GRANT PROPOSAL COMPUTING CHECKLIST

(1) If your proposal will require the use of network/telecommunications, have you verified that you already have
the necessary ports in the office or lab where you will be installing the equipment? If you need more ports, or
ports in different locations, you should first talk to the Director of Networking and Telecommunications
(currently Mark Dumic) about the costs of additional installations.

___ Not applicable
___ I have made arrangements with Information Technology Services (ITS) already.
___ I have not yet made arrangements with ITS, but will do so before the submission of the proposal.

(2) If your proposal involves the delivery of audio-visual materials over the network, such as digital sound or
movies, or if your proposal involves the publication on College servers of Web materials that may be of
substantial popular appeal, have you discussed your plans with the Director of Enterprise Services (currently
Glenn Stauffer) to make sure current servers and network bandwidth are able to accommodate your needs?

___ Not applicable
___ I have made arrangements with ITS already.
___ I have not yet made arrangements with ITS, but will do so before the submission of the proposal.

(3) If your proposal will require that software packages not currently available on campus be distributed to
faculty/staff/students or on public area/classroom computers, have you discussed these plans with ITS?

___ Not applicable
___ I have made arrangements with ITS already.
___ I have not yet made arrangements with ITS, but will do so before the submission of the proposal.

(4) New desktop or laptop computer equipment purchased with grant funding is not added to the replacement
cycle. If you wish to add equipment to the replacement cycle, you must arrange for the permanent transfer of
roughly one quarter of the replacement cost of a standard model computer. For more information, please
contact the Business Operations Manager (currently Kelly Fitzpatrick).

___ Not applicable
___ I acknowledge that computers bought with this grant will not be included on the replacement cycle.
___ I plan to obtain the necessary funds from this grant or another source to include this equipment on the
replacement cycle.
