modern political thought through a close reading of texts from the 16th to the early 20th century. The starting point of the course is Machiavelli’s novel "science" of statecraft, which identified the state as the focal point of political activity, and announced that a good politician must be prepared to act immorally, or even love his city more than his soul. In other words, we begin with the thought of politics as a distinct sphere of activity, centered around the state, and separable from other spheres such as morality and religion. The problem of the modern state and the relationship of the political to other domains of life will guide our exploration of the fundamental concepts and debates of modern political thought. Other themes we will discuss include secularism and toleration, absolutist and popular sovereignty, constitutionalism and individual rights, theories of war and colonialism, and the relationship between social and political forms of domination. Authors include Niccolò Machiavelli, Thomas Hobbes, John Locke, Jean-Jacques Rousseau, Immanuel Kant, Alexis de Tocqueville, John Stuart Mill, Mary Wollstonecraft, Karl Marx, Max Weber and W.E.B. Du Bois.

Eligible for INTP
Spring 2021. Staff.

**POLS 013. Political Psychology and Moral Engagement**
This course combines readings from the fields of political psychology, social psychology and political theory for the purposes of understanding ourselves as citizens and moral agents. Students will canvas theories as well as empirical studies that describe the processes of political and moral decision-making. We will also ask whether the same processes that usually lead to normal political and moral decision-making might occasionally produce disastrous consequences, and we will investigate means of avoiding the worst outcomes.
Social sciences.
1 credit.
Eligible for GSST, PEAC

**POLS 016. Ethnic Politics: Elections, Conflict and Change**
In media discourse and social science research, ethnic diversity and ethnic politics are viewed as threats to order and democracy. In this course we will consider the questions of where ethnic identities come from, how they change, and why we see non-violent political competition or violent conflict between groups in some cases and not others. Drawing on theories of social science and case studies from South Asia and sub-Saharan Africa, among others, students will learn to think critically about these questions. This course will be useful for students interested in learning more about the role that ethnicity plays in developing countries and how to approach these questions in a rigorous manner.
Recommended: One social science course.
Social sciences.
1 credit.
POL 018. Race and American Political Development
The struggle against slavery, Civil War, emancipation, Reconstruction, resistance to black disenfranchisement and Jim Crow, the Great Migration, the civil rights movements of the 1950s, 1960s, and 1970s, the quest for the Civil Rights Act of 1964 and the Voting Rights Act of 1965, the election of President Barack Obama - this short list suggests how consequential African-Americans and their white allies-and their opponents-have been in shaping American political thought, associations and groups, national government, Congress, the Constitution and the Supreme Court, federalism, and public policy. Course is historical-and often comparative-in how it traces the continuously racialized nature of American politics.
Social sciences.
1 credit.

POL 019. Democratic Theory and Practice
What is democracy, and what does it require? Widespread political participation? Social connectedness? Economic equality? Civic virtue? Excellent education? How well does the contemporary U.S. meet those ideal standards? POLS 019 students read classic and recent texts in normative political theory and empirical political science-addressing what democracy should do and how well the U.S. is doing it augmented by a participatory component that requires several hours per week outside of class. Students engage with civic leaders and activists in the strikingly different communities of Swarthmore and Chester, and participate in a variety of community projects. The goal is to understand better the ways in which social, economic, educational and political resources can affect how citizens experience democracy.
Social sciences.
1 credit.
Eligible for CBL

POL 020. Public Opinion and American Democracy
How do individuals form political opinions? How do those opinions affect American democracy? This course examines political attitude formation and the aggregation of these attitudes to form what we call "public opinion." The course covers individual level attitude formation, sampling and survey methodology, macro-level opinion and topics related to macro-level opinion including democratic values and policy representation. Students will become familiar with democratic theory and the role that the public plays in democratic theory. Readings will cover cutting-edge social science research as well as the classics of public opinion and political behavior. Using social scientific research methods, students will research public opinion on a particular issue over time.
Social sciences.
1 credit.

POL 021. American Political Parties and Elections
Considers how national parties organize presidential and congressional elections. Topics may include parties in democratic theory, presidential candidacies, presidential party-building, presidential campaigns during the general presidential election, presidential mandates, why parties remain persistently competitive, party polarization and income inequality, the development of partisan bases, and issue evolution and coalition maintenance in party politics. Prior course work in American politics not required but is helpful for comprehension.
Social sciences.
1 credit.

POL 022. American Elections: Ritual, Myth, and Substance
An examination of the role of policy issues, candidates images, campaign advertisements, media, polling, marketing, money, and political parties in the American electoral process. We will consider the role of race, gender, class, religion, and other variables in voting behavior and look for evidence concerning the increasing polarization of American politics. We will examine the impact of recent laws and practices that seek to encourage or depress voting and will explore the impact of felony disenfranchisement. What are some of the most important recent changes affecting American electoral politics? What is unusual about 2016? Historical trends will provide the basis for analyzing the 2016 elections. Do elections matter, and, if so, how?
Social sciences.
1 credit.
Fall 2020. Nackenoff.

POL 024. American Constitutional Law
The Supreme Court in American political life, with emphasis on civil rights, civil liberties, and constitutional development. The class examines the court’s role in political agenda-setting in arenas including economic policy, property rights, separation of powers, federalism, presidential powers and war powers, and interpreting the equal protection and due process clauses as they bear on race and gender equality. Judicial review, judicial activism and restraint, and theories of constitutional interpretation will be explored.
Social sciences.
1 credit.

POL 025. Politics By Other Means? The Supreme Court and the Federal Judiciary in Politics
Considers who built judicial review over time, how they did it, and why. Specific topics include
the judicial politics of civil rights and civil liberties, party and presidential strategies for controlling - or delegating -- policy outcomes through the federal courts, Supreme Court adaptation to political crisis and pressures, how judges maintain impartiality and jurisprudential identities, changing elite and popular conceptions of the Constitution and of the Court’s role in politics and society, how lawyers organize to shift the Court’s direction, the terms of access to judicial review, the role of ‘repeat players’ in litigation and whether these players produce real political change, the role of public opinion in sustaining the federal judiciary’s legitimacy.

Previous coursework in political science may be helpful.

POLS 026. Special Topics: American Politics
Social Sciences.
1 credit.

POLS 027. The Politics of Everyday Behavior
Social Sciences.
1 credit.

POLS 028. The Urban Underclass and Public Policy
This course is a critical examination of some of the most pressing (and contentious) issues surrounding the nation’s inner cities today and the urban underclass: the nature, origins, and persistence of ghetto poverty; racial residential segregation and affordable public housing; social organization, civic life, and political participation; crime and incarceration rates; family structure; adolescent street culture and its impact on urban schooling and social mobility; and labor force participation and dislocation. We conclude by examining how these issues impact distressed urban communities, such as the neighboring city of Chester.
Prerequisite: POLS 002
Social Sciences.
1 credit.
Eligible for BLST.

POLS 029. Polling, Public Opinion, and Public Policy
Public opinion polling has become an essential tool in election campaigning, public policy decision making, and media reporting of poll results. As such, this course focuses on helping students interested in these areas learn the fundamental skills required to design, empirically analyze, use, and critically interpret surveys measuring public opinion. Because the course emphasizes the application of polling data about public policy issues and the political process, we will examine the following topics: abortion, affirmative action, September 11th, the 2008 and 2012 presidential elections and presidential leadership.
Prerequisite: POLS 002 or permission of the instructor.
Social sciences.
1 credit.

POLS 030. Citizenship and Migration in Comparative Politics
This course examines how different nations develop institutions of citizenship, and how these institutions shape responses to immigration. Starting with an introduction to various typologies of citizenship, we will then use cases from North America and Europe in order to explore key theoretical and policy debates in the field of citizenship and migration studies. Topics include the evolution of citizenship policy, the multiculturalism debate, denizenship, pluralism, and assimilation.
Political sciences.
1 credit.

POLS 031. Borders and Migration
This course offers an introduction to the causes and consequences of international migration and examines the political responses of different national communities to the phenomenon. In the first part of the course we explore why and how people leave their homes for a different country. We will also consider normative questions around the rights and responsibilities of both host countries and migrants. Do states have the right to close their borders and exclude non-citizens from their territories? Our readings address debates around citizenship, multiculturalism, group membership, and minority rights. The second part of the course focuses on the dynamics of incorporation: the processes through which immigrant groups settle and integrate in their new country of residence. The growing ethnic, racial, religious, and linguistic diversity generated by immigration has spawned fierce debates over national identity and social cohesion. We will analyze different regimes of political, cultural, and economic integration and ask how states accommodate (and fail to accommodate) ethno-religious minorities by examining struggles over language rights, religious differences, gender and sexuality, and citizenship. Over the course of the semester, students will learn about the politico-economic effects and ideological battles over migration in a number of different countries across the globe.
Social Sciences.
1 credit.
Fall 2019. Balkan.
Fall 2020. Balkan.

POLS 033. Diversity and Democracy
This class explores how and why democratic societies that are racially, ethnically, culturally,
Political Science

linguistically, or religiously diverse are able - or unable - to maintain political and social cohesion. Key topics of debate include: is diversity bad for social trust and welfare? To what extent can institutions enhance or inhibit the political representation of minority groups? Do minority group rights threaten individual rights? What, if any, remedies should states offer historically marginalized groups? Is secession ever warranted? Social Sciences.

POLS 034. Capitalism and Socialism
The words "capitalism" and "socialism" come up relatively often in discussions of politics, but their meaning is often left vague. After a brief survey of empirical work on the varieties of capitalism and socialism, this course will turn to the normative arguments for and against the two systems that have been made from the Enlightenment to the present day. Authors covered will include Adam Smith, J. G. Fichte, Karl Marx, Friedrich Hayek and Milton Friedman, as well as a smattering of utopians and anarchists. Students should expect a significant volume of reading, but there are no prerequisites.
Social sciences.
1 credit.
Fall 2019. Thakkar.

POLS 035. Democracy and Dictatorship
This course examines the nature of democratic and authoritarian governments and explanations for regime change (either from dictatorship to democracy or the reverse). Topics include the relationship between democracy and development, the power (and limitations) of the United States to spur democratization in other countries, the institutional foundations of strong dictatorships, the notion that established democracies might be currently eroding, and the role potentially played by Russia and China in buttressing autocracy in other countries.
Social science.
1 credit.

POLS 036. Policy Making in Practice
What does the policymaking process look like from the view of practitioners? This class focuses on putting students in the position of different political actors - from legislative staffers to issue advocates, to bureaucrats and more - in order to gain both theoretical and practical knowledge of how preferences become policy. Skills to be developed include strategic analysis, writing for internal and external audiences, negotiation strategy, and briefing presentations.
Social sciences.
1 credit.

POLS 038. Designing and Doing Political Science Research
An introduction to research design and drawing inferences from data. The first section covers theories, hypotheses, conceptualization and descriptive inference, and approaches to causal inference. The second section focuses on small-n research designs and qualitative methods, covering case studies, small-n comparative analysis, process tracing, and interviewing. The third section introduces students to some basic elements of quantitative research design and statistical analysis, including with both observational and experimental data.
Social sciences.
1 credit.

POLS 040. The Politics of Voting Rights
The right to vote and who has it have been politically constructed and contested since the early 19th century. The course considers why and how this politics has taken so many different forms over the course of American political development, with particular attention to the strange career of African-American voting rights and their party systemic and policy impact, female suffrage, the demobilization of the working class early in the 20th century and its remobilization during the New Deal, the late development of protections for Native American, Latino, and Asian-American voters, and current struggles over election administration and voter qualifications.
Social sciences.
1 credit.

POLS 041. The Presidential Election, Then and Now
How we elect our presidents has changed over time - but at all times political parties, interest groups, social movements, and the voters themselves have been the central protagonists. They have operated in macroeconomic and foreign policy contexts that make the outcomes of presidential elections both relatively predictable and yet quite exciting. We track the continuities and the key changes in presidential electoral politics since the rise of the Electoral College in the 1820s. We ask such questions as: are there game changers? What’s the invisible primary? Can billionaires buy the presidency? Do presidents change the policy direction of the country? How representative is the electorate? Do campaigns make a difference? What do activists do in presidential elections? Do personal characteristics of the candidates make a difference? Is the Electoral College a problem for democracy?
Political sciences.
1 credit.
POL 042. Is Congress Over?
If Congress is so widely despised as an institution then what’s the point of having it? Without a representative assembly, to be sure, democracy becomes plebiscitary and juristocratic. But a well-functioning national legislature is hardly guaranteed because legislatures are inherently unstable - even fluid -- institutions. Congress today is not the same institution it was a decade ago or a century ago. With these premises in hand we explore the evolution of the House and the Senate. We also treat the congressional career, majority and minority rights, parties in Congress, House-Senate differences, enactment productivity, political polarization, and gridlock. Other issues include money and interest group influence given sharp ideological polarization (the puzzle here is: how does money matter if members of Congress already have very firm positions?), the committee system, how congressional elections shape the institution, influence on the bureaucracy, presidential influence on the legislative process, congressional interaction with the federal judiciary, and the difficulty of conceptualizing and measuring representation. Prior course work in or detailed knowledge of American politics is required.

Social sciences.
1 credit.
Fall 2019. Valelly.

POL 043. Environmental Policy and Politics
(Cross-listed as ENVS 022)
Topics in environmental politics, policy, and law. In the United States, we focus on national regulation and proposals for more flexible responses to achieve environmental goals; environmental movements and environmental justice; the role of science in democratic policymaking; courts and the impact of federalism, the commerce clause, and rights on regulation. The course also considers the role and efficacy of supranational institutions and NGOs and controversies between more and less developed nations. Topics include most of the following: air and water pollution, common-pool resource problems, toxic and radioactive waste, sustainable development, food, natural resource management, wilderness, environmental racism, effects of climate change. Social sciences.
1 credit.
Eligible for ENVS CBL
Fall 2020. Nackenoff.

POL 043B. Environmental Justice: Theory and Action
(Cross-listed as ENVS 035)
Examines historical, political, and activist roots of the field of environmental justice. Using interdisciplinary approaches from political ecology, environmental science, history, geography, cultural studies, and social movement theory, we analyze diverse environmental justice struggles and community activism in contemporary environmental issues such as: air quality and health, toxic contamination and reproductive issues, sustainable agriculture and food security, fossil energy-coal, oil, hydrofracking-and livelihoods, climate change and climate justice. Course incorporates a community-based learning component.
Social sciences.
1 credit.
Eligible for PEAC, ENVS, CBL
Fall 2019. Di Chiro. Taught in Philadelphia as part of the Tri-Co Philly Program.

POL 045. Disaster Politics and Policies
How does the trauma of disaster influence political processes, institutions, and leaders? How do political processes, institutions, and leaders affect disaster events and their aftermath? Do disasters lead to meaningful policy change, or is their impact fleeting? This course examines the political and policy dynamics associated with disasters--those that are predominantly “natural” (e.g., hurricanes and tornadoes), and those that result mainly from human action or inaction (e.g., airplane crashes, mass shootings, building collapses). Using a variety of cases from different historical periods, different regions of the world, and different levels of political analysis (national, regional, and local), this course will examine the causes and consequences of disaster, policymaking and disaster, and the new professional field of disaster management. We will look critically at the role of NGOs and international aid in disaster relief, as well as international institutions. Not open to students who have taken POLS 010F: The Politics of Disasters.
Political sciences.
1 credit.

POL 046. Lesbians and Gays in American Politics
Considers the struggle for gay rights historically, treating the political and social construction of homophobic stigma over the course of the 20th century, the early struggle to build a movement, the expansion of gay rights activism during and after the 1970s, and the AIDS crisis and its impact. Why and how gay rights became identified with same-sex marriage and equal military service are considered in some detail. We also treat the roles of the Supreme Court the two political parties, the presidency, Congress, public opinion and federalism in shaping the quest for equality.
Social sciences.
1 credit.
Eligible for GSST.
POLS 047. Ethics and Economics
The discipline of economics has a huge influence in today’s world, but from a philosophical perspective its fundamental presuppositions are extremely controversial. This course aims to shed light on those presuppositions by drawing on writings from philosophers, sociologists, political scientists and historians as well as economists themselves. We begin by assessing its claim to moral and political neutrality, focusing in particular on efficiency, GNP, and rational choice. Next we consider three of its basic concepts: money, property and markets. What exactly is money? What justifies private ownership? And should some things simply never be for sale? In the final part of the course we inquire into how the two central questions of ethics -- What ought I to do? And what is the good life? -- bear on our assessment of production and consumption.
Social sciences.
1 credit.

POLS 048. The Politics of Population
(Cross-listed as ENVS 023)
The role of population and demographic trends in local, national, and global politics will be examined. Topics include the relationship between population and development, causes of fertility decline, the impact and ethics of global and national family planning programs, and contemporary issues such as population aging and the AIDS pandemic.
Social sciences.
1 credit.
Eligible for ENVS
Fall 2019. White.
Fall 2020. White.

POLS 049. The U.S. Presidency
The presidency is widely considered an enormously powerful office, but political scientists have instead been struck by how difficult and relatively impotent the office actually is. The course explores this contradiction and clarifies exactly how, why, and when presidents have been influential. Other topics may include whether and how presidents control the presidency and the executive branch, veto bargaining with and influence on Congress, presidential influence on the macroeconomy, presidential influence on the Supreme Court and the federal judiciary, the politics of executive orders, presidential acquisition of the war power, and the development of the national security state and its implications for political democracy.
Social sciences.
1 credit.

POLS 050. The Politics of South Asia
This course explores the origins, historical trajectories and contemporary political and social dynamics of India and Pakistan. We will discuss Partition in 1947 and the making of the two countries, as well as evolving ideas of citizenship and national belonging in the two countries. We will then investigate the transformations of Indian democracy and the rise and fall of dictatorship in Pakistan. We will examine issues of contemporary relevance in the two countries, such as the role of religion and ethnicity in national politics and public life.
Social sciences.
1 credit.
Eligible for ASIA

POLS 051. The Left in the Americas and Europe
This course examines the historical struggles, current challenges, and future prospects of left-wing political parties and movements in the Americas and Europe. We investigate the historical evolution of the left in both regions, the different ways the left has adapted and reacted to the age of neoliberalism, and contemporary dilemmas and debates about the programmatic and strategic direction of the left today.
Social Science.
1 credit.
Eligible for LALS

POLS 054. Identity Politics
The term "identity politics" has become a mainstay of contemporary political discourse. In both scholarly and public debates, it is used to describe and make sense of phenomena as diverse as multiculturalism, white nationalism, civil rights, the women’s movement, LGBTI activism, separatist groups, and violent ethnic conflicts. Identity is central to politics, but are all identities political? Where do identities come from and why do they matter for social and political life? Do we have the freedom to choose our own identities or are they ascribed to us by others? And to what extent do our identities dictate what we can do, think, know, or feel? This class offers an introduction to the politics of identity. Over the course of the semester, we will investigate how categories like class, race, gender, ethnicity, nation, religion, and sexuality impact politics and struggles for power around the world. Our readings will explore debates around the politics of recognition and representation, authenticity and cultural appropriation, corporate diversity and neoliberal multiculturalism, positionality and situated knowledge, oppression and empowerment, and intersectionality. Students will have the opportunity to conduct independent research on identity related topics of their choice.
Social sciences.
1 credit.
POLS 055. China and the World
Examines the rise of China in the late 20th and early 21st centuries. Topics include China’s reform and development strategy, the social and political consequences of reform, the prospects for regime liberalization and democratization, and patterns of governance. The course will also examine patterns of political resistance and China’s changing role in regional and global affairs.
Social sciences.
1 credit.
Eligible for ASIA
Fall 2019. White.

POLS 056. Patterns of Asian Development
Patterns of political, social, and economic development in Asia will be traced, with special focus on China, Japan, North and South Korea, Taiwan, Vietnam, and India. Topics include the role of authoritarianism and democracy in the development processes, the legacies of colonialism and revolution and their influences on contemporary politics, sources of state strength or weakness, nationalism and ethnic conflict, gender and politics, and patterns of political resistance.
Social sciences.
1 credit.
Eligible for ASIA
Fall 2020. White.

POLS 057. Latin American Politics
This course examines major topics in Latin American politics from the 20th century to the present, with particular emphasis on Brazil, Chile, Mexico, and Venezuela. These topics include the rise and fall of democracies and dictatorships, the spread of neoliberal economic models, the expansion of social policy and anti-poverty programs, the difficulties of combatting corruption, the problem of violence and its relationship to the drug trade, and the recent ascendance of the left.
Social sciences.
1 credit.
Eligible for LALS
Fall 2020. Handlin.

POLS 058. Contemporary Chinese Politics
Just how strong is China? Is it on the path to great power status? This course considers those questions by examining the rise of China in recent decades, along with the political, economic and social backdrop to this historic development. Topics will include China’s political and economic development, urban and rural unrest, regionalism and nationalism, music and the arts as forms of political expression, environmental politics, law, justice, and human rights, and the role of the military in Chinese politics. Literature, music, online media and video chat with experts will supplement traditional written materials.
Social sciences.
1 credit.

POLS 059. Middle East Politics
This course offers an introduction to the politics of the Middle East and North Africa from World War I to the present. As a region that is popularly perceived as an arena for intractable ethnic and religious conflict, authoritarian political regimes, and social and economic underdevelopment, the Middle East has long been a critical site in global affairs. Recent events such as the toppling of long-standing governments in places like Egypt, Tunisia, and Libya during the so-called "Arab Spring," the electoral successes of Islamist political parties in countries with a history of secular rule such as Turkey, and the repercussions of the on-going civil war in Syria, including the displacement of millions of persons, renewed bids for Kurdish autonomy, and the rise of ISIS have raised new and pressing questions about the future of the region. This course aims to help students contextualize and better understand the current political climate by tracing the roots of these conflicts to the longer history of state and nation formation in the Middle East. Throughout the semester students will learn about political, economic, social, and cultural developments within a number of countries in the Middle East and North Africa. Topics covered include colonialism, imperialism, and nationalism, political Islam, revolutions and social movements, the Arab Spring, and U.S. involvement in the region. No prior knowledge of the Middle East is necessary.
Social Sciences.
1 credit.

POLS 060. Special Topics: Gun Policy and Politics
As mass killings occur with increasing frequency in the United States, the debate on gun policy rages. What is the state of gun law and regulation in the United States, and what changes, if any, might help reduce gun violence? How does U.S. policy compare with gun policies in other developed countries, and what explains differences among countries? Are there lessons the U.S. can learn from other countries, and if so, what changes to our regulatory framework are most likely to reduce gun violence? Students will work together to research existing gun policies in the U.S., Europe, and elsewhere, to understand the political forces that have shaped those policies, and formulate recommendations for policy changes.
Prerequisite for enrollment: POLS 003 or permission of the instructor.
Social sciences.
1 credit.

POLS 061. American Foreign Policy
This course analyzes the formation and conduct of foreign policy in the United States. The course combines three elements: a study of the history of
Political Science

American foreign relations since 1865; an analysis of the causes of American foreign policy such as the international system, public opinion, and the media; and a discussion of the major policy issues in contemporary U.S. foreign policy, including terrorism, civil wars, and economic policy. Prerequisite: POLS 004 or the equivalent. Social sciences. 1 credit.

POLS 062. The Politics and Practice of Humanitarianism
Humanitarianism has become a central feature of world politics. It is complex and contested. This course aims to provide the critical, conceptual and theoretical tools necessary to engage with the realities of humanitarian emergencies. It explores a range of questions: What is humanitarianism and how has it evolved historically? What are humanitarianism’s core ethical and political dilemmas? What sets of interests and power relations shape the impact of humanitarian action at the global, national and local levels? How are new technologies, innovation and the private sector transforming humanitarian governance? What are the ethical issues involved with the study of humanitarianism? Social Sciences. 1 credit. Eligible for PEAC

POLS 063. African Politics
This class provides an introduction to contemporary African politics with a strong focus on the politics of particular African countries. It examines major debates in the contemporary study of Africa, and situates these issues within their historical, social and cultural contexts. Topics include the impact of colonialism on state structure, structural adjustment, the politics of democratization, identity and ethnicity, religion, regionalism and migration. To explore these topics, students will draw on writing by journalists, anthropologists, economists and historians as well as the work of political scientists. Social sciences. 1 credit. Eligible for BLST

POLS 064. American-East Asian Relations
This course examines international relations across the Pacific and regional affairs within East Asia (including China, Japan, North and South Korea, Taiwan, Vietnam and the United States). Topics include the impact of Sept. 11 and its aftermath on regional and cross-Pacific relationships, the significance of growing Chinese power, tensions on the Korean peninsula and between China and Taiwan, and the impact of globalization on cross-Pacific interactions. Social sciences.

POLS 065. Chinese Foreign Policy
How does China view the world, and its place in the world? How do issues of regional and global concern look from the vantage point of Beijing, and how do they shape Chinese views and policies? As China rises in global influence and strength, how will it exercise its newfound power? The course will focus on these questions, as well as a number of contemporary issues in Chinese foreign policy, including U.S.-China relations, the China-Taiwan conflict, China’s foreign economic policy, and its evolving defense posture and capabilities. Social sciences. 1 credit. Eligible for ASIA

POLS 066. International Political Economy
This seminar examines how political actors (attempt to) govern as well as shape economic events. The seminar introduces the classic texts of International Political Economy (IPE), such as Adam Smith’s The Wealth of Nations. It also discusses core contemporary texts and debates in the study of international political economic relations. Topics include the international trading system, global financial and monetary systems, the issue of economic development, the Great Recession, and the role of the United States in global economic governance. Through these discussions, the seminar also examines the key institutions in the contemporary governance as well as private actors such as multinational firms. Students taking this course will not be eligible for POLS116A/B. Prerequisite: POLS 004 and an introductory Economics course. Social sciences. 1 credit. Fall 2020. Kaya.

POLS 067. Great Power Rivalry in the 21st Century
Since the end of the great rivalry that marked the bipolar Cold War, commentators have debated whether we live in a unipolar or multipolar world. Celebrations, condemnations, as well as obituaries of U.S. hegemony have repeatedly been written. At the same time, nuclear weapons and the economic interdependence have radically reduced the prospects for war between great powers. Does the U.S.A. stand as the sole great power? Is the European Union simply an enormous market with a soft spot for multilateralism, or does the worldviews it puts forward and the international relations it fosters rival the U.S. way? To what extent does the Chinese agenda at multilateral institutions conflict with that of the U.S.A.’s and the E.U.’s? In answering these questions and others, some of the issues that the course addresses are: changing meanings of "great power" and
"rivalry": historical overview of rivalry; trade disputes between the U.S.A., E.U., and China at the World Trade Organization; relations between these three powers at other international institutions, particularly the United Nations and the International Monetary Fund; foreign aid policies of the U.S.A., the E.U., and China; the implications of the rise of Brazil, Russia, and India for world politics.

Prerequisite: POLS 004.
Social sciences.
1 credit.

POLS 068. Politics, Economics, Environment, Health and Security
(Cross-listed as ENVS 038)
The topics that the full-year course will examine include: analytical approaches to historical (pre-World War I) and contemporary (post-World War II) political-economic globalization; global economic development and the role of international organizations, such as the International Monetary Fund and the World Bank; the United Nations and its role in peacekeeping, global climate governance; global health and their governance, including for instance the role of the World Health Organization; global military issues, such as global arms trade by both state and non-state actors, the globalization of production of weapons, and the issues surrounding the use of private military agents by governments and the UN; the governance of international labor issues, including the International Labor Organization; and the governance of global migration and refugees. The course will also explore cultural globalization. The first part of the course will focus on political-economic globalization, while the second part of the course will examine the remaining topics. This is a full year course, taught both Fall and Spring semesters and enrollment in both semesters is required. Only cross-listed for the spring semester.

Prerequisite: POLS 004
Social sciences.
1 credit.

Eligible for ENVS

POLS 069. Globalization: Politics, Economics, Culture and the Environment
This course examines globalization along its diverse but inter-related dimensions, including economic, cultural, and political globalization. Topics include: historical overview of globalization; economic globalization and its governance with a focus on the major international organizations involved in the governance of international trade and financial flows, the World Trade Organization, the World Bank, and the International Monetary Fund; global inequality and poverty; cultural globalization; political globalization and the state; environmental globalization; regional organizations, particularly the EU; and prospects for global democracy. The course will also examine topical issues, such as the recent financial crisis.

Social sciences.
1 credit.

POLS 070. Biopower and Biopolitics
How did life itself become an object of politics? In The History of Sexuality, Michel Foucault argues that the modern era is marked by an important transformation in the exercise of power. Sovereign power, understood as the power to "take life or let live" has been gradually supplanted by biopower aimed at "fostering life or disallowing it to the point of death." This shift has been accompanied by strategies to strengthen the body politic through social regulation and the calculated management of life. In the first part of this course we will examine the concept of biopower as developed by Foucault in his writings and lectures at the College de France. These works have had a wide-ranging influence in political theory and beyond. The notion of biopower has been central to contemporary inquiries into the securitization of borders, political asylum and deportation, disaster management, biotechnology and genetics, organ donation and surrogate motherhood, drone warfare, suicide bombing and the weaponization of life, and how socio-economic and racial hierarchies influence the differential distribution of death. We will explore these issues in subsequent sessions through the works of Giorgio Agamben, Hannah Arendt, Talal Asad, Judith Butler, Achille Mbembe, Anne Phillips, Paul Rabinow, Nikolas Rose and others in an effort to connect theoretical arguments about the articulation of sovereign power to real world examples of what Rabinow and Rose have termed "strategies for governing life." During the course of the semester, students will develop independent research projects based on their own areas of interest.

Social Sciences.
1 credit.

POLS 070B. Politics of Punishment
The question of why the United States has become a vastly more punitive society-some 2.3 million Americans are held in jails and prisons throughout this country, at last count-is the subject of this upper-level division seminar. The aim of the seminar is to provide both a critical and in-depth exploration of the interplay among American electoral politics, public concerns regarding crime, and criminal justice policy. Among the central questions we will examine are: How is it that so many Americans are either locked up behind bars or under the supervision of the criminal justice system? And where did the idea of using "jails" and "prisons" as instruments of social and crime control come from? What explains the racial and class differences in criminal behavior and incarceration rates? What does it mean to be poor, a person of color-and in "jail" or "prison"? How and why does criminal justice policy in this
country have its roots in both the media culture and political campaigns? And how might "politics" underpin what is known as "felon disenfranchisement" or "prison-based gerrymandering?" What are the implications of such political practices for broader questions of racial, economic, and social justice? And importantly, what are the prospects for reform of America’s incarceration complex? Enrollment only by permission of the instructor. Social sciences. 1.5 credit. Eligible for BLST

POLS 070C. Philosophy and Politics of Punishment
The question of why the United States has become a vastly more punitive society -- nearly 8 million Americans have served time in state or federal prison; 20 million individuals have a felony conviction; and approximately one-third of the total population will be arrested by age 23 -- is the subject of this seminar. The aim of the seminar is to provide both critical and in-depth exploration of the interplay among philosophical questions and how it affects dominant theories -- most principally, "Why we punish?" and contemporary criminal justice policy. Social Sciences. 1.5 credit.

POLS 070D. The History and Politics of Punishment

POLS 071. Introduction to Global Studies
Social sciences. 1 credit.

POLS 071A. Special Topics: IR
Social Sciences. 1 credit. Fall 2019. Staff.

POLS 072. Constitutional Law: Special Topics
Students will explore in depth several recent issues and controversies, most likely drawn from First-, Fourth-, Fifth-, Sixth-, and/or 14th-Amendment jurisprudence. Attention will also be given to theories of interpretation. Designed for students who want to deepen their work in constitutional law. Prerequisite: POLS 024 and permission of the instructor. Social sciences. 1 credit.

POLS 073. Comparative Politics: Special Topics: Perspectives on American East Asian Relations
Social sciences. 1 credit.

POLS 075. International Politics: Special Topics: The Causes of War
The causes of war is arguably one of the most important issues in the field of international politics. In each week of the course, a candidate theory will be examined, and a specific war will be analyzed in depth to test the validity of theory. Topics will include revolution and war, capitalism and war, misperception and war, and resource scarcity and war. The course will conclude with a discussion of the future of war, particularly the likelihood of conflict among the great powers. Prerequisite: POLS 004 or equivalent. Social sciences. 1 credit. Eligible for PEAC

POLS 076. Challenges for Developing Democracies
How should we understand the central governance challenges low-income democracies face? What changes need to be made to address problems such as corruption, ethnic conflict, and poor quality public services in developing democracies from South Asia to Latin America and sub-Saharan Africa (with an emphasis on South Asia). In this course, we carefully diagnose these challenges with attention to political and state institutions and the specific contexts of the democracies we study. Drawing on theoretical and empirical insights of political science, we explore long-term and short-term obstacles to better governance and discuss plausible solutions. This class will be useful to students interested in the politics of developing countries and those interested in how social scientists understand the challenges they face. Counts toward Asian Studies if all papers and projects are focused on Asian topics. Recommended: One social science course Social sciences. 1 credit.
survey of contemporary debates on Islam in the West and examines the diversity of lived experiences of Western Muslims in Europe and the United States. It focuses on the ways in which ethnic, religious, and racial minorities are incorporated into and/or excluded from processes of nation formation. We will consider how notions of belonging, citizenship, and otherness have been defined in particular locales, how they are socialized through a variety of institutional contexts, and how they change over time. Our readings draw from a broad range of academic disciplines and cover topical issues such as the headscarf affair, cartoon controversies, and rising Islamophobia. Over the course of the semester, students will have the opportunity to develop independent research projects based on their own areas of interest. Social Sciences.

1 credit.

POLS 080. Civil Wars
In recent years, civil conflict has occurred more frequently than interstate wars. What are the causes of civil war? Why are some civil wars longer and more severe than others? How do civil wars end - and what can the international community do to facilitate their termination? This course introduces students to key concepts, theories, and debates surrounding the study of civil war, drawing on contemporary and historical cases such as Syria, Sudan, Rwanda, and Yugoslavia. Political sciences.

1 credit.

Eligible for PEAC

POLS 081. Global Environmental Governance
Social sciences.

1 credit.

POLS 084. The Politics of Poverty Alleviation in the Developing World
How should we understand the challenge of poverty alleviation and what can be done to fight poverty in developing countries? To understand the mixed record of progress in this area, we will engage three central questions in this course: (1) What are the causes of poverty and its persistence? (2) What are the best strategies for fighting poverty? (3) How do institutions and political incentives support or undermine the success of anti-poverty policies? We will discuss how scholars across the social sciences think about poverty and what this tells us about how to address this problem. Next, we will engage debates over the best strategies for fighting poverty in countries where it is often difficult to ensure that program benefits reach the poor. Cases will be drawn from South Asia, sub-Saharan Africa, and Latin America. This class will be useful to students interested in applying social science concepts to understand policy challenges in developing countries and particularly useful to those interested in careers in development.

Recommended: One social science course

Social sciences.

1 credit.

POLS 085. U.S. National Security
This course is run in conjunction with the Foreign Policy Research Institute, a think tank in Philadelphia. The course will provide in-depth knowledge of major challenges in US national security as well as an insight into how think tanks operate. Students will meet at the FPRI offices in center city Philadelphia for a seminar, once per week. Each class will feature guest speakers from the academic and policy worlds. The course will cover topics including Syria, Russia, informational warfare and propaganda, artificial intelligence, drones, terrorism, and China and East Asian security. Students will learn about FPRI’s research programs, educational activities, podcasts, and journals. The final project will be a research paper that will be communicated to policy-makers in Washington, D.C. and elsewhere. Social Science.

1 credit.

POLS 086. The United States and Latin America
This course examines the complex and checkered relationship between the United States and Latin America. The first half of the course locates this relationship within the post-colonial context and explores how US policy toward Latin America changed over the course of the late 19th and 20th centuries, with particular attention to the role of commercial interests, the geopolitics of the Cold War, and the often adverse consequences of US intervention for Latin American peoples and their struggles for democratic self-determination. The second half of the course explores a series of contemporary issues in depth, including free trade agreements, drug war policy and transnational criminal networks, the contentious politics of immigration, and the implications of China’s recent challenge to US hegemony in the region. Social Science.

Fall 2019. Handlin.

POLS 087. Water Policies, Water Issues: China/Taiwan and the U.S.
(Cross-listed as CHIN 087)
Access to fresh water is an acute issue for the 21st century, and yet civilizations have designed a wide range of inventive projects for accessing and controlling water supplies over the centuries. Fresh water resource allocation generates issues between upstream and downstream users, between a country and its neighbors, between urban and rural residents, and between states and regions. This
Political Science

course examines a range of fresh water issues, comparing China and the U.S. Topics include dams and large-scale water projects (e.g., rerouting rivers); water pollution; groundwater depletion; industrial water use (e.g., for hydrofracking); impact of agricultural practices; urban storm water management; wetlands conservation; desertification; desalination. In the U.S. context especially, issues of water rights regimes and property rights, privatization, and commodification of water will receive attention. Which claims upon fresh water resources come first? What role do governments, transnational organizations, corporations, NGOs, and grassroots citizens’ movements play in these water decisions? Guest lectures will emphasize science and engineering perspectives on water management. Chinese language ability desirable but not required.

Social sciences.
1 credit.
Eligible for ASIA, ENVS

POLS 087A. Attachment: Policies and Issues of Fresh Water Resources in China/Taiwan
(Cross-listed as CHIN 087A)
This is an attachment to POLS 087. Students who complete the course have the option of adding a 0.5 credit field work component. Field work will be conducted in China under the supervision of Professors Nackenoff and Kong, and will include specific Chinese language training in the vocabulary used in the field of environmental studies.
0.5 credit.
Eligible for ASIA, ENVS

POLS 088A. Attachment: Governance and Environmental Issues in China
(Cross-listed as CHIN 088A)
This is an attachment to POLS 088. Students who complete the course have the option of adding a 0.5 credit field work component. Field work will be conducted in China under the supervision of Professors Kong and White, and will include specific Chinese language training in the vocabulary used in the field of environmental studies.
0.5 credit.

Social Sciences.
1 credit.

POLS 090. Directed Readings in Political Science
Available on an individual or group basis, subject to the approval of the instructor.
1 credit.

POLS 092. Senior Comprehensives
Open only to senior course majors completing the comprehensive requirement.
0.5 credit.
Spring 2021. Staff.

POLS 095. Thesis
A 1-credit thesis, normally written in the fall of the senior year. Students need the permission of the department chair and a supervising instructor.
1 credit.

Seminars
The following seminars prepare for examination for a degree with honors:

POLS 100. Ancient Political Thought
This course will consider the development of political thought in the ancient and medieval periods and the emergence of a distinctively modern political outlook. Special attention will be paid to the differences between the way the ancients and the moderns thought about ethics, reason, wisdom, politics, democracy, law, power, justice, the individual, and the community. Key philosophers include Plato, Aristotle, and Hobbes.
Social sciences.
2 credits.
Eligible for INTP

POLS 101. Modern Political Theory
In this seminar, we will study the construction of the modern liberal state and capitalism through the works of Hobbes, Locke, and Rousseau, and then, in more detail, we will examine the greatest critics of the modern age-Marx, Nietzsche, Jung, and Foucault. Marx demands that we take history and class conflict seriously in political theory. Nietzsche connects the evolution of human instinct to the politics of good and evil for the sake of political transformation. Jung establishes psychology and mythology as foundations for politics, and Foucault uses all three of these critics to question the modern subject and the disciplines of power and knowledge that construct selves and politics in a postmodern age.
Social sciences.
2 credits.
Eligible for INTP

POLS 102. Comparative Politics: Greater China
Examines contemporary Chinese politics against the backdrop of its revolutionary past. Topics include pathways of political and economic development, the legacy of the Maoist era, the origins and evolution of the modernization and reform program implemented over the last several decades, and the dynamics of political, economic and social change. Also examine issues of political
unrest and instability, demographic change and migration, religion and nationalism, institutions and governance, law and human rights, and civil-military relations.

Social sciences.

2 credits.

Eligible for ASIA

Fall 2019. White.

POLS 103. Power, Identity and Culture

Power, external and objective, is also internal and subjective, invisibly working to shape understandings of who we are even as it performs the visible rituals of regulation typically associated with states and governments. This course takes as its central thesis that immaterial and invisible forms of power are power’s most effective form as well as the most difficult for political science to measure and understand. Alternating between case and theory, and looking at power both naked and sublime, we will examine the struggle by the state and other elite actors to shape subjectivities through culture and identity formation in order to secure quiescence and rule. Close attention will be paid to how socializing agents, including schools and the educational system, media and film, and families and local communities, shape and reshape formal efforts to have ordinary citizens internalize what Stuart Hall describes as "the horizon of the taken-for-granted," those ruling ideas and beliefs that consist "of things that go without saying because, being axiomatic, they come without saying; things that, being presumptively shared, are not normally the subject of explication or argument." This course seeks to understand how such efforts succeed, falter, and change as they face the negotiations of the ordinary and the less powerful. Authors include Antonio Gramsci, Steven Lukes, James C. Scott, Clifford Geertz, Michel Foucault, Joel Migdal, Stuart Hall, and Robert Dahl.

Social sciences.

2 credits.

POLS 104. The State of American Democracy

Is American democracy working well or badly - and how would we know besides what we learn from the buzzing punditry we encounter every day? The premise of the seminar is that political scientists know the answers to these questions. An intensive survey of the best political science literature on national institutions, democratic processes, policy evolution and feedback, citizens’ attitudes and their attention to and knowledge of politics, political parties, social movements, and interest groups, the behavior of voters and politicians, the "state," the financialized political economy that generates macroeconomic instability, federalism, and, not least, racial and income inequality’s political origins Previous background in American politics and history is essential.

Prerequisite: POLS 002 or an intermediate American politics course.

Social sciences.

2 credits.

POLS 105. Constitutional Law in the American Polity

This seminar examines the Supreme Court in American political life, with emphasis on civil rights, civil liberties, and constitutional development. The seminar explores the court’s role in political agenda setting in arenas including economic policy, property rights, separation of powers, federalism, presidential powers and war powers, and interpreting the equal protection and due-process clauses as they bear on race and gender equality. Judicial review, judicial activism and restraint, and theories of constitutional interpretation will be included.

Social sciences.

2 credits.

POLS 106. The Urban Underclass and Public Policy

This seminar is a critical examination of some of the most pressing (and contentious) issues surrounding the nation’s inner cities today and the urban underclass: the nature, origins, and persistence of ghetto poverty; racial residential segregation and affordable public housing; social organization, civic life, and political participation; crime and incarceration rates; family structure; adolescent street culture and its impact on urban schooling and social mobility; and labor force participation and dislocation. We conclude by examining how these issues impact distressed urban communities, such as the neighboring city of Chester.

Social sciences.

2 credits.

Eligible for BLST

POLS 108. Comparative Politics: East Asia

This course examines the politics of China, Japan, the two Koreas, Vietnam and Taiwan. It compares pathways to development, the role of authoritarianism and democracy in the development process, the conditions that promote or impede transitions to democracy, and the impact of regional and global forces on domestic politics and regime legitimacy. It also explores the ideas and cultural patterns that influence society and politics, and the role of social change and protest in regime transformation.

Social sciences.

2 credits.

Eligible for ASIA

Fall 2020. White.
POLS 109. Comparative Politics: Latin America
A comparative study of the political economy of Mexico, Chile, Guatemala, Nicaragua, Colombia, El Salvador, and Cuba. Topics include the tensions between representative democracy, popular democracy, and market economies; the conditions for democracy and authoritarianism; the sources and impact of revolution; the political impact of neo-liberal economic policies and the economic impact of state intervention; and the role of the United States in the region.
Social sciences.
2 credits.
Eligible for LALS

POLS 113. International Politics: War, Peace, and Security
This seminar will investigate in depth the issues of conflict, security, and the use of force in contemporary international politics. The course will begin by considering the changing meaning of "security" and by analyzing the major theoretical approaches including realism, liberalism, and constructivism. The course will then tackle some of the great puzzles of international security including the clash of civilizations hypothesis, the role of nuclear weapons, civil wars and intervention, terrorism, and human rights.
Social sciences.
2 credits.
Eligible for GLBL-Core
Fall 2019. Tierney.

POLS 115. The Politics and Practice of Wartime Humanitarian Action
This seminar explores the history and politics of humanitarianism. Topics include: charity, religion and the origins of the modern humanitarian system; humanitarian principles and international law; the local, national and global politics of contemporary humanitarian action; the role of innovation and technology; non-western approaches to humanitarianism; new humanitarian actors (private sector, transnational civil society, non-state actors); the psychosocial dimensions of aid work; and humanitarian ethics. Students will draw upon in-depth case studies of humanitarian emergencies and will participate in a simulation exercise.
Social Sciences.
2 credits.

POLS 116. International Political Economy
The course studies the main historical and contemporary approaches in international political economy, and focuses on the primary contemporary issues in political-economic relations among states as well as between states and non-state actors. Topics include: domestic-international level interaction in the politics of international economic relations, economic globalization, the international financial and monetary systems, the international trading system, development and aid, economic crises, multinational corporations, interlinkages between economic and security relations, multilateral platforms to address international political economic issues, including relatively new forums such as the G20.
Prerequisite: POLS 004 and ECON 001
Social sciences.
2 credits.

POLS 180. Thesis
With the permission of the department, honors candidates may write a thesis for double course credit.
2 credits.

1 Absent on leave, Spring 2020.

Psychology is concerned with the systematic study of human behavior and experience. Psychologists use diverse approaches to understand human relationships, mental and emotional life, and decision-making, as well as the relationships between language, perception, the mind, and the brain. Topics also include the influence of other people on the individual and the origins and treatment of mental illness.

The Academic Program

The courses and seminars of the department are designed to provide a sound understanding of the principles and methods of psychology. Students learn the nature of psychological inquiry and psychological approaches to various problems encountered in the humanities, the social sciences, and the life sciences.

The Psychology Department offers a course major and minor, honors major and minor, and regularized special majors in neuroscience and in psychology and education. Students may, with approval, develop other individualized special majors, such as psychology and economics.

Prerequisites

The most common way to fulfill the prerequisite for further work in psychology is to take PSYC 001 Introduction to Psychology. A second entry point is a psychology first-year seminar: PSYC 005 First-Year Seminar: Is Nature vs. Nurture the Wrong Question?: Topics in Cognitive Development or PSYC 007 First-Year Seminar: Early Social Cognition.

Advanced Placement

Alternatively, a student may meet the prerequisite for psychology courses with a grade of AP 5 on the psychology Advanced Placement test or a grade of 6 or 7 for psychology in the higher level International Baccalaureate Program, but this practice is not encouraged. In either case, an entering student should seek guidance from the department chair or academic assistant about selection of a first psychology course. Students electing the AP or IB placement option are not permitted to take a core course (numbered in the 30s) in their first semester. (Swarthmore credit is not granted for AP or IB work in psychology.)

First Course Recommendations

Standard (Most Common) first course and prerequisite for further coursework in Psychology.

PSYC 001 Introduction to Psychology. This course introduces the basic processes underlying human and animal behavior-studied in experimental, social, and clinical contexts. Analysis centers on the extent to which typical and atypical behaviors are determined by learning, motivation, neural, cognitive, and social processes. This course is intended for all students and is the most common way to fulfill the prerequisite for further work in psychology.

First year seminars that can serve (in place of PSYC 001) as a prerequisite for further work in Psychology. Note that first year seminars are not offered every year.

PSYC 007 First-Year Seminar: Early Social Cognition. This course explores the underlying cognitive processes that shape infants’ and children’s understanding of the social world. PSYC 007 is intended for first year students and serves as an alternate prerequisite for further work in the department.

Other courses relevant to Psychology that can serve as a pre-requisite for a few intermediate and advanced psychology courses.

COGS 001 Introduction to Cognitive Science. This course introduces students to the scientific investigation of such questions as the following: What does it mean to think or to have consciousness? Can a computer have a mind? What does it mean to have a concept? What is language? What kinds of explanations are necessary to explain cognition? When taught by a Psychology faculty, COGS 001 counts toward Psychology credit and serves as an alternate prerequisite for courses related to cognitive psychology: PSYC 032 Perception, PSYC 033 Cognitive Psychology, PSYC 034 Psychology of Language, PSYC 132 Perception, Cognition and the Embodied Mind Seminar, and PSYC 133 Metaphor and Mind Seminar. The course does not serve fill the PSYC 001 prerequisite requirement for most course in the department or for entry into the Psychology major or minor.

Other courses open to first year students that do not count as a pre-requisite for further coursework in the department. Note that these courses are not offered every year.

PSYC 004 First Year Seminar: Psychology in Schools. This course introduces psychological theory and concepts by considering their relevance to schools and student learning. This course draws from cognitive, developmental, and multicultural psychology to help students understanding and appreciate learning and the diversity of learners. PSYC 004 is intended for first year students. PSYC 004 does not serve as an alternate prerequisite for further work in the department but can count towards a Psychology major or minor.

PSYC 018 Well-being. This course examines individual, interpersonal, and social factors that contribute to social and emotional well-being, as well as interventions designed to promote well-being. Although the course focuses on psychological well-being across a variety of contexts and life stages, a heavy emphasis will be placed on well-being during the college years. PSYC 018 is intended for all students. PSYC 018 does not serve as an alternate prerequisite for further work in the department but can count towards a Psychology major or minor.

Course Major

A course major must include at least 8 credits in psychology. One additional credit is required in statistics as a prerequisite for PSYC 025. Normally, one credit of the 8 credits in psychology may be accepted from a semester abroad. The minimum requirement excludes courses cross-listed in psychology that are taught solely by members of other departments, such as EDUC 021/PSYC 021, EDUC 023/PSYC 023 and EDUC 026/PSYC 026. COGS 001 Introduction to Cognitive Science may be counted in the minimum courses required for the major when taught by a member of the Psychology Department.

A typical sequence of courses toward a major begins with PSYC 001 Introduction to Psychology (or equivalent), followed by a core course (those with numbers in the 30s) or PSYC 025 Research Design and Analysis.

Requirements

1. PSYC 001 Introduction to Psychology (or equivalent) is normally a prerequisite for all courses in psychology (see the note about prerequisites above).

2. PSYC 025 Research Design and Analysis is a requirement for the major. Note that STAT 011 Statistical Methods (or equivalent, e.g., ECON 031) is a prerequisite for PSYC 025, or may be taken concurrently.

3. At least four core courses in psychology are required (those with numbers in the 30s): PSYC 030 Behavioral Neuroscience; PSYC 031 Cognitive Neuroscience; PSYC 031A Social, Cognitive and Affective Neuroscience; PSYC 032 Perception; PSYC 033 Cognitive Psychology; PSYC 034 Psychology of Language; PSYC 035 Social Psychology; PSYC 037 Multicultural Psychology; PSYC 038 Clinical Psychology; PSYC 039 Developmental Psychology.

4. Finally, to graduate with a major in psychology, students must also complete a culminating research experience, described below.

Comprehensive Requirement: Culminating Research Experience

Students in the Course Program must satisfy the College’s comprehensive requirement in their majors. In psychology, this can be done in one of the following four ways:

1. Complete a research practicum in psychology in the senior year: PSYC 101 Research Practicum in Political Psychology; PSYC 102 Research Practicum in Cognition and Perception; PSYC 103 Research Practicum in Behavioral Neuropharmacology; PSYC 104 Research
Acceptance Criteria
To be accepted as a course major, students must have successfully completed two courses in psychology and be in good standing at the College.

Course Minor
A course minor in psychology requires a minimum of 5 credits taken with psychology faculty at Swarthmore. There is no comprehensive requirement.

Requirements
1. PSYC 001 Introduction to Psychology (or equivalent) is normally a prerequisite for all courses in Psychology (see the note about prerequisites above).

2. A minimum of two core courses in psychology (those with numbers in the 30s) is required: PSYC 030 Behavioral Neuroscience; PSYC 031 Cognitive Neuroscience; PSYC 031A Social, Cognitive and Affective Neuroscience; PSYC 032 Perception; PSYC 033 Cognitive Psychology; PSYC 034 Psychology of Language; PSYC 035 Social Psychology; PSYC 037 Multicultural Psychology; PSYC 038 Clinical Psychology; PSYC 039 Developmental Psychology.

*Note: COGS 001: Introduction to Cognitive Science may count towards the completion of a Psychology Minor, though not as a core course, when taught by a Psychology Faculty Member.

Acceptance Criteria
To be accepted as a course minor, students must have successfully completed one course in psychology and be in good standing at the College.

Honors Major
An honors major in psychology requires completing all the requirements for the course major while incorporating three honors preparations in psychology, of which one is a 2-credit senior honors thesis. The other two honors preparations in psychology are composed of two core courses (a course numbered in the 30s) along with their corresponding one-credit seminars (numbered in the 130s).

The Psychology Department currently offers examination in honors in the following fields:
Behavioral Neuroscience
Clinical Psychology
Cognitive Psychology/Perception
Developmental Psychology
Psycholinguistics
Social, Cognitive and Affective Neuroscience
Social Psychology

Requirements
1. PSYC 001 Introduction to Psychology (or equivalent) is normally a prerequisite for all
courses in psychology (see the note about prerequisites above).

2. PSYC 025 Research Design and Analysis is required of honors majors, as it is for course majors. Note that STAT 011 Statistical Methods (or equivalent, e.g., ECON 031, AP Statistics) is a prerequisite for PSYC 025 (or may be taken concurrently).

3. Two seminar-based honors preparations, as described above, must be completed, each consisting of a core course and its corresponding seminar.

4. In all, a minimum of four core courses in psychology (those with numbers in the 30s) must be completed: PSYC 030 Behavioral Neuroscience; PSYC 031 Cognitive Neuroscience; PSYC 031A Social, Cognitive and Affective Neuroscience; PSYC 032 Perception; PSYC 033 Cognitive Psychology; PSYC 034 Psychology of Language; PSYC 035 Social Psychology; PSYC 037 Multicultural Psychology; PSYC 038 Clinical Psychology; PSYC 039 Developmental Psychology.

5. A two-credit honors thesis (PSYC 180), spread over both semesters of the senior year, is the third honors preparation and fulfills the comprehensive requirement in psychology.

The Honors Examination for Majors
In psychology, the usual form of evaluation is a three-hour written examination prepared by the external examiner and administered during the honors examination period in the senior year. This is followed, during the subsequent examiners’ weekend, by an oral examination with the examiner for each of a student’s preparations. An honors thesis stands in place of one written examination.

Acceptance Criteria
Approval of an application to participate in the Honors Program as a major depends upon successfully completing two psychology courses at Swarthmore, normally PSYC 001, Introduction to Psychology, or a psychology first-year seminar, and one core course. Admission to the Honors Program usually takes place in the spring semester of the sophomore year, but students may apply for honors even in the junior year. To be accepted, students must have B+ averages in psychology and overall. Moreover, to continue in honors, students must have attained a B+ average in psychology at the end of the junior year.

The Honors Examination for Minors
The usual form of evaluation is a three-hour written examination prepared by the external examiner and administered during the honors examination period in the senior year. This is followed, during the subsequent examiners’ weekend, by an oral examination with the examiner. If a student pursues an honors minor and a course major and uses an honors thesis as the honors preparation, the form of evaluation consists of an oral examination and the honors thesis stands in place of a written examination.

Acceptance Criteria
Approval of an application to participate in the Honors Program as a minor depends upon successfully completing two psychology courses at Swarthmore, normally PSYC 001, Introduction to Psychology, or a psychology first-year seminar, and one core course. Admission to the Honors Program usually takes place in the spring semester of the sophomore year, but students may apply for

Honors Minor
Completing an honors minor in psychology requires fulfilling the requirements for the course minor while incorporating a single honors preparation in psychology, composed of a core course (a course numbered in the 30s) and its corresponding one-credit seminar (numbered in the 130s). A complete list of available preparations is given above in the section on honor majors.

Requirements
A minimum of five credits taken with psychology faculty at Swarthmore, including the honors preparation, are required for the honors minor. PSYC 001 Introduction to Psychology (or equivalent) is normally a prerequisite for all courses in psychology (see the note about prerequisites above).

Two of the five credits must be core courses in psychology (those with numbers in the 30s): PSYC 030 Behavioral Neuroscience; PSYC 031 Cognitive Neuroscience; PSYC 031A Social, Cognitive and Affective Neuroscience; PSYC 032 Perception; PSYC 033 Cognitive Psychology; PSYC 034 Psychology of Language; PSYC 035 Social Psychology; PSYC 037 Multicultural Psychology; PSYC 038 Clinical Psychology; PSYC 039 Developmental Psychology.

The honors preparation is completed by taking the seminar corresponding to one of the aforementioned core courses. In the event that a student is pursuing a course major in addition to an honors minor, the preparation for the honors minor may, with approval of the department, be fulfilled with the completion of a two-credit honors thesis (PSYC 180).

Starting with the Class of 2021: In addition to the core course and related seminar for an honors preparation, honors minors are required to include Introduction to Psychology (or equivalent), one additional core course, and PSYC 025 Research Design and Analysis in their programs, for 5 credits of psychology. STAT 011 is required as a prerequisite or co-requisite of PSYC 025. All coursework counted towards a psychology minor must be completed at Swarthmore.
honors even in the junior year. To be accepted, students must have B+ averages in psychology and overall. Moreover, to continue in honors, students must have attained a B+ average in psychology at the end of the junior year.

Special Major in Neuroscience
The psychology and biology departments have defined a regularized special major in neuroscience that combines work in the two departments in a way that allows students flexibility in choosing the focus of their Neuroscience majors. Approval and advising for this special major are done through both departments. Details about the course and honors special majors can be found online at www.swarthmore.edu/academics/biology/neuroscience.xml. Students interested in developing a special major in Neuroscience are encouraged to consult faculty in both departments.

Special Major in Psychology and Educational Studies
A student wishing to undertake a special major in psychology and educational studies will propose and justify an integrated program that includes 10-12 credits in the two disciplines, as described below.

Requirements
The special major will include 5 credits in courses or seminars taught by members of the department of psychology, including at least 3 core areas (courses numbered in the 30s) and PSYC 025 Research Design and Analysis. It will include at least 5 credits taught by members of the Department of Educational Studies. One of these courses must be EDUC/PSYC 021 Educational Psychology. Practice Teaching (EDUC 016) and the Curriculum and Methods Seminar (EDUC 017) may not be included in the program.

Culminating Exercise/Comprehensive Examination
Either a two-semester, two-credit interdisciplinary senior thesis, a research practicum (0.5 or 1 credit), a field placement in clinical psychology (PSYC 090, 1 credit) or an integrated comprehensive project (PSYC 098 or EDUC 098, 0.5 credit) suitable to the special major serves to satisfy the comprehensive requirement. Theses and comprehensive projects are supervised by one member of each department. Students wishing to prepare a senior thesis must have averages of B+ in psychology, educational studies, and overall. Application to the senior thesis program is usually made by mid-April of the junior year. Because special majors may not undertake work on a thesis in a semester in which they are student teaching, such students must be sure to apply early and to begin thesis work as second semester juniors.

Honors special major in psychology and education
The requirements for honors require that four The requirements for honors require that four honors preparations be included in the special major, including the senior honors thesis. For special majors involving educational studies, theses are supervised by both departments. Normally, the remaining three honors preparations consist of two two-credit seminars in educational studies and one preparation in psychology composed of a core course (a course numbered in the 30s) and its corresponding one-credit seminar (numbered in the 130s), but a program could be proposed involving two preparations in psychology and one in educational studies.

Acceptance Criteria
To be accepted as a special major in psychology and educational studies, a student must have successfully completed two courses in psychology, EDUC 014 Introduction to Education, and be in good standing at the College. To be accepted as an honors special major in psychology and educational studies, a student must have met these requirements and have a B+ average in psychology, educational studies, and overall.

Other Special Majors Involving Psychology
Other individualized special majors involving psychology may be designed. A special major in cognitive science, which may involve psychology, is administered through the program coordinator of cognitive science.

Transfer Credit
Transfer credit is handled on an individual basis. Whenever possible, prior approval is recommended.

Off-Campus Study
Swarthmore College encourages its students to include study abroad as part of their educational experience. The Psychology Department recognizes that international study has an important place in the educational programs of its students. Each year, many students take psychology courses while studying abroad. If you are planning to take psychology classes while abroad, we recommend discussing your plans with your faculty advisor in psychology and also with the department chair. The department usually recommends that psychology majors with strong research interests complete their study abroad experience during the fall semester of their junior year so that it does not interfere with applications for summer research fellowships or with the development of senior thesis proposals. With prior approval from the department, students are usually able to apply one credit of psychology
Psychology

coursework from a study abroad program towards the psychology major. This course can occasionally count as a core course in psychology (i.e., as one of the four core courses required for the major) if it covers similar content as a core course. The course can sometimes serve as a prerequisite to a seminar. Normally, however, core courses that are part of honors preparations (core + seminar prep) must be completed here at Swarthmore. Off campus study courses do not count towards the minor in psychology. In general, all coursework for the minor must be completed here at Swarthmore.

Students who would like to receive psychology credit for a psychology course taken at another institution must have taken PSYC 001 or a relevant first year seminar in psychology, or placed out of this requirement through AP or IB work. The department may consider exceptions for students who have taken COGS 001 (Intro to Cognitive Science) when taught by a member of the psychology department.

Research and Service-Learning Opportunities

Students are encouraged to get involved with research at any point in their time at Swarthmore, and many seniors also do field placements through the clinical practicum.

Academic Year Opportunities

There are many opportunities for research with the faculty of the department during the academic year either for academic credit (PSYC 094: Independent Research, PSYC 101: Research Practicum in Political Psychology, PSYC 102: Research Practicum in Perception and Cognition, PSYC 103: Research Practicum in Behavioral Neuropharmacology, PSYC 104: Research Practicum in Language and Mind, PSYC 105: Research Practicum in Psychology and Neuroscience: Social Imitation, PSYC 106: Research Practicum in Cognitive Development, PSYC 107: Research Practicum in Developmental Psychology, PSYC 108: Research Practicum in Clinical Psychology, PSYC 109: Research Practicum in Social and Emotional Well-Being, and PSYC 110: Research Practicum in Cognitive Neuroscience) or as a paid assistant. Students may participate in the design, conduct and analysis of projects at any stage in their program. In the senior year, such experiences, in the form of a thesis (PSYC 096-PSYC 097 or PSYC 180) or research practicum, may constitute the culminating comprehensive experience. The list of faculty research interests on the department’s website will help students identify the appropriate faculty member to consult about developing research plans.

The clinical practicum (PSYC 090) provides field experience for students who are considering careers in clinical psychology, psychiatry, social work, and counseling. Students undertake field placements in varied settings to gain direct clinical experience. In past years, students have completed placements in organizations providing psychological and educational services to children with autism spectrum disorder and other developmental difficulties, outpatient and inpatient therapy programs for children and adults with anxiety and depression, and non-profits providing clinical and psychosocial support to survivors of violence, immigrants and other underserved populations. Enrollment is often limited to seniors and requires at least a B average in Psychology as well as appropriate course preparation. The clinical practicum is a Community-based Learning course.

Service-Learning Opportunities

PSYC 090 Field Placement in Clinical Psychology is designated as a Community-Based Learning course.

Summer Research Opportunities

Students may apply for summer funding to conduct research in psychology either through the Social Sciences Division or through the Division of Natural Sciences and Engineering, depending on the nature of the research project. Students should seek the sponsorship of a faculty member who is willing to provide guidance in developing and submitting an application. Funding may be obtained to work with faculty members on campus or, in some cases, at another campus or setting.

Students planning to prepare a thesis are especially encouraged to consider ways of integrating a summer of research into their thesis work, but all interested students should feel free to explore their options. The list of faculty research interests on the department’s website will help students identify the appropriate faculty member to consult.

Teacher Certification

Students who wish to qualify for certification at the secondary school level should consult faculty in the educational studies department. Psychology majors can complete the requirements for teacher certification in social science, through a program approved by the Commonwealth of Pennsylvania. For further information about the relevant set of requirements, please refer to the Educational Studies section of the Bulletin.

Life After Swarthmore

Psychology majors have followed a variety of paths after graduation, including into medicine, law, business, information technology, marketing, counseling, finance, theater, and education, as well as into traditional psychology programs leading to clinical practice and/or academic research in psychology, neuroscience and related fields.
Psychology Courses

PSYC 001. Introduction to Psychology

COGS 001. Introduction to Cognitive Science
An introduction to the science of the mind from the perspective of cognitive psychology, linguistics, neuroscience, philosophy, and artificial intelligence. The course introduces students to the scientific investigation of such questions as the following: What does it mean to think or to have consciousness? Can a computer have a mind? What does it mean to have a concept? What is language? What kinds of explanations are necessary to explain cognition? Non-distribution. 1 credit. Eligible for COGS, PSYC. Fall 2019. Durgin. Fall 2020. Durgin.

PSYC 004. First Year Seminar: Psychology in Schools
The role of psychology in an educational setting is to help educators "see" better the internal, external, and socialized learning processes that are occurring in and out of the classroom. In this course, students will be introduced to psychological theory and concepts by considering their relevance to schools and student learning. This course draws from cognitive, developmental, and multicultural psychology to help students understand and appreciate learning and the diversity of learners. PSYC 004 does not serve as an alternate prerequisite for further work in the department. Social sciences. 1 credit. Fall 2019. Staff.

PSYC 005. First-Year Seminar: Is Nature vs. Nurture the Wrong Question?: Topics in Cognitive Development
The question of nature vs. nurture is everywhere in developmental psychology. Do children come into the world with certain knowledge and expectations? Or does the world around them shape what they know and how they learn? While some of the things children need learn are relevant to many species, others are actually cultural products created by humans. Does the nature vs. nurture question make sense for both of these sets of problems? In this seminar we will focus on four topics in cognitive development and consider each with respect to the nature vs. nurture debate. First, we will consider topics for which the question does seem quite sensible, such as how children understand objects and perceive faces. Next we will move onto children’s development in several areas for which this question may not be so sensible: language acquisition and theory of mind development. This course will seek to move beyond the traditional solution of accepting that every developmental process is about nature and nurture working in concert. Instead we will think more deeply about when the question is a helpful framework and when it is not. PSYC 005 serves as an alternate prerequisite for further work in the department. Social sciences. 1 credit.

PSYC 007. First-Year Seminar: Early Social Cognition
Humans are helplessly social: we spend much of our lives interacting with others, continuously encoding and processing information about our social world. What are the origins and developmental trajectory of our social cognition? Are we prejudiced from the start? How do we learn us vs. them distinction? When and how do young children come to appreciate the content of others’ minds? This course explores the underlying cognitive processes that shape infants’ and children’s understanding of the social world. PSYC 007 serves as an alternate prerequisite for further work in the department. Social sciences. 1 credit. Eligible for COGS.

PSYC 008. First-Year Seminar: Language, Psychology, and Advertising
This course explores the social and cognitive mechanisms of language through the lens of advertising. Marketers and politicians have an intuitive grasp of many of the ways in which communication works. We will investigate the psychological and linguistic underpinnings of how people communicate literally and between the lines in order to understand how and when these messages are effective. We will also review the role that mental processes such as attention, memory, inference, and decision making play in shaping how we interpret persuasive messages. Having a better grasp of these mechanisms will help students consciously evaluate the intended impact of certain advertising techniques. A further goal is to provide conceptual tools for evaluating the scientific soundness of laws and policies pertaining to advertising. Social sciences.
Psychology

1 credit.
Eligible for COGS

**PSYC 018. Well-being**
The course examines individual, interpersonal, and social factors that contribute to social and emotional well-being, as well as interventions designed to promote well-being. Although the course focuses on psychological well-being across a variety of contexts and life stages, a heavy emphasis will be placed on well-being during the college years.

**PSYC 020. EEG/ERP: Imaging the electrical activity of the brain**
Electroencephalography (EEG) allows us to investigate electrophysiological responses in the brain that relate to cognitive processes. What is the EEG signal and how is it analyzed? What does the computation of event-related potentials (ERPs) tell us about the time course of brain processes? How do these techniques contribute to our understanding of the neural mechanisms underlying language, development, attention, perception, and memory? This course will provide a foundation of knowledge and experience with methods, analyses and interpretation for consumers of research as well as those who intend to use EEG and ERP.
0.5 credit.

**PSYC 025. Research Design and Analysis**
How can one answer psychological questions? What counts as evidence for a theory? This course addresses questions about the formulation and evaluation of theories in psychology. The scientific model of psychological hypothesis testing is emphasized, including the critical evaluation of various research designs and methodology, understanding basic data analysis and statistical issues, and the application of those critical thinking skills to social science findings reported in the media. Students also learn to design and conduct psychology studies, analyze data generated from those studies, and write up their findings in the format of a psychology journal article.
This course is required for the major prior to the student’s senior year. STAT 011. Statistical Methods I must be taken prior to or concurrently with the course.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001 and STAT 011 or equivalent.
Corequisite: STAT 011 or equivalent if not taken previously.
Social sciences.
Writing course.
1 credit.
Fall 2019. Staff.
Spring 2020. Staff.

**PSYC 026. Special Education: Issues and Practice**
(Cross-listed as EDUC 026)
Note: The Educational Studies Department offers this course. It does not count toward the minimum required credits for a psychology major or minor.
Social sciences.
1 credit.

**PSYC 027. Scientific Computing for Psychology**
Progress in psychology (and many other fields) increasingly relies on using computational tools for data analysis. This course is intended to provide an introduction to scientific computing for students interested in Psychology, but who have little programming experience. Students will learn Python, a programming language widely used for scientific research, through a process of framing hypotheses, performing statistical tests, and visualizing results using large datasets collected from psychological experiments. Note that this course serves as a possible prerequisite for a more advanced scientific computing course in the Spring.
Prerequisite: PSYC 001 and PSYC 025 or permission of Instructor.
Social sciences.
Fall 2019. Ezzyat.

**PSYC 028. Stereotypes, Prejudice and Discrimination**
Humans are social creatures; interpersonal relationships and group membership are critical to our survival and well-being. The formation of groups, however, can give rise to ingroup favoritism, stereotyping, and discrimination against outgroup members. This course will examine social psychological theory and research on the causes and consequences of stereotypes, prejudice & discrimination, emphasizing sociocultural, cognitive, personality, neuroscience and motivational perspectives. We will study the development and causes of stereotypes and prejudice, and reasons for their persistence and prevalence. We will consider both the effects that stereotypes and prejudice have on people’s perceptions of and behaviors toward particular groups or group members, as well as their effects on members of stereotyped groups. Finally, we will explore the implications of research findings on stereotypes, prejudice & discrimination for education, business and government policies; and will discuss possible techniques for reducing prejudice and discrimination.
Prerequisite: PSYC 001
Social Sciences.
1 credit.
PSYC 030. **Behavioral Neuroscience**
A survey of the neural and biochemical bases of behavior with special emphasis on sensory processing, motivation, emotion, learning, and memory. Both experimental analyses and clinical implications are considered.
Prerequisite: PSYC 001.
Social sciences.
1 credit.
Eligible for COGS
Spring 2021. Schneider.

PSYC 031. **Cognitive Neuroscience**
What neural systems underlie human perception, memory and language? What deficits arise from damage to these systems? This course covers a variety of cognitive neuroscience and neuropsychological methods and what they tell us about human cognition.
Prerequisite: PSYC 001
Social Sciences.
1 credit.
Eligible for COGS

PSYC 031A. **Social, Cognitive and Affective Neuroscience**
This course focuses on the neural underpinnings of cognitive (memory, attention), social (theory of mind, empathy), and affective (emotion, evaluation) processes, as well as how they interact with and contribute to each other. We consider how such processes are implemented at the neural level, but also how neural mechanisms help give rise to social and emotional phenomena. Many believe that the expansion of the human brain evolved due to the complex demands of dealing with others - competing or cooperating with them, deceiving or empathizing with them, understanding or misjudging them. In this course, we review current theories and methods guiding social, cognitive, and affective neuroscience, taking a multi-level approach to understanding the brain in its social context.
Prerequisite: PSYC 001
Social Sciences.
1 credit.
Eligible for COGS
Fall 2019. Norris.

PSYC 032. **Perception**
Perception is fundamental to both cognition and action. How does perception work? This course covers a variety of scientific theories of perception including biological analyses of comparative functional anatomy of sensory systems and the informational "ecology" in which they have evolved, as well as functionalist information processing theories including computational, statistical and inferential approaches. An integrated series of laboratories and demonstrations provides students with experience testing theories of perception empirically.
Prerequisite: PSYC 001 and PSYC 025. Research Design and Analysis, or COGS 001, or permission of instructor.
Natural sciences and engineering practicum.
Lab required.
1 credit.
Eligible for COGS

PSYC 033. **Cognitive Psychology**
Cognitive psychology is one of the intellectual foundations on which modern psychological science is built. This course has two principal goals. On the one hand, it provides an integrated overview of a variety of subfields of cognitive psychology including perception, attention, memory, language, concepts, imagery, thinking, decision-making, and problem solving. On the other hand, it develops a coherent conceptual framework for understanding how behavioral experiments can illuminate the workings of the human mind.
Prerequisite: PSYC 001 or COGS 001 or permission of the instructor.
Social sciences.
1 credit.
Eligible for COGS

PSYC 034. **Psychology of Language**
(Cross-listed as LING 034)
The capacity for language sets the human mind apart from all other minds, both natural and artificial, and so contributes critically to making us who we are. In this course, we ask several fundamental questions about the psychology of language: How do children acquire it so quickly and accurately? How do we understand and produce it, seemingly without effort? What are its biological underpinnings? What is the relationship between language and thought? How did language evolve? And to what extent is the capacity for language "built in" (genetically) versus "built up" (by experience)?
Prerequisite: PSYC 001, or COGS 001, or permission of the instructor.
Social sciences.
1 credit.
Eligible for COGS
Fall 2020. Grodner.

PSYC 035. **Social Psychology**
Social psychology argues that social context is central to human experience and behavior. This course provides a review of the field with special attention to relevant theory and research. The dynamics of cooperation and conflict, the self, group identity, conformity, social influence, prosocial behavior, aggression, prejudice, attribution, and attitudes are discussed.
Prerequisite: PSYC 001.
Social sciences.
1 credit.
PSYC 037. Multicultural Psychology
As individuals, we function in environments we share with others. In those contexts, we learn about what it means to be and how to behave as members of a group or groups. Further, societally, group membership is associated with power and privilege for some, and marginalization for others. In this course, we will review how researchers have conceptualized culture, difference, and multiculturalism. A significant portion of the class will be spent considering race, ethnicity, and culture from a psychological perspective, particularly as they relate to interactions between dominant and nondominant groups. Identity, discrimination, intersectionality, and privilege are a few of the topics we will discuss.
Prerequisite: PSYC 001
Social Sciences.
1 credit.
Fall 2019. Staff.
Spring 2020. Staff.

PSYC 038. Clinical Psychology
This course is an introduction to clinical psychology. We will survey the field of psychopathology and psychotherapy in the context of specific disorders and syndromes, and with regard to etiology, course, and treatment. Although we will give attention to different theoretical orientations and methods of investigation, we will primarily emphasize empirically supported approaches. That is, we will explore what research tells us about clinical psychology.
Prerequisite: PSYC 001
Social sciences.
1 credit.
Fall 2019. Reimer.
Fall 2020. Siev.

PSYC 039. Developmental Psychology
Do infants have concepts? How do children learn language? These questions and others are addressed in this survey course of physical, cognitive, social, and emotional development during infancy and early childhood. The course asks how and why human minds and behaviors develop, examining theoretical perspectives and empirical evidence on the nature of developmental change.
Prerequisite: PSYC 001.
Social sciences.
1 credit.
Eligible for COGS
Fall 2019. Flaherty.
Fall 2020. Flaherty.

PSYC 040. Political Psychology
This course is an intensive study of special topics in political psychology, including political orientation and partisanship, elections and voting, political intolerance and motivated reasoning, authoritarianism and liberty, and protest and activism. An emphasis will be placed on ideology; it’s psychological underpinnings, functions, and consequences. An empirical research component may be included in this course.
Prerequisite: PSYC 001 or permission of the instructor. To request approval, please contact Dr. John Blanchar (jblanch2@swarthmore.edu) and indicate why you would like to take this course, any previous relevant coursework or experience, and how the course fits with your academic program and goals.
Social Sciences.
1 credit.
Fall 2019. Blanchar.

PSYC 041. Children at Risk
Violence, educational inequality, war, and chronic poverty are key contexts for many children’s lives. We consider children’s responses to adversity from clinical, developmental and ecosystemic perspectives. In addition, we explore the role of psychology in both prevention and social policy affecting children and families.
Prerequisite: PSYC 001 and either PSYC 038 or PSYC 039 or permission of the instructor.
Social sciences.
1 credit.

PSYC 042. Cognitive Behavior Therapy
This course is an introduction to cognitive behavior therapy (CBT). Students will learn theoretical and empirical bases for cognitive and behavioral interventions across the range of clinical disorders in adults. Through classroom role-playing, experiential exercises, and demonstrations, students will get an opportunity to view and practice the techniques presented in both lecture and reading material. Specific CBT elements covered will include Beckian cognitive therapy, exposure therapies, acceptance- and mindfulness-based approaches, motivational interviewing, dialectical behavior therapy, behavioral activation, and others.
This course may not be taken after taking PSYC 138B: Seminar in Clinical Psychology: Anxiety Disorders.
Prerequisite: PSYC 001 and PSYC 038
Social sciences.
1 credit.
Fall 2020. Siev.

PSYC 043. Computational Methods for Psychology and Neuroscience
This course will introduce students to computational approaches to understanding the brain and behavior, through the lens of human learning and memory. We will cover a range of topics including: representation and similarity, correlation, convolution, cognitive models, human electrophysiology, neural oscillations, and supervised/unsupervised learning. Students will gain experience with the methods and their applications through Python-based programming projects.
Prerequisite: PSYC 027 or CPSC 021 and Instructor permission. Interested students with
Psychology

experience/coursework in other areas (e.g. psychology, neuroscience, computer science, mathematics/statistics, engineering) are also encouraged to contact the Instructor.

Social sciences
1 credit.

PSYC 048. Gender and Psychopathology
(Cross-Listed as GSST 048)
Why are certain clinical syndromes, such as depression, overrepresented among women, while others, such as aggression, are more common among men? This course explores gender differences in emotion socialization, coping styles, and mental illness, including depression, eating disorders, posttraumatic stress, aggressive disorders, and substance abuse. It also critiques definitions of sex and gender and methodological approaches to the study of group differences.
Prerequisite: PSYC 001 and PSYC 038
Social sciences.
1 credit.
Eligible for GSST

PSYC 055. Family Systems Theory and Psychological Change
Systems theory is important in clinical, educational, medical and organizational contexts. This course explores family systems perspectives on illness and change. Research and theory are supplemented with popular film, documentaries, and therapeutic case histories to understand how psychologists work with individuals and organizations to address developmental, communication, and emotional impasses.
Prerequisite: PSYC 001 and either PSYC 038 or PSYC 039, or permission of the instructor.
Social sciences.
1 credit.
Eligible for COGS

PSYC 090. Senior Field Placement in Clinical Psychology
An opportunity for psychology seniors to gain supervised experience in off-campus clinical settings. Requirements include 8 hours per week in an off-campus placement, weekly meetings to discuss placement experiences and relevant readings, and a major term paper. Students are expected to have clinical contact with clients/patients and to have an on-site supervisor. Juniors who are interested in taking Psyc 90 during their senior year should complete the Psyc 90 application by May 1st of their junior year (the year prior to the course). Applications are available online at this link. Students are responsible for arranging a placement, in consultation with the instructor during the fall semester, before the course begins. Students applying for this course must have at least a B average in psychology. This course fulfills the comprehensive requirement in psychology.
To apply for a spot in PSYC 090, please complete the application available at this link. Enrollment is limited to seniors. If the course over-enrolls, priority is given to students who are completing majors and special majors involving psychology.
Prerequisite: PSYC 001 and PSYC 038 or PSYC 041
Social sciences.
1 credit.
Eligible for CBL
Spring 2020. Staff.

PSYC 091. Special Topics in Behavioral Neuroscience
Current issues in behavioral neuroscience are considered from both a clinical and an experimental perspective. Topics include learning and memory, with a focus on emotional memory and its relation to anxiety disorders; memory storage, with a focus on the impact of brain damage; neuropsychiatric and degenerative disorders, including schizophrenia, clinical depression, Alzheimer’s and Parkinson’s diseases; psychopharmacology, with a focus on drug addiction.
Prerequisite: PSYC 001 and PSYC 030 or permission of the instructor.
Social sciences.
1 credit.
Eligible for COGS

PSYC 094. Independent Research
Students conduct independent research projects. They typically study problems with which they are already familiar from their courses. Students must submit a written report of their work. Registration for independent research requires the sponsorship of a faculty member in the Psychology Department who agrees to supervise the work.
A Psychology Faculty Member must agree to supervise a student before he or she may enroll in PSYC 094.
This course may not be taken as pass/fail.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

PSYC 095. Tutorial
Any student may, under the supervision of a member of the Psychology Department, work in a tutorial arrangement for a single semester. The student is thus allowed to select a topic of particular interest and, in consultation with a faculty member, prepare a reading list and work plan. Tutorial work may include field research outside Swarthmore.
Registration requires the sponsorship of a faculty member in the Psychology Department who agrees to offer the tutorial.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.
PSYC 096. Senior Thesis
A senior thesis, which is a yearlong empirical research project, fulfills the senior comprehensive requirement in psychology. It must be supervised by a member of the department and must be taken as a two-semester sequence for 1 credit each semester. Admission requirements include a B+ average in psychology and overall, an approved topic, an advisor, and sufficient advanced work in psychology to undertake thesis. The supervisor and an additional reader (normally a member of the department) evaluate the final product. Students should develop a general plan in consultation with an advisor by the end of the junior year. Students are encouraged to begin thesis work during the summer preceding the senior year.
A Psychology Faculty Member must agree to supervise student before enrollment.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001 and PSYC 025 and permission of a research supervisor.
Social sciences.
Writing course.
1 credit each semester.
Fall 2019. Staff.
Fall 2020. Staff.

PSYC 097. Senior Thesis
A senior thesis, which is a yearlong empirical research project, fulfills the senior comprehensive requirement in psychology. It must be supervised by a member of the department and must be taken as a two-semester sequence for 1 credit each semester. Admission requirements include a B+ average in psychology and overall, an approved topic, an advisor, and sufficient advanced work in psychology to undertake thesis. The supervisor and an additional reader (normally a member of the department) evaluate the final product. Students should develop a general plan in consultation with an advisor by the end of the junior year. Students are encouraged to begin thesis work during the summer preceding the senior year.
A Psychology Faculty Member must agree to supervise student before enrollment.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001 and PSYC 025 and permission of a research supervisor.
Social sciences.
Writing course.
1 credit each semester.
Fall 2019. Staff.
Fall 2020. Staff.

PSYC 098. Senior Research Project
As one means of meeting the comprehensive requirement, a student may select a topic in psychology in consultation with psychology faculty member. Usually prepared during the fall semester of the senior year, the student writes a substantial paper on the topic based on library research or original empirical research. In addition to submitting written reports, students participate in a poster conference at the end of the semester. One-half credit or one credit with a letter grade is awarded for all components of the project. Note that Psyc 98 projects are rare as most faculty do not have capacity to supervise these projects. The common routes for completing the seniors comprehensive requirement include Research Practica courses, Thesis (PSYC 096/097, Psyc 180), and the Field Placement in Clinical (PSYC 090). Registration for PSYC 098 requires the sponsorship of a faculty member in the Psychology Department who agrees to supervise the student’s work on the project. See the department website for further details www.swarthmore.edu/academics/psychology/academic-program/majors-and-minors.xml.
A Psychology Faculty Member must agree to supervise student before enrollment.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001, PSYC 025, and permission of the faculty advisor.
0.5 - 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

PSYC 099. Senior Neuroscience Thesis
As one means of fulfilling the neuroscience thesis requirement in the Psychology Department (alternatives include a Research Practicum or a full-year 2-credit thesis project), a student may write a report, regarding research conducted in neuroscience, with a psychology faculty advisor. Enrollment is usually during the fall semester of the senior year. In addition to submitting a substantial paper, students participate in a poster conference at the end of the semester. One-half credit or one credit with a letter grade is awarded for all components of the project.
A Psychology Faculty Member must agree to supervise a student before he or she may enroll in PSYC 099.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001, PSYC 025, and permission of the faculty advisor.
0.5 - 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

PSYC 101. Research Practicum in Political Psychology
In this course, students will conduct empirical research projects individually or in small groups in collaboration with the instructor. This includes designing and implementing a study, collecting and analyzing data, and reporting and presenting the findings. Although project topics are somewhat flexible, they will generally focus on topics related to political ideology, attitudes, and behavior. What
are the core psychological dimensions of left-wing and right-wing ideology? What psychological factors underlie why people are more politically liberal or conservative? Do liberals and conservatives construe "the self” differently, and if so, why? What underlies libertarianism? What increases the appeal of novelty and change? What are the antecedents of and remedies for political intolerance and censorship? In addition to the class meeting time, additional time is scheduled as needed to conduct research projects. When taken in the senior year, this course fulfills the comprehensive requirement in psychology. This course may not be taken as pass/fail.

Prerequisite: PSYC 001 or the equivalent, PSYC 025, and either PSYC 040 (concurrently) or PSYC 035.

Social sciences.
1 credit.
Fall 2019. Blanchar.

PSYC 102. Research Practicum in Perception and Cognition
In this course, students conduct research projects singly or in small groups in collaboration with the instructor. Projects include designing, implementing, analyzing and reporting an experiment. Project topics are negotiated at the beginning of the semester. Past projects have studied eye-movements and decision-making, perception of the bodily self, self-motion and space perception, metaphor processing, and even experimental demand characteristics. All students meet together for a weekly lab meeting; additional weekly meeting times will be scheduled. When taken in the senior year, this course fulfills the comprehensive requirement in psychology. This course may not be taken as pass/fail.

Prerequisite: PSYC 001, PSYC 025 or permission of the instructor.
0.5 - 1 credit.
Fall 2019. Durgin.

PSYC 103. Research Practicum in Behavioral Neuropharmacology
The practicum consists of a weekly meeting in seminar format and a laboratory component. In this practicum students conduct research projects in small groups in collaboration with the instructor. Projects include designing, implementing, analyzing and reporting an experiment. Experiments are directed at characterizing and pharmacologically targeting underlying mechanisms mediating abnormal fear memory, based on an animal model of anxiety disorders. When taken in the senior year, this practicum fulfills the comprehensive requirement in psychology and neuroscience.

In addition to the seminar meetings, students will have the opportunity to conduct research one day per week Tuesday, Wednesday or Thursday morning from 9:00 - 9:45 AM. Accordingly, students should keep one of the following time blocks open for the duration of the semester:

- Tuesdays 9:00 - 9:45 am, Wednesdays 9:00 - 9:45 am, or Thursdays 9:00 - 9:45 am.
- The course may not be taken as pass/fail.
- Prerequisite: PSYC 001, PSYC 025, PSYC 030, or permission of the instructor.
- Lab: One day per week; Tues, Wed, or Thurs 9-9:45 am.
- Fall 2019. Schneider.
- Fall 2020. Schneider.

PSYC 104. Research Practicum in Language and Mind
In this course students conduct research projects singly or in small groups in collaboration with the instructor. Projects include designing, implementing, analyzing and reporting an experiment. Project topics are negotiated at the beginning of the semester. Past projects have investigated how people understand the perspective of conversational partners, how comprehenders resolve linguistic ambiguity, how perceivers infer what a speaker means from what they have said, and hemispheric differences in the way the brain processes language. All students meet together for a weekly lab meeting; additional weekly meeting times will be scheduled. When taken in the senior year, this course fulfills the comprehensive requirement in psychology. This course may not be taken as pass/fail.

Prerequisite: PSYC 001; PSYC 025. Research Design and Analysis, and permission of the instructor.
0.5 - 1 credit.

PSYC 105. Research Practicum in Psychology and Neuroscience: Social Imitation
In this course students conduct research projects singly or in small groups in collaboration with the instructor. Projects include designing, implementing, analyzing and reporting an experiment. Project topics are negotiated at the beginning of the semester but will generally focus on topics related to social imitation, including why we tend to imitate others, what purposes social imitation serves, the consequences of social imitation for the experience of empathy, how imitation may give rise to emotional contagion, and how interpersonal factors such as similarity, attractiveness, and race bias may affect imitation. All students meet together for a weekly lab meeting; additional weekly meeting times will be scheduled. When taken in the senior year, this course fulfills the comprehensive requirement in psychology.

This course may not be taken as pass/fail.

Prerequisite: PSYC 001; PSYC 025. Research Design and Analysis; either PSYC 031A. Social, Cognitive and Affective Neuroscience or PSYC 035. Social Psychology and permission of the instructor.
1 credit.
Psychology

PSYC 106. Research Practicum in Cognitive Development
This course provides experience in conducting research with infants and young children. Students conduct research projects singly or in small groups in collaboration with the instructor. Students will design, implement, analyze, and report an experiment. Project topics are negotiated at the beginning of the semester and are focused on language and concept acquisition as well as the interaction between language and cognition early in development. All students meet together for a weekly lab meeting; additional weekly meeting times will be scheduled. When taken in the senior year, this course fulfills the comprehensive requirement in psychology. This course may not be taken as pass/fail. Prerequisite: PSYC 001; PSYC 025. Research Design and Analysis and permission of the instructor. PSYC 039. Developmental Psychology is strongly recommended. Social sciences. 1 credit.

PSYC 107. Research Practicum in Developmental Psychology
In this class, students will work in small groups to develop, design, conduct, analyze, and report an empirical research project in collaboration with the instructor. Topics are negotiated at the beginning of the semester and are focused on the questions of learning and development in childhood. In addition to the class meeting time, additional time is scheduled as needed to conduct research projects. This course may not be taken as pass/fail. Prerequisite: PSYC 001 or the equivalent, PSYC 039 (Developmental Psychology), PSYC 025 (Research Design and Analysis) Social Sciences. 1 credit. Spring 2020. Flaherty.

PSYC 108. Research Practicum in Clinical Psychology
In this class, you will work in small groups to develop, design, conduct, analyze, and report an empirical research project. The primary objective is to foster your understanding of all phases of the research process from conception to report. This course may not be taken as pass/fail. Prerequisite: PSYC 001; PSYC 025. Research Design and Analysis; PSYC 038. Clinical Psychology. Social sciences. 1 credit each semester. Eligible for CBL. Spring 2021. Siev.

PSYC 109. Research Practicum in Social and Emotional Well-Being
This course provides experience in conducting research related to clinical psychology, prevention, and well-being promotion. The course focuses on the development and promotion of social and emotional well-being in adolescents and young adults. Students typically work in groups and collaborate on one or more research projects. Students may work on ongoing projects in the lab and/or develop new projects. Research projects typically focus on: 1) identifying and understanding the psychosocial and contextual factors that promote social and emotional well-being and protect against the development of psychological difficulties (e.g., depression and anxiety); and/or 2) evaluating school- and community-based programs designed to promote social and emotional well-being. Students gain experience in many aspects of the research process, including reviewing research literature, developing research questions and hypotheses, implementing research projects, entering and analyzing data, and presenting on projects and findings orally and in writing (in journal article format). In addition to the class meeting time, additional time is scheduled as needed to conduct research projects. Senior Comprehensive Credit: When taken in the senior year, this course fulfills the comprehensive requirement in psychology. This course may not be taken as pass/fail. Prerequisite: PSYC 001 or the equivalent, PSYC 038: Clinical Psychology is strongly preferred. Social sciences. 1 credit. Fall 2019. Gillham. Fall 2020. Gillham.

PSYC 110. Research Practicum in Cognitive Neuroscience
Students conduct research projects in small groups in collaboration with the instructor. Projects include designing, implementing, analyzing and reporting on an experiment. Topics are negotiated at the beginning of the semester and are focused on the brain mechanisms underlying human learning and memory. All students meet together for a weekly lab meeting; additional weekly meeting times are scheduled. When taken in senior year, the course fulfills the comprehensive requirement in psychology. This course may not be taken as pass/fail. Prerequisite: PSYC 001, PSYC 025: Research Design and Analysis, and either PSYC 032 Perception, PSYC 033 Cognitive Psychology, or PSYC 031 Cognitive Neuroscience, and permission of the instructor. Social Sciences. 1 credit. Fall 2020. Ezzyat.

Seminars
Note: Admission to honors seminars normally requires at least a B+ in the associated core course. Enrollment in seminars is normally limited to 12 students.
PSYC 130. Seminar in Behavioral Neuroscience
Course previously titled Seminar in Physiological Psychology
An analysis of the neural bases of motivation, emotion, learning, memory, and language. Generalizations derived from neurobehavioral relations are brought to bear on clinical issues. This course may not be taken as pass/fail. Prerequisite: PSYC 001 and PSYC 030. Behavioral Neuroscience or PSYC 031 or PSYC 031A or BIOL 022 or permission of the instructor. Social sciences. 1 credit. Eligible for COGS. Spring 2021. Schneider.

PSYC 131. Seminar in Cognitive Neuroscience
This seminar is a critical analysis of the ways that scientists study the neural bases of complex behaviors (e.g. perception, memory, decision-making...), with an emphasis on understanding methods for recording and modulation of neural activity that have enabled the study of these behaviors in humans. We will use primary research articles to evaluate the specific methods and theoretical debates in each domain, while simultaneously attempting to recognize the deeper themes that link across the field. This course may not be taken as pass/fail. Prerequisite: PSYC 001 and PSYC 031, or permission of the instructor. Social science. 1 credit. Eligible for COGS. Fall 2019. Ezzyat. Fall 2020. Ezzyat.

PSYC 131A. Seminar in Social Neuroscience: The Social Brain
This seminar focuses on a critical analysis of current social neuroscience literature, covering topics such as person perception, empathy, perspective taking, emotion, attitudes, relationships, stereotypes and prejudice. Students consider evidence from studies using a broad spectrum of methods, including behavioral measures, functional neuroimaging, neurophysiological recordings, neuropsychology and computational modeling. This course may not be taken as pass/fail. Prerequisite: PSYC 001 and PSYC 031A or PSYC 031 or permission of the instructor. Social sciences. 1 credit. Eligible for COGS. Spring 2020. Norris.

PSYC 132. Perception, Cognition and the Embodied Mind Seminar
This seminar examines foundational issues and theories in the empirical study of human perception and cognition including the interplay between perception, action, language, and reasoning. Emphasis is placed on skeptical rigor in exploring philosophical and neuroscientific considerations regarding embodied cognition. What counts as an explanation of experience? How could conscious beings evolve? What is the relationship between perception and cognition? Topics vary from year to year. This course may not be taken as pass/fail. Prerequisite: PSYC 032. Perception, PSYC 033. Cognitive Psychology or COGS 001. Introduction to Cognitive Science or permission of the instructor. Social sciences. 1 credit. Eligible for COGS.

PSYC 133. Metaphor and Mind Seminar
Metaphor and other forms of figurative language use are fundamental to human thought. Can studying metaphor help us understand the representation of meaning in the brain and the communication of meaning between minds? How do metaphors affect our conceptualization of the world and of each other? This seminar examines scientific theories of metaphor use and understanding from psycholinguistics, cognitive science, philosophy of language, and neuroscience. This course may not be taken as pass/fail. Prerequisite: PSYC 033. Cognitive Psychology, PSYC 034. Psychology of Language or COGS 001. Introduction to Cognitive Science or permission of the instructor. Social sciences. 1 credit. Eligible for COGS. Fall 2020. Durgin.

PSYC 134. Seminar in Psycholinguistics (Cross-listed as LING 134)
An advanced study of special topics in the psychology of language. A research component is sometimes included. This course may not be taken as pass/fail. Prerequisite: PSYC 001 and PSYC 034. Psychology of Language or permission of the instructor. Social sciences. 1 credit. Eligible for COGS. Spring 2020. Grodner. Spring 2021. Grodner.

PSYC 135. Seminar in Social Psychology
The seminar will provide an opportunity for critical exploration of contemporary topics in social psychology, including findings from cross-cultural and social neuroscience research. Various perspectives and methods for investigating how human mind and social behavior interact with situational and environmental factors are considered. Real world implications and applications are also discussed.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001 and PSYC 035. Social Psychology or permission of the instructor. PSYC 025. Research Design and Analysis is strongly preferred.
Social sciences.
1 credit.
Fall 2019. Ward.

**PSYC 138A. Seminar in Clinical Psychology: The Role of Context**
This course examines the role of context in both the development and treatment of psychopathology. We consider questions regarding the interplay of biology, development, and social/cultural context as we seek to understand the genesis of different psychological disorders, and the forces that maintain, exacerbate, and ameliorate them. Within this framework, we examine how the subjective experience of illness and of therapeutic relationship affect treatment outcome, how an ecological perspective has informed empirically supported and alternative treatments for a wide variety of psychological disorders, and several current controversies in theory and practice of clinical psychology.
Students may only use one clinical seminar, either PSYC 138A or PSYC 138B as an honors preparation.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001 and PSYC 038 or permission of the instructor.
Social Sciences.
1 credit.

**PSYC 138B. Seminar in Clinical Psychology: Anxiety Disorders**
This course provides an in-depth look at anxiety disorders, including phobias, panic disorder, agoraphobia, GAD, social anxiety disorder, OCD, and PTSD. We will explore the etiology, psychopathology, and treatment of each disorder, as well as current controversies and future directions. We will give attention to different theoretical orientations and methods of investigation; however, we will primarily emphasize empirically supported approaches. That is, we will explore what research tells us about anxiety.
Students may only use one clinical seminar, either PSYC 138A or PSYC 138B as an honors preparation.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001 and PSYC 038 or permission of the instructor.
Social Sciences.
1 credit.
Spring 2021. Siev.

**PSYC 139. Seminar in Developmental Psychology: Language Learning and Development.**
(Cross-listed as LING 139)
An advanced study of special topics in development: language and concept acquisition. We discuss findings from newborn infants, cross-cultural, and atypical population research relevant to the issues of language acquisition and conceptual development.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001 and PSYC 039. Developmental Psychology or PSYC 034. Psychology of Language or permission of the instructor.
Social sciences.
1 credit.

**PSYC 180. Honors Thesis**
An honors thesis, a yearlong empirical research project, fulfills the senior comprehensive requirement in psychology as part of an honors major in psychology. It must be supervised by a member of the department and must be taken as a two-semester sequence for 1 credit each semester. Students should develop a general plan in consultation with an advisor by the end of the junior year. When possible, students are encouraged to begin work on their thesis during the summer before their senior year.
This course may not be taken as pass/fail.
Prerequisite: PSYC 001; PSYC 025. Research Design and Analysis and permission of a research supervisor.
Social sciences.
Writing course.
1 credit each semester.

Fall 2020. Staff.
Spring 2021. Staff.
The Religion Department plays a central role in the Swarthmore academic program. One attraction of the study of religion is the cross-cultural nature of its subject matter. The discipline addresses the complex interplay of culture, history, text, morality, performance, and personal experience. Religion is expressed in numerous ways: ritual and symbol, myth and legend, story and poetry, scripture and theology, festival and ceremony, art and music, moral codes and social values. The department seeks to develop ways of understanding these phenomena in terms of their historical and cultural particularity and in reference to their common patterns.

 Courses offered on a regular cycle in the department present the development of Judaism, Islam, Buddhism, Hinduism, Afro-Caribbean religions, and Christianity as well as the development of religion and religions in the regional areas of the Indian Sub-Continent (Hindu, Jain, Buddhist, Muslim, Sikh), Sri Lanka and Southeast Asia (Buddhism, Hinduism, and Islam), China (Taoist, Confucian, spirit cults), Japan (Buddhist and Shinto), Africa (Fon, Yoruba, Dahomey, and Kongo), the Middle East (Christian, Islamic, Jewish, Gnostic, Mandeian), Jewish, Christian, and Islamic Europe and the Americas (from New World African traditions, Vodou and Candomblé, to Neo Paganism and Civil Religion in North America). Breadth in subject matter is complemented by strong methodological diversity; questions raised include those of historical, theological, philosophical, literary, feminist, sociological, and anthropological interests. This multifaceted focus makes religious studies an ideal liberal arts major.

 The curriculum in the Religion Department is strongly comparative, thematic, and interdisciplinary, so it is relatively easy for students to propose programs that are cross-cultural and trans-disciplinary in scope. Religion majors are encouraged to include study abroad in their programs, planned in collaboration with the department. Often a student’s independent study project done while studying abroad is expanded into a one or two-credit honors or course thesis upon return to Swarthmore.

## Course Major and Minor Requirements

General major requirements are 8 credits in religion, including the Senior Symposium (Religion Café). In addition to completing (at least) eight religion credits, students who major in religion are free to take a variety of courses of their own choice, in consultation with the department and their departmental advisor; however, students are required to take one introductory course.

### Introductory courses include:
- RELG 003. The Bible: In the Beginning.
- RELG 004. Radical Jesus
- RELG 005. World Religions
- RELG 008. Patterns of Asian Religions
- RELG 006C. First Year Seminar: Apocalypse: Hope and Despair in the Last Days
- RELG 011. First-Year Seminar: Religion and the Meaning of Life
Religion

- RELG 019. First-Year Seminar: Religion and Food
- and all writing (W) courses

Majors are also required to enroll in the Senior Symposium: Religion Café, in the fall of the student’s senior year. Successful completion of the Religion Café will be the culminating requirement for the course major. For all religion majors the Religion Café will be a one-credit seminar style course and will include a term essay assignment. Religion minors will complete (at least) five religion credits, and are not required, but are strongly recommended to enroll in the Senior Symposium: Religion Café.

Students may choose to write a thesis. Those seniors who desire to complete a one-credit thesis or a two-credit thesis as part of the major will need to obtain permission from a faculty advisor in consultation with the department. For majors, this exercise will not substitute for the Senior Symposium.

With department approval, up to three courses cross-listed but not housed within the Religion Department may count toward the major. Only one such cross-listed course will count toward the minor. Up to two non-Swarthmore courses (i.e., courses taken abroad or domestically) may count toward the major; only one such course is permissible for the minor.

Admission to the Major
The Religion Department considers two areas when evaluating applications: overall GPA and quality of prior work in religion courses. Applicants are sometimes deferred for a term so the department can better evaluate an application for the major (generally it is expected that students will have taken two courses in religion before being accepted into the major/minor). A student’s demonstrated ability to do at least B/B- work in religion is required for admission to the major in course.

Honors Major and Minor
Requirements
All honors majors and minors fulfill requirements for the Course Program. Beyond this step, the normal method of preparation for the honors major will be done through three seminars, although with the consent of the department, a single 2-credit thesis, a 1-credit thesis/course combination, or a combination of two courses (including attachments and study abroad options) can count for one honors preparation. In general, only one such preparation can consist of non-seminar-based studies.

In the religion major, the mode of assessing a student’s three 2-credit preparations in religion (seminars or course combinations, but not 2-credit theses) will be a three-hour written examination set by an external examiner. In addition, with the exception of a thesis preparation, a student will submit to each external examiner a Senior Honors Study paper. Senior Honors Study papers will be between 2500 and 4000 words and will normally be a revision of the final seminar paper or, in the event of a non-seminar mode of preparation, a revised course paper. A final oral examination by the examiner follows the written exam. 2-credit theses will be read and orally examined by an external examiner (with no extra Senior Honors Study requirement).

In the minor, the mode of assessing a student’s one 2-credit preparation in religion will also be a three-hour written examination (and the oral) set by an external examiner, along with a Senior Honors Study paper.

Seminars and the written and oral external examinations are the hallmarks of honors. Seminars are a collaborative and cooperative venture among students and faculty members designed to promote self-directed learning. The teaching faculty evaluates seminar performance based on the quality of seminar papers, comments during seminar discussions, and when required, a final paper. Since the seminar depends on the active participation of all its members, the department expects students to live up to the standards of honors. These standards include: attendance at every seminar session, timely submission of seminar papers, reading of seminar papers before the seminar, completion of the assigned readings prior to the seminar, active engagement in seminar discussions, and respect for the opinions of the members of the seminar. Students earn double-credit for seminars and should expect twice the work normally done in a course. The oral examination, both written and oral, is the capstone of the honors experience.

Admission to the Honors Program
Because of the nature of different instructional formats (e.g., seminars) and of the culminating exercise in the Honors Program, the department expects applicants to this program to have at least a B+/B average in religion courses as well as an overall average above the College graduation requirement for admission to the Honors Program.

Application Process for the Major or the Minor
Sophomore applicants: for instructions and forms, please visit the "Sophomore Plan of Study" page under "Academic Advising & Support" on the Dean’s Office website.

Junior and senior applicants: please visit the Registrar’s Office website for the "Change/Add a Major or Minor" form.

Please note:
All applications to the religion major or minor should include a one to two paragraph statement that details the applicant’s reason for applying to
Religion

the department (we encourage curricular breadth and diversity of courses).
All religion majors must take RELG 095 Religion Café: Senior Symposium in the fall of senior year.

Transfer Credit
For policy regarding domestic study or any summer study see the Registrar's Office and website: Policies, "Transfer Credit Policy - Credit for Work Done Elsewhere."

Off-Campus Study
In many cases, credit may be earned in the Religion Department for study abroad or at other institutions in this country. Typically, the Religion Department will approve a maximum of 2 religion credits for off-campus study. For international study during the academic year, see the Off-Campus Study Office and website. In addition, students who are seeking credit for study to be completed at other institutions should consult with the Religion Department off-campus study representative prior to enrolling in courses. In order to seek credit for any work completed while away from Swarthmore the general policy is that students must have the Registrar’s or Off-Campus Study Office’s approval form signed by the Religion Department representative prior to undertaking the course or courses.

Further Notes about International Off-Campus Study:

1. Prior to the international study opportunity, speak with the Faculty Advisor for Off-Campus Study, or with Rosa Bernard, Assistant Director for Off-Campus Study, in the Off-Campus Study office. Carefully review all material received from the Off-Campus Study Office.
2. Complete the "Application for Pre-Estimation of Study Abroad Credit." This will include getting signatures from representatives in departments from which you will be requesting credit.
3. While away, contact the Religion Department if any changes are made to the preapproved schedule.
4. During your study away from Swarthmore, keep all relevant course material including syllabi, class notes, papers, and examinations, etc.
5. At the beginning of the semester after your return, meet with an Off-Campus Study Office staff member to organize your materials for evaluation for credit.
6. Complete the "Record of Departmental Materials Submission" (available at the Off-Campus Study Office). At the time you submit all supporting documents (e.g., syllabi, papers, examinations, class notes, etc.) to the Religion Department, have this form signed by the Religion Department representative who oversees transfer credit requests in religion.
7. The Religion Department will then consider credit award and will send the student, the Registrar, and the Off-Campus Study Office its decision. At this time, you may pick up your supporting materials in the Religion Department Office.

Religion Courses

RELG 001. Introduction to Religion
This course introduces the nature of religious worldviews, their cultural manifestations, and their influence on personal and social self-understanding and action. The course explores various themes and structures seminal to the nature of religion and its study: sacred scripture, visions of ultimate reality and their various manifestations, religious experience and its expression in systems of thought, and ritual behavior and moral action. Members of the department will lecture and lead weekly discussion sections.

Humanities.
Writing course.
1 credit.

RELG 002. Religion in America
This course is an introduction to religion in the United States, beginning with Native American religions and European-Indian contact in the colonial era, and moving forward in time to present-day movements and ideas. The course will explore a variety of themes in American religious history, such as slavery and religion, politics and religion, evangelicalism, Judaism and Islam in the United States, "cults" and alternative spiritualities, New Age religions, popular traditions, and religion and film, with an emphasis on the impact of gender, race, and national culture on American spiritual life.

Humanities.
1 credit.

RELG 003. The Bible: In the Beginning
The Bible has exerted more cultural influence on the West than any other single document; whether we know it or not, it impacts our lives. This class critically examines the Hebrew Bible (Old Testament)–from its Ancient Near Eastern context to its continued use today. We explore a variety of scholarly approaches to the Bible–historical, literary, postmodern—as we read the Bible both with the tools of source-criticism and as cultural critics. Particular focus will be placed on constructions of God, gender, nature, and the "other" in biblical writings as well as themes of collective identity, violence, and power.

Humanities.
1 credit.
**Religion**

Eligible for GSST
Fall 2019. Kessler.

RELG 003A. Hebrew Bible and its Modern Interpreters
When was the last time you read the most important text in the West? The Hebrew Bible isn't what it used to be. In the modern period, the scientific study of the Bible opened up new ways of thinking about sacred texts. This is an introduction to the Hebrew Bible as a literary, historical, political, and religious document. We will explore the use and abuse of the Hebrew Bible by Jews and Christians, paying attention to its role in contemporary culture, politics, and ethics. Reading select books of the Bible, we will emphasize issues of gender and race, revolution and Zionism, genocide and slavery, good and evil. Humanities.
1 credit.

RELG 003B. Varieties of Religious Experience in African Diaspora
This course explores varieties of Black Diaspora religion through the lens of religious experience -- or all those ways that Black ritual foregrounds sensible encounters with Spirit as an aim of worship. Through reading discussions, lectures, multimedia sources, and social media platform assignments, students will discover aspects of Black Spirit ritual through the domains of the five physical senses: touch, taste, sight, smell, sound; choreography, kinaesthetics and embodied movement; and the Diasporic "sixth senses" of dreams, visions, divination, revelation, spirit possession, trance, and ecstasy. Humanities.
1 credit.
Eligible for BLST
Fall 2019. Padilioni.

RELG 004. Radical Jesus
(Cross-listed as CLST 004)
This class is a discussion-intensive, student-led exercise in the critical study of Jesus that centers on analytical reading and writing; contemplative practice; and community action. Beginning with the joyous and terrifying Gospel of Mark and the recently discovered Gospel of Judas, and continuing with the rise of Constantine, Martin Luther’s Ninety-Five Theses, and Dostoevsky’s "The Grand Inquisitor," this class theologically analyzes Jesus today as the mystic-prophet revolutionary who, alternately, is "the first and last Christian" (Friedrich Nietzsche), "the preacher of Christian atheism" (Dietrich Bonhoeffer), "the face of divine affliction" (Simone Weil), "my great brother" (Martin Buber), "the advocate for the disinherit" (Howard Thurman), "the God within each of us" (Thich Nhat Hanh), "the prophet of simplicity" (Shane Claiborne), and "the liberating Corn Mother" (George Tinker). Humanities.
Writing course.
1 credit.
Eligible for CBL, CLST, INTP
Fall 2020. Wallace.

RELG 004B. Biblical Interpretation
A famous rabbinic statement proclaims, "If you wish to know The-One-Who-Spoke-and-the-World-Came-Into-Being, learn aggadah" (Sifre Deuteronomy 11:22). This course further proclaims, if you wish to know Judaism, study Jewish interpretation. The process of Jewish interpretation, begun in the Hebrew Bible and continuing to the present day, offers great insight not only into the ways Jewish tradition, literature, and culture have come into being, but also how these facets of Judaism, and Judaism writ large, adapt and develop over time. This class begins with Jewish interpretations during the 2nd Temple Period, proceeds to examine in some depth classical rabbinic exegesis, moves on to explore some "off the beaten track" medieval sources, and culminates in contemporary meditations (and movies) about Judaism. We pay attention to both the continuities and disjunctions of Jewish writings and representations over time as we explore what the boundaries are-if indeed there are any-of both Jewish interpretation and Judaism. Humanities.
1 credit.

RELG 005. World Religions
Wars are fought; walls go up; hope marches on. Religion plays a crucial role in culture, politics, global events, and in the lives of contemporary peoples world-wide. This class, by examining what religion is and how it manifests itself in multiple ways around the world and in the United States, provides students with religious literacy and analytic skills to better engage as citizens of the world in the 21st century. This course introduces students to both the academic study of religion and to religions as practiced around the world. We will explore textual traditions and lived practices of religions-and investigate the relationships between such texts and practices-in numerous historical and cultural contexts. Topics covered include: definitions and meanings of the term "religion;" understandings and expressions of the sacred; the relationship between violence and religion. We will examine the myths and rituals, the beliefs and practices, institutions, and expression of global religious traditions. Humanities.
1 credit.

RELG 006. Abrahamic Religion/s: Violence and Monotheism
This course introduces students to the academic study of Judaism, Christianity, and Islam through the figure of Abraham. How have these religions understood Abraham in competing and overlapping ways? In what ways have their respective portrayals of Abraham fostered both unity and discord, peaceful coexistence and
religion, religious wars, that persist throughout history and up to current geo-political, religious landscapes (e.g. Hevron/Hebron/al-Khalil)? Broader themes this course addresses through the figure of Abraham are the roles of violence in religion, and gendered and racialized violence and monotheism. Finally, we critically examine the use of the discourse of "Abrahamic Faith/s" in Religious Studies and Inter-religious dialogue.

Humansities.
1 credit.
Eligible for PEAC, GSST
Fall 2019. Kessler.

RELG 006B. The Talmud
(Cross-listed as CLST 006B)
This course introduces students to the academic study of the Babylonian Talmud (Bavli)-and through it, the academic study of Judaism. Through close, critical, and engaged readings of both brief selections and more lengthy passages, the course not only explores the vast seas of the Bavli but also considers the Bavli’s foundational place within Judaism and its importance to Jewish tradition. We begin by reading selections of the Talmud that both seek to situate the material in its immediate historical-literary contexts and to explore current points of relevance. We proceed to a close reading of one sugya (passage) and then spread out to examine some specific topics, focusing on rabbinic constructions of gender and rabbinic theology. The close readings of texts are supplemented by contemporary scholarship on the Talmud and the rabbis of antiquity. Finally, we read two contemporary mediations on Judaism that use the Talmud as their "anchor," their point of reference.

RELG 006C. First Year Seminar: Apocalypse: Hope and Despair in the Last Days
(Cross-listed as ENVS 006)
For millennia, speculation about the end of the world has fired the imaginations of Western cultures. Today, environmentalists argue we are in the time of the "Sixth Great Extinction," while religious communities assert we are living into the end of the world based on ancient prophecies. This course will ask how two seemingly unrelated modes of discourse-environmental science and religious studies-converge to shape productive responses to the world’s end; and the power, and the anxieties of environmental spiritualities (with special reference to Buddhist, Neopagan, Christian and Indigenous worldviews) to give birth to hope and resilience in the face of the coming storm.

RELG 007B. When the Saints Go Marching In! Festivals and Parades of Latin America
From saint feast day processions and pilgrimages for Black Christ statues to Carnaval, Crop Over, and other Caribbean harvest festivals, religious holidays in Latin America are occasions for celebration. This course focuses on religious festivals and ritual bodies to reveal the ways these performances form mobile archives of history that yet testify both to the accumulated forces of colonialism, slavery, and capitalism that shaped this region, as well as the power of choreography and other embodied movement as instruments and devices of popular insurgency. Course materials include primary and secondary readings, multimedia sources such as ethnographic videos and audio recordings, material and sartorial culture objects, and in-class lectures and discussions. Potential field trip to Philadelphia’s El Carnaval de Puebla.

RELG 008. Patterns of Asian Religions
A thematic introduction to the study of religion through an examination of selected texts, teachings, and practices of the religious traditions of South and East Asia structured as patterns of religious life. Materials are drawn from the Buddhist traditions of India, Tibet, China, and Japan; the Hindu and Jain traditions of India; the Confucian and Taoist traditions of China; and the Shinto tradition of Japan. Themes include deities, the body, ritual, cosmology, sacred space, religious specialists, and death and the afterlife.

RELG 008B. The Qur’an and Its Interpreters
This is course will include detailed reading of the Qur’an in English translation. The first part of the course will be devoted to the history of the Qur’an and its importance to Muslim devotional life. The first portion of the course will include: discussion of the history of the compilation of the text, the methods used to preserve it, styles of Qur’anic recitation, and the principles of Qur’anic abrogation. Thereafter, attention will be devoted to a theme or issue arising from Qur’anic interpretation. Students will be exposed to the various sub-genres of Qur’anic exegesis including historical, legal, grammatical, theological and modernist approaches.

RELG 009. The Buddhist Traditions of Asia
This course explores the unity and variety of Buddhist traditions within their historical developments in South, Central, and East Asia, by way of the study of its texts. The course will be organized chronologically and geographically, and to a lesser extent thematically, focusing on the formations of early Indian Buddhism (the Nikaya traditions in Pāli and Sanskrit), theravada in Sri Lanka and Thailand, Mahayana Ch’an/Zen traditions in China and Japan, and Vajrayana (tantra) traditions in Tibet. Themes include narratives of the Buddha and the consecration of Buddha images; gender, power, and religious authority, meditation, liberation, and devotional vision; love, memory, attachment and Buddhist devotion; the body, and the social construction of emotions and asceticism.

RELG 010. African American Religions
What makes African American religion "African" and "American"? Using texts, films, and music, we will examine the sacred institutions of Americans of African descent. Major themes will include Africanisms in American religion, slavery and religion, gospel music, African American women and religion, black and womanist theology, the civil rights movement, and Islam and urban religions. Field trips include visits to Father Divine’s Peace Mission and the first independent black church in the United States, Mother Bethel A.M.E. Church.

RELG 011B. The Religion of Islam: The Islamic Humanities
This course is a comprehensive introduction to Islamic doctrines, practices, and religious institutions in a variety of geographic settings from the rise of Islam in the seventh century to the present. Translated source materials from the Qur’an, sayings of Muhammad, legal texts, and mystical works will provide an overview of the literary expressions of the religion. Among the topics to be covered are: the Qur’an as scripture and as liturgy; conversion and the spread of Islam; Muhammad in history and in the popular imagination; concepts of the feminine; Muslim women; sectarian developments; transmission of religious knowledge and spiritual power; Sufism and the historical elaboration of mystical communities; modern reaffirmation of Islamic identity; and Islam in the American environment.

RELG 012. The History, Religion, and Culture of India I: From the Indus Valley to the Hindu Saints
A study of the religious history of India from the ancient Indo-Aryan civilization of the north to the establishment of Islam under Moghul rule. Topics include the ritual system of the Vedas, the philosophy of the Upanishads, the rise of Buddhist and Jain communities, and the development of classical Hindu society. Focal themes are hierarchy, caste and class, purity and pollution, gender, untouchability, world renunciation, and the construction of a religiously defined social order.

RELG 012B. Hindu Traditions of India: Power, Love, and Knowledge
This course is an introduction to the religious and cultural history of Hindu traditions of India from the prehistoric Indus Valley in the northwest to the medieval period in the southeast, and major points and periods in between, with a look also at formative points of the early modern period. Our focus will be on the interactions between Vedic, Buddhist, brahmanical, popular/ritual, and Jain religious traditions in the development, and formation of Hindu religious streams, along with major ritual and ascetic practices, hagiographies, and myths, hymns and poetry, and art and images associated with Hindu identities and sectarian formations, pre-modern and modern. In addition to providing students with a grasp of the basic doctrines, practices, and beings (human, superhuman, and divine) associated with various Hindu traditions, the course also seeks to equip them with the ability to analyze primary and
Religion

secondary sources.

RELG 013. The History, Religion, and Culture of India II: Muslim, Hindu, Sikh, and Dalit in North India
After a survey of premodern Hindu traditions, the course tracks the sources of Indo-Muslim culture in North India, including the development of Sufi mysticism; Sindhi, Urdu, and Tamil poetry in honor of the Prophet Muhammad; syncretism under Mughal emperor Akbar; and the consolidation of orthodoxy with Armad Sirhindi and his school in the 16th to 17th century. We then trace the rise of the Sikh tradition in the milieu of the Mughals, northern Hindu Sants and mendicant Sufis, popular goddess worship and village piety, focusing on several issues of religious experience. We then turn to the colonial and post-colonial period through the lenses of the Hindu saints, artists, and reformers (the "nationalist elite") of the Bengali Renaissance, and the political and religious thought of Mohandas Gandhi and Dalit reformer Ambedkar. We will use perspectives of various theorists and social historians, from Ashis Nandy, Partha Chatterjee, Peter van der Veer, to Veena Das and Gail Omvedt.

1 credit.
Eligible for ASIA ISLM

RELG 015. First-Year Seminar: Religion and Literature: Blood and Spirit
A seminar-style introduction to study the relation of religious ideas to visionary literature, including novels, stories, sacred texts, and films. A variety of critical theories are deployed to underand (or construct) the meaning of different imaginative variations on reality. Academic and creative writers include many or all of the following: Sophocles, Augustine, Joyce, Morrison, O'Connor, Updike, Dostoevsky, Crace, Lewis, Weil, Scorsese, Kazantzakis, Snyder, Abbey, and Camus.

Humanities.
1 credit.

RELG 015B. Philosophy of Religion (Cross-listed as PHIL 016)
Searching for wisdom about the meaning of life? Curious as to whether there is a God? Questioning the nature of truth and falsehood? Right and wrong? You might think of philosophy of religion as your guide to the universe. This course considers Anglo-American and Continental philosophical approaches to religious thought using different disciplinary perspectives; it is a selective overview of the history of philosophy with special attention to the religious dimensions of many contemporary thinkers' intellectual projects. Topics include rationality and belief, proofs for existence of God, the problem of evil, moral philosophy, biblical hermeneutics, feminist revisionism, postmodernism, and interreligious dialogue. Thinkers include, among others, Anselm, Kierkegaard, Dostoevsky, Nietzsche, Kant, Wittgenstein, Derrida, Levinas, Weil, and Abe.

1 credit.
Eligible for CBL, INTP
Spring 2020. Staff.

RELG 016. First-Year Seminar: Spiritual Journeys: Into the Wild
What does it mean to take religion "on the road"? How does one "pray with one's feet"? Where is the sacred to be found-on the journey itself or at the place of destination-or both? What is the sacred anyway? Spiritual journeys-pilgrimages to places old and new-are on the rise in contemporary society. By reading a number of accounts of personal spiritual journeys we will travel the landscape of contemporary religious America-with its vibrancy and variety-and consider our own journeys (spiritual or otherwise) along the way.

Humanities.
1 credit.

RELG 017. Animal Religion
This course examines the multiple, sometimes dissonant, connections between animals and religion. Do animals have religion? Why have some religions venerated animals as divine beings while others claim to be against such "strange worship"? What are the religious ethics of sacrificing-or eating-animals? How does grappling with questions about personhood, the soul, and emotions help us better understand the relationship between animality and humanity? By critically examining the range of connections between animals and religion, this class introduces students to far larger questions about what it means to be human and what differentiates-yet binds together-human and non-human animals.

Humanities.
1 credit.
REL 018. Global Christianities
This course explores Christian beliefs and practices in a global context. We consider Christian worldviews, their cultural expressions, history, and influence upon personal and social self-understanding and action. Examples will be drawn from Christian communities in Asia, Africa, Europe, Latin America, and the United States. Themes include images of the sacred and of Jesus and Mary, mother of Jesus; pilgrimage and festivals; saints; gender; power; and religious authority; politics, conflict, and social transformation; and healing traditions. Humanities. 1 credit.

REL 018B. Modern Jewish Thought
Is modern reason compatible with biblical revelation? Beginning with the heretic Spinoza, we’ll examine the giants of Jewish thought—religious reformers, philosophers, and theologians wrestling with the challenge of modernity, politics, and multiculturalism. Topics will include: the essence of Judaism, the nature of law, religion and state, God and evil, the status of women and non-Jews, the legacy of the Holocaust. Readings from: Martin Buber, Abraham Joshua Heschel, Judith Plaskow, Emmanuel Levinas, and others. Humanities. 1 credit.

REL 019. First-Year Seminar: Religion and Food
Why do some people eat the body of their deity? Are pigs clean or unclean? Are mushrooms sacred beings? What is Soul food? Which is better, to feast or to fast? All of these questions are tied together by a common theme: they frame the relationship between food and the religious experiences of human beings. RELG 19 is an introduction to the Humanities via the academic study of global religions. The course centers around food as a point of entry to examine Christianity, Islam, Native American, Judaism, African, and Eastern traditions. We will discuss topics such as sacrifice, diet, fasting and spirituality, sacred vegetarian practices, and edible plants/spirits with class projects that include preparing and serving relevant food items and creating food-related forms. Field research trips and activities are included. This is a Speaking Associates Program (SPA) course. Humanities. 1 credit.

REL 020. Christian Mysticism
This course considers topics in the history of Christian mysticism. Themes include mysticism as a way of life, relationships between mystics and religious communities, physical manifestations and spiritual experiences, varieties of mystical union, and the diverse images for naming the relationship between humanity and the Divine. Readings that explore the meaning, sources, and practices of Christian mystical traditions may include Marguerite Porete, Francis of Assisi, Julian of Norwich, Simone Weil, Thomas Merton, and Dorothee Soelle. Humanities. 1 credit. Eligible for MDST

REL 021. Prison Letters: Religion and Transformation
Focusing on themes of religion and transformation and prison as a literal and metaphorical space, this course explores themes of life and death, oppression and freedom, isolation and community, agency, and identity. Drawing primarily on Christian sources, readings move from the New Testament through Martin Luther King, Jr., to the contemporary U.S. context where more than 2 million people are incarcerated today. Humanities. 1 credit.

REL 022. Religion and Ecology (Cross-listed as ENVS 040)
This course focuses on how different religious traditions have shaped human beings’ fundamental outlook on the environment in ancient and modern times. In turn, it examines how various religious worldviews can aid the development of an earth-centered philosophy of life. Thesis of this course is that the environment crisis, at its core, is a spiritual crisis because it is human beings’ deep ecocidal dispositions toward nature that are the cause of the earth’s continued degradation. Course topics include ecological thought in Western philosophy, theology, and biblical studies; the role of Asian religious thought in forging an ecological worldview; the value of American nature writings for environmental awareness, including both Euro-American and Amerindian literatures; the public policy debates concerning vegetarianism and the antitoxics movement; and the contemporary relevance of ecofeminism, deep ecology, Neopaganism, and wilderness activism. In addition to writing assignments, there will be occasional contemplative practicums, journaling exercises, and a community-based learning component. Humanities. 1 credit. Eligible for CBL, ENVS, PEAC, GLBL-Core

REL 023. Quakers Past and Present
This course explores the religious beliefs, social teachings, and impact of Quakers in North America from the 1650s to the present. Topics include Quaker beliefs about God and the light within; Quakers and social reform including anti-slavery work, women’s rights advocacy, Indian rights, and peace work; Quakers and education;
Quakers and nature; and Quakers and social change today (including the work of Earth Quaker Action Team [EQAT] and the American Friends Service Committee). While focusing on Quakers and social transformation, this course includes discussion of specific concerns and methods in the study of religion. Students will have the opportunity to work with the resources of Swarthmore College’s Friends Historical Library and Peace Collection.

Humanities.
1 credit.
Eligible for PEAC
Fall 2020. Ross.

**RELG 024. From Vodun to Voodoo: African Religions in the Old and New Worlds**
Is there a kindred spirituality expressed within the ceremonies, beliefs, music and movement of African religions? This course explores the dynamics of African religions throughout the diaspora and the Atlantic world. Using text, art, film, and music, we will look at the interaction of society and religion in the black world, beginning with traditional religions in west and central Africa, examining the impact of slavery and migration, and the dispersal of African religions throughout the Western Hemisphere. The course will focus on the varieties of religious experiences in Africa and their transformations in the Caribbean, Brazil and North America in the religions of Candomblé, Santeria, Conjure, and other New World traditions. At the end of the term, in consultation with the professor, students will create a web-based project in lieu of a final paper.

Humanities.

Eligible for BLST
Fall 2020. Chireau.

**RELG 025. Black Women, Spirituality, Religion**
This course is an exploration of the spiritual lives of African American women. We will hear black women’s voices in history and in literature, in film, in performance and music, and within diverse periods and contexts, and reflect upon the multidimensionality of religious experience in African American women’s lives. We will also examine the ways that religion has served to empower black women in their personal and collective attempts at the realization of a sacred self. Topics include: African women’s religious worlds; women in the black diaspora; African American women in Islam, Christianity, and New World traditions; womanist and feminist thought; and sexuality and spirituality. Readings include works by: Alice Walker; Audre Lorde; bell hooks; Zora Neale Hurston; Patricia Williams, and others.

Humanities.
1 credit.
Eligible for BLST, GSST

**RELG 029. Is God a White Supremacist?**
This course will focus on representations of race in religious discourses and social practice. Particular attention will be given to discussion of the interpretive practices that are foundational to the process of "whiteness-making" and the construction of white identity. With primary source readings and secondary literature ranging from the biblical interpretation of white supremacist "Christian identity" churches to the articulation of the Yakub theory of racial formation in the Nation of Islam, the course readings will: address religious theories justifying racial domination, engage in critical examination of the influence of religious thought both past and present on comparative global racisms, and transnational whiteness. Themes will include: evil and the nature of suffering, human/anti-human binaries, death and being, and perceptions of the racialized transcendent Other in the social, political, and symbolic order.

Humanities.
1 credit.
Eligible for ISLM, BLST

**RELG 030. The Power of Images: Icons and Iconoclasts**
This course is a cross-cultural, comparative study of the use and critique of sacred images in biblical Judaism; Eastern Christianity; and the Hindu, Buddhist, and Jain traditions of India. Students will explore differing attitudes toward the physical embodiment of divinity, including issues of divine "presence" and "absence"; icons, aniconism, and "idolatry"; and distinctions drawn in some traditions between different types of images and different devotional attitudes toward sacred images, from Yahweh’s back and bleeding icons to Jain worship of "absent" saints.

Humanities.
1 credit.
Eligible for ASIA, MDST

**RELG 031. Healing Praxis and Social Justice**
Social justice rhetoric and activism are often framed around themes of a fight or a struggle -- however noble -- against the forces and powers of oppression. This course takes a different tack and approaches social justice via perspectives of healing, wellness, and critical care practices. This course places an emphasis upon praxis, and as such will center healing and social justice practitioners and their methodologies as our primary curricular materials (via in-class visits and their social media footprints) to accompany more traditional classroom readings and multimedia assignments. What happens to our notions of social justice if we view current-day global oppression chiefly as a problem of *colonial disease* -- a restless sickness wracking the social and political body, the encrusted layers of generational trauma and violence catalyzed by the...

Eligible for PEAC

RELG 032. Queering God: Feminist and Queer Theology

The God of the Bible and later Jewish and Christian literature is distinctively masculine, definitely male. Or is He? If we can point out places in traditional writings where God is nurturing, forgiving, and loving, does that mean that God is feminine, or female? This course examines feminist and queer writings about God, explores the tensions between feminist and queer theology, and seeks to stretch the limits of gendering-and sexing-the divine. Key themes include: gender; embodiment; masculinity; liberation; sexuality; feminist and queer theory.

Humanities.

1 credit.

Eligible for GSST, INTP

RELG 033. Queering the Bible

This course surveys queer and trans* readings of biblical texts. It introduces students to the complexity of constructions of sex, gender, and identity in one of the most influential literary works produced in ancient times. By reading the Bible with the methods of queer and trans* theoretical approaches, this class destabilizes long held assumptions about what the bible--and religion--says about gender and sexuality.

Humanities

1 credit.

Eligible for GSST

RELG 034. Partitions: Religions, Politics, and Gender in South Asia Through the Novel

The course will focus on a close reading of modern and contemporary South Asian novels and short stories structured around theme of "partition(s)," not only the historical events of the partition of Bengal in 1905, India’s Partition in 1947, or the Independence of "Ceylon" and the rise of Buddhist Nationalism and the "Sinhala only" movements, but the long shadows of these events right up to the present. We will focus on many "figures of partition," personal, religious, and political, in Bengali, Malayalam, Tamil, Sinhala, Kannada, Urdu, and English prose literatures of India, Pakistan, and Sri Lanka. Themes will range from from religion and politics, gender/power; sexuality, love, family; caste, class, ethnicity, and race, in Hindu, Parsee, Sikh, Muslim, Christian, and Buddhist settings. Authors include Rabindranath Tagore, Khushwant Singh, Raja Rao, Bapsi Sidhwa, Rohinton Mistry, Anita Desai, Salman Rushdie, Lalitambika Antharjanam, Arundhati Roy, A. Sivanandan, Permal Murugan, and Michael Ondaatje.

Eligible for ASIA

RELG 035. Religion and Medical Ethics

This course will examine some of the major themes, methods, and topics of bioethics through the lens of religion, focusing primarily on the three Abrahamic religions: Judaism, Christianity, and Islam. We will then explore specific bioethical topics and cases, to include: abortion, assisted reproductive technology, end-of-life issues, organ donation and transplantation, research on human subjects, and justice in health care. In addition to the scholarly literature of the field of medical ethics, we will also read three longer texts that deal with many of the pertinent issues.

Humanities.

1 credit.

Eligible for ASIA

RELG 036. Christian Visions of Self and Nature

This course is a thematic introduction to Christianity. Beginning with early Christian writings and moving historically up through the contemporary period, we will explore a wide variety of ideas about God, self, and nature. Readings will focus on scientific and natural history treatises in dialogue with theological texts. We will explore the writings of Christian naturalists to study the linking of science and religion, and we will investigate a multiplicity of views about Christian understandings of the relationship between the human and non-human world. This class includes a community-based learning component: Students will participate in designing and teaching a mini-course on "Nature and Chester" to students in the nearby community of Chester. Readings include Aristotle (critical for understanding science in the later Middle Ages), Hildegard of Bingen, Roger Bacon, Galileo Galilei, Charles Darwin, Herman Melville, Ralph Waldo Emerson, John Muir, Graceanna Lewis, Thomas Berry, Nalini Nadkarni, and Terry Tempest Williams.

Humanities.

1 credit.

RELG 037. Sex, Gender, and the Bible

The first two chapters of the biblical book of Genesis offer two very different ancient accounts of the creation of humanity and the construction of gender. The rest of the book of Genesis offers a unique portrayal of family dynamics, drama and dysfunction, full of complex and compelling narratives where gender is constantly negotiated and renegotiated. In this class, we will engage in close readings of primary biblical sources and contemporary feminist and queer scholarship about these texts, as we explore what the first book
Religion

of the Bible says about God, gender, power, sexuality, and "family values."

Humanities.

1 credit.

Eligible for GSST, INTP, MDST

RELG 038. Religion and Film
An introductory course that uses popular film as a primary text/medium to explore fundamental questions in the academic study of religion. In particular, we will be concerned with the ways that religion and religious experience are constituted and defined on film as well as through film viewing. In discussing films from across a range of subjects and genres, we will engage in the work of mythical, theological and ideological criticism, while examining the nature, function, and value of religion and religious experience. We will also consider some of the most significant writers and traditions in the field of Religion and develop the analytical and interpretive skills of the discipline. Scheduled films include The Seventh Seal, The Matrix, Breaking the Waves, Contact, Jacob’s Ladder, The Passion of the Christ, The Rapture, The Apostle, as well as additional student selections. Weekly readings, writing assignments, and evening screening sessions are required.

Humanities.
Writing course.
1 credit.

RELG 040. Rape, Slavery, and Genocide in Bible and Culture
This course examines biblical "texts of terror." It explores the functions of violence in religious writings as well as their influence and impact on current cultural issues. What are the biblical contributions to or roots of current societal crises about gender, race, and war? What are the limits and limitations placed on rape, slavery, and genocide in the Bible that are obscured in current (mis)uses of biblical precedents in support of such modern day atrocities? Without collapsing the distinctions between or simply blaming the Bible for current manifestations of extreme violence, this class aims to bring these "texts of terror" into the open to help facilitate critical discussion about, and critique of, violence then and now.

Humanities.
1 credit.
Eligible for GSST

RELG 041B. Religion and Nature: Wonders Signs & Portents
Wonder is the province of the wide-eyed child in the woods, and the wild-eyed scientist in the lab. Wonder at the world is prompted by the odd and uncanny, the strange and novel, the transcendent and sublime, as well as encounters with the monstrous and horrific. This course centers the experience of natural wonder in American history as a primary religious impulse. Through an affect theory frame that approaches religion through embodied emotions, we will chronicle the formation of modern American religious communities and ways of knowing and doing that arose from encounters between indigenous Americans, European settlers, and enslaved Africans with the other-than-human spectacular. Topics covered include: diverse cosmologic perspectives on celestial events (eclipses, meteor storms); plant medicine (ethnobotany/ethnopharmacology), psychedelics, and entheogens; human-animal relations; levitation and trance reports, spectrality (hauntings, monsters, UFO sightings); the mysteries of quantum entanglement; the apocalyptic imagination and the Anthropocene

RELG 043B. Decolonizing Afro/Latin American Religion
Is scientific knowledge superior to ancestral wisdom or spirit revelation in its ability to apprehend and describe reality? This course interrogates the problem of coloniality as an imposition of power-knowledge that occurred as Iberians and their state-church institutions conquered indigenous Americans and enslaved indigenous Africans. We will free the subjugated knowledges of "Latin" America by encountering alternative narratives of history and sacred memory embedded within mythology and ritual. We will approach various streams of indigenous wisdom to discover philosophical-ethical outlooks on justice, reciprocity, and right living. Students will develop an account of how Euro-America’s scientific-rational knowledge has appropriated the ethnobotanical and other ecological perspectives of Africans and Native Americans contained within healing/wellness traditions.

Humanities.
1 credit.
Eligible for BLST

RELG 044. Reading Comics and Religion
This course focuses on how notions of Religion and the Sacred arise in comics and graphic novel texts. Drawing upon world religious traditions, the course will explore how comics use both text and image to frame spiritual identity, sacred practice, and religious experience. Using comics as primary sources, the class will engage the expression, imagination, and critical interpretation of religion through close readings of comics as texts, with analysis of their visual forms. Coursework
includes weekly lab meetings within a digital media maker’s space. The course will culminate with the production of student-created comics, which will be developed over the semester and supervised by an artist-in-residence. Humanities. 1 credit.

**RELG 045. Jah, Rastafari!**
Elements of Rasta culture -- reggae music, locking one’s hair, smoking ganja -- became iconic in global media over the 20th century. However, much mystery still shrouds the everyday *livity* of the Rastafari, or those practices that Rastas use to manage their daily *riddims*, that take their shape along a moral horizon that loathes oppression and frames the experience of Transatlantic slavery and capitalism as a Babylonian Captivity of biblical proportions, but that nevertheless holds open the possibility of community to outsiders through an ethos of *one love*, *good vibrations*, and *feelin’ irie*. Through primary and secondary readings, ethnographic videos and audio recordings (including music-immersive listening activities), material and sartorial culture objects, and in-class lectures and discussions, this course approaches the Rastafari as a mythic story of Jamaican experience told in a kaleidoscope of dimensions: tropes of Ethiopianism across the Diaspora, African antecedent traditions (myal, obeah, kumina, and burru), Jamaican Christianity, Anglican hymnology, and the Biblical typology of Israel, reggae as world music and political movement, the Black Radical Tradition that views freedom as marronage and fugitivity, and that manifests within Jamaican histories of slave uprisings like Tacky’s Rebellion or Marcus Garvey’s UNIA "Back to Africa" nationalism. Humanities. 1 credit. Spring 2021. Padilioni.

**RELG 046. The Bible in Popular Culture**
What do Bob Dylan, *Pulp Fiction*, and Superman have in common? This course will focus on the interpretation of the Bible in pop culture. We will explore the use of the Bible as inspiration and content in many genres of music, films, and visual arts. The arts have always looked to the Bible as a source for its plots, themes and symbols, both overtly and covertly. We will consider how the Bible is used and the effect it has on the interpretation of the Bible itself and the development of our popular culture. No previous knowledge of the Bible or pop culture required. Humanities. 1 credit.

**RELG 053. Gender, Sexuality, and the Body in Islamic Discourses**
An exploration of sexuality, gender roles, and notions of the body within the Islamic tradition from the formative period of Islam to the present. This course will examine the historical development of gendered and patriarchal readings of Islamic legal, historical, and scriptural texts. Particular attention will be given to both the premodern and modern strategies employed by women to subvert these exclusionary forms of interpretation and to ensure more egalitarian outcomes for themselves in the public sphere. Topics discussed include female piety, marriage and divorce, motherhood, polygamy, sex and desire, honor and shame, same-sex sexuality, and the role of women in the transmission of knowledge. Humanities. 1 credit. Eligible for GSST, ISLM, MDST Fall 2019. al-Jamil. Fall 2020. al-Jamil.

**RELG 054. Power and Authority in Modern Islam**
This course examines some of the salient issues of concern for Muslims thinkers during the modern period (defined for the purposes of this course as the colonial and post-colonial periods). Beginning with discussion of the impact of colonialism on Islamic discourses, the course moves on to address a number of recurrent themes that have characterized Muslim engagement with modernity. Readings and/or films will include religious, political, and literary works by Muslims in variety of cultural and linguistic settings. Topics to be discussed will include: nationalism and the rise of the modern nation-state, questions of religion and gender, the Israeli-Palestinian conflict, developments in Islam in the United States and Canada, and case studies of reformist and revivalist movements in the modern nation-states of Iran, Iraq, Afghanistan, Pakistan, and Saudi Arabia. Special attention will be paid to contemporary Muslim responses to feminist critiques, democracy, pluralism, religious violence, extremism, and authoritarianism. Humanities. 1 credit. Eligible for ISLM.

**RELG 067. Judaism and Nature**
"We are not obligated to complete the task; neither are we free to abstain from it." (Pirke Avot 2:21) The task before us is to examine the relationship(s) between Judaism and Nature. We are setting out to decide-or at least ponder-the following questions (though we will surely encounter more along the way): What does Jewish literature from the Garden of Eden to the present day say about the earth and humanity’s relationship with it? Because of the growing awareness about current ecological concerns and crises, Jewish tradition is being mined-or cultivated-for historical precedents that reflect ecologically sound models of Jewish living. How fruitful is this process? To what extent can
contemporary Jews rely on tradition to provide such models, and to what extent must Jews today find new ways of bringing humanity and nature together?

Humanities.
1 credit.

RELG 093. Directed Reading
1 credit.

RELG 095. Religion Café: Senior Symposium
What is Religion? How is Religion constructed as an academic discipline? Religion 095 is a weekly café for thoughtful reading and discussion of selected texts for senior majors and strongly recommended for minors. The Religion Café highlights approaches to Religious Studies with works that have influenced theoretical and philosophical assumptions and vocabularies in the field. Readings include case studies and multidisciplinary writings on Religion. The course will examine a number of approaches to Religious Studies including, but not limited to, those drawn from: post-structuralism, gender studies, critical race theory, queer theory, cognitive science, phenomenology, ethics, pragmatism, social history, and anthropology, with occasional works by Religion Department faculty members.

Seminars

RELG 100. Holy War, Martyrdom, and Suicide in Christianity, Judaism and Islam
An examination of the concepts of martyrdom, holy war, and suicide in Islam, Christianity, and Judaism. How are "just" war, suicide, martyrdom presented in the sacred texts of these three traditions? How are the different perspectives related to conceptions of death and the afterlife within each tradition? Historically, how have these three traditions idealized and/or valorized the martyr and/or the "just" warrior? In what ways have modern post-colonial political groups and nationalist movements appropriated martyrdom and holy war in our time?

Humanities.
2 credits.

Eligible for ISLM, MDST, PEAC

RELG 101. Jesus in History, Literature, and Theology
This seminar explores depictions of Jesus in narrative, history, theology, and popular culture. We consider Jesus as historical figure, trickster, mother, healer, suffering savior, visionary, embodiment of the Divine, lover, victorious warrior, political liberator, and prophet.

Humanities.
2 credits.
Eligible for MDST

RELG 102. Magic, Theory and Practice
Owen Davies defines Magic as "the everyday employment of Religion for reasons other than spiritual enlightenment or salvation." In this seminar we examine the history, theory, and meaning of Magic as a category of belief and practice. From the Greek-defined mageia, to Christian, Islamic, Buddhist and Jewish sources, to the rise of the "inner sciences," we will consider Magic in relation to Religion through modern and popular interpretations of Occult tradition. Topics include: the Hermetic Corpus, Alchemy, Chaos Magic, Folk Magic, and the Esoteric worldview. This class includes a lab section and digital humanities component.

Humanities.
2 credits.

RELG 108. Poets, Saints, and Storytellers: The Poetry and Poetics of Devotion in South Asian Religions
A study of the major forms of Hindu religious culture through the lenses of its varied regional and pan-regional literatures, with a focus on the literature of devotion (bhakti), including comparative readings from Buddhist and Islamic traditions of India. The course will focus on both primary texts in translation (religious poetry and prose narratives in epic and medieval Sanskrit, Tamil, Kannada, Bengali, Hindi, Pali, Sinhala, Sindhi, and Urdu) as well as pertinent secondary literature on the poetry and poetics of religious devotion. We will also pay close attention to specific literary forms, genres, and regional styles, as well as the performance (music and dance) and hagiographical traditions that frame the poems of Hindu saint-poets, Buddhist monks, and Muslim mystics. Along with a chronological and geographical focus, the seminar will be organized around major themes such as popular/vernacular and "elite" traditions; the performance and ritual contexts of religious poetry; the place of the body in religious emotion; love, karma, caste, and family identity; asceticism and eroticism; gender and power; renunciation and family obligations.

Humanities.
2 credits.
Religion

Eligible for ASIA, MDST
Fall 2019. Hopkins.

RELG 109. Afro-Atlantic Religions
This course explores the historical experiences of the millions of persons who worship African divinities in the West. We will consider the following questions: How were these religions and their communities created? How have they survived? How are African-based traditions perpetuated through ritual, song, dance, drumming, and healing practices? Special attention will be given to Yoruba religion and its New World offsprings, Santeria, Voodoo and Candomblé.
Humanities.
2 credits.
Eligible for BLST, LALS

RELG 112. Postmodern Religious Thought
This seminar asks whether religious belief is possible in the absence of a "transcendental signified." Topics include metaphysics and theology, the death of God, female divinity, apophatic mysticism and deconstruction, ethics without foundations, the question of God beyond Being, and analogues to notions of truth in ancient Buddhist thought. Readings include Eckhart, Kierkegaard, Nietzsche, Wittgenstein, Derrida, Nagarjuna, Nishitani, Ricoeur, Marion, Rorty, Loy, Taylor, Panikkar and Vattimo.
Humanities.
2 credits.
Eligible for INTP

RELG 114. Love and Religion
The course will explore the concept of "love" and many of its ramifications in several western traditions and in Hindu traditions of ancient and contemporary India through a careful reading of both primary and secondary texts. We will focus primarily on the uses of erotic love (along with the body and the "passions") in religious discourse-in poetry, commentary, and prose narratives-the many ways passionate love and/or sexuality are used cross-culturally to describe the relationship between the human and the divine. We will also explore other emotions and attitudes evoked by the word love: devotion, affection, friendship, "charity" (caritas), parental love, and the tensions of these forms of "love" with erotic love. Along with primary texts from the Greek, Jewish, Christian, Islamic, secular troubadour, and Hindu traditions, we will explore theoretical writings of Martha Nussbaum, Peter Brown, David Halperin, Julia Kristeva, David Biale, Daniel Boyarin, Caroline Walker Bynum, Henry Corbin, Michael Sells, A.K. Ramanujan, Wendy Doniger, David Shulman, and Margaret Trawick. Such a thematic treatment of what we in the English-speaking West call "love" brings to the fore many important theoretical questions concerning the cultural construction of emotions, particular love and "ennobling virtues," the erotic life, the body, and religion.
Humanities.
2 credits.
Eligible for ASIA, GSST, MDST
Fall 2020. Hopkins.

RELG 119. Islamic Law and Society
A survey of the history of Islamic law and its developments, with particular attention to the ways Islamic legal principles were formed, organized, operated in practice, and changed over time. It will focus on issues in Islamic legal theory, methodology, constitutional law, personal law, and family law that have had the greatest relevance to our contemporary world. This course functions as a basic introduction to the Islamic legal system in its pre-modern and contemporary forms. The course will also provide comparative discussion of the contrasts between Islamic legal theory and positive law and European and American legal and constitutional thought.
Humanities.
2 credits.
Eligible for ISLM, MDST

RELG 126. The Poetry and Prophesies of William Blake
This course focuses on the lyric poems, extended epic cycles, and illuminated books of one of the most unique poets in English literature, William Blake (1757-1827). We will do a close reading of the poetry and images of the major works of Blake, with the help of text-critical, theoretical and historical perspectives, views of the body, innocence, experience, sexuality, the "margins" of literature; selfhood, self-giving, and "the gift of death" in the late prophetic books. Along with published books of the designs and extended commentaries on the illuminated books by David Erdman, images, bibliographies, and other resources from the online "Blake Archive" of Eaves and Viscomi will be used for "close reading" of Blake's illuminated books and visionary designs.
Humanities.
2 credits.

RELG 127. Secrecy and Heresy
This seminar will explore religious literature, bodily practices, and social behaviors associated with the performance of secrecy in various geographical, historical, and political contexts. Religious communities have often employed secrecy as a strategy for the maintenance of group solidarity and religious identity when faced with allegations of heresy. Secrecy functions not only as a means to subvert and undermine the marginalization of religious minorities but as a powerful tool for the creation of more egalitarian possibilities through preservation of privileged knowledge and the presence of internally shared though externally undisclosed social and religious
Religion connections. What kinds of religious secrets are meant to be safeguarded? What set of behaviors and strategies are required to keep these "secrets" or sustain adopted personas? Is religious secrecy merely a tactic for ensuring survival in the context of social marginalization and political persecution? What is the relationship between secrecy and suspicion? Is it necessary that what one wishes to conceal is inherently negative, pernicious or even heretical?

Humanities.
2 credits.
Eligible for ISLM, MDST

**RELG 180. Senior Honors Thesis**
1 credit.
Fall 2019. Staff.

**RELG 199. Senior Honors Study**
0.5 credit.
The Sociology and Anthropology Department provides students with intellectual tools for understanding contemporary and historical cultural patterns and social issues such as globalization, nationalism, racism, sexism, embodiment, and the complex layering of inequalities in everyday life. These two disciplines approach the study of social life from different avenues, each bringing a set of separate and overlapping analytical and research tools to intellectual tasks that are complementary and synergistic. Our students seek knowledge about societies of the world and the social dynamics within them. To that end, our majors each conduct independent projects based on primary research and/or fieldwork during their senior year.

Anthropology and Sociology analyze experiences at the level of the individual or the group and connect them to larger social dynamics. The disciplines illustrate how matters that are often perceived as "private troubles" are actually consequences of cultural categories and social structures, including those that appear and feel natural and inevitable. Among the goals of Anthropology and Sociology are to acquire knowledge about different social groups and culture systems and to engage critically with the complexities of social life.

The Department of Sociology and Anthropology offers a Course Major, Honors Major and Minor, and several Special Majors, but no Course Minor.

The Academic Program

Overview of the Curriculum
Acceptance to the SOAN department normally requires completion of at least two courses in the department.

In order to graduate, all majors housed in the Sociology and Anthropology Department are required to complete at least the following assigned/core courses:

1. ANTH 001- Foundations: Culture, Power, and Meaning
2. SOCI 001- Foundations: Self, Culture, and Society
3. At least one designated methods course
4. A two-credit senior thesis (SOAN 096/097 or SOAN 180F/180S)

The "Foundations" courses offer key introductions to the department’s two fields; anthropology and sociology. Each highlights the distinct but complementary theories and methods of the two disciplines and provides a solid background to ongoing debates in each discipline. The courses examine concepts fundamental to both sociology and cultural anthropology and how these disciplines have changed over time.

The 2-credit senior thesis requirement, in which the student works closely with a faculty advisor, is normally completed in the fall and spring semesters of the senior year.

The requirement includes:
1. SOAN 098- Thesis Writers Masters Class
2. SOAN 096/097(course) or 180F/180S (Honors)- Thesis tutorial

The senior thesis project represents the centrality of research to our disciplines, and allows students to develop their research interests through working directly with a faculty member. Students enhance their analytical and writing skills and learn the process of developing and conducting a substantial research project from proposal to completed manuscript.

ANTH/SOCI/SOAN 001-019: Introductory courses serve as points of entry for students wishing to begin work in the department and are normally recommended before taking higher-level work in the department.

ANTH/SOCI/SOAN 020-090: Regular courses

ANTH/SOCI/SOAN 095-099: Directed Reading, Independent Study, Course Thesis

ANTH/SOCI/SOAN 100 to 180: Honors Seminars
Sociology and Anthropology

Note: Course labeling within each of the three tiers of offerings reflect internal departmental codes rather than levels of advancement or particular research areas.

For current course and seminar listings, consult the website at https://www.swarthmore.edu/sociology-anthropology/current-courses

First course recommendations
ANTH 001. Foundations: Culture, Power and Meaning offers students a foundation in theories, methods, and history of the discipline of cultural anthropology. Anthropology is a comparative study of culture, practice, and human diversity. This course will introduce students to some of the discipline’s key conceptual innovations, theoretical approaches, and past and present debates. Anthropologists study various societies to understand how meaning is constituted and circulated, how daily practices are structured by social norms and power systems, and how people resist, subvert, and transform inequalities and common modes of identification. Drawing on deep engagement with specific groups, communities, and processes, anthropology offers unique insights into pressing questions of our time, such as the effects of the global circulation of capital and people and how social structures, cultural-political ideologies, and everyday life interact. Topics to be covered include ritual and religion, kinship and family, gift and exchange, citizenship and nationalism, gender and sexuality, medicine and healing, media and circulation, and food and consumption. Students will gain familiarity with ethnography, anthropology’s flagship genre. We will also explore the discipline’s key field research methods and the ethical issues related to its goals to understand, interpret, and represent the lived experiences of people in diverse contexts.

SOCI 001. Foundations: Self, Culture and Society a foundational introduction to the discipline of sociology. Throughout the course, we will examine key theories and concepts sociologists use, reading authors like W.E.B. DuBois, Marx, Weber, Durkheim and Bourdieu. We will also explore some of the key issues sociology tackles, including race and racism, gender and sexism, class and inequality, and the role of states and other power structures in shaping these and other facets of our social world.

Course Major
Acceptance to the SOAN course major normally requires completion of at least two courses in the department with at least a C average for work in the department and at least a C average overall. The applicant’s performance in department courses is discussed during the application review process; we also consider carefully an applicant’s potential for carrying out the department’s senior thesis requirement. Course majors are required to complete at least eight units of work in the department; of the eight, five are assigned/core, see overview of curriculum above.

Course Minor
The Sociology and Anthropology Department does not offer a course minor.

Honors Major
Acceptance to the SOAN honors major normally requires completion of at least two courses in the department with at least a B average for work in the department and at least a B average overall. The department will evaluate the progress of students writing Senior Honor Thesis before the end of November. If progress is deemed inadequate, the student will be asked to withdraw from Honors.

Students seeking to complete an honors major are required to complete at least nine units of work in the department;
- five are required, see overview of curriculum above
- two 2-credit preparations. These preparations can include honors seminars, a course plus attachment, paired upper-level courses, or off campus study. The latter three forms of preparation must have the advance approval of the supervising faculty member and of the department.

Honors preparations:
1. For thesis preparations: Thesis will be sent (the last day of April in your senior year) to and read by an external examiner, who will also administer an oral exam. These will be the bases for the examiner’s evaluation of thesis.
2. For the two 2-credit (non-thesis) preparations: evaluations will be in the form of written assignments or examinations given by the external examiners and completed by honors students at the end of the senior year. External examiners will also administer oral examinations.

Honors Preparation with Attachments
Students wishing to prepare for honors through a course plus an attachment must obtain permission from the instructor. Honors preparation will consist of the following materials:
• the syllabus for the course.
• the syllabus for the attachment
• written materials as requested by the instructor. The syllabus for the class and for the attachment, plus the written materials, if any will be forwarded to the external examiner. The external examiner will be asked to prepare a written examination
Honors and Off-Campus Study
There are a number of ways in which off-campus study can be either integral or complementary to an honors major in Sociology and Anthropology. These include, but are not restricted to, the development of an honors preparation from work abroad and preparation for the senior thesis. To explore off-campus study possibilities, students must consult with the Chair of the department. Students who contemplate basing an honors preparation on off-campus study work must seek the department’s conditional approval for this, before undertaking off-campus study. Upon returning from abroad, students must request departmental approval of the honors preparation based on work done abroad. To do this, students must submit to the department all materials done abroad, including syllabi and written work, which are intended to be part of the honors preparation. Upon review of these materials, the department will notify the student as to whether or not the proposed honors preparation is approved. Students should expect approval of only one honors preparation which includes off-campus study.

Honors Minor
Acceptance to the SOAN honors minor normally requires completion of at least two courses in the department with at least a B average for work in the department and at least a B average overall.

The department will evaluate the progress of students writing Senior Honor Thesis before the end of November. If progress is deemed inadequate, the student will be asked to withdraw from Honors.

Students seeking to complete an Honors minor normally complete at least five units of work in the department:

- three are required: ANTH 001, SOCI 001, and at least one designated methods course
- one 2-credit preparation: an honors seminar, a thesis, a class with an attachment, or with permission, paired upper level courses.

The Honors Minor includes: One honors preparation in Sociology and Anthropology. Depending on the format of the presentation, the examiner will receive the materials:

1. For thesis preparations: thesis will be sent (the last day of April in your senior year) to and read by an external examiner, who will also administer an oral exam. These will be the bases for the examiner’s evaluation of thesis.

2. For non-thesis preparations: evaluations will be in the form of written assignments or examinations given by the external examiners and completed by honors students at the end of the senior year.

External examiners will also administer oral examinations.

Special Major
Acceptance to a special major housed in SOAN normally requires completion of at least two courses in the department with at least a C average for work in the department and at least a C average overall.

Most Special Majors need to be anchored in a home department. When a student anchors their special major in the department of Sociology and Anthropology, they must fulfill the requirements below. In many cases, the best option is pursuing a course major, since the department is not required to approve a Special Major application.

Requirements:
1. Must complete the required courses. See overview of the curriculum above.
2. Four credits from outside of the department must be included as part of the special major.
3. In putting together the special major, it is advisable that the student only designate ten courses as part of the major. That way there will be no problems with the 20-course rule.

Special Major in Medical Anthropology
Applicants for the Course and Honors Special Major in Medical Anthropology will usually be expected to have completed at least two courses in the department, grades of at least B for work taken in the department and to have at least a B average overall.

The special major in medical anthropology offers students the opportunity to tailor a scholarly exploration of medicine, health, and illness with a foundation in anthropology. Medical anthropology is a dynamic subfield of the discipline that offers important theoretical, critical, and comparative perspectives to the study of medical systems and healing practices in different cultures, and it provides ways to shape the work and practices of medical institutions and professionals. Medical anthropology pays attention not only to biomedicine and scientific knowledge but also to diverse ways of healing, managing pain, and defining wellbeing. It also pays close attention to the different local, national, and global forces that shape the health and wellbeing of various groups and their access to resources and knowledges. This special major will be of particular interest to students interested in graduate work in medical anthropology, the study of medicine, and those planning on pursuing training and work in diverse professions of the health field.

Requirements:
1. Must complete the required courses. See overview of curriculum above.
Sociology and Anthropology

2. Must complete at least one of the following two courses in the SOAN department:
   ANTH 043E. Culture, Health, and Illness
   ANTH 049B. Comparative Perspectives on the Body
   • Additional recommended SOAN courses include:
     ANTH 002F. Anthropology of Childhood and the Family
     ANTH 003G. First-Year Seminar: Development and its Discontents
     ANTH 051B. Drugs and Governance in the Americas
     ANTH 053B. Anthropology of Public Health
     ANTH 103. Humanitarianism: Anthropological Approaches
     ANTH 133. Anthropology of Biomedicine
     SOCI 050B - Medicine as a Profession
   • A maximum of four credits from outside of the department may be included as part of
     the special major, with permission from the department. Students are encouraged to
     tailor their courses outside the department to their particular areas of interest. Some
     recommended courses at Swarthmore include:
     POLS 048. The Politics of Population
     POLS 068F. Globalization: Politics, Economics, Environment, Health, & Security
     ECON 075. Health Economics
     ENGL 051M. Medicine, Disability and Narrative
     ENV 043B. Environmental Justice: Theory and Action
     LITR 074F. A History of the Five Senses
     HIST 066. Disease, Culture, and Society in the Modern World: Comparative Perspectives
     HIST 080. History of the Body
     HIST 084. Modern Addiction: Cigarette Smoking in the 20th Century
     PSYC 038. Clinical Psychology
     PSYC 138. Seminar in Clinical Psychology
     RELG 035. Religion and Medical Ethics
   • Additionally, students are encouraged to explore course offerings in the Tri-co Health Studies Program and at the Health & Societies program at the University of Pennsylvania. Studying abroad could also be a valuable opportunity for the study of medical anthropology. Please consult with your advisor for guidance on course selection beyond Swarthmore.
   • In putting together the special major, it is advisable that the student only designate ten courses as part of the major. That way there will be no problems with the 20-course rule.

Honors Special Major in Medical Anthropology
Students seeking to complete an honors special major in medical anthropology must complete the five SOAN core credits to be a home department. These include "Foundations: Culture, Power, and Meaning;" "Foundations: Self, Culture, and Society;" one designated methods course; and a two-credit senior thesis.

Honors preparations include:
1. Four honors preparations, of which one must be a double credit thesis. The other three may be a seminar, course plus attachment, paired upper level courses, or in special circumstances, off campus study. The latter three forms of preparation must have the advance approval of the supervising faculty member and of the department.
2. For thesis preparations: thesis will be sent (the last day of April in your senior year) to and read by an external examiner, who will also administer an oral exam. These will be the bases for the examiner’s evaluation of thesis.
3. For non-thesis preparations: evaluations will be in the form of written examinations based on the syllabi given by the external examiners and completed by honors students at the end of the senior year. External examiners will also administer oral examinations.

Thesis / Culminating Exercise
In order to graduate, all majors housed in the Sociology and Anthropology Department must complete a 2-credit thesis. The 2-credit senior thesis requirement, normally completed in the fall and spring semesters of the senior year, includes thesis Writers Masters Class and a thesis tutorial in which the student works closely with a faculty advisor.

The senior thesis project represents the centrality of research to our disciplines, and allows students to develop their research interests through working directly with a faculty member. Students develop their analytical and writing skills and learn the process of developing and conducting a substantial research project from proposal to completed manuscript.

Advanced Placement/International Baccalaureate Credit
Considered on a case-by-case basis for majors and minors.

Transfer Credit
Considered on a case-by-case basis for majors and minors.
Sociology and Anthropology

Off-Campus Study
Because of its strong cross-cultural and transnational orientations, the department encourages students to study abroad. For many students, study abroad provides a basis for their senior thesis project (see the department’s homepage for a listing of students’ projects). The senior thesis project allows students to develop their research interests through working directly with a faculty member. This combination of breadth of knowledge, global understanding, and independent research make sociology and anthropology an ideal liberal arts major.

Research and Experiential Learning Opportunities
The Sociology and Anthropology Department emphasizes independent research. We prepare students to conduct research on primary and secondary documents as well as to conduct interviews, engage in participant observation, organize focus groups, administer surveys, and produce ethnographic films. By senior year, our students are ready to write a senior thesis that is not only based on library research but also in real-world experience. Recent student research projects have focused on issues such as alternative development programs in Latin America, health reform policies in the United States, and human rights in Africa. Independent research conducted by our students is one feature that consistently distinguishes them when they are pursuing jobs, fellowships, or graduate school admission.

Some students have the opportunity to conduct original research with faculty - whose approaches run the gamut from ethnography to discourse analysis to survey research. Students also explore the historical development of Sociology and Anthropology. Research design, qualitative research, and statistical analysis are important components of many of our courses, enabling students to undertake rigorous research projects and best analyze, interpret, and communicate their findings. The curriculum also provides opportunities for students to learn techniques to creatively convey their work through photography and documentary films.

Experiential and Service Learning Opportunities
Experiential learning is an important component of much work in Sociology and Anthropology. Our department strongly supports participation in study abroad as well as work in the field. For many students, these experiences challenge them to ask questions that eventually serve as foundations of their senior thesis project. Study abroad and fieldwork provide an opportunity for students to develop contacts and gain rapport within their eventual research setting. Funding is available from the College to support students in their pursuit of these experiences.

Summer Opportunities
Summer funding opportunities exist and are particularly relevant for juniors planning research towards their senior thesis projects. Grants from a variety of college-administered sources are available to support research by students during the summer. Please have a look at our website: http://www.swarthmore.edu/x8583.xml to learn more about our extensive and generous funds for travel, research, internships, and faculty/student collaboration. We especially encourage our juniors to explore these possibilities. Funded summer research has often been the basis for fine senior theses.

Teacher Certification
Each year, in conjunction with the Educational Studies Department, a number of our majors seek teacher certification. Students contemplating teacher certification would normally schedule their program in a semester which does not conflict with their senior thesis. Such programs should be developed in close consultation with advisors in the Educational Studies Department.

Anthropology Courses
Note: Course labeling within each of the three tiers of offerings reflect internal departmental codes rather than levels of advancement or particular research areas.
(ANTH 001-019) introductory courses
(ANTH 020-099) regular courses
(ANTH 100-199) seminars
reflect internal departmental codes rather than levels of advancement or particular research areas.
Please consult the listings for prerequisites particular to each course.

ANTH 001. Foundations: Culture, Power and Meaning
This course offers students a foundation in theories, methods, and history of the discipline of cultural anthropology. Anthropology is a comparative study of culture, practice, and human diversity. This course will introduce students to some of the discipline’s key conceptual innovations, theoretical approaches, and past and present debates. Anthropologists study various societies to understand how meaning is constituted and circulated, how daily practices are structured by social norms and power systems, and how people resist, subvert, and transform inequalities and common modes of identification. Drawing on deep engagement with specific groups, communities, and processes, anthropology offers unique insights into pressing questions of our time, such as the effects of the global circulation of capital and people and how social structures, cultural-political ideologies, and everyday life interact. Topics to be covered include ritual and religion, kinship and family, gift and exchange,
citizenship and nationalism, gender and sexuality, medicine and healing, media and circulation, and food and consumption. Students will gain familiarity with ethnography, anthropology’s flagship genre. We will also explore the discipline’s key field research methods and the ethical issues related to its goals to understand, interpret, and represent the lived experiences of people in diverse contexts.
Required for SOAN majors and minors.
Social sciences.
1 credit.
Fall 2019. Ghannam.

**ANTH 001D. First-Year Seminar: Counterculture**
If culture is a battlefield, nowhere was this expressed more clearly than in the countercultural tumult that beset North American civil society during the Cold War. This First-Year Seminar will analyze the dynamics of cultural friction by bringing some of anthropology’s key concepts and comparative insights to bear on the countercultural campaigns that coalesced during the second half of the twentieth century. In so doing, our broader project will be to ask what countercultural friction can teach us about the machinations of power in the contemporary world.
Social sciences.
1 credit.
Fall 2019. Fraga.

**ANTH 002D. First-Year Seminar: Culture and Gender**
The goal of this seminar is to dismantle commonplace assumptions about gender, sexuality, and sexual difference. It brings key texts in gender theory (Foucault, Butler, and others) into conversation with anthropological studies that respond to, problematize, or advance these theoretical claims. Our focus is the gendered body as the site of power and resistance, in contexts that range from past empires to present-day inequalities, and from technologies of reproduction to drag performances of femininity.
Social sciences.
1 credit.
Eligible for GSST
Fall 2020. Nadkarni.

**ANTH 002F. Anthropology of Childhood and the Family**
The experience of being a child would appear universal, and yet the construction of childhood varies greatly across cultures and throughout history. This course examines childhood and childrearing in a number of ethnographic contexts, investigating children as both social actors and as the target of specific cultural ambitions and anxieties. Topics include new forms of family and reproduction, children as objects (and agents) of violence, and representations of childhood in human rights discourse, among others.
Social sciences.
1 credit.
Eligible for GSST

**ANTH 003G. First-Year Seminar: Development and its Discontents**
In this course, our goal will be to gain a new perspective on an often-unquestioned social "good": that of international economic development, including foreign aid to countries in the global south. This course will provide students with an introduction to the origin and evolution of ideas about development, and will encourage them to examine major theories and approaches to development from classical modernization theories to world-systems theories. Students will gain insight into how ideas of development fit into larger global dynamics of power and politics and how, contrary to professed goals, the practices of international development have often perpetuated poverty and widened the gap between rich and poor. During the course, we will investigate these issues through an array of texts that address different audiences including a novel, academic books and journals, film, popular writings and ethnographic monographs.
Social sciences.
Writing course.
1 credit.
Eligible for BLST, PEAC

**ANTH 009C. Cultures of the Middle East**
Looking at ethnographic texts, films, and literature from different parts of the region, this class examines the complexity and richness of culture and life in the Middle East. The topics we will cover include orientalism, colonization, gender, ethnicity, tribalism, nationalism, migration, nomadism, and religious beliefs. We will also analyze the local, national, and global forces that are reshaping daily practices and cultural identities in various Middle Eastern countries.
Social sciences.
Writing course
1 credit.
Eligible for ISLM

**ANTH 020J. Dance and Diaspora**
(Cross-listed as DANC 025A)
Social sciences.
Writing course.
1 credit.
Eligible for ASIA, GSST
Fall 2019. Chakravorty.

**ANTH 023C. Anthropological Perspectives on Conservation**
Conservation of biodiversity through the creation of national parks is an idea and a practice that began in the U.S. with the creation of Yellowstone in 1872. In this course, we will examine the ideas behind the initial creation of national parks and explore the global spread of these ideas through
Sociology and Anthropology

the historical and contemporary creation of parks in other countries. As we examine the origin of the idea for parks, we will also consider the human costs that have been associated with their creation. Ultimately, the class offers a critical exploration of theories and themes related to nature, political economy, and culture-themes that fundamentally underlie the relationship between society and environment.

Social sciences.
1 credit.
Eligible for BLST, ENVS

ANTH 023E. Ethnographic Research Methods (M)
This course introduces students to theory and practice of ethnographic research. Ethnography is the bread and butter of sociocultural anthropology, both as a research method and genre of writing. Ethnographic research methods are also gaining in popularity as a research methodology beyond the discipline as well as beyond the academy. Ethnographic research can be used to explore a range of scales, from the minutia of everyday experience-what Bronislaw Malinowski called the "imponderabilia of actual life"-to broad brushstroke analyses of social structure and symbolic meaning. But how do anthropologists practice their craft? What exactly do they do "out there" in the field and what is unique about their modes of studying human experience? This course offers students an opportunity to explore and gain practice using a variety of methods used in ethnographic research. We will pay particular attention to questions of knowledge, location, evidence, ethics, power, translation, experience, and the way theoretical problems can be framed in terms of ethnographic research. This course is in large part a workshop in which students will learn and mobilize various ethnographic methods and techniques, engage in ethnographic writing, and actively evaluate and guide one another’s work. Students will apply what they learn during the course toward designing their own ethnographic research project.
Methods Course.
Social sciences.
1 credit.
Spring 2021. Schuetze.

ANTH 029B. Ethnography: Theory and Practice (M)
This class maps anthropological theories and methods through reading and critically analyzing the discipline’s flagship genre, ethnography. We work historically by reading classical texts that exemplify different approaches (such as functionalism, structuralism, symbolic anthropology, and reflexive anthropology) used to analyze culture and social structure. We address questions such as: How did Malinowski understand ethnography? How does this understanding compare to more recent views of anthropologists such as Geertz? How did the meaning of fieldwork change over time? We pay special attention to the politics of representation and the anthropologists’ continuous struggle to find new ways to write about culture.
Methods course.
Social sciences.
Writing course.
1 credit.

ANTH 031C. Hispanics, Mestizos, Latinxs (M)
This course will elaborate on an historical anthropological perspective on the diverse identities that have developed in the Americas since the time of the Spanish conquest. As the title of the course is meant to imply, we will trace the evolution of ethnic, racial, and gender identities from roughly the sixteenth century to the present day, putting their development in relation to the major political and economic changes that have shaped the history of Spanish America and its multiple, shifting relations to the United States. Our course materials will be drawn from cultural anthropology, history, and Latin American cultural studies. They will supply us with a framework through which to analyze these identities in terms of specific, culturally meaningful practices embedded in dynamic networks of social relations. Throughout the semester, our emphasis will be on the multiple, interwoven sources of identity in the Americas, from indigenous Meso- and South America to Europe and Africa. This emphasis will in turn enable us to reflect on what an historical anthropological perspective can teach us about the concept of identity in general.
Methods Course.
Prerequisite: Previous coursework in Sociology & Anthropology and/or Latin American and Latino Studies is recommended, but not required.
Social sciences.
1 credit.
Eligible for LALS, GLBL-Paired
Fall 2019. Fraga.

ANTH 032D. Mass Media and Anthropology
This intermediate course explores the anthropology of modernity and the mass-mediation of modern forms of knowledge. It examines how the emergence of mass media has produced new kinds of subjects and social relations: from novel images of nationhood to mass experiences of crime, war, and violence. Along the way, the course also asks the impact of new media technologies on how anthropology itself imagines identity, community, and locality. Social sciences.
1 credit.
Eligible for FMST, INTP
ANTH 033B. Environmental Anthropology
This course offers students an introduction to Environmental Anthropology, a subfield of anthropology which encompasses the study of the interrelationships between humans and the ecosystems in which they are embedded as well as analysis and application of anthropological knowledge to contemporary environmental issues. Humans have transformed their environments for millennia, but in recent decades, have altered the global environment in ways that have no precedent in human history or in geological time. With contemporary environmental crises as its backdrop, this course examines some classic and contemporary anthropological approaches to the environment, exploring the value of anthropological theory, methods, and approaches in the humanistic study of the environment. In this sense, the course will expose students to diverse ways for thinking about the environment in its many dimensions and critical perspectives on contemporary environmental issues. We will review various theoretical approaches and their implications for our understanding of human relations to the environment, and explore how anthropologists and those they study are engaging with contemporary environmental issues including biodiversity conservation, deforestation, community-based natural resource management, ecotourism, and climate change.
Social sciences.
1 credit.
Eligible for ENVS
Fall 2020. Schuetze.

ANTH 039B. Globalization and Culture
What is globalization? Is globalization "cultural imperialism," Westernization, Americanization, or McDonaldization? Our class will examine such questions and critically analyze how global flows (of goods, capital, labor, information, and people) are shaping cultural practices and identities. We will study recent theories of globalization and transnationalism and read various ethnographic studies of how global processes are articulated and resisted in various cultural settings.
Social sciences.
Writing course.
1 credit.

ANTH 039C. Food and Culture
Food, a daily necessity for human survival, is strongly shaped by social relationships and cultural meanings. Who makes our food, what we eat, how we eat, and with whom we eat all reflect and reproduce various social connections and inequalities. This class explores how food, its making, and its consumption have been analyzed by different scholars, particularly anthropologists. We will also look at how various societies define, manage, and regulate the preparation and consumption of food. The class consider questions such as: Why do we serve specific foods at certain occasions? What constitutes a proper meal? How does class, gender, race, and ethnicity shape the making and serving of certain foods? Why might a particular food be viewed a delicacy in one society, but be seen as disgusting and repulsive in another? How did food become a "problem" that has to be managed in many of our contemporary societies? Through our readings and discussions, we will seek a deeper understanding of edible matters, how we shape them and how they shape us.
Social Sciences.
1 credit.

ANTH 040B. Language, Culture, and Society
(Cross-listed as LING 025)
Prerequisite: At least one Linguistics course.
Social sciences.
1 credit.

ANTH 041D. Art, Money, Power
By the dawn of the twenty-first century, a massive international network of public and private institutions, commercial art galleries, annual art fairs and plurennial mega-exhibitions had become firmly entrenched as a new global infrastructure through which art works, artists, professional curators, and art collectors now roam. How did this international art system come to be? How does it serve both to authorize and to constrain the kinds of practices that can assume the label of "contemporary art"? In this course we will take an historical and cross-cultural approach to understanding the multiple, dynamic relationships between art, money, and power, asking how different sociocultural modes of accumulating wealth have facilitated the development of different artistic practices, and how these in turn have both challenged and reproduced existing arrangements of power relations. Our case studies will come from cultural anthropology, art history and monetary history, and we will practice interpreting artworks through the lens of critical theories of power.
Social sciences.
1 credit.

ANTH 043E. Culture, Health, Illness
People in all societies encounter and manage sickness. Yet, there are diverse and unique approaches to understanding and managing health and disease. The human experience of sickness entails a complex interplay between biological, socio-economic and cultural factors. This course offers an introduction to medical anthropology, and draws upon social, cultural, biological, and linguistic anthropology to better understand those factors which influence health and well being (broadly defined), the experience and distribution of illness, the prevention and treatment of sickness, healing processes, the social relations of therapy management, and the cultural importance and use of pluralistic medical systems. Topics
covered include how beliefs about health, disease and the body are constructed and transmitted, how healers are chosen and trained, social disparities in health and illness, and the importance of narrative and performance in the effectiveness of healing practices. Finally, we will consider the ways in which medical anthropology can shed light upon important contemporary medical and social concerns.

Social sciences.
1 credit.
Fall 2020. Schuetze.

ANTH 049B. Comparative Perspectives on the Body
Explore how different societies regulate, discipline, and shape the human body. In the first part, we examine social theories and explore the strengths and limitations of different approaches to the study of the body. In the second part, we look at several ethnographic cases and compare diverse cultural practices that range from seemingly traditional practices (such as circumcision and foot binding) to what is currently fashionable (including weight lifting, dieting, aesthetic surgery, piercing, and tattooing). When comparing body modifications through time and space, we seek to understand their socio-economic contexts and relate them to broader cultural meanings and social inequalities. We also investigate how embodiment shapes personal and collective identities (especially gender identities) and vice versa.

Social sciences.
1 credit.
Eligible for GSST INTP

ANTH 049BA. Attachment: Comparative Perspective on the Body
An opportunity for interested students to expand their understanding of theories that analyze the body and to comparatively explore how different societies manage, beautify, and regulate the human body. The first part of the semester, determined by the professor, focuses on reading theories that inform social analysis of the body while the second part, determined by both the faculty and the students, explores different topics that interest the students taking the course. This attachment is usually combined with the regular class to create a double-credit honors preparation.

Social sciences.
1 credit.

ANTH 051B. Drugs and Governmentality
Psychoactive substances offer us an especially powerful prism with which to analyze the techniques of governance that have characterized the political regimes of the Americas since colonization. Hemispheric in scope, this course will trace an anthropological history of the uses and abuses of such diverse substances as chocolate and tobacco, coffee and cocaine, peyote and prescription pharmaceuticals, thereby preparing students to disentangle the multiple forces that over determine contemporary discourses of drugs, intoxication, and their respective places in social life.

Social sciences.
1 credit.
Eligible for LALS

ANTH 053B. Anthropology of Public Health
This course introduces students to the study of "public health" and various problems framed by public health actors through theoretical and methodological lenses of sociocultural anthropology. The field of public health is typically defined by its commitment to understand not just the manifestations and patterns of illness in populations, but the social, political and economic forces that place certain individuals and populations at greater risk of morbidity and mortality. By critically examining various frameworks for understanding disease in human populations, the class will explore the potentials and challenges of improving health and healthcare in various populations, both within and outside of the United States. Additionally, this class aims to demonstrate the value of anthropology to the field of public health and to efforts to solve national and global health problems. Students will be urged to think about "public health" and "global health" as dynamic cultural artifacts and cultural systems; and likewise, to consider how ethnography is an important methodological tool, both to understand public health agendas as well as to investigate the subjects and elisions of public health interventions.

Social sciences.
1 credit.

ANTH 072C. Memory, History, Nation
How do national communities remember—and forget? What roles do commemoration and amnesia play in constructing, maintaining, or challenging national and collective identities? This course considers memory and its pathologies as a central problematic for the nation-state. It reads theory and ethnography against each other to explore the politics and aesthetics of national memory across numerous sites and contexts, attentive to both the collectivities such commemorations inspire and their points of resistance or failure.

Social sciences.
1 credit.
Eligible for GSST

ANTH 072D. Visual Anthropology (M)
This course introduces students to the history, theory, and practice of visual anthropology. Topics include the intertwined histories of colonial photography and anthropology, how anthropologists use visual ethnographic methods
Sociology and Anthropology

as tools of cultural analysis, and how indigenous groups and activists use contemporary visual technologies to gain visibility and to remake their social worlds. The course will include a series of film screenings, as well as a small production component.

Social sciences.
Theory and Methods course.
1 credit.
Eligible for FMST

ANTH 079B. Dancing Desire in Bollywood Films
(Cross-listed as DANC 079)
This course will explore the shifts in sexuality and gender constructions of Indian women from national to transnational symbols through the dance sequences in Bollywood. We will examine the place of erotic in reconstructing gender and sexuality from past notions of romantic love to desires for commodity. The primary focus will be centered on approaches to the body from anthropology and sociology to performance, dance, and film and media studies.
Social sciences.
1 credit.
Eligible for ASIA, FMST, GSST

ANTH 095. Independent Study
All students wishing to do independent work must have the advance consent of the department and of an instructor who agrees to supervise the proposed project. Two options exist for students wishing to get credit for independent work.
Option 1 - consists of individual or group directed reading and study in fields of special interest to the students not dealt with in the regular course offerings.
Option 2 - credit may be received for practical work in which direct experience lends itself to intellectual analysis and is likely to contribute to a student’s progress in regular course work. Students must demonstrate to the instructor and the department a basis for the work in previous academic study. Students will normally be required to examine pertinent literature and produce a written report to receive credit.
0.5 or 1 credit.

Spring 2021. Staff.

Anthropology Seminars

ANTH 103. Humanitarianism: Anthropological Approaches
(Cross-listed as PEAC 103)
This honors seminar will introduce students to the most salient theoretical debates among anthropologists on humanitarian intervention around the world. We will also examine a range of case studies, from the birth of Western Christian humanitarian missions in colonial contexts to humanitarian interventions (e.g. military, food-based assistance, natural disaster relief, post-conflict reconstruction) today. The geographic scope of this seminar will encompass North America, South America, the Caribbean, Europe, sub-Saharan Africa, the Middle East/North Africa, East Asia, and South Asia. We will consider, for instance, how anthropologists have examined relief efforts in the wake of Hurricane Katrina in New Orleans. What social science scholarship has been produced on mental health interventions after political and natural crises in Haiti? How are victims of torture at the hands of the Indian military supported by international organizations in Kashmir? What is the nature of global Islamic humanitarianism today? How are local national staff employed by international organizations shaping humanitarian approaches to gender-based violence in Colombia? These are among the many questions we will address over the course of the semester.
Social sciences.
2 credits.

ANTH 112. Cities, Spaces, and Power
This seminar explores recent interdisciplinary insights to the analysis of spatial practices, power relationships, and urban forms. In addition, we read ethnographies and novels and watch films to explore questions such as: How is space socially constructed? What is the relationship between space and power? How is this relationship embedded in urban forms under projects of modernity and postmodernity? How do the ordinary practitioners of the city resist and transform these forms? Our discussion will pay special attention to issues related to racism and segregation, ethnic enclaves, urban danger, gendered spaces, colonial urbanism, and the "global" city.
Social sciences.
2 credits.

ANTH 116. Anthropology of Capitalism
In the wake of the global financial system’s recent paroxysms, it is more urgent than ever that students of anthropology be equipped to understand the social and cultural dimensions of contemporary capitalism. This seminar will therefore examine the defining features of the current capitalist milieu through the lens of comparative ethnography. Combining classic theoretical readings on the structure and development of capitalism with concrete ethnographic studies, we will analyze a broad sample of the many guises under which capital travels across political, economic, and cultural borders. These analyses will then enable us to approach the more pressing question of how individual actors can and do contribute to the transformation of the global cultural economy.
**Sociology and Anthropology**

Social sciences.
2 credits.
Eligible for INTP

**ANTH 122. Urban Ethnographies (M)**
As key players in the global economy, cities are the focus of a rich body of literature that explores how urban life is shaped by the complex interplay between global, national, and local processes. How to best understand this interplay and how it shapes daily life in cities? How can we understand the inequalities that structure daily life in urban centers around the globe? How to analyze the different identities, spaces, and subjectivities that are being constituted under changing economic, social, and political conditions? In this seminar, we read ethnographies from and about cities around the globe and analyze how scholars, particularly anthropologists, have studied cities, their cultures, and social groups. We pay attention to the forces (such as neoliberalism, modernism, nationalism, and globalization) and inequalities (such as class, race, and gender) that shape urban life. The texts we read explore current pressing issues such as poverty, violence, policing, gentrification, and homelessness. Alongside our investigation of city life, students also will have the opportunity to develop their skills in ethnographic research methods by closely analyzing how different authors accessed and wrote about cities as well as by conducting their own mini-ethnographies.

Methods course.
Social sciences.
2 credits.
Fall 2020. Ghannam.

**ANTH 123. Culture, Power, Islam**
This seminar will be an interdisciplinary investigation into the shifting manners by which Islam is multiply understood as a creatively mystical force, a canonically organized religion, a political platform, a particular approach to economic investment, and a secular but powerful identity put forth in interethnic conflicts, to name only a handful of incarnations. Though wide ranging in our theoretical perspective, a deeply ethnographic approach to the lived experience of Islam in a number of cultural settings guides this study.

Social sciences.
2 credits.
Eligible for ISLM

**ANTH 123. Anthropology of Biomedicine**
In this seminar we explore biomedicine from an anthropological perspective, exploring the entanglement of bodies with history, environment, culture, and power. We begin the course with a focus on the historical emergence of biomedical technologies and their related discourses and practices and then move into contemporary contexts of their use and circulation. Throughout, we focus on the ways in which the development, use, and distribution of biomedical technologies and discourses are influenced by prevailing medical systems, political interests, and cultural norms. Topics to be covered include biomedicine as technology, medical categorization and ideas of the normal, ethics and moral boundaries, the space of the clinic, the circulation of pharmaceuticals, and health and inequality.

Social sciences.
2 credits.

**Sociology Courses**
Note: Course labeling within each of the three tiers of offerings reflect internal departmental codes rather than levels of advancement or particular research areas.

(SOCI 001-019) introductory courses
(SOCI 020-099) regular courses
(SOCI100-199) seminars reflect internal departmental codes rather than levels of advancement or particular research areas. Please consult the listings for prerequisites particular to each course.

**SOCI 001. Foundations: Self, Culture and Society**
This course offers a foundational introduction to the discipline of sociology. Throughout the course, we will examine key theories and concepts sociologists use, reading authors like W.E.B. DuBois, Marx, Weber, Durkheim and Bourdieu. We will also explore some of the key issues sociology tackles, including race and racism, gender and sexism, class and inequality, and the role of states and other power structures in shaping these and other facets of our social world.

Required for SOAN majors and minors.
Social sciences.
1 credit.
Fall 2020. Staff.

**SOCI 004B. First-Year Seminar: From Modernity to Postmodernity and Beyond: An Introduction to Social Theory**
An account of the rise and development of social theory. The first part of the seminar is a discussion of the ideas about society and culture by such influential theorists as Marx, Weber, Durkheim and Freud. The second part is a discussion of the works by key contemporary theorists such as Adorno, Benjamin, Goffman, Geertz, and Foucault. Among the topics covered are: race and ethnicity, culture and sexuality, globalization and science.

Social sciences.

Eligible for INTP
Fall 2019. Muñoz.
Fall 2020. Muñoz.
SOCI 006C. First-Year Seminar: The Working Class and the Politics of Whiteness
Who are the "white working class" in the United States? How do they live, what do they believe, and why? Do they constitute the base of support for Donald Trump in the US? Are they motivated by "racial resentment" or "economic precarity"? Or, is there even such a thing as "the" white working class? How did this racialized category come to evoke images of both "everyday Americans" in some circles, and (in at least in some others) people who belong in the "basket of deplorables" described by Hillary Clinton? Or, is there even such a thing as "the" white working class? How did this racialized category come to evoke images of both "everyday Americans" in some circles, and (in at least in some others) people who belong in the "basket of deplorables" described by Hillary Clinton? This course is dedicated to both sets of questions. First, we will look at the actual lives, beliefs, and political behavior of people who could be categorized as white and poor or working class. Then we will take up the question of the ways this category is deployed in our political discourse, for what purposes, and by whom. In the course of reading and writing about these issues, we will develop our understanding of class, race, inequality and politics in the United States, with occasional comparisons to the United Kingdom and Europe. This course is dedicated to both sets of questions. First, we will look at the actual lives, beliefs, and political behavior of people who could be categorized as white and poor or working class. Then we will take up the question of the ways this category is deployed in our political discourse, for what purposes, and by whom.
Social science.
1 credit.
Fall 2019. Laurison.

SOCI 007B. Introduction to Race and Ethnicity in the United States
Today, most sociologists and anthropologists acknowledge that race is a social construct and not a biologically measurable and discrete category. Although race does not exist in any consistent physiological way, it remains a central aspect of personal and cultural identity, often standing in for the concept of culture or ethnicity and usually connoted by physically identifiable (or marked) difference. Race is also one of the most significant predictors of quality of life for groups and individuals in the United States. With this in mind, we will examine the concepts of race and its history in the United States. Paying particular attention to the legacy of white supremacy in the United States, we will explore the multiple ways that race and ethnicity function in this country.
Social sciences.
1 credit.
Eligible for BLST, GSST

SOCI 007C. Sociology Through African American Women's Writing
Interrogating the explicit and implicit claims that black women writers make in relation to work by social scientists, we will read texts closely for literary appreciation, sociological significance, and personal relevance, examining especially issues that revolve around race, gender, and class. Of special interest will be where authors position their characters vis-à-vis white supremacy, patriarchy, capitalism, and the U.S.
Social sciences.
1 credit.
Eligible for BLST, GSST

SOCI 010B. First Year Seminar: Everyday Life
This seminar will introduce the practice of taking a sociological perspective by way of reading ethnographic accounts of ordinary people in everyday settings (such as bars, Walmarts, school cafeterias, soup kitchens, churches, neighborhoods), examining the broad social contexts, and exploring the social theory used to understand them. Students will practice skills to become more attentive observers and analysts of social life.
Social sciences.
1 credit
Fall 2020. Charlton.

SOCI 010H. The Tribal Identity of Sport: Nationalism, Ethnicity, and the Rise of Sport in the Modern Era
This course focuses on the development of modern sport of multiple levels of analysis. First, it is a primer on the descriptive facts of sport development in the late 19th and early 20th centuries and the social theory employed to study it. Second, it is more detailed at the connections between nationalism and sport, the nexus of national, communal association with sporting achievement as a social mechanism in the construction of group identity.
Social sciences.
1 credit.

SOCI 010J. War, Sport, and the Construction of Masculine Identity
The course will concentrate on themes of sport and war and the historical construction of male identity. Our culturally endorsed ideals of manhood are related to tests of skill and physical exertion. The influence of the sport/warrior ethic on modern sensibilities will take us to 19th-century England and the U.S. as these nations grappled with the meaning of sport and war as markers of the adult male. Contemporary works that challenge stock impressions of masculinity will be read.
Social sciences.
Sociology and Anthropology

1 credit.

Fall 2019. Mullan.

**SOCI 016B. Research Methods in Social Science (M)**
This course is a practical introduction to research in the social sciences. We discuss what is and is not knowable about the social world, and the ways in which sociology and adjacent disciplines conduct and evaluate research. We learn about and practice three of the primary methodologies of our disciplines: ethnography, in-depth interviewing, and surveys. Students will learn the rudiments of statistical analysis; no prior training in statistics is required (or expected).
Methods course.
Social sciences.
1 credit.

**SOCI 021E. Social Inequalities**
In this course, we will consider how do social inequalities structure daily life. Course readings will focus specifically on schools, the workplace, and neighborhoods as social settings where race, class, and gender intersect to shape identities and establish relationships of marginality and advantage. Readings in this course will include ethnographic studies about how race, class, and gender hierarchies are reproduced and challenged in everyday life, as well as theoretical texts that examine the construction and social significance of these hierarchies.
Social sciences.
1 credit.
Eligible for BLST
Fall 2020. Evans.

**SOCI 024B. Latin American Society and Culture**
An introduction to the relationship between culture and society in Latin America. Recent and historical works in social research, literature, philosophy, and theology will be examined.
Social sciences.
1 credit.
Eligible for LALS, PEAC

**SOCI 024C. Latin American Society Through Its Novel**
From an interdisciplinary framework, we will explore the relationship between society and its representation in the Latin America novel. The course will also help us understand the links between fiction and reality, and the role of literature as a form of cognition. Selected works by Carlos Fuentes, Mario Vargas Llosa, Gabriel García Márquez, Isabel Allende, Luisa Valenzuela, Jose Maria Arguedas and others. Readings, assignments, and open-dialogue class are in English. No prior knowledge of Spanish necessary.
Social sciences.
1 credit.
Eligible for INTP, LALS, GLBL-Paired
Fall 2019. Muñoz.
Fall 2020. Muñoz.

**SOCI 024D. Topics in Social Theory**
This course deals with Kant’s and Hegel’s social philosophy insofar as it influenced the development of modern social theory. Works by Marx, Weber, Durkheim, Freud, and critical theorists, neo-conservatives, and postmodernists will also be discussed.
Social sciences.
1 credit.

**SOCI 025B. Transforming Intractable Conflict**
(Cross-listed as PEAC 025B)
This course will address the sociology of peace process and intractable identity conflicts in deeply divided societies. Northern Ireland will serve as the primary case study, and the course outline will include the history of the conflict, the peace process, and grassroots conflict transformation initiatives. Special attention will be given to the cultural underpinnings of division, such as sectarianism and collective identity, and their expression through symbols, language, and collective actions, such as parades and commemorations.
Social sciences.
1 credit.
Eligible for PEAC

**SOCI 026B. Class Matters: Privilege, Poverty and Power**
This class examines the ways our social origins (or class backgrounds) impact our lives, and the ways in which class positions are passed down (or not) across generations. We will discuss what we mean by "class"; economic inequality and poverty; intersections of class with racial, gender, and other forms of inequality; cultural and social capital; tastes and lifestyles; the role of education in both promoting social mobility and reproducing class inequalities; and the role of the state in shaping inequalities and mobility chances.
Social sciences.
1 credit.

**SOCI 046B. Data Visualization (M)**
Data visualization provides one of the most powerful ways to understand and communicate patterns in the social world. They say a picture tells a thousand words; when done well, images can help us understand and remember complex patterns at a glance. In this class you will learn about the properties of effective data visualization and apply them to survey data. Surveys can tell us about who supports the president, how levels of religiosity vary across the world or across time, the income rewards of a college education, and more. You will use survey data to examine (some of) your questions about the social world and
design visuals to effectively communicate your answers.

Methods Course.
Prerequisite: Basic familiarity with one or more of the following: survey data (datasets, variables), Stata, R, or probability/inference; if you have taken SOCI 016B, Econ 031, and/or Stat 11, you are prepared enough to take this class.
Social sciences.
One laboratory per week.
1 credit.

SOCI 027B. Dressing and Crafting: Race, Class, Gender, and Sexuality in Cloth
Social sciences.
1 credit.

SOCI 027D. Qualitative Methods (M)
This course expands students' knowledge of qualitative research methods, including ethnography and semi-structured interviewing. Through qualitative methods researchers can develop rich and detailed understandings of social processes and problems. These methods allow researchers to examine phenomena in relationship to particular social contexts. Qualitative research is also unique in its focus on the experiences and voices of research participants. In this course, students will read studies that employ qualitative methods and will discuss theoretical approaches, as well as ethical issues involved in designing and implementing a qualitative study. Course readings will include practical guides to conducting qualitative research. Students will gain experience in qualitative methods by conducting interviews and observations and writing a research proposal.
Methods course.
Social sciences.
1 credit.
Fall 2019. Evans.
Fall 2020. Evans.

SOCI 027E. Housing, Wealth, and Racial Inequality
This course focuses on the role of housing and housing policy in creating and maintaining racial inequality. The course will emphasize housing issues in cities; however, the broader history of housing policy and its implications for inequality in the United States will be examined. Students will learn about a number of current housing issues, including segregation, urbanization/suburbanization, eviction, mortgage lending, urban development, and gentrification.
Social sciences.
1 credit.
Eligible for BLST

SOCI 030B. Practicum: Working in Organizations (M)
This is a course designed for students to be in the field participating within either non-profit or for-profit organizations, as volunteers, interns, researchers, or staff. The practicum will provide an analytical frame for that experience through the concepts of organizational cultures and social worlds, and enhance the development of research skills by means of participant observation.
Methods course.
Social sciences.
1 credit.

SOCI 035C. Social Movements and Nonviolent Power
Study of the global proliferation of the strategic use of nonviolent tactics and methods and investigate the power in social relations upon which collective nonviolent action capitalizes. We will also address sociological literature on the emergence, maintenance, and impact of social movements. For examples of the kinds of case studies covered in this seminar, visit https://nvdatabase.swarthmore.edu
Social sciences.
1 credit.
Eligible for PEAC
Fall 2020. Smidley.

SOCI 036B. Field Methods (M)
In this course students are introduced to theory and practice of field methods and their utility to sociologists. Students will design and carry out their own semester long research project employing both participant observation and in-depth interviewing.
Social sciences.
Methods course.
1 credit.

SOCI 037C. Racial Geographies
This course considers how racially oppressed peoples have imagined and interpreted place in ways that affirm life, foster belonging, expose conflict, and create change. We will consider how the meaning and value of place is always being contested by differently situated social actors. Moreover, we will consider how the loss of place can have destructive implications for collective identity and memory, but can also promote collective action. Course readings will examine processes of forced migration, segregation, urban renewal, gentrification, displacement, and community building.
Social sciences.
1 credit.
Eligible for BLST
Fall 2019. Evans.

SOCI 044C. Colloquium: Contemporary Social Theory
A discussion of contemporary social theory and its antecedents. The first part of the course will be devoted to a discussion of works by Nietzsche, Marx, and Freud. The second part will deal with works by contemporary theorist such as Habermas,
SOCI 044E. Colloquium: Modern Social Theory
This course is an analysis of the rise and development of modern social theory. The introduction to the colloquium deals with works by such social philosophers as Rousseau, Kant, and Hegel. The core of the colloquium focuses on selected works by Marx, Weber, Durkheim, and Freud. The colloquium is recommended for advanced work in social theory and is particularly well suited for students interested in the areas of sociology and anthropology and interpretation theory. Social sciences. 1 credit.

SOCI 048I. Race and Place: A Philadelphia Story (Inside-Out Exchange Course)
Using Philadelphia neighborhoods as our site of study, this course will analyze the relationship between race/ethnicity and spatial inequality, emphasizing the institutions, processes, and mechanisms that shape the lives of urban dwellers. We will survey major theoretical approaches and empirical investigations of racial and ethnic stratification in cities, their concomitant policy considerations, and the impact at the local level in Philadelphia. We will focus particular attention on the role of narrative and racialized discourse in relation to the distribution of an array of economic, social, and political resources to city residents. Prerequisite: Must have permission of the instructor. Social sciences. 1 credit. Eligible for BLST

SOCI 048K. Political Sociology: The Mafia and the State
This course will introduce students to the comparative study of criminal organizations across the globe. In it, we will explore the social, political and economic conditions in which organized crime develops. Analyses will be focused on the organization of criminal networks, rules and codes, activities both in legitimate business and illegal markets, and their relationship to politics. This comparative approach will enable students to identify those factors facilitating the emergence, migration and persistence of organized crime across nation states and global polities - emphasizing the mechanisms, processes and institutions that structure and are structured by criminal organizations. We will survey the major theoretical approaches and empirical investigations of Mafias and like organizations in Italy, Russia, China, Japan, Central Asia, Central and South America, the United States, and locally in Philadelphia.

SOCI 048L. Urban Crime and Punishment
This course takes a sociologically based yet interdisciplinary approach to the study of the politics of crime and the criminal justice system in U.S. cities. We investigate the origins of the politics of law and order from the mid-twentieth century to today, against a broader backdrop of macrostructural changes in the social, economic, and political landscape including but not limited to urban de-industrialization and suburbanization. Using Philadelphia neighborhoods as our site of study, this course will analyze the relationship between urbanity, criminality and spatial inequality, emphasizing the institutions, processes, and mechanisms that shape the lives of urban dwellers. We will survey major theoretical approaches and empirical investigations of politics, crime and stratification in cities, their concomitant policy considerations, and the impact at the local level in Philadelphia. Readings and in-class discussions will be supplemented by experiences in the field and guest speakers drawn from organizations involved in the crime/criminal justice system. Social sciences. 1 credit. Eligible for BLST

Fall 2019. Johnson.

SOCI 050B. Medicine as a Profession
This course will bring a sociological perspective to the history of the healing arts; the professionalization of medicine; the corporatization of health care; the elaboration of health occupations and specializations; public health; socialization and medical education; emotional labor; caring work; and organizational contexts within which health care work is embedded. Social sciences. 1 credit.

SOCI 056C. American Democracy: Political Participation in the Midterm Elections
In this course, we use the unfolding 2018 elections as a case study for understanding some of the most pressing issues in American Democracy: the stark inequality in political participation, the sense many people have that electoral politics doesn’t represent them, and the ways in which the rules & structure of our electoral system skew representation towards those with more resources. We will be embarking on a collective research project over the course of the semester to better understand how non-voters and others in disadvantaged groups understand their relationship to American democratic politics. Not open to first-year students. Social sciences. 1 credit.

Spring 2019.

Fall 2019. Nelson

**SO CI 071B. Research Seminar: Global Nonviolent Action Database (M)**  
(Cross-listed as PEAC 071B)  
This research seminar involves working with The Global Nonviolent Action Database built at Swarthmore College. This website is accessed by activists and scholars worldwide. The database contains crucial information on campaigns for human rights, democracy, environmental sustainability, economic justice, national/ethnic identity, and peace. Students will investigate a series of research cases and write them up in two ways: within a template of fields (the database proper) and also as a narrative describing the unfolding struggle. Strategic implications will be drawn from theory and from what the group is learning from the documented cases of wins and losses experienced by people's struggles.  
Methods Course.  
Social sciences.  
Writing course.  
1 credit.  
Eligible for PEAC  
Spring 2021. Smithey.

**SO CI 095. Independent Study/Directed Reading**  
Two options exist for students wishing to get credit for independent work. All students wishing to do independent work must have the advance consent of the department and of an instructor who agrees to supervise the proposed project.  
Option 1 - consists of individual or group directed reading and study in fields of special interest to the students not dealt with in the regular course offerings.  
Option 2 - credit may be received for practical work in which direct experience lends itself to intellectual analysis and is likely to contribute to a student’s progress in regular course work. Students must demonstrate to the instructor and the department a basis for the work in previous academic study. Students will normally be required to examine pertinent literature and produce a written report to receive credit.  
0.5 or 1 credit.

**Sociology Seminars**

**SO CI 109. Distinction: On Class and the Judgment of Tastes**  
This honors seminar is centered on reading Bourdieu’s Distinction: A Social Critique of the Judgment of Taste. We will read the entire book carefully, in conversation with a number of strains of classical and contemporary sociology and social theory that inform or are informed by it. Some topics we will tackle include: how earlier theories & theorists informed Bourdieus’ work; how people make judgments about one another; the role of judgments of taste, style, and embodiment in reproducing class advantages & disadvantages; the "omnivore" debate about the distinguishing (or not) meaning of "highbrow" culture; applications, extensions and critiques of Distinction from the US, Europe, and elsewhere; and the role of class and class cultures in politics.  
Social sciences.  
2 credits.  
Fall 2019. Laurison.

**SO CI 125. Race Theories**  
Contemporary theories of race and racism by sociologists such as Winant, Gilroy, Williams, Gallagher, Ansell, Omi, and others will be explored. Concepts and controversies explored will include racial identity and social status, the question of social engineering, the social construction of justice, social stasis, and change. The U.S. is the focus, but other countries will be examined. Without exception, an introductory course on race and/or racism is a prerequisite.  
Social sciences.  
2 credits.  
Eligible for BLST

**SO CI 135. Social Movements and Nonviolent Power**  
(Cross-listed as PEAC 135)  
In this two-credit Honors seminar, we will study the global proliferation of the strategic use of nonviolent tactics and methods and investigate the power in social relations upon which collective nonviolent action capitalizes. We will also address sociological literature on the emergence, maintenance, and impact of social movements. For examples of the kinds of case studies covered in this seminar, visit https://nvdatabase.swarthmore.edu  
Social sciences.  
2 credit.  
Eligible for PEAC  
Fall 2020. Smithey.

**SO CI 138. DuBois and the Color Line**  
This course will generate an understanding of the sociology of W. E. B. DuBois and the role of insurgent theory. In it, we will uncover DuBois’ role as a founder of American sociology and analyze the social and political factors that relegated DuBois to the margins of the sociological enterprise for over a century. Further, we will explore the significance of W.E.B. DuBois’ contributions to projects of collective racial advancement and the intellectual climate of twentieth-century America; identify critical junctures in the scholar’s life related to his
Sociology and Anthropology

evolving and some would argue increasingly
c radical worldview; highlight the importance of
DuBois’ sociological, philosophical, artistic, and
educational contributions to the transformation of
20th century American society; and ruminate on
what lessons the life and work of DuBois offer us
in this contemporary moment.
Social sciences.
2 credits.

Sociology/Anthropology Courses

SOAN 020B. Urban Education
(Cross-listed as EDUC 068)
Social sciences.
1 credit.
Eligible for BLST, CBL

SOAN 020D. Music Cultures of the World
(Cross-listed as MUSI 005A, DANC 005A)
In this course we take an ethnomusicological
approach to examine music and dance cultures
from around the world. We will consider music
and dance both in and as culture with attention to
social, political, and historical contexts. Topics
will include identity, race, ethnicity, gender, class,
religion, memory, migration, globalization,
tourism, and social and political movements. The
course will provide an opportunity to develop
critical listening and analytical skills to discuss
sound and movement.
Social sciences.

Eligible for ASIA

SOAN 020M. Race, Gender, Class and
Environment
(Cross-listed as ENVS 043, ENGL 089)
This course explores how ideologies and structures
of race, gender, sexuality, and class are embedded in
and help shape our perceptions of and actions in
the "environment." Drawing on key social and
cultural theories of environmental studies from
anthropology, sociology, feminist analysis, and
science and technology studies, we will examine
some of the ways that differences in culture,
power, and knowledge construct the conceptual
frameworks and social policies undertaken in
relation to the environment. The course draws on
contemporary scholarship in social movement
activism (including memoir and autobiography)
from diverse national and international contexts.
Topics addressed include, for example,
ideas/theories of "nature," toxic exposure and
public health, environmental perception and social
difference, poverty and natural resource depletion,

SOAN 044F. Currents in Social Theory
An introduction to theoretical contributions by
some of the most influential sociologists and
anthropologists. The course begins with a
discussion of works by some of the founders of
sociology and anthropology such as Marx,
Durkheim, Weber and Freud. This will be
followed by discussions around key works by
contemporary social theorists such as Geertz,
Foucault, and Bourdieu. All students with a
general interest in theoretical underpinnings of
sociology and anthropology are welcome. The
course will be run as a seminar where discussions
are encouraged.
Social sciences.
1 credit.

SOAN 096. Thesis
Theses will be required of all majors. Seniors will
normally take two consecutive semesters of thesis
tutorial. Students are urged to discuss their thesis
proposals with faculty during the spring semester
of their junior year, especially if they are interested
in the possibility of fieldwork. In order to receive
credit for SOAN 096 students must attend SOAN
098.
Required for SOAN course majors.

normally take two consecutive semesters of thesis
tutorial. Students are urged to discuss their thesis
proposals with faculty during the spring semester
of their junior year, especially if they are interested
in the possibility of fieldwork.
Required for SOAN course majors.
Social sciences.
1 credit.

SOAN 098. Thesis Writers Master Class
This class meets weekly to support sociology and
anthropology students in developing the skills
necessary for writing their theses, including
conducting literature searches, interpreting data,
formulating research questions, and writing in a
way that contributes to the disciplines. The class

justice and sustainability, Indigenous
environmentalisms, eco-imperialism, and disparate
impacts of global climate change. The course
offers students opportunities for community-based
learning working in partnership with local
organizations.
Social sciences.
1 credit.
Eligible for ENVS, GSST, BLST
Sociology and Anthropology

complements and supports the work that students are doing with their thesis advisors. Students who have signed up for a senior thesis credit are automatically enrolled in the class. The class is open to only senior thesis writers. Required for all SOAN thesis writers. 0 credit. Fall 2019. Ghannam. Fall 2020. Ghannam.

SOAN 100. Ethnomusicology Seminar
(Cross-listed as MUSI 100)
Ethnomusicology is an academic discipline that examines music in and as culture. This seminar examines how the interdisciplinary field has developed over the 20th and 21st centuries through an investigation of its origins, approaches, methodologies, and contemporary theoretical questions. Course readings will address the relationships between music and a variety of conceptual themes including race, ethnicity, identity, nationalism, Diaspora, globalization, and gender. The music cultures we will examine in this course represent a wide range of cultures, geographic regions, musical genres, and historical periods. Students will complete introductory exercises in research, transcription, analysis, ethnographic fieldwork, & performance. Social sciences. 1 credit.

SOAN 180. Honors Thesis
Candidates for honors will write theses during the senior year. Students are urged to have their thesis proposals approved as early as possible during the junior year. Required for Honors major. Social sciences. Writing course. 1 credit. Fall 2019. Staff. Spring 2020. Staff. Fall 2020. Staff. Spring 2021. Staff.
Built on a solid competence in Spanish language, the major and minor develop students’ skills in critical analysis and provide an understanding of the literatures and cultures of Spain, Latin America and the Caribbean, and Latinos in the United States.

The Academic Program

The Department of Spanish’s curriculum is organized in three tiers:

**Spanish language courses**: Our language courses give students ample opportunity for practice, encouraging the development of communicative proficiency and cultural competency.

**Introductory courses**: Our writing courses enable students to move toward writing proficiency in Spanish and provide a panoramic view of the literary and cultural histories of the Hispanic world.

**Advanced courses and seminars** explore specific trends and topics pertaining to the literatures and cultures of Spain, Mexico and Central America, South America, and the Hispanic Caribbean as well as those of Latino/a communities in the United States.

With the goal of enabling students to communicate fluently in Spanish, we base our curriculum upon a linguistic and pedagogical continuum beginning at the elementary language level and culminating in the most advanced courses and Honors seminars.

**Learning Goals for the Spanish Major and Minor**

1. **Linguistic Competence.** Students will achieve an advanced level of communication in Spanish using a variety of linguistic registers, acquiring a more idiomatic use of the language, and writing accurately and effectively in academic Spanish.

2. **Critical Thinking.** Students will develop analytical skills to interpret and appreciate different texts including literature, media and visual arts, and other cultural practices, using various critical and theoretical approaches.

3. **Content Knowledge.** Students will acquire knowledge of a range of literary movements and historical periods from Spain, Mexico, Central America, South America and the Hispanic Caribbean, as well as those of Latino/a communities in the United States.

4. **Cultural Awareness.** Students will gain an informed appreciation of the complex and diverse cultural, political, and socio-historical processes that shape the Spanish-speaking world.

**Course Major**

The Spanish major seeks to provide training in literary and cultural analysis while enabling students to acquire linguistic proficiency.

**Requirements**

1. Students must complete a minimum of 8.5 credits of work in courses numbered 008 and above. One of these courses must be SPAN 022 or SPAN 023, except in special cases when the department waives this requirement.

2. Majors must maintain a curricular balance in their overall program. Students are encouraged to choose courses representing each one of the following areas: Caribbean, Mexico/Central America, South America, and Spain.

3. Students may count only one of these courses toward the major: SPAN 008 or SPAN 012. Note that neither AP nor IB credits will count towards the major.

4. One of the 8.5 credits of advanced work may be taken in English from the courses listed under "Spanish Courses Taught in English" (LITR.S) that appear below.

5. All majors are encouraged to take at least one seminar in the department. Students can take a seminar after they have completed one advanced course (numbered 040 to 089). Only one seminar in the major will count for two credits. (A seminar can also be taken for 1 credit depending on student’s needs.)

6. In the spring semester of their senior year, Spanish majors will register in SPAN 095 (0.5 credits) to prepare their Spanish final paper.

7. A minimum of four of the eight courses must be taken at Swarthmore.

8. Students majoring in Spanish must spend one semester in a Spanish-speaking country enrolled in a program approved by the
Department of Spanish. Only two courses taken abroad that pertain to the curriculum of the department may count toward fulfillment of the major. For full immersion, all courses taken abroad must be taken in Spanish. Only advanced language courses taken abroad may receive Spanish credit. **Exceptions to the study abroad requirement:** In special cases, depending on the student’s language proficiency, this requirement may be waived or fulfilled with a summer-long study abroad program identified and approved by the Department of Spanish. (For summer programs, only one relevant course taken abroad may count towards fulfillment of the major.) The requirement will be waived for students who have recently arrived in the US and/or have had extensive schooling in Spanish in Spanish-speaking countries. Spanish/English bilingual students who have grown up in Spanish-speaking environments in the United States may petition to have the requirement waived or fulfilled with a summer-long study abroad program. The Spanish faculty will evaluate each case individually.

9. Upon returning from abroad, students must enroll in a one-credit advanced course in the department.

10. To graduate with a major in Spanish, a student must maintain a minimum grade of B in the discipline, and a C average in course work outside the department.

**Culminating Exercise/Final Examination**

Along with development of analytical literary and cultural abilities, majors are expected to reach an advanced level of linguistic proficiency. The Spanish Final Exam has oral and written components, both entirely in Spanish. In the spring semester of their senior year, Spanish majors will register in SPAN 095 to develop their Spanish final paper and prepare for their oral examination. Spanish majors will rewrite one of the best term papers they wrote for courses in the department. The new research paper will: a) deepen the original analysis; b) enhance the critical work on which it is based to include ample documentation; and c) increase the paper’s length to at least 20 pages, plus bibliography. Once the student has selected the paper to be revised, he/she needs to meet with the specific Spanish faculty member to agree on a timeline to turn in drafts, and discuss changes and revisions. The oral examination is based on the content of the written essay and on overall course preparation. This essay—and the student’s overall course preparation—will provide the basis for the oral examination in May, conducted exclusively in Spanish. The Spanish language ability of majors, as exhibited in this paper and the oral examination, will be part of the final evaluation.

**Acceptance Criteria**

For admission to the course major, the student needs a minimum of B level work in courses taken at Swarthmore taught in Spanish or the required introductory-level literature course (SPAN 022 or SPAN 023), demonstrated ability and interest in language and literature, and a minimum C average in course work outside the department. Prerequisite: SPAN 004 or its equivalent is the language prerequisite for entering the Spanish major. It does not count as one of the 8.5 credits required for the major.

**Course Minor**

**Requirements**

1. All minors must take a total of five courses and/or seminar offerings numbered 008 and above. Only one of these may overlap with the student’s major or other minor. Note that AP and IB credits will not count towards the minor. Courses taught in English will not count towards fulfillment of the minor.

2. All minors must take either SPAN 022 or SPAN 023, except in special cases when the department waives this requirement.

3. Minors must maintain a curricular balance in their overall program. Students are encouraged to choose courses representing the following areas: Caribbean, Mexico/Central America, South America, and Spain.

4. Students may count only one of these courses toward the major: SPAN 008 or SPAN 012. Note that neither AP nor IB credits will count towards the major.

5. All minors are strongly encouraged to take seminars offered by the department. Students can take a seminar after they have completed one advanced course (numbered 040 to 089). Seminars count as one credit toward the minor.

6. Completion of at least one semester of study abroad in a Spanish-speaking country in a program approved by the Department of Spanish. Only two courses taken abroad that pertain to the curriculum of the department may count towards fulfillment of the minor. To ensure full immersion, all courses taken abroad must be taken in Spanish. Only advanced language courses taken abroad may receive Spanish credit. **Exceptions to the study abroad requirement:** In special cases, depending on the student’s language proficiency, this requirement may be waived or fulfilled with
a summer-long study abroad program identified and approved by the Department of Spanish. (For summer programs, only one relevant course taken abroad may count towards fulfillment of the minor.) The requirement will be waived for students who have recently arrived in the US and/or have had extensive schooling in Spanish in Spanish-speaking countries. Spanish/English bilingual students who have grown up in Spanish-speaking environments in the United States may petition to have the requirement waived or fulfilled with a summer-long study abroad program. The Spanish faculty will evaluate each case individually.

7. Upon returning from study abroad, students are expected to register in a one-credit advanced course in the department.

8. To graduate with a minor in Spanish, a student must maintain a minimum grade of B in the discipline, and a C average in course work outside the department.

Acceptance Criteria

For admission to the course minor, the student needs a minimum of B level work in courses taken at Swarthmore taught in Spanish or the required introductory-level literature course (SPAN 022 or SPAN 023), demonstrated ability and interest in language and literature, and a minimum C average in course work outside the department.

Prerequisite: SPAN 004 or its equivalent is the language prerequisite for entering the Spanish minor. It does not count as one of the 5 credits required for the minor.

Honors Major and Minor

Requirements

Candidates for the major or minor in Spanish must meet these requirements to be accepted into Honors:

1. A "B" average in Spanish coursework at the College.
2. Completion at Swarthmore of either SPAN 022 or SPAN 023 (except in cases when the department waives this requirement) and one course numbered 040 to 089.
3. Completion of one semester of study in a Spanish-speaking country in a program approved by the department. Depending on their linguistic proficiency, as evaluated by the Spanish faculty, honors majors and minors may petition to have the requirement waived or fulfilled with a summer-long study abroad program.
4. Demonstrated linguistic ability in the language.

5. Present fields for external examination based on either two-credit seminars offered by the department, or the combination of two advanced courses numbered between 050-089 that form a logical pairing.

6. All majors in the Honors Program must do three (3) preparations for a total of six units of credit while all minors must complete one (1) preparation consisting of two units of credit.

The Honors Exam for Majors and Minors

Majors will take three (3) three-hour written examinations prepared by external examiners, as well as three (3) half-hour oral exams based on the contents of each field of preparation.

Minors will take one (1) three-hour written examination prepared by the external examiner, as well as one (1) half-hour oral exam based on the contents of the written examination and their overall preparation in the field presented.

All Honors exams will be conducted exclusively in Spanish.

Special Majors

Special Major in Linguistics and Languages

Spanish requirements for the special major:

1. Complete three credits numbered above SPAN 022.
2. One of the three credits must be SPAN 022 or SPAN 023 but not both.
3. Spanish Courses Taught in English (LITR.S) will not count towards the fulfillment of the three-credit requirement.
4. In special circumstances, by permission of the Department of Spanish, one of the introductory writing courses (SPAN 008 or SPAN 012) could count toward the three-credit requirement.

5. If the student is pursuing study abroad in a Spanish speaking country, only one literature course taken abroad that pertains to the curriculum of the Department of Spanish may count toward fulfillment of the three-credit requirement. For full immersion, all courses taken abroad must be taken in Spanish. (Advanced language courses taken abroad may receive Spanish credit but will not count toward the special major’s three-credit requirement.)

See Linguistics for department specific requirements.

Special Major in Spanish and Educational Studies

The Department of Spanish and the Department of Educational Studies prepare students who wish to
pursue a special major in Spanish and Educational Studies, and also those who are seeking certification to teach Spanish in primary and secondary schools in the Commonwealth of Pennsylvania or the 45 states with which Pennsylvania certification is reciprocal.

Requirements for the Special Major in Spanish and Educational Studies

1. Students must complete 6 credits of work in courses numbered 008 and above. None of these courses may be taught in English.
2. Only one of the following courses may count toward the 6-credits requirement: SPAN 008 or SPAN 012. One of the 6 credits must be SPAN 022 or SPAN 023.
3. One credit special major thesis in Educational Studies and Spanish.
4. One semester/summer abroad in a Spanish speaking country in a program approved by the Department of Spanish. Only two courses taken abroad may count toward the 6 credit requirement. (For summer programs, only one relevant course taken abroad may count towards fulfillment of the major.)
5. Students must complete 5 credits in Educational Studies.

Note: The special major itself does not constitute preparation toward certification. The required Educational Studies courses are described elsewhere. See Educational Studies for department specific requirements.

Requirements for the Special Major in Spanish and Educational Studies with Teacher Certification

In addition to the requirements of the Department of Educational Studies, students must meet the following requirements:

1. Students must complete 8 credits of work in courses numbered SPAN 008 and above.
2. Only one of the following courses may count toward the 8-credits requirement: SPAN 008 or SPAN 012. One of the 8 credits must be SPAN 022 or SPAN 023.
3. One of the eight credits may be taken in English from the courses listed under "Spanish Courses Taught in English" (LITR.S) that appear below.
4. One credit special major thesis in Educational Studies and Spanish.
5. One semester/summer abroad in a Spanish speaking country in a program approved by the Department of Spanish. Only two courses taken abroad may count toward the 8 credit requirement.

See Educational Studies for department specific requirements.

Application Process for the Major or the Minor

In addition to the process described by the Dean’s Office and the Registrar’s Office for how to apply for a major/minor, we recommend you to meet with the Spanish faculty to discuss your plans. If after applying you are denied admission to the major/minor, you may apply again once you have addressed the recommendations made by the Department of Spanish. If your application is deferred, the department will make a decision immediately after you have taken the necessary steps to address the reasons for being deferred.

Teacher Certification

We offer teacher certification in Spanish through a program approved by the state of Pennsylvania. For further information about the relevant requirements, please refer to the Educational Studies section of the College Bulletin or see the Educational Studies Department website: www.swarthmore.edu/educationalstudies.xml.

The Language Requirement

To receive the degree of Bachelor of Arts or Bachelor of Science, candidates must fulfill a foreign language requirement. The foreign language requirement can be fulfilled by:

1. Successfully studying 3 years or the "block" equivalent of a single foreign language in grades 9 through 12 (work done before grade 9 cannot be counted, regardless of the course level);
2. Achieving a score of 600 or better on a standard achievement test of a foreign language;
3. Passing either the final term of a college-level, yearlong, introductory foreign language course or a semester-long intermediate foreign language course; or
4. Learning English as a foreign language while remaining demonstrably proficient in another.

Students whose Spanish placement recommendation is above the language sequence should consider taking introductory and/or advanced Spanish courses, many of which fulfill the College’s writing requirement.

Spanish Placement Test

The Department of Spanish offers a placement test so as to appropriately position students in language classes when they arrive on campus. New students who have previously studied or have fluency in Spanish should plan to take the placement test. The Spanish Placement Test is in an online multiple-choice format, which allows you to take it at your convenience. Immediately upon completion of the test, you will receive a score and
placement recommendation. You may register in the designated course during the registration period, unless an oral interview is required.

It is important to emphasize that the online placement test and survey are for diagnostic purposes only. These diagnostic tools may be supplemented by your instructor’s evaluation during the first week of classes, at which time he or she may recommend a change of course level.

The test must represent your own work. When taking it, you will be bound by Swarthmore College’s Code of Academic and Personal Integrity. You may take this test only once. Please remember to complete the language survey that appears at the beginning of the test.

**First-year students** must login to mySwarthmore and click on the Placement exam tab for access and detailed instructions. It is important that students complete the **language survey** that appears at the beginning of the test. Upon completion of the exam, students can register in the designated course during the registration period, unless an oral interview is required.

**Upper-class students** interested in taking the test should contact the Spanish department for information and instructions (spanish@swarthmore.edu or (610) 328-8143).

The Spanish Placement Test is not a substitute for an official standard achievement test of a foreign language (such as the College Board exams or the International Baccalaureate). Therefore, it does not serve as proof of achievement for the purpose of fulfilling the language requirement. This test is only intended to assist instructors in placing students in the appropriate Spanish courses at Swarthmore.

The Spanish Placement Test is required for all students, including students with AP/IB scores.

---

**Advancement Placement and International Baccalaureate Credit**

The department will grant 1 credit for incoming students who achieved a score of 4 or 5 on Advanced Placement Spanish examinations once they have successfully completed a one-credit course in Spanish at the College.

The department will grant 1 credit for incoming students who have achieved a score of 6 or 7 in a foreign language on the International Baccalaureate. Therefore, it does not serve as proof of achievement for the purpose of fulfilling the language requirement. This test is only intended to assist instructors in placing students in the appropriate Spanish courses at Swarthmore.

**Note:** Students with Spanish AP-IB scores are nonetheless required to take the online placement test.

---

**Off-Campus Study**

Off-campus study is an enriching intellectual experience when it is fully integrated into the student’s overall academic experience at Swarthmore. Since the principal educational advantages of study abroad are in-depth cross-cultural exposure and language learning, the best study abroad programs are those that maximize these benefits by fully immersing students in the host country’s culture and society. This goal can only be effectively achieved by choosing full immersion off-campus study programs. **Pursuing academic coursework in English in a Spanish-speaking country does not comply with the academic goals and mission of the Department of Spanish.**

Students on financial aid may apply that aid to designated programs of study abroad.

All Spanish majors and minors are required to complete an off-campus study program in a Spanish-speaking country. Swarthmore College offers students interested in studying abroad several programs listed on the department’s website. We strongly suggest that majors and minors as well as non-specialists meet with a Spanish faculty member to discuss the possibilities and find the program that best suits their academic needs and interests.

**Waiver of the study abroad requirement for students of Spanish:** Majors and minors of Spanish who cannot go abroad for one semester due to academic or other constraints should speak to the chair of the department to discuss their circumstances. In special cases, depending on the student’s language proficiency, the off-campus study requirement may be waived or fulfilled with a summer-long off-campus study program identified and approved by the department. For summer programs, only one relevant course taken abroad may count towards fulfillment of the minor or major. Please consult with the chair of the department if you have any questions.

The Department of Spanish encourages students to choose programs that build on previous language study. In order to be better prepared for academic work in Spanish, we recommend students take a **writing course in Spanish** (SPAN 008, SPAN 012, SPAN 022, or SPAN 023) at Swarthmore **prior to going abroad.**

Upon returning from abroad, majors or minors must enroll in an advanced literature course in the department.

---

**Spanish Courses**

Students wishing to major or minor in Spanish should plan their program in consultation with the department. Spanish is the only language used in class discussions, readings, and assignments in all courses, except in courses taught in English (LITR.S).

**Language Courses**

Our language courses give students ample opportunity for practice, encouraging the
development of communicative proficiency and cultural competency.

**SPAN 001. Elementary Spanish 001**
Students who start in the SPAN 001-002 sequence must complete 002 to receive credit for 001. This course is intended for students who begin Spanish in college. The first year of Spanish is designed to encourage the development of communicative proficiency through an integrated approach to the teaching of all four language skills: listening, reading, writing, and speaking. The course also helps students develop as global citizens. This is achieved through a range of activities, which asks students to explore and interpret authentic materials as well as engage in interpersonal and presentational communication. Note: SPAN 001 is offered in the fall semester only. The class is taught by one instructor, and meets 4 days per week (M/T/W/Th). Humanities.
1 credit.
Fall 2019. Staff.

**SPAN 002. Elementary Spanish 002**
Students who start in the SPAN 001-002 sequence must complete 002 to receive credit for 001. This course is intended for students who begin Spanish in college. The first year of Spanish is designed to encourage the development of communicative proficiency through an integrated approach to the teaching of all four language skills: listening, reading, writing, and speaking. The course also helps students develop as global citizens. This is achieved through a range of activities, which asks students to explore and interpret authentic materials as well as engage in interpersonal and presentational communication. Note: SPAN 002 is offered in the spring semester only. The class is taught by one instructor, and meets 4 days per week (M/T/W/Th). Humanities.
1 credit.
Spring 2020. Staff.

**SPAN 002B. Spanish for Advanced Beginners**
SPAN 002B is intended for those students who have had at least a year of Spanish but have not yet attained the level of SPAN 003. This accelerated course covers the materials of SPAN 001 / SPAN 002 in one semester, allowing for the review of basic concepts learned in the past. It encourages development of communicative proficiency through an interactive task-based approach, and provides students with an active and rewarding learning experience as they strengthen their language skills and develop their cultural competency. After completing this course, students will be prepared to take SPAN 003. Note: SPAN 002B is offered in the fall semester only. The class is taught by one instructor, and meets 4 days per week (M/T/W/Th). Humanities.
1 credit.
Fall 2019. Staff.

**SPAN 003. Intermediate Spanish**
This intermediate-level Spanish course continues to develop students’ functional, communicative language skills through reinforcement, expansion, and synthesis of the concepts learned during the first year. It seeks to develop students’ fluency and accuracy in order to express, interpret, and negotiate meaning in context. The course offers contextualized activities that review language and foster skill development, while at the same time, preparing students to continue their Spanish coursework and for real-life communicative tasks. Note: This class is taught by one instructor, and meets 3 days per week (T/W/Th). Prerequisite: SPAN 002 or SPAN 002B or the equivalent Humanities.
1 credit.
Fall 2019. Staff.
Spring 2020. Staff.

**SPAN 004. Advanced Spanish**
This course features a thematic approach that exposes students to current topics, and offers a comprehensive look at Spanish grammar through communication-oriented activities. It encourages students to build on their current Spanish language skills and learn more advanced grammar points. Students will improve their linguistic accuracy and develop their cultural knowledge and critical thinking skills in Spanish. SPAN 004 prepares students to take introductory writing courses in literature and culture. Note: The class is taught by one instructor, and meets 3 days per week (T/W/Th). Students who receive a final grade of "B" or below in SPAN 004 need to take SPAN 007, SPAN 008 or SPAN 012 as their next course. Students who receive a final grade of "B+" or higher in SPAN 004 may continue to any of the introductory literature/culture courses (SPAN 012, SPAN 022 or SPAN 023). Students should consult with their instructor to determine which one of these courses might be more beneficial to them. Prerequisite: SPAN 003 or the equivalent Humanities.
1 credit.
Fall 2019. Staff.
Spring 2020. Staff.

**SPAN 007. Spanish for the Professions**
This course offers students an introduction to the linguistic and cultural skills necessary for effective work in healthcare, business and legal professions in a Spanish-speaking setting within the United States or abroad. The course focuses on the development of functional use of Spanish within the professional contexts of healthcare, law and business, with an emphasis on vocabulary needed for the professional workplace, and grammar taught as a task-based practical skill. Students will
analyze and discuss real-world scenarios where cultural and language differences can hinder effective communication. Students will also practice strategies for successful written and oral communication in such scenarios. **This course can be taken at any point in your college career.**

Prerequisite: SPAN 004 or its equivalent.

**Spanish Conversation and Composition**

Recommended for students who have finished SPAN 004, have received a 5 in the AP/IB exam or want to improve Spanish oral and written expression. This is a practical course for writing and rewriting in a variety of contexts, and it will prepare the student to write at an academic level of Spanish. It includes a review of grammar and spelling, methods for vocabulary expansion, and attention to common errors of students of Spanish living in an English-speaking society. Films and literary texts will serve as a stimulus for advanced conversation with the goal of improving fluency and comprehension in Spanish.

Prerequisite: SPAN 004 or the equivalent or permission of the instructor.

**Introductory Courses**

Our writing courses enable students to move toward writing proficiency in Spanish and provide a panoramic view of the literary and cultural histories of the Hispanic world.

**SPAN 012. Imágenes y contextos hispánicos**

This course provides an introduction to the Hispanic world with an emphasis on its visual culture. The goal is to understand the key cultural processes that have shaped Latin America and Spain. We will begin by examining early contact between Europeans and Amerindian civilizations. We will analyze the history of the Christian, Jewish, and Muslim traditions in Spain had a great impact on how the Spanish colonial empire developed in the New World. We will then study the nation-building processes of the nineteenth century in Latin America, and continue on to more recent topics, such as the periods of war and postwar in Spain and some Latin American countries.

Students will develop advanced skills in written Spanish by completing several written assignments over the course of the semester.

Prerequisite: SPAN 004 or the equivalent or permission of the instructor.

**SPAN 008. Spanish Conversation and Composition**

This course can be taken at any point in your college career. Prerequisite: SPAN 004 or its equivalent.

**Humanities.**

**SPAN 015. First Year Seminar: Introduction to Latinx Literature and Culture**

(Cross-listed as LITR 015S, ENGL 009F, LALS 015)

This course is an introduction to the writings of Latino/as in the U.S. with emphasis on the distinctions and similarities that have shaped the experiences and the cultural imagination among different Latino/a communities. We will focus particularly in works produced by the three major groups of U.S. Latino/as (Mexican Americans or Chicanos, Puerto Ricans or Nuyoricans, and Cuban Americans). By analyzing works from a range of genres including poetry, fiction, film, and performance, along with literary and cultural theory, the course will explore some of the major themes in the cultural production of these groups. Topics to be discussed include identity formation in terms of language, race, gender, sexuality, and class; diaspora and emigration; the marketing of the Latino/a identity; and activism through art.

Offered each fall. Taught in English.

**Humanities.**

1 credit.

**Fall 2019. Diaz.**

**Fall 2020. Diaz.**

**SPAN 022. Introducción a la literatura española**

This course covers representative Spanish works from medieval times to the present. Works in all literary genres will be read to observe times of political and civic upheaval, of soaring ideologies and crushing defeats that depict the changing social, economic, and political conditions in Spain throughout the centuries. Each reading represents a particular literary period: middle ages, renaissance, baroque, neo-classicism, romanticism, realism, naturalism, surrealism, postmodernism, etc. Emphasis on literary analysis to introduce students to further work in Spanish literature.

This course has 2 sections: Section 1 on T/TH 8:30-9:45 and Section 2 on T/TH 9:55-11:10

Prerequisite: SPAN 004 or the equivalent or permission of the instructor.

**Fall 2019. Guardiola.**

**Fall 2020. Guardiola.**
SPAN 023. Introducción a la literatura latinoamericana
This introduction to the study of Latin American literature and related visual documentation will place special emphasis on the changing relationships between aesthetics and politics. We will analyze different genres and artistic styles that emerge within the sociocultural sphere in moments of political crisis, such as the independence from Spain, the Mexican and Cuban revolutions, the dictatorships of the Southern Cone, migration, and other contemporary social processes. Within this framework, we will discuss the work of major writers (Borges, García Márquez, Fuentes, Neruda) as well as emerging writers. Since we will also be mapping the representation of race, class, and gender, close attention will be given to selected works in literary theory, gender and queer theory, and cultural studies.
Prerequisite: SPAN 004 or the equivalent or permission of the instructor.
Humanities.
Writing course.
1 credit.
Eligible for LALS, GLBL-Paired.

Advanced Courses and Seminars
These courses explore specific trends and topics pertaining to the literatures and cultures of Spain, Mexico and Central America, South America, and the Hispanic Caribbean as well as those of Latino/a communities in the United States.
Students must have taken SPAN 022 or SPAN 023 before they can take an advanced literature, culture or film course in Spanish unless they receive special permission from the instructor. Courses numbered 040 to 089 belong to the same level of complexity, requiring the same level of preparation. The numbering does not imply a sequence.
Students wishing to take seminars must have completed at least one course in Spanish numbered 040 and above. Students are admitted to seminars on a case-by-case basis by the instructor according to their overall preparation.
SPAN 050. Afrocaribe: literatura y cultura visual
The African heritage has been an essential part in the constitution and evolvement of the Caribbean. This course will survey the Afro-Caribbean imagination mainly through the study of literary works and visual culture artifacts from the Hispanic Caribbean. We will analyze the political and economical forces that have affected the experience of Africans and African descents in the region and will study the relevance of Afro-Caribbean philosophy, religion, music, and other symbolic expressions in contemporary Caribbean culture and artistic experimentations. We will pay special attention to ideas of colonialism and subalternity; race, mestizaje, and nation; myth and performativity; and transculturation, syncretism and transvestism.
Readings, assignments, and class discussions will be in English. No prior knowledge of Spanish is necessary.
Humanities.
1 credit.
Eligible for LALS.

SPAN 052. Afro-Caribbean Literature and Visual Culture
(Cross-listed as LITR 052S and LALS 052)
The African heritage has been an essential part in the constitution and evolvement of the Caribbean. This course will survey the Afro-Caribbean imagination mainly through the study of literary works and visual culture artifacts from the Hispanic Caribbean. We will analyze the political and economical forces that have affected the experience of Africans and African descents in the region and will study the relevance of Afro-Caribbean philosophy, religion, music, and other symbolic expressions in contemporary Caribbean culture and artistic experimentations. Fall 2019. Díaz.

SPAN 055. Puerto Rico y su discurso literario
Puerto Rico is one of the last standing colonies in the world. Puerto Rican and Nuyorican artists and writers have faced their anachronistic status with intelligence, inventiveness and humor. This class will study the Puerto Rican imagination through the analysis of a range of works, including narrative, theater, creative essays, as well as film and the visual arts. We will focus particularly on 20th- and 21st-century works produced by both mainland and diaspora creators. We will pay special attention to the relationship between aesthetics, nationalism and colonialism, diaspora, race and gender.
Prerequisite: SPAN 022, SPAN 023, the equivalent, or permission of the instructor.
Humanities.
1 credit.
Eligible for LALS.

SPAN 056. Don Quijote
Cervantes’ Don Quijote is often read as a funny book, with readers laughing at characters while the characters laugh at one another. But laughter in
Spanish

*Don Quijote* is a complicated thing, related not only to light-hearted humor but also to brutal physical violence and biting social and aesthetic critique. In this course we will explore the nature and function of laughter in Cervantes’ novel as well as situate our own readings within a context of the history of ideas about laughter through weekly discussions of short texts by authors such as Plato, Aristotle, Hobbes, Nietzsche, Freud and Foucault.

Taught in Spanish.
Prerequisite: SPAN 022, SPAN 023, the equivalent, or permission of the instructor.

Humanities.
Writing course.
1 credit.

**SPAN 057. Performing Latinidad: Latinx Theater, Film and Performance Art**
(Cross-listed as THEA 007, LITR 057S and LALS 057)

This course will introduce students to Latinx performance in the U.S., from the mid-20th century to today. Students will study different modes of performances such as theater, film, the work of performance artists and everyday performances (such as political events) through various Latinx lenses. Following a critical performative pedagogy, the class will combine seminar-style discussions with performance workshops. Topics covered will include the representation and embodiment of gender and race, acts of decolonization, memory construction and diasporic experiences, citizenship and community building, and the politics of *latinidad*.

By analyzing these and other relevant issues through discussions and performance exercises, we will be able to survey the state of contemporary Latinx performance in the U.S. while gaining a better understanding of the connection between performance theory and practice, and the relevance of performance in everyday aesthetics and life.

This course is taught in English.
Prerequisite: No prerequisites required.

Humanities.
1 credit.
Eligible for LALS

**SPAN 058. Human Monsters: Representations of the Limits of Humanity in the Early Modern World**
(Cross-listed as LITR 058S)

What does it mean to be human? What does it mean to be a monster? Under what conditions and at what point does one exceed or not meet the standards of humanity and become a monster? Focusing on the so-called ‘Age of Exploration,’ this course examines the ways in which authors, artists, politicians and philosophers imagined the limits between the human and the monstrous during the early modern period. Ranging from classical mythology and the medieval worldview to Renaissance drama and the chronicles of the discovery of the New World, we will consider the physical, psychological and cultural boundaries of the human and the monstrous, as well as explore the ways these identities shift across time and space and have a continuing impact on the way with think of otherness today.

Taught in English. No prior knowledge of Spanish is necessary. This class is open to all students, without prerequisites.

Humanities.
1 credit.
Eligible for LALS

**SPAN 059. Romper las reglas: la transgresión en la temprana modernidad**

The early modern period in Spain is one marked by the construction of political borders, geographical boundaries, social identities and linguistic and cultural norms. However, there is also a strong countercurrent of transgression, rule-breaking and even rebellion. Through readings of medieval epic and lyric poetry, the crónicas of discovery, and Golden Age drama, poetry and narrative, this course will explore the ways in which literature worked against the grain in early modern Spain in order to critique or undermine dominant power structures and ideology.

Prerequisite: SPAN 022, SPAN 023, the equivalent, or permission of the instructor.

Humanities.
Writing course.
1 credit.

**SPAN 060. Memoria e identidad**

This course will focus on memory making as an identity building agent. We will study literary texts, films and other cultural artifacts to commemorate the silenced voices of the past. The work of several Spanish authors, film directors and intellectuals of the last decades, who try to recover the silenced voices of the past in an effort to contest the "rhetoric of amnesia", so persistent in the early transition to democracy in Spain, will be studied through close readings and a theoretical component. Special emphasis will be placed on the role of memory in literary, film and cultural narratives to build national identity.

Prerequisite: SPAN 022, SPAN 023, the equivalent, or permission of the instructor.

Humanities.
1 credit.
Eligible for PEAC

**SPAN 061. El "otro": voces y miradas múltiples**

This course is an overview of literary and artistic expressions as a response of the presence of the "other", contributing to build a collective cultural
imaginary of a diverse society where immigration is a compelling influence. Migrant movements within and outside Spain, and their impact on transforming Spanish society, will be studied in theatre, film and literature. The imaginary vision of the "other" will be unveiled as an integral part of the imagined self-identity. Through different readings and visual art forms we will observe the challenge to identity definition caused by an array of people from different races, cultures and religions.

Prerequisite: SPAN 022, SPAN 023, the equivalent, or permission of the instructor.

1 credit.
Eligible for LALS, GLBL-Paired
Fall 2019. Guardiola.

SPAN 062. The Politics of Latinx Art and Activism
(Cross-listed as LITR 062S and LALS 062)
(Art)ivism, or the practice of social and political activism through art and artistic devices, has been fundamental for the development and strengthening of Latinx communities in the US since the beginning of the Chicano movement until today when Latinx writers and artists are actively involved in politically contentious issues such as racial discrimination, gender equality, immigration rights, environmental justice, among others. In this course, we will explore and discuss the work of established and emergent Latinx writers and artists that engage in practices of artivism trying to expose, better understand and fight the many forms of injustice and oppression faced by Latinx communities while promoting practices of radical democracy. Activists such as Gloria Anzaldúa, Guillermo Gómez Peña, Tania Bruguera, Favianna Rodriguez, Daniel Alarcón, among others, use their art not only to raise awareness about social injustices and oppression; their works function also as springboards for community building, solidarity, and political action that can have lasting impacts. The work of many activists will also open the door to discuss how non-traditional forms of literary and artistic expression such as street art, spoken word, performance art, and artistic pedagogical projects are powerful forms of political intervention and citizenship participation. Furthermore, we will discuss issues such as the relevance of art in the contemporary world, the reception and distribution of politically engaged art, the ethics of artivism, and the importance of pedagogical practices based on a radical democracy model.

This course is taught in English.

Prerequisite: No pre-requisites required.

1 credit.
Eligible for LALS

SPAN 069. Cartografías urbanas
The city as a cultural artifact offers writers myriad narrative possibilities: mere location, cultural symbolism or the link for values and concepts that determine the human being’s place in its own society and historical moment. We will explore cultural representations of the city as an icon of industrialization in the nineteenth century and the declining of the modern city and its narratives in post-industrial and post-colonial times. Cultural cartographies of the city will help us to better understand new urban configurations and subjectivities. The discussion will focus on Madrid, Barcelona and other Spanish cities of the 19th, 20th and 21st centuries. We will see urban representations in novels by Galdós, Pardo Bazán, Baroja, Lafont, Cela, Rodoreda, Roig, Mendoza and representative films.

Prerequisite: SPAN 022, SPAN 023, the equivalent, or permission of the instructor.

1 credit.
Fall 2020. Guardiola.

SPAN 071. The Short Story En Las Américas
(Cross-listed as LITR 071S and ENGL 071A)
This team-taught course will offer a wide-ranging overview of the short story in the Americas from a comparative perspective, emphasizing continuities and also identifying areas of innovation and transformation. The course will begin in the early 19 th century with masters whose daring work in this "minor" form gave the short story new prominence in literary history: Poe, Hawthorne, and Chesnutt. Later, the class will focus on Quiroga and Borges whose innovations redefined the genre, and moved Latin American fiction into the forefront of world literature.

By focusing on close reading and class discussions, we will seek to discover the distinctive characteristics of the short story, and outline its development and transformation across the continents. Does the short-story bind together the diverse literatures of the United States and Latin America? How should we identify and understand parallels between the works in English and those in Spanish? How should we explain contrasts? Of particular interest will be dialogues and influences crossing languages and literary traditions: Poe and Horacio Quiroga; Hemingway and Borges; Borges/Cortázar inspiring Barth; Rulfo’s and García Márquez’s (and others’) influences on US-based Latinx writers.

Readings, assignments, and class discussions will be in English. No prior knowledge of Spanish or Portuguese is necessary. This class is open to all students, without prerequisites.

1 credit.
Eligible for LALS

SPAN 076. Narrativas latinoamericanas: identidad y conflicto cultural
This class traces the development of the contemporary Latin American novel, considering its representation of regional, national, and individual identity. Works include novels from Argentina, Brazil, Chile, Colombia, Peru, and Venezuela. The selected novels present different strands of cultural conflict due to the simultaneous presence of markedly different modes of identity.
Several primary questions will guide our analysis of the course texts: What is identity? How are national and regional identities constructed and why? What are the socio-historical, cultural and political influences on identity? What does the study of the Latin American novel reveal about Mexican identity and culture. Topics include: political disenchantment, solitude, class division, gender roles, national myths, and identity construction.
Prerequisite: SPAN 022, SPAN 023, the equivalent, or permission of the instructor.
Humanities.
1 credit.
Eligible for LALS, GLBL-Paired, GSST
Fall 2019. Martínez.

SPAN 079. García Márquez y su huella
This course examines the work of Nobel Prize winner Gabriel García Márquez (1927-2014), and his literary influence on a younger generation of Colombian writers.
García Márquez has been involved in many of the crucial literary, political and cultural issues of this era, in Colombia, Latin America and globally. His work exemplifies these conflicts and ranges from so-called realismo mágico (Cien años de soledad) to historical fiction (El general en su laberinto) and documentary writing (Relato de un náufrago).
We will read his major novels, and works by Laura Restrepo, William Ospina, Fernando Vallejo and Juan Gabriel Vázquez. The goal is not to trace the inheritance of the Macondian imaginary world, but rather to reflect on a particular understanding of literary genres, and the power of fiction to represent social, economic and political challenges.
Prerequisite: SPAN 022, SPAN 023, the equivalent, or permission of the instructor.
Humanities
1 credit.
Eligible for LALS, GLBL-Paired, GSST
Fall 2019. Martínez.

SPAN 080. Los hijos de la Malinche: Representaciones culturales de la Revolución Mexicana
This course will examine the representations of the Mexican Revolution in novels, short stories, essays, theatre, films, and corridos by Mexican authors and artists. We will pay attention to the complexity of perspectives generated by this sociopolitical upheaval, whose legacy has been riddled with ambivalence. The objective is to gain a critical understanding of how and why the Revolution became such a fundamental part of Mexican identity and culture. Topics include: political disenchantment, solitude, class division, gender roles, national myths, and identity construction.
Prerequisite: SPAN 022, SPAN 023, the equivalent, or permission of the instructor.
Humanities.
1 credit.
Eligible for LALS

SPAN 095. Spanish Culminating Exercise
Spanish majors will register in this course in the spring semester of their senior year to prepare their Spanish final paper. Students are urged to have their paper proposals approved as early as possible during the fall semester of their senior year.
Permission of the Department Chair and a supervising Spanish professor is needed. Offered every spring.
0.5 credit.
Spring 2020. Staff.
Spring 2021. Staff.

SPAN 105. Federico García Lorca
We will examine the masterful literary production of this internationally known Spanish writer who speaks to the "outcasts." Lorca’s work synthesizes traditional Spanish themes and values with contemporary European trends. The readings will cover different periods and genres of Lorca’s literary production in works of poetry such as Romancero Gitano and Poeta en Nueva York, and dramatic works, including Doña Rosita la soltera, Yerma, La casa de Bernarda Alba, Bodas de sangre, and others.
Humanities.
2 credits.

SPAN 108. Jorge Luis Borges
This seminar focuses on Jorge Luis Borges, one of the most influential writers of the 20th century. He devoted his entire life to literature, as a writer but also as an irreverent and subversive reader. None of his lines, none of his declarations happened inadvertently. Hated or held dear, Borges is incessantly quoted. The objective of this course is to read Borges from the double perspective required by his worldwide fame: as a universal writer who transcends national borders, but also as a writer that seeks to reinvent the history and the traditions of his own country, Argentina.
Humanities.
2 credits.
Eligible for LALS, INTP
Spanish Courses Taught in English

Spanish majors may count one course taught in English from the courses listed below towards the fulfillment of their course major requirements. Courses taught in English will not count towards fulfillment of the minor.

LITR 015S. First Year Seminar: Introduction to Latinx Literature and Culture
(Cross-listed as SPAN 015, ENGL 009F, LALS 015)
This course is an introduction to the writings of Latino/as in the U.S. with emphasis on the distinctions and similarities that have shaped the experiences and the cultural imagination among different Latino/a communities. We will focus particularly in works produced by the three major groups of U.S. Latino/as (Mexican Americans or Chicanos, Puerto Ricans or Nuyoricans, and Cuban Americans). By analyzing works from a range of genres including poetry, fiction, film, and performance, along with literary and cultural theory, the course will explore some of the major themes in the cultural production of these groups. Topics to be discussed include identity formation in terms of language, race, gender, sexuality, and class; diaspora and emigration; the marketing of the Latino/a identity; and activism through art.

LITR 057S. Performing Latinidad: Latinx Film, Theater & Performance Art
(Cross-listed as SPAN 057 and LALS 057)
Richard Schechner sums up the notions of performance and performativity as "embodied behaviors". Embodied behaviors are at the center of the expression and representation of all sort of identities (gender, racial, ethnic, political) and other concepts and practices like ideology, memory, political resistance, citizenship, belonging, and everyday aesthetics. This course will study the notion of Latinidad through the analysis of politically engaged performances, that is, through "embodied behaviors" that represent, reinforce, and resist the expression of Latino/a/x identities and politics. To do so we will study films, stage plays, the work of performance artists and everyday performances (such as political events) while asking questions such as: How is Latinidad represented and performed in different contexts across our society? What are the uses, misuses, and politics surrounding the performance of Latinidad? What does it mean to be/behave like a Latino/a/x? What is the role of performances in other forms of identity expression such as memory construction, community building, and citizenship participation? In addition to the in-class discussions of theory texts, films, and plays, the course will offer opportunities to interact directly with performance artists and scholars.
This course is taught in English.
Prerequisite: No prerequisites required.
Humanities.
1 credit.
Eligible for LALS

LITR 058S. Human Monsters: Representations of the Limits of Humanity in the Early Modern World
(Cross-listed as SPAN 058)
What does it mean to be human? What does it mean to be a monster? Under what conditions and at what point does one exceed or not meet the standards of humanity and become a monster? Focusing on the so-called ‘Age of Exploration,’ this course examines the ways in which authors, artists, politicians and philosophers imagined the limits between the human and the monstrous during the early modern period. 1 credit.

Eligible for LALS

LITR 071S. The Short Story En Las Américas
(Cross-listed as SPAN 071 and ENGL 071A)

This team-taught course will offer a wide-ranging overview of the short story in the Americas from a comparative perspective, emphasizing continuities and also identifying areas of innovation and transformation.

The course will begin in the early 19th century with masters whose daring work in this "minor" form gave the short story new prominence in literary history: Poe, Hawthorne, and Chesnutt. Later, the class will focus on Quiroga and Borges whose innovations redefined the genre, and moved Latin American fiction into the forefront of world literature.

By focusing on close reading and class discussions, we will seek to discover the distinctive characteristics of the short story, and outline its development and transformation across the continents. Does the short-story bind together the diverse literatures of the United States and Latin America? How should we identify and understand parallels between the works in English and those in Spanish? How should we explain contrasts? Of particular interest will be dialogues and influences crossing languages and literary traditions: Poe and Horacio Quiroga; Hemingway and Borges; Borges/Cortázar inspiring Barth; Rulfo’s and García Márquez’s (and others’) influences on US-based Latinx writers.

Readings, assignments, and class discussions will be in English. No prior knowledge of Spanish or Portuguese is necessary. This class is open to all students, without prerequisites.

Humanities.

K. ELIZABETH STEVENS, Associate Professor, Chair
ALLEN KUHARSKI, Professor
MATT SAUNDERS, Associate Professor
LAILA SWANSON, Assistant Professor, Co-Chair for Production
BARBARA WYSOCKA, Cornell Visiting Professor
MICHAL ZADARA, Cornell Visiting Professor
ELIZABETH ATKINSON, Visiting Assistant Professor (part time)
GABRIEL QUINN BAURIEDEL, Visiting Assistant Professor (part time)
JAMES MAGRUDER, Visiting Assistant Professor (part time)
ALEX TORRA, Visiting Assistant Professor (part time)
ADRIANO SHAPLIN, Visiting Instructor (part time)
JAMES MURPHY, Associate in Theater Performance (part time)
TARA WEBB, Visiting Instructor (part time), Costume Shop Manager
SCOTT CASSIDY, Production Manager and Technical Director
MICHAEL LAMBU, Production Intern
JEAN TIERNO, Administrative Assistant

1 Absent on leave, Fall 2019.

Theater major uses the study of all aspects of performance as the center of a liberal arts education. It is intended to be of broad benefit regardless of a student’s professional intentions. All courses in the department address the processes of play production, especially as they involve collaboration; all production for performance in the department is part of coursework. Theater Department emphasizes writing as an important aspect of discursive thinking and communication. Many courses have a significant writing component, the nature of which varies from course to course.

The Academic Program

Planning a major or minor in theater requires thoughtful care and deliberate planning. First- and second-year students thinking about a theater major should read these requirements and recommendations closely and should consult with their faculty advisor or the chair of theater Department early and often. Leave schedules, study abroad, a wide variety of intern and apprentice programs, and the importance of course sequences make long-range planning essential. Almost all theater courses and seminars are offered on a regular, annual schedule. Courses numbered 001 to 010 are introductory and are prerequisite to intermediate courses. Courses numbered 011 to 049 are intermediate and are prerequisite to advanced courses numbered 050 through 099. Seminars carry numbers 100 and above. Intermediate work in each of the course sequences requires a beginning course in that area. Some advanced courses carry additional prerequisites that are listed in the course descriptions.

For those majors who intend a career in theater, whether academic, not-for-profit, or commercial, internships in professional theaters are strongly recommended. Because of scheduling difficulties, students should plan and apply for internships, time spent off campus, and community projects as far in advance as possible. Alumni guest artists are typically in residence on campus during the summer as part of the Swarthmore Project in Theater. Positions are usually available in production, development, public relations, marketing, box office, and house or stage management. Positions are usually not available in acting, directing, or design.

First course recommendations

THEA 001, Theater and Performance provides an understanding and appreciation of the importance of live performance in the world. It introduces the various aspects and elements of theater as it is practiced today while helping you to identify areas of interest so you can pursue them further. The class will attend live performances, read plays and critical texts, participate in performance workshops, and focus on the process of writing effectively about theater and performance. This is a writing course that fulfills a general requirement for all theater major and minors. Next offered in Fall 2020.

THEA 002A, Acting I is designed as a practical introduction to some of the principles, techniques, and tools of acting using theater games and improvisational exercises to unleash the actor’s imagination, expand the boundaries of accepted logic, encourage risk-taking, and free the body and voice for the creative process. This course is open to all students without audition and requires no previous experience. It fulfills a general requirement for all Theater majors and minors and is a prerequisite for several intermediate courses.
THEA 004 courses in design (THEA 004A Set Design; THEA 004B, Lighting Design; THEA 004C, Costume Design; THEA 004D, Integrated Media; THEA 004E Sound Design) are introductory in nature, have no prerequisite, and require no previous experience. These are hand-on courses that introduce students to various aspects of creating live theater and may lead to independent projects and/or opportunities to design for Theater Department productions under the mentorship of the Department’s faculty. Design courses fulfill a general requirement for all Theater majors and minors.

THEA 006, Playwriting Workshop introduces students to essential elements of dramatic writing. In-class writing exercises and weekly assignments lead to the development of character monologues, scenes, and two original one-act plays. Students will explore their individual creative voice, learning how to translate their visions through character, image, and story. This course is open to all students without prerequisite and requires no previous experience. Playwriting Workshop fulfills a general requirement for all Theater majors and minors.

Course Major
Requirements
Nine credits of work including:
- THEA 001: Theater and Performance (formerly called Introduction to Theater)
- THEA 002A: Acting I (or ARTT 001: Foundation Drawing for design-emphasis students)
- Any Course in Design (THEA 004A, THEA 004B, THEA 004C, THEA 004D, THEA 004E)
- THEA 015: Performance Theory and Practice or THEA 021A: Fundamentals of Dramaturgy
- THEA 022: Production Ensemble (or THEA 034: Special Project in Design)
- THEA 099: Senior Company
- THEA 106: Theater History Seminar or THEA 121: Dramaturgy Seminar
- One additional credit in acting, design, playwriting, solo performance, directing, dramaturgy or theater history
- Technical/Crew Hours (approximately 40 hours, to be arranged with Production Manager Scott Cassidy or Costume Shop Manager Tara Webb)

NB: Theater majors must complete written and oral comprehensive exams in the spring of the senior year.
The areas of specialization are acting, solo performance, directing, design, playwriting, dramaturgy, and theater history. Special arrangements will be made for students who seek secondary school certification. Prospective majors should consult with the chair or their department advisor about their choice.

In addition to these course requirements, the major includes a comprehensive examination in two parts: (1) an essay relating the student’s experience in Senior Company; and (2) an oral examination on the essay and related subjects by theater faculty.

Course Minor
Course minors are required to take 6.0 credits of work including:
- THEA 001: Theater and Performance (formerly called Introduction to Theater)
- THEA 002A: Acting I (or ARTT 001: Foundation Drawing for design-emphasis students)
- Any Course in Design (THEA 004A, THEA 004B, THEA 004C, THEA 004D, THEA 004E)
- THEA 015: Performance Theory and Practice or THEA 021A: Fundamentals of Dramaturgy
- THEA 022: Production Ensemble (or THEA 034: Special Project in Design)
- One additional credit in acting, design, playwriting, solo performance, directing, dramaturgy or theater history
- Technical/Crew Hours (approximately 40 hours, to be arranged with Production Manager Scott Cassidy or Costume Shop Manager Tara Webb)

NB: Theater majors must complete written and oral comprehensive exams in the spring of the senior year.

Honors Major
General requirements include:
- THEA 001: Theater and Performance (formerly called Introduction to Theater)
- THEA 002A: Acting I (or ARTT 001: Foundation Drawing for design-emphasis students)
- Any Course in Design (THEA 004A, THEA 004B, THEA 004C, THEA 004D, THEA 004E)
- THEA 015: Performance Theory and Practice or THEA 021A: Fundamentals of Dramaturgy
- THEA 022: Production Ensemble (or THEA 034: Special Project in Design)
- THEA 099: Senior Company
- THEA 106: Theater History Seminar or THEA 121: Dramaturgy Seminar
- One additional credit in acting, design, playwriting, solo performance, directing, dramaturgy or theater history
Theater

- Two additional thesis projects or seminars to be arranged individually in consultation with the student’s major advisor.
- Technical/Crew Hours (approximately 40 hours, to be arranged with Production Manager Scott Cassidy or Costume Shop Manager Tara Webb)
- NB: Theater majors must complete written and oral comprehensive exams in the spring of the senior year.

Each major will choose an area of specialization and take one additional course in that area. One specialization will constitute the normal honors major in theater. Honors students will take Senior Company THEA 099 the fall of senior year while they are planning their production project. The usual schedule will be: Theater Seminar in the spring of junior year; fall of senior year, and pre-rehearsal thesis project preparation in the fall of senior year; and, rehearsal and performance of thesis project in the spring of senior year. Double majors taking three examinations in theater will also follow that schedule. For double majors taking one honors examination and comps in theater, the examination may be a production project, depending on available resources.

Approval of the Sophomore Plan for any honors major is conditional upon:
- the student maintaining good academic standing through the end of the junior year.
- theater honors majors approved for production thesis projects in the senior year are required to notify the department chair of their intention to drop or change their Honors Program by the end of the junior year.
- an honors major in theater must receive the approval of their major advisor before committing to any extracurricular or off-campus projects during the junior or senior year in order to avoid potential conflicts with their honors thesis work.
- students who prove unable to fulfill the expectations of the faculty for their Honors Programs in theater may be dropped from honors at the department’s discretion.
- unless for reasons of health or other personal circumstance beyond the student’s control, leaving the department’s Honors Program after the end of the junior year is considered a significant compromise of a student’s academic performance.

Honors students majoring in theater will typically make a total of three preparations as follows:
1. Seminar (listed earlier), written examination, and an oral set by an outside examiner.
2. Production project in one of the following fields: Acting, Design, Directing, Dramaturgy, Playwriting, or Solo Performance (see descriptions below).
3. A third preparation for honors will be approved at the discretion of the faculty at the end of the student’s junior year.

In the student’s Sophomore Plan of study and again in the junior year, they will be asked to indicate their first and second preference for their third honors preparation, only one of which may be for an additional production thesis. In addition to thesis preparations in the form of performance projects, the third preparation may consist of a second seminar, staged readings in playwriting or production dramaturgy, portfolio projects in design, written thesis work in performance theory, playwriting, dramaturgy, etc. Due to scheduling and staffing constraints, the department can only guarantee one individual performance thesis project per student. Decisions on the third preparation in honors will be made on a case-by-case basis, in part on the quality and completeness of each student’s coursework in the department through the end of the junior year.

Acting
The student, together with their advisor, will undertake a project that will take place over the course of two semesters. The fall semester will consist of a series of workshops and assignments designed to further develop the critical and practical skills required for performance. This preparatory work in the fall semester will be put to use in the spring through the production of a play or performed by the students and directed by the acting faculty. An external examiner will attend as many rehearsal sessions as possible to observe the student’s process. The examiner also attends one or more of the public performances. The examination proper will consist of an extended interview directly following the performance and a briefer oral during honors weekend. The subject of the first interview will be the student’s processes as he or she relates to the production. The second oral will concern the student’s assessment of the entire process as a part of his or her undergraduate education and future plans.

Design
The student will function as the designer for a production presented by theater Department in one area of design. The student will produce appropriate preparatory materials for this project (research, sketches, color renderings, drafting, models, digital media, light or sound plots, etc.). Because this is a collaborative project, a production time line will need to be prepared and production meetings scheduled. In addition to the development of the design, the student will collaborate with all relevant staff and craftsmen during the fabrication stage, ensuring the full-scale design is executed as designed. The local
instructor will supervise these activities appropriately, on the model of a special project in theater. The external examiner will receive copies of all materials as the student creates them and will pay close attention to the way in which the project develops under continual revision. The examiner will attend one of the public performances and in advance of honors weekend will receive in digital form the student’s completed portfolio for presentation. The examination proper will consist of an extended interview directly following the performance and a briefer oral during honors weekend. The subject of the first interview will be the student’s processes as he or she relates to the production. The second oral will concern the student’s assessment of the entire process as a part of his or her undergraduate education and future plans.

The student may also prepare a portfolio project in design as an honors thesis, with all appropriate studio work but without being linked to a specific production in the department. Such a project permits the student to create a project beyond the givens of the department’s specific production environment.

**Directing**

The student will, under faculty supervision, read around a given playwright’s work, make a director’s preparation for the entire play, and rehearse for public presentation a locally castable portion of the chosen play. Original developmental projects may be proposed, subject to the approval of the faculty advisor for thesis. The department will hire a professional collaborator (usually an actor) for a set number of rehearsal hours in connection with the project. The instructor will supervise these activities appropriately, on the model of a special project in theater. The external examiner will visit this project several times (depending on schedule and available funds). These visits (to rehearsal or planning session) will not include feedback from the examiner. The examiner attends rehearsal to know as much as possible about the student’s methods of making the work. The examiner also attends one or more of the public performances. The examination proper will consist of an extended interview directly following the performance and a briefer oral during honors weekend. The subject of the first interview will be the student’s processes as he or she relates to the production. The second oral will concern the student’s assessment of the entire process as a part of his or her undergraduate education and future plans.

**Dramaturgy**

This project will be done in one of the following ways:

1. As a production project in the form of a one-credit attachment to the Fundamentals of Dramaturgy class (THEA 021A) or Production Dramaturgy Seminar (THEA 121) consisting of work with a faculty or student director. This will typically be in connection with Production Ensemble (THEA 022) or an honors thesis in directing. The student will create a body of writing appropriate to the specific project. This will include (but is not limited to) notes on production history, given circumstances, script analysis, program and press-kit notes, study guide, and a grant proposal. The student’s work will continue in rehearsal. The external examiner will receive all materials as they are generated. The examiner also attends one or more of the public performances. The examination proper will consist of an extended interview directly following the performance and a briefer oral during honors weekend. The subject of the first interview will be the student’s processes as he or she relates to the production. The second oral will concern the student’s assessment of the entire process as a part of his or her undergraduate education and future plans.

2. The completion of a stage adaptation of a non-dramatic text or combination of texts. A complete draft of the adaptation will be completed under the supervision of a faculty member in production dramaturgy, and a staged reading of a revised version of the text will be presented in collaboration with a professional director as guest artist. This is a two-credit thesis project to be completed over two semesters in the senior year, generally parallel to the honors thesis model for playwriting. The examiner will attend at least two rehearsals and the final staged reading, in addition to reading the final text and its original source. The examination will consist of an extended oral presentation given during honors weekend.

3. Students fluent in a second language can apply to do a translation of a play into or out of English as an honors thesis attachment to Production Dramaturgy. This may be a one-credit attachment for a written draft only (done with a member of the faculty) or as a two-credit thesis with a staged reading done in collaboration with a guest director, as in the adaptation thesis above. In the case of a staged reading, the examiner will attend at least two rehearsals and the final staged reading, in addition to reading the final text together with the original source. The examination proper will consist of an extended interview directly following the performance and a briefer oral during honors weekend. The subject of the first interview will be the student’s processes as he or she relates to the production. The second oral will concern the student’s assessment of the
Theater

entire process as a part of his or her undergraduate education and future plans.

Playwriting
The student will write a complete draft of a play over the course of a semester in collaboration with a faculty member or other professional production dramaturge. In a second semester, the department will hire a professional director for a set number of rehearsal hours in preparation for a staged reading, with whom the student will work through a rehearsal and revision process based on the earlier work with the production dramaturgy. The faculty advisor and/or the production dramaturgy faculty will continue to assist during the rehearsal/revision process. The external examiner will read the completed first draft and attend as many rehearsal sessions as possible and the final staged reading to observe the student’s writing and collaborative process. The examination proper will consist of an extended interview directly following the staged reading, the reading of the student’s revised draft based on the rehearsal process and performances, and a briefer oral examination during honors weekend. There is also the option of a purely written playwriting thesis preparation, without the production component.

Solo Performance
The student, with guidance from their advisor, will create and perform a solo performance. The program will hire a professional director for a set number of rehearsal hours, which the student will supplement with practice and other writing, acting, and design "homework." The advisor will assist in this work on a regular basis. The external examiner will attend as many rehearsal sessions as possible to observe the student’s process. The examiner attends rehearsal to know as much as possible about the student’s methods of making the work. The examiner also attends one or more of the public performances. The examination proper will consist of an extended interview directly following the performance and a briefer oral during honors weekend. The subject of the first interview will be the student’s processes as he or she relates to the production. The second oral will concern the student’s assessment of the entire process as a part of his or her undergraduate education and future plans.

Honors Minor
Seven credits of work including:

- THEA 001: Theater and Performance (formerly called Introduction to Theater)
- THEA 002A Acting I (or ARTT 001: Foundation Drawing for design-emphasis students)
- Any Course in Design (THEA 004A, THEA 004B, THEA 004C, THEA 004D, THEA 004E)
- THEA 015: Performance Theory and Practice or THEA 021A: Fundamentals of Dramaturgy
- One additional credit in acting, design, playwriting, solo performance, directing, dramaturgy or theater history
- Theater Seminar (THEA 100-level) or two-credit Honors thesis in Dramaturgy (THEA 180E - THEA 181E) or two-credit Honors thesis in Playwriting (THEA 180C - THEA 181C)
- Technical/Crew Hours (approximately 40 hours, to be arranged with Production Manager Scott Cassidy or Costume Shop Manager Tara Webb)

Honors minors who complete these requirements and complete a sequence in acting, design, directing, or playwriting/dramaturgy by the end of the junior year may petition to enroll in THEA 099: Senior Company in the fall semester of their senior year.

There is an option for students to pursue a course major in conjunction with an Honors minor, in which case the student may be eligible for an individual thesis project along the lines of those described for honors majors above. Interested students should discuss the details of this with their major advisors before preparing their sophomore papers.

Department Policies for All Theater Majors and Minors
Co-curricular and extracurricular work in theater Department, although not specifically required, is strongly recommended for majors. Opportunities include paid and volunteer staff positions with the department, in-house projects for various classes, production work in The Eugene M. and Theresa Lang Performing Arts Center, and Drama Board productions.

While theater faculty recognizes the value of co-curricular and extra-curricular performance work by students, such commitments at times can create serious stress and scheduling conflicts that can negatively impact a student’s health and academic performance. The department therefore requires all majors and minors to receive written pre-approval from either their advisors or the chair before committing to any performance work outside of the department.

In the case of conflicts for students between dress rehearsals or performances in the department and other classes, the faculty will gladly make arrangements for excused absences with professors in other departments. Students should alert the department faculty about any such conflicts in the first weeks of rehearsals for any given production in the department, and never less than two weeks before the date of the conflict with dress rehearsals.
Working consistently with faculty on such time-management issues is essential for all rising theater majors and minors, and is of the highest priority for students planning to participate in the Honors Program.

With respect to the 20-course rule, courses in dramatic literature taught in the English Literature, Classics, or Modern Languages and Literatures departments may be designated as part of the major. Courses in non-dramatic literatures taught in those departments will not be considered part of the major.

**Theater Courses**

**Introductory Courses**

All introductory courses are open to all students without prerequisite.

**THEA 001. Theater and Performance**

An introduction to the practice of live theater. We will study many different approaches to the making and critique of a variety of kinds of theater and performance. This class should give you an understanding and appreciation of the importance of live performance in the world, an introduction to the various aspects and elements of theater as it is practiced today, and help you identify areas of interest so you can pursue them further. We will attend live performances and watch videos in class. We will also read plays and critical texts, participate in performance workshops, and focus on the process of writing effectively about theater and performance.

Fulfills a general requirement for all theater majors and minors.

Humanities.

Writing course.

1 credit.

Fall 2019. Not offered. See THEA 011B.

THEA 002A. Acting I

This course is designed as a practical introduction to some of the principles, techniques, and tools of acting. We will use theater games and improvisational exercises (from Stanislavsky, Viola Spolin, Uta Hagen and other sources) to unleash the actor’s imagination, expand the boundaries of accepted logic, encourage risk taking, and free the body and voice for the creative process. We will also focus on beginning to analyze text, understanding scene-work and monologues in relation to an entire play, listening and responding to self, others and space, and developing the ability to play actions. Finally, each student will have the opportunity to test our principles of work through one scene with a partner, no longer than ten minutes, to be assigned by the instructor. This scene will be performed in front of the class.

Fulfills a general requirement for all theater majors and minors.

THEA 004A. Set Design

This course will focus on set design and introduce methods that apply to designing for stage. In class, we will take a look at the set designer’s responsibilities as an artist and collaborator and explore the relationship between text, concept, and production in addition to learning the basic skills of drafting and model making. A lab component of this class will include an introduction to computer drafting and additional information about materials used for stage construction. The course is designed to serve all students regardless of prior experience in theater production.

Fulfills a general requirement for all theater majors and minors.

Humanities.

1 credit.

THEA 004B. Lighting Design

This class explores the fundamentals of lighting design. The course objective is to introduce lighting concepts and how to express them for both theater and dance. It is intended to demystify an enormously powerful medium. Reading and class discussion provide a theoretical basis for such creativity while the assignments and projects provide the practice for this artistic endeavor. The course is designed to serve all students regardless

THEA 004C. Costume Design and Costume History: The Greeks
This course will focus on costume design and introduce methods that apply to designing for stage in general. In class, we will read and design for two original Greek plays and one modern adaptation of a Greek play, while simultaneously learn about the costume designer’s responsibilities as an artist and collaborator, and explore the relationship between text, historical research, concept, and production. A lab component of this class will introduce the student to costume shop operation and equipment through hands-on making. The course is designed to serve all students regardless of prior experience in theater production. Fulfills a general requirement for all theater majors and minors. Humanities. 1 credit. Fall 2019. Murphy. Fall 2020. Murphy.

THEA 004D. Integrated Media Design for Live Performance
The purpose of this course is to introduce students to the application of various visual and audio technologies in live theater and dance performance. Discussion of the historical and theoretical context of contemporary mixed-media performance will be combined with an orientation to the available technologies found at Swarthmore and beyond. The class will include the conceptualization and preparation of a series of individual studio projects. The course is designed to serve all students regardless of prior experience in theater production. Fulfills a general requirement for all theater majors and minors. Humanities. 1 credit. Fall 2019. Webb. Spring 2020. Swanson. Spring 2021. Swanson.

THEA 004E. Sound Design
This course will provide an introduction to sound design concepts for live performance. Course work will emphasize research, design development, collaboration, and the creative process. Laboratory work will focus on basic audio engineering, software, field recording, and documentation in a theatrical context. The course is designed to serve all students regardless of prior experience in theater production. Fulfills a general requirement for all theater majors and minors. Humanities. 1 credit. Fall 2019. Webb. Spring 2020. Atkinson. Spring 2021. Atkinson.

THEA 005. Opera Production Workshop (Cross-listed as MUSI 024)
Opera is a collaborative art form, involving composing, writing, performing, stage directing, choreography and design. In this workshop-based class, students will gain a basic understanding of opera as an art form and experience all aspects of the rehearsal and production process. The class culminates in the performance of an original opera written, directed, and performed by faculty and students. Humanities. 1 credit. Fall 2019. Stevens.

THEA 005A. Special Project in Interdisciplinary Performance

THEA 006. Playwriting Workshop
This creative workshop course introduces students to essential elements of dramatic writing. In-class writing exercises and weekly assignments lead to the development of character monologues, scenes, and two original one-act plays. A variety of stylistic approaches and thematic concerns are identified through the reading and discussion of plays by contemporary playwrights. Students will explore their individual creative voice, learning how to translate their vision through character, image, and story. Fulfills a general requirement for all theater majors and minors. Humanities. 1 credit. Fall 2019. Shaplin. Spring 2021. Shaplin.

THEA 007. Performing Latinidad: Latinx Theater, Film and Performance Art (Cross-listed as SPAN 057, LITR 057S and LALS 057)
This course will introduce students to Latinx performance in the U.S., from the mid-20th century to today. Students will study different modes of performances such as theater, film, the work of performance artists and everyday performances (such as political events) through various Latinx lenses. Following a critical
Theater

performative pedagogy, the class will combine seminar-style discussions with performance workshops. Topics covered will include the representation and embodiment of gender and race, acts of decolonization, memory construction and diasporic experiences, citizenship and community building, and the politics of latinidad. By analyzing these and other relevant issues through discussions and performance exercises, we will be able to survey the state of contemporary Latinx performance in the U.S. while gaining a better understanding of the connection between performance theory and practice, and the relevance of performance in everyday aesthetics and life.

This course is taught in English.
Prerequisite: No prerequisites required.

Theater

THEA 008. Movement Theater Workshop (Cross-listed as DANC 049)
This class will offer an orientation to movement based acting through various approaches: traditional performance traditions in Bali and elsewhere, commedia dell’arte, the teachings of Jacques Lecoq, and so forth. Taught by Gabriel Quinn Bauriedel of the Pig Iron Theatre Company in Philadelphia. The class will require rehearsal with other students outside of class time and will end with a public showing of work generated by the students. Six hours per week.
Note: Movement Theater Workshop cannot be taken in lieu of THEA 012 by students seeking a major or a minor with an emphasis in acting.
Prerequisite: THEA 002A, any dance course numbered 040-044, or consent of the instructor.

THEA 011B. Special Topic: Tragedy in Contemporary Theater
CLST 027
Tragedy, playwriting, philosophy. Diverse theater artists have been turning to Greek tragedy for inspiration for centuries. This course draws on the original Greek plays, contemporary American screenwriting theory and European philosophy (Nietzsche, Ricoeur) to re-imagine the original tragedies for the contemporary world.

After reading a number of the texts, students will choose one tragedy to translate into contemporary English and for the contemporary theater. The class will end with a staged reading of the work generated. Students will have the opportunity to enroll in a follow-up class in the spring in which this tragedy will be staged by the Department of Theater, also directed by Michał Zadara.

This course is taught in English.
Prerequisite: Open to all students without audition or prerequisite.

THEA 011C. Special Topic: Theater of Intervention: After Shakespeare and Müller
GMST 029
In this course students will read selected texts by William Shakespeare and Heiner Müller, identify relevant contemporary themes and then create their own performances. The goal of the class is for the student to create work without distinctions between writing, acting and directing-the director as performer, the actor as the author of their own expression. This work also seeks to remove any separation between the artist and the citizen, political thinker, and activist. How can theater function as a performative political statement? How can a theater artist intervene in making social change? Readings will include Titus Andronicus, Macbeth, and Hamlet, both Shakespeare’s original versions and Müller’s contemporary adaptations.

This course is taught in English.
Prerequisite: THEA 002A, any dance course numbered 040-044, or consent of the instructor.

Intermediate Courses

THEA 012. Acting II
This course is designed to deepen a student’s comfort and ability with the principles, techniques, and tools of acting developed in Acting I. To do so, the actor will engage in exercises and assignments to evolve their ability to be "present" on stage, to work as an ensemble, to take risks, to work with text, and to fully engage the body and voice in the creative process. In order to do so, students will mostly work on classical theatre texts (Shakespeare and Ancient Greek Theatre) as well as contemporary texts that move beyond realism and feature challenging, heightened language.

Additionally, Guest Artists will visit the class throughout the semester for one-day workshops, introducing students to Commedia dell’Arte, Greek choral performance, and red-nose clown. Actors will be asked to perform frequently in front of the class, at times improvising, and at times using existing text. The course provides an opportunity for students to deepen the practice of the actor by engaging with challenging material that requires a large, risk-taking performance style.

This course is taught in English.
Prerequisite: THEA 002A

THEA 012A. Intermediate Special Project in Acting
By individual arrangement with the acting or directing faculty for performance work in connection with department directing projects, honors thesis projects, or Senior Company. May be taken concurrently with THEA 008 or THEA 012.
Theater

012.
Graded CR/NC.
Prerequisite: THEA 002A, THEA 002C, and THEA 008 or THEA 012 or THEA 022.
0.5 - 1 credit.

THEA 013. Special Project in Theater Practicum
By individual arrangement with the design or directing faculty for production work in connection with department directing workshops, honors thesis productions, Production Ensemble, or Senior Company.
Graded CR/NC.
Prerequisite: Any 004 design class
0.5 - 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

THEA 014. Special Project in Stage Management
By individual arrangement for a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
0.5 or 1 credit.

THEA 014A. Special Project in Set Design
By individual arrangement with instructor for a portfolio project or a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004A.
0.5 or 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

THEA 014B. Special Project in Lighting Design
By individual arrangement with instructor for a portfolio project or a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004B.
0.5 or 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

THEA 014C. Special Project in Costume Design
By individual arrangement with instructor for a portfolio project or a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004C.
0.5 or 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

THEA 015. Performance Theory and Practice
This course covers a series of major texts on performance theory and practice, with emphasis on directing and acting. Assigned readings will focus on theoretical writings by or about the performance work of artists such as Zeami, Stanislavsky, Artaud, Brecht, Grotowski, Mnouchkine, Chaikin, Suzuki, and Robert Wilson as well as selected theoretical and critical texts by nonpractitioners. The course includes units on performance traditions and genres outside of Europe and North America. Weekly video screenings required.
Fulfills a general requirement for all theater majors and minors.
Prerequisite: THEA 001 Humanities.
Writing course.
1 credit.
Eligible for GLBL-Core
Fall 2019. Kuharski.
Fall 2020. Staff.

THEA 014D. Special Project in Integrated Media Design
By individual arrangement with instructor for a portfolio project or a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004D.
0.5 or 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

THEA 014E. Special Project in Sound Design
By individual arrangement with instructor for a portfolio project or a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004E.
0.5 or 1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

THEA 016. Special Project in Playwriting
An independent study in playwriting taken either as a tutorial or in connection with a production project in the department. By individual arrangement between the student and department faculty.
Prerequisite: THEA 006.
Humanities.
1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

THEA 022. Production Ensemble I
This course provides students the opportunity to participate in a professionally directed and designed full-length production engaging in the entire process from first table read to closing performance. Required for all course majors and honors majors in acting, directing, and dramaturgy; also required for course minors in acting, directing and dramaturgy.
Fulfills a general requirement for all theater majors and minors.
Humanities.
1 credit.
Fall 2019. Torra.
Fall 2020. Stevens.

THEA 023. Special Project: Intermediate Theater Practicum
By individual arrangement with the design or directing faculty for production work in connection with department directing workshops, honors thesis productions, Production Ensemble, or Senior Company.
Graded CR/NC.
Prerequisite: Any 004 design class and THEA 013
0.5 - 1 credit.

THEA 024. Special Project: Intermediate Stage Management
By individual arrangement for a production project in connection with department directing workshops, honors thesis projects, Acting III, or Senior Company.
Prerequisite: THEA 004B or THEA 035
0.5 or 1 credit.

THEA 025. Solo Performance
This course serves as both a study and practice of different forms of solo performance including the first-person monologue, multiple-characters played by a single performer, and performance art. Part-survey course, part-performance workshop, students will be asked to intellectually engage with the work of renowned solo performance makers. Additionally, students will create their own work, generating original performance material on a weekly basis, culminating in 3-4 individual solo performance pieces throughout the semester. The work made during the course will explore personal storytelling, music, the body as subject, and the transformative actor. This class is rooted in empowering artists to articulate what matters to them and finding a translation of that into performance.
Fulfills a general requirement for all theater majors and minors.

THEA 034A. Special Project: Intermediate Set Design
By individual arrangement with instructor for a portfolio project or a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004A and THEA 014A.
0.5 or 1 credit.

THEA 034B. Special Project: Intermediate Lighting Design
By individual arrangement with instructor for a portfolio project or a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004B and THEA 014B.
0.5 or 1 credit.

THEA 034C. Special Project: Intermediate Costume Design
By individual arrangement with instructor for a portfolio project or a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004C and THEA 014C.
0.5 or 1 credit.

THEA 034D. Special Project: Intermediate Integrated Media Design
By individual arrangement with instructor for a portfolio project or a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004D and THEA 014D.
0.5 or 1 credit.

THEA 034E. Special Project: Intermediate Sound Design
By individual arrangement for a production project in connection with department directing workshops, Production Ensemble, honors thesis projects, or Senior Company.
Prerequisite: THEA 004E and THEA 014E.
0.5 or 1 credit.

THEA 035. Directing I: Directors' Lab
This course focuses on theater director’s role in a collaborative ensemble and on the ensemble’s relation to the audience. Units cover the director’s work with playscripts, actors, designers, and technicians. The student’s directorial self-definition through this collaborative process is the laboratory’s ultimate concern. Final project consists of an extended scene to be performed as part of a program presented by the class.
Fulfills a general requirement for all theater majors
Theater

and minors.
Prerequisite: THEA 001, THEA 002A
Humanities.
1 credit.
Fall 2019. Kuharski.
Fall 2020. Kuharski.

THEA 042. Production Ensemble II
Available by audition or consent of instructor to
students who have successfully completed THEA
022.
Humanities.
1 credit.
Fall 2019. Torra.
Fall 2020. Stevens.

THEA 045. Special Project: Solo
Performance
An independent study in solo performance by
individual arrangement between the student and
department faculty.
Prerequisite: THEA 025
Humanities.
1 credit.
Fall 2019. Staff.
Spring 2020. Staff.
Fall 2020. Staff.
Spring 2021. Staff.

THEA 061. Intermediate Special Project in
Production Dramaturgy
Production dramaturgy in connection with a
production on or off campus. By individual
arrangement between the student and the
department faculty.
Prerequisite: THEA 001, and THEA 021A.
0.5 or 1 credit.

Advanced Courses

THEA 052. Production Ensemble III
Available by audition or consent of instructor to
students who have successfully completed THEA
022 and THEA 042.
Humanities.
1 credit.
Fall 2019. Torra.
Fall 2020. Stevens.

THEA 053. Special Project: Advanced
Theater Practicum
By individual arrangement with the design or
directing faculty for production work in
connection with department directing workshops,
honors thesis productions, Production Ensemble,
or Senior Company.
Graded CR/NC.
Prerequisite: Any 004 design class, THEA 013,
THEA 023
0.5 - 1 credit.

THEA 054A. Special Project: Advanced Set
Design
By individual arrangement with instructor for a
portfolio project or a production project in
connection with department directing workshops,
Production Ensemble, honors thesis projects, or
Senior Company.
Prerequisite: THEA 004A and THEA 014A and
THEA 034A.
0.5 or 1 credit.

THEA 054B. Special Project: Advanced
Lighting Design
By individual arrangement with instructor for a
portfolio project or a production project in
connection with department directing workshops,
Production Ensemble, honors thesis projects, or
Senior Company.
Prerequisite: THEA 004B and THEA 014B and
THEA 034B.
0.5 or 1 credit.

THEA 054C. Special Project: Advanced
Costume Design
By individual arrangement with instructor for a
portfolio project or a production project in
connection with department directing workshops,
Production Ensemble, honors thesis projects, or
Senior Company.
Prerequisite: THEA 004C and THEA 014C THEA
034C.
0.5 or 1 credit.

THEA 054D. Special Project: Advanced
Integrated Media Design
By individual arrangement with instructor for a
portfolio project or a production project in
connection with department directing workshops,
Production Ensemble, honors thesis projects, or
Senior Company.
Prerequisite: THEA 004D and THEA 014D and
THEA 034D.
0.5 or 1 credit.

THEA 054E. Special Project: Advanced
Sound Design
By individual arrangement with instructor for a
portfolio project or a production project in
connection with department directing workshops,
Production Ensemble, honors thesis projects, or
Senior Company.
Prerequisite: THEA 004E and THEA 014E and
THEA 034E.
0.5 or 1 credit.

THEA 055. Directing II: Advanced Directing
Workshop
Directing II requires students to apply the
exercises from THEA 035. Directing I: Directors’
Lab to a variety of scene assignments. These will
address a variety of theatrical genres and various
approaches to dramatic text (improvisation,
divising, cutting, and/or augmentation of play
scripts, adaptation of nondramatic texts for
performance, etc.). Projects will be presented for
public performance.
Prerequisite: THEA 001, THEA 002A, THEA
015, THEA 035, and any class in design.
Theater

Humanities.
1 credit.

THEA 062. Production Ensemble IV
Available by audition or consent of instructor to
students who have successfully completed THEA
022, THEA 042, and THEA 052.
Humanities.
1 credit.
Fall 2019. Torra.
Fall 2020. Stevens.

THEA 064. Advanced Special Project in
Scenography, Sound, and Technology
A portfolio design or other design project in
connection with a production completed on or off
campus. To be taken concurrently or following
THEA 054A, THEA 054B, THEA 054C, THEA
054D, or THEA 054E. By individual arrangement
between the student and the department faculty.
Prerequisite: Any THEA 004 group, THEA 014
group, and THEA 034 group
0.5 or 1 credit.

THEA 072. Advanced Special Project in
Acting
By individual arrangement with the acting or
directing faculty for performance work in
connection with department directing projects,
honors thesis projects, or Senior Company. With
faculty approval, acting in a production off
campus may qualify for this credit.
Graded CR/NC.
Prerequisite: THEA 002A, THEA 002C, THEA
008 or THEA 012 or THEA 022, THEA 012A.
0.5 - 1 credit.

THEA 074A. Special Project: Senior
Project in Set Design
This course is an independent study in Set design.
This special project will examine the forms and
techniques of design applied in actual production.
By individual arrangement under the mentorship
of the design faculty for work in connection with
department directing workshops, honors thesis productions, Production Ensemble, or Senior Company.
Prerequisite: THEA 004A, THEA 014A, THEA
034A, and THEA 054A.
0.5-1 credit.

THEA 074B. Special Project: Senior
Project in Lighting Design
This course is an independent study in lighting design. This special project will examine the forms and techniques of design applied in actual production. By individual arrangement under the mentorship of the design faculty for work in connection with department directing workshops, honors thesis productions, Production Ensemble, or Senior Company.
Prerequisite: THEA 004B, THEA 014B, THEA
034B, and THEA 054B.
0.5 or 1 credit.

THEA 074C. Special Project: Senior
Project in Costume Design
This course is an independent study in costume design. This special project will examine the forms and techniques of design applied in actual production. By individual arrangement under the mentorship of the design faculty for work in connection with department directing workshops, honors thesis productions, Production Ensemble, or Senior Company.
Prerequisite: THEA 004C, THEA 014C, THEA
034C, and THEA 054C.
0.5 or 1 credit.

THEA 074D. Special Project: Senior
Project in Integrated Media Design
This course is an independent study in integrated media design. This special project will examine the forms and techniques of design applied in actual production. By individual arrangement under the mentorship of the design faculty for work in connection with department directing workshops, honors thesis productions, Production Ensemble, or Senior Company.
Prerequisite: THEA 004D, THEA 014D, THEA
034D, and THEA 054D.
0.5 or 1 credit.

THEA 074E. Special Project: Senior Project in
Sound Design
This course is an independent study in sound design. This special project will examine the forms and techniques of design applied in actual production. By individual arrangement under the mentorship of the design faculty for work in connection with department directing workshops, honors thesis productions, Production Ensemble, or Senior Company.
Prerequisite: THEA 004E, THEA 014E, THEA
034E, and THEA 054E.
0.5 or 1 credit.

THEA 075. Advanced Special Project in
Directing
By individual arrangement with the directing faculty. With faculty approval, directing or assistant directing off campus may qualify for this credit.
Prerequisite: THEA 001, THEA 015 or THEA
021A, THEA 022, THEA 035, THEA 106.

THEA 092. Off-Campus Projects in Theater
Residence at local arts organizations and theaters.
Fields include management, financial and
audience development, community outreach, and
stage and house management.
Prerequisite: appropriate preparation in the major.
Humanities.
1 credit.
THEA 093. Directed Reading
1 credit.

THEA 094. Special Projects in Theater
Humanities.
1 credit.

THEA 099. Senior Company
A workshop course emphasizing issues of collaborative play making across lines of specialization, ensemble development of performance projects, and the collective dynamics of forming the prototype of a theater company. Work with an audience in performance of a single project or a series of projects.
This course is required of all theater majors in their senior year and can not be taken for external examination in the Honors Program. Class members will consult with the instructor during spring semester of their junior year, before registration, to organize and make preparations. Course and honors minors may petition to enroll, provided they have met the prerequisites. Fulfills a general requirement for all theater majors and minors.
Prerequisite: THEA 001, THEA 002A; any course in design; THEA 015; THEA 006, THEA 025, or THEA 035; THEA 022; a 100-level seminar; and the completion of one three-course sequence in theater.
Humanities.
1 credit.
Fall 2019. Swanson.
Fall 2020. Swanson.

Seminars

THEA 102. Acting Capstone
This project will take place during the spring semester and will include a fully realized production of a play performed by the students and directed by the acting faculty.
By arrangement with theater faculty.
Humanities.
2.0
Spring 2021. Torra.

THEA 106. Theater History Seminar
A comparative study of theater history from its origins through the 21st century, along with a critical examination of a given theatrical company as a case study. Emphasis on the coherence of specific performance traditions and periods, significant companies as well as individual artists, the placement of theatrical performance within specific cultural contexts, and their relevance to contemporary theatrical practice. Readings will include, but not be limited to, dramatic texts as one form of artifact of theatrical event. The spring 2015 seminar will focus on the work of Ariane Mnouchkine and the Théâtre du Soleil.
Prerequisite: THEA 015.
Humanities.

THEA 121. Dramaturgy Seminar
What does Joe Orton owe to Terence and Wycherley? How does a "monstre sacré" like Don Juan repeat across the centuries? How does "stage realism" shift over time? In this cross-temporal, cross-cultural bolt through post-classical western drama-four plays a week-emphasis will be placed on works from famous "periods" (Spanish Golden Age, Restoration comedy, French Neo-Classicism, Sturm und Drang, etc.) and on examples of forgotten or usurped genres. Theatrical gauntlets thrown down by Collier, Strindberg, Stein, Lukács, Schiller, Zola, Brustein, Wilson, Shaw, and others, will be studied as well. Fulfills a general requirement for all theater majors and minors.
Prerequisite: By permission of instructor.
Humanities.
Writing course.
2 credits.

THEA 180A. Honors Thesis Preparation in Acting
Credit either for honors attachments to courses or for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 180B. Honors Thesis Preparation in Directing
Credit either for honors attachments to courses or for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 180C. Honors Thesis Preparation in Playwriting
Credit either for honors attachments to courses or for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 180D. Honors Thesis Preparation in Design
Credit either for honors attachments to courses or for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 180E. Honors Thesis Preparation in Dramaturgy
Credit either for honors attachments to courses or for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.
THEA 180F. Honors Thesis Preparation in Solo Performance
Credit either for honors attachments to courses or for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 180G. Honors Thesis Preparation in Performance Theory
Fall and spring semesters. Staff. Credit either for honors attachments to courses or for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 181A. Honors Thesis Production in Acting.
Honors Thesis Project Credit for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 181B. Honors Thesis Production in Directing
Honors Thesis Project Credit for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 181C. Honors Thesis Production in Playwriting
Honors Thesis Project Credit for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 181D. Honors Thesis Production in Design
Honors Thesis Project Credit for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 181E. Honors Thesis Production in Dramaturgy
Honors Thesis Project Credit for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 181F. Honors Thesis Production in Solo Performance
Honors Thesis Project Credit for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.

THEA 181G. Honors Thesis Production in Performance Theory
Honors Thesis Project Credit for honors thesis projects in directing, design, acting, and so on. By arrangement with the student’s faculty advisor in theater.
Directions to Swarthmore College

Swarthmore College is located 11 miles southwest of the city of Philadelphia in the Borough of Swarthmore, Pennsylvania. The College is just a 30 minute drive from Philadelphia. New York and Washington, D.C. are each about two hours away.

DRIVING

From the NORTH (New Jersey Turnpike or I-95)
Take the New Jersey Turnpike to Exit 6 (I-276 West/Pennsylvania Turnpike). Follow I-276 West to Exit 20 (I-476 South, toward Philadelphia/Chester). Take I-476 South to Exit 3, Media/Swarthmore. At the bottom of the exit ramp turn left onto Baltimore Pike. (Directions continue below.)

From the SOUTH (I-95)
Follow I-95 North to Pennsylvania Exit 7 (I-476 North/Plymouth Meeting). Take I-476 to Exit 3 (Media/Swarthmore). At the bottom of the exit ramp turn right onto Baltimore Pike. (Directions continue below.)

From the EAST (via the Pennsylvania Turnpike)
From Exit 333 (Norristown), follow signs for I-476 South. Stay on I-476 approximately 17 miles to Exit 3 (Media/Swarthmore). At the bottom of the exit ramp turn left onto Baltimore Pike. (Directions continue below.)

From the WEST (via the Pennsylvania Turnpike)
From Exit 326 (Valley Forge), Take I-76 East (Schuylkill Expressway), about 4 miles to I-476 South. Take I-476 approximately 12 miles to Exit 3 (Media/Swarthmore). At the bottom of the exit ramp turn left onto Baltimore Pike. (Directions continue below.)

From the AIRPORT
Take I-95 South. Continue to Exit 7 (I-476 North/Plymouth Meeting). Take I-476 North to Exit 3 (Media/Swarthmore). At the bottom of the exit ramp turn right onto Baltimore Pike. (Directions continue below.)

Continue to Benjamin West Visitor Parking and the Visitor Information Center
Stay in the right lane on Baltimore Pike, and in less than 1/4 mile turn right onto PA Route 320 South. At the next traffic light turn right to stay on Route 320/Chester Road. Proceed through the traffic light at College Avenue to the first driveway on your right, Benjamin West Parking. The Benjamin West House is the College's Visitor Information Center; it is staffed 24 hours a day, and it is a good place to pick up maps and request directions.

TRAIN
The College is readily accessible from Philadelphia by train. Amtrak trains from New York and Washington, D.C. arrive hourly at Philadelphia's 30th Street Station. From 30th Street Station, the SEPTA Media/Elwyn Local takes approximately 23 minutes to reach the Swarthmore station, which is adjacent to campus.

AIR
An express train runs from the Philadelphia International Airport to 30th Street Station, where you can take the SEPTA Media/Elwyn Local train directly to the Swarthmore campus. Taxi service is also available.
