

19 November 2008, Wednesday at 4 in Lang seminar room

This week and next are the working week for the recommendations

Spring to implement small plans

Talking about 100% windpower:

What actions can we take for green goodwill?

One of the few actions that can be effective instantly

To what extent is it important to support wind-power for keeping good relations with students?

We must talk over other expensive items.

Moving on to other topics:

Our recommendations need to be tracked next semester.

Important to publish (web?) information that we have learned this year.

Energy Concern

Many computers already being shut-down

Dim lights

Pressure for energy efficient laundry

Occupancy sensors

Next Meeting on Dec. 1
